Title 3—THE PRESIDENT

Executive Order 10896

AMENDMENT OF EXECUTIVE ORDER NO. 6260 OF AUGUST 28, 1933

By virtue of the authority vested in me by section 5(b) of the act of October 6, 1917, as amended, 12 U.S.C. 95a, and in view of the continued existence of the national emergency proclaimed by Proclamation No. 2914 of December 16, 1950, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby confirm Executive Order No. 6260 of August 28, 1933, as amended, and do hereby further amend Executive Order No. 6260 as follows:

1. Section 3 is revoked.

2. The first paragraph of section 5 is amended by deleting the proviso at the end thereof, and by inserting a period in place of the colon after the phrase "this Executive Order" where it appears in such paragraph.

3. Section 7 is revoked.

This amendment of Executive Order No. 6260, as amended, shall not affect any act done, or any right accruing or accrued or any suit or proceeding had or commenced in any civil or criminal cause prior to the effective date of this amendment, and all penalties, forfeitures, and liabilities under Executive Order No. 6260, as heretofore amended, shall continue and may be enforced as if this amendment had not been made. All licenses, orders, rules, or regulations heretofore issued under Executive Order No. 6260, as amended, and now in effect, including the Gold Regulations constituting Part 54 of Title 31 of the Code of Federal Regulations, are hereby approved, ratified, and confirmed and shall continue in full force and effect until amended, modified, or revoked by the Secretary of the Treasury.

This amendment shall become effective upon filing for publication with the Office of the Federal Register.

DWIGHT D. EISENHOWER

THE WHITE HOUSE,
November 29, 1960.

PART 421—GRAINS AND RELATED COMMODITIES

Subpart—Warehouse Approval Standards and Instructions

A new subpart, Warehouse Approval Standards and Instructions, is added to Part 421 to read as follows:

Sec.
421.5551 General statement and administration.
421.5552 Exceptions.
421.5553 Application requirements.
421.5554 Warehouse and operational standards.
421.5555 Inspection of warehouses.
421.5556 Basis for approval or disapproval.
421.5557 Other conditions for disapproval.
421.5558 Bonding requirements.
421.5559 Approval of warehouse and duration of approval.
421.5560 Waiver of requirements.

AUTHORITY: §§ 421.5551 to 421.5560 issued under sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 105, 301, 401, 63 Stat. 1051, as amended; 15 U.S.C. 714c, 7 U.S.C. 1441, 1447, 1421.

§ 421.5551 General statement and administration.

This subpart outlines the procedure to be followed by warehousemen who desire approval of their facilities by Commodity Credit Corporation (hereinafter referred to as "CCC") for the storage and handling of grain, rice, seed, and dry edible beans (hereinafter referred to as "grain") owned by CCC or held by CCC as security for loans and sets out the requirements of CCC for approval of such warehouses. Warehousemen desiring approval of their facilities should communicate with the CSS Commodity Office (hereinafter referred to as "commodity office"), serving the State in which the storage facilities are located. These commodity offices and the States which they serve are:

(a) Dallas CSS Commodity Office, United States Department of Agriculture, 500 South Ervay Street, Dallas 1, Tex.—

Alabama.	New Mexico.
Arkansas.	North Carolina.
Florida.	Oklahoma.
Georgia.	South Carolina.
Louisiana.	Tennessee.
Mississippi.	Texas.

(b) Evanston CSS Commodity Office, United States Department of Agriculture, 2201 Howard Street, Evanston, Ill.—

Connecticut.	New Hampshire.
Delaware.	New Jersey.
Illinois.	New York.
Indiana.	Ohio.
Iowa.	Pennsylvania.
Kentucky.	Rhode Island.
Maine.	Vermont.
Maryland.	Virginia.
Massachusetts.	West Virginia.
Michigan.	

(c) Kansas City CSS Commodity Office, United States Department of Agriculture, P.O. Box 205, Kansas City 41, Mo.—

Colorado.	Nebraska.
Kansas.	Wyoming.
Missouri.	

(d) Minneapolis CSS Commodity Office, United States Department of Agriculture, 6400 France Avenue South, Minneapolis 10, Minn.—

Minnesota.	South Dakota.
Montana.	Wisconsin.
North Dakota.	

(e) Portland CSS Commodity Office, United States Department of Agriculture, 1218 SW. Washington Street, Portland 5, Oreg.—

Alaska.	Nevada.
Arizona.	Oregon.
California.	Utah.
Hawaii.	Washington.
Idaho.	

A warehouse must be approved by a commodity office before such warehouse will be utilized for the storage and handling of grain. The commodity offices will furnish warehousemen with full information as to securing approval of their facilities together with the necessary CCC forms. No commitment or guarantee of occupancy shall be made on behalf of the U.S. Department of Agriculture or CCC regarding the use of any storage facilities before or after a warehouse has been approved for storage and an agreement has been entered into with CCC.

§ 421.5552 Exceptions.

Notwithstanding any other provision hereof:

(a) The provisions of this subpart are not applicable to storage outside of the continental limits of the United States, to the purchase of grain in storage for prompt shipment, or to handling of a temporary nature.

(b) Warehousemen licensed under the United States Warehouse Act will not be required to furnish to CCC performance bonds, financial statements, or credit reports in order to be approved hereunder, and CCC will not inspect their warehouses.

(c) In any case in which a Certificate of Competency is issued by the Small Business Administration with respect to a warehouseman, the certificate will be accepted as establishing conformance by the warehouseman with the standards set out in § 421.5554 (b), (c) (2), (f), (g), and (i), and the warehouseman will not be required to furnish bond coverage for deficiency in net worth or working capital.

§ 421.5553 Application requirements.

In applying for approval of a warehouse for storage and handling of grain, the warehouseman must submit a completed Form CCC-24, Application for Approval of Warehouse (Grain, Rice, Seed, and Dry Edible Beans), a completed Form CCC-24-1, Supplement to Application for Approval of Warehouse (Grain, Rice, Seed, and Dry Edible Beans), a current financial statement (CCC Form 68, Statement Showing Assets and Liabilities, or an acceptable substitute form) and any other documents or information required by the commodity office. When the warehouseman employs the service of a public accountant, the financial statement shall be certified by the public accountant. In connection with an application for a new storage agreement, the financial statement shall cover a period ending not more than sixty days prior to the date of the application. In connection with an application for additional storage under an existing storage agreement, a current financial statement may be required if the commodity office deems it necessary to protect the interests of CCC.

§ 421.5554 Warehouse and operational standards.

CCC will consider applications for approval of warehouses upon the basis of the applicant's conformance with the following standards as determined by the appropriate commodity offices:

(a) The warehouseman must be an individual or an existing legal entity organized in good faith to operate a warehousing business and, if organized in the corporate form must have authority to do a public warehousing business.

(b) The physical plant and equipment must be adequate for the proper handling and safe storage of the commodities.

(c) (1) The warehouse must be under the control of the contracting warehouseman at all times.

(2) The warehouseman or his supervisory employees must have sufficient experience and knowledge of the warehousing business to enable them to give adequate protection and services for the proper storage and handling of the commodity.

(d) Where the State or local law requires licensing to act as a public warehouseman, the license must be made available or posted in the warehouse or a notice that the warehouseman is licensed must have been received by the commodity office from the licensing authority.

(e) The warehouseman and all responsible officers or employees of the warehouseman must have satisfactorily complied with CCC's instructions and with the provisions of all agreements with CCC.

(f) The warehouse must not be subject to undue fire, flood or other hazards.

(g) The warehouse must have adequate equipment for fighting flash fires.

(h) The warehouseman must maintain adequate inventory and operating records.

(i) The warehouseman must have sufficient net worth to assure his financial responsibilities.

(j) The warehouseman must carry surety bonds as specified in § 421.5558.

(k) The warehouseman must apply for approval upon prescribed forms as specified in § 421.5553.

§ 421.5555 Inspection of warehouses.

Each warehouse (except warehouses licensed under the U.S. Warehouse Act) will be inspected by a warehouse examiner prior to the time the warehouse is approved to determine whether the warehouse conforms with the various standards and requirements for approval set out in this subpart. The warehouse examiner will make recommendations to the commodity office regarding the approval or disapproval of the warehouse.

§ 421.5556 Basis for approval or disapproval.

The commodity office will review and analyze the information disclosed by the warehouseman's application, warehouse examiner's report, financial statement, credit reports, recommendations of the warehouse examiner, and other pertinent information available from other sources. If, on the basis of this review and analysis, the commodity office determines that the warehouseman and the warehouse conform with the standards and other requirements set out in this subpart, and if the warehouseman furnishes a performance bond or substitute security in accordance with § 421.5558, the warehouse will be approved. If the commodity office determines that one or more of the standards of § 421.5554 are not met, the applicant may be disapproved or he may be approved if it is determined by the commodity office that the conditions for storage and handling within the facility provide satisfactory protection for grain, that the services of the warehouseman are required by CCC in fulfilling its responsibilities under the grain price support program, and a bond (or substitute security) is furnished in an amount determined by the commodity office to be necessary to protect the interests of CCC, such bond being in an amount at least equal to twice the amount of the bond coverage requirement (other than for deficiency in net worth or working capital) under § 421.5558. In addition, all other requirements of § 421.5558 must be met. The warehouseman shall also furnish any additional bond coverage required under § 421.5558 for deficiency in net worth and working capital.

§ 421.5557 Other conditions for disapproval.

Applications will not be approved in the event that:

(a) A licensed warehouseman is in violation of the regulations of the licensing authority or if any condition which may have resulted in the refusal, suspension or revocation of any warehouse license has not been corrected by the warehouseman to the satisfaction of CCC.

(b) There is substantial evidence of fraudulent or dishonest acts on the part of the warehouseman or any responsible officer or employee of the warehouse.

§ 421.5558 Bonding requirements.

(a) Except as otherwise provided in this subpart, the performance bond to be furnished to CCC by each warehouseman shall be on CCC Form 33, Warehouseman's Bond-Storage Agreement, copies of which may be obtained from the commodity office and shall be executed by surety companies which have been approved by the United States Treasury Department and which maintain an officer or representative authorized to accept service of legal process in the State where the warehouse is located.

(b) The amount of bond coverage to be provided by a warehouseman shall be determined as follows:

(1) Bond coverage for a warehouseman applying for approval of a facility for the storage of grain, who fully conforms with all of the standards and requirements specified in § 421.5554 and who has available sufficient working capital to operate his business, shall be in the amount of 6 percent of the value, as determined annually by the Executive Vice President, CCC, of the commodity usually stored in the greatest quantity in his storage facility, multiplied by the total capacity of such facility: *Provided*, That such bond coverage shall not be less than $5,000 and need not be more than $200,000. In addition, if the commodity office determines that the net worth of the warehouseman is not equal to at least 4 percent of the value, as determined annually by the Executive Vice President, CCC, of the commodity usually stored in greatest quantity in his facility, multiplied by the total capacity of such facility, or if it appears that the warehouseman will not have available sufficient working capital to operate his business, any such deficiency in net worth or in working capital must be compensated by additional bond coverage equal to the amount of such deficiency. The value per bushel to be used in computations under this paragraph may be obtained from the commodity office.

(2) Bond coverage for a warehouseman applying for approval of a facility solely for handling only operations and fully conforming to all applicable standards in § 421.5554, shall be $5,000.

(3) Nothwithstanding the foregoing provisions of this paragraph, if in the light of all the circumstances regarding operation of the warehouse, the commodity office determines that the amount of bond coverage required under this subpart is not sufficient properly to protect the interests of CCC, it may require such additional bond coverage as it deems necessary for such purpose.

(c) In the case of a warehouseman applying for approval of more than one facility in the same State, all such facilities in that State shall be considered as one facility for the purpose of determining bond requirement.

(d) State warehouse bond, cash, negotiable securities, and legal liability insurance policies may be substituted for bonds on CCC Form 33 on the following conditions:

(1) A State warehouse bond furnished by a warehouseman licensed under State laws and State supervision or under the regulations of nongovernmental supervisory agencies will be accepted by CCC in lieu of the equivalent amount of bond coverage required under this subpart if CCC determines that it affords sufficient protection to depositors to warrant such substitution. Such bond must be executed by satisfactory corporate sureties and must either be noncancelable for a definite period or include a rider providing for 90 days' notice to CCC prior to cancellation. In case the warehouseman has more than one facility in the same State and has State warehouse bonds covering such facilities which are determined to be acceptable to CCC, the excess coverage on one facility may not be applied against insufficient bond coverage on another facility.

(2) Cash or negotiable securities will be accepted in lieu of the equivalent amount of required bond coverage. The commodity office will determine the acceptability of and valuation to be placed on any such securities in substitution for bond coverage. When the period for which the bond was required has ended and the commodity office determines that all liability under the agreement has terminated, the cash or securities will be returned to the warehouseman.

(3) Warehouseman's legal liability insurance policies will be accepted in lieu of the equivalent amount of required bond coverage if it is determined by CCC that such policies provide protection at least equivalent to that provided by the performance bond for which substitution is being made.

§ 421.5559 Approval of warehouse and duration of approval.

(a) When a warehouse has been approved, it shall be eligible for an agreement with CCC and a notice of approval will be forwarded to the warehouseman. Upon approval of a warehouse and execution of an agreement with CCC, the warehouse will be eligible to store and handle CCC-owned grain and grain under CCC's loan and purchase agreement programs.

(b) Approval of the warehouse will remain in effect until suspended or terminated. The financial condition of and the amount of bond, or substitute security furnished by approved warehousemen, will be reviewed from time to time to determine that the requirements of CCC are being met and the warehouseman shall furnish any additional bond coverage or substitute security which CCC may determine to be required under the provisions of this subpart. The warehouse will be re-examined from time to time to determine its continued acceptability. If CCC at any time determines that a warehouseman or his warehouse facility do not conform with the standards and other requirements set out in this subpart, CCC shall suspend or terminate approval of the warehouse for price support purposes and take such other appropriate action as may be necessary to protect the interests of CCC and producers.

§ 421.5560 Waiver of requirements.

In the event warehousing services required in fulfilling responsibilities under CCC programs cannot be secured under the provisions of this subpart and no reasonable and economical alternative is available, CCC may exempt the applicant from one or more of the provisions of this subpart and may establish other requirements in lieu thereof as determined necessary to safeguard the interests of CCC.

Issued this 25th day of November 1960.

CLARENCE D. PALMBY,
Acting Executive Vice President,
Commodity Credit Corporation.

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 2—FILLING COMPETITIVE POSITIONS

Appointments

1. Paragraph (d) of § 2.308 is amended as set out below:

§ 2.308 Overseas limited appointment.

* * * * *

(d) *Duration of appointment.* Appointments under this section shall be of indefinite duration except that under the conditions and circumstances prescribed by the Commission in the Federal Personnel Manual appointments may be limited to periods not in excess of one year to meet administrative needs for temporary employment. Appointments, when made for periods of one year or less, may be extended under conditions specified by the Commission in the Federal Personnel Manual.

2. Paragraph (d) of § 2.309 is amended as follows:

§ 2.309 Noncompetitive appointment of former employees of Canal Zone Merit System.

* * * * *

(d) *Tenure of appointment.* (1) Persons appointed under this section without time limitation shall be given career appointments if they completed the service requirement for career appointment under the Canal Zone Merit System; otherwise, they shall be given career-conditional appointments, which are automatically converted to career appointments upon completion of three (3) years of creditable service in accordance with the provisions of § 2.301(a)(2).

(2) Persons given temporary limited appointment under this section have tenure only as temporary employees.

(R.S. 1753, sec. 2, 22 Stat. 403, as amended; 5 U.S.C. 631, 633)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] MARY V. WENZEL,
Executive Assistant to
the Commissioners.

[F.R. Doc. 60-11138; Filed, Nov. 30, 1960; 8:45 a.m.]

Title 7—AGRICULTURE

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

SUBCHAPTER F—DETERMINATION OF NORMAL YIELDS AND ELIGIBILITY FOR ABANDONMENT AND CROP DEFICIENCY PAYMENTS

[Sugar Determination 845.2, Amdt. 3]

PART 845—MAINLAND CANE SUGAR AREA

1959 and Subsequent Crops

Pursuant to the provisions of section 303 of the Sugar Act of 1948, as amended, paragraph (c) of § 845.2 (23 F.R. 9255, 24 F.R. 5363, 9706) is hereby amended in two particulars, as follows:

1. The last sentence of subparagraph (2) is amended to read as follows: "In Florida, the ASC Glades County Committee shall make this determination of yields on the basis of the local producing area."

2. Under subparagraph (4) *Local producing areas*, a new subdivision (iv) is added at the end thereof to read as follows:

(iv) *1959 crop.* For purposes of considering eligibility of farms for abandonment and crop deficiency payments on 1959-crop sugarcane, the local ASC parish committees in Louisiana and the ASC Glades County Committee in Florida have determined that the extent of crop damage as specified and provided in subparagraph (1) (iii) of this paragraph has occurred in the following parishes and local producing areas:

LOUISIANA

Parishes approved in their entirety

Ascension.	St. James.
Assumption.	St. John.
Avoyelles.	St. Martin.
Iberia.	St. Mary.
Iberville.	Terrebonne.
Lafayette.	Vermilion.
Lafourche.	West Baton Rouge.
Pointe Coupee.	

FLORIDA

None.

STATEMENT OF BASES AND CONSIDERATIONS

In considering eligibility of sugarcane farms in Florida for acreage abandonment and crop deficiency payments, consideration must be given to the yields of crops during a stated base period in the local producing area, comprising the entire State. This amendment specifies that such consideration shall be given by the ASC Glades County Committee.

The amendment also provides public notice of the parishes and local producing areas in Louisiana and Florida where due to drought, flood, storm, freeze, disease or insects, the 1959 sugarcane crop has been damaged to the extent that farms located in whole or in part therein will be considered (as to location) for abandonment or deficiency payments. Producers on these farms who have not filed applications for Sugar Act payments with respect to acreage abandonment or crop deficiencies for which they may otherwise be eligible should apply for such payments before June 30, 1961, as provided in 7 CFR 855.5 (22 F.R. 8112).

Accordingly, I hereby find and conclude that the aforestated amendment will effectuate the applicable provisions of the Sugar Act of 1948, as amended.

(Sec. 403, 61 Stat. 932; 7 U.S.C. 1153. Interprets or applies secs. 301, 302, 61 Stat. 929, 930, as amended; 7 U.S.C. 1131, 1132)

Issued this 28th day of November 1960.

MARVIN L. MCLAIN,
Acting Secretary of Agriculture.

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 59-WA-359]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Modification; Change of Effective Date

On July 8, 1960, there was published in the FEDERAL REGISTER (25 F.R. 6417) an amendment to § 600.6252 of the regulations of the Administrator. This amendment to be effective January 12, 1961, modified VOR Federal airway No. 252 between Huguenot, N.Y., and Bingham-

ton, New York, concurrently with the commissioning of a VOR near Hancock, N.Y.

The commissioning date of the Hancock VOR has been rescheduled. Therefore, it is necessary to postpone the effective date of the above-mentioned amendment until April 6, 1961.

Since thirty days will elapse from the time of publication of the rule as initially adopted to this new effective date, this change is made in compliance with section 4 of the Administrative Procedure Act.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), effective immediately, Airspace Docket No. 59–WA–359 is hereby modified as follows: "effective 0001 e.s.t. January 12, 1961." is deleted and "effective 0001 e.s.t. April 6, 1961." is substituted therefor.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 25, 1960.

GEORGE S. CASSADY,
Brig. Gen., U.S. Air Force, Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–11175; Filed, Nov. 30, 1960; 8:50 a.m.]

[Airspace Docket No. 59–WA–354]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Modification; Change of Effective Date

On July 8, 1960, there was published in the FEDERAL REGISTER (25 F.R. 6416) an amendment to § 600.6153 of the regulations of the Administrator. This amendment, to be effective January 12, 1961, modified VOR Federal airway No. 153 between Wilkes-Barre, Pa., and Syracuse, N.Y., concurrently with the commissioning of a VOR near Georgetown, N.Y.

The commissioning date of the Georgetown VOR has been rescheduled. Therefore, it is necessary to postpone the effective date of the above-mentioned amendment until April 6, 1961.

Since thirty days will elapse from the time of publication of the rule as initially adopted to this new effective date, this change is made in compliance with section 4 of the Administrative Procedure Act.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), effective immediately, Airspace Docket No. 59–WA–354 is hereby modified as follows: "effective 0001 e.s.t January 12, 1961." is deleted and "effective 0001 e.s.t. April 6, 1961." is substituted therefor.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C. on November 25, 1960.

GEORGE S. CASSADY,
Brig. Gen., U.S. Air Force, Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–11176; Filed Nov. 30, 1960; 8:50 a.m.]

[Airspace Docket No. 59–WA–357]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Modification; Change of Effective Date

On July 8, 1960, there was published in the FEDERAL REGISTER (25 F.R. 6416) an amendment to § 600.6149 of the regulations of the Administrator. This amendment, to be effective January 12, 1961, modified VOR Federal airway No. 149 between Binghamton, N.Y., and Utica, N.Y., concurrently with the commissioning of a VOR near Georgetown, N.Y. Subsequently, a correction to this amendment was published in the FEDERAL REGISTER (25 F.R. 8051) on August 20, 1960.

The commissioning date of the Georgetown VOR has been rescheduled. Therefore, it is necessary to postpone the effective date of the above-mentioned amendment until April 6, 1961.

Since thirty days will elapse from the time of publication of the rule as initially adopted to this new effective date, this change is made in compliance with section 4 of the Administrative Procedure Act.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), effective immediately, Airspace Docket No. 59–WA–357 is hereby modified as follows: "effective 0001 e.s.t. January 12, 1961." is deleted and "effective 0001 e.s.t. April 6, 1961." is substituted therefor.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 25, 1960.

GEORGE S. CASSADY,
Brig. Gen., U.S. Air Force, Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–11177; Filed, Nov. 30, 1960; 8:50 a.m.]

[Airspace Docket No. 59–WA–75]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Modification; Change of Effective Date

On March 19, 1960, there was published in the FEDERAL REGISTER (25 F.R. 2360) an amendment to § 600.6139 of the regulations of the Administrator. This amendment to be effective January 12, 1961, modified VOR Federal Airway No. 139 from Providence, R.I., to Boston, Mass., concurrently with the commissioning of a VOR near Whitman, Mass.

The commissioning date of the Whitman VOR has been rescheduled. Therefore, it is necessary to postpone the effective date of the above-mentioned amendment until September 21, 1961.

Since thirty days will elapse from the time of publication of the rule as initially adopted to this new effective date, this change is made in compliance with section 4 of the Administrative Procedure Act.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), effective immediately, Airspace Docket No. 59–WA–75 is hereby modified as follows: "effective 0001 e.s.t. January 12, 1961." is deleted and "effective 0001 e.s.t. September 21, 1961." is substituted therefor.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 25, 1960.

GEORGE S. CASSADY,
Brig. Gen., U.S. Air Force, Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–11180; Filed, Nov. 30, 1960; 8:51 a.m.]

[Airspace Docket No. 59–WA–358]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Modification; Change of Effective Date

On July 8, 1960, there was published in the FEDERAL REGISTER (25 F.R. 6416) an amendment to § 600.6034 of the regulations of the Administrator. This amendment, to be effective January 12, 1961, modified VOR Federal airway No. 34 between Ithaca, N.Y., and Wilton, Conn., concurrently with the commissioning of a VOR near Hancock, N.Y.

The commissioning date of the Hancock VOR has been rescheduled. Therefore, it is necessary to postpone the effective date of the above-mentioned amendment until April 6, 1961.

Since thirty days will elapse from the time of publication of the rule as initially adopted to this new effective date, this change is made in compliance with section 4 of the Administrative Procedure Act.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), effective immediately, Airspace Docket No. 59–WA–358 is hereby modified as follows: "effective 0001 e.s.t. January 12, 1961." is deleted and "effective 0001 e.s.t. April 6, 1961." is substituted therefor.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 25, 1960.

GEORGE S. CASSADY,
Brig. Gen., U.S. Air Force, Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–11181; Filed, Nov. 30, 1960; 8:51 a.m.]

[Airspace Docket No. 59–WA–353]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Modification; Change of Effective Date

On July 28, 1960, there were published in the FEDERAL REGISTER (25 F.R. 7147) amendments to §§ 600.6002, 600.6014, 600.6031, and 600.6084 of the regulations of the Administrator. These amendments, to be effective January 12, 1961, modified VOR Federal airways Nos. 14, 31, and 84 between Buffalo, N.Y., and Albany, N.Y.; between Elmira, N.Y., and Rochester, N.Y. and between Geneseo, N.Y., and Syracuse, N.Y., respectively,

and revoked Victor 2 south alternate between Syracuse and Albany concurrently with the commissioning of a VOR near Georgetown, N.Y.

The commissioning date of the Georgetown VOR has been rescheduled. Therefore, it is necessary to postpone the effective date of the above-mentioned amendments until April 6, 1961.

Since thirty days will elapse from the time of publication of the rule as initially adopted to this new effective date, this change is made in compliance with section 4 of the Administrative Procedure Act.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), effective immediately, Airspace Docket No. 59–WA–353 is hereby modified as follows: "effective 0001 e.s.t. January 12, 1961." is deleted and "effective 0001 e.s.t. April 6, 1961." is substituted therefor.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 25, 1960.

GEORGE S. CASSADY,
Brig. Gen., U.S. Air Force, Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–11183; Filed, Nov. 30, 1960; 8:51 a.m.]

[Airspace Docket No, 59–WA–355]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Modification; Change of Effective Date

On July 8, 1960, there were published in the FEDERAL REGISTER (25 F.R. 6418) amendments to §§ 600.6273 and 601.6273 of the regulations of the Administrator. These amendments, to be effective January 12, 1961, modified and extended VOR Federal airway No. 273 and its associated control areas by designating it from the Huguenot, N.Y., VOR via a VOR to be commissioned near Hancock, N.Y., and a VOR to be commissioned near Georgetown, N.Y., to the Syracuse, N.Y., VOR concurrently with the commissioning of these two new VORs.

The commissioning date of the Hancock and Georgetown VORs has been rescheduled. Therefore, it is necessary to postpone the effective date of the above-mentioned amendments until April 6, 1961.

Since thirty days will elapse from the time of publication of the rule as initially adopted to this new effective date, this change is made in compliance with section 4 of the Administrative Procedure Act.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), effective immediately, Airspace Docket No. 59–WA–355 is hereby modified as follows: "effective 0001 e.s.t. January 12, 1961." is deleted and "effective 0001 e.s.t. April 6, 1961." is substituted therefor.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 25, 1960.

GEORGE S. CASSADY,
Brig. Gen., U.S. Air Force, Acting Director, Bureau of Air Traffic Management.

[Airspace Docket No. 59–NY–58]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Modification; Change of Effective Date

On July 8, 1960, there were published in the FEDERAL REGISTER (25 F.R. 6417) amendments to §§ 600.6016, 600.6044, 600.6238, 601.6044, 601.6238 and 601.7001 of the regulations of the Administrator. These amendments, to be effective March 9, 1961, modified the following VOR Federal airways: Victor 16 between Kenton, Del., and Coyle, N.J.; Victor 44 between Price, Md., and Barnegat, N.J.; Victor 238 between Woodstown, N.J., and Pomona, N.J. In addition, the Millville, N.Y., and Barnegat, N.J., VOR's and the Leesburg, N.J., Intersection were designated as Domestic VOR reporting points. These actions were to be effective concurrently with the commissioning of a VOR near Barnegat, N.J.

The commissioning date of the Barnegat VOR has been rescheduled. Therefore, it is necessary to postpone the effective date of the above-mentioned amendments until June 1, 1961.

Since thirty days will elapse from the time of publication of the rule as initially adopted to this new effective date, this change is made in compliance with section 4 of the Administrative Procedure Act.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), effective immediately, Airspace Docket No. 59–NY–58 is hereby modified as follows: "effective 0001 e.s.t. March 9, 1961." is deleted and "effective 0001 e.s.t. June 1, 1961." is substituted therefor.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 25, 1960.

GEORGE S. CASSADY,
Brig. Gen., U.S. Air Force, Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–11179; Filed, Nov. 30, 1960; 8:51 a.m.]

[Airspace Docket No. 59–KC–2]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Modification; Change of Effective Date

On February 2, 1960, there were published in the FEDERAL REGISTER (25 F.R. 857) amendments to §§ 600.6300 and 601.6300 of the regulations of the Administrator. These amendments, originally scheduled to be effective June 30, 1960, extended VOR Federal airway No. 300 and its associated control areas from Sault Ste. Marie, Mich., to Lakehead, Ont., concurrently with the commissioning of a VOR near Whitefish, Mich. The commissioning date of the Whitefish VOR was subsequently rescheduled to January 12, 1961 and Victor 300 was extended from Sherbrooke, Que., to Millinocket, Me. These changes were published in the FEDERAL REGISTER on June 7, 1960 (25 F.R. 4985).

The commissioning date of the Whitefish VOR has again been rescheduled. Therefore, it is necessary to postpone the effective date of the above-mentioned amendments until March 9, 1961.

Since thirty days will elapse from the time of publication of the rule as initially adopted to this new effective date, this change is made in compliance with section 4 of the Administrative Procedure Act.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), effective immediately, Airspace Docket No. 59–KC–2 is hereby modified as follows: "effective 0001 e.s.t. January 12, 1961." is deleted and "effective 0001 e.s.t. March 9, 1961." is substituted therefor.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 25, 1960.

GEORGE S. CASSADY,
Brig. Gen., U.S. Air Force, Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–11182; Filed, Nov. 30, 1960; 8:51 a.m.]

[Airspace Docket No. 60–WA–131]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Modification of Control Area Extension

On August 20, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 8055) stating that the Federal Aviation Agency was

considering an amendment to § 601.1070 of the regulations of the Administrator which would enlarge the Charlottesville, Va., control area extension.

As stated in the notice, the Charlottesville control area extension is designated as the airspace bounded on the northwest by VOR Federal airway No. 140, on the northeast by VOR Federal airway No. 156, and on the south by VOR Federal airway No. 16. The Federal Aviation Agency is enlarging this extension to include the airspace northeast of the Charlottesville-Albemarle Airport bounded on the northwest by VOR Federal airway No. 140, on the east by VOR Federal airway No. 39, and on the southwest by VOR Federal airway No. 156. This modification would provide protection to aircraft, operating under IFR conditions, arriving and departing the Charlottesville-Albemarle Airport.

The Aircraft Owners and Pilots Association submitted an objection to the establishment of a control area extension at Charlottesville for the stated purpose to "provide protection to aircraft operating under IFR conditions when arriving and departing the Charlottesville-Albemarle Airport". The AOPA stated that it found no approved instrument approach for this airfield and no indication that weather service or communication facilities are available.

Piedmont Airlines is authorized to conduct instrument operations into and out of the Charlottesville-Albermarle Airport. Although communications and weather reporting facilities are not prerequisites for the establishment of control area extensions, communication capabilities do exist and weather reporting is available by airline personnel. Therefore, the AOPA objections are not considered valid.

No other adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, § 601.1070 (14 CFR 601.1070) is amended to read:

§ 601.1070 Control area extension (Charlottesville, Va.).

The airspace bounded on the NW by VOR Federal airway No. 140, on the E by VOR Federal airway No. 39, and on the S by VOR Federal airway No. 16 N alternate.

This amendment shall become effective 0001 e.s.t. February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 25, 1960.

GEORGE S. CASSADY,
Brig. Gen., U.S. Air Force, Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11174; Filed, Nov. 30, 1960; 8:50 a.m.]

[Airspace Docket No. 60-WA-193]

PART 602—ESTABLISHMENT OF CODED JET ROUTES AND NAVIGATIONAL AIDS IN THE CONTINENTAL CONTROL AREA

Modification and Revocation of Coded Jet Routes

On September 2, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 8493) stating that the Federal Aviation Agency proposed to modify VOR/VORTAC jet routes J-22-V, J-29-V and J-25-V and revoke the segment of J-23-V between Brownsville, Tex., and San Antonio, Tex.

Subsequent to publication of the notice it has been determined that a minor correction in the alignment of these routes is necessary so that the routes will intersect at a common point near Alice, Texas. Therefore, the following changes are incorporated herein, as follows:

1. J-22-V, the Laredo, Tex., radial is changed from 084° True to 086° True.

2. J-29-V, the Brownsville, Tex., radial is changed from 338° True to 337° True.

3. J-25-V, the Brownsville radial is changed from 338° True to 337° True.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated herein and in the notice, the following actions are taken:

1. In the text of § 602.522 (14 CFR 602.522) "From the Laredo, Tex., VOR via the Alice, Tex., VOR; Palacios, Tex., VOR;" is deleted and "From the Laredo, Tex., VORTAC via the INT of the Laredo VORTAC 086° True and the Palacios VOR 234° True radials; Palacios, Tex., VOR;" is substituted therefor.

2. Section 602.529 (14 CFR 602.529) is amended as follows:

(a) In the caption "*(Alice, Tex., to Presque Isle, Maine)*" is deleted and "*(Brownsville, Tex., to Presque Isle, Maine)*" is substituted therefor.

(b) In the text "From the Alice, Tex., VOR via the Palacios, Tex., VOR;" is deleted and "From the Brownsville, Tex., VORTAC via the INT of the Brownsville VORTAC 337° True and the Palacios VOR 234° True radials; Palacios, Tex., VOR;" is substituted therefor.

3. Section 602.525 (25 F.R. 7098) is amended as follows:

(a) In the caption "*(San Antonio, Tex., to Minneapolis, Minn.)*" is deleted and "*(Brownsville, Tex., to Minneapolis, Minn.)*" is substituted therefor.

(b) In the text "From the San Antonio, Tex., VORTAC via the Austin, Tex., VORTAC;" is deleted and "From the Brownsville, Tex., VORTAC via the INT of the Brownsville VORTAC 337° True and the San Antonio VORTAC 172° True radials; San Antonio, Tex., VORTAC; Austin, Tex., VORTAC;" is substituted therefor.

4. Section 602.523 (14 CFR 602.523, 25 F.R. 1094) is amended as follows:

(a) In the caption "*(Brownsville, Tex., to Cheyenne, Wyo.)*" is deleted and "*(San Antonio, Tex., to Cheyenne, Wyo.)*" is substituted therefor.

(b) In the text "From the Brownsville, Tex., VOR via the Alice, Tex., VOR; San Antonio, Tex., VOR;" is deleted and "From the San Antonio, Tex., VORTAC via the" is substituted therefor.

These amendments shall become effective 0001 e.s.t. January 12, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 25, 1960.

GEORGE S. CASSADY,
Brig. Gen., U.S. Air Force, Acting Director, Bureau of Air Traffic Management.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER A—GENERAL

PART 8—COLOR ADDITIVES

FD&C Red No. 1

Correction

In F.R. Doc. 60-11062, appearing at page 11214 of the issue for Saturday, November 26, 1960, the word "thereby" in the last paragraph of item No. 1 should read "hereby".

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Tolerances for Residues of DDT In or On Sweet Corn and Statement of Policy and Interpretation Regarding Residues In or On Corn Forage, Corn Fodder, Corn Silage, Corn Stover, or Sweet Corn Cannery Waste

A proposal was published in the FEDERAL REGISTER of April 18, 1958 (23 F.R. 2574) to change the tolerance for DDT on sweet corn from 7 parts per million, based on the whole ear as marketed, to 3½ parts per million in or on sweet corn (kernels plus cob with husks removed). This change was based on a showing that in some sweet-corn growing areas only early season application of DDT is required to control corn-borer infestation. In other areas many additional applications are required later in the growing season to control ear worm infestations. High residues result on the husks and forage from sweet corn from late-season application of DDT, but in all cases residues of DDT on the kernels plus cob should be within 3.5 parts per million.

No objection was received following the publication of the proposal concerning the change in the tolerances for DDT on the fresh vegetable sweet corn to 3½ parts per million, with the specification that residues would be determined on kernels plus cob after removing any husk present on the corn as marketed.

It was also proposed that a tolerance of zero be established for residues of DDT in or on husks and forage from sweet corn. Objections were received to the proposed zero tolerance on sweet corn husks and forage. In these objections it was pointed out that sweet corn cannery waste bearing low residues of DDT from only early season applications was suitable for feed for meat animals.

The National Canners Association in their objections proposed a tolerance of 5 parts per million for DDT in or on sweet corn cannery husks and cob ensilage to be used for feed for meat animals up to 60 days prior to slaughter. They stated that if such restrictions were observed the tolerance of 7 parts per million for DDT in the fat of meat of cattle, hogs, and sheep would not be exceeded at the time of slaughter. The association submitted data in support of these statements and included data intended to show that DDT residues on sweet corn cannery waste from sweet corn receiving only early season DDT application will be unlikely to exceed 5 parts per million.

Review of the data submitted by the National Canners Association and other available data indicates that much sweet corn cannery waste and other sweet corn forage bearing DDT residues not exceeding 5 parts per million are available. However, the data also show that husks and forage from sweet corn that received more than two early applications for first generation corn borer control will usually exceed 5 parts per million.

It is generally recognized that forage from DDT-treated sweet corn cannot be fed to dairy animals under any circumstances without transmission of DDT from feed to the milk. A statement regarding the limitations on the use of corn forage and sweet corn cannery waste from corn treated with DDT for livestock feed is being concurrently published in this order under § 120.147a.

The Commissioner of Food and Drugs, on the basis of the facts outlined above and other available data, has concluded that a change in the tolerance for DDT in or on the fresh vegetable sweet corn should be made as proposed, but that no tolerance should be established for DDT in sweet corn husks, forage, or sweet corn cannery waste. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (b), (e), 68 Stat. 511, 514; 21 U.S.C. 346a (b), (e)) and under the authority delegated to him by the Secretary of Health, Education, and Welfare: *It is ordered*, That the regulations for tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR 1958 Supp., 120.101, 120.147) be amended as set forth below:

§ 120.1 [Amendment]

1. In § 120.101 *Specific tolerances for pesticide residues in or on fresh fruits and vegetables, paragraph* (e)(43) is amended by deleting the line "DDT------ 7 p.p.m."

2. Section 120.147 is changed to read as follows:

§ 120.147 Tolerances for residues of DDT.

Tolerances for residues of DDT (a mixture of 1,1,1-trichloro-2,2-bis(*p*-chlorophenyl) ethane and 1,1,1-trichloro-2-(*o*-chlorophenyl)-2-(*p*-chlorophenyl) ethane) are established in or on raw agricultural commodities, as follows:

(a) 7 parts per million in the fat of meat from cattle, hogs, and sheep and in or on sweetpotatoes (from postharvest use).

(b) 3.5 parts per million in or on the fresh vegetable sweet corn (determined on kernels plus cob after removing any husk present when marketed).

3. Part 120 is amended by adding thereto the following new section:

§ 120.147a DDT residues in corn forage, corn fodder, corn silage, corn stover, and sweet corn cannery waste; statement of policy and interpretation.

(a) Section 121.101(b)(43) of this chapter, promulgated on March 11, 1955, permitted a tolerance of 7 parts per million for residues of DDT in or on the fresh vegetable sweet corn. Because of a showing of the unsuitability of the tolerance level based on sweet corn as marketed, § 120.147(b) of this chapter now provides a tolerance of 3.5 parts per million of DDT in or on the fresh vegetable sweet corn (determined on kernels plus cob after removing any husk present when marketed). Residue studies have indicated that the application of DDT in any manner to the feed of dairy cows or to the dairy cows themselves results in residues of DDT in milk. No tolerance has been established to permit any residues of DDT in milk. Corn forage, corn fodder, corn silage, corn stover, or sweet corn cannery waste containing any amount of DDT is unsuitable as a feed for dairy cows and should not be represented, sold, or used for that purpose.

(b) A tolerance of 7 parts per million for residues of DDT in the fat of meat from cattle, hogs, and sheep has been established in § 120.147(a). Animals that consume corn forage, corn fodder, corn silage, corn stover, or sweet corn cannery waste containing DDT may accumulate considerably more of the chemical in their fat than is present in the feed itself, and a long time may be required on a diet free of DDT to reduce excessive levels of DDT to the tolerance level. Unless the person who raises meat animals is in a position to determine the magnitude of DDT residues in these corn feed products and to insure that the conditions of feeding are such that the residues in meat from such animals will be within the established tolerance, these products from DDT-treated corn should not be used in the feeding of meat animals.

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective for interstate shipments made from corn harvested after January 1, 1961.

(Sec. 408 (b), (e), 68 Stat. 511, 514; 21 U.S.C. 346a (b), (e))

Dated: November 23, 1960.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 60-11167; Filed, Nov. 30, 1960; 8:49 a.m.]

SUBCHAPTER C—DRUGS

PART 146c—CERTIFICATION OF CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS

Tetracycline Magnesium Syrup

Correction

In F.R. Doc. 60-10990, appearing at page 11215 of the issue for Saturday, November 26, 1960, in § 146c.217(a), the word "sulfanomaides" in the first sentence should read "sulfonamides", and the citation "§ 146.220" in the fifth sentence should read "§ 146c.220".

Title 22—FOREIGN RELATIONS

Chapter I—Department of State

[Dept. Reg. 108.451]

PART 46—CONTROL OF ALIENS DEPARTING FROM THE UNITED STATES

Aliens Whose Departure is Deemed Prejudicial to Interests of the United States

Part 46, Chapter I, Title 22 of the Code of Federal Regulations is hereby amended in the following respects:

Section 46.3 is amended by the addition of the following paragraphs (k) and (l):

§ 46.3 Aliens whose departure is deemed prejudicial to the interests of the United States.

• • • • •

(k) Any alien lawfully admitted for permanent residence who seeks to depart from the United States for travel to, in, or through Albania, Communist-controlled China ("Chinese People's Republic"), North Korea ("Democratic People's

Republic of Korea") or North Viet-Nam ("Democratic Republic of Viet-Nam").

(l) Any alien lawfully admitted for permanent residence who seeks to depart from the United States for travel to, in, or through Bulgaria, Czechoslovakia, Estonia, Hungary, Latvia, Lithuania, Poland, Rumania, the Soviet Zone of Germany ("German Democratic Republic"), the Union of Soviet Socialist Republics, or Yugoslavia, unless such alien shall possess a valid, unexpired reentry permit issued by the Attorney General pursuant to section 223 of the Immigration and Nationality Act subsequent to the effective date of this paragraph.

Effective date. The regulations contained in this order shall become effective upon publication in the FEDERAL REGISTER.

The provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) relative to notice of proposed rule making are inapplicable to this order because the regulations contained therein involve foreign affairs functions of the United States.

Dated: November 22, 1960.

CHRISTIAN A. HERTER,
Secretary of State.

Concurred in: November 25, 1960.

WILLIAM P. ROGERS,
Attorney General.

[F.R. Doc. 60-11215; Filed, Nov. 30, 1960; 8:53 a.m.]

Title 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

PART 211—DOCUMENTARY REQUIREMENTS: IMMIGRANTS; WAIVERS

Returning Residents

The following amendment to Chapter I of Title 8 of the Code of Federal Regulations is hereby prescribed:

Section 211.1 *Visas* is amended by adding the following sentence at the end thereof: "Form I-151 alien registration receipt card shall be invalid under this section when presented by an alien who during his temporary absence abroad travelled to, in, or through Bulgaria, Czechoslovakia, Estonia, Hungary, Latvia, Lithuania, Poland, Rumania, the Soviet Zone of Germany ('German Democratic Republic'), the Union of Soviet Socialist Republics, or Yugoslavia."

(Sec. 103, 66 Stat. 173; 8 U.S.C. 1103)

This order shall become effective on the date of its publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) as to notice of proposed rule making and delayed effective date is contrary to the public interest in this instance because the amendment prescribed by the order affects the internal security of the United States.

Dated: November 17, 1960.

J. M. SWING,
Commissioner of Immigration and Naturalization.

[F.R. Doc. 60-11214; Filed, Nov. 30, 1960; 8:53 a.m.]

Title 28—JUDICIAL ADMINISTRATION

Chapter I—Department of Justice

[Order 214-60]

PART 21—WITNESS FEES

Fees and Allowances of Witnesses in Alaska

Pursuant to the authority vested in me by section 30 of the act of June 6, 1900, 31 Stat. 332 (48 U.S.C. 25), and section 23(c) of the Alaska Omnibus Act (73 Stat. 147), I hereby amend § 21.3, Chapter I, Title 28 of the Code of Federal Regulations to read as follows:

§ 21.3 Fees and allowances of witnesses in the District of Alaska.

The fees and allowances of witnesses in the District of Alaska shall be as follows:

(a) For attendance at the District Court or before any officer pursuant to law, including a commissioner acting in any capacity authorized by law, and for the time necessarily occupied in traveling from their place of residence to the place of trial or hearing and in returning therefrom, witnesses shall be entitled to $4 a day.

(b) In addition to the fee fixed by paragraph (a) of this section, witnesses (other than salaried employees of the Government and detained witnesses) who attend court or attend before a commissioner at points so far removed from their place of residence that they are unable to return thereto each day shall be entitled to a subsistence allowance of $15 a day for each day of such attendance and for each day necessarily occupied in traveling to the place of such attendance and in returning to their place of residence.

(c) Witnesses shall be entitled to travel expenses on the basis of the means of travel actually employed and the distance actually and necessarily traveled, and in accordance with the following:

(1) If the travel is by common carrier, witnesses shall be entitled to the cost of the cheapest available first-class accommodations for travel in Alaska and outside Alaska in proceeding to or from Alaska. Receipts or other evidence of actual payment shall be furnished whenever practicable.

(2) If the travel is by privately-owned automobile or other private carrier, witnesses shall be entitled to twelve cents a mile for travel in Alaska; provided that whenever the use of a private airplane, dog-team, or boat is approved by the court, a commissioner, the United States Attorney, or an Assistant United States Attorney, witnesses may be paid the actual rental cost or reasonable estimate of necessary expense.

(3) If the travel is by privately-owned automobile or other private carrier, witnesses shall be entitled to eight cents a mile for travel outside Alaska in proceeding to or from Alaska: *Provided*, That the total entitlement, including attendance fees and subsistence allowances, shall not exceed that which would have been payable had the cheapest first-class accommodations via common carrier been used.

(4) In addition to the allowances to which they are entitled under subparagraphs (1), (2), and (3) of this paragraph, witnesses shall be entitled to incidental travel expenses, such as taxicab fares between the place of lodging and the carrier terminal, and bridge, road, and tunnel tolls, and ferry fares.

(d) Witnesses detained in prison for want of security for their appearance shall not be entitled to attendance fees and subsistence allowances as prescribed in paragraphs (a) and (b) of this section, but shall be entitled to one dollar a day, in addition to the actual subsistence furnished by the Government, while thus detained.

(e) Officers and employees of the United States summoned as witnesses for the Government in matters before the District Court of Alaska or commissioners shall be entitled to expenses and subsistence allowances as provided by § 21.1.

(f) Payment of witness fees, subsistence allowances, and travel expenses by the United States under this section shall be made upon the basis of a certificate signed by the United States Attorney, an Assistant United States Attorney, the attorney in charge of the case, or a commissioner. With respect to any witness who is allowed subsistence, the certificate shall state that the witness attended court, or attended before a commissioner, as the case may be, at a point so far removed from his place of residence that he was unable to return thereto each day.

(Sec. 30, 31 Stat. 332; 48 U.S.C. 25, sec. 23(c), 73 Stat. 147)

Order No. 132-56 of September 27, 1956, amending § 21.3, Chapter I, Title 28, of the Code of Federal Regulations, is hereby superseded.

This order shall become effective on December 1, 1960. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) as to notice of proposed rule making and delayed effective date is impractical and unnecessary in this instance for the reason that the amendments made by the order are, so far as material, clearly advantageous to the persons affected thereby.

Dated: November 26, 1960.

WILLIAM P. ROGERS,
Attorney General.

[F.R. Doc. 60-11186; Filed, Nov. 30, 1960; 8:51 a.m.]

Title 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

SUBCHAPTER A—AID TO CIVIL AUTHORITIES AND PUBLIC RELATIONS

PART 805—SAFEGUARDING MILITARY INFORMATION

In Part 805, §§ 805.1 to 805.8 supersede §§ 805.1 to 805.17 (32 CFR 805.1).

Sec.
805.1 Visitors.
805.2 Definitions.
805.3 Requests for permission to visit.
805.4 Visits to Air Force installations.
805.5 Control of visitors.
805.6 Controlled areas.
805.7 Protection of property or places.
805.8 Procedure in case of violations.

AUTHORITY: §§ 805.1 to 805.8 issued under sec. 8012, 70A Stat. 488, 10 U.S.C. 8012.
SOURCE: AFR 205-1, June 10, 1960.

§ 805.1 Visitors.

Sections 805.1 to 805.8 tell who is a "visitor" and who may admit visitors at Air Force installations.

§ 805.2 Definitions.

(a) *Visits at Air Force activities.* For the purpose of §§ 805.1 to 805.5, a visitor is any person admitted to any Air Force installation, except those who are directly and officially concerned with its activities. Persons traveling under official orders requiring performance of duty at an installation, and those on duty or employed at the installation are not visitors for the purpose of §§ 805.1 to 805.5.

§ 805.3 Requests for permission to visit.

Requests to visit an installation should be referred to the installation commander for approval or disapproval. All requests for permission to visit Air Force installations or activities which will involve access to classified information will:

(a) Be in writing, and be made early enough to permit appropriate action by the commander.

(b) Include the following information, as applicable:

(1) Name in full, grade, title, position.
(2) Nationality of visitor (immigrant aliens will furnish alien registration number), date and place of birth.
(3) Current residence or military assignment.
(4) Employer or sponsor.
(5) Name and location of installation or activity to be visited.
(6) Date, time, and duration of visit.
(7) Purpose of visit, in detail.
(8) Security clearance status of visitor and name of clearing agency (if clearance has previously been granted).

§ 805.4 Visits to Air Force installations.

(a) *Visits involving access to classified information*—(1) *Approval.* Individuals may be permitted to visit Air Force installations or activities to receive or to have access to classified information only if its disclosure or dissemination is properly approved.

(b) *Visits not involving access to classified information.* United States citizens and foreign nationals who will not have access to classified information may be admitted to an Air Force installation by authority of the commander.

§ 805.5 Control of visitors.

(a) *Responsibility.* The commander is the local representative of the Department of the Air Force regarding the admission of visitors to his installation.

(b) *Restrictions on movements of visitors.* To protect classified information, the commander must restrict the movement of visitors entering his installation. Visitors authorized to have access to classified matter will be accompanied by the commander, or his representative who has been informed of the restrictions placed upon the visitor.

(c) *Limitation concerning documents.* Authority to permit visits does not constitute authority to release documents to visitors.

§ 805.6 Controlled areas.

The areas referred to in §§ 805.6 to 805.8 are established under authority of law. Their primary purpose, from a security standpoint, is to control the passage of persons not subject to military law.

§ 805.7 Protection of property or places.

(a) *Designation of controlled areas*—(1) *Restricted areas.* The commander of an Air Force installation will designate as a "restricted area" an area under his jurisdiction, which he considers necessary to protect, by the promulgation of regulations pursuant to section 21 of the Internal Security Act of 1950. If local conditions dictate, he will mark all ordinary entrances or approaches to such areas with a sign reading as follows:

> WARNING
> RESTRICTED AREA
> It is unlawful to enter within this (area, building, etc.) without written permission of (authority).

(2) *Reserved areas.* Areas reserved for military or national defense purposes, admittance to which is either restricted or prohibited, are set apart by Executive Order of the President of the United States, or by order of the Secretary of the Interior.

(3) *Air space reservations.* An "air space reservation" is the air space above an area on the land or water, designated and set apart by Executive Order of the President of the United States, or by a State, Commonwealth or Territory, over which the flight of aircraft is prohibited or restricted for the purpose of national defense, or for other governmental purposes. The commander of an installation over which an air space reservation has been established is responsible for its surveillance. He must make prompt report of any illegal flights in the air space to the Chief of Staff, USAF, through channels.

§ 805.8 Procedure in case of violations.

Persons not subject to military law who violate the regulations issued by the commander will be delivered to the appropriate civil authority, subject to the following provisions:

(a) The installation commander will cause any such person to be detained, warned of his rights, and interrogated as soon as possible by proper authority. If there is no evidence of intent to violate the regulations, the person may be warned against repetition and released. Otherwise, the commander will promptly notify the nearest office of the Office of Special Investigations by the fastest means available. That office will immediately request the nearest office of the Federal Bureau of Investigation to take custody of the individual at the installation. The commander will furnish the representative of the Federal Bureau of Investigation with a written statement of the facts, the names and addresses of the witnesses, and pertinent exhibits.

(b) When an investigation reveals that such a person has entered a closed area or building, and was not apprehended, the commander will promptly notify the nearest district office of the Office of Special Investigations of all the facts, including the names and addresses of the witnesses. The district office will immediately notify the nearest office of the Federal Bureau of Investigation.

R. J. PUGH,
Colonel, U.S. Air Force, Deputy Director of Administrative Services.

[F.R. Doc. 60-11139; Filed, Nov. 30, 1960; 8:45 a.m.]

Chapter XVI—Selective Service System

[Amdt. 87]

PART 1619—CANCELLATION OF REGISTRATION

Cancellation by Local Board

The Selective Service Regulations are hereby amended as follows:

§ 1619.1 [Revocation]

1. § 1619.1 is revoked.

2. § 1619.2 is amended to read as follows:

§ 1619.2 Cancellation of registration by local board.

(a) Except as otherwise provided in this section, a local board may cancel the registration of a person who is not required by the selective service law to be registered. In determining whether the registration of any person should be canceled, the local board shall apply the pertinent provisions of Part 1611 of this chapter. Ordinarily, the issues involved will be whether the registrant is within an age group required to be registered or whether he is a person who is exempt from registration under the selective service law.

(b) Section 1611.2 of this chapter provides that certain persons are not required to be registered so long as they have a certain status. If such a person has improperly registered at a time when he was exempt from registration, and there has been no subsequent change in his status which would render him liable for registration, the local board may cancel his registration. However, if a person has registered at a time when he

was required by the selective service law to present himself for and submit to registration and thereafter has acquired a status within one of the groups of persons exempt from registration, the local board shall not cancel his registration unless authorized to do so by the Director of Selective Service.

(c) If a person not required to register because of his being under 18 years of age has registered, the local board may cancel his registration at any time before he becomes 18 years of age except that the local board shall not cancel the registration of any registrant who is 17 years of age and has volunteered for induction with the written consent of his parents or guardian. If such a registrant has been inducted into and remains in the Armed Forces as the result of his premature registration, the local board shall not cancel his registration while he remains in the Armed Forces.

(d) In cancelling the registration of a registrant under this section, the local board shall (1) write across the face of his Registration Card (SSS Form No. 1) "Canceled—Sec. 1619.2 SS Reg. Date ----------"; (2) take up and cancel the Registration Certificate (SSS Form No. 2) if issued and available; (3) report the cancellation on Local Board Actions and Minutes (SSS Form No. 112) and on Local Board Action Report (SSS Form No. 112–A); and (4) retain the entire file of the registrant.

(Sec. 10, 62 Stat. 618, as amended; 50 U.S.C. App. 460; E.O. 9979, July 20, 1948, 13 F.R. 4177; 3 CFR, 1943–1948 Comp.)

The foregoing amendments to the Selective Service Regulations shall become effective upon filing with the Office of the Federal Register.

[SEAL] LEWIS B. HERSHEY,
Director of Selective Service.

NOVEMBER 25, 1960.

Title 42—PUBLIC HEALTH

Chapter I—Public Health Service, Department of Health, Education, and Welfare

PART 1—AVAILABILITY OF RECORDS AND INFORMATION

Limitation on Release of Records

Notice of proposed rule making having been published and no public comments having been received, the proposed amendments to the regulations, governing the use of official records and limiting their release from the custody of the Service, published with said notice of proposed rule making on April 6, 1960 in 25 F.R. 2905 are adopted as herein set forth.

Effective date. These amendments shall be effective 90 days after the date of publication.

1. Sections 1.108, 1.106 and 1.107 are renumbered §§ 1.106, 1.107 and 1.108, respectively.

2. Section 1.107 as so renumbered (formerly § 1.106) is amended by designating the present text of that section as paragraph (a) and by adding additional material. This section as amended reads as follows:

§ 1.107 Limitations on release of records.

(a) Records of the Service containing information described or referred to in § 1.102 or § 1.103 shall not be released to or deposited with anyone not an authorized officer or employee of the Service except: (1) As may be temporarily necessary for purposes of examination or copying; (2) for purposes of storage at General Services Administration Federal Records Centers under conditions assuring the continuation of the limitations on disclosure set forth in this part: *Provided*, That release or disclosure of records so stored shall be made by the Federal Records Centers only to authorized officers or employees of the Public Health Service.

(b) Where official records of the Service other than X-rays are produced in accordance with subpoena or other compulsory process, their release to or deposit with anyone not an officer or employee of the Service is prohibited except as may be temporarily necessary for the purpose of examination during sessions of the court, body, agency, or other authority before which such records are produced or unless release or deposit is otherwise authorized by the Surgeon General.

(c) When the production of official records of the Service in response to a subpoena or other compulsory process is authorized by § 1.106, arrangements shall be made for the procurement of certified copies if so requested by a party litigant. Except when the United States is the requesting party, such copies shall be made at the expense of the requesting party. The records may be released for copying for this purpose in accordance with paragraph (a) of this section.

(d) The Chief, Medical Records Library Service at any hospital or station, or any other officer or employee of the Service designated as local custodian of the records by the Medical Officer in Charge of a hospital or station is authorized to certify copies of records. No fee shall be charged for such certification.

(Sec. 215, 58 Stat. 690, as amended; 42 U.S.C. 216. Interpret or apply 65 Stat. 290; 5 U.S.C. 140)

Dated: November 18, 1960.

[SEAL] JOHN D. PORTERFIELD,
Acting Surgeon General.

Approved: November 25, 1960.

ARTHUR S. FLEMMING,
Secretary.

[F.R. Doc. 60–11153; Filed, Nov. 30, 1960; 8:47 a.m.]

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1954) Part 1]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

"Dollar Value" LIFO Method

Amendment of the income tax regulations under section 472 of the Internal Revenue Code of 1954 to prescribe rules under the so-called "dollar-value" LIFO method.

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D.C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner within the 30-day period. In such a case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] DANA LATHAM,
Commissioner of Internal Revenue.

In order to prescribe rules under the so-called "dollar-value" LIFO method, such regulations are amended as follows:

PARAGRAPH 1. Paragraph (1) of § 1.472–1 is amended to read as follows:

§ 1.472–1 Last-in, first-out inventories.

* * * * *

(1) If a taxpayer uses consistently the so-called "dollar-value" method of pricing inventories, or any other method of computation established to the satisfaction of the Commissioner as reasonably adaptable to the purpose and intent of section 472 and this section, and if such taxpayer elects under section 472 to use the LIFO inventory method authorized by such section, the taxpayer's opening and closing inventories shall be determined under section 472 by the use of the appropriate adaptation. See § 1.472–8 for rules relating to the use of the dollar-value method.

PAR. 2. The introductory paragraph of § 1.472–2 is amended to read as follows:

§ 1.472–2 Requirements incident to adoption and use of LIFO inventory method.

Except as otherwise provided in § 1.472–1 with respect to raw material computations, with respect to retail inventory computations, and with respect to other methods of computation established to the satisfaction of the Commissioner as reasonably adapted to the purpose and intent of section 472, and in § 1.472–8 with respect to the "dollar-value" method, the adoption and use of the LIFO inventory method is subject to the following requirements:

PAR. 3. The following new § 1.472–8 is inserted immediately after § 1.472–7.

§ 1.472–8 Dollar-value method of pricing LIFO inventories.

(a) *Election to use dollar-value method.* Any taxpayer may elect to determine the cost of his LIFO inventories under the so-called "dollar-value" LIFO method, provided such method is used consistently and clearly reflects the income of the taxpayer in accordance with the rules of this section. The dollar-value method of valuing LIFO inventories is a method of determining cost by using "base-year" cost expressed in terms of total dollars rather than the quantity and price of specific goods as the unit of measurement. Under such method the goods contained in the inventory are grouped into a pool or pools as described in paragraphs (b) and (c) of this section. The term "base-year cost" is the aggregate of the cost (determined as of the beginning of the taxable year for which the LIFO method is first adopted, i.e., the base date) of all items in a pool. The taxable year for which the LIFO method is first adopted with respect to any item in the pool is the "base year" for that pool, except as provided in paragraph (g)(3) of this section. Liquidations and increments of items contained in the pool shall be reflected only in terms of a net liquidation or increment for the pool as a whole. Fluctuations may occur in quantities of various items within the pool, new items which properly fall within the pool may be added, and old items may disappear from the pool, all without necessarily effecting a change in the dollar value of the pool as a whole. An increment in the LIFO inventory occurs when the end of the year inventory for any pool expressed in terms of base-year cost is in excess of the beginning of the year inventory for that pool expressed in terms of base-year cost. In determining the inventory value for a pool, the increment, if any, is adjusted for changing unit costs or values by reference to a percentage, relative to base-year cost, determined for the pool as a whole. See paragraph (e) of this section. See also paragraph (f) of this section for rules relating to the change to the dollar-value LIFO method from another LIFO method.

(b) *Principles for establishing pools of manufacturers and processors*—(1) *Natural business unit pools.* A pool shall ordinarily consist of all items entering into the entire inventory investment for each natural business unit of a business enterprise, unless the taxpayer has adopted the LIFO inventory method as to raw materials content in accordance with § 1.472–1 or unless the taxpayer elects to use the multiple pooling method provided in subparagraph (3) of this paragraph. Thus, if a business enterprise is composed of only one natural business unit, one pool should be used for all of its LIFO inventories, including raw materials, goods in process, and finished goods. If, however, a business enterprise is actually composed of more than one natural business unit, more than one pool is required.

(2) *Definition of natural business unit.* (i) Whether an enterprise is composed of more than one natural business unit is a matter of fact to be determined from all the circumstances. The natural business divisions adopted by the taxpayer for internal management purposes, the existence of separate and distinct production facilities and processes, and the maintenance of separate profit and loss records with respect to separate operations are important considerations in determining what is a business unit, unless such divisions, facilities, or accounting records are set up merely because of differences in geographical location. In the case of a manufacturer or processor, a natural business unit ordinarily consists of the entire productive activity of the enterprise within one product line or within two or more related product lines including (to the extent engaged in by the enterprise) the obtaining of materials, the processing of materials, and the selling of manufactured or processed goods. Thus, in the case of a manufacturer or processor, the maintenance and operation of a raw material warehouse does not generally constitute, of itself, a natural business unit. If the taxpayer maintains and operates a supplier unit the production of which is both sold to others and transferred to a different unit of the taxpayer to be used as a component part of another product, the supplier unit will ordinarily constitute a separate and distinct natural business unit. Ordinarily, a processing plant would not in itself be considered a natural business unit if the production of the plant, although saleable at this stage, is not sold to others, but is transferred to another plant of the enterprise, not operated as a separate division, for further processing or incorporation into another product. On the other hand, if the production of a manufacturing or processing

plant is transferred to a separate and distinct division of the taxpayer, which constitutes a natural business unit, the supplier unit itself will ordinarily be considered a natural business unit. However, the mere fact that a portion of the production of a manufacturing or processing plant may be sold to others at a certain stage of processing with the remainder of the production being further processed or incorporated into another product will not of itself be determinative that the activities devoted to the production of the portion sold constitute a separate business unit. Where a manufacturer or processor is also engaged in the wholesaling or retailing of goods purchased from others, the pooling of such purchased goods for the wholesaling or retailing operations shall be determined in accordance with the rules of paragraph (c) of this section.

(ii) The rules of this subparagraph may be illustrated by the following examples:

Example (1). A corporation manufactures, in one division, automatic clothes washers and driers of both commercial and domestic grade as well as electric ranges, mangles, and dishwashers. The corporation manufactures, in another division, radios and television sets. The manufacturing facilities and processes used in manufacturing the radios and television sets are distinct from those used in manufacturing the automatic clothes washers, etc. Under these circumstances, the enterprise would consist of two business units and two pools would be appropriate, one consisting of all of the LIFO inventories entering into the manufacture of clothes washers and driers, electric ranges, mangles, and dishwashers and the other consisting of all of the LIFO inventories entering into the production of radio and television sets.

Example (2). A taxpayer produces plastics in one of its plants. Substantial amounts of the production are sold as plastics. The remainder of the production is shipped to a second plant of the taxpayer for the production of plastic toys which are sold to customers. The taxpayer operates his plastics plant and toy plant as separate divisions. Because of the different product lines and the separate divisions the taxpayer has two natural business units.

Example (3). A taxpayer is engaged in the manufacture of paper. At one stage of processing, uncoated paper is produced. Substantial amounts of uncoated paper are sold at this stage of processing. The remainder of the uncoated paper is transferred to the taxpayer's finishing mill where coated paper is produced and sold. This taxpayer has only one natural business unit since coated and uncoated paper are within the same product line.

(3) *Multiple pools*—(i) *Principles for establishing multiple pools.* (a) A taxpayer may elect to establish more than one pool within a natural business unit unless he pools on a natural business unit method as provided in subparagraph (1) of this paragraph. Each such pool shall ordinarily consists of a group of inventory items which are substantially similar. In determining whether such similarity exists, consideration shall be given to all the facts and circumstances. The formulation of detailed rules for selection of pools applicable to all taxpayers is not feasible. Important considerations to be taken into account include, for example, whether there is substantial similarity in the types of raw materials used or in the processing operations applied; whether the raw materials used are readily interchangeable; whether there is similarity in the use of the products; whether the groupings are consistently followed for purposes of internal accounting and management; and whether the groupings follow customary business practice in the taxpayer's industry. The selection of pools in each case must also take into consideration such factors as the nature of the inventory items subject to the dollar-value LIFO method and the significance of such items to the taxpayer's business operations.

(b) Raw materials which are substantially similar shall be pooled together in accordance with the principles of this subparagraph. However, inventories of raw or unprocessed materials of an unlike nature may not be placed into one pool, even though such materials become part of otherwise identical finished products.

(c) Finished goods and goods-in-process in the inventory shall be placed into pools classified by major classes or types of goods. Where the material content of a class of finished products included in a pool has been changed, for example, to conform with current trends in an industry, a separate pool of finished products and goods-in-process will not ordinarily be required unless the change in material content results in a substantial change in the finished product.

(d) The requirement that pools be established by major types of materials or major classes of goods is not to be construed so as to preclude the establishment of a miscellaneous pool. Since a taxpayer may elect the dollar-value LIFO method with respect to all or any designated goods in his inventory, there may be a number of such inventory items covered in the election. A miscellaneous pool shall consist only of items which are relatively insignificant in dollar value by comparison with other inventory items in the particular trade or business and which are not properly includible as part of another pool.

(ii) *Raw materials content pools.* The dollar-value method of pricing LIFO inventories may be used in conjunction with the raw materials content method authorized in § 1.472–1. Raw materials which are substantially similar shall be pooled together in accordance with the principles of subdivision (i) of this subparagraph. However, inventories of raw or unprocessed materials of an unlike nature may not be placed into one pool, even though such materials become part of otherwise identical finished products.

(c) *Principles for establishing pools for wholesalers, retailers, etc.* Items of inventory in the hands of wholesalers, retailers, jobbers, and distributors shall be placed into pools by major lines, types, or classes of goods. In determining such groupings, customary business classifications of the particular trade in which the taxpayer is engaged is an important consideration. An example of such customary business classification is the department in the department store. In such case, practices are relatively uniform throughout the trade, and departmental grouping is peculiarly adapted to the customs and needs of the business. However, in appropriate cases, the principles set forth in paragraphs (b) (1) and (2) of this section, relating to pooling by natural business units, may be used, with permission of the Commissioner, by wholesalers, retailers, jobbers, or distributors. Where a wholesaler or retailer is also engaged in the manufacturing or processing of goods, the pooling of the LIFO inventory for the manufacturing or processing operations shall be determined in accordance with the rules of paragraph (b) of this section.

(d) *Determination of appropriateness of pools.* Whether the number and the composition of the pools used by the taxpayer is appropriate, as well as the propriety of all computations incidental to the use of such pools, will be determined in connection with the examination of the taxpayer's income tax returns. Adequate records must be maintained to support the base-year unit cost as well as the current-year unit cost for all items priced on the dollar-value LIFO inventory method. The pool or pools selected must be used for the year of adoption and for all subsequent taxable years unless a change is required by the Commissioner in order to clearly reflect income, or unless permission to change is granted by the Commissioner as provided in paragraph (e) of § 1.446–1. However, see paragraph (h) of this section for authorization to change the method of pooling in certain specified cases.

(e) *Methods of computation of the LIFO value of a dollar-value pool*—(1) *Methods authorized.* A taxpayer may ordinarily use only the so-called "double-extension" method for computing the base-year and current-year cost of a dollar-value inventory pool. However, a taxpayer entitled to use the retail method of pricing LIFO inventories authorized by section 1.472–1(k) may use retail price indexes prepared by the United States Bureau of Labor Statistics, and a taxpayer may use privately computed indexes if the method of computing such indexes is approved in advance by the Commissioner. The application for prior approval of such indexes shall be filed by letter with the Commissioner of Internal Revenue, Attention: T:R, Washington 25, D.C. The accuracy and reliability of such indexes will be determined in connection with the examination of the taxpayer's income tax returns. For taxable years beginning after December 31, 1960, the use of the so-called "link-chain" method will not be approved as an acceptable method for computing the base-year and current-year cost of a dollar-value inventory pool.

(2) *Double extension method.* (i) Under the double-extension method the quantity of each item in the inventory pool at the close of the taxable year is extended at both base-year unit cost and current-year unit cost. The respective extensions at the two costs are then each totaled. The first total gives the amount of the current inventory in terms of base-year cost and the second total gives the amount of such inventory in terms of current-year cost.

(ii) The total current-year cost of items making up a pool may be determined—

(a) By reference to the actual cost of the goods most recently purchased or produced;

(b) By reference to the actual cost of the goods purchased or produced during the taxable year in the order of acquisition;

(c) By application of an average unit cost equal to the aggregate cost of all of the goods purchased or produced throughout the taxable year divided by the total number of units so purchased or produced; or

(d) Pursuant to any other proper method which, in the opinion of the Commissioner, clearly reflects income.

(iii) Under the double-extension method a base-year unit cost must be ascertained for each item entering a pool for the first time subsequent to the beginning of the base year. In such a case, the base-year unit cost of the entering item shall be the current-year cost of that item unless the taxpayer is able to reconstruct or otherwise establish a different cost. If the entering item is a product or raw material not in existence on the base date, its cost may be reconstructed, that is, the taxpayer using reasonable means may determine what the cost of the item would have been had it been in existence in the base year. If the item was in existence on the base date but not stocked by the taxpayer, he may establish, by using available data or records, what the cost of the item would have been to the taxpayer had he stocked the item. If the base-year unit cost of the entering item is either reconstructed or otherwise established to the satisfaction of the Commissioner, such cost may be used as the base-year unit cost in applying the double-extension method. If the taxpayer does not reconstruct or establish to the satisfaction of the Commissioner a base-year unit cost, but does reconstruct or establish to the satisfaction of the Commissioner the cost of the item at some year subsequent to the base year, he may use the earliest cost which he does reconstruct or establish as the base-year unit cost.

(iv) To determine whether there is an increment or liquidation in a pool for a particular taxable year, the end of the year inventory of the pool expressed in terms of base-year cost is compared with the beginning of the year inventory of the pool expressed in terms of base-year cost. When the end of the year inventory of the pool is in excess of the beginning of the year inventory of the pool, an increment occurs in the pool for that year. If there is an increment for the taxable year, the ratio of the total current-year cost of the pool to the total base-year cost of the pool must be computed. This ratio when multiplied by the amount of the increment measured in terms of base-year cost gives the LIFO value of such increment. The LIFO value of each such increment is hereinafter referred to in this section as the "layer of increment" and must be separately accounted for and a record thereof maintained as a separate layer of the pool, and may not be combined with a layer of increment occurring in a different year. On the other hand, when the end of the year inventory of the pool is less than the beginning of the year inventory of the pool, a liquidation occurs in the pool for that year. Such liquidation is to be reflected by reducing the most recent layer of increment by the excess of the beginning of the year inventory over the end of the year inventory of the pool. However, if the amount of the liquidation exceeds the amount of the most recent layer of increment, the preceding layers of increment in reverse chronological order are to be successively reduced by the amount of such excess until all the excess is absorbed. The base-year inventory is to be reduced by liquidation only to the extent that the aggregate of all liquidation exceeds the aggregate of all layers of increment.

(v) The following examples illustrate the computation of the LIFO value of inventories under the double-extension method.

Example (1). (a) A taxpayer elects, beginning with the calendar year 1961, to compute his inventories by use of the LIFO inventory method under section 472 and further elects to use the dollar-value method in pricing such inventories as provided in paragraph (a) of this section. He creates Pool No. 1 for items A, B, and C. The composition of the inventory for Pool No. 1 at the base date, January 1, 1961, is as follows:

Items	Units	Unit cost	Total cost
A	1,000	$5	$5,000
B	2,000	4	8,000
C	500	2	1,000
Total base-year cost at Jan. 1, 1961			14,000

(b) The closing inventory of Pool No. 1 at December 31, 1961, contains 3,000 units of A, 1,000 units of B, and 500 units of C. The taxpayer computes the current-year cost of the items making up the pool by reference to the actual cost of goods most recently purchased. The most recent purchases of items A, B, and C are as follows:

Item	Purchase date	Quantity purchased	Unit cost
A	Dec. 15, 1961	3,500	$6.00
B	Dec. 10, 1961	2,000	5.00
C	Nov. 1, 1961	500	2.50

(c) The inventory of Pool No. 1 at December 31, 1961, shown at base-year and current-year cost is as follows:

Item	Quantity	Dec. 31, 1961, inventory at Jan. 1, 1961, base-year cost		Dec. 31, 1961, inventory at current-year cost	
		Unit cost	Amount	Unit cost	Amount
A	3,000	$5.00	$15,000	$6.00	$18,000
B	1,000	4.00	4,000	5.00	5,000
C	500	2.00	1,000	2.50	1,250
Total			$20,000		$24,250

(d) If the amount of the December 31, 1961, inventory at base-year cost were equal to, or less than, the base-year cost of $14,000 at January 1, 1961, such amount would be the closing LIFO inventory at December 31, 1961. However, since the base-year cost of the closing LIFO inventory at December 31, 1961, amounts to $20,000, and is in excess of the $14,000 base-year cost of the opening inventory for that year, there is a $6,000 increment in Pool No. 1 during the year. This increment must be valued at current-year cost, i.e., the ratio of $24,250/20,000, or 121.25 percent. The LIFO value of the inventory at December 31, 1961, is $21,275, computed as follows:

Pool No. 1

	Dec. 31, 1961, inventory at Jan. 1, 1961, base-year cost	Ratio of total current-year cost to total base-year cost	Dec. 31, 1961, inventory at LIFO value
		Percent	
Jan. 1, 1961, base cost	$14,000	100.00	$14,000
Dec. 31, 1961, increment	6,000	121.25	7,275
Total	20,000		21,275

Example (2). (a) Assume the taxpayer in example (1) during the year 1962 completely disposes of item C and purchases item D. Assume further that item D is properly includible in Pool No. 1 under the provisions of this section. The closing inventory on December 31, 1962, consists of quantities at current-year unit cost, as follows:

Items	Units	Current-year unit cost Dec. 31, 1962
A	2,000	$6.50
B	1,500	6.00
D	1,000	5.00

(b) The taxpayer establishes that the cost of item D, had he acquired it on January 1, 1961, would have been $3.64 per unit. Such cost shall be used as the base-year unit cost for item D, and the LIFO computations at December 31, 1962, are made as follows:

Item	Quantity	Dec. 31, 1962, inventory at Jan. 1, 1961, base-year cost		Dec. 31, 1962, inventory at current-year cost	
		Unit cost	Amount	Unit cost	Amount
A	2,000	$5.00	$10,000	$6.50	$13,000
B	1,500	4.00	6,000	6.00	9,000
D	1,000	3.64	3,640	5.00	5,000
Total			19,640		27,000

(c) Since the closing inventory at base-year cost, $19,640, is less than the 1962 opening inventory at base-year cost, $20,000, a liquidation of $360 has occurred during 1962. This liquidation is to be reflected by reducing the most recent layer of increment. The LIFO value of the inventory at December 31, 1962, is $20,839, and is summarized as follows:

Pool No. 1

	Dec. 31, 1962 inventory at Jan. 1, 1961 base-year cost	Ratio of total current-year cost to total base-year cost	Dec. 31, 1962 inventory at LIFO value
		Percent	
Jan. 1, 1961, base cost	$14,000	100.00	$14,000
Dec. 31, 1961, increment	5,640	121.25	6,839
Total	19,640		20,839

(f) *Change to dollar-value method from another method of pricing LIFO inventories*—(1) *Consent required.* Except as provided in § 1.472–3, in the case of a taxpayer electing to use a LIFO inventory method for the first time, a taxpayer using another LIFO method of pricing inventories may not change to the dollar-value method of pricing such inventories unless he first secures the consent of the Commissioner in accordance with paragraph (e) of § 1.446–1.

(2) *Method of converting inventory.* Where the taxpayer changes from one method of pricing LIFO inventories to the dollar-value method, the ending LIFO inventory for the taxable year immediately preceding the year of change shall be converted to the dollar-value LIFO method. This is done to establish the base-year cost for subsequent calculations. Thus, if the taxpayer was previously valuing LIFO inventories on the specific goods method, these separate values shall be combined into appropriate pools. For this purpose, the base year for the pool shall be the earliest taxable year for which the LIFO inventory method had been adopted for any item in that pool. No change will be made in the overall LIFO value of the opening inventory for the year of change as a result of the conversion, and that inventory will merely be restated in the manner used under the dollar-value method. All layers of increment for such inventory must be retained, except that all layers of increment which occurred in the same taxable year must be combined. The following examples illustrate the provisions of this subparagraph:

Example (1). (i) Assume that the taxpayer has used another LIFO method for finished goods since 1954 and has complied with all the requirements prerequisite for a change to the dollar-value method. Items A, B, and C, which have previously been inventoried under the specific goods LIFO method, may properly be included in a single dollar-value LIFO pool. The LIFO inventory value of items A, B, and C at December 31, 1960, is $12,200, computed as follows:

Year	Base quantity and yearly increments	Unit cost	Dec. 31, 1960, inventory at LIFO value
Item A			
1954 (base year)	100	$1	$100
1955	200	2	400
1956	100	4	400
1960	100	6	600
Total	500		1,500
Item B			
1954 (base year)	300	6	1,800
1955	100	8	800
1960	50	10	500
Total	450		3,100
Item C			
1954 (base year)	1,000	4	4,000
1955	200	6	1,200
1956	300	8	2,400
Total	1,500		7,600
LIFO value of items A, B, and C at Dec. 31, 1960			12,200

There were no increments in the years 1957, 1958, or 1959.

(ii) The computation of the ratio of the total current-year cost to the total base-year cost for the base year and each layer of increment in pool No. 1 is shown as follows:

Item	1954 base-year unit cost	Year 1954	Increments 1955	1956	1960
A					
Base-year cost	$1.00	$100	$200	$100	$100
LIFO value		100	400	400	600
B					
Base-year cost	6.00	1,800	600		300
LIFO value		1,800	800		500
C					
Base-year cost	4.00	4,000	800	1,200	
LIFO value		4,000	1,200	2,400	
Total—Base-year cost		5,900	1,600	1,300	400
Total—LIFO value		5,900	2,400	2,800	1,100
Ratio of total current-year cost to total base-year cost (percent)		100.00	150.00	215.38	275.00

(iii) On the basis of the foregoing computations, the LIFO inventory of pool No. 1, at December 31, 1960, is restated as follows:

	Dec. 31, 1960, inventory at base-year cost	Ratio of total current-year cost to total base-year cost	Dec. 31, 1960, inventory at LIFO value
		Percent	
1954 base cost	$5,900	100.00	$5,900
1955 increment	1,600	150.00	2,400
1956 increment	1,300	215.38	2,800
1960 increment	400	275.00	1,100
Total	9,200		12,200

Example (2). Assume the same facts as in example (1) and assume further that the base-year cost of pool No. 1 at December 31, 1961, is $8,350. Since the closing inventory for the taxable year 1961 at base-year cost is less than the opening inventory for that year at base-year cost, a liquidation has occurred during 1961. This liquidation absorbs all of the 1960 layer of increment and part of the 1956 layer of increment. The December 31, 1961, inventory is $10,131, computed as follows:

	Dec. 31, 1961 inventory at base-year cost	Ratio of total current-year cost to total base-year cost	Dec. 31, 1961 inventory at LIFO value
		Percent	
1954 base cost	$5,900	100.00	$5,900
1955 increment	1,600	150.00	2,400
1956 increment	850	215.38	1,831
Total	8,350		10,131

(g) *Transitional rules*—(1) *Change in method of pooling.* Any method of pooling authorized by this section and used by the taxpayer in computing his LIFO inventories under the dollar-value method shall be treated as a method of accounting. Any method of pooling which is authorized by this section shall be used for the year of adoption and for all subsequent taxable years unless a change is required by the Commissioner in order to clearly reflect income, or unless permission to change is granted by the Commissioner as provided in paragraph (e) of § 1.446–1. Where the taxpayer changes from one method of pooling to another method of pooling permitted by this section, the ending LIFO inventory for the taxable year preceding the year of change shall be restated under the new method of pooling.

(2) *Manner of combining or separating dollar-value pools.* (i) A taxpayer who has been using the dollar-value LIFO method and who is permitted or required to change his method of pooling, shall combine or separate the LIFO value of his inventory for the base year and each yearly layer of increment in order to conform to the new pool or pools. Each yearly layer of increment in the new pool or pools must be separately accounted for and a record thereof maintained, and any liquidation occurring in the new pool or pools subsequent to the formation thereof shall be treated in the same manner as if the new pool or pools had existed from the date the taxpayer first adopted the LIFO inventory method. The combination or separation of the LIFO value of his inventory for the base year and each yearly layer of increment shall be made in accordance with the appropriate method set forth in this subparagraph, unless the use of a different method is approved by the Commissioner.

(ii) Where the taxpayer is permitted or required to separate a pool into more than one pool, the separation shall be made in the following manner: First, each item in the former pool shall be placed in an appropriate new pool. Every item in each new pool is then extended at its base-year unit cost and the extensions are totaled. Each total is the amount of inventory for each new pool expressed in terms of base-year cost. Then a ratio of the total base-year cost of each new pool to the base-year cost of the former pool is computed. The resulting ratio is applied to the amount of inventory for the base year and each yearly layer of increment of the former pool to obtain an allocation to each new pool of the base-year inventory of the former pool and subsequent layers of increment thereof. The foregoing may be illustrated by the following of a change for the taxable year 1961:

Example. (a) Assume that items A, B, C, and D are all grouped together in one pool prior to December 31, 1960. The LIFO inventory value at December 31, 1960, is computed as follows:

	Pool ABCD		
	Dec. 31, 1960, inventory at Jan. 1, 1956 base-year cost	Ratio of total current-year cost to total base-year cost	Dec. 31, 1960, inventory at LIFO value
		Percent	
Jan. 1, 1956, base cost	$10,000	100	$10,000
Dec. 31, 1956, increment	1,000	110	1,100
Dec. 31, 1958, increment	5,000	120	6,000
Dec. 31, 1960, increment	4,000	125	5,000
Total	20,000		22,100

(b) The extension of the quantity items A, B, C, and D at respective base-year unit costs is as follows:

Item	Quantity	Base-year unit cost	Amount
A	2,000	$2	$4,000
B	1,000	3	3,000
C	1,000	5	5,000
D	4,000	2	8,000
Total			20,000

(c) Under the provisions of this section the taxpayer separates former pool ABCD into two pools, pool AB and pool CD. The computation of the ratio of total base-year cost for each of the new pools to the base-year cost of the former pool is as follows:

Item	Total base-year cost	Ratio
Pool AB:		
A	$4,000	
B	3,000	
	7,000	7,000/20,000
Pool CD:		
C	5,000	
D	8,000	
	13,000	13,000/20,000
Total for pool ABCD	20,000	

(d) The ratio of the base-year cost of new pools AB and CD to the base-year cost of former pool ABCD is 7,000/20,000 and 13,000/20,000, respectively. The allocation of the January 1, 1956 base cost and subsequent yearly layers of increment of former pool ABCD to new pools AB and CD is as follows:

	Base-year cost to be allocated	Pool AB	Pool CD
Jan. 1, 1956, base cost	$10,000	$3,500	$6,500
Dec. 31, 1956, increment	1,000	350	650
Dec. 31, 1958, increment	5,000	1,750	3,250
Dec. 31, 1960, increment	4,000	1,400	2,600
Total	20,000	7,000	13,000

(e) The LIFO value of new pools AB and CD at December 31, 1960, as allocated, is as follows:

	Dec. 31, 1960, inventory at Jan. 1, 1956, base-year cost	Ratio of total current-year cost to total base-year cost	Dec. 31, 1960, inventory at LIFO value
Pool AB		*Percent*	
Jan. 1, 1956, base cost	$3,500	100	$3,500
Dec. 31, 1956, increment	350	110	385
Dec. 31, 1958, increment	1,750	120	2,100
Dec. 31, 1960, increment	1,400	125	1,750
Total	7,000		7,735
Pool CD			
Jan. 1, 1956, base cost	6,500	100	6,500
Dec. 31, 1956, increment	650	110	715
Dec. 31, 1958, increment	3,250	120	3,900
Dec. 31, 1960, increment	2,600	125	3,250
Total	13,000		14,365

(iii) Where the taxpayer is permitted or required to combine two or more pools having the same base year, they shall be combined into one pool in the following manner: The LIFO value of the base-year inventory of each of the former pools is combined to obtain a LIFO value of the base-year inventory for the new pool. Then, any layers of increment in the various pools which occurred in the same taxable year are combined into one total layer of increment for that taxable year. However, layers of increment which occurred in different taxable years may not be combined. In combining the layers of increment a new ratio of current-year cost to base-year cost is computed for each of the combined layers of increment. The foregoing may be illustrated by the following example:

Example. (a) Assume the taxpayer has two pools at December 31, 1960. Under the provisions of this section the taxpayer combines these pools into a single pool as of January 1, 1961. The LIFO inventory value of each pool at December 31, 1960, is shown as follows:

	Dec. 31, 1960, inventory at Jan. 1, 1957, base-year cost	Ratio of total current-year cost to total base-year cost	Dec. 31, 1960, inventory at LIFO value
Pool No. 1		*Percent*	
Jan. 1, 1957, base cost	$10,000	100	$10,000
Dec. 31, 1957, increment	2,000	110	2,200
Dec. 31, 1960, increment	1,000	120	1,200
Total	13,000		13,400
Pool No. 2			
Jan. 1, 1957, base cost	5,000	100	5,000
Dec. 31, 1960, increment	3,000	140	4,200
Total	8,000		9,200

(b) The computation of the ratio of the total current-year cost to the total base-year cost for the base year and each yearly layer of increment in the new pool is as follows:

Pool	Base year 1957	Increments Dec. 31, 1957	Dec. 31, 1960
No. 1:			
Base-year cost	$10,000	$2,000	$1,000
LIFO value	10,000	2,200	1,200
No. 2:			
Base-year cost	5,000		3,000
LIFO value	5,000		4,200
Total, base-year cost	15,000	2,000	4,000
Total, LIFO value	15,000	2,200	5,400
Ratio of total current-year cost to total base-year cost (percent)	100	110	135

(c) On the basis of the foregoing computations, the LIFO inventory of the new pool at December 31, 1960, is restated as follows:

	Dec. 31, 1960, inventory at Jan. 1, 1957, base-year cost	Ratio of total current-year cost to total base-year cost	Dec. 31, 1960, inventory at LIFO value
		Percent	
Jan. 1, 1957, base cost	$15,000	100	$15,000
Dec. 31, 1957, increment	2,000	110	2,200
Dec. 31, 1960, increment	4,000	135	5,400
Total	21,000		22,600

(iv) In combining pools having different base years, the principles set forth in subdivision (iii) of this subparagraph are to be applied, except that all base years subsequent to the earliest base year shall be treated as increments, and the base-year costs for all pools having a base year subsequent to the earliest base year of any pool shall be redetermined in terms of the base cost for the earliest base year. The foregoing may be illustrated by the following example:

Example. (a) Assume that the taxpayer has two pools at December 31, 1960. Under the provisions of this section the taxpayer combines these pools into a single pool as of January 1, 1961. The LIFO inventory value of each pool at December 31, 1960, is shown as follows:

	Dec. 31, 1960, inventory at Jan. 1, 1956, base-year cost	Ratio of total current-year cost to total base-year cost	Dec. 31, 1960, inventory at LIFO value
Pool No. 1		*Percent*	
Jan. 1, 1956, base cost	$7,000	100	$7,000
Dec. 31, 1956, increment	1,000	105	1,050
Dec. 31, 1957, increment	500	110	550
Dec. 31, 1958, increment	500	110	550
Dec. 31, 1960, increment	1,000	120	1,200
Total	10,000		10,350
	Dec. 31, 1960, inventory at Jan. 1, 1958, base-year cost		
Pool No. 2			
Jan. 1, 1958, base cost	$3,500	100	$3,500
Dec. 31, 1958, increment	1,000	110	1,100
Dec. 31, 1959, increment	500	115	575
Total	5,000		5,175

(b) The next step is to redetermine the 1958 base-year cost for Pool No. 2 in terms of 1956 base-year cost. January 1, 1956 base-year unit cost must be reconstructed or established in accordance with paragraph (e) (2) of this section for each item in Pool No. 2. Such costs are assumed to be $9.00 for item A, $20.00 for item B, and $1.80 for item C. A ratio of the 1958 total base-year cost to the 1956 total base-year cost for Pool No. 2 is computed as follows:

Item	Quantity	Jan. 1, 1956, base-year unit cost	Jan. 1, 1956, base-year cost
A	250	$9.00	$2,250
B	75	20.00	1,500
C	500	1.80	900
Total			4,650

Item	Quantity	Jan. 1, 1958, base-year unit cost	Jan. 1, 1958, base-year cost
A	250	$10.00	$2,500
B	75	20.00	1,500
C	500	2.00	1,000
Total			5,000

(c) The ratio of the 1956 total base-year cost to the 1958 total base-year cost for Pool No. 2 is 4,650/5,000 or 93 percent. The January 1, 1958 base cost and each yearly layer of increment at 1958 base-year cost is multi-

plied by this ratio. Such computation is as follows:

	Dec. 31, 1960, inventory at Jan. 1, 1958, base-year cost	Ratio	Dec. 31, 1960, inventory restated at Jan. 1, 1956, base-year cost
		Percent	
Jan. 1, 1958, base cost	$3,500	93	$3,255
Dec. 31, 1958, increment	1,000	93	930
Dec. 31, 1959, increment	500	93	465
Total			4,650

(*d*) The computation of the ratio of the total current-year cost to the total base-year cost for the base year (1956) and each yearly layer of increment in the new pool is as follows:

Pool	Base year 1956	Increments				
		Dec. 31, 1956	Dec. 31, 1957	Dec. 31, 1958	Dec. 31, 1959	Dec. 31, 1960
No. 1:						
Base-year cost	$7,000	$1,000	$500	$500		$1,000
LIFO value	7,000	1,050	550	550		1,200
No. 2:						
Base-year cost as restated			3,255	930	$465	
LIFO value			3,500	1,100	575	
Total, base-year cost	7,000	1,000	3,755	1,430	465	1,000
Total, LIFO value	7,000	1,050	4,050	1,650	575	1,200
Ratio of total current-year cost to total base-year cost (percent)	100.00	105.00	107.86	115.38	123.66	120.00

(*e*) On the basis of the foregoing computation, the LIFO inventory of the new pool at December 31, 1960, is restated as follows:

	Dec. 31, 1960, inventory at Jan. 1, 1956, base-year cost	Ratio of total current-year cost to total base-year cost	Dec. 31, 1960, inventory at LIFO value
		Percent	
Jan. 1, 1956, base cost	$7,000	100.00	$7,000
Dec. 31, 1956, increment	1,000	105.00	1,050
Dec. 31, 1957, increment	3,755	107.86	4,050
Dec. 31, 1958, increment	1,430	115.38	1,650
Dec. 31, 1959, increment	465	123.66	575
Dec. 31, 1960, increment	1,000	120.00	1,200
Total	14,650		15,525

(3) *Change in methods of computation of the LIFO value of a dollar-value pool.* For the first taxable year beginning after December 31, 1960, the taxpayer must use a method authorized by paragraph (e)(1) of this section in computing the base-year cost and current-year cost of a dollar-value inventory pool for the end of such year. If the taxpayer had previously used any methods other than one authorized by paragraph (e)(1) of this section, he shall not be required to recompute his LIFO inventories for taxable years beginning on or before December 31, 1960, under a method authorized by such paragraph. The base cost and layers of increment previously computed by such other method shall be retained and treated as if such base cost and layers of increment had been computed under a method authorized by paragraph (e)(1) of this section. The taxpayer shall use the year of change as the base year in applying the double-extension method or other method approved by the Commissioner, instead of the earliest year for which he adopted the LIFO method for any items in the pool.

(h) *Change without consent in method of pooling*—(1) *Authorization.* Notwithstanding the provisions of paragraph (g) of this section, a taxpayer, for his first taxable year ending more than 90 days after the date of publication of these regulations in the FEDERAL REGISTER as a Treasury decision, may change from one method of pooling authorized by this section to any other method of pooling authorized by this section provided the requirements of subparagraph (2) of this paragraph are met. The method of pooling adopted shall be used for the year of change and for all subsequent taxable years unless a change is required by the Commissioner in order to clearly reflect income, or unless permission to change is granted by the Commissioner as provided in paragraph (e) of § 1.446–1.

(2) *Requirements.* A statement shall be attached to the income tax return for the year of change referred to in subparagraph (1) of this paragraph setting forth, in summary form, the following information:

(i) A description of the new pool or pools,

(ii) The basis for selection of the new pool or pools,

(iii) A schedule showing the computation of the LIFO value of the former pool or pools, and,

(iv) A schedule showing the transition from the former pool or pools to the new pool or pools.

In addition, a copy of the statement shall be filed with the Commissioner of Internal Revenue, Attention: T:R, Washington 25, D.C. The taxpayer shall submit such other information with respect to the change in method of pooling as may be requested.

[F.R. Doc. 60–11068; Filed, Nov. 30, 1960; 8:45 a.m.]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 51]

UNITED STATES STANDARDS FOR FLORIDA GRAPEFRUIT [1]

Bronze Grade

Notice is hereby given that the United State Department of Agriculture is considering the amendment of § 51.754 of United States Standards for Grades of Florida Grapefruit (7 CFR 51.750 to 51.783) pursuant to the authority contained in the Agricultural Marketing Act of 1946 (secs. 202–208, 60 Stat. 1087, as amended; 7 U.S.C. 1621–1627).

Statement of considerations leading to the proposed amended U.S. No. 1 Bronze grade in the United States standards for grades of Florida grapefruit. It is proposed to amend the U.S. No. 1 Bronze grade pertaining to the amount of rust mite type discoloration required.

The existing Bronze grade which became effective September 15, 1960 requires that the predominating discoloration on each fruit must be of rust mite type. The proposed amended grade would require that more than 30 percent of the fruits shall have more than one-third of the surface, in the aggregate, affected by discoloration, which must consist predominantly of rust mite type.

The present Bronze grade has been found to be unrealistic from the grading and sorting standpoint. The wording in the present grade requires the careful evaluation of the area and types of discoloration on each individual fruit to assure that rust mite type predominates. On fruit showing a small amount of discoloration this is unimportant from the standpoint of the general appearance of the lot.

In the proposed amended grade rust mite type discoloration must predominate only on fruits showing more than ⅓ of the surface discolored. This will accomplish the elimination of a large amount of other more objectionable types of discolorations. The proposed wording change will facilitate the sorting procedure, eliminating prohibitively tedious and expensive evaluation of the discoloration on each individual fruit. The proposed amendment should assist in providing a more uniform flow of Bronze grade fruit to market.

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed amendment should file the same with the Chief, Fresh Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, South Building, Washington 25, D.C., not later than December 15, 1960.

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable State laws and regulations.

Section 51.754 as amended, follows:

§ 51.754 **U.S. No. 1 Bronze.**

The requirements of this grade are the same as for U.S. No. 1 except that all fruits must show some discoloration. More than 30 percent, by count, of the fruits shall have more than one-third of the surface, in the aggregate, affected by discoloration; the predominating discoloration on these fruits shall be of rust mite type.

Dated: November 25, 1960.

ROY W. LENNARTSON,
Deputy Administrator, Marketing Services.

[F.R. Doc. 60–11154; Filed, Nov. 30, 1960; 8:47 a.m.]

[7 CFR Part 51]

UNITED STATES STANDARDS FOR FLORIDA ORANGES AND TANGELOS [1]

Bronze Grade

Notice is hereby given that the United States Department of Agriculture is considering the amendment of § 51.1145 of United States Standards for Grades of Florida Oranges and Tangelos (7 CFR 51.1140 to 51.1178) pursuant to the authority contained in the Agricultural Marketing Act of 1946 (secs. 202–208, 60 Stat. 1087, as amended; 7 U.S.C. 1621–1627).

Statement of considerations leading to the proposed amended U.S. No. 1 Bronze grade in the United States standards for grades of Florida oranges and tangelos. It is proposed to amend the U.S. No. 1 Bronze grade pertaining to the amount of rust mite type discoloration required.

The existing Bronze grade which became effective September 15, 1960 requires that the predominating discoloration on each fruit must be of rust mite type. The proposed amended grade would require that more than 30 percent of the fruits shall have more than one-third of the surface, in the aggregate, affected by discoloration, which must consist predominately of rust mite type.

The present Bronze grade has been found to be unrealistic from the grading and sorting standpoint. The wording in the present grade requires the careful evaluation of the area and types of discoloration on each individual fruit to assure that rust mite type predominates. On fruit showing a small amount of discoloration this is unimportant from the standpoint of the general appearance of the lot.

In the proposed amended grade rust mite type discoloration must predominate only on fruits showing more than one-third of the surface discolored. This will accomplish the elimination of a large amount of other more objectionable types of discolorations. The proposed wording change will facilitate the sorting procedure, eliminating prohibitively tedious and expensive evaluation of the discoloration on each individual fruit. The proposed amendment should assist in providing a more uniform flow of Bronze grade fruit to market.

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed amendment should file the same with the Chief, Fresh Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, South Building, Washington 25, D.C., not later than December 15, 1960.

Section 51.1145 as amended, follows:

§ 51.1145 **U.S. No. 1 Bronze.**

The requirements of this grade are the same as for U.S. No. 1 except that all fruits must show some discoloration. More than 30 percent, by count, of the fruits shall have more than one-third of the surface, in the aggregate, affected by discoloration; the predominating discoloration on these fruits shall be of rust mite type.

Dated: November 25, 1960.

ROY W. LENNARTSON,
Deputy Administrator, Marketing Services.

[F.R. Doc. 60–11155; Filed, Nov. 30, 1960; 8:47 a.m.]

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable State laws and regulations.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 176]

LEAD AND ZINC MINING OPERATIONS AND LEASES, QUAPAW AGENCY

Other Minerals and Deep-Lying Lead and Zinc Minerals

Basis and purpose. Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by section 26 of the Act of March 3, 1921 (41 Stat. 1248) and the Act of March 3, 1909 (35 Stat. 783), it is proposed to amend 25 CFR Part 176 as set forth below. The purpose of the amendment is to refer to 25 CFR Part 172 for regulations for leasing Quapaw Indian lands for mining minerals other than lead and zinc and for lead and zinc and associate minerals which may be found at depths below the horizon of the rock stratum known as the Reed Springs Formation.

It is the policy of the Department of the Interior whenever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed amendment to the Commissioner of Indian Affairs, Department of the Interior, Washington 25, D.C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

Section 176.25 is amended to change the heading and present text and to read as follows:

§ 176.25 **Other minerals and deep-lying lead and zinc minerals.**

Except as provided in § 176.6(b), leases on Quapaw Indian lands, for mining minerals other than lead and zinc and for lead and zinc and associated minerals below the horizon of the rock stratum known as the Reed Springs Formation, shall be made pursuant to the provisions of Part 172 of this subchapter.

GEORGE W. ABBOTT,
Assistant Secretary of the Interior.

NOVEMBER 25, 1960.

FOOD ADDITIVES

Notice of Filing of Petition

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786; 21 U.S.C. 348(b)(5)), notice is given that a petition has been filed by Japan Chemical Research and Industries, Ltd., No. 5, 1-Chome, Kyobashi, Chou-Ku, Tokyo, Japan, proposing the issuance of a regulation to provide for the use of certain resins in can enamels.

Dated: November 23, 1960.

[SEAL] J. K. KIRK,
Assistant to the Commissioner of Food and Drugs.

[F.R. Doc. 60–11166; Filed, Nov. 30, 1960; 8:49 a.m.]

FEDERAL AVIATION AGENCY

[14 CFR Part 41]

[Regulatory Docket No. 582; Draft Release No. 60–19]

CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

Notice of Proposed Rule Making

Pursuant to the authority delegated to me by the Administrator (14 CFR 405.27), notice is hereby given that the Federal Aviation Agency (FAA) has under consideration a proposal to revise Part 41 of the Civil Air Regulations as hereinafter set forth:

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Docket Section of the Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. prior to March 1, 1961. Thereafter, such comments will be available in the Docket Section to all interested persons. After examination of the original comments received, interested persons may submit such additional comments in response thereto as they may desire. Such additional comments must be submitted prior to April 1, 1961. (Photostatic copies of comments on file in the Docket Section may be obtained upon payment of the cost of such copies). All original comments and additional comments in response thereto received by the dates specified for receipt thereof will be considered by the Administrator before taking action on the proposed rules. The proposals contained in this notice may be changed in the light of the comments received.

A revision of Part 41 of the Civil Air Regulations has been under consideration for some time, the last proposed revision having been circulated by the Civil Aeronautics Board in Draft Release 58-24, dated December 24, 1958 (24 F.R. 145).

While this proposal takes cognizance of those areas wherein scheduled international air carrier operations differ from those of scheduled domestic air carriers, it also recognizes the many areas in which such operations are similar, and attempts to achieve as much uniformity as is practicable between the regulations of Parts 40 and 41 in such areas.

All of the operations specifications currently issued to Part 41 air carriers contain certain rules which are substantively the same. Since these rules are standard in nature, it is appropriate to remove them from the individual operations specifications of the air carriers and incorporate them, without substantive change, in revised Part 41 as rules of general applicability. This has been done in this proposal with respect to some of the standard provisions presently contained in the operations specifications of the individual Part 41 air carriers. The Agency proposes to incorporate other such standard provisions, without substantive change, into revised Part 41 as finally adopted.

This proposal incorporates into revised Part 41 certain rules and interpretive material related to the basic regulation which heretofore have been published separately in a Civil Aeronautics Manual. In addition, it will be noted that an Appendix A has been added in this proposal which sets forth in detail the required first-aid and survival equipment approved by FAA.

Many of the provisions appearing in Draft Release 58-24 have been changed in this proposal. A number of these changes reflect pertinent amendments to the Civil Air Regulations which have been adopted since the circulation of Draft Release 58-24. Other changes are the result of evaluation of comments received in response to that draft release and reflect the current views of the Federal Aviation Agency with regard to the rules governing air carrier operations in overseas and foreign air transportation.

The differences between the provisions of this proposal and those in current Part 41 and previous Draft Release 58-24 are too numerous to be listed in their entirety. However, some significant differences reflected in this current proposal are as follows:

1. Section 41.1 *Applicability:* A provision has been added to the applicability section to make it clear that certain of the rules prescribed in the part apply to individual persons other than the air carrier itself.

2. Sections 41.19 and 41.20 *Contents and utilization of operations specifications:* Provisions have been added to § 41.19 to require basic information regarding airplanes operated by an air carrier to be included in its operations specifications. A requirement has been added to § 41.20 to insure that provisions of the operations specifications inserted in the air carrier's manual can be readily identified as such.

3. Section 41.30 *General route requirements:* This section has been clarified with respect to the showing required to obtain approval of routes.

4. Section 41.32 *Width of routes:* This section has been revised to specify, with greater particularity, widths for various approved routes.

5. Section 41.36 *En route navigational facilities:* A provision has been added to make it clear that navigational facilities on approved routes outside of controlled airspace will be specified in the air carrier operations specifications.

6. Section 41.53 *Airplane Flight Manual:* A provision has been added which will insure that when required sections of the Airplane Flight Manual are incorporated into the Air Carrier Manual they will not lose their identity.

7. Sections 41.70 and 41.90 *Transport and nontransport category airplane operating limitations:* The Agency believes that large cargo-carrying airplanes should be required by regulation to meet the same performance operating limitations standards as passenger-carrying airplanes. Such a requirement is considered necessary for the protection of the public in the vicinity of airports and also to insure the safety of the airplane and flight crew during en route flight over high terrain. Accordingly, §§ 41.70 and 41.90 have been revised by deleting those terms which limit the applicability of the current sections to passenger-carrying airplanes only.

8. Section 41.111 *Fire prevention—cargo airplanes:* This section has been added to make provisions for fire prevention applicable to cargo-only airplanes.

9. Section 41.115 *Fire precautions:* Paragraph (e) of this section brings the regulation into conformity with Part 4b of the Civil Air Regulations with respect to Class "E" compartments in cargo-only airplanes.

10. Section 41.153 *Carriage of cargo in passenger compartments:* This section has been revised to include provisions for approved bins to be located in the passenger compartment.

11. Section 41.173 *Emergency equipment for all operations:* This section reflects requirements for approval of emergency equipment. It would require first-aid kits to be approved in accordance with the applicable provisions of Appendix A.

12. Section 41.174 *Seats and safety belts for all occupants:* The provisions of this section have been revised to specify more clearly seat and safety belt requirements for occupants of air carrier airplanes. As revised, the rule would require each person on board the airplane to occupy a seat or berth with a safety belt fastened during takeoff and landing.

13. Section 41.179 *Shoulder harness:* A new provision has been added to require all airplanes to be equipped with shoulder harnesses at the pilot and flight engineer stations.

14. Sections 41.206 and 41.208 *Equipment for operations over water and uninhabited terrain:* These sections would require survival equipment for operations over water and uninhabited terrain to be approved in accordance with the applicable provisions of Appendix A.

15. Section 41.209 *Equipment for operations on which specialized means of navigation are required:* This section would require the air carrier to show that sufficient and adequate navigation equipment is provided in the aircraft to accomplish the specialized navigation required on each route.

16. Section 41.243 *Maintenance and inspection personnel duty time limitations:* This section would provide duty time limitations for maintenance and inspection personnel located within the United States, its Territories and possessions.

17. Section 41.262 *Flight navigator:* This section elaborates on the requirements for inclusion of a flight navigator in the flight crew and specifies in detail the criteria which will be used in determining when a navigator is required.

18. Section 41.265 *Flight attendant:* Considering the problems associated with evacuation, decompression, and other possible emergency situations, it is provided in this section that when more than 100 passengers are carried, the air carrier shall assign at least 3 flight attendants to serve on the aircraft.

19. Section 41.267 *Assignment of emergency evacuation functions for each crewmember:* In order to insure crew coordination and familiarity of all crewmembers with emergency functions, this section has been revised to require the air carrier to show that such functions are realistic and capable of accomplishment, and to require all such functions to be executed by all crewmembers in the course of their participation in the approved training program.

20. Sections 41.303 and 41.304 *Pilot route and airport qualification requirements:* The airport qualification requirements have been revised to provide that a pilot may be dispatched to an airport without prior entry provided initial entry is made at higher than normally authorized minimums. In addition, a pilot would be required to accomplish more stringent ground qualification procedures in order to become route and airport qualified.

21. Section 41.310 *Aircraft dispatcher qualification for duty:* The provisions of this section are similar to those currently in Part 40. In order to dispatch aircraft in his area of jurisdiction, a dispatcher would be required to make at least one round trip each 12 months over a representative route in his area.

22. Section 41.320 *Flight time limitations:* Due to the complexity of the issues inherent in flight time limitations for flight crewmembers, the Bureau is making a separate study of the current limitations and will present proposals to amend them in a separate rule making proceeding. Accordingly, the currently effective flight time limitations for flight crewmembers are retained in this proposal with the understanding that they will be the subject of a separate and subsequent proposal.

23. Section 41.356 *Admission to flight deck:* For purposes of clarification, the provisions of this section have been revised to include a definition of the term "flight deck."

24. Section 41.359 *Operations over approved routes required:* This section, the substance of which presently appears in individual operations specifications of the air carriers, has general application and is, therefore, being incorporated into Part 41, so that it may be deleted from the individual operations specifications of the air carriers.

25. Section 41.387 *Dispatching under IFR, over-the-top, or over water:* This provision eliminates the long- and short-range requirements contained in current Part 41 and provides for dispatch to destination, requiring that both destination and alternates be forecast to be above minimums at time of arrival. This provision applies the same standards as are currently applicable to Part 40 air carriers. Redispatch in flight is provided for in § 41.393.

26. Section 41.396 *Fuel supply for all operations:* The provisions of this section proposed for reciprocating and turbo-propeller-powered airplanes are considered adequate for safe operations and more realistic than present requirements in view of the related dispatch rules proposed in this revision. The fuel requirements proposed for turbo jet airplanes are the same as those currently contained in Special Civil Air Regulation No. SR-427B.

27. Section 41.397 *Factors involved in computing fuel required:* In order to clarify the issues involved in fuel planning, a provision has been added requiring consideration to be given to the possibility of having to conduct an instrument approach and climb back to altitude for flight to an alternate airport, when planning fuel requirements for operations.

This revision is proposed under the authority of Titles III and VI, and section 1102 of the Federal Aviation Act of 1958.

(72 Stat. 744-754, 775-780, and 797; 49 U.S.C. 1341-1355, 1421-1430, and 1502)

Issued in Washington, D.C., on November 25, 1960.

OSCAR BAKKE,
Director,
Bureau of Flight Standards.

Proposed revision of Part 41 of the Civil Air Regulations:

APPLICABILITY AND DEFINITIONS

Sec.
41.1 Applicability of this part.
41.2 Additional rules applicable to operations subject to this part.
41.5 Definitions.

CERTIFICATION RULES AND OPERATIONS SPECIFICATIONS REQUIREMENTS

41.10 Certificate required.
41.13 Issuance of certificate.
41.15 Display of certificate and operations specifications.
41.16 Duration of certificate.
41.18 Operations specifications required.
41.19 Contents of operations specifications.
41.20 Utilization of operations specifications.
41.21 Amendment of operations specifications.
41.22 Inspection authority.
41.23 Operations and maintenance base and office.

REQUIREMENTS FOR APPROVAL OF ROUTES

41.30 General route requirements.
41.32 Width of routes.
41.33 Airports.
41.34 Communications facilities.
41.35 Weather reporting facilities.
41.36 En route navigational facilities.
41.37 Servicing and maintenance facilities.
41.38 Location of dispatch centers.

MANUAL REQUIREMENTS

41.50 Preparation of Air Carrier Manual.
41.51 Contents of Air Carrier Manual.
41.52 Distribution of Air Carrier Manual.
41.53 Airplane Flight Manual.

AIRPLANE REQUIREMENTS

41.60 General.
41.61 Airplane certification requirements.
41.62 Airplane limitation for type of route.
41.63 Proving tests.

AIRPLANE PERFORMANCE OPERATING LIMITATIONS; TRANSPORT CATEGORY

41.70 Transport category airplane operating limitations.
41.71 Weight limitations.
41.72 Takeoff limitations to provide for engine failure.
41.73 En route limitations; all engines operating.
41.74 En route limitations; one engine inoperative.
41.75 En route limitations; two engines inoperative.
41.76 Special en route limitations.
41.77 Landing distance limitations; airport of destination.
41.78 Landing distance limitations; alternate airports.

AIRPLANE PERFORMANCE OPERATING LIMITATIONS; NONTRANSPORT CATEGORY

41.90 Nontransport category airplane operating limitations.
41.91 Takeoff limitations.
41.92 En route limitations; one engine inoperative.
41.93 Landing distance limitations; airport of intended destination.
41.94 Landing distance limitations; alternate airports.

SPECIAL AIRWORTHINESS REQUIREMENTS

41.110 Fire prevention; passenger airplanes.
41.111 Fire prevention; cargo airplanes.
41.112 Cabin interiors.
41.113 Internal doors.
41.114 Ventilation.
41.115 Fire precautions.
41.116 Proof of compliance.
41.117 Propeller de-icing fluid.
41.118 Pressure cross-feed arrangements.
41.119 Location of fuel tanks.
41.120 Fuel system lines and fittings.
41.121 Fuel lines and fittings in designated fire zones.
41.122 Fuel valves.
41.123 Oil lines and fittings in designated fire zones.
41.124 Oil valves.
41.125 Oil system drains.
41.126 Engine breather line.
41.127 Fire walls.
41.128 Fire-wall construction.
41.129 Cowling.
41.130 Engine accessory section diaphragm.
41.131 Powerplant fire protection.
41.132 Flammable fluids.
41.133 Shutoff means.
41.134 Lines and fittings.
41.135 Vent and drain lines.
41.136 Fire-extinguishing systems.
41.137 Fire-extinguishing agents.
41.138 Extinguishing agent container pressure relief.
41.139 Extinguishing agent container compartment temperature.
41.140 Fire-extinguishing system materials.
41.141 Fire-detector systems.
41.142 Fire detectors.
41.143 Protection of other airplane components against fire.
41.150 Control of engine rotation.
41.151 Fuel system independence.
41.152 Induction system ice prevention.
41.153 Carriage of cargo in passenger compartments.
41.154 Carriage of cargo in cargo compartments.

INSTRUMENTS AND EQUIPMENT FOR ALL OPERATIONS

41.170 Airplane instruments and equipment for all operations.
41.171 Flight and navigational equipment for all operations.
41.172 Engine instruments for all operations.
41.173 Emergency equipment for all operations.
41.174 Seats and safety belts for all occupants.
41.175 Miscellaneous equipment for all operations.
41.176 Cockpit check procedure.
41.177 Passenger information for all operations.
41.178 Exterior exit and evacuation markings for all operations.
41.179 Shoulder harness.

INSTRUMENTS AND EQUIPMENT FOR SPECIAL OPERATIONS

41.200 Instruments and equipment for operations at night.
41.201 Instruments and equipment for operations under IFR or over-the-top.
41.202 Supplemental oxygen; reciprocating-engine-powered airplanes.
41.202-T Supplemental oxygen for sustenance; turbine-powered airplanes.
41.203 Supplemental oxygen requirements for pressurized cabin airplanes; reciprocating-engine-powered airplanes.
41.203-T Supplemental oxygen for emergency descent and for first aid; turbine-powered airplanes with pressurized cabins.
41.204 Equipment standards.
41.205 Protective breathing equipment for the flight crew.
41.206 Equipment for extended overwater operations.
41.207 Equipment for operations in icing conditions.
41.208 Equipment for operations over frigid and tropical land areas.
41.209 Equipment for operations on which specialized means of navigation are required.
41.210 Flight recorders.

RADIO EQUIPMENT

Sec.
41.230 Radio equipment.
41.231 Radio equipment for operations under VFR over routes navigated by pilotage.
41.232 Radio equipment for operations under VFR over routes not navigated by pilotage or for operations under IFR or over-the-top.
41.233 Radio equipment for extended overwater operations and for certain other operations.

MAINTENANCE AND INSPECTION REQUIREMENTS

41.240 Responsibility for maintenance.
41.241 Maintenance and inspection requirements.
41.242 Maintenance and inspection training program.
41.243 Maintenance and inspection personnel duty time limitations.

AIRMEN AND CREWMEMBER REQUIREMENTS

41.260 Utilization of airman.
41.261 Composition of flight crew.
41.262 Flight navigator.
41.263 Flight engineer.
41.265 Flight attendant.
41.266 Aircraft dispatcher.
41.267 Assignment of emergency evacuation functions for each crewmember.

TRAINING PROGRAM

41.280 Establishment of approved program.
41.281 Pilot ground training.
41.282 Pilot flight training.
41.283 Flight navigator training.
41.284 Flight engineer training.
41.285 Crewmember emergency training.
41.286 Aircraft dispatcher training.

FLIGHT CREWMEMBER AND DISPATCHER QUALIFICATION

41.300 Qualification requirements.
41.301 Pilot recent experience.
41.302 Pilot checks.
41.303 Pilot route and airport qualification requirements.
41.304 Maintenance and reestablishment of pilot route and airport qualifications for particular trips.
41.305 Proficiency checks; second in command.
41.306 Flight navigator qualification for duty.
41.307 Flight engineer qualification for duty.
41.310 Aircraft dispatcher qualification for duty.

FLIGHT TIME LIMITATIONS

41.320 Flight time limitations for aircraft having a crew of one or two pilots.
41.321 Flight time limitations for aircraft having two pilots and one additional flight crewmember.
41.322 Flight time limitations for aircraft having three or more pilots and an additional flight crewmember.
41.323 Flight time limitations for pilots not regularly assigned.
41.324 Deadhead transportation.
41.325 Other commercial flying.
41.326 Flight time limitations; flight engineer.
41.327 Flight time limitations; flight navigator.

DUTY TIME LIMITATIONS: AIRCRAFT DISPATCHER

41.340 Aircraft dispatcher daily duty time limitations.

FLIGHT OPERATIONS

41.351 Operational control.
41.352 Operations notices.
41.353 Operations schedules.
41.354 Flight crewmembers at controls.
41.355 Manipulation of controls.
41.356 Admission to flight deck.
41.357 Flying equipment.

Sec.
41.358 Restriction or suspension of operation.
41.359 Operations over approved routes rerequired.
41.360 Emergency decisions; pilot in command aircraft dispatcher.
41.361 Reporting potentially hazardous meteorological conditions and irregularities of ground and navigational facilities.
41.362 Reporting mechanical irregularities.
41.363 Engine failure or precautionary stoppage.
41.364 Instrument approach and IFR landing procedures.
41.365 Requirements for air carrier equipment interchange.
41.370 Briefing of passengers.
41.371 Drinking and serving of alcoholic beverages.

DISPATCHING RULES

41.381 Necessity for dispatching authority.
41.382 Familiarity with weather conditions.
41.383 Facilities and services.
41.384 Airplane equipment required for dispatch.
41.385 Communications and navigational facilities required for dispatch.
41.386 Dispatching under VFR.
41.387 Dispatching under IFR, over-the-top, or over water.
41.388 Alternate airport for departure.
41.389 Alternate airport for destination; IFR or over-the-top.
41.390 Alternate airport weather minimums.
41.391 Continuance of flight; flight hazards.
41.392 Operation in icing conditions.
41.393 Original dispatch, redispatch, and continuance of flight.
41.394 Dispatch to and from refueling and provisional airports.
41.395 Takeoffs and landings at alternate airports and at airports not listed in the operations specifications.
41.396 Fuel supply for all operations.
41.397 Factors involved in computing fuel required.
41.405 Takeoff and landing weather minimums: VFR.
41.406 Takeoff and landing weather minimums: IFR.
41.407 Applicability of reported weather minimums.
41.408 Flight altitude rules.
41.409 Altitude maintenance on initial approach.
41.410 Preparation of dispatch release.
41.411 Preparation of load manifest.

REQUIRED RECORDS AND REPORTS

41.501 Crewmember and dispatcher records.
41.502 Dispatch release form.
41.503 Load manifest.
41.504 Disposition of load manifest, dispatch release form, and flight plans.
41.505 Maintenance records.
41.506 Maintenance log.
41.507 Daily mechanical reports.
41.508 Mechanical interruption summary report.
41.509 Alteration and repair reports.
41.510 Maintenance release.
41.511 Communication records.

APPENDIX A—Requirements for approval of first-aid and survival equipment.

APPLICABILITY AND DEFINITIONS

§ 41.1 Applicability of this part.

The provisions of this part are applicable to the following persons:

(a) An air carrier holding a certificate of public convenience and necessity issued by the Board, when it engages in scheduled air transportation between a place in any State of the United States, or the District of Columbia, and any place in a Territory or possession of the United States; or between any place in a Territory or possession of the United States, and a place in any other Territory or possession of the United States; or between places in a Territory or possession of the United States; or between any place in the United States and any place outside thereof; or between any two places outside the United States; or between a place in the State of Alaska and any other state of the United States; or between the State of Hawaii and any other state of the United States;

(b) An Alaskan air carrier and any other air carrier holding a certificate of public convenience and necessity issued by the Board, when it engages in scheduled air carrier operations between points within the State of Alaska or the State of Hawaii; and

(c) Any airman, air agency, or other person employed or used by an air carrier in the conduct of operations subject to this part (including the operation, inspection, maintenance, and overhaul of aircraft), and any person while on board an airplane operated by an air carrier under the provisions of this part.

§ 41.2 Additional rules applicable to operations subject to this part.

Unless otherwise specified in this part or the operations specifications of the air carrier, operations subject to the provisions of this part shall be conducted in compliance with the following additional rules:

(a) *Within the United States.* Parts 43 and 60 of this chapter (Civil Air Regulations).

(b) *Over the high seas.* Part 43 of this chapter (Civil Air Regulations) and Annex 2 (Rules of the Air) to the Convention on International Civil Aviation, except where any rule of this part is more restrictive and may be followed without violating the rules of Annex 2.

(c) *Within a foreign country.* Part 43 of this chapter (Civil Air Regulations) and the air traffic rules of the foreign government and local airport rules, except where any rule of this part is more restrictive and may be followed without violating the rules of such foreign country.

§ 41.5 Definitions.

As used in this part, terms are defined as follows:

Accelerate-stop distance. Accelerate-stop distance is the distance required to accelerate an airplane to a specified speed and, assuming failure of the critical engine at the instant that speed is attained, to bring the airplane to a stop. (See the pertinent airworthiness requirements for the manner in which such distance is determined).

Administrator. The Administrator is the Administrator of the Federal Aviation Agency.

Air carrier. An air carrier is any citizen of the United States who undertakes directly, or by lease or by other arrangement, to engage in air transportation as defined in the Federal Aviation Act of 1958.

Aircraft dispatcher. An aircraft dispatcher is an individual holding a valid aircraft dispatcher certificate issued by the Administrator who exercises responsibility with the pilot in command in the operational control of each flight.

Airframe. Airframe means any and all kinds of fuselages, booms, nacelles, cowlings, fairings, empennages, airfoil surfaces, and landing gear, and all parts, accessories, or controls, of whatever description, appertaining thereto, but not including engines and propellers.

Airplane. An airplane is a power-driven fixed-wing aircraft, heavier than air, which is supported by the dynamic reaction of the air against its wings.

Airport. An airport is an area of land or water which is used, or intended for use, for the landing and takeoff of airplanes.

Alternate airport. An alternate airport is an approved airport to which a flight may proceed if a landing at the airport to which the flight was dispatched becomes inadvisable.

Appliances. Appliances are instruments, equipment, apparatus, parts, appurtenances, or accessories, of whatever description, which are used, or are capable of being or intended to be used, in the navigation, operation, or control of airplanes in flight (including communication equipment, electronic devices, and any other mechanism or mechanisms installed in or attached to airplanes during flight, but excluding parachutes), and which are not a part or parts of airframes, engines, or propellers.

Approved. Approved, when used alone or as modifying terms such as means, method, action, equipment, etc., means approved by the Administrator, or his authorized representative.

Authorized representative of the Administrator. An authorized representative of the Administrator is any employee of the Federal Aviation Agency authorized by the Administrator to perform particular duties of the Administrator under the provisions of this part.

Board. Board means the Civil Aeronautics Board.

Check airman. A check airman is an airman designated by the air carrier and approved by the Administrator to examine other airmen to determine their proficiency with respect to procedures and technique and their competence to perform their respective airman duties.

Crewmember. A crewmember is any individual assigned by an air carrier for the performance of duty on an airplane in flight.

Critical engine. The critical engine is that engine the failure of which gives the most adverse effect on the airplane flight characteristics relative to the case under consideration.

Critical-engine-failure speed, V_1 (transport category airplanes). The critical-engine-failure speed is the airplane speed used in the determination of the takeoff distance required at which the critical engine is assumed to fail. (See the pertinent airworthiness requirements for the manner in which such speed is determined.)

Director. Director means Director, Bureau of Flight Standards, Federal Aviation Agency, or his authorized representative.

Dispatch release. A dispatch release is an authorization issued by an air carrier specifying the conditions for the origination or continuance of a particular flight.

Effective length of runway—(1) *Takeoff.* The effective length of runway for takeoff as used in the takeoff operating limitations for nontransport category airplanes is the distance from the end of the runway at which the take off is started to the point at which the obstruction clearance plane associated with the other end of the runway intersects the centerline of the runway.

(2) *Landing.* The effective length of runway for landing as used in the landing operating limitations for both transport and nontransport category airplanes is the distance from the point at which the obstruction clearance plane associated with the approach end of the runway intersects the centerline of the runway to the far end thereof.

En route. En route means the entire flight from the point of origination to the point of termination, including intermediate stops.

Extended overwater operation. An extended overwater operation is an operation over water conducted at a distance in excess of 50 miles from the nearest shore line.

FAA. FAA means the Federal Aviation Agency.

Fireproof. Fireproof material means a material which will withstand heat equally well or better than steel in dimensions appropriate for the purpose for which it is to be used. When applied to material and parts used to confine fires in designated fire zones, fireproof means that the material or part will perform this function under the most severe conditions of fire and duration likely to occur in such zones.

Fire-resistant. When applied to sheet or structural members, fire-resistant material means a material which will withstand heat equally well or better than aluminum alloy in dimensions appropriate for the purpose for which it is to be used. When applied to fluid-carrying lines, this term refers to a line and fitting assembly which will perform its intended protective functions under the heat and other conditions likely to occur at the particular location.

Flame-resistant. Flame-resistant material means a material which will not support combustion to the point of propagating, beyond safe limits, a flame after the removal of the ignition source.

Flammable. Flammable fluids or gases mean those which will ignite readily or explode.

Flash-resistant. Flash-resistant material means material which will not burn violently when ignited.

Flight crewmember. A flight crewmember is a crewmember assigned to duty on an airplane as a pilot, flight navigator, or flight engineer.

Flight engineer. A flight engineer is an individual holding a valid flight engineer certificate issued by the Administrator and whose primary assigned duty during flight is to assist the pilots in the mechanical operation of an airplane.

Flight navigator. A flight navigator is an individual holding a valid flight navigator certificate issued by the Administrator and who is responsible to the pilot in command for the safe and efficient navigation of the airplane.

Flight time. Flight time is the time from the moment the airplane first moves under its own power for the purpose of flight until it comes to rest at the next point of landing (block-to-block time).

IFR. IFR is the symbol used to designate instrument flight rules.

ILS. ILS is the symbol used to designate instrument landing system.

Maximum certificated takeoff weight. Maximum certificated takeoff weight is the maximum takeoff weight prescribed by the terms of the airplane airworthiness certificate or the Airplane Flight Manual.

Minimum control speed. The minimum control speed is the minimum speed at which an airplane can be safely controlled in flight after an engine suddenly becomes inoperative. (See pertinent airworthiness requirements for the manner in which such speed is determined.)

Month. A month is that period of time extending from the first day of any month as delineated by the calendar through the last day thereof.

Night. Night is the time between the ending of evening civil twilight and the beginning of morning civil twilight as published in the American Air Almanac converted to local time for the locality concerned.

NOTE: The American Air Almanac containing the ending of evening twilight and the beginning of morning twilight tables may be obtained from the Superintendent of Documents, Government Printing Office, Washington 25, D.C. Information is also available concerning such tables in the Offices of the Federal Aviation Agency or the United States Weather Bureau.

Obstruction clearance area—(1) *Takeoff.* A takeoff obstruction clearance area as used in the takeoff operating limitations for nontransport category airplanes is an area on the earth's surface defined as follows: The centerline of the obstruction clearance area in plan view shall coincide with and prolong the centerline of the runway, beginning at the point where the obstruction clearance plane intersects the centerline of the runway and proceeding to a point not less than 1,500 feet from the beginning point. Thereafter the centerline shall proceed in a path consistent with the takeoff procedure for the runway or, where such a procedure has not been established, consistent with turns of at least 4,000-foot radius until a point is reached beyond which the obstruction clearance plane clears all obstructions. The obstruction clearance area shall extend laterally for a distance of 200 feet on each side of the centerline at the point where the obstruction clearance plane intersects the runway and shall continue at this width until the end of the runway; thence it shall increase uniformly to 500 feet on each side of the centerline at a point 1,500 feet from the intersection of the

obstruction clearance plane with the runway; thereafter it shall extend laterally for a distance of 500 feet on each side of the centerline.

(2) *Landing.* A landing obstruction clearance area as used in the landing operating limitations for both transport and nontransport category airplanes is an area on the earth's surface defined as follows: The centerline of the obstruction clearance area in plan view shall coincide with and prolong the centerline of the runway, beginning at the point where the obstruction clearance plane intersects the centerline of the runway and proceeding to a point not less than 1,500 feet from the beginning point. Thereafter the centerline shall proceed in a path consistent with the instrument approach procedure for the runway or, where such a procedure has not been established, consistent with turns of at least 4,000-foot radius until a point is reached beyond which the obstruction clearance plane clears all obstructions. The obstruction clearance area shall extend laterally for a distance of 200 feet on each side of the centerline at the point where the obstruction clearance plane intersects the runway and shall continue at this width until the end of the runway; thence it shall increase uniformly to 500 feet on each side of the centerline at a point 1,500 feet from the intersection of the obstruction clearance plane with the runway; thereafter it shall extend laterally for a distance of 500 feet on each side of the centerline.

Obstruction clearance plane. An obstruction clearance plane is a plane which is tangent to or clears all obstructions within the obstruction clearance area and which slopes upward from the runway at a slope of 1:20 to the horizontal as shown in a profile view of the obstruction clearance area.

Operational control. Operational control is the exercise of authority over initiation, continuation, diversion, or termination of a flight.

Operations specifications. Operations specifications are rules of particular applicability issued by the Director to an air carrier pursuant to the provisions of this part.

Over-the-top. Over-the-top means the operation of an airplane above a layer of clouds or obscuring phenomena that is reported as "broken," "overcast," or "obscuration" and not classified as "thin" or "partial."

PAR. PAR is the symbol used to designate precision approach radar.

Pilot in command. The pilot in command is the pilot designated by the air carrier as the pilot responsible for the operation and safety of the airplane during the time defined as flight time.

Pilotage. Pilotage is navigation by means of visual reference to landmarks.

Point-of-no-return. Point-of-no-return means that point at which the airplane no longer has sufficient fuel under existing conditions to return to the point of departure or any alternate for that point.

Propeller. A propeller is an external device for propelling an airplane through the air, having blades mounted on a power-driven shaft, which when rotated produces by its action on the air a thrust approximately parallel to the longitudinal axis of the airplane.

Provisional airport. A provisional airport is an airport approved for use by an air carrier for the purpose of providing service to a community when the regular airport serving that community is not available.

Rating. A rating is an authorization issued with an airman certificate, and forming a part thereof, delineating special conditions, privileges, or limitations pertaining to such certificate.

Refueling airport. A refueling airport is an airport approved as an airport to which flights may be dispatched only for refueling.

Regular airport. A regular airport is an airport approved as a regular terminal or intermediate stop on an authorized route.

Route. A route is the airspace on either side of a course or courses joining those points on the surface of the earth between which an air carrier is authorized to conduct scheduled operations.

Route segment. A route segment is a portion of a route each terminus of which is identified by: (1) A continental or insular geographic location, or (2) a point at which a definite radio fix can be established.

Runway. A runway is a clearly defined area of an airport suitable for the safe landing or take-off of airplanes.

Second in command. Second in command means a pilot other than the pilot in command who is designated by the air carrier to act as second in command of an airplane.

Show. Show (or shows) means to demonstrate or prove to the satisfaction of the Administrator or his authorized representative prior to the issuance of the air carrier operating certificate and at any time thereafter upon request.

Synthetic trainer. A synthetic trainer is a device, the use of which is approved to simulate certain operating conditions.

Takeoff safety speed, V_2. The takeoff safety speed is the airplane speed used in the determination of the takeoff flight path at which the climb-out following takeoff can be safely executed with one engine inoperative and with the airplane in the takeoff configuration. (See the pertinent airworthiness requirements for the manner in which such speed is determined.)

Time in service. Time in service, as used in computing maintenance time records, is the time from the moment an airplane leaves the ground until it touches the ground at the end of a flight.

Transport category airplane. A transport category airplane is an airplane which has been type certificated in accordance with the requirements of Part 4b of this subchapter or the transport category requirements of Part 4a of this subchapter.

Type. With regard to airman qualifications, type means all airplanes of the same basic design, including all modifications thereto except those modifications which the Administrator has found result in a substantial change in characteristics pertinent to the airman concerned.

VFR. VFR is the symbol used to designate visual flight rules.

V_{s_0}. *V_{s_0}* is the symbol used to designate the true indicated stalling speed or the minimum steady flight speed in the landing configuration.

Week. A week is that period of time extending from the first day of any week as delineated by the calendar through the last day thereof.

Year. A year is that period of time extending from the first day of any year as delineated by the calendar through the last day thereof.

CERTIFICATION RULES AND OPERATIONS SPECIFICATIONS REQUIREMENTS

§ 41.10 Certificate required.

No person subject to this part shall conduct operations without, or in violation of the terms of, an air carrier operating certificate issued by the Director.

NOTE: Applications, and instructions for the preparation thereof, for the issuance or amendment of air carrier operating certificates may be obtained from any FAA Air Carrier Safety District Office.

§ 41.13 Issuance of certificate.

(a) An air carrier operating certificate will be issued to an applicant having a certificate of public convenience and necessity or other appropriate economic authority issued by the Board when after investigation it is found that such applicant is properly and adequately equipped and able to conduct a safe operation in accordance with the requirements of this part and with the operations specifications provided for in this part.

NOTE: Certificates currently in force on the effective date of this part will be deemed to be certificates issued under this part.

(b) Whenever, upon investigation, the Director finds that the general standards of safety required for air carrier operations within Alaska, or for air carrier operations conducted pursuant to a temporary authorization issued under Title IV of the Federal Aviation Act of 1958, require or permit a deviation from any specific requirement of this part for a particular operation or class of operations for which an application for an air carrier operating certificate has been made, he may issue operations specifications prescribing requirements which deviate from the requirements of this part.

(c) An air carrier holding economic authority to engage in scheduled cargo-only operations between any of the places specified in § 41.1 (a) or (b) may, upon application, be authorized by the Director to conduct such operations in accordance with the air carrier certification and operation rules prescribed in Part 42 of this chapter (Civil Air Regulations).

§ 41.15 Display of certificate and operations specifications.

The air carrier operating certificate and operations specifications shall be available at the principal operations office of an air carrier for inspection by an authorized representative of the Administrator.

§ 41.16 Duration of certificate.

An air carrier operating certificate shall remain in effect until termination of the certificate of public convenience and necessity or other economic authorization issued by the Board to the air carrier, or until such operating certificate is surrendered, suspended, revoked, or otherwise terminated by the Administrator. After suspension or revocation it shall be returned to the Director.

§ 41.18 Operations specifications required.

(a) On and after the effective date of this part, all air carrier operations specications currently in force relating to operations subject to the provisions of this part shall cease to be a part of any air carrier operating certificate and shall be deemed to be operations specifications issued under this part. Thereafter new or amended specifications may be issued by the Director for operations subject to this part. Applications for amendments of operations specifications shall be submitted to the local FAA Air Carrier Safety District Office charged with the overall inspection of the air carrier's operations at least 15 days prior to the proposed effective dates of such amendments, unless an authorized representative of such office approves a shorter filing period.

(b) No person shall engage in or conduct any operations to which this part is applicable without, or in violation of, currently effective operations specifications issued under this part.

NOTE: Forms for initial applications for operations specifications will be furnished upon request by any FAA Air Carrier Safety District Office.

§ 41.19 Contents of operations specifications.

The operations specifications will contain the following:

(a) Types of operations authorized;

(b) Types of airplanes authorized for use;

(c) En route authorizations and limitations;

(d) Airport authorizations and limitations;

(e) Time limitation for overhauls, inspections, and checks of airframes, engines, propellers, and appliances, or standards by which such time limitations shall be determined;

(f) Procedures used to maintain control of weight and balance of airplanes;

(g) Interline equipment interchange requirements, if pertinent;

(h) A current list of all airplanes being operated by the air carrier in accordance with its operating certificate, showing the registration number, manufacturer's model, serial number, configuration including the maximum number of authorized passenger and crew seats, and whether the airplane is used in passenger or cargo operations or both, and, if the airplane is not owned by the air carrier, the name of the lessor: *Provided,* That airplanes owned by or under lease to another air carrier and being operated under an interchange agreement need not be listed if the operations specifications incorporate a reference to the agreement and to the operations specifications of such other air carrier in which the airplanes are listed; and

(i) Such additional items as the Director determines, under the enabling provisions of this part, are necessary to cover a particular situation.

§ 41.20 Utilization of operations specifications.

The air carrier shall keep its personnel informed with respect to the contents of the operations specifications and all amendments thereto applicable to the individual's duties and responsibilities. A set of specifications shall be maintained by the air carrier as a separate and complete document. Pertinent excerpts from the specifications or references thereto shall be inserted in the manual issued by the air carrier in such a manner that they do not lose their identity in any respect.

§ 41.21 Amendment of operations specifications.

Any operations specifications may be amended by the Director if he finds that safety in air transportation so requires or permits. Except in the case of an emergency requiring immediate action in respect to safety in air transportation or upon consent of the air carrier concerned, no amendment will become effective prior to thirty days after the date the air carrier has been notified of such amendment.

§ 41.22 Inspection authority.

An authorized representative of the Administrator shall be permitted at any time and place to make inspections or examinations to determine an air carrier's compliance with the requirements of the Federal Aviation Act of 1958, the Civil Air Regulations, the provisions of the air carrier's operating certificate, and the operations specifications.

§ 41.23 Operations and maintenance base and office.

Each air carrier shall, 30 days in advance of a change in the address of its principal business office, its principal operations base, or its principal maintenance base, give written notice thereof to the FAA Air Carrier Safety District Office charged with overall inspection of the air carrier's operations.

REQUIREMENTS FOR APPROVAL OF ROUTES

§ 41.30 General route requirements.

The air carrier shall show for route approvals that it is competent to conduct scheduled operations over any route or route segment to be used between any regular, provisional, or refueling airport, that the facilities and services required by §§ 41.33 through 41.38 are available and adequate for the type of operation proposed, and, for routes outside of controlled airspace, that traffic density does not constitute a hazard. Actual flight over a route or route segment will be required, unless the air carrier shows that such flight is not essential to safety, considering the availability and adequacy of airports, lighting, maintenance, communication, navigation, fueling, ground and aircraft radio facilities, and the competence of personnel to be used in the proposed operation.

§ 41.32 Width of routes.

Routes approved for operations over U.S. Federal airways or foreign airways or advisory routes (ADR's) shall have a width equal to the designated width of such airways or advisory routes. All other approved routes shall have widths specified in the air carrier's operations specifications which the carrier shows will permit a safe operation, considering terrain clearance and minimum en route altitudes, available ground and airborne navigational aids, procedures, systems and equipment, air traffic density, and air traffic control procedures.

§ 41.33 Airports.

The air carrier shall show that each regular, provisional, refueling, and alternate airport on each route is properly equipped and adequate for the type of operations to be conducted. Consideration shall be given to items such as size, surface, obstructions, facilities, public protection, lighting, navigational and communications aids, and traffic control.

NOTE: Criteria to be used are contained in appropriate Technical Standard Orders published by the FAA.

§ 41.34 Communications facilities.

The air carrier shall show that a two-way air/ground radio communication system is available at such points as will insure reliable and rapid communications under normal operating conditions over the entire route, either direct or via approved point-to-point circuits, between airplanes and the appropriate dispatch office, and between airplanes and the appropriate air traffic control unit: *Provided,* That for operations within the continental limits of the United States (excluding Alaska) such communication systems between airplanes and the appropriate dispatch office shall be independent of systems operated by the Federal Government.

§ 41.35 Weather reporting facilities.

The air carrier shall show that sufficient weather reporting services are available along the route to insure weather reports and forecasts necessary for the operation. Weather reports used to control flight movements shall be those prepared and released by the U.S. Weather Bureau, or by a source approved by the Weather Bureau, or, in foreign operations when such observations are not available, by a source found by the Director to be satisfactory. Forecasts used to control flight movements shall be prepared from such weather reports.

§ 41.36 En route navigational facilities.

The air carrier shall show that nonvisual ground aids to air navigation are available along each route, that they are so located as to permit navigation to any regular, provisional, refueling, or alternate airport within the degree of accuracy necessary for the operation involved, and that they are available for the navigation of airplanes within the degree of accuracy required for air traffic control: *Provided,* That nonvisual ground aids to navigation are not required: (a)

obstruction clearance plane with the runway; thereafter it shall extend laterally for a distance of 500 feet on each side of the centerline.

(2) *Landing.* A landing obstruction clearance area as used in the landing operating limitations for both transport and nontransport category airplanes is an area on the earth's surface defined as follows: The centerline of the obstruction clearance area in plan view shall coincide with and prolong the centerline of the runway, beginning at the point where the obstruction clearance plane intersects the centerline of the runway and proceeding to a point not less than 1,500 feet from the beginning point. Thereafter the centerline shall proceed in a path consistent with the instrument approach procedure for the runway or, where such a procedure has not been established, consistent with turns of at least 4,000-foot radius until a point is reached beyond which the obstruction clearance plane clears all obstructions. The obstruction clearance area shall extend laterally for a distance of 200 feet on each side of the centerline at the point where the obstruction clearance plane intersects the runway and shall continue at this width until the end of the runway; thence it shall increase uniformly to 500 feet on each side of the centerline at a point 1,500 feet from the intersection of the obstruction clearance plane with the runway; thereafter it shall extend laterally for a distance of 500 feet on each side of the centerline.

Obstruction clearance plane. An obstruction clearance plane is a plane which is tangent to or clears all obstructions within the obstruction clearance area and which slopes upward from the runway at a slope of 1:20 to the horizontal as shown in a profile view of the obstruction clearance area.

Operational control. Operational control is the exercise of authority over initiation, continuation, diversion, or termination of a flight.

Operations specifications. Operations specifications are rules of particular applicability issued by the Director to an air carrier pursuant to the provisions of this part.

Over-the-top. Over-the-top means the operation of an airplane above a layer of clouds or obscuring phenomena that is reported as "broken," "overcast," or "obscuration" and not classified as "thin" or "partial."

PAR. PAR is the symbol used to designate precision approach radar.

Pilot in command. The pilot in command is the pilot designated by the air carrier as the pilot responsible for the operation and safety of the airplane during the time defined as flight time.

Pilotage. Pilotage is navigation by means of visual reference to landmarks.

Point-of-no-return. Point-of-no-return means that point at which the airplane no longer has sufficient fuel under existing conditions to return to the point of departure or any alternate for that point.

Propeller. A propeller is an external device for propelling an airplane through the air, having blades mounted on a power-driven shaft, which when rotated produces by its action on the air a thrust approximately parallel to the longitudinal axis of the airplane.

Provisional airport. A provisional airport is an airport approved for use by an air carrier for the purpose of providing service to a community when the regular airport serving that community is not available.

Rating. A rating is an authorization issued with an airman certificate, and forming a part thereof, delineating special conditions, privileges, or limitations pertaining to such certificate.

Refueling airport. A refueling airport is an airport approved as an airport to which flights may be dispatched only for refueling.

Regular airport. A regular airport is an airport approved as a regular terminal or intermediate stop on an authorized route.

Route. A route is the airspace, on either side of a course or courses joining those points on the surface of the earth between which an air carrier is authorized to conduct scheduled operations.

Route segment. A route segment is a portion of a route each terminus of which is identified by: (1) A continental or insular geographic location, or (2) a point at which a definite radio fix can be established.

Runway. A runway is a clearly defined area of an airport suitable for the safe landing or take-off of airplanes.

Second in command. Second in command means a pilot other than the pilot in command who is designated by the air carrier to act as second in command of an airplane.

Show. Show (or shows) means to demonstrate or prove to the satisfaction of the Administrator or his authorized representative prior to the issuance of the air carrier operating certificate and at any time thereafter upon request.

Synthetic trainer. A synthetic trainer is a device, the use of which is approved to simulate certain operating conditions.

Takeoff safety speed, V_2. The takeoff safety speed is the airplane speed used in the determination of the takeoff flight path at which the climb-out following takeoff can be safely executed with one engine inoperative and with the airplane in the takeoff configuration. (See the pertinent airworthiness requirements for the manner in which such speed is determined.)

Time in service. Time in service, as used in computing maintenance time records, is the time from the moment an airplane leaves the ground until it touches the ground at the end of a flight.

Transport category airplane. A transport category airplane is an airplane which has been type certificated in accordance with the requirements of Part 4b of this subchapter or the transport category requirements of Part 4a of this subchapter.

Type. With regard to airman qualifications, type means all airplanes of the same basic design, including all modifications thereto except those modifications which the Administrator has found result in a substantial change in characteristics pertinent to the airman concerned.

VFR. VFR is the symbol used to designate visual flight rules.

V_{s_0}. V_{s_0} is the symbol used to designate the true indicated stalling speed or the minimum steady flight speed in the landing configuration.

Week. A week is that period of time extending from the first day of any week as delineated by the calendar through the last day thereof.

Year. A year is that period of time extending from the first day of any year as delineated by the calendar through the last day thereof.

CERTIFICATION RULES AND OPERATIONS SPECIFICATIONS REQUIREMENTS

§ 41.10 Certificate required.

No person subject to this part shall conduct operations without, or in violation of the terms of, an air carrier operating certificate issued by the Director.

NOTE: Applications, and instructions for the preparation thereof, for the issuance or amendment of air carrier operating certificates may be obtained from any FAA Air Carrier Safety District Office.

§ 41.13 Issuance of certificate.

(a) An air carrier operating certificate will be issued to an applicant having a certificate of public convenience and necessity or other appropriate economic authority issued by the Board when after investigation it is found that such applicant is properly and adequately equipped and able to conduct a safe operation in accordance with the requirements of this part and with the operations specifications provided for in this part.

NOTE: Certificates currently in force on the effective date of this part will be deemed to be certificates issued under this part.

(b) Whenever, upon investigation, the Director finds that the general standards of safety required for air carrier operations within Alaska, or for air carrier operations conducted pursuant to a temporary authorization issued under Title IV of the Federal Aviation Act of 1958, require or permit a deviation from any specific requirement of this part for a particular operation or class of operations for which an application for an air carrier operating certificate has been made, he may issue operations specifications prescribing requirements which deviate from the requirements of this part.

(c) An air carrier holding economic authority to engage in scheduled cargo-only operations between any of the places specified in § 41.1 (a) or (b) may, upon application, be authorized by the Director to conduct such operations in accordance with the air carrier certification and operation rules prescribed in Part 42 of this chapter (Civil Air Regulations).

§ 41.15 Display of certificate and operations specifications.

The air carrier operating certificate and operations specifications shall be available at the principal operations office of an air carrier for inspection by an authorized representative of the Administrator.

§ 41.16 Duration of certificate.

An air carrier operating certificate shall remain in effect until termination of the certificate of public convenience and necessity or other economic authorization issued by the Board to the air carrier, or until such operating certificate is surrendered, suspended, revoked, or otherwise terminated by the Administrator. After suspension or revocation it shall be returned to the Director.

§ 41.18 Operations specifications required.

(a) On and after the effective date of this part, all air carrier operations specifications currently in force relating to operations subject to the provisions of this part shall cease to be a part of any air carrier operating certificate and shall be deemed to be operations specifications issued under this part. Thereafter new or amended specifications may be issued by the Director for operations subject to this part. Applications for amendments of operations specifications shall be submitted to the local FAA Air Carrier Safety District Office charged with the overall inspection of the air carrier's operations at least 15 days prior to the proposed effective dates of such amendments, unless an authorized representative of such office approves a shorter filing period.

(b) No person shall engage in or conduct any operations to which this part is applicable without, or in violation of, currently effective operations specifications issued under this part.

NOTE: Forms for initial applications for operations specifications will be furnished upon request by any FAA Air Carrier Safety District Office.

§ 41.19 Contents of operations specifications.

The operations specifications will contain the following:

(a) Types of operations authorized;

(b) Types of airplanes authorized for use;

(c) En route authorizations and limitations;

(d) Airport authorizations and limitations;

(e) Time limitation for overhauls, inspections, and checks of airframes, engines, propellers, and appliances, or standards by which such time limitations shall be determined;

(f) Procedures used to maintain control of weight and balance of airplanes;

(g) Interline equipment interchange requirements, if pertinent;

(h) A current list of all airplanes being operated by the air carrier in accordance with its operating certificate, showing the registration number, manufacturer's model, serial number, configuration including the maximum number of authorized passenger and crew seats, and whether the airplane is used in passenger or cargo operations or both, and, if the airplane is not owned by the air carrier, the name of the lessor: *Provided,* That airplanes owned by or under lease to another air carrier and being operated under an interchange agreement need not be listed if the operations specifications incorporate a reference to the agreement and to the operations specifications of such other air carrier in which the airplanes are listed; and

(i) Such additional items as the Director determines, under the enabling provisions of this part, are necessary to cover a particular situation.

§ 41.20 Utilization of operations specifications.

The air carrier shall keep its personnel informed with respect to the contents of the operations specifications and all amendments thereto applicable to the individual's duties and responsibilities. A set of specifications shall be maintained by the air carrier as a separate and complete document. Pertinent excerpts from the specifications or references thereto shall be inserted in the manual issued by the air carrier in such a manner that they do not lose their identity in any respect.

§ 41.21 Amendment of operations specifications.

Any operations specifications may be amended by the Director if he finds that safety in air transportation so requires or permits. Except in the case of an emergency requiring immediate action in respect to safety in air transportation or upon consent of the air carrier concerned, no amendment will become effective prior to thirty days after the date the air carrier has been notified of such amendment.

§ 41.22 Inspection authority.

An authorized representative of the Administrator shall be permitted at any time and place to make inspections or examinations to determine an air carrier's compliance with the requirements of the Federal Aviation Act of 1958, the Civil Air Regulations, the provisions of the air carrier's operating certificate, and the operations specifications.

§ 41.23 Operations and maintenance base and office.

Each air carrier shall, 30 days in advance of a change in the address of its principal business office, its principal operations base, or its principal maintenance base, give written notice thereof to the FAA Air Carrier Safety District Office charged with overall inspection of the air carrier's operations.

REQUIREMENTS FOR APPROVAL OF ROUTES

§ 41.30 General route requirements.

The air carrier shall show for route approvals that it is competent to conduct scheduled operations over any route or route segment to be used between any regular, provisional, or refueling airport, that the facilities and services required by §§ 41.33 through 41.38 are available and adequate for the type of operation proposed, and, for routes outside of controlled airspace, that traffic density does not constitute a hazard. Actual flight over a route or route segment will be required, unless the air carrier shows that such flight is not essential to safety, considering the availability and adequacy of airports, lighting, maintenance, communication, navigation, fueling, ground and aircraft radio facilities, and the competence of personnel to be used in the proposed operation.

§ 41.32 Width of routes.

Routes approved for operations over U.S. Federal airways or foreign airways or advisory routes (ADR's) shall have a width equal to the designated width of such airways or advisory routes. All other approved routes shall have widths specified in the air carrier's operations specifications which the carrier shows will permit a safe operation, considering terrain clearance and minimum en route altitudes, available ground and airborne navigational aids, procedures, systems and equipment, air traffic density, and air traffic control procedures.

§ 41.33 Airports.

The air carrier shall show that each regular, provisional, refueling, and alternate airport on each route is properly equipped and adequate for the type of operations to be conducted. Consideration shall be given to items such as size, surface, obstructions, facilities, public protection, lighting, navigational and communications aids, and traffic control.

NOTE: Criteria to be used are contained in appropriate Technical Standard Orders published by the FAA.

§ 41.34 Communications facilities.

The air carrier shall show that a two-way air/ground radio communication system is available at such points as will insure reliable and rapid communications under normal operating conditions over the entire route, either direct or via approved point-to-point circuits, between airplanes and the appropriate dispatch office, and between airplanes and the appropriate air traffic control unit: *Provided,* That for operations within the continental limits of the United States (excluding Alaska) such communication systems between airplanes and the appropriate dispatch office shall be independent of systems operated by the Federal Government.

§ 41.35 Weather reporting facilities.

The air carrier shall show that sufficient weather reporting services are available along the route to insure weather reports and forecasts necessary for the operation. Weather reports used to control flight movements shall be those prepared and released by the U.S. Weather Bureau, or by a source approved by the Weather Bureau, or, in foreign operations when such observations are not available, by a source found by the Director to be satisfactory. Forecasts used to control flight movements shall be prepared from such weather reports.

§ 41.36 En route navigational facilities.

The air carrier shall show that nonvisual ground aids to air navigation are available along each route, that they are so located as to permit navigation to any regular, provisional, refueling, or alternate airport within the degree of accuracy necessary for the operation involved, and that they are available for the navigation of airplanes within the degree of accuracy required for air traffic control: *Provided,* That nonvisual ground aids to navigation are not required: (a)

For day VFR operations which the air carrier shows can be conducted safely by pilotage because of the characteristics of the terrain, or for night VFR operations on routes which the air carrier shows have reliably lighted landmarks which are adequate for safe operations; or (b) on segments of routes where the use of celestial or other specialized means of navigation is approved.

NOTE: Nonvisual ground navigational aids required for approval of routes outside of controlled airspace will be specified in the air carrier operations specifications.

§ 41.37 Servicing and maintenance facilities.

The air carrier shall show that competent personnel and adequate facilities and equipment, including spare parts, supplies, and materials, are available at such points along the air carrier's routes as are necessary for the proper servicing, maintenance, repair, and inspection of airplanes and auxiliary equipment.

§ 41.38 Location of dispatch centers.

The air carrier shall show that it has a sufficient number of dispatch centers adequate for the operations to be conducted and located at such points as are necessary to insure the proper operational control of each flight.

MANUAL REQUIREMENTS

§ 41.50 Preparation of Air Carrier Manual.

The air carrier shall prepare and keep current a manual for the use and guidance of flight and ground operations personnel in the conduct of its operations.

§ 41.51 Contents of Air Carrier Manual.

(a) The manual shall contain instructions, information, and data necessary for the personnel concerned to carry out their duties and responsibilities with a high degree of safety. It shall be in a form to facilitate easy revision, and each page shall bear the date of the last revision thereof. The contents of such manual shall not be contrary to the provisions of any Federal regulations, foreign regulations where applicable, operations specifications, or the operating certificate. The manual may be in two or more separate parts, encompassing together all of the information listed below (e.g., flight operations, ground operations, maintenance, communications, etc.) to facilitate use by the personnel concerned, but each part shall contain that portion of the information listed below as is appropriate for each group of personnel:

(1) General policies;

(2) Duties and responsibilities of each crewmember and appropriate members of the ground organization;

(3) Reference to appropriate regulations prescribed by the Federal Aviation Agency;

(4) Flight dispatching and control, including procedures for coordinated dispatch;

(5) En route flight, navigational, and communication procedures, including procedures for the dispatch or continuance of flight, if any item of equipment required for the particular type of operation becomes inoperative or unserviceable en route;

(6) Appropriate information from the en route operations specifications, including for each approved route the types of airplanes authorized, their crew complement, the type of operation (i.e., VFR, IFR, day, night) and other pertinent information;

(7) Appropriate information from the airport operations specifications, including for each airport its location, its designation (i.e., regular, alternate, provisional, etc.), types of airplanes authorized, instrument approach procedures, landing and takeoff minimums, and other pertinent information;

(8) Takeoff, en route, and landing weight limitations;

(9) Procedures for familiarizing passengers with the use of emergency equipment during flight;

(10) Emergency procedures and equipment;

(11) The method of designating succession of command of flight crewmembers;

(12) Procedures for determining the usability of landing and takeoff areas and for dissemination of pertinent information to operations personnel;

(13) Procedures for operation during periods of icing, hail, thunderstorms, turbulence, or any potentially hazardous meteorological conditions;

(14) Airman training programs, including appropriate ground, flight, and emergency phases;

(15) Instructions and procedures for maintenance, repair, overhaul, and servicing;

(16) Time limitations for overhaul, inspection, and checks, of airframes, engines, propellers and appliances, or standards by which such time limitations shall be determined;

(17) Procedures for refueling airplanes, elimination of fuel contamination, protection from fire including electrostatic protection, and the supervision and protection of passengers during refueling;

(18) Inspections for airworthiness, including instructions covering procedures, standards, responsibilities, and authority of the inspection personnel;

(19) Methods and procedures for maintaining the airplane weight and center of gravity within approved limits;

(20) Pilot and dispatcher route and airport qualification procedures;

(21) Accident notification procedures; and

(22) Other data or instructions related to safety.

(b) At least one complete master copy of the manual containing all parts thereof shall be retained at the appropriate operations base of the air carrier.

§ 41.52 Distribution of Air Carrier Manual.

(a) Copies of the entire manual, or appropriate portions thereof, together with revisions thereto, shall be furnished by the Air Carrier to the following:

(1) Appropriate ground operations and maintenance personnel of the air carrier;

(2) Crewmembers; and

(3) Authorized representatives of the Administrator assigned to the air carrier.

(b) All copies of the manual shall be kept up to date.

§ 41.53 Airplane Flight Manual.

(a) The air carrier shall keep current an approved Airplane Flight Manual for each type of transport category airplane which it operates.

(b) An approved Airplane Flight Manual or a manual complying with § 41.50 and containing information required for the Airplane Flight Manual shall be carried in each transport category airplane. When sections of the required information from the Airplane Flight Manual are incorporated in the Air Carrier Manual, they shall be clearly identified as Airplane Flight Manual requirement.

AIRPLANE REQUIREMENTS

§ 41.60 General.

Airplanes shall be identified, certificated, and equipped in accordance with the applicable airworthiness requirements of the Civil Air Regulations. No air carrier shall operate any airplane in scheduled, charter, or special service operations unless such airplane meets the requirements of this part, is in an airworthy condition, is registered as a civil aircraft of the United States and carries an appropriate and currently effective certificate of airworthiness issued by the Administrator. In determining compliance with the applicable airworthiness requirements and operating limitations, an approved weight and balance control system based upon average, assumed, or estimated weights may be utilized.

§ 41.61 Airplane certification requirements.

(a) *Airplanes certificated on or before June 30, 1942.* Airplanes certificated as a basic type on or before June 30, 1942, shall either:

(1) Retain their present airworthiness certification status and meet the requirements of § 41.90, or

(2) Comply with either the performance requirements of §§ 4a.737–T through 4a.750–T of this chapter (Civil Air Regulations) or the performance requirements of §§ 4b.110 through 4b.125 of this chapter (Civil Air Regulations) and in addition shall meet the requirements of § 41.70: *Provided*, That should any type be so qualified, all airplanes of any one operator of the same or related types shall be similarly qualified and operated.

(b) *Airplanes certificated after June 30, 1942.* Airplanes certificated as a basic type after June 30, 1942, and used in passenger-carrying operations shall be certificated as transport category airplanes and shall meet the requirements of § 41.70.

§ 41.62 Airplane limitation for type of route.

All airplanes used in passenger-carrying operations shall be multiengine airplanes and shall comply with the following requirements:

(a) *Two- or three-engine airplanes.* Two- or three-engine airplanes shall not be used in passenger-carrying operations unless adequate airports are so located along the route that the airplanes will at no time be at a greater distance therefrom than one hour of flying time in still air at normal cruising speed with one engine inoperative: *Provided*, That the Director may specify distances greater or less than those set forth herein when the character of the terrain, the type of operation, or the performance of the airplanes to be used so permit or require.

(b) *Land airplanes on extended overwater routes.* Land airplanes operated on flights involving extended overwater operations shall be certificated or approved as adequate for ditching in accordance with the ditching provisions of Part 4b of this chapter (Civil Air Regulations): *Provided*, That the DC-3 and C-46 type airplanes need not be so certificated or approved.

§ 41.63 Proving tests.

(a) A type of airplane not previously proved for use in scheduled operation shall have at least 100 hours of proving tests, in addition to the airplane certification tests, accomplished under the supervision of an authorized representative of the Director. As part of the 100-hour total at least 50 hours shall be flown over authorized routes and at least 10 hours shall be flown at night.

(b) A type of airplane which has been previously proved shall be tested for at least 50 hours, of which at least 25 hours shall be flown over authorized routes, unless deviations are specifically authorized by the Director on the ground that the special circumstances of a particular case make a literal observance of the requirements of this paragraph unnecessary for safety, when the airplane:

(1) Is materially altered in design,[1] or

(2) Is to be used by an air carrier who has not previously proved such a type.

(c) During proving tests only those persons required to make the tests and those designated by the Board or the Administrator shall be carried. Mail, express, and other cargo may be carried when approved.

AIRPLANE PERFORMANCE OPERATING LIMITATIONS: TRANSPORT CATEGORY

§ 41.70 Transport category airplane operating limitations.

(a) In operating any transport category airplane not subject to (b) of this section, the provisions of this paragraph and §§ 41.71 through 41.78 shall be complied with: *Provided*, That the Director may, upon application, authorize deviations from such provisions when special circumstances of a particular case make a literal observance of the requirements unnecessary for safety. Deviations authorized will be specified in operations specifications of the air carrier.

[1] A type of airplane will be considered to be materially altered in design when the alterations include, but are not necessarily limited to: (a) Installation of powerplants other than the powerplants of a type similar to those with which the aircraft is certificated; (b) major alteration to the aircraft or its components which materially affects the flight characteristics.

(1) The performance data contained in the Airplane Flight Manual shall be applied in determining compliance with these provisions. Where conditions differ from those for which specific tests were made, compliance shall be determined by interpolation or by computation of the effects of changes in the specific variables where such interpolations or computations will give results substantially equaling in accuracy the results of a direct test.

(2) The airplane shall not be taken off at a weight which exceeds the allowable weight for the runway being used as determined in accordance with the takeoff runway limitation of the transport category operating rules of this part, after taking into account the temperature operating correction factors required by §§ 4a.749a–T or 4b.117 of this subchapter, and set forth in the Airplane Flight Manual for the airplane.

(b) In operating any turbine-powered transport category airplane certificated in accordance with the performance requirements of Special Civil Air Regulations Nos. SR–422, SR–422A, or SR–422B, the operating rules specified in the applicable Special Civil Air Regulation shall be complied with in lieu of §§ 41.71 through 41.78.

§ 41.71 Weight limitations.

(a) No airplane shall be taken off from any airport located at an elevation outside of the altitude range from which maximum takeoff weights have been determined, and no airplane shall depart for an airport of intended destination or have any airport specified as an alternate which is located at an elevation outside of the altitude range for which maximum landing weights have been determined.

(b) The weight of the airplane at takeoff shall not exceed the authorized maximum takeoff weight for the elevation of the airport from which the takeoff is to be made.

(c) The weight at takeoff shall be such that, allowing for normal consumption of fuel and oil in flight to the airport of intended destination, the weight on arrival will not exceed the authorized maximum landing weight for the elevation of such airport.

§ 41.72 Takeoff limitations to provide for engine failure.

No takeoff shall be made except under conditions which will permit compliance with the following requirements:

(a) It shall be possible, from any point in the takeoff up to the time of attaining the critical-engine-failure speed, to bring the airplane to a safe stop on the runway as shown by the accelerate-stop distance data.

(b) It shall be possible, if the critical engine should fail at any instant after the airplane attains the critical-engine-failure speed, to proceed with the takeoff and attain a height of 50 feet, as indicated by the takeoff path data, before passing over the end of the runway. Thereafter it shall be possible to clear all obstacles, either by at least 50 feet vertically, as shown by the takeoff path data, or by at least 200 feet horizontally within the airport boundaries and by at least 300 feet horizontally after passing beyond such boundaries. In determining the allowable deviation of the flight path in order to avoid obstacles by at least the distances above set forth, it shall be assumed that the airplane is not banked before reaching a height of 50 feet, as shown by the takeoff path data, and that a maximum bank thereafter does not exceed 15°.

(c) In applying the requirements of paragraphs (a) and (b) of this section, corrections shall be made for any gradient of the takeoff surface. To allow for wind effect, takeoff data based on still air may be corrected by not more than 50 percent of the reported wind component along the takeoff path if opposite to the direction of takeoff, and shall be corrected by not less than 150 percent of the reported wind component if in the direction of takeoff.

§ 41.73 En route limitations; all engines operating.

No airplane shall be taken off at a weight in excess of that which would permit a rate of climb (expressed in feet per minute), with all engines operating, of at least 6 V_{s_0} (when V_{s_0} is expressed in miles per hour) at an altitude of at least 1,000 feet above the elevation of the highest ground or obstruction within 10 miles on either side of the intended track. Transport category airplanes certificated under Part 4a of this subchapter are not required to comply with this section. For the purpose of this section it shall be assumed that the weight of the airplane as it proceeds along its intended track is progressively reduced by normal consumption of fuel and oil.

§ 41.74 En route limitations; one engine inoperative.

(a) No airplane shall be taken off at a weight in excess of that which would permit a rate of climb (expressed in feet per minute), with one engine inoperative, of at least $\left(0.06 - \frac{0.08}{N}\right) V_{s_0}^2$ (when N is the number of engines installed and V_{s_0} is expressed in miles per hour) at an altitude of at least 1,000 feet above the elevation of the highest ground or obstruction within 10 miles on either side of the intended track, except that for transport category airplanes certificated under Part 4a of the Civil Air Regulations, the rate of climb shall be $0.02\ V_{s_0}^2$.

(b) As an alternative to the provisions of paragraph (a) of this section, an air carrier may utilize an approved procedure whereby its airplanes are operated at an all-engines-operating altitude such that in the event of an engine failure the airplane can continue flight to an alternate airport where a landing can be made in accordance with the provisions of § 41.78, the flight path clearing all terrain and obstructions along the route within 5 miles on either side of the intended track by at least 2,000 feet. In addition, if such a procedure is utilized, subparagraphs (1) through (6) of this paragraph shall be complied with:

(1) The rate of climb (as presented in the Airplane Flight Manual for the appropriate weight and altitude) used in calculating the airplane's flight path shall be diminished by an amount, in feet per minute, equal to $\left(0.06-\frac{0.08}{N}\right)V_{s_0}^2$ (when N is the number of engines installed and V_{s_0} is expressed in miles per hour) for airplanes certificated under Part 4b of this chapter (Civil Air Regulations) and by $0.02\ V_{s_0}^2$ for airplanes certificated under Part 4a of this chapter (Civil Air Regulations).

(2) The all-engines-operating altitude shall be such that, in the event the critical engine becomes inoperative at any point along the route, the flight will be capable of proceeding to a predetermined alternate airport by use of this procedure. For the purpose of determining the takeoff weight, the airplane shall be assumed to pass over the critical obstruction following engine failure at a point no closer to the critical obstruction than the nearest approved radio navigational fix: *Provided,* That a procedure established on a different basis will be approved if the air carrier shows that adequate operational safeguards exist.

(3) The airplane shall meet the provisions of paragraph (a) of this section at 1,000 feet above the airport used as an alternate in this procedure.

(4) The procedure shall include an approved method of accounting for winds and temperatures which would otherwise adversely affect the flight path.

(5) In complying with this procedure fuel jettisoning will be approved if the air carrier shows that it has an adequate training program, proper instructions are given to the flight crew, and all other precautions are taken to insure a safe procedure.

(6) The alternate airport shall be specified in the dispatch release and shall meet the provisions of § 41.390.

(c) For the purposes of this section it shall be assumed that the weight of the airplane as it proceeds along its intended track is progressively reduced by normal consumption of fuel and oil.

§ 41.75 En route limitations; two engines inoperative.

The provisions of this section shall apply only to airplanes certificated in accordance with the performance requirements of Part 4b of this chapter (Civil Air Regulations). No airplane having four or more engines shall be flown along an intended track except under the conditions of either paragraph (a) or (b) of this section.

(a) No place along the intended track shall be more than 90 minutes away from an available landing area at which a landing can be made in accordance with the requirements of § 41.78, assuming all engines to be operating at cruising power.

(b) The takeoff weight shall not be greater than that which would permit the airplane, with the two critical engines inoperative, to have a rate of climb in feet per minute equal to $0.01\ V_{s_0}^2$ (V_{s_0} being expressed in miles per hour) along all points of the route, from the point where the two engines are assumed to fail simultaneously to the landing area, either at an altitude of 1,000 feet above the elevation of the highest ground or obstruction within 10 miles on either side of the intended track or at an altitude of 5,000 feet, whichever is higher. The point where the two engines are assumed to fail shall be that point along the route which is most critical with respect to the takeoff weight. In showing compliance with this prescribed rate of climb, the following shall apply:

(1) It shall be permissible to consider that the weight of the airplane as it proceeds along its intended track is progressively reduced by normal consumption of fuel and oil with all engines operating up to the point where the two engines are assumed to fail and with two engines operating beyond that point.

(2) Where the engines are assumed to fail at an altitude above the prescribed minimum altitude, compliance with the prescribed rate of climb at the prescribed minimum altitude need not be shown during the descent from the cruising altitude to the prescribed minimum altitude if, at the end of the descent and during the subsequent portion of the flight, the prescribed rate of climb is met at the prescribed minimum altitudes. The descent shall be assumed to be along a net flight path and the rate of descent for the appropriate weight and altitude shall be assumed to be $0.01\ V_{s_0}^2$ greater than indicated by the performance information approved by the Administrator.

(3) If fuel jettisoning is provided, the airplane's weight at the point where the two engines are assumed to fail shall be considered to be not less than that which would include sufficient fuel to proceed to an available landing area at which a landing can be made in accordance with the requirements of § 41.78 and to arrive there at an altitude of at least 1,000 feet directly over the landing area.

§ 41.76 Special en route limitations.

The 10-mile lateral distance specified in §§ 41.73 through 41.75 may, for a distance of no more than 20 miles, be reduced to 5 miles, if operating VFR, or if air navigational facilities are so located as to provide a reliable and accurate identification of any high ground or obstruction located outside of such 5-mile lateral distance but within the 10-mile distance.

§ 41.77 Landing distance limitations; airport of destination.

No airplane shall be taken off at a weight in excess of that which, under the conditions stated in this part, would permit the airplane to be brought to rest at the field of intended destination within 60 percent of the effective length of the runway from a point 50 feet directly above the intersection of the obstruction clearance plane and the runway. For the purpose of this section it shall be assumed that the takeoff weight of the airplane is reduced by the weight of the fuel and oil expected to be consumed in flights to the field of intended destination.

(a) It shall be assumed that the airplane is landed on the most favorable runway and direction in still air.

(b) It shall be assumed, considering the probable wind velocity and direction, that the airplane is landed on the most suitable runway, taking due account of the ground handling characteristics of the airplane type involved and other conditions (e.g., landing aids, terrain, etc.) and allowing for the effect on the landing path and roll of not more than 50 percent of the wind component along the landing path if opposite to the direction of landing, or not less than 150 percent of the wind component if in the direction of landing.

(c) If the airport of intended destination will not permit full compliance with paragraph (b) of this section, the airplane may be taken off if an alternate airport is designated which permits compliance with § 41.78.

§ 41.78 Landing distance limitations; alternate airports.

No airport shall be designated as an alternate airport in a dispatch release unless the airplane at the weight anticipated at the time of arrival at such airport can comply with the requirements of § 41.77: *Provided,* That the airplane can be brought to rest within 70 percent of the effective length of the runway.

AIRPLANE PERFORMANCE OPERATING LIMITATIONS; NONTRANSPORT CATEGORY

§ 41.90 Nontransport category airplane operating limitations.

In operating any large, nontransport category airplane, the provisions of §§ 41.91 through 41.94 shall be complied with: *Provided,* That the Director may, upon application, authorize deviations from such provisions when the special circumstances of a particular case make a literal observance of the requirements unnecessary for safety. Deviations authorized will be specified in operations specifications of the air carrier. Approved performance data only shall be used in determining compliance with the provisions of §§ 41.91 through 41.94.

§ 41.91 Takeoff limitations.

No takeoff shall be made at a weight in excess of that which will permit the airplane to be brought to a safe stop within the effective length of the runway from any point during the takeoff up to the time of attaining 105 percent of minimum control speed or 115 percent of the power-off stalling speed in the takeoff configuration, whichever is the greater. In applying the requirements of this section:

(a) It may be assumed that takeoff power is used on all engines during the acceleration;

(b) Account may be taken of not more than 50 percent of the reported wind component along the takeoff path if opposite to the direction of takeoff, and account shall be taken of not less than 150 percent of the reported wind component if in the direction of the takeoff;

(c) Account shall be taken of the average runway gradient when the average gradient is greater than ½ percent. The average runway gradient is the difference between the elevations of the end points of the runway divided by the total length.

(d) It shall be assumed that the airplane is operating in the standard atmosphere.

§ 41.92 En route limitations; one engine inoperative.

(a) No takeoff shall be made at a weight in excess of that which will permit the airplane to climb at a rate of at least 50 feet per minute with the critical engine inoperative at an altitude of at least 1,000 feet above the elevation of the highest obstacle within 5 miles on either side of the intended track or at an altitude of 5,000 feet, whichever is the higher: *Provided,* That in the alternative an air carrier may utilize a procedure whereby the airplane is operated at an altitude such that, in event of an engine failure, the airplane can clear the obstacles within 5 miles on either side of the intended track by 1,000 feet, if the air carrier shows that such a procedure can be used without impairing the safety of operation. If such a procedure is utilized, the rate of descent for the appropriate weight and altitude shall be assumed to be 50 feet per minute greater than indicated by the approved performance data. Before approving such a procedure, there will be taken into account, for the particular route, route segment, or areas concerned, the reliability of wind and weather forecasting, the location and types of aids to navigation, the prevailing weather conditions, particularly the frequency and amount of turbulence normally encountered, terrain features, air traffic control problems, and all other operational factors which affect the safety of an operation utilizing such a procedure.

(b) In applying the requirements of paragraph (a) of this section, it shall be assumed that:

(1) The critical engine is inoperative;

(2) The propeller of the inoperative engine is in the minimum drag position;

(3) The wing flaps and landing gear are in the most favorable positions;

(4) The operative engine or engines are operating at the maximum continuous power available;

(5) The airplane is operating in the standard atmosphere; and

(6) The weight of the airplane is progressively reduced by the weight of the anticipated consumption of fuel and oil.

§ 41.93 Landing distance limitations; airport of intended destination.

No takeoff shall be made at a weight in excess of that which, allowing for the anticipated weight reduction due to consumption of fuel and oil, will permit the airplane to be brought to a stop within 60 percent of the effective length of the most suitable runway at the airport of intended destination.

(a) This weight shall in no instance be greater than that permissible if the landing were to be made:

(1) On the runway with the greatest effective length in still air, and

(2) On the runway required by the probable wind, taking into account not more than 50 percent of the probable headwind component and not less than 150 percent of the probable tailwind component.

(d) In applying the requirements of this section it shall be assumed that:

(1) The airplane passes directly over the intersection of the obstruction clearance plane and the runway at a height of 50 feet in a steady gliding approach at a true indicated air speed of at least $1.3\ V_{s_0}$;

(2) The landing is made in such a manner that it does not require any exceptional degree of skill on the part of the pilot; and

(3) The airplane is operating in the standard atmosphere.

§ 41.94 Landing distance limitations; alternate airports.

No airport shall be designated as an alternate airport in a dispatch release unless the airplane at the weight anticipated at the time of arrival at such airport can comply with the requirements of § 41.93: *Provided,* That the airplane can be brought to rest within 70 percent of the effective length of the runway.

SPECIAL AIRWORTHINESS REQUIREMENTS

§ 41.110 Fire prevention; passenger airplanes.

All airplanes used in passenger service, powered by engines rated at more than 600 horsepower each for maximum continuous operation and which have not been certificated in accordance with the provisions of Part 4b of this subchapter in effect on or after November 1, 1946, shall comply with the requirements contained in §§ 41.112 through 41.143: *Provided,* That if the Director finds that in particular models of existing airplanes literal compliance with specific items of these requirements might be extremely difficult of accomplishment and that such compliance would not contribute materially to the objective sought, he may accept such measures of compliance as he finds will effectively accomplish the basic objectives of the regulations in this part.

§ 41.111 Fire prevention; cargo airplanes.

All airplanes used in cargo-only service shall comply with the requirements contained in §§ 41.112, 41.113, 41.114, 41.115 (a), (b), (c), (d) or (e), and 41.116.

§ 41.112 Cabin interiors.

All compartments occupied or used by the crew or passengers shall comply with the following provisions:

(a) Materials shall in no case be less than flash-resistant.

(b) The wall and ceiling linings, the covering of all upholstering, floors, and furnishings shall be flame-resistant.

(c) Compartments where smoking is to be permitted shall be equipped with ash trays of the self-contained type which are completely removable. All other compartments shall be placarded against smoking.

(d) All receptacles for used towels, papers, and wastes shall be of fire-resistant material and shall incorporate covers or other provisions for containing possible fires started in the receptacles.

§ 41.113 Internal doors.

Where internal doors are equipped with louvres or other ventilating means, provision convenient to the crew shall be made for closing the flow of air through the door when such action is found necessary.

§ 41.114 Ventilation.

All passenger and crew compartments shall be suitably ventilated. Carbon monoxide concentration shall not exceed one part in 20,000 parts of air, and fuel fumes shall not be present. Where partitions between compartments are equipped with louvres or other means allowing air to flow between such compartments, provision convenient to the crew shall be made for closing the flow of air through the louvres or other means when such action is found necessary.

§ 41.115 Fire precautions.

Each compartment shall be designed so that, when used for the purpose of storing cargo or baggage, it shall comply with all of the requirements prescribed for cargo or baggage compartments. It shall include no controls, wiring, lines, equipment, or accessories the damage or failure of which would affect the safe operation of the airplane, unless such item is adequately shielded, isolated, or otherwise protected so that it cannot be damaged by movement of cargo in the compartment, and so that any breakage or failure of such item would not create a fire hazard in the compartment. Provision shall be made to prevent cargo or baggage from interfering with the functioning of the fire-protective features of the compartment. All materials used in the construction of cargo or baggage compartments, including tie-down equipment, shall be flame-resistant or better. In addition, all cargo and baggage compartments shall include provisions for safeguarding against fires according to the following classifications:

(a) *Class A.* Cargo and baggage compartments shall be classified in the "A" category if presence of a possible fire therein can be readily discernible to a member of the crew while at his station, and if all parts of the compartment are easily accessible in flight. A hand fire extinguisher shall be available for such compartment.

(b) *Class B.* Cargo and baggage compartments shall be classified in the "B" category if sufficient access is provided while in flight to enable a member of the crew to reach effectively all parts of the compartment and its contents with a hand fire extinguisher. Furthermore, the design of the compartment shall be such that, when the access provisions are being used, no hazardous quantity of smoke, flames, or extinguishing agent will enter any compartment occupied by the crew or passengers. Each compartment in this category shall be equipped with a separate system of an approved type of smoke detector or fire detector to give warning at the pilot or flight engineer station. Hand fire extinguishers shall be readily available for use in all compartments of this category. Compartments in this category shall be completely lined with fire-resistant material,

except that additional service lining of flame-resistant material may be employed.

(c) *Class C.* Cargo and baggage compartments shall be classified in the "C" category if they do not conform with the requirements for the "A" or "B" categories. Each compartment of the "C" category shall be equipped with: (1) A separate system of an approved type smoke detector or fire detector to give warning at the pilot or flight engineer station, and (2) an approved built-in fire-extinguishing system controlled from the pilot or flight engineer station. Means shall be provided to exclude hazardous quantities of smoke, flames, or extinguishing agent from entering into any compartment occupied by the crew or passengers. Ventilation and drafts shall be further controlled within each such cargo or baggage compartment to the extent that the extinguishing agent provided can control any fire which may start within the compartment. All cargo and baggage compartments of this category shall be completely lined with fire-resistant material, except that additional service lining of flame-resistant material may be employed.

(d) *Class D.* Cargo and baggage compartments shall be classified in the "D" category if they are so designed and constructed that a fire occurring therein will be completely confined without endangering the safety of the airplane or the occupants. Compliance shall be shown with the following:

(1) Means shall be provided to exclude hazardous quantities of smoke, flames, or other noxious gases from entering into any compartment occupied by the crew or passengers.

(2) Ventilation and drafts shall be controlled within each compartment so that any fire likely to occur in the compartment will not progress beyond safe limits.

NOTE: For compartments having a volume not in excess of 500 cubic feet, an airflow of not more than 1,500 cubic feet per hour is considered acceptable. For larger compartments lesser airflow may be applicable.

(3) The compartment shall be completely lined with fire-resistant material.

(4) Consideration shall be given to the effect of heat within the compartment on adjacent critical parts of the airplane.

(e) *Class E.* On airplanes used for the carriage of cargo only it shall be acceptable to classify the cabin area as a Class "E" compartment. Compliance shall be shown with the following:

(1) The compartment shall be completely lined with fire-resistant material.

(2) The compartment shall be equipped with a separate system of an approved type smoke or fire detector to give warning at the pilot or flight engineer station.

(3) Means shall be provided to shut off the ventilating airflow to or within the compartment. Controls for such means shall be accessible to the flight crew in the crew compartment.

(4) Means shall be provided to exclude hazardous quantities of smoke, flames, or noxious gases from entering the flight crew compartment.

(5) Required crew emergency exits shall remain accessible under all cargo loading conditions.

§ 41.116 Proof of compliance.

Compliance with those provisions of § 41.115 which refer to compartment accessibility, the entry of hazardous quantities of smoke or extinguishing agent into compartments occupied by the crew or passengers, and the dissipation of the extinguishing agent in category "C" compartments shall be demonstrated by tests in flight. It shall also be demonstrated during these tests that no inadvertent operation of smoke or fire detectors in adjacent or other compartments within the airplane would occur as a result of fire contained in any one compartment, either during or after extinguishment, unless the extinguishing system floods such compartments simultaneously.

§ 41.117 Propeller de-icing fluid.

If combustible fluid is used for propeller de-icing, the provisions of § 41.131 shall be complied with.

§ 41.118 Pressure cross-feed arrangements.

Pressure cross-feed lines shall not pass through portions of the airplane devoted to carrying personnel or cargo unless means are provided to permit the flight personnel to shut off the supply of fuel to these lines, or unless the lines are enclosed in a fuel- and fume-proof enclosure that is ventilated and drained to the exterior of the airplane. Such enclosures need not be used if these lines incorporate no fittings on or within the personnel or cargo areas and are suitably routed or protected to safeguard against accidental damage. Lines which can be isolated from the remainder of the fuel system by means of valves at each end shall incorporate provisions for the relief of excessive pressures that may result from exposure of the isolated line to high ambient temperatures.

§ 41.119 Location of fuel tanks.

Location of fuel tanks shall comply with the provisions of § 41.132. In addition, no portion of engine nacelle skin which lies immediately behind a major air egress opening from the engine compartment shall act as the wall of an integral tank. Fuel tanks shall be isolated from personnel compartments by means of fume- and fuel-proof enclosures.

§ 41.120 Fuel system lines and fittings.

Fuel lines shall be installed and supported in a manner that will prevent excessive vibration and will be adequate to withstand loads due to fuel pressure and accelerated flight conditions. Lines which are connected to components of the airplane between which relative motion may exist shall incorporate provisions for flexibility. Flexible connections in lines which may be under pressure and subjected to axial loading shall employ flexible hose assemblies rather than hose clamp connections. Flexible hose shall be of an acceptable type or proven suitable for the particular application.

§ 41.121 Fuel lines and fittings in designated fire zones.

Fuel lines and fittings in all designated fire zones (see § 41.131) shall comply with the provisions of § 41.134.

§ 41.122 Fuel valves.

In addition to the requirements contained in § 41.133 for shutoff means, all fuel valves shall be provided with positive stops or suitable index provisions in the "on" and "off" positions and shall be supported in such a manner that loads resulting from their operation or from accelerated flight conditions are not transmitted to the lines connected to the valve.

§ 41.123 Oil lines and fittings in designated fire zones.

Oil lines and fittings in all designated fire zones (see § 41.131) shall comply with the provisions of § 41.134.

§ 41.124 Oil valves.

Requirements of § 41.133 for shutoff means shall be complied with. Closing of oil shutoff means shall not prevent feathering the propeller, unless equivalent safety provisions are incorporated. All oil valves shall be provided with positive stops or suitable index provisions in the "on" and "off" positions, and shall be supported in such a manner that loads resulting from their operation or from accelerated flight conditions are not transmitted to the lines attached to the valve.

§ 41.125 Oil system drains.

Accessible drains shall be provided to permit safe drainage of the entire oil system and shall incorporate either a manual or automatic means for positive locking in the closed position. (See also § 41.135.)

§ 41.126 Engine breather line.

Engine breather lines shall be so arranged that condensed water vapor which may freeze and obstruct the line cannot accumulate at any point. Breathers shall discharge in a location which will not constitute a fire hazard in case foaming occurs and so that oil emitted from the line will not impinge upon the pilots' windshield. The breather shall not discharge into the engine air induction system. (See also § 41.135.)

§ 41.127 Fire walls.

All engines, auxiliary power units, fuelburning heaters, and other combustion equipment which are intended for operation in flight shall be isolated from the remainder of the airplane by means of fire walls or shrouds, or other equivalent means.

§ 41.128 Fire-wall construction.

Fire walls and shrouds shall be constructed in such a manner that no hazardous quantity of air, fluids, or flame can pass from the engine compartment to other portions of the airplane. All openings in the fire wall or shroud shall be sealed with close-fitting fireproof grommets, bushings, or fire-wall fittings. Fire walls and shrouds shall be constructed of fireproof material and

shall be protected against corrosion. The following materials have been found to comply with this requirement:

(a) Heat and corrosion resistant steel 0.015 inch thick;

(b) Low carbon steel, suitably protected against corrosion, 0.018 inch thick.

§ 41.129 Cowling.

Cowling shall be constructed and supported in such a manner as to be capable of resisting all vibration, inertia, and air loads to which it may normally be subjected. Provision shall be made to permit rapid and complete drainage of all portions of the cowling in all normal ground and flight attitudes. Drains shall not discharge in locations constituting a fire hazard. Cowling, unless otherwise specified by these regulations, shall be constructed of fire-resistant material. Those portions of the cowling which are subjected to high temperatures due to their proximity to exhaust system parts or exhaust gas impingement shall be constructed of fireproof material.

§ 41.130 Engine accessory section diaphragm.

Unless equivalent protection can be demonstrated by other means, a diaphragm shall be provided on air-cooled engines to isolate the engine power section and all portions of the exhaust system from the engine accessory compartment. This diaphragm shall comply with the provisions of § 41.128.

§ 41.131 Powerplant fire protection.

Engine accessory sections, installations where no isolation is provided between the engine and accessory compartment, also regions wherein lie auxiliary power units, fuel-burning heaters, and other combustion equipment shall be referred to as designated fire zones. Such zones shall be protected from fire by compliance with §§ 41.132 through 41.135.

§ 41.132 Flammable fluids.

No tanks or reservoirs which are a part of a system containing flammable fluids or gases shall be located in designated fire zones, except where the fluid contained, the design of the system, the materials used in the tank, the shutoff means, and all connections, lines, and controls are such as to provide equivalent safety. Not less than ½ inch of clear air space shall be provided between any tank or reservoir and a fire wall or shroud isolating a designated fire zone.

§ 41.133 Shutoff means.

Means for each individual engine shall be provided for shutting off or otherwise preventing hazardous quantities of fuel, oil, de-icer, and other flammable fluids from flowing into, within, or through any designated fire zone, except that means need not be provided to shut off flow in lines forming an integral part of an engine. In order to facilitate rapid and effective control of fires, such shutoff means shall permit an emergency operating sequence which is compatible with the emergency operation of other equipment, such as feathering the propeller. Shutoff means shall be located outside of designated fire zones, unless equivalent safety is provided (see § 41.132), and it shall be shown that no hazardous quantity of such flammable fluid will drain into any designated fire zone after shutting off has been accomplished. Adequate provisions shall be made to guard against inadvertent operation of the shutoff means and to make it possible for the crew to reopen the shutoff means after it has once been closed.

§ 41.134 Lines and fittings.

(a) All lines and fittings carrying flammable fluids in designated fire zones shall be fire resistant, except as otherwise provided in this section. If flexible hose is used, the assembly of hose and end fittings shall be of an approved type. The provisions of this paragraph need not apply to those lines and fittings which form an integral part of the engine.

(b) Vent and drain lines and their fittings shall be subject to the provisions of paragraph (a) of this section unless a failure of such line or fitting will not result in, or add to, a fire hazard.

§ 41.135 Vent and drain lines.

All vent and drain lines and fittings for same located in designated fire zones and which carry flammable fluids or gases shall comply with the provisions of § 41.134, if the Director finds that rupture or breakage of a particular drain or vent line may result in a fire hazard.

§ 41.136 Fire-extinguishing systems.

(a) Unless the air carrier shows that equivalent protection against destruction of the airplane in case of fire is provided by the use of fireproof materials in the nacelle and other components which would be subjected to flame, fire-extinguishing systems shall be provided to serve all designated fire zones.

(b) Materials in the fire-extinguishing system shall not react chemically with the extinguishing agent so as to constitute a hazard.

§ 41.137 Fire-extinguishing agents.

Extinguishing agents employed shall be methyl bromide, carbon dioxide, or any other agent which has been demonstrated to provide equivalent extinguishing action. If methyl bromide or any other toxic extinguishing agent is employed, provisions shall be made to prevent the entrance of harmful concentrations of fluid or fluid vapors into any personnel compartment either due to leakage during normal operation of the airplane or as a result of discharging the fire extinguisher on the ground or in flight when a defect exists in the extinguishing system. If a methyl bromide system is provided, the containers shall be charged with dry agent and shall be sealed by the fire-extinguisher manufacturer or any other party employing saisfactory recharging equipment. If carbon dioxide is used, it shall not be possible to discharge sufficient gas into personnel compartments to constitute a hazard from the standpoint of suffocation of the occupants.

§ 41.138 Extinguishing agent container pressure relief.

Extinguishing agent containers shall be provided with a pressure relief to prevent bursting of the container due to excessive internal pressures. The discharge line from the relief connection shall terminate outside the airplane in a location convenient for inspection on the ground. An indicator shall be provided at the discharge end of the line to provide a visual indication when the container has discharged.

§ 41.139 Extinguishing agent container compartment temperature.

Precautions shall be taken to insure that the extinguishing agent containers are installed in locations where reasonable temperatures can be maintained for effective use of the extinguishing system.

§ 41.140 Fire-extinguishing system materials.

All components of fire-extinguishing systems located in designated fire zones shall be constructed of fireproof materials, except for connections which are subject to relative motion between components of the airplane, in which case they shall be of flexible fire-resistant construction so located as to minimize the possibility of failure.

§ 41.141 Fire-detector systems.

Quick-acting fire detectors shall be provided in all designated fire zones and shall be sufficient in number and location to insure the detection of fire which may occur in such zones.

§ 41.142 Fire detectors.

Fire detectors shall be constructed and installed in such a manner as to insure their ability to resist without failure, all vibration, inertia, and other loads to which they may normally be subjected. Detectors shall be unaffected by exposure to oil, water, or other fluids or fumes which may be present.

§ 41.143 Protection of other airplane components against fire.

All airplane surfaces aft of the nacelles in the region of one nacelle diameter on both sides of the nacelle centerline shall be constructed of fire-resistant material. This provision need not be applied to tail surfaces lying behind nacelles unless the dimensional configuration of the airplane is such that the tail surfaces could be affected readily by heat, flames, or sparks emanating from a designated fire zone or engine compartment of any nacelle.

§ 41.150 Control of engine rotation.

All airplanes shall be provided with means for individually stopping and restarting the rotation of any engine in flight, except that for turbine engine installations means for completely stopping the rotation need be provided only if the Director finds that rotation could jeopardize the safety of the airplane.

§ 41.151 Fuel system independence.

Airplane fuel systems shall be arranged in such manner that the failure of any one component will not result in the irrecoverable loss of power of more than one engine. A separate fuel tank need not be provided for each engine if the carrier shows that the fuel system incorporates features which provide equivalent safety.

§ 41.152 Induction system ice prevention.

Means for preventing the malfunctioning of each engine due to ice accumulation in the engine air induction system shall be provided for all airplanes.

§ 41.153 Carriage of cargo in passenger compartments.

When operating conditions require the carriage of cargo which cannot be loaded in approved cargo racks, bins, or compartments which are separate from passenger compartments, such cargo may be carried in the passenger compartment in accordance with the requirements of paragraph (a) or (b) of this section.

(a) Such cargo may be carried in approved cargo bins in the passenger compartment if such bins meet the strength and other safety provisions applicable to cargo and passenger compartments prescribed in Part 4b or other airworthiness part under which the airplane is type certificated. The combined weight of the cargo and the approved bin or compartments shall not exceed 85 percent of the load used in determining the design conditions for the structure (bin) involved.

(b) If the cargo is not carried in approved bins, it shall be carried in accordance with the following requirements:

(1) It shall be packaged or covered in a manner to avoid possible injury to passengers;

(2) It shall be properly secured in the airplane by means of safety belts or other tie-downs possessing sufficient strength to eliminate possibility of shifting under all normally anticipated flight, ground, and emergency landing conditions;

(3) It shall not be carried directly above seated passengers;

(5) It shall not be carried aft of seated passengers;

(5) It shall not impose any loads on seats or the floor structure which exceed the designed loads for those compartments; and

(6) It shall not be placed in any position which restricts the access to or use of any required emergency or regular exit or the aisle between the crew and the passenger compartments.

§ 41.154 Carriage of cargo in cargo compartments.

When cargo is carried in compartments which are so designed as to require the physical entry of a crewmember to extinguish any fire which may occur during flight, the cargo shall be so loaded as to permit ready access in flight to any part of the compartment.

INSTRUMENTS AND EQUIPMENT FOR ALL OPERATIONS

§ 41.170 Airplane instruments and equipment for all operations.

(a) Instruments and equipment required by §§ 41.171 through 41.233 shall be approved and shall be installed in accordance with the provisions of the airworthiness requirements applicable to the instruments or equipment concerned.

(b) All airspeed indicators shall be calibrated in knots, and all airspeed limitations and related information contained in the Airplane Flight Manual and pertinent placards shall be expressed in knots.

(c) The following instruments and equipment shall be in operable condition prior to takeoff, except as provided in § 41.391(b) for continuance of flight with equipment inoperative:

(1) Instruments and equipment required to comply with airworthiness requirements under which the airplane is type certificated and as required by the provisions of § 41.110 and §§ 41.150 through 41.154; and

(2) Instruments and equipment specified in §§ 41.171 through 41.179 for all operations, and the instruments and equipment specified in §§ 41.200 through 41.233 for the type of operations indicated, wherever these items are not already provided in accordance with subparagraph (1) of this paragraph.

NOTE: Instruments and equipment specified in §§ 41.171, 41.172, and 41.230 through 41.233 will be approved in accordance with one or more of the following methods:

(A) Instruments and equipment which are included as a part of the original aircraft type design.

(B) Instruments and equipment approved in accordance with applicable Technical Standard Orders and installed under original aircraft type certification, or subsequent installation in accordance with airworthiness and alteration requirements (Parts 1 and 18 of this chapter (Civil Air Regulations)).

(C) Instruments and equipment manufactured in accordance with an FAA type certificate and installed on original aircraft certification, or subsequent installation in accordance with airworthiness and alteration requirements (Parts 1 and 18 of this chapter (Civil Air Regulations)).

§ 41.171 Flight and navigational equipment for all operations.

The following flight and navigational instruments and equipment are required for all operations:

(a) An airspeed indicating system with heated pitot tube or equivalent means for preventing malfunctioning due to icing;

(b) Sensitive altimeter;

(c) Clock (sweep-second);

(d) Free-air temperature indicator;

(e) Gyroscopic bank and pitch indicator (artificial horizon);

(f) Gyroscopic rate-of-turn indicator combined with a slip-skid indicator (turn and bank indicator);

(g) Gyroscopic direction indicator (directional gyro or equivalent);

(h) Magnetic compass; and

(i) Vertical speed indicator (rate-of-climb indicator).

§ 41.172 Engine instruments for all operations.

The following engine instruments are required for all operations, except that the Director may permit or require different instrumentation for turbine-powered airplanes to provide equivalent safety:

(a) Carburetor air temperature indicator for each engine;

(b) Cylinder head temperature indicator for each air-cooled engine;

(c) Fuel pressure indicator for each engine;

(d) Fuel flowmeter or fuel mixture indicator for each engine;

(e) Means for indicating fuel quantity in each fuel tank to be used;

(f) Manifold pressure indicator for each engine;

(g) Oil pressure indicator for each engine;

(h) Oil quantity indicator for each oil tank when a transfer or separate oil reserve supply is used;

(i) Oil-in temperature indicator for each engine;

(j) Tachometer for each engine;

(k) An independent fuel pressure warning device for each engine or a master warning device for all engines with means for isolating the individual warning circuits from the master warning device; and

(l) A means shall be provided for each reversible propeller on airplanes equipped with reversible propellers which will indicate to the pilots when the propeller is in reverse pitch. Such means may be actuated at any point in the reversing cycle between the normal low pitch stop position and full reverse pitch. No indication shall be given at or above the normal low pitch stop position. The source of indication shall be actuated by the propeller blade angle or be directly responsive to the propeller blade angle.

§ 41.173 Emergency equipment for all operations.

(a) *General.* The emergency equipment specified in this section is required for all operations. Emergency equipment required by paragraphs (b), (c), and (e) of this section shall be inspected by the air carrier at least every 90 days to insure that the condition and quantity thereof continues to meet the standards of original approval. All required equipment shall be readily accessible to the crew, and the method of operation shall be plainly indicated. When such equipment is carried in compartments or containers, the compartments or containers shall be marked as to contents and date of last inspection.

(b) *Hand fire extinguishers for crew, passenger, and cargo compartments.* Hand fire extinguishers of an approved type shall be provided for use in crew, passenger, and cargo compartments in accordance with the following requirements:

(1) The type and quantity of extinguishing agent shall be suitable for the type of fires likely to occur in the compartment where the extinguisher is intended to be used.

(2) At least one hand fire extinguisher shall be provided and conveniently located on the flight deck for use by the flight crew.

(3) At least one hand fire extinguisher shall be conveniently located in the passenger compartment of airplanes accommodating more than 6 but less than 31 passengers. On airplanes accommodating more than 30 but less than 61 passengers, at least 2 fire extinguishers shall be provided. On airplanes accommodating more than 60 passengers, at least 3 fire extinguishers shall be provided. None need be provided in passenger compartments of airplanes accommodating 6 or less persons.

NOTE: An approved type fire extinguisher is an extinguisher approved by the Underwriters' Laboratories, Inc., Factory Mutual Laboratories, Underwriters' Laboratories of Canada or any other person whose approval is acceptable to the FAA, or an extinguisher which is otherwise approved in accordance with the provisions of § 4b.18 of this chapter (Civil Air Regulations).

(c) *First-aid kits.* First-aid kits approved in accordance with the applicable provisions of Appendix A of this part shall be provided in a quantity appropriate to the number of passengers and crew accommodated in the airplane.

(d) *Crash ax.* All airplanes shall be equipped with at least one crash ax.

(e) *Means for emergency evacuation.* On all passenger-carrying airplanes, at all emergency exits which are more than 6 feet from the ground with the airplane on the ground and with the landing gear extended, means shall be provided to assist the occupants in descending from the airplane. At floor level exits approved as emergency exits, such means shall be a chute or equivalent device suitable for the rapid evacuation of passengers. During flight time this means shall be in a position for ready use: *Provided,* That the requirements of this paragraph do not apply to emergency exits over the wing where the greatest distance from the lower sill of the exit to the wing surface does not exceed 36 inches.

(f) *Interior emergency exit markings.* (1) In all passenger-carrying airplanes, all passenger emergency exits, their means of access, and their means of opening shall be marked conspicuously. The identity and location of emergency exits shall be recognizable from a distance equal to the width of the cabin. The location of the emergency exit operating handle and the instructions for opening shall be marked on or adjacent to the emergency exit and shall be readable from a distance of 30 inches by a person with normal eyesight.

(2) In all passenger-carrying airplanes for night operations, a source or sources of light, with an energy supply independent of the main lighting system, shall be installed to illuminate all passenger emergency exit markings. Such lights shall be designed to function automatically in a crash landing and to continue to function thereafter and shall also be operable manually, or shall be designed only for manual operation and also to continue to function following a crash landing. Such lights shall be turned on prior to each night takeoff and landing.

§ 41.174 Seats and safety belts for all occupants.

(a) The air carrier shall provide and make available at all times during the takeoff, en route flight, and landing of an airplane which it is operating:

(1) Either an approved seat or berth for each person aboard the airplane, except for those persons who are 2 years of age or less; and

(2) An approved safety belt attached to each seat and berth for separate use by each such person aboard the airplane, except that two persons occupying a berth may be provided with one approved safety belt to be shared by both such persons, and two persons occupying a multiple lounge or divan seat may be provided with one approved safety belt to be shared by both such persons during flight between takeoff and landing.

(b) During the takeoff and landing of an air carrier airplane, each person on board shall occupy an approved seat or berth and secure themselves with the approved safety belt attached thereto, except that a person 2 years of age or less may be held by an adult person occupying a seat or berth. A safety belt attached to a seat shall not be used by more than one person during takeoff and landing.

(c) In no event shall any required safety belt be used by more persons than the number for which it is approved.

§ 41.175 Miscellaneous equipment for all operations.

All airplanes shall have installed the following equipment:

(a) If protective fuses are used, spare fuses of a number approved for the particular airplane and appropriately described in the air carrier manual.

(b) Windshield wiper or equivalent for each pilot station.

(c) A power supply and distribution system capable of producing and distributing the load for all required instruments and equipment using an external power supply in the event of failure of any one power source or component of the power distribution system: *Provided,* That the use of common elements in the power distribution system will be approved if the air carrier shows that such elements are so designed as to be reasonably protected against malfunctioning. Engine-driven sources of energy, when used, shall be on separate engines.

NOTE: Any aircraft power and distribution systems which meet the requirements of §§ 4b.606 (a), (b), and (c); 4b.612(e); 4b.622 (a) and (b); 4b.623(c); 4b.625; and 4b.650 (b) of this chapter (Civil Air Regulations) complies with the requirements of paragraph (c) of § 41.175.

(d) Means for indicating the adequacy of the power being supplied to required flight instruments.

(e) Two independent static pressure systems, so vented to the outside atmospheric pressure that they will be least affected by air flow variation, moisture, or other foreign matter, and so installed as to be airtight except for the vent. When a means is provided for transferring an instrument from its primary operating system to an alternate system, such means shall include a positive positioning control and shall be marked to indicate clearly which system is being used.

(f) Means for locking all companionway doors which separate passenger compartments from flight crew compartments. Keys for all doors which separate passenger compartments from other compartments having emergency exit provisions shall be readily available to all crewmembers. Any door which is the means of access to a required passenger emergency exit shall be placarded to indicate that it must be open during takeoff and landing. All doors which lead to compartments normally accessible to passengers and which are capable of being locked by passengers shall be provided with means for unlocking by the crew in the event of an emergency.

(g) For seaplanes only, anchor light or lights, a warning bell for signaling when not under way during fog conditions, and an anchor adequate for the size of the seaplane.

§ 41.176 Cockpit check procedure.

The air carrier shall provide for each type of airplane an approved cockpit check procedure. The approved procedures shall include all items necessary for flight crewmembers to check for safety prior to starting engines, prior to taking off, prior to landing, and in engine and systems emergencies, and shall be so designed as to obviate the necessity for a flight crewmember to rely upon his memory for items to be checked. The approved procedures shall be readily usable in the cockpit of each airplane and shall be followed by the flight crew when operating the airplane.

§ 41.177 Passenger information for all operations.

All airplanes shall be equipped with signs visible to passengers and cabin attendants to notify such persons when smoking is prohibited and when safety belts should be fastened. These signs shall be capable of on-off operation by the crew and shall be placed in the "on position" for all takeoffs and landings and when otherwise deemed necessary by the pilot in command.

§ 41.178 Exterior exit and evacuation markings for all operations.

Exterior surfaces of the airplane shall be marked to identify clearly all required emergency exits. When such exits are operable from the outside, markings shall consist of or include information indicating the method of opening.

§ 41.179 Shoulder harness.

All airplanes shall be equipped with shoulder harnesses at the pilot in command, the second in command, and flight engineer stations.

INSTRUMENTS AND EQUIPMENT FOR SPECIAL OPERATIONS

§ 41.200 Instruments and equipment for operations at night.

Each airplane operated at night shall be equipped with the following instruments and equipment in addition to those required by §§ 41.171 through 41.179:

(a) Position lights;

(b) An anti-collision light for airplanes having a maximum certificated weight of more than 12,500 pounds;

(c) Two landing lights;

(d) Two class 1 or class 1A landing flares for extended over-water operations;

(e) Instrument lights providing sufficient illumination to make all required instruments, switches, etc., easily readable, so installed that their direct rays are shielded from the flight crewmem-

bers' eyes and that no objectionable reflections are visible to them. A means of controlling the intensity of illumination shall be provided unless it is shown that nondimming instrument lights are satisfactory;

(f) An airspeed indicating system with heated pitot tube or equivalent means for preventing malfunctioning due to icing; and

(g) A sensitive altimeter.

§ 41.201 Instruments and equipment for operations under IFR or over-the-top.

Each airplane operated under IFR or over-the-top shall be equipped with the following instruments and equipment in addition to those required by §§ 41.171 through 41.179:

(a) An airspeed indicating system with heated pitot tube or equivalent means for preventing malfunctioning due to icing;

(b) A sensitive altimeter; and

(c) Instrument lights providing sufficient illumination to make all required instruments, switches, etc., easily readable, so installed that their direct rays are shielded from the flight crewmembers' eyes and that no objectionable reflections are visible to them. A means of controlling the intensity of illumination shall be provided unless it is shown that nondimming instrument lights are satisfactory.

§ 41.202 Supplemental oxygen; reciprocating-engine-powered airplanes.

(a) *General.* Except where supplemental oxygen is provided in accordance with the requirements of § 41.203, supplemental oxygen shall be furnished and used as set forth in paragraphs (b) and (c) of this section. The amount of supplemental oxygen required for a particular operation to comply with the rules in this part shall be determined on the basis of flight altitudes and flight duration consistent with the operating procedures established for each such operation and route. As used in the oxygen requirements hereinafter set forth, "cabin pressure altitude" shall mean the pressure altitude corresponding with the pressure in the cabin of the airplane, and "flight altitude" shall mean the altitude above sea level at which the airplane is operated; for airplanes not equipped with pressurized cabins, "cabin pressure altitude" and "flight altitude" shall be considered identical.

(b) *Crewmembers.* (1) At cabin pressure altitudes above 10,000 feet to and including 12,000 feet, oxygen shall be provided for, and used by, each member of the flight crew on flight deck duty, and provided for all other crewmembers, during the portion of the flight in excess of 30 minutes within this range of altitudes.

(2) At cabin pressure altitudes above 12,000 feet, oxygen shall be provided for, and used by, each member of the flight crew on flight deck duty, and provided for all other crewmembers, during the entire flight time at such altitudes.

(3) When oxygen must be used by a flight crewmember, it shall be used continuously by such crewmember during the required periods, except when it is necessary to remove the oxygen mask or other dispenser in connection with his regular duties. Standby crewmembers who are on call or are definitely going to have flight deck duty prior to the completion of the flight shall be provided with the same amount of supplemental oxygen as is provided for crewmembers on duty other than on flight deck duty. If a standby crewmember is not on call and will not be on flight deck duty during the remainder of the flight, such crewmember shall be considered as a passenger with regard to supplemental oxygen requirements.

(c) *Passengers.* Each air carrier shall provide a supply of oxygen approved for passenger safety in accordance with the following standards:

(1) For flights of over 30 minutes duration at cabin pressure altitudes above 8,000 feet to and including 14,000 feet, a supply of oxygen sufficient to furnish oxygen for 30 minutes to 10 percent the number of passengers carried shall be required.

(2) For flights at cabin pressure altitudes above 14,000 feet to and including 15,000 feet, a supply of oxygen sufficient to provide oxygen for the duration of the flight at such altitudes for 30 percent of the number of passengers carried shall generally be considered adequate.

(3) For flights at cabin pressure altitudes above 15,000 feet, a supply of oxygen sufficient to provide oxygen for each passenger carried during the entire flight at such altitudes shall be required.

§ 41.202–T Supplemental oxygen for sustenance; turbine-powered airplanes.

(a) *General.* When operating turbine-powered airplanes sustaining oxygen and dispensing equipment shall be furnished by the air carrier for use as set forth in this section. The amount of oxygen provided shall be at least that quantity which will be necessary to comply with paragraphs (b) and (c) of this section. The amount of sustaining and first-aid oxygen required for a particular operation to comply with the rules in this part shall be determined on the basis of cabin pressure altitudes and flight duration consistent with the operating procedures established for each such operation and route. The requirements for airplanes with pressurized cabins shall be determined on the basis of cabin pressure altitude and the assumption that a cabin pressurization failure will occur at that altitude or point of flight which is most critical from the standpoint of oxygen need, and that after such failure the airplane will descend in accordance with the emergency procedures specified in the Airplane Flight Manual without exceeding its operating limitations to a flight altitude that will permit successful termination of the flight. Following such a failure the cabin pressure altitude shall be considered to be the same as the flight altitude unless it can be shown that no probable failure of the cabin or pressurization equipment will result in a cabin pressure altitude equal to the flight altitude, under which circumstances the maximum cabin pressure altitude attained may be used as a basis for certification and/or determination of oxygen supply.

(b) *Crewmembers.* A supply of oxygen for crewmembers shall be provided in accordance with the following requirements:

(1) At cabin pressure altitudes above 10,000 feet to and including 12,000 feet, oxygen shall be provided for and used by each member of the flight crew on flight deck duty and provided for all other crewmembers during the portion of the flight in excess of 30 minutes within this range of altitudes.

(2) At cabin pressure altitudes above 12,000 feet, oxygen shall be provided for and used by each member of the flight crew on flight deck duty and provided for all other crewmembers during the entire flight at such altitudes.

(3) When oxygen must be used by a flight crewmember, it shall be used continuously by such crewmember during the required periods, except when it is necessary to remove the oxygen mask or other dispenser in connection with his regular duties. Standby crewmembers who are on call or are definitely going to have flight deck duty prior to the completion of the flight shall be provided with the same amount of supplemental oxygen as is provided for crewmembers on duty other than on flight deck duty. If a standby crewmember is not on call and will not be on flight deck duty during the remainder of the flight, such crewmember shall be considered as a passenger with regard to supplemental oxygen requirements.

(c) *Passengers.* A supply of oxygen for passengers shall be provided in accordance with the following requirements:

(1) For flights at cabin pressure altitudes above 10,000 feet to and including 14,000 feet, oxygen shall be provided for the duration of flight in excess of 30 minutes for 10 percent of the number of passengers carried.

(2) For flights at cabin pressure altitudes above 14,000 feet to and including 15,000 feet, oxygen shall be provided for the duration of flight at such altitude for 30 percent of the number of passengers carried.

(3) For flights at cabin pressure altitudes above 15,000 feet, oxygen shall be provided for each occupant carried for the duration of flight at such altitude.

§ 41.203 Supplemental oxygen requirements for pressurized cabin airplanes; reciprocating-engine-powered airplanes.

When operating pressurized cabin airplanes, the air carrier shall so equip such airplanes as to permit compliance with the following requirements in the event of cabin pressurization failure:

(a) *For crewmembers.* When operating such airplanes at flight altitudes above 10,000 feet, the air carrier shall provide sufficient oxygen for all crewmembers for the duration of the flight at such altitudes: *Provided,* That not less than a 2-hour supply of oxygen shall be provided for the flight crewmembers on flight deck duty. The oxygen supply required by § 41.205 may be considered in determining the supplemental breathing supply required for flight crewmembers on flight deck duty in the event of cabin pressurization failure.

(b) *For passengers.* When operating such airplanes at flight altitudes above 8,000 feet, the air carrier shall provide the following amounts of oxygen:

(1) When an airplane is not flown at a flight altitude of over 25,000 feet, a supply of oxygen sufficient to furnish oxygen for 30 minutes to 10 percent of the number of passengers carried shall be considered adequate, if at any point along the route to be flown the airplane can safely descend to a flight altitude of 14,000 feet or less within 4 minutes.

(2) In the event that such airplane cannot descend to a flight altitude of 14,000 feet or less within 4 minutes, the following supply of oxygen shall be provided:

(i) For the duration of the flight in excess of 4 minutes at flight altitudes above 15,000 feet, a supply sufficient to comply with § 41.202(c)(3);

(ii) For the duration of the flight at flight altitudes above 14,000 feet to and including 15,000 feet, a supply sufficient to comply with § 41.202(c)(2); and

(iii) For flight at flight altitudes above 8,000 feet to and including 14,000 feet, a supply sufficient to furnish oxygen for 30 minutes to 10 percent of the number of passengers carried.

(3) When an airplane is flown at a flight altitude above 25,000 feet, sufficient oxygen shall be furnished in accordance with the following requirements to permit the airplane to descend to an appropriate flight altitude at which the flight can be safely conducted. Sufficient oxygen shall be furnished to provide oxygen for 30 minutes to 10 percent of the number of passengers carried for the duration of the flight above 8,000 feet to and including 14,000 feet and to permit compliance with § 41.202(c) (2) and (3) for flight above 14,000 feet.

(c) For purposes of this section it shall be assumed that the cabin pressurization failure will occur at a time during flight which is critical from the standpoint of oxygen need and that after such failure the airplane will descend, without exceeding its normal operating limitations, to flight altitudes permitting safe flight with respect to terrain clearance.

§ 41.203–T Supplemental oxygen for emergency descent and for first aid; turbine-powered airplanes with pressurized cabins.

(a) *General.* When operating turbine-powered airplanes with pressurized cabins, the air carrier shall furnish oxygen and dispensing equipment necessary to permit compliance with the requirements set forth in this section in the event of cabin pressurization failure.

(b) *Crewmembers.* When operating at flight altitudes above 10,000 feet, oxygen shall be provided to permit compliance with § 41.202–T except that not less than a 2-hour supply shall be provided for the flight crewmembers on flight deck duty. The oxygen required by § 41.205 may be included in determining the supply required for flight crewmembers on flight deck duty in the event of cabin pressurization failure.

(c) *Use of oxygen masks by flight crewmembers.*[1] (1) When operating at flight altitudes above 25,000 feet, one pilot at the controls of the airplane shall wear and use an oxygen mask at all times and all other flight crewmembers on flight deck duty shall be provided with oxygen masks, connected to appropriate supply terminals, which shall be worn in a manner that will permit rapid placing of the masks on their faces for use, properly secured and sealed: *Provided,* That the one pilot need not use a mask at or below 35,000 feet if all flight crewmembers on flight deck duty are provided with and are wearing in a ready position for use, a type of oxygen mask connected to appropriate supply terminals, which has been demonstrated to the satisfaction of a representative of the Administrator to be capable of being immediately placed on their faces for use, properly secured and sealed, with either hand. In demonstrating the oxygen mask, the air carrier shall show that this action can be accomplished without disturbing glasses, headphones, or other equipment worn, and without distracting or delaying the flight crewmember from proceeding with his assigned emergency procedures.

(2) Notwithstanding the provisions in subparagraph (1) of this paragraph, when operating at flight altitudes above 25,000 feet, if at any time it is necessary for one pilot to leave his station at the controls of the airplane for any reason, the remaining pilot at the controls shall don and use his oxygen mask until the other pilot has returned to his duty station.

(3) Prior to take off of a flight, each flight crewmember shall preflight his oxygen equipment to insure that the oxygen mask is functioning and fitted properly and connected to appropriate supply terminals, and that the oxygen supply is ready for use.

(d) *Use of portable oxygen equipment by cabin attendants.* Portable oxygen equipment of not less than a 15-minute oxygen supply shall be carried by each attendant during the entire time flight is conducted above 25,000 feet flight altitude, unless it is shown that sufficient portable oxygen units equipped with masks or spare outlets and masks are distributed throughout the cabin to insure immediate availability of oxygen to the cabin attendants regardless of their location at the time of cabin depressurization.

(e) *Passenger cabin occupants.* When operating at flight altitudes above 10,000 feet, the following supply of oxygen shall be provided for the use of passenger cabin occupants:

(1) When an airplane is certificated to operate at flight altitudes to and including 25,000 feet, and if at any point along the route to be flown the airplane can descend safely to a flight altitude of 14,000 feet or less within 4 minutes, oxygen shall be available at the rate prescribed by this part for a 30-minute period for not less than 10 percent of the number of passenger cabin occupants carried.

(2) When an airplane is operated at flight altitudes to and including 25,000 feet and cannot descend safely to a flight altitude of 14,000 feet within 4 minutes, or when an airplane is operated at flight altitudes above 25,000 feet, oxygen shall be available at the rate prescribed by this part for not less than 10 percent of the number of passenger cabin occupants carried for the duration of flight following cabin depressurization at cabin pressure altitudes above 10,000 feet to and including 14,000 feet and, as applicable, to permit compliance with § 41.202–T(c)(2) and (3), except that not less than a 10-minute supply for all passenger cabin occupants shall be provided.

(3) For first-aid treatment of occupants who for physiological reasons might require undiluted oxygen following descent from cabin pressure altitudes above 25,000 feet, a supply of oxygen in accordance with the requirements of § 4b.651(b)(4) of this chapter (Civil Air Regulations) (see § 41.204) shall be provided for 2 percent of the occupants for the duration of flight following cabin depressurization at cabin pressure altitudes above 8,000 feet, but in no case to less than one person. An appropriate number of acceptable dispensing units, but in no case less than 2, shall be provided. Means shall be provided to enable the cabin attendants to use this supply.

(f) *Passenger briefing.* Before flight is conducted above 25,000 feet, a crewmember shall give instructions and demonstrations to the passengers sufficient to insure that all passengers are adequately informed regarding the location and operation of the oxygen-dispensing equipment and the necessity of using oxygen in the event of cabin depressurization.

§ 41.204 Equipment standards.

(a) *Reciprocating-engine-powered airplanes.* The oxygen apparatus, the minimum rates of oxygen flow, and the supply of oxygen necessary to comply with the requirements of § 41.202 shall meet the standards established in § 4b.651 of this chapter (Civil Air Regulations) effective July 20, 1950: *Provided,* That if the air carrier shows full compliance with such standards to be impracticable, the Director may authorize such changes in these standards as he finds will provide an equivalent level of safety.

(b) *Turbine-powered airplanes.* The oxygen apparatus, the minimum rate of oxygen flow, and the supply of oxygen to comply with the requirements of §§ 41.202–T and 41.203–T shall meet the standards established in § 4b.651 of this chapter (Civil Air Regulations) effective September 1, 1958: *Provided,* That if the air carrier shows full compliance with such standards to be im-

[1] This paragraph is included in a notice of proposed rule making which is being circulated as Civil Air Regulations Draft Release No. 60–15. Whatever action is taken on DR 60–15 will be reflected in Part 41 at the time it is adopted.

practicable, the Director may authorize such changes in these standards as he finds will provide an equivalent level of safety.

§ 41.205 Protective breathing equipment for the flight crew.

(a) *Pressurized cabin airplanes.* Each required flight crewmember on flight deck duty shall have easily available at his station protective breathing equipment covering the eyes, nose, and mouth, or the nose and mouth where accessory equipment is provided to protect the eyes, to protect him from the effects of smoke, carbon dioxide, and other harmful gases. Not less than a 300-liter STPD supply of oxygen for each required flight crewmember on flight deck duty shall be provided for this purpose.

(b) *Nonpressurized cabin airplanes.* The requirement stated in paragraph (a) of this section shall apply to nonpressurized cabin airplanes if the Director finds that it is possible to obtain a dangerous concentration of smoke, carbon dioxide or other harmful gases in the flight crew compartments in any attitude of flight which might occur when the airplane is flown in accordance with either normal or emergency procedures.

§ 41.206 Equipment for extended overwater operations.

(a) The following equipment shall be required for all extended overwater operations: *Provided,* That the Director may require the carriage of all of the prescribed equipment, or any item thereof, for any operation over water, or upon application of an air carrier, permit deviation from these requirements for a particular extended overwater operation:

(1) Life vest meeting the specifications of Technical Standard Order C13 for each occupant of the airplane over 6 years of age and Technical Standard Order C13 NAS 801 for each occupant of the airplane 6 years of age and under, or other approved flotation device;

(2) Liferafts sufficient in number and of such rated capacity and buoyancy as to accommodate all occupants of the airplane;

(3) Suitable pyrotechnic signaling devices; and

(4) One portable emergency radio signaling device, capable of transmission on the appropriate emergency frequency or frequencies, which is not dependent upon the airplane power supply and which is self-buoyant and water-resistant.

(b) All required liferafts, life vests, and signaling devices shall be easily accessible in the event of a ditching without appreciable time for preparatory procedures. Life vests in pouches or containers shall be located adjacent to each seat so that each passenger may obtain and don the vest without having to leave the seat.

(c) Survival equipment approved in accordance with the applicable provisions of Appendix A of this part shall be attached to each required liferaft.

§ 41.207 Equipment for operations in icing conditions.

(a) For all operations in icing conditions each airplane shall be equipped with means for the prevention or removal of ice on windshields, wings, empennage, propellers, and other parts of the airplane where ice formation will adversely affect the safety of the airplane.

(b) For operations in icing conditions at night means shall be provided for illuminating or otherwise determining the formation of ice on the portions of the wings which are critical from the standpoint of ice accumulation. When illuminating means are used, such means shall be of a type which will not cause glare or reflection which would handicap crewmembers in the performance of their normal functions.

§ 41.208 Equipment for operations over frigid and tropical land areas.

Each airplane shall be equipped with the following equipment on flights for long distances over frigid or tropical land areas for which the Director finds such equipment to be necessary for search and rescue operations because of the character of the terrain to be flown over:

(a) Suitable pyrotechnic signaling devices;

(b) One approved portable emergency radio signaling device, capable of transmission on the appropriate emergency frequency or frequencies, which is not dependent upon the airplane power supply and which is self-buoyant and water-resistant; and

(c) Survival equipment approved in accordance with the applicable provisions of Appendix A of this part and adequate for the number of occupants of the airplane.

§ 41.209 Equipment for operations on which specialized means of navigation are required.

The air carrier shall show that sufficient and adequate airborne equipment is provided to permit navigation to be accomplished by the specialized method authorized for the particular route to be operated.

§ 41.210 Flight recorders.

(a) An approved flight recorder which records at least time, altitude, airspeed, vertical acceleration, and heading shall be installed in accordance with the following requirements:

(1) On all airplanes of more than 12,500 pounds maximum certificated takeoff weight which are certificated for operations above 25,000 feet altitude; and

(2) On all turbine-powered airplanes of more than 12,500 pounds maximum certificated takeoff weight.

(b) When an approved flight recorder is installed it shall be operated continuously from the instant the airplane commences the takeoff roll until it has completed the landing roll at an airport.

(c) Recorded information shall be retained by the air carrier for a period of at least 60 days. For a particular flight or series of flights, the information shall be retained for a longer period if requested by an authorized representative of the Administrator or the Civil Aeronautics Board.

RADIO EQUIPMENT

§ 41.230 Radio equipment.

Each airplane used in operations subject to this part shall be equipped with radio equipment specified for the type of operation in which it is engaged. Where two independent (separate and complete) radio systems are required by §§ 41.231 and 41.232, each system shall have an independent antenna installation: *Provided,* That where rigidly supported nonwire antennas or other antenna installations of equivalent reliability are used, only one such antenna need be provided.

§ 41.231 Radio equipment for operations under VFR over routes navigated by pilotage.

(a) For operations conducted under VFR over routes on which navigation can be accomplished by pilotage, each airplane shall be equipped with such radio equipment as is necessary under normal operating conditions to fulfill the following functions:

(1) Communicate with at least one appropriate ground station (as specified in § 41.34) from any point on the route and with other airplanes operated by the air carrier on the route;

(2) Communicate with appropriate traffic control facilities from any point in the control zone within which flights are intended; and

(3) Receive meteorological information from any point en route by either of two independent systems. One of the means provided for compliance with this subparagraph may be employed for compliance with subparagraphs (1) and (2) of this paragraph.

(b) For all operations at night conducted under VFR over routes on which navigation can be acomplished by pilotage, each airplane shall be equipped with such radio equipment as is necessary under normal operating conditions to fulfill the functions specified in paragraph (a) of this section and to receive radio navigational signals applicable to the route flown except that no marker beacon receiver or ILS receiver need be provided.

§ 41.232 Radio equipment for operations under VFR over routes not navigated by pilotage or for operations under IFR or over-the-top.

(a) For operations conducted under VFR over routes on which navigation cannot be accomplished by pilotage or for operations conducted under IFR or over-the-top, each airplane shall be equipped with such radio equipment as is necessary under normal operating conditions to fulfill the functions specified in § 41.231(a) and to receive satisfactorily by either of two independent systems, radio navigational signals from all primary en route and approach navigational facilities intended to be used, except that only one marker beacon receiver which provides visual and aural signals and one ILS receiver need be provided. Equipment provided to receive signals en route may be used to receive signals on approach, if it is capable of receiving both signals.

(b) In the case of operation on routes using procedures based on automatic direction finding, only one automatic direction finding system need be installed: *Provided,* That ground facilities are so located and the airplane is so fueled that, in case of failure of the automatic direction finding equipment, the flight may proceed safely to a suitable airport which has ground radio navigational facilities whose signals may be received by the use of the remaining airplane radio systems.

(c) In those areas where transition from low frequency to very high frequency radio navigational systems is in progress, one means of satisfactorily receiving signals over each of these systems shall be considered as complying with the requirement that two independent systems be provided to receive en route or approach navigational facility signals: *Provided,* That ground facilities are so located and the airplane is so fueled that, in case of failure of either system, the flight may proceed safely to a suitable airport which has ground radio navigational facilities whose signals may be received by use of the remaining airplane radio system.

§ 41.233 Radio equipment for extended overwater operations and for certain other operations.

Each airplane shall be equipped with such radio equipment as is necessary to fulfill the functions specified in § 41.232 and, by an independent system, the functions specified in § 41.231(a)(1) for the following operations:

(a) Extended overwater operations; and

(b) Operations for which the Director finds such equipment to be necessary for search and rescue operations because of the character of the terrain to be flown over.

MAINTENANCE AND INSPECTION REQUIREMENTS

§ 41.240 Responsibility for maintenance.

Irrespective of whether the air carrier has made arrangements with any other person for the performance of maintenance and inspection functions, each air carrier shall have the primary responsibility for the airworthiness of its airplanes and required equipment.

§ 41.241 Maintenance and inspection requirements.

(a) The air carrier, or the person with whom arrangements have been made for the performance of maintenance and inspection functions, shall establish an adequate inspection organization responsible for determining that workmanship, methods employed, and material used are in conformity with the requirements of the regulations of this subchapter, with accepted standards and good practices, and that any airframe, engine, propeller, or appliance released for flight is airworthy. All maintenance, repairs, and alterations shall be accomplished in accordance with the provisions of Part 18 of this chapter (Civil Air Regulations), and the Manual and operations specifications of the air carrier.

(b) Any individual who is directly in charge of inspection, maintenance, overhaul, or repair of any airframe, engine, propeller, or appliance shall hold an appropriate airman certificate; as for example, any individual who is assigned, by the air carrier or other person performing maintenance, responsibility for the work of a shop or station which performs inspections, maintenance, repairs, alterations, or other functions affecting aircraft airworthiness, and is available for consultation and decision on matters requiring instruction or decision from higher authority than that of the individuals performing the work.

§ 41.242 Maintenance and inspection training program.

The air carrier, or the person with whom arrangements have been made for the performance of maintenance and inspection functions, shall establish and maintain a training program to insure that all maintenance and inspection personnel charged with determining the adequacy of work performed are fully informed with respect to all procedures and techniques and with new equipment introduced into service, and are competent to perform their duties.

§ 41.243 Maintenance and inspection personnel duty time limitations.

Within the United States, its Territories and possessions, all maintenance and inspection personnel shall be relieved of all duty for a period of at least 24 consecutive hours during any 7 consecutive days or equivalent thereof within any one month.

AIRMAN AND CREWMEMBER REQUIREMENTS

§ 41.260 Utilization of airman.

(a) No air carrier shall utilize an individual as an airman unless he holds an appropriate and currently effective airman certificate issued by the Administrator and is otherwise qualified for the particular operation in which he is to be utilized. An airman shall have the appropriate certificate in his personal possession while engaged in operations under this part and shall present the same for examination to any authorized representative of the Administrator upon request.

(b) No individual who has reached his 60th birthday shall be utilized or serve as a pilot on any airplane while engaged in air carrier operations.

§ 41.261 Composition of flight crew.

(a) No air carrier shall operate an airplane with less than the minimum flight crew specified in the airworthiness certificate for the type of airplane and required in this part for the type of operation.

(b) Where the provisions of this part require the performance of two or more functions for which an airman certificate is necessary, such requirement shall not be satisfied by the performance of multiple functions at the same time by any airman.

(c) Where the air carrier is authorized to operate under instrument conditions or operates airplanes of more than 12,500 pounds maximum certificated takeoff weight, the minimum pilot crew shall be 2 pilots.

(d) On flights requiring a flight navigator or flight engineer, at least one other flight crewmember shall be sufficiently qualified, so that in the event of illness or other incapacity, emergency coverage can be provided for those functions for the safe completion of the flight. An airman need not be additionally certificated to function in another airman's capacity for such emergency coverage. Qualification procedures shall be included in the training program curriculum.

§ 41.262 Flight navigator.

An airman holding a valid flight navigator certificate shall be required for flight over any area, route, or route segment outside the continental limits of the United States:

(a) When celestial navigation is necessary, or

(b) When conditions are such that other specialized means of navigation necessary for the safe conduct of the flight cannot be adequately accomplished from the pilot station. Such conditions shall be deemed to exist when reliable fixes cannot be obtained from the pilot station for any period in excess of one hour, or for any lesser period when so determined by a representative of the Administrator upon consideration of the following factors: the speed of the aircraft used by the air carrier, the normal weather conditions to be encountered, the extent of air traffic control, the amount of traffic congestion, the area of the land at destination, fuel requirements, whether sufficient fuel is carried for return to the point of departure or alternates, and whether flight is predicated upon operation beyond the point-of-no-return.

§ 41.263 Flight engineer.

An airman holding a valid flight engineer certificate shall be required on all airplanes certificated for more than 80,000 pounds maximum certificated takeoff weight. Such airman shall also be required on all 4-engine airplanes certificated for more than 30,000 pounds maximum certificated takeoff weight where the Director finds that the design of the airplane used or the type of operation is such as to require engineer personnel for the safe operation of the airplane.

§ 41.265 Flight attendant.

At least one flight attendant shall be provided by the air carrier on airplanes carrying 10 or more passengers. At least 2 flight attendants shall be provided on airplanes carrying 45 or more passengers. At least 3 flight attendants shall be provided on airplanes carrying more than 100 passengers.

§ 41.266 Aircraft dispatcher.

Each air carrier shall provide an adequate number of qualified dispatchers at each dispatch center to insure the proper operational control of each flight.

§ 41.267 Assignment of emergency evacuation functions for each crewmember.

Each air carrier shall assign to each crewmember all necessary emergency

functions each such crewmember is to perform under circumstances requiring emergency evacuation. Emergency functions shall be assigned for each type of airplane used by the air carrier and the air carrier shall show that functions so assigned are realistic and capable of accomplishment. These functions shall be described in the air carrier manual and executed by each crewmember in the course of the emergency training program conducted by the air carrier.

TRAINING PROGRAM

§ 41.280 Establishment of approved program.

(a) Each air carrier shall establish a training program sufficient to insure that each crewmember and dispatcher used by the air carrier is adequately trained to perform the duties to which he is to be assigned. The initial training phases shall be satisfactorily completed prior to serving in scheduled operations. The training program shall meet with the approval of an authorized representative of the Administrator.

(b) Each air carrier shall provide adequate ground and flight training facilities and properly qualified instructors. There also shall be provided a sufficient number of check airmen to conduct the flight checks required by this part. Such check airmen shall hold the same airmen certificates and ratings as are required for the airman being checked.

(c) The training program for each flight crewmember shall consist of appropriate ground and flight training including proper flight crew coordination and training in emergency procedures. Procedures for each flight crew function shall be standardized to the extent that each flight crewmember will know the functions for which he is responsible and the relation of those functions to those of other flight crewmembers. The initial program shall include at least the appropriate requirements specified in §§ 41.281 through 41.285.

(d) The crewmember emergency procedures training program shall include at least the requirements specified in § 41.285.

(e) The appropriate instructor, supervisor, or check airman responsible for the particular training check or flight check shall certify to the proficiency of each crewmember and dispatcher upon completion of his initial and recurrent training, and such certification shall become a part of the individual's record.

§ 41.281 Pilot ground training.

(a) Ground training for each pilot prior to serving as a flight crewmember shall include instruction in at least the following:

(1) The appropriate provisions of the air carrier operations specifications and appropriate provisions of the Civil Air Regulations with particular emphasis on the operation and dispatching rules and airplane operating limitations;

(2) Dispatch procedures and appropriate contents of the manuals;

(3) The duties and responsibilities of crewmembers;

(4) The type of airplane to be flown, including a study of the airplane, engines, all major components and systems, performance limitations, standard and emergency operating procedures, and appropriate contents of the approved Airplane Flight Manual;

(5) The principles and methods of determining weight and balance limitations for takeoff and landing;

(6) Navigation and use of appropriate aids to navigation, including the instrument approach facilities and procedures which the air carrier is authorized to use;

(7) Airport and airways traffic control systems and procedures, and ground control letdown procedures if pertinent to the operation;

(8) Meteorology sufficient to insure a practical knowledge of the principles of icing, fog, thunderstorms, and frontal systems;

(9) Procedures for operation in turbulent air and during periods of ice, hail, thunderstorms, and other potentially hazardous meteorological conditions; and

(10) Communications procedures including procedures to be used in the event any of the communications equipment required by this part becomes inoperative.

(b) The air carrier shall give each pilot such additional ground training as is necessary to insure qualification with respect to any new equipment, procedures, or techniques. At least once each 12 months, as a part of the training program, recurrent ground training and checks shall be provided to insure the continued proficiency of each pilot with respect to procedures, techniques, and information essential to the satisfactory performance of his duties.

§ 41.282 Pilot flight training.

(a) Flight training for each pilot prior to serving as a flight crewmember shall include at least takeoffs and landings, during day and night, and normal and emergency flight maneuvers in each type of airplane to be flown by him in scheduled operations, and flight under simulated instrument flight conditions. A pilot qualifying to serve as other than pilot in command or second in command shall demonstrate to a representative of the Administrator or to a check pilot his ability to take off and land each type of airplane in which he is to serve.

(b) Flight training for a pilot qualifying to serve as pilot in command or as second in command in a crew requiring 3 or more pilots shall include flight instruction and practice in at least the following maneuvers and procedures:

(1) In each type of airplane to be flown by him in scheduled operations:

(i) At the authorized maximum takeoff weight, takeoff using maximum takeoff power with simulated failure of the critical engine. For transport category airplanes the simulated engine failure shall be accomplished as closely as possible to the critical engine failure speed (V_1), and climb-out shall be accomplished at a speed as close as possible to the takeoff safety speed (V_2). Each pilot shall ascertain the proper values for speeds V_1 and V_2;

(ii) At the authorized maximum landing weight, flight in a 4-engine airplane, where appropriate, with the most critical combinations of 2 engines inoperative, or operating at zero thrust, utilizing appropriate climb speeds as set forth in the Airplane Flight Manual;

(iii) At the authorized maximum landing weight, simulated pull-out from the landing and approach configurations accomplished at a safe altitude with the critical engine inoperative or operating at zero thrust;

(iv) Suitable combinations of airplane weight and power less than those specified in subdivisions (i), (ii), and (iii) of this subparagraph may be employed if the performance capabilities of the airplane under the above conditions are simulated.

(2) Conduct of flight under simulated instrument conditions, utilizing all types of navigational facilities and the letdown procedures used in normal operations. If a particular type of facility is not available in the training area, such training may be accomplished in a synthetic trainer.

(c) Flight training for a pilot qualifying to serve as second in command in a crew requiring 2 pilots shall include flight instruction and practice in at least the following maneuvers and procedures:

(1) In each type of airplane to be flown by him in scheduled operation:

(i) Assigned flight duties as second in command including flight emergencies;

(ii) Taxiing;

(iii) Takeoffs and landings;

(iv) Climbs and climbing turns;

(v) Slow flight;

(vi) Approach to stall;

(vii) Engine shutdown and restart;

(viii) Takeoff and landing with simulated engine failure;

(ix) Conduct of flight under simulated instrument conditions including instrument approach at least down to circling approach minimums and missed approach procedures.

(2) Conduct of flight under simulated instrument conditions, utilizing all types of navigational facilities and the letdown procedures used in normal operations. Except for those approach procedures for which the lowest minimums are approved, all other letdown procedures may be given in a synthetic trainer which contains the radio equipment and instruments necessary to simulate other navigational and letdown procedures approved for use by the air carrier.

(d) The air carrier shall give each pilot such additional flight training as is necessary to insure qualification with respect to any new equipment, procedures, or techniques. At least once each 12 months, as a part of the training program, recurrent flight training and checks shall be provided to insure the continued proficiency of each pilot with respect to procedures, techniques, and information essential to the satisfactory performance of his duties. Where the check of the pilot in command or second in command requires actual flight, satisfactory completion of the checks required by § 41.302 or 41.305 will meet the requirements of this section.

§ 41.283 Flight navigator training.

(a) The training for flight navigators shall include the applicable portions of at least subparagraphs (1) through (4) and (6) through (8) of § 41.281(a).

(b) Prior to serving as a flight crewmember, each flight navigator shall be given sufficient ground and flight training to become proficient in those duties assigned him by the air carrier. The flight training may be accomplished during scheduled flight under the supervision of a qualified flight navigator.

(c) The air carrier shall give each flight navigator such additional ground and flight training as is necessary to insure qualification with respect to any new equipment, procedures, or techniques. At least each 12 months, as a part of the training program, recurrent ground training and a flight check shall be provided to insure the continued proficiency of each flight navigator with respect to procedures, techniques, and information essential to the satisfactory performance of his duties. Such flight check may be accomplished during scheduled flight in air transportation or in a synthetic trainer in lieu of a check in flight.

§ 41.284 Flight engineer training.

(a) The training for flight engineers shall include at least the instruction specified in § 41.281(a)(1) through (5).

(b) Prior to serving as a flight crewmember each flight engineer shall be given sufficient training in flight to become proficient in those duties assigned him by the air carrier. Except for emergency procedures, the flight training may be accomplished during scheduled flight in air transportation under the supervision of a qualified flight engineer.

(c) The air carrier shall give each flight engineer such additional ground and flight training as is necessary to insure qualification with respect to any new equipment, procedures, or techniques. At least once each 12 months, as a part of the training program, recurrent ground training and a flight check shall be provided to insure the continued proficiency of each flight engineer with respect to procedures, techniques, and information essential to the satisfactory performance of his duties. Such flight check shall not be accomplished during scheduled flight in air transportation, but may be accomplished in a synthetic trainer in lieu of a check in flight.

§ 41.285 Crewmember emergency training.

(a) The training in emergency procedures shall be designed to give each crewmember appropriate individual instruction in all emergency procedures, including assignments in the event of an emergency, and proper coordination between crewmembers. At least the following subjects as appropriate to the individual crewmember shall be taught: The procedures to be followed in the event of the failure of an engine, or engines, or other airplane components or systems, emergency decompression, fire in the air or on the ground, ditching, evacuation, the location and operation of all emergency equipment, and power setting for maximum endurance and maximum range.

(b) Recurrent training in the emergency procedures required in paragraph (a) of this section shall be accomplished at intervals not to exceed 12 months. Accomplishment of such training shall be made a part of the individual's record.

(c) Synthetic trainers may be used for training of crewmembers in emergency procedures where the trainers sufficiently simulate flight operating emergency conditions for the equipment to be used.

(d)[1] All crewmembers performing duties on pressurized airplanes operated above 25,000 feet shall, as a part of their initial emergency decompression procedure training, receive instruction by means of lectures and films (or other types of demonstration) covering: respiration, hypoxia, duration of consciousness at altitude when supplemental oxygen is not supplied, gas expansion, gas bubble formation, oxygen equipment, forces and other physical phenomena of decompressions, and incidents of decompression. In addition, all flight crewmembers shall experience hypoxia of slow and rapid onset through reduction of pressure in a low pressure chamber. For hypoxia of slow onset, a pressure altitude equivalent of 20,000 plus or minus 1,000 feet shall be employed. For hypoxia of rapid onset, a pressure altitude equivalent to 29,000 plus or minus 1,000 feet shall be employed. Reduction in pressure from 8,000 to 29,000 feet shall be accomplished within not less than 10 nor more than 20 seconds, and the duration of exposure above 20,000 feet shall not exceed 3 minutes. Oxygen shall be immediately available in the chamber but shall not ordinarily be used until symptoms of hypoxia become evident. Flight crewmembers who have completed their initial emergency training at the time of adoption of this rule will be afforded a 6-month grace period following the effective date thereof to accomplish the low pressure chamber indoctrination program.

§ 41.286 Aircraft dispatcher training.

(a) The training program for aircraft dispatchers shall provide for training in their duties and responsibilities and shall include a study of the flight operation procedures, air traffic control procedures, the performance of the airplanes used by the air carrier, navigational aids and facilities, and meteorology. Particular emphasis shall be placed upon the procedures to be followed in the event of emergencies, including the alerting of proper Governmental, company, and private agencies to render maximum assistance to an airplane in distress.

(b) Each aircraft dispatcher shall, prior to initially performing the duty of an aircraft dispatcher, satisfactorily demonstrate to the supervisor or ground instructor authorized to certify to his proficiency, his knowledge of the following subjects:

(1) Contents of the air carrier operating certificate;

(2) Appropriate provisions of the air carrier operations specifications, manual, and Civil Air Regulations;

(3) Characteristics of the airplanes operated by the air carrier;

(4) Cruise control data and cruising speeds for such airplanes;

(5) Maximum authorized loads for the airplanes for the routes and airports to be used;

(6) Air carrier radio facilities;

(7) Characteristics and limitations of each type of radio and navigational facility to be used;

(8) Effect of weather conditions on airplane radio reception;

(9) Airports to be used and the general terrain over which the airplanes are to be flown;

(10) Prevailing weather phenomena;

(11) Sources of weather information available;

(12) Pertinent air traffic control procedures; and

(13) Emergency procedures.

(c) The training program shall provide such additional training as is necessary to insure that each dispatcher is qualified with respect to new equipment procedures or techniques. At least once each 12 months, as a part of the training program, recurrent training and checks shall be provided to insure the continued competence of each dispatcher with respect to the procedures, techniques, and information essential to his duties.

FLIGHT CREWMEMBER AND DISPATCHER QUALIFICATION

§ 41.300 Qualification requirements.

(a) No air carrier shall utilize any flight crewmember or dispatcher, nor shall any such airman perform the duties authorized by his airman certificate, unless he satisfactorily meets the appropriate requirements of §§ 41.280 through 41.286 and 41.301. Each pilot serving as pilot in command and each pilot serving as second in command in operations requiring 3 or more pilots shall hold appropriate airline transport pilot certificates and appropriate type ratings for the aircraft in which they serve. All other pilots shall hold at least commercial pilot certificates and instrument ratings.

(b) Check airmen shall certify as to the proficiency of each pilot being examined, as required by §§ 41.302, 41.303, and 41.305 and such certification shall become a part of the airman's record.

§ 41.301 Pilot recent experience.

No air carrier shall schedule a pilot to serve as pilot in command or second in command in scheduled air transportation unless within the preceding 90 days he has made at least 3 takeoffs and 3 landings in the airplane of the particular type on which he is to serve.

§ 41.302 Pilot checks.

(a) *Line check.* Prior to serving as pilot in command and at least once each 12 months thereafter, a pilot shall satisfactorily pass a line check in one of the types of airplanes normally to be flown

[1] This paragraph is included in a notice of proposed rule making which is being circulated as Civil Air Regulations Draft Release No. 60-15. Whatever action is taken on DR 60-15 will be reflected in Part 41 at the time it is adopted.

by him. The line check may be given at any time during the month preceding or following the month in which it becomes due. The effective date of the check, if given within the preceding or following month, shall be the same as if given within the month in which it became due. This check shall be given by a check pilot who is both qualified on the aircraft and on the route. It shall consist of at least a scheduled flight over a typical portion of the air carrier's routes to which the pilot is normally assigned and shall be of sufficient duration for the check pilot to determine whether the individual being checked satisfactorily exercises the duties and responsibilities of a pilot in command.

(b) *Proficiency check.* (1) An air carrier shall not utilize a pilot as pilot in command until he has satisfactorily demonstrated to a check pilot or a representative of the Administrator his ability to pilot and navigate airplanes to be flown by him. Thereafter, he shall not serve as pilot in command unless each 6 months he successfully completes a similar pilot proficiency check. The proficiency check may be given at any time during the month preceding or following the month in which it becomes due. The effective date of the check, if given within the preceding or following month, shall be the same as if given within the month in which it became due. Where such pilots serve in more than one airplane type, at least every other successive proficiency check shall be given in flight in the larger airplane type.

(2) The pilot proficiency check shall include at least the following:

(i) Equipment examination (oral or written), taxiing, runup, takeoff, climb, climbing turns, steep turns, maneuvers at minimum speeds, approach to stalls, precautionary [illegible] ers with one

cable airplane are accurately simulated in the aircraft simulator through all ranges of normal and emergency operations in accordance with subdivisions (i) through (vii) of this subparagraph:

(i) The simulator shall represent a full-scale mockup of the cockpit interior, including normal flight crew stations and accommodations for the instructor or check airman.

(ii) The effect of changes on the basic forces and moments shall be introduced for all combinations of drag and thrust normally encountered in flight. The effect of changes in airplane attitude, power, drag, altitude, temperature, gross weight, center of gravity location, and configuration shall be included.

(iii) In response to control movement by a flight crewmember, all instrument indications involved in the simulation of the applicable airplane shall be entirely automatic in character unless otherwise specified. The rate of change of simulator instrument readings and of control forces shall correspond to the rate of change which would occur on the applicable airplane under actual flight conditions, for any given change in the applied load on the controls, in the applied power or in airplane configuration. Control forces and degree of actuating control travel shall correspond to that which would occur in the airplane under actual flight conditions.

(iv) Through the medium of instrument indication, it shall be possible to use the simulator for the training and checking of a pilot in the operational use of controls and instruments on the applicable airplane model during the simulated execution of ground operation, takeoff, landing, normal flight, unusual attitudes, navigation problems, and instrument approach procedures. In addition, the simulator shall be designed

(1) Weather characteristics, all seasons;

(2) Navigational facilities;

(3) Communication procedures;

(4) Type of en route terrain and obstruction hazards;

(5) Minimum safe flight levels;

(6) Position reporting points;

(7) Pertinent air traffic control procedures, including terminal area, arrival, departure, holding, and all types of instrument approach procedures; and

(8) Congested areas, obstructions, physical layout, and all instrument approach procedures for each regular, provisional, and refueling airport approved for the routes.

(c) A pilot in command who has not made an entry as a member of a flight crew within the preceding 12-month period at each regular, provisional, and refueling airport into which he is scheduled to fly may approach and land at such airports only if the reported weather indicates at least a ceiling 200 feet and a visibility ½ mile higher than the prescribed landing minimums at those airports. The ceiling and visibility minimums need not be increased above those applicable to the airport when used as an alternate airport. Sliding scales included in the air carrier operations specifications may not be applied to landing minimums by pilots not currently qualified at such airports.

(d) Such pilot shall not be required to meet the entry requirements of paragraph (c) of this section when:

(1) The air carrier shows that the pilot airport qualification can be accomplished by an approved pictorial means, or

(2) The air carrier notifies the Director that it intends to conduct operations of an airport in case [illegible] to an airport into which the pilot [illegible]

the provisions of § 41.303(e), if applicable: *Provided*, That such entry shall not be required if the air carrier shows that maintenance of pilot airport qualification can be accomplished in accordance with § 41.303(d).

(b) In order to reestablish pilot route and airport qualifications after absence from a route for a period in excess of 12 months, a pilot shall comply with the appropriate provisions of § 41.303.

§ 41.305 Proficiency checks; second in command.

(a) An air carrier shall not utilize a pilot as second in command until he has satisfactorily demonstrated to a check pilot or a representative of the Administrator his ability to pilot and navigate airplanes to be flown by him and to perform his assigned duties. Thereafter he shall not serve as second in command unless each 12 months he successfully completes a similar pilot proficiency check. The proficiency check may be given at any time during the month preceding or following the month in which it becomes due. The effective date of the check, if given within the preceding or following month, shall be the same as if given within the month in which it becomes due. Where such pilots serve in more than one airplane type, at least every other successive proficiency check shall be given in flight in the larger airplane type. The proficiency check shall include at least an oral or written equipment examination and the procedures and flight maneuvers specified in § 41.303(b). The pilot proficiency check may be demonstrated from either the right or left pilot seat.

(b) The proficiency check for second in command of a crew requiring a or [illegible] been previously qualified as such, the check may be accomplished in a synthetic trainer in lieu of a check in flight.

§ 41.307 Flight engineer qualification for duty.

A flight engineer shall not be assigned to nor perform duties for which he is required to be certificated as a flight engineer unless, within the preceding 6-month period, he has had at least 50 hours of experience as a flight engineer on the type of airplane on which he is to serve, or until the air carrier or an authorized representative of the Administrator has checked such flight engineer and determined that he is familiar with all essential current information and operating procedures relating to the type of airplane to which he is to be assigned and is competent with respect to such airplane. This check shall include a check in flight: *Provided*, That in the case of a flight engineer who has been previously qualified in the type airplane, the check may be accomplished in a synthetic trainer in lieu of a check in flight.

§ 41.310 Aircraft dispatcher qualification for duty.

(a) Prior to dispatching airplanes over any route or route segment, an aircraft dispatcher shall be familiar, and the air carrier shall determine that he is familiar, with all essential operating procedures for the entire route and with the airplanes to be used. *Provided*, That where he is qualified only on a portion of such route, he may dispatch airplanes, but only after coordinating with dispatchers who are qualified for the other portions of the route between the points to be served.

(b) An aircraft dispatcher shall not

(c) A pilot shall not fly in excess of 32 hours during any 7 consecutive days. Relief from all duty for not less than 24 consecutive hours must be provided for and given to a pilot at least once during any 7 consecutive days.

(d) A pilot shall not fly as a member of the crew more than 100 hours during any one month.

(e) A pilot shall not fly as a member of the crew more than 1,000 hours in any 12-month period.

§ 41.321 Flight time limitations for aircraft having two pilots and one additional flight crewmember.

(a) A pilot may not be scheduled to fly a total of more than 12 hours during any 24 consecutive hours.

(b) When a pilot has flown 20 hours or more during any 48 consecutive hours, or 24 hours or more during any 72 consecutive hours, he must receive at least 18 hours of rest before being assigned to any duty with the air carrier. In any case each pilot shall be relieved from all duty for not less than 24 consecutive hours during any 7 consecutive days.

(c) A pilot shall not fly as a member of the flight crew more than 120 hours in any 30 consecutive days or 300 hours in any 90 consecutive days.

(d) A pilot shall not fly as a member of the flight crew more than 1,000 hours in any 12-month period.

§ 41.322 Flight time limitations for aircraft having three or more pilots and an additional flight crewmember.

(a) Flight hours shall be scheduled in such a manner as to provide adequate rest periods on the ground while the pilot is away from his base. Adequate sleeping quarters on the [illegible]

functions each such crewmember is to perform under circumstances requiring emergency evacuation. Emergency functions shall be assigned for each type of airplane used by the air carrier and the air carrier shall show that functions so assigned are realistic and capable of accomplishment. These functions shall be described in the air carrier manual and executed by each crewmember in the course of the emergency training program conducted by the air carrier.

TRAINING PROGRAM

§ 41.280 Establishment of approved program.

(a) Each air carrier shall establish a training program sufficient to insure that each crewmember and dispatcher used by the air carrier is adequately trained to perform the duties to which he is to be assigned. The initial training phases shall be satisfactorily completed prior to serving in scheduled operations. The training program shall meet with the approval of an authorized representative of the Administrator.

(b) Each air carrier shall provide adequate ground and flight training facilities and properly qualified instructors. There also shall be provided a sufficient number of check airmen to conduct the flight checks required by this part. Such check airmen shall hold the same airmen certificates and ratings as are required for the airman being checked.

(c) The training program for each flight crewmember shall consist of appropriate ground and flight training including proper flight crew coordination and training in emergency procedures. Procedures for each flight crew function shall be standardized to the extent that each flight crewmember will know the functions for which he is responsible and the relation of those functions to those of other flight crewmembers. The initial program shall include at least the appropriate requirements specified in §§ 41.281 through 41.285.

(d) The crewmember emergency procedures training program shall include at least the requirements specified in § 41.285.

(e) The appropriate instructor, supervisor, or check airman responsible for the particular training check or flight check shall certify to the proficiency of each crewmember and dispatcher upon completion of his initial and recurrent training, and such certification shall become a part of the individual's record.

§ 41.281 Pilot ground training.

(a) Ground training for each pilot prior to serving as a flight crewmember shall include instruction in at least the following:

(1) The appropriate provisions of the air carrier operations specifications and appropriate provisions of the Civil Air Regulations with particular emphasis on the operation and dispatching rules and airplane operating limitations;

(2) Dispatch procedures and appropriate contents of the manuals;

(3) The duties and responsibilities of crewmembers;

(4) The type of airplane to be flown, including a study of the airplane, engines, all major components and systems, performance limitations, standard and emergency operating procedures, and appropriate contents of the approved Airplane Flight Manual;

(5) The principles and methods of determining weight and balance limitations for takeoff and landing;

(6) Navigation and use of appropriate aids to navigation, including the instrument approach facilities and procedures which the air carrier is authorized to use;

(7) Airport and airways traffic control systems and procedures, and ground control letdown procedures if pertinent to the operation.

(8) Meteorology sufficient to insure a practical knowledge of the principles of icing, fog, thunderstorms, and frontal systems;

(9) Procedures for operation in turbulent air and during periods of ice, hail, thunderstorms, and other potentially hazardous meteorological conditions; and

(10) Communications procedures including procedures to be used in the event any of the communications equipment required by this part becomes inoperative.

(b) The air carrier shall give each pilot such additional ground training as is necessary to insure qualification with respect to any new equipment, procedures, or techniques. At least once each 12 months, as a part of the training program, recurrent ground training and checks shall be provided to insure the continued proficiency of each pilot with respect to procedures, techniques, and information essential to the satisfactory performance of his duties.

§ 41.282 Pilot flight training.

(a) Flight training for each pilot prior to serving as a flight crewmember shall include at least takeoffs and landings, during day and night, and normal and emergency flight maneuvers in each type of airplane to be flown by him in scheduled operations, and flight under simulated instrument flight conditions. A pilot qualifying to serve as other than pilot in command or second in command shall demonstrate to a representative of the Administrator or to a check pilot his ability to take off and land each type of airplane in which he is to serve.

(b) Flight training for a pilot qualifying to serve as pilot in command or as second in command in a crew requiring 3 or more pilots shall include flight instruction and practice in at least the following maneuvers and procedures:

(1) In each type of airplane to be flown by him in scheduled operations:

(i) At the authorized maximum takeoff weight, takeoff using maximum takeoff power with simulated failure of the critical engine. For transport category airplanes the simulated engine failure shall be accomplished as closely as possible to the critical engine failure speed (V_1), and climb-out shall be accomplished at a speed as close as possible to the takeoff safety speed (V_2). Each pilot shall ascertain the proper values for speeds V_1 and V_2;

(ii) At the authorized maximum landing weight, flight in a 4-engine airplane, where appropriate, with the most critical combinations of 2 engines inoperative, or operating at zero thrust, utilizing appropriate climb speeds as set forth in the Airplane Flight Manual;

(iii) At the authorized maximum landing weight, simulated pull-out from the landing and approach configurations accomplished at a safe altitude with the critical engine inoperative or operating at zero thrust;

(iv) Suitable combinations of airplane weight and power less than those specified in subdivisions (i), (ii), and (iii) of this subparagraph may be employed if the performance capabilities of the airplane under the above conditions are simulated.

(2) Conduct of flight under simulated instrument conditions, utilizing all types of navigational facilities and the letdown procedures used in normal operation. If a particular type of facility is not available in the training area, such training may be accomplished in a synthetic trainer.

(c) Flight training for a pilot qualifying to serve as second in command in a crew requiring 2 pilots shall include flight instruction and practice in at least the following maneuvers and procedures:

(1) In each type of airplane to be flown by him in scheduled operation:

(i) Assigned flight duties as second in command including flight emergencies;

(ii) Taxiing;

(iii) Takeoffs and landings;

(iv) Climbs and climbing turns;

(v) Slow flight;

(vi) Approach to stall;

(vii) Engine shutdown and restart;

(viii) Takeoff and landing with simulated engine failure;

(ix) Conduct of flight under simulated instrument conditions including instrument approach at least down to circling approach minimums and missed approach procedures.

(2) Conduct of flight under simulated instrument conditions, utilizing all types of navigational facilities and the letdown procedures used in normal operations. Except for those approach procedures for which the lowest minimums are approved, all other letdown procedures may be given in a synthetic trainer which contains the radio equipment and instruments necessary to simulate other navigational and letdown procedures approved for use by the air carrier.

(d) The air carrier shall give each pilot such additional flight training as is necessary to insure qualification with respect to any new equipment, procedures, or techniques. At least once each 12 months, as a part of the training program, recurrent flight training and checks shall be provided to insure the continued proficiency of each pilot with respect to procedures, techniques, and information essential to the satisfactory performance of his duties. Where the check of the pilot in command or second in command requires actual flight, satisfactory completion of the checks required by § 41.302 or 41.305 will meet the requirements of this section.

§ 41.283 Flight navigator training.

(a) The training for flight navigators shall include the applicable portions of at least subparagraphs (1) through (4) and (6) through (8) of § 41.281(a).

(b) Prior to serving as a flight crewmember, each flight navigator shall be given sufficient ground and flight training to become proficient in those duties assigned him by the air carrier. The flight training may be accomplished during scheduled flight under the supervision of a qualified flight navigator.

(c) The air carrier shall give each flight navigator such additional ground and flight training as is necessary to insure qualification with respect to any new equipment, procedures, or techniques. At least once each 12 months, as a part of the training program, recurrent ground training and a flight check shall be provided to insure the continued proficiency of each flight navigator with respect to procedures, techniques, and information essential to the satisfactory performance of his duties. Such flight check may be accomplished during scheduled flight in air transportation or in a synthetic trainer in lieu of a check in flight.

§ 41.284 Flight engineer training.

(a) The training for flight engineers shall include at least the instruction specified in § 41.281(a)(1) through (5).

(b) Prior to serving as a flight crewmember each flight engineer shall be given sufficient training in flight to become proficient in those duties assigned him by the air carrier. Except for emergency procedures, the flight training may be accomplished during scheduled flight in air transportation under the supervision of a qualified flight engineer.

(c) The air carrier shall give each flight engineer such additional ground and flight training as is necessary to insure qualification with respect to any new equipment, procedures, or techniques. At least once each 12 months, as a part of the training program, recurrent ground training and a flight check shall be provided to insure the continued proficiency of each flight engineer with respect to procedures, techniques, and information essential to the satisfactory performance of his duties. Such flight check shall not be accomplished during scheduled flight in air transportation, but may be accomplished in a synthetic trainer in lieu of a check in flight.

§ 41.285 Crewmember emergency training.

(a) The training in emergency procedures shall be designed to give each crewmember appropriate individual instruction in all emergency procedures, including assignments in the event of an emergency, and proper coordination between crewmembers. At least the following subjects as appropriate to the individual crewmember shall be taught: The procedures to be followed in the event of the failure of an engine, or engines, or other airplane components or systems, emergency decompression, fire in the air or on the ground, ditching, evacuation, the location and operation of all emergency equipment, and power setting for maximum endurance and maximum range.

(b) Recurrent training in the emergency procedures required in paragraph (a) of this section shall be accomplished at intervals not to exceed 12 months. Accomplishment of such training shall be made a part of the individual's record.

(c) Synthetic trainers may be used for training of crewmembers in emergency procedures where the trainers sufficiently simulate flight operating emergency conditions for the equipment to be used.

(d)[1] All crewmembers performing duties on pressurized airplanes operated above 25,000 feet shall, as a part of their initial emergency decompression procedure training, receive instruction by means of lectures and films (or other types of demonstration) covering: respiration, hypoxia, duration of consciousness at altitude when supplemental oxygen is not supplied, gas expansion, gas bubble formation, oxygen equipment, forces and other physical phenomena of decompressions, and incidents of decompression. In addition, all flight crewmembers shall experience hypoxia of slow and rapid onset through reduction of pressure in a low pressure chamber. For hypoxia of slow onset, a pressure altitude equivalent of 20,000 plus or minus 1,000 feet shall be employed. For hypoxia of rapid onset, a pressure altitude equivalent to 29,000 plus or minus 1,000 feet shall be employed. Reduction in pressure from 8,000 to 29,000 feet shall be accomplished within not less than 10 nor more than 20 seconds, and the duration of exposure above 20,000 feet shall not exceed 3 minutes. Oxygen shall be immediately available in the chamber but shall not ordinarily be used until symptoms of hypoxia become evident. Flight crewmembers who have completed their initial emergency training at the time of adoption of this rule will be afforded a 6-month grace period following the effective date thereof to accomplish the low pressure chamber indoctrination program.

§ 41.286 Aircraft dispatcher training.

(a) The training program for aircraft dispatchers shall provide for training in their duties and responsibilities and shall include a study of the flight operation procedures, air traffic control procedures, the performance of the airplanes used by the air carrier, navigational aids and facilities, and meteorology. Particular emphasis shall be placed upon the procedures to be followed in the event of emergencies, including the alerting of proper Governmental, company, and private agencies to render maximum assistance to an airplane in distress.

(b) Each aircraft dispatcher shall, prior to initially performing the duty of an aircraft dispatcher, satisfactorily demonstrate to the supervisor or ground instructor authorized to certify to his proficiency, his knowledge of the following subjects:

[1] This paragraph is included in a notice of proposed rule making which is being circulated as Civil Air Regulations Draft Release No. 60-15. Whatever action is taken on DR 60-15 will be reflected in Part 41 at the time it is adopted.

(1) Contents of the air carrier operating certificate;

(2) Appropriate provisions of the air carrier operations specifications, manual, and Civil Air Regulations;

(3) Characteristics of the airplanes operated by the air carrier;

(4) Cruise control data and cruising speeds for such airplanes;

(5) Maximum authorized loads for the airplanes for the routes and airports to be used;

(6) Air carrier radio facilities;

(7) Characteristics and limitations of each type of radio and navigational facility to be used;

(8) Effect of weather conditions on airplane radio reception;

(9) Airports to be used and the general terrain over which the airplanes are to be flown;

(10) Prevailing weather phenomena;

(11) Sources of weather information available;

(12) Pertinent air traffic control procedures; and

(13) Emergency procedures.

(c) The training program shall provide such additional training as is necessary to insure that each dispatcher is qualified with respect to new equipment procedures or techniques. At least once each 12 months, as a part of the training program, recurrent training and checks shall be provided to insure the continued competence of each dispatcher with respect to the procedures, techniques, and information essential to his duties.

FLIGHT CREWMEMBER AND DISPATCHER QUALIFICATION

§ 41.300 Qualification requirements.

(a) No air carrier shall utilize any flight crewmember or dispatcher, nor shall any such airman perform the duties authorized by his airman certificate, unless he satisfactorily meets the appropriate requirements of §§ 41.280 through 41.286 and 41.301. Each pilot serving as pilot in command and each pilot serving as second in command in operations requiring 3 or more pilots shall hold appropriate airline transport pilot certificates and appropriate type ratings for the aircraft in which they serve. All other pilots shall hold at least commercial pilot certificates and instrument ratings.

(b) Check airmen shall certify as to the proficiency of each pilot being examined, as required by §§ 41.302, 41.303, and 41.305 and such certification shall become a part of the airman's record.

§ 41.301 Pilot recent experience.

No air carrier shall schedule a pilot to serve as pilot in command or second in command in scheduled air transportation unless within the preceding 90 days he has made at least 3 takeoffs and 3 landings in the airplane of the particular type on which he is to serve.

§ 41.302 Pilot checks.

(a) *Line check.* Prior to serving as pilot in command and at least once each 12 months thereafter, a pilot shall satisfactorily pass a line check in one of the types of airplanes normally to be flown

by him. The line check may be given at any time during the month preceding or following the month in which it becomes due. The effective date of the check, if given within the preceding or following month, shall be the same as if given within the month in which it became due. This check shall be given by a check pilot who is both qualified on the aircraft and on the route. It shall consist of at least a scheduled flight over a typical portion of the air carrier's routes to which the pilot is normally assigned and shall be of sufficient duration for the check pilot to determine whether the individual being checked satisfactorily exercises the duties and responsibilities of a pilot in command.

(b) *Proficiency check.* (1) An air carrier shall not utilize a pilot as pilot in command until he has satisfactorily demonstrated to a check pilot or a representative of the Administrator his ability to pilot and navigate airplanes to be flown by him. Thereafter, he shall not serve as pilot in command unless each 6 months he successfully completes a similar pilot proficiency check. The proficiency check may be given at any time during the month preceding or following the month in which it becomes due. The effective date of the check, if given within the preceding or following month, shall be the same as if given within the month in which it became due. Where such pilots serve in more than one airplane type, at least every other successive proficiency check shall be given in flight in the larger airplane type.

(2) The pilot proficiency check shall include at least the following:

(i) Equipment examination (oral or written), taxiing, runup, takeoff, climb, climbing turns, steep turns, maneuvers at minimum speeds, approach to stalls, propeller feathering, maneuvers with one or more engine(s) out, rapid descent and pullout, ability to tune radio, orientation, approach procedures, and emergency procedures.

(ii) The flight maneuvers specified in § 41.282(b)(1), except that the simulated engine failure during takeoff need not be accomplished at speed V_1, nor at actual or simulated maximum authorized weight.

(iii) Flight maneuvers approved by the Administrator accomplished under simulated instrument conditions utilizing the navigational facilities and letdown procedures normally used by the pilot: *Provided*, That maneuvers other than those associated with approach procedures for which the lowest minimums are approved may be given in a synthetic trainer which contains the radio equipment and instruments necessary to simulate other navigational and letdown procedures approved for use by the air carrier.

(3) Subsequent to the initial pilot proficiency check, an approved course of training in an aircraft simulator, if satisfactorily completed, may be substituted at alternate 6-month intervals for the proficiency check required by subparagraph (1) of this paragraph. The air carrier shall show that the flight characteristics, performance, instrument reaction, and control loading of the applicable airplane are accurately simulated in the aircraft simulator through all ranges of normal and emergency operations in accordance with subdivisions (i) through (vii) of this subparagraph:

(i) The simulator shall represent a full-scale mockup of the cockpit interior, including normal flight crew stations and accommodations for the instructor or check airman.

(ii) The effect of changes on the basic forces and moments shall be introduced for all combinations of drag and thrust normally encountered in flight. The effect of changes in airplane attitude, power, drag, altitude, temperature, gross weight, center of gravity location, and configuration shall be included.

(iii) In response to control movement by a flight crewmember, all instrument indications involved in the simulation of the applicable airplane shall be entirely automatic in character unless otherwise specified. The rate of change of simulator instrument readings and of control forces shall correspond to the rate of change which would occur on the applicable airplane under actual flight conditions, for any given change in the applied load on the controls, in the applied power or in airplane configuration. Control forces and degree of actuating control travel shall correspond to that which would occur in the airplane under actual flight conditions.

(iv) Through the medium of instrument indication, it shall be possible to use the simulator for the training and checking of a pilot in the operational use of controls and instruments on the applicable airplane model during the simulated execution of ground operation, takeoff, landing, normal flight, unusual attitudes, navigation problems, and instrument approach procedures. In addition, the simulator shall be designed so that malfunctions of airplane engines, propellers, and primary systems may be presented and corrective action taken by the crew to cope with such emergencies.

(v) Suitable course and altitude recorders shall be included.

(vi) Communication and navigational aids of the applicable airplane shall be simulated for on-the-ground and in-flight operations.

(vii) Other airplane systems and components shall be simulated to the extent found necessary by the Administrator.

(c) Prior to serving as pilot in command in a particular type of airplane, a pilot shall have accomplished during the preceding 12 months either a proficiency check or a line check in that type of airplane.

§ 41.303 Pilot route and airport qualification requirements.

(a) An air carrier shall not utilize a pilot in command until he has been qualified for the route on which he is to serve in accordance with the provisions of this section and the appropriate instructor or check pilot has so certified.

(b) Each such pilot shall by written means demonstrate adequate knowledge concerning the subjects listed below with respect to each route to be flown and each regular provisional and refueling airport to be used.

(1) Weather characteristics, all seasons;

(2) Navigational facilities;

(3) Communication procedures;

(4) Type of en route terrain and obstruction hazards;

(5) Minimum safe flight levels;

(6) Position reporting points;

(7) Pertinent air traffic control procedures, including terminal area, arrival, departure, holding, and all types of instrument approach procedures; and

(8) Congested areas, obstructions, physical layout, and all instrument approach procedures for each regular, provisional, and refueling airport approved for the routes.

(c) A pilot in command who has not made an entry as a member of a flight crew within the preceding 12-month period at each regular, provisional, and refueling airport into which he is scheduled to fly may approach and land at such airports only if the reported weather indicates at least a ceiling 200 feet and a visibility ½ mile higher than the prescribed landing minimums at those airports. The ceiling and visibility minimums need not be increased above those applicable to the airport when used as an alternate airport. Sliding scales included in the air carrier operations specifications may not be applied to landing minimums by pilots not currently qualified at such airports.

(d) Such pilot shall not be required to meet the entry requirements of paragraph (c) of this section when:

(1) The air carrier shows that the pilot airport qualification can be accomplished by an approved pictorial means; or

(2) The air carrier notifies the Director that it intends to conduct operations at an airport in close proximity to an airport into which the pilot involved is presently qualified by entry, and the Director finds that such pilot is adequately qualified at the new airport. The Director, in making such finding, shall take into consideration at least the familiarity of the pilot with the layout, surrounding terrain, location of obstacles, and instrument approach and traffic control procedures at the new airport.

(e) On routes or route segments on which navigation must be accomplished by pilotage and on which flight is to be conducted at or below the level of the adjacent terrain which is within a horizontal distance of 25 miles on either side of the centerline of the route to be flown, the pilot shall be familiarized with such route or route segments by not less than 2 one-way trips on the flight deck over the route or route segments under VFR weather conditions to permit the qualifying pilot to observe terrain along the route.

§ 41.304 Maintenance and reestablishment of pilot route and airport qualifications for particular trips.

(a) To maintain pilot route and airport qualifications, each pilot being utilized as pilot in command, within the preceding 12-month period, shall have made at least one trip on the flight deck into each airport into which he is scheduled to fly and shall have complied with the provisions of § 41.303(e), if applicable: *Provided*, That such entry shall not be required if the air carrier shows that maintenance of pilot airport qualification can be accomplished in accordance with § 41.303(d).

(b) In order to reestablish pilot route and airport qualifications after absence from a route for a period in excess of 12 months, a pilot shall comply with the appropriate provisions of § 41.303.

§ 41.305 Proficiency checks; second in command.

(a) An air carrier shall not utilize a pilot as second in command until he has satisfactorily demonstrated to a check pilot or a representative of the Administrator his ability to pilot and navigate airplanes to be flown by him and to perform his assigned duties. Thereafter he shall not serve as second in command unless each 12 months he successfully completes a similar pilot proficiency check. The proficiency check may be given at any time during the month preceding or following the month in which it becomes due. The effective date of the check, if given within the preceding or following month, shall be the same as if given within the month in which it becomes due. Where such pilots serve in more than one airplane type, at least every other successive proficiency check shall be given in flight in the larger airplane type. The proficiency check shall include at least an oral or written equipment examination, and the procedures and flight maneuvers specified in § 41.282(c). The pilot proficiency check may be demonstrated from either the right or left pilot seat.

(b) The proficiency check for second in command of a crew requiring 3 or more pilots shall be the same as required under § 41.302(b).

(c) Subsequent to the initial pilot proficiency check, an approved course of training in an aircraft simulator which meets the requirements of § 41.302(b)(3), if satisfactorily completed, may be substituted at alternate 12-month intervals for the proficiency checks required by paragraphs (a) and (b) of this section.

(d) Satisfactory completion of the proficiency check in accordance with § 40.302(b) will also meet the requirements of this section.

§ 41.306 Flight navigator qualification for duty.

A flight navigator shall not be assigned to nor perform duties for which he is required to be certificated as a flight navigator unless, within the preceding 12-month period, he has had at least 50 hours of experience as a flight navigator, or until the air carrier or an authorized representative of the Administrator has checked such flight navigator and determined that he is familiar with all essential current navigational information pertaining to the routes to be flown and is competent with respect to the operating procedures and navigational equipment to be used. This check shall include a check in flight: *Provided*, That in the case of a flight navigator who has been previously qualified as such, the check may be accomplished in a synthetic trainer in lieu of a check in flight.

§ 41.307 Flight engineer qualification for duty.

A flight engineer shall not be assigned to nor perform duties for which he is required to be certificated as a flight engineer unless, within the preceding 6-month period, he has had at least 50 hours of experience as a flight engineer on the type of airplane on which he is to serve, or until the air carrier or an authorized representative of the Administrator has checked such flight engineer and determined that he is familiar with all essential current information and operating procedures relating to the type of airplane to which he is to be assigned and is competent with respect to such airplane. This check shall include a check in flight: *Provided*, That in the case of a flight engineer who has been previously qualified in the type airplane, the check may be accomplished in a synthetic trainer in lieu of a check in flight.

§ 41.310 Aircraft dispatcher qualification for duty.

(a) Prior to dispatching airplanes over any route or route segment, an aircraft dispatcher shall be familiar, and the air carrier shall determine that he is familiar, with all essential operating procedures for the entire route and with the airplanes to be used: *Provided*, That where he is qualified only on a portion of such route, he may dispatch airplanes, but only after coordinating with dispatchers who are qualified for the other portions of the route between the points to be served.

(b) An aircraft dispatcher shall not dispatch airplanes in the area over which he is authorized to exercise dispatch jurisdiction unless within the preceding 12 months he has made at least one round trip over the particular area on the flight deck of an airplane. The trip selected for qualification purposes shall be one which includes entry into as many points as practicable but it shall not be necessary for the dispatcher to make a flight over each route in the area.

FLIGHT TIME LIMITATIONS

§ 41.320 Flight time limitations for aircraft having a crew of one or two pilots.

(a) A pilot may be scheduled to fly 8 hours or less during any 24 consecutive hours without a rest period during such 8 hours. If a pilot is scheduled to fly in excess of 8 hours during any 24 consecutive hours, he shall be given an intervening rest period at or before the termination of 8 scheduled hours of flight duty. Such rest period must equal at least twice the number of hours flown since the last preceding rest period and in no case will such rest period be less than 8 hours. During such rest period the pilot must be relieved of all duty with the air carrier.

(b) When a pilot has flown in excess of 8 hours during any 24 consecutive hours he must receive at least 18 hours of rest before being assigned any duty with the air carrier.

(c) A pilot shall not fly in excess of 32 hours during any 7 consecutive days. Relief from all duty for not less than 24 consecutive hours must be provided for and given to a pilot at least once during any 7 consecutive days.

(d) A pilot shall not fly as a member of the crew more than 100 hours during any one month.

(e) A pilot shall not fly as a member of the crew more than 1,000 hours in any 12-month period.

§ 41.321 Flight time limitations for aircraft having two pilots and one additional flight crewmember.

(a) A pilot may not be scheduled to fly a total of more than 12 hours during any 24 consecutive hours.

(b) When a pilot has flown 20 hours or more during any 48 consecutive hours, or 24 hours or more during any 72 consecutive hours, he must receive at least 18 hours of rest before being assigned to any duty with the air carrier. In any case each pilot shall be relieved from all duty for not less than 24 consecutive hours during any 7 consecutive days.

(c) A pilot shall not fly as a member of the flight crew more than 120 hours in any 30 consecutive days or 300 hours in any 90 consecutive days.

(d) A pilot shall not fly as a member of the flight crew more than 1,000 hours in any 12-month period.

§ 41.322 Flight time limitations for aircraft having three or more pilots and an additional flight crewmember.

(a) Flight hours shall be scheduled in such a manner as to provide for adequate rest periods on the ground while the pilot is away from his base. Adequate sleeping quarters on the aircraft must be provided in all cases, where a pilot is scheduled to fly more than 12 hours during any 24 consecutive hours.

(b) A pilot, upon return to his base from any flight or series of flights, shall receive a rest period of not less than twice the total number of hours flown since the last rest period at his base and during such period will not be required to perform any duty for the company. When the required rest period exceeds 7 days, that portion of the rest period in excess of 7 days may be given at any time before the pilot is again scheduled for flight duty on any route.

(c) A pilot shall not fly as a member of the flight crew more than 350 hours in any 90 consecutive days.

(d) A pilot shall not fly as a member of the flight crew more than 1,000 hours in any 12-month period.

§ 41.323 Flight time limitations for pilots not regularly assigned.

A pilot not regularly assigned as a flight crewmember for an entire month under the provisions of § 41.321 or § 41.322 must not fly in excess of 100 hours in any 30 consecutive days.

§ 41.324 Deadhead transportation.

The time spent in deadhead transportation to or from duty assignment will not be considered a part of any rest period.

§ 41.325 **Other commercial flying.**

A pilot shall not do other commercial flying while employed by an air carrier when such flying, in addition to that in scheduled air transportation service will exceed any flight time limitations specified herein.

§ 41.326 **Flight time limitations; flight engineer.**

When one flight engineer is required, the flight time limitations prescribed in § 41.321 apply. When two or more flight engineers are required, the flight time limitations prescribed in § 41.322 apply.

§ 41.327 **Flight time limitations; flight navigator.**

The flight time limitations prescribed in § 41.322 apply.

DUTY TIME LIMITATIONS; AIRCRAFT DISPATCHER

§ 41.340 **Aircraft dispatcher daily duty time limitations.**

(a) The daily duty period for an aircraft dispatcher shall commence at such time as will permit him to become thoroughly familiar with existing and anticipated weather conditions along the route prior to the dispatch of any airplane. He shall remain on duty until all airplanes dispatched by him have completed their flights, or have proceeded beyond his jurisdiction, or until he is relieved by another qualified aircraft dispatcher.

(b) Except as provided in paragraph (c) of this section, the following rules will govern the hours of duty for an aircraft dispatcher, except when circumstances or emergency conditions beyond the control of the air carrier require otherwise:

(1) *Maximum consecutive hours of duty.* No dispatcher shall be scheduled for duty as such for a period of more than 10 consecutive hours.

(2) *Maximum scheduled hours of duty in 24 consecutive hours.* If a dispatcher is scheduled for duty as such for more than 10 hours in a period of 24 hours, he shall be given a rest period of not less than 8 hours at or before the termination of 10 hours of dispatcher duty.

(3) *Dispatcher's time off.* Each aircraft dispatcher shall be relieved from all duty with the air carrier for a period of at least 24 consecutive hours during any 7 consecutive days or the equivalent thereof within any one month.

(c) At duty stations outside the continental limits of the United States designated by the Administrator, a dispatcher may be scheduled for duty for a period of more than 10 consecutive hours in a 24-hour period: *Provided*, That a dispatcher so scheduled shall be relieved from all duty with the air carrier for a period of at least 8 hours during each 24-hour period: *And provided further*, That a dispatcher so scheduled shall not be scheduled for duty for more than 40 hours in any 7 consecutive days.

FLIGHT OPERATIONS

§ 41.351 **Operational control.**

The air carrier shall be responsible for operational control.

(a) *Joint responsibility of aircraft dispatcher and pilot in command.* The aircraft dispatcher and the pilot in command shall be jointly responsible for the preflight planning, delay, and dispatch release of the flight in compliance with the applicable Civil Air Regulations and operations specifications.

(b) *Responsibility of dispatcher.* The aircraft dispatcher shall be responsible:

(1) For monitoring the progress of each flight and the issuance of instructions and information necessary for the continued safety of the flight.

(2) For the cancellation or redispatch of a flight if, in his opinion or in the opinion of the pilot in command, the flight cannot operate or continue to operate safely as planned or released.

(c) *Responsibility of pilot in command.* (1) The pilot in command shall during flight time be in command of the airplane and crew and shall be responsible for the safety of the passengers, crewmembers, cargo, and airplane.

(2) No pilot shall operate an airplane in a careless and reckless manner so as to endanger life or property.

NOTE: Section 41.351(c) confers on the pilot in command, with respect to matters concerning the operation of the airplane, full control and authority without limitation over all other crewmembers and their duties during flight time, whether or not he holds a valid certificate authorizing him to perform the duties and functions of such other crewmember.

§ 41.352 **Operations notices.**

Each air carrier shall notify the appropriate operations personnel promptly of all changes in equipment and operating procedures, including known changes in the use of navigational aids, airports, air traffic control procedures and regulations, local airport traffic control rules, and of all known hazards to flight, including icing and other potentially hazardous meteorological conditions and irregularities of ground and navigational facilities.

§ 41.353 **Operations schedules.**

In establishing flight operations schedules, each air carrier shall allow sufficient time for the proper servicing of airplanes at intermediate stops, and it shall consider the prevailing winds along the particular route and the cruising speed of the type of airplane to be flown which shall not exceed the specified cruising output of the airplane engines.

§ 41.354 **Flight crewmembers at controls.**

All required flight crewmembers when on flight deck duty shall remain at their respective stations while the airplane is taking off or landing, and while en route except when the absence of one such flight crewmember is necessary for the performance of his duties in connection with the operation of the airplane. All flight crewmembers shall keep their seat belts fastened when at their respective stations.

§ 41.355 **Manipulation of controls.**

No person other than a qualified pilot of the air carrier shall manipulate the flight controls during flight, except that authorized pilot safety representatives of the Administrator who are qualified on the airplane and are engaged in checking flight operations may, with the permission of the pilot in command, manipulate such controls.

§ 41.356 **Admission to flight deck.**

No person, other than a crewmember, may be admitted to the flight deck of an airplane except those authorized in paragraphs (a) and (b) of this section. (For the purpose of this section, the term "flight deck" means all of the area forward of the door or window required by Parts 4a and 4b of this chapter (Civil Air Regulations) to be located between the pilot compartment and the passenger compartment.)

(a) FAA air carrier inspectors while in the performance of official duties shall be admitted to the flight deck.

NOTE: Nothing contained in this paragraph shall be construed as limiting the emergency authority of the pilot in command to exclude any person from the flight deck in the interest of safety.

(b) The persons listed below may be admitted to the flight deck when authorized by the pilot in command:

(1) An employee of the Federal Government or of an air carrier or other aeronautical enterprise whose duties are such that his presence on the flight deck is necessary or advantageous to the conduct of safe air carrier operations; or

NOTE: Federal employees who deal responsibly with matters relating to air carrier safety and such air carrier employees as pilots, dispatchers, meteorologists, communication operators, and mechanics whose efficiency would be increased by familiarity with flight conditions may be considered eligible under this requirement. Employees of traffic, sales, and other air carrier departments not directly related to flight operations cannot be considered eligible unless authorized under subparagraph (2) of this paragraph.

(2) Any other person specifically authorized by the air carrier management and an authorized representative of the Administrator.

(c) All persons admitted to the flight deck shall have seats available for their use in the passenger compartment except:

(1) FAA air carrier inspectors or other authorized representatives of the Administrator engaged in checking flight operations;

(2) Air traffic controllers who have been authorized by an authorized representative of the Administrator to observe ATC procedures;

(3) Certificated airmen of the air carrier whose duties with the carrier require an airman certificate;

(4) Certificated airmen of another air carrier whose duties with such carrier require an airman certificate and who have been authorized by the air carrier concerned to make specific trips over the route;

(5) Employees of the air carrier, whose functions are directly related to the conduct or planning of flight operations or the in-flight monitoring of aircraft equipment or operating procedures, but only when their presence in the cockpit is required in the furtherance of such functions and only when specifically authorized in writing by a responsible supervisor in the operations department of the air carrier, who is listed in the Operations Manual as having such authority; and

(6) Technical representatives of the manufacturer of the airplane or its components whose functions are directly related to the in-flight monitoring of aircraft equipment or operating procedures, but only when their presence in the cockpit is required in the furtherance of such functions and only when specifically authorized in writing by an authorized representative of the Administrator and by a responsible supervisor in the operations department of the air carrier, who is listed in the Operations Manual as having such authority.

§ 41.357 **Flying equipment.**

(a) *Charts.* The pilot in command shall insure that appropriate aeronautical charts containing adequate information concerning navigational aids and instrument approach procedures are aboard the airplane for each flight.

(b) *Flashlights.* Each required crewmember shall have in his possession on each flight a flashlight in good working order.

§ 41.358 **Restriction or suspension of operation.**

When conditions known to the air carrier exist which constitute a hazard to the conduct of safe air carrier operations, including airport and runway conditions, the air carrier shall restrict or suspend operations until such hazardous conditions are corrected.

§ 41.359 **Operations over approved routes required.**

Except when a deviation is necessary in accordance with § 41.360, a pilot shall not operate an air carrier airplane in scheduled air transportation over any route or route segment other than as specified in the operations specifications of the air carrier, nor operate other than in accordance with the limitations prescribed therein.

§ 41.360 **Emergency decisions; pilot in command and aircraft dispatcher.**

(a) In emergency situations which require immediate decision and action, the pilot in command may follow any course of action which he considers necessary under the circumstances. In such instance the pilot in command, to the extent required in the interest of safety, may deviate from prescribed operations procedures and methods, weather minimums, and the Civil Air Regulations.

(b) If an emergency situation arises during the course of a flight which requires immediate decision and action on the part of the aircraft dispatcher, and which is known to him, he shall advise the pilot in command of such situation. The aircraft dispatcher shall ascertain the decision of the pilot in command and shall cause the same to be made a matter of record. If unable to communicate with the pilot, the dispatcher shall declare an emergency and follow any course of action which he considers necessary under the circumstances.

(c) When emergency authority is exercised by the pilot in command or by the dispatcher, the appropriate air traffic control and dispatch centers shall be kept fully informed regarding the progress of the flight. A written report of any deviation shall be submitted by the individual declaring the emergency to the authorized representative of the Administrator assigned to the air carrier. Such report shall be submitted by a dispatcher within 10 days from the date of the emergency and by a pilot in command within 10 days after his return to his home base.

§ 41.361 **Reporting potentially hazardous meteorological conditions and irregularities of ground and navigational facilities.**

When any meteorological condition or irregularity of ground or navigational facilities is encountered in flight, the knowledge of which the pilot in command considers essential to the safety of other flights, he shall notify an appropriate ground radio station as soon as practicable. Any such information pertaining to irregularities of ground and navigational facilities shall be reported by the air carrier to the authority immediately responsible therefor.

§ 41.362 **Reporting mechanical irregularities.**

The pilot in command shall enter or cause to be entered in the maintenance log of the airplane all mechanical irregularities encountered during flight time. He shall, prior to each flight, ascertain the status of any irregularities entered in the log at the end of the last preceding flight.

§ 41.363 **Engine failure or precautionary stoppage.**

(a) Except as provided in paragraph (b) of this section, when one engine of an airplane fails or where the rotation of an engine of an airplane is stopped in flight as a precautionary measure to prevent possible damage, a landing shall be made at the nearest suitable airport in point of time where a safe landing can be effected.

(b) The pilot in command of an airplane having 4 or more engines may, if not more than one engine fails or the rotation thereof is stopped, proceed to an airport of his selection if, upon consideration of the following factors, he determines such action to be as safe a course of action as landing at the nearest suitable airport:

(1) The nature of the malfunctioning and the possible mechanical difficulties which may be encountered if flight is continued;

(2) The altitude, airplane weight, and usable fuel at the time of engine stoppage;

(3) The weather conditions en route and at possible landing points;

(4) The air traffic congestion;

(5) The type of terrain; and

(6) The familiarity of the pilot with the airport to be used.

(c) When engine rotation is stopped in flight, the pilot in command shall notify the proper ground radio station as soon as practicable and shall keep such station fully informed regarding the progress of the flight.

(d) In cases where the pilot in command selects an airport other than the nearest suitable airport in point of time, he shall, upon completion of the trip, submit a written report, in duplicate, to his operations manager setting forth his reasons for determining that the selection of an airport other than the nearest was as safe a course of action as landing at the nearest suitable airport. The operations manager shall, within 10 days after the pilot's return to his home base, furnish a copy of this report with his own comments thereon to the authorized representative of the Administrator assigned to the air carrier.

§ 41.364 **Instrument approach and IFR landing procedures.**

No instrument approach or IFR landing shall be conducted at an airport except in accordance with the IFR weather minimums and instrument approach procedures specified in the air carrier's operations specifications.

§ 41.365 **Requirements for air carrier equipment interchange.**

(a) Prior to conducting any operations pursuant to an interchange agreement authorized by the Civil Aeronautics Board, the air carrier shall show that:

(1) The procedures proposed for the conduct of such operations by the carriers involved conform with the provisions of this subchapter, and with safe operating practices;

(2) All operations personnel involved are familiar with the airplanes and equipment utilized in the interchange and with the communications and dispatching procedures to be used;

(3) All maintenance personnel involved are familiar with the airplanes and equipment, and the maintenance procedures applicable to the interchange;

(4) The flight crew and the dispatchers involved meet the appropriate route and airport qualifications; and

(5) All airplanes operated are essentially similar to those airplanes of the carrier with whom interchange is to be effected with respect to flight instruments and their arrangement and with respect to the arrangement and motion of controls critical to safety, unless the Administrator determines that adequate training programs have been established to insure that any dissimilarities which might be a potential hazard will be safely overcome by flight crew familiarization.

(b) The pertinent provisions and procedures affecting the carriers involved shall be included in their manuals.

§ 41.370 **Briefing of passengers.**

Each air carrier engaged in extended overwater operations shall insure that all passengers are briefed orally concerning the location and method of operation of life vests and emergency exits and the location of liferafts. The procedure to be followed in presenting this briefing shall be described in the air carrier manual. Such a briefing shall include a demonstration of the method of donning and inflating a life vest.

Where the airplane proceeds directly over water after takeoff, the briefing on location of the life vests and emergency exits shall be accomplished prior to takeoff, and the remainder of the briefing shall be accomplished as soon thereafter as practicable. Where the airplane does not proceed directly over water after takeoff, no part of the briefing need be accomplished prior to takeoff but the entire briefing shall be accomplished prior to reaching the overwater portion of the flight.

§ 41.371 Drinking and serving of alcoholic beverages.

(a) No person shall drink any alcoholic beverage aboard an air carrier airplane unless such beverage has been served to him by the air carrier operating the airplane.

(b) No air carrier shall serve any alcoholic beverage to any person aboard an air carrier airplane if such person appears to be intoxicated.

DISPATCHING RULES

§ 41.381 Necessity for dispatching authority.

No flight shall be started without specific authority from an aircraft dispatcher. Unless redispatched no flight shall be continued from an intermediate airport when weather conditions are less than those upon which the original dispatch release was based. No flight may be continued from an intermediate airport without redispatch if it has remained on the ground in excess of 6 hours.

§ 41.382 Familiarity with weather conditions.

No dispatcher shall release a flight unless he is thoroughly familiar with existing and anticipated weather conditions along the route to be flown.

§ 41.383 Facilities and services.

The dispatcher shall furnish to the pilot in command all available current reports or information pertaining to irregularities of navigational facilities and airport conditions which may affect the safety of the flight. He shall also furnish such pilot, while en route, any additional available information concerning meteorological conditions and irregularities of facilities and services which may affect the safety of the flight.

§ 41.384 Airplane equipment required for dispatch.

No airplane shall be dispatched unless it is airworthy and equipped in accordance with the provisions of § 41.170.

§ 41.385 Communications and navigational facilities required for dispatch.

No airplane shall be dispatched over any approved route or route segment unless the communications and navigational facilities required by §§ 41.34 and 41.36 for approval of such route or route segment are in satisfactory operating condition.

§ 41.386 Dispatching under VFR.

No airplane shall be dispatched for operation under VFR unless the appropriate weather reports and forecasts, or a combination thereof, indicate that the ceilings and visibilities along the route to be flown are, and will remain, at or above the minimums required for flight under VFR until the flight arrives at the airport or airports of intended landing specified in the dispatch release.

§ 41.387 Dispatching under IFR, over-the-top, or over water.

(a) An airplane shall not be dispatched for operations under IFR or over-the-top unless the appropriate weather reports and forecasts, or a combination thereof, pertaining to the airport or airports to which dispatched indicate that the ceilings and visibilities at such airports will be at or above the minimums specified in the air carrier's operations specifications at the estimated time of arrival thereat.

(b) Extended overwater operations shall be conducted at all times in accordance with the IFR requirements of this part except where the air carrier shows that such requirements are not necessary from a safety standpoint. Other overwater operations shall be conducted at all times in compliance with the IFR requirements of this part whenever the Director determines such compliance to be necessary in the interest of safety.

NOTE: Whenever extended overwater operations are authorized under VFR, or other overwater operations are required to be conducted under IFR, such authorization or requirement will be specified in the operations specifications of the air carrier.

§ 41.388 Alternate airport for departure.

(a) If the weather conditions at the airport of takeoff are below the landing minimums specified in the air carrier's operations specifications for that airport, no airplane shall be dispatched from that airport unless an alternate airport located with respect to the airport of takeoff as follows is specified in the dispatch release: *Provided*, That such alternate need not be selected if the ceiling and visibility, respectively, at the takeoff airport are at least 300 feet and one mile, 400 feet and three-quarters mile, or 500 feet and one-half mile:

(1) *Airplanes having 2 or 3 engines.* Alternate airport located at a distance no greater than one hour of flying time in still air at normal cruising speed with one engine inoperative.

(2) *Airplanes having 4 or more engines.* Alternate airport located at a distance no greater than 2 hours of flying time in still air at normal cruising speed with one engine inoperative.

(b) The alternate airport weather requirements shall be those specified in the air carrier's operations specifications.

(c) All required alternate airports shall be listed in the dispatch release.

§ 41.389 Alternate airport for destination; IFR or over-the-top.

(a) For all IFR or over-the-top operations there shall be at least one alternate airport designated for each airport of destination: *Provided*, That for flights scheduled for no more than 6 hours no alternate need be designated when, for the period 2 hours before to 2 hours after the estimated time of arrival, the ceiling at the airport to which the flight is dispatched is forecast to be at least 1,000 feet above the minimum initial approach altitude applicable to such airport and the visibility at such airport is forecast to be at least 3 miles: *Provided further*, That no alternate airport need be designated for a particular airport if the airplane carries sufficient fuel to meet the requirements of § 41.396(a)(2) or § 41.396(b)(2), as appropriate.

(b) The alternate airport weather requirements shall be those specified in the air carrier's operations specifications.

(c) All required alternate airports shall be listed in the dispatch release.

§ 41.390 Alternate airport weather minimums.

An airport shall not be specified in the dispatch release as an alternate airport unless the appropriate weather reports and forecasts, or a combination thereof, indicate that the ceilings and visibilities will be at or above the alternate minimums specified in the air carrier's operations specifications for such airport when the flight shall arrive thereat.

§ 41.391 Continuance of flight; flight hazards.

(a) No airplane shall be continued in flight toward any airport to which it has been dispatched when, in the opinion of the pilot in command or the aircraft dispatcher, the flight cannot be completed with safety, unless in the opinion of the pilot in command there is no safer procedure. In the latter event, continuation shall constitute an emergency situation as set forth in § 41.360.

(b) If any instrument or item of equipment required pursuant to the Civil Air Regulations for the particular operation being conducted becomes unserviceable en route, the pilot in command shall comply with the procedures specified in the air carrier manual for such occurrence: *Provided*, That the Director may authorize an air carrier to incorporate in its air carrier manual approved procedures for the continued operation of an airplane beyond a scheduled terminal point if the carrier shows that, in the particular circumstances of the case, literal compliance with the requirements of § 41.170(c) is not necessary in the interest of safety.

§ 41.392 Operation in icing conditions.

(a) An airplane shall not be dispatched, en route operations continued, or landing made when, in the opinion of the pilot in command or aircraft dispatcher, icing conditions are expected or encountered which might adversely affect the safety of the flight.

(b) No airplane shall take off when frost, snow, or ice is adhering to the wings, control surfaces, or propellers of the airplane.

§ 41.393 Original dispatch, redispatch, and continuance of flight.

(a) Any regular, provisional, or refueling airport, the use of which is authorized for the type of airplane to be operated, may be specified as a destination for the purpose of original dispatch.

(b) An airport specified as a destination or alternate for the purpose of original dispatch may be changed en route

to another airport which is authorized for the type of airplane to be operated if the appropriate requirements of §§ 41.381 through 41.409 and § 41.70 or § 41.90 are met at the time of redispatch.

(c) No flight shall be continued to any airport to which it has been dispatched unless the weather conditions at an alternate airport specified in the dispatch release are forecast to be at or above the alternate minimums specified in the air carrier's operations specifications for such airport when the flight shall arrive thereat: *Provided*, That the dispatch release may be amended en route to include any approved alternate airport lying within the fuel range of the airplane as specified in §§ 41.396 and 41.397.

(d) When the dispatch release is amended while the airplane is en route, such amendments shall be made a matter of record.

§ 41.394 Dispatch to and from refueling and provisional airport.

(a) No aircraft dispatcher shall dispatch an airplane to a refueling or provisional airport unless such airport complies with all of the requirements of this part pertinent to regular airports.

(b) Dispatch from a refueling or provisional airport shall be accomplished in accordance with the same regulations governing dispatch from a regular airport.

§ 41.395 Takeoffs and landings at alternate airports and at airports not listed in the operations specifications.

A pilot shall not takeoff or land an airplane at an alternate airport or an airport not listed in the air carrier's operations specifications other than in accordance with the takeoff and landing minimums and conditions prescribed in the air carrier's operations specifications for such airports.

§ 41.396 Fuel supply for all operations.

(a) *Reciprocating-engine- and turbo-propeller-powered airplanes.* (1) No airplane shall be dispatched to an airport for which there is an available alternate unless it carries sufficient fuel:

(i) To fly to and land at the airport to which dispatched, and thereafter;

(ii) To fly to and land at the most distant alternate designated in the dispatch release, and thereafter;

(iii) To fly for a period of at least 30 minutes plus 15 percent of the total time required to fly at normal cruising consumption to the airports specified in subdivisions (i) and (ii) of this subparagraph or to fly for 90 minutes at normal cruising consumption, whichever is lesser.

(2) No airplane shall be dispatched to an airport for which an alternate has not been designated unless it carries sufficient fuel, considering wind and other weather conditions expected, to fly to that airport and thereafter to fly for at least 3 hours at normal cruising consumption.

(b) *Turbine-powered airplanes.* (1) A turbine-powered airplane (exclusive of turbo-propeller-powered airplanes) may be dispatched or take off only if it carries sufficient fuel, considering the wind and other weather conditions expected:

(i) To fly to and land at the next point of landing specified in the clearance, and thereafter;

(ii) To fly for a period equal to 10 percent of the total time required to fly from the point of dispatch to the next point of landing specified in the clearance, and land at such airport; and thereafter

(iii) To fly to and land at the most distant alternate airport designated for that point in the clearance, and thereafter;

(iv) To fly for a period of 30 minutes at holding speed at 1,500 feet above the alternate airport elevation under standard temperature conditions.

(2) No airplane shall be dispatched to an airport for which an alternate has not been designated unless it carries sufficient fuel, considering wind and other weather conditions expected, to fly to that point and thereafter to fly for at least 2 hours at normal cruising consumption.

(3) The Director will amend the operations specifications of an air carrier to require fuel in excess of any of the minimums specified in this paragraph if he finds that additional fuel is necessary on a particular route in the interest of safety.

§ 41.397 Factors involved in computing fuel required.

In computing the fuel required, consideration shall be given to the wind and other weather conditions forecast, traffic delays anticipated, an instrument approach and possible missed approach at destination, and any other conditions which might delay the landing of the airplane. Required fuel shall be additional to unusable fuel.

§ 41.405 Takeoff and landing weather minimums: VFR.

Irrespective of any clearance which may be obtained from air traffic control, no pilot shall take off or land an airplane under VFR when the reported ceiling or ground visibility is less than specified below: *Provided*, That where a local surface restriction to visibility exists, such as smoke, dust, or blowing snow or sand, the visibility for night operations may be reduced to one mile, if all turns after takeoff and prior to landing and all flight beyond a mile from the airport boundary can be accomplished above or outside the area so restricted.

(a) For day operations: 1,000-foot ceiling and one-mile visibility;

(b) For night operations: 1,000-foot ceiling and two-mile visibility.

§ 41.406 Takeoff and landing weather minimums: IFR.

(a) Irrespective of any clearance which may be obtained from air traffic control, no pilot shall:

(1) Take off an airplane under IFR when the reported ceiling or ground visibility is less than that specified in Part 609 of the Regulations of the Administrator or the air carrier's operations specifications for the particular airport, or

(2) Except as provided in paragraphs (c) and (d) of this section, land an airplane under IFR when the reported ceiling or ground visibility is less than that specified in Part 609 of the Regulations of the Administrator or the air carrier's operations specifications for the particular airport.

(b) Except as provided in paragraphs (c) and (d) of this section, no instrument approach procedure shall be executed when the latest reported ceiling or visibility is less than the landing minimum specified in Part 609 of this title (Regulations of the Administrator) or the air carrier's operations specifications for the particular airport.

(c) An instrument approach procedure may be executed when the latest reported ceiling or visibility, or both, is less than that specified in Part 609 of this title (Regulations of the Administrator) or the air carrier's operations specifications for landing at the particular airport, if the airport is served by ILS and GCA (PAR) in operative condition and the pilot uses one facility as the primary aid, and the other as a monitoring aid; and thereafter a landing may be made, provided the pilot in command upon reaching the authorized landing minimum altitude finds that actual weather conditions are equal to or better than the specified minimums for the primary aid.

(1) The instrument approach shall be conducted in accordance with the information provided the pilot in command from the primary aid and the applicable landing minimums shall be those prescribed in the operations specifications based on the operative components of the primary aid. When GCA (PAR) is used as a secondary aid, the procedures specified in the Radar Procedures for Air Traffic Control Towers for monitored approaches shall apply.

(2) The ILS and PAR must be aligned with the same runway and both the elevation and azimuth (or localizer and glide slope) elements of the secondary aid must be operating.

(3) The use of operational military radar (other than training units) as a secondary aid is permissible without individual authorizations.

(d) If an instrument approach procedure is initiated when the latest weather report indicates that the specified ceiling and visibility minimums exist and a later weather report indicating below minimum conditions is received after the airplane (1) is on an ILS final approach and has passed the outer marker, or (2) is on a final approach using a radio range station or comparable facility and has passed the appropriate facility and has reached the authorized landing minimum altitude, or (3) is on PAR final approach and has been turned over to the final approach controller, such ILS, Range, or PAR approach may be continued and a landing may be made, provided the pilot in command upon reaching the authorized landing minimum altitude finds that actual weather conditions are equal to or better than the minimum specified for the particular airport in Part 609 of this title (Regulations of the Administrator) or the air carrier's operations specifications.

§ 41.407 Applicability of reported weather minimums.

In the conduct of operations subject to §§ 41.405 and 41.406, the ceiling and visibility values contained in the main body of the latest weather report furnished by the U.S. Weather Bureau or a source approved by the Weather Bureau shall be the controlling criteria for VFR and IFR takeoffs and landings and for instrument approach procedures on all runways of an airport; except that when the latest report furnished by the U.S. Weather Bureau or a source approved by it, including an oral report from the control tower, contains a visibility value specified as runway visibility for a particular runway of an airport, such specified value shall be controlling for VFR and IFR landings and takeoffs and straight-in instrument approaches.

NOTE: Information reflecting the official runway visibility observations reported by the control tower operator may be obtained from the office of the U.S. Weather Bureau for the airport concerned. Such office maintains a continuous graph recording of the runway visibility shown on the visibility meter in the control tower.

§ 41.408 Flight altitude rules.

Notwithstanding the provisions of § 60.17 of the Civil Air Regulations or other rules applicable outside of the United States, no air carrier airplane shall be operated anywhere in air carrier operations below the minimums prescribed in paragraphs (a) and (b) of this section: *Provided*, That the Director may prescribe other minimum en route altitudes for any route or portion thereof where he finds, after considering the character of the terrain being traversed, the quality and quantity of meteorological service, the navigational facilities available, and other flight conditions, that the safe conduct of flight requires such other altitudes.

NOTE: Minimum en route altitudes (MEA's) prescribed by the Director for particular routes within the United States are set forth in Part 610 of this title (Regulations of the Administrator). That part also contains the mountainous terrain designated by the Administrator. Outside of the United States the minimums prescribed in paragraphs (a) and (b) of this section will govern unless higher minimums are prescribed in the air carrier's operations specifications or by the foreign country over which the airplane is being operated.

(a) *Day VFR passenger operations.* No airplane engaged in passenger operations shall be flown at an altitude less than 1,000 feet above the surface or less than 1,000 feet from any mountain, hill, or other obstruction to flight.

(b) *Night VFR or IFR operations including over-the-top.* No airplane shall be flown at an altitude less than 1,000 feet above the highest obstacle located within a horizontal distance of 5 miles from the center of the course intended to be flown or, in mountainous terrain designated by the Administrator, 2,000 feet above the highest obstacle located within a horizontal distance of 5 miles from the center of the course intended to be flown: *Provided*, That in VFR operations at night in such mountainous areas airplanes may be flown over an approved lighted airway at a minimum altitude of 1,000 feet above such obstacles.

§ 41.409 Altitude maintenance on initial approach.

When making an initial approach to a radio navigational facility under IFR, a pilot shall not descend below the pertinent minimum altitude for initial approach specified in the instrument approach procedure for such facility until arrival over the radio facility has been definitely established.

§ 41.410 Preparation of dispatch release.

A dispatch release shall be prepared for each flight between specified points from information furnished by the authorized aircraft dispatcher. This release shall be signed by the pilot in command and by the authorized aircraft dispatcher only when both believe the flight can be made with safety. The aircraft dispatcher may delegate authority to sign such release for a particular flight, but he shall not delegate the authority to dispatch.

§ 41.411 Preparation of load manifest.

The air carrier shall be responsible for the preparation and accuracy of a load manifest form prior to each takeoff. This form shall be prepared by personnel of the air carrier charged with the duty of supervising the loading of airplanes and the preparation of load manifest forms or by other qualified persons authorized by the air carrier.

REQUIRED RECORDS AND REPORTS

§ 41.501 Crewmember and dispatcher records.

Each air carrier shall maintain current records of every crewmember and aircraft dispatcher. These records shall contain such information concerning the qualifications of each such crewmember and dispatcher as is necessary to show compliance with the appropriate requirements of the regulations of this subchapter, e.g., proficiency and route checks, airplane and route qualifications, training, physical examinations, and flight time records. The disposition of any flight crewmember or aircraft dispatcher released from the employ of the air carrier, or who becomes physically or professionally disqualified, shall be indicated in these records which shall be retained by the air carrier for at least 6 months.

§ 41.502 Dispatch release form.

(a) The dispatch release may be in any form but shall contain at least the following information with respect to each flight:

(1) Identification number of the airplane to be used, and the trip number;

(2) Airport of departure, intermediate stops, destination, and alternates therefor;

(3) Minimum fuel supply; and

(4) Type of operation, e.g., IFR, VFR.

(b) The dispatch release shall contain, or have attached thereto, weather reports, available weather forecasts, or a combination thereof, for the destination, intermediate stops, and alternates specified therein which shall be the latest available at the time the dispatch release is signed. It shall include such additional weather reports and forecasts, as available, considered necessary or desirable by the pilot in command or aircraft dispatcher.

§ 41.503 Load manifest.

(a) The load manifest shall contain at least the following information with respect to the loading of an airplane at the time of takeoff:

(1) The weight of:

(i) Airplane,

(ii) Fuel and oil,

(iii) Cargo, including mail and baggage, and

(iv) Passengers;

(2) The maximum allowable weight applicable for the particular flight;

(3) The total weight computed in accordance with approved procedures; and

(4) Evidence that the airplane is loaded in accordance with an approved schedule which insures that the center of gravity is within approved limits.

(b) The load manifest shall be prepared and signed for each flight by qualified personnel of the air carrier charged with the duty of supervising the loading of the airplane and the preparation of load manifest forms, or by other qualified personnel authorized by the air carrier.

§ 41.504 Disposition of load manifest, dispatch release form, and flight plans.

Copies of the completed load manifest, or information therefrom except with respect to cargo and passenger distribution, the dispatch release form, and the flight plan shall be in the possession of the pilot in command and shall be carried in the airplane to its destination. Copies also shall be kept for at least 3 months.

§ 41.505 Maintenance records.

(a) Each air carrier shall keep at its principal maintenance base current records of the total time in service, the time since last overhaul, and the time since last inspection of all major components of the airframe, engines, propellers, and appliances.

(b) Records of total time in service may be discontinued when it has been shown that the service life of component parts is safely controlled by other means, such as inspection, overhaul, or parts retirement procedures. The Director may require the keeping of total time records for specific parts when it is found that other procedures will not safely limit the service life of such parts.

(c) An airplane component, engine, propeller, or appliance for which complete records are not available may be placed in service, provided that:

(1) It is of a type for which total time-in-service records are not required under the provisions of paragraph (b) of this section;

(2) Parts which are limited by the Director or manufacturer to a specific service time are retired and replaced by new parts; and

(3) It has been properly overhauled or rebuilt, and a record of such overhaul or rebuilding is included in the maintenance records.

§ 41.506 Maintenance log.

A legible record shall be made in the airplane's maintenance log of the action taken in each case of reported or observed failures or malfunctions of airframes, engines, propellers, and appliances. The air carrier shall establish an approved procedure for retaining an adequate number of such records in the airplane in a place readily accessible to the flight crew and shall incorporate such procedure in the air carrier manual. The maintenance log shall contain information from which the flight crew may readily determine the time since last overhaul of the airframe and engines.

§ 41.507 Daily mechanical reports.

(a) Whenever a failure, malfunctioning, or other defect is detected in flight or on the ground in an airplane or airplane component which may reasonably be expected by the air carrier to cause a serious hazard in the operation of any airplane, a report shall be made of such failure, malfunctioning, or other defect to the authorized representative of the Administrator assigned to the air carrier. This report shall cover a 24-hour period beginning and ending at midnight, shall be submitted by 12 o'clock midnight of the following working day, or sooner if the seriousness of the malfunction or difficulty so warrants, and shall include as much of the following information as is available on the first daily report following such incidents:

(1) Type and FAA identification number of the airplane, name of air carrier, and date;

(2) Emergency procedure effected: unscheduled landing, dumping fuel, etc.;

(3) Nature of condition: fire, structural failure, etc.;

(4) Identification of part and system involved, including the type designation of the major component;

(5) Apparent cause of trouble: wear, cracks, design deficiency, personnel error, etc.;

(6) Disposition: repaired, replaced, airplane grounded, etc.; and

(7) Brief narrative summary to supply any other pertinent data required for more complete identification, determination of seriousness, corrective action, etc.

(b) These reports shall not be withheld pending accumulation of all of the information specified in paragraph (a) of this section. When additional information is obtained relative to the incident, it shall be expeditiously submitted as a supplement to the original report, reference being made to the date and place of submission of the first report.

§ 41.508 Mechanical interruption summary report.

Each air carrier shall submit regularly and promptly to the Administrator a summary report containing information on the following occurences:

(a) All interruptions to a scheduled flight, unscheduled changes of airplanes en route, and unscheduled stops and diversions from route which result from known or suspected mechanical difficulties or malfunctions.

(b) The number of engines removed prematurely because of mechanical trouble, listed by make and model of engine and the airplane type in which the engine was installed.

(c) The number of propeller featherings in flight, listed by type of propeller and type of engine and the airplane on which the propeller is installed. Propeller featherings accomplished for training, demonstration, or flight check purposes need not be reported.

§ 41.509 Alteration and repair reports.

Reports of major alterations or repairs of airframes, engines, propellers, and appliances shall be submitted to the authorized representative of the Administrator assigned to the air carrier promptly upon completion of such alterations or repairs.

§ 41.510 Maintenance release.

When an airplane is released by the maintenance organization to flight operations, a maintenance release or appropriate entry into the maintenance log certifying that the airplane is in an airworthy condition shall be prepared and signed by a maintenance inspector or a person authorized by the inspection organization prior to release of such airplane. If a maintenance release form is prepared, a copy shall be given to the pilot in command. An appropriate record shall be kept for at least 2 months.

§ 41.511 Communication records.

Each air carrier shall maintain, and retain for a period of 30 days, records of radio contacts between the air carrier and its pilots en route.

APPENDIX A—REQUIREMENTS FOR APPROVAL OF FIRST-AID AND SURVIVAL EQUIPMENT

First-aid and survival equipment which meet the following specifications and requirements are approved:

1. *First-aid kits required by § 41.173.* Each first-aid kit shall be dust and moisture proof, contain only materials which meet Federal Specifications GG–K–391a, as revised. First-aid kits shall be provided in accordance with the following requirements:

(a) No. 1 kit for airplanes of 1 to 5 persons capacity.

Adhesive bandage compresses, 1-inch (16 per unit)	1
Antiseptic swabs, 10 mm. (10 per unit)	1
Ammonia inhalants, 6 mm. (10 per unit)	1
2-inch bandage compresses (4 per unit)	1
4-inch bandage compresses (1 per unit)	1
Triangular bandage compressed, 40-inch (1 per unit)	2
Burn compound, ⅛ oz. (5 per unit) or equivalent amount of other burn remedy	1
Ophthalmic ointment, ⅛ oz. (6 per unit)	1

(b) No. 2 kit for airplanes of 6 to 25 persons capacity.[1]

Adhesive bandage compresses, 1-inch (16 per unit)	2
Antiseptic swabs, 10 mm. (10 per unit)	2
Ammonia inhalants, 6 mm. (10 per unit)	1
2-inch bandage compresses (4 per unit)	3
4-inch bandage compresses (1 per unit)	2
Triangular bandage compressed, 40-inch (1 per unit)	3
Burn compound, ⅛ oz. (6 per unit) or equivalent amount of other burn remedy	2
Ophthalmic ointment, ⅛ oz. (6 per unit)	1

(c) No. 3 kit for airplanes of 26 to 90 persons capacity.

Adhesive bandage compresses, 1-inch (16 per unit)	4
Antiseptic swabs, 10 mm. (10 per unit)	4
Ammonia inhalants, 6 mm. (10 per unit)	2
2-inch bandage compresses (4 per unit)	3
4-inch bandage compresses (1 per unit)	3
Triangular bandage compressed, 40-inch (1 per unit)	5
Burn compound, ⅛ oz. (6 per unit) or an equivalent amount of other burn remedy	2
Ophthalmic ointment, ⅛ oz. (6 per unit)	1

(d) For airplanes of more than 90 persons capacity, two No. 3 kits shall be required.

2. *Survival equipment required by § 41.206 for extended overwater operations.* The following survival equipment shall be provided on extended overwater operations for each liferaft:

1 No. 2 first-aid kit (from airplane)
1 flashlight (from airplane).
100 doses of a motion sickness remedy.
Sunburn protective sufficient to cover the faces of 75 percent of the occupants.
3 shark repellent,
3 containers of sea marker dye,
1 canopy (for protection from the elements),
1 liferaft repair kit,
Radar reflectors (or similar device),
1 bailing bucket,
1 sea anchor,
1 signaling mirror,
1 police whistle,
1 raft knife,
Such CO_2 bottle(s) as required for initial inflation of the liferaft,
1 inflation pump,
2 oars (for other than large oval-shaped rafts),
1 magnetic compass,
1 pyrotechnic pistol and 6 cartridges or 6 day/night type flares,
5 water storage bags,
1 fishing kit,
1 book on survival appropriate for area,
1 75-foot line (250 lbs. tension strength) fitted with a floatable device at one end,
2,000 calories supply emergency food ration per occupant (Food and water supplies may be stored in a separate floatable container, and
1 sea water desalting kit for each 2 persons the liferaft is authorized to carry, or 2 pints of water per occupant.

3. *Survival equipment required by § 41.208.* When the type of operation requires more than one class of equipment it will not be necessary to carry more than one supply of items duplicated in another list. The equipment specified herein shall be carried in one or more containers and in such a location as to make it readily available in the event of forced landing and subsequent evacuation from the airplane.

(a) *Tropical land areas.* The following equipment shall be provided for operations over tropical land areas;

1 first-aid kit (from airplane),
1 flashlight (from airplane),
1 machete,
1 axe (from airplane),
Sufficient insect repellant to cover the hands and faces of all occupants,
2 pints of drinking water for each occupant,
Sufficient water purification tablets to treat 5 quarts of water per occupant,
1 waterproof box of matches,
1 magnetic compass,
1 signaling mirror,

[1] Kit No. 2 in canvas may also be used on liferafts.

1 pyrotechnic pistol and 6 cartridges or 6 day/night type flares,
1 mosquito headnet for each occupant,
1 hunting knife,
1 small-bore rifle and cartridges; or revolver and cartridges,
1 fishing kit,
1 snake-bite kit,
1 book on jungle survival,
200 feet nylon rope with strength of 250 pounds, and
500 calories supply emergency food ration per occupant.

(b) *Frigid land areas.* The following equipment shall be provided for operations over frigid land areas:

1 first-aid kit (from airplane),
1 flashlight (from airplane),
1 machete,
1 axe (from airplane),
1 mosquito headnet for each occupant,
Sufficient insect repellent to cover the hands and faces of all occupants,
1 blanket for each occupant,
2 pairs of snowshoes,
2 pairs of Arctic shoes,
2 pairs of gloves,
6 pairs of sunglasses,
1 book on Arctic survival,
1 waterproof box of matches,
1 magnetic compass,
Sufficient water purification tablets to treat 5 quarts of water per occupant,
1 signaling mirror,
1 pyrotechnic pistol and 6 cartridges; or 6 day night type flares,
1 small bore rifle and cartridges; or revolver and cartridges,
1 hunting knife,
2,000 calories supply emergency food ration per occupant,
1 fishing kit,
200 feet nylon rope with strength of 250 pounds, and
A supply of ½ pint of drinking water per person.

[F.R. Doc. 60-11115; Filed, Nov. 30, 1960; 8:45 a.m.]

[14 CFR Parts 600, 601]

[Airspace Docket No. 60-LA-88]

FEDERAL AIRWAYS AND CONTROL AREAS

Modification of Federal Airways, Associated Control Areas and Control Area Extension; Revocation of Control Area Extension

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to Part 601 and §§ 600.6105, 600.6202, 601.6202 and 601.1441 of the regulations of the Administrator, the substance of which is stated below.

The Tucson, Ariz., control area extension (§ 601.1186) is designated as the airspace within 5 miles either side of the west course of the Tucson radio range extending from the radio range station to a point 25 miles west and the airspace south of Tucson bounded on the north by Green Federal airway No. 5, on the northeast by VOR Federal airway No. 66, on the west and south by VOR Federal airway No. 202, and the airspace in the southwest quadrant of the Tucson radio range lying within a 30-mile radius of the radio range station. The portion of this control area extension which lies within the geographic limits of and between the designated altitudes of the Sahuarita Restricted Area (R-310) shall be used only after obtaining prior approval from the Federal Aviation Agency Air Traffic Control during this restricted area's time of designation.

The Tucson, Ariz., control area extension (§ 601.1441) is designated as the airspace northeast of Tucson bounded on the north by VOR Federal airway No. 94, on the southeast by VOR Federal airway No. 202, and on the south and southwest by VOR Federal airway No. 16.

VOR Federal airway No. 105 extends in part from the Tucson, Ariz., VORTAC via the intersection of the Tucson VORTAC 273° and the Casa Grande, Ariz., VOR 153° True radials to the Casa Grande VOR.

VOR Federal airway No. 202 extends from the Tucson, Ariz., radio range station via the point of intersection of a straight line bearing 157° True from the Tucson radio range station with the Cochise, Ariz., VOR 257° True radial; the Cochise VOR; the San Simon, Ariz., VOR; to the Truth or Consequences, N. Mex., VOR.

The Federal Aviation Agency has under consideration the modification of the Tucson control area extensions by combining them into one control area extension (§ 601.1441), and including additional area to the south and west. It is also proposed to realign Victor 105 from the Tucson VORTAC via the intersection of the Tucson VORTAC 273° and the Casa Grande VOR 146° True radials; to the Casa Grande VOR; and to revoke the segment of Victor 202, and its associated control areas between Tucson and Cochise.

The portion of the Tucson control area extension to the south and west of Tucson would provide protection to aircraft executing revised departure procedures from Davis-Monthan Air Force Base. The portion northeast of Tucson is used by Davis-Monthan RAPCON for radar vectoring aircraft arriving and departing the Tucson terminal area. The realignment of Victor 105 as proposed would reduce the airway mileage between Phoenix and Tucson, facilitate approaches to Tucson from the west and departures from Davis-Monthan AFB to the west, and permit radar surveillance of the entire holding pattern airspace west of Tucson at the intersection of the Tucson VORTAC 273° and the Casa Grande VOR 146° True radials. The control areas associated with Victor 105 are so designated that they would automatically conform to the modified airway. Accordingly, no amendment relating to control areas associated with Victor 105 would be necessary.

A Federal Aviation Agency IFR peakday airway traffic survey for the period July 1, 1959, through June 30, 1960, shows that there were no aircraft movements on the segment of Victor 202 between Tucson and Cochise. In addition, the exceptionally high minimum reception altitude on the segment of Victor 202 between Tucson and the Mescal, Ariz., Intersection makes use of this segment of the airway impractical. It appears, therefore, that retention of the segment of Victor 202 between Tucson and Cochise is unjustified as an assignment of airspace.

If these actions are taken:

1. The Tucson, Ariz., control area extension (§ 601.1441), would be redesignated as the area southwest of Tucson bounded on the northeast by VOR Federal airway No. 66, on the south and west by a line connecting points at latitude 31°47'00" N., longitude 110°20'00" W., latitude 31°38'00" N., longitude 111°02'00" W., latitude 31°52'00" N., longitude 112°06'00" W., and latitude 32°37'00" N., longitude 112°06'00" W.; and the area northeast of Tucson bounded on the north by VOR Federal airway No. 94, on the southeast by VOR Federal airway No. 202, and on the south and southwest by VOR Federal airway No. 16. The portion of this control area extension which would coincide with the Sahuarita, Ariz., Restricted Area (R-310) would be used only after obtaining prior approval from the Federal Aviation Agency Air Route Traffic Control Center.

2. VOR Federal airway No. 105 would be redesignated from the Tucson, Ariz., VORTAC via the intersection of the Tucson VORTAC 273° and the Casa Grande, Ariz., VOR 146° True radials; to the Casa Grande VOR.

3. The segment of VOR Federal airway No. 202 and its associated control areas from Tucson, Ariz., to Cochise, Ariz., would be revoked.

4. The Tucson, Ariz., control area extension (§ 601.1186) would be revoked.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box 90007, Airport Station, Los Angeles 45, Calif. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on November 23, 1960.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

[F.R. Doc. 60-11142; Filed, Nov. 30, 1960; 8:45 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-NY-109]

CONTROL ZONES

Designation

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to Part 601 of the regulations of the Administrator, the substance of which is stated below.

The Federal Aviation Agency has under consideration the designation of a control zone at Ithaca, N.Y. It is proposed to designate a control zone from 0500 to 2400 hours daily local time, within a 5-mile radius of the Tompkins County Airport (latitude 42°29'25" N., longitude 76°27'30" W.), and within 2 miles either side of the 305° True radial of the Ithaca VOR extending from the 5-mile radius zone to 12 miles northwest of the VOR. This proposed control zone would provide protection for aircraft conducting prescribed instrument approach and departure procedures at the Tompkins County Airport during the period when weather observations are taken. Communications within the proposed control zone would be handled by the Elmira, N.Y., approach control facility.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on November 23, 1960.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

Notices

DEPARTMENT OF THE TREASURY

Foreign Assets Control

IMPORTATION OF CERTAIN MERCHANDISE DIRECTLY FROM HONG KONG

Available Certifications by the Government of Hong Kong

Notice is hereby given that certificates of origin issued by the Department of Commerce and Industry of the Government of Hong Kong under procedures agreed upon between that Government and the Foreign Assets Control are available with respect to the importation into the United States directly, or on a through bill of lading, from Honk Kong of the following additional commodities:

Cloisonneware.
Feather manufactures.
Linen manufactures.
Po Chun Balm.
Rickshaws.
White Flower Oil (Pak Fah Yeow).

Notice is also given that certificates of origin are now available for white ceramics only. This notice supersedes the previous notice of the availability of certificates of origin for the item "ceramics," which was published in the FEDERAL REGISTER on June 1, 1955.

[SEAL] MARGARET W. SCHWARTZ,
Acting Director,
Foreign Assets Control.

ARIZONA

Notice of Proposed Withdrawal and Reservation of Lands

The Corps of Engineers, U.S. Department of the Army, on behalf of the Department of the Air Force, has filed an application, Serial No. AR-027964, for the withdrawal of the lands described below from all forms of appropriation under the public land laws, including the mining laws, the mineral leasing laws and the grazing regulations, subject to valid existing rights.

The applicant desires the lands in connection with the construction of a missile site and appurtenances thereto for national defense purposes.

For a period of thirty (30) days from the date of publication of this notice, all persons who wish to submit comments, suggestions or objections in connection with the proposed withdrawal may present their views in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, P.O. Box 148, Phoenix, Arizona. All submittals should be in triplicate.

If circumstances warrant it, a public hearing will be held at a convenient time and place which will be announced. The determination of the Secretary of the Interior on the allowance of the application will be published in the FEDERAL REGISTER. A separate notice will be sent to any interested parties of record.

GILA AND SALT RIVER MERIDIAN

T. 12 S., R. 9 E.,
Sec. 19: SE¼;
Sec. 20: NW¼SW¼.

The area described totals approximately 200 acres.

Dated: November 22, 1960.

E. I. ROWLAND,
State Supervisor.

[No. 506]

CALIFORNIA

Small Tract Classification; Partial Revocation and Order Providing for Opening of Public Lands

NOVEMBER 17, 1960.

1. Effective immediately, the following described lands listed under paragraph 1 of Federal Register Document 57-218, appearing on pages 245 and 246 of the issue for January 11, 1957, are hereby revoked from the classification order.

MOUNT DIABLO MERIDIAN

T. 33 N., R. 9 W.,
Section 7: NE¼NE¼SE¼;
Section 8: E½NW¼, SW¼NE¼, SE¼NE¼;
Section 27: S½SE¼NE¼, NW¼SE¼NE¼;
Section 34: NE¼NE¼.
T. 33 N., R. 10 W.,
Section 13: Lot 3 (formerly N½NE¼NE¼NE¼).
Containing 245 acres.

2. The lands are located generally in the vicinity of Weaverville, California, the county seat of Trinity County. The topography is gently undulating to very steep. Soils consist of reddish brown gravelly clay with a vegetative cover of scrub oak, digger pine and manzanita and ponderosa pine.

3. No application for these lands will be allowed under the Small Tract Act, Homestead, Desert Land, or any other nonmineral public land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified under consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

4. Subject to any valid existing rights and the requirements of applicable laws, the lands described herein are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws presented prior to 10:00 a.m. on December 22, 1960 will be considered as simultaneously filed at that hour. Any rights under such applications filed will be governed by the time of filing.

(1) All applications shall be subject to those from persons having prior existing valid settlement rights, preference rights conferred by existing law, or equitable claims subject to allowance and confirmation.

(2) Persons claiming preference rights must submit evidence of their entitlement.

5. The lands have been open to applications and offers under the mineral leasing laws. They will be open to location under the U.S. Mining laws beginning at 10:00 a.m. on May 17, 1961. Locations made prior thereto shall be invalid.

6. Inquiries shall be addressed to the Manager, Land Office, Room 1000, California Fruit Building, Fourth and J Streets, Sacramento 14, California.

R. G. SPORLEDER,
Officer-in-Charge, Northern Field Group, Sacramento, California.

INTERSTATE COMMERCE COMMISSION

[No. 33434]

MIDDLE ATLANTIC AND NEW ENGLAND TERRITORY

Detention of Motor Vehicles

It appearing, that Middle Atlantic Conference petitioned the Commission to prescribe a rule proposed by it to govern charges for, and practices in connection with, the detention of vehicles incident to the loading or unloading of truckload shipments, to apply to all common carriers by motor vehicle operating in Middle Atlantic Territory and between that Territory and New England; that notice of said petition, together with the text of the rule proposed by said petitioner, was published in the FEDERAL REGISTER on August 11, 1960, at 25 F.R. 7664 permitting the filing of representations in support of or in objection to said rule; and that such representations have been filed;

It further appearing, that on October 25, 1960, the Commission instituted an investigation naming all common carriers of property by motor vehicle operating in the territories referred to in the next preceding paragraph, respondents, and providing for a hearing to afford said respondents and any other interested persons an opportunity to present evidence to determine whether the Commission should prescribe a rule which would be applicable for determining the charges for the detention of motor vehicles by consignors or consignees in said territories; and that said order was published in the FEDERAL REGISTER on November 4, 1960, at 25 F.R. 10585;

And it further appearing, that this proceeding is one peculiarly susceptible to handling under special rules of procedure and that such rules will result in a more efficient and expeditious presentation of the evidence herein; and that such rules governing matters of practice and procedure need not be the subject of notice and hearing under section 5A of the Administrative Procedure Act;

It is ordered: That all persons, including respondents, desiring to participate in this proceeding shall notify the Secretary of the Commission at Washington, D.C. on or before December 12, 1960 by a writing which shall identify this proceeding by its docket number and title, specifically state an intention to participate therein, and set forth the name and address of the person to whom communications respecting this proceeding shall be made and upon whom service of pleadings evidence, notices, orders and other documents filed in this proceeding shall be made;

It is further ordered: That on or before December 27, 1960 the Secretary of the Commission shall cause to be mailed to each person who has given notice as provided in the first ordering paragraph hereof a list (hereinafter called Service List) of all persons who have given notice as so provided, together with the text of the rule proposed by Middle Atlantic Conference;

It is further ordered: That any person who has given notice as provided in the first ordering paragraph hereof who desires to submit evidence in support of the said rule shall do so by filing three (3) copies thereof in the form of verified statements with the Secretary of the Commission and serve copies of the same upon persons named on the Service List on or before January 30, 1961;

It is further ordered: That any person who has given notice as provided in the first ordering paragraph hereof who desires to submit evidence in opposition to the said rule shall do so by filing three (3) copies thereof in the form of verified statements with the Secretary of the Commission and serve copies of the same upon all persons named on the Service List on or before February 27, 1961;

It is further ordered: That any person who has filed and served direct evidence as provided in the third ordering paragraph hereof who desires to submit rebuttal evidence may do so in the form of verified statement by filing three (3) copies thereof with the Secretary of the Commission and serve copies of the same upon all persons named in the Service List on or before March 20, 1961;

It is further ordered: That any person who has given notice as provided in the first ordering paragraph hereof who desires to cross-examine an adversary witness whose written verified statement of fact has been filed pursuant to the provisions hereof shall notify the Secretary of the Commission and all persons named in the Service List within 10 days after the particular verified statement upon which he desires to cross-examine has been filed with the Secretary; that said notice shall identify the verified statement and the person desired to be cross-examined, and describe with particularity the matters in said verified statement upon which cross-examination is desired, and that failure to comply with the requirements of this order may result in denial of the request for cross-examination.

It is further ordered: That this proceeding will be assigned for oral hearing for the purpose of cross-examination at a time and place to be hereafter fixed.

It is further ordered: That all statements filed pursuant to the procedure herein set forth shall comply with Rules 1.49, 1.50 and 1.52 of the Commission's general rules of practice.

And it is further ordered: That notice of this proceeding be given to the general public by depositing a copy of this order in the office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register, Washington, D.C.

Dated at Washington, D.C., this 23d day of November A.D. 1960.

By the Commission.

[SEAL] HAROLD D. MCCOY,
Secretary.

KANSAS-OKLAHOMA LOCAL SERVICE CASE

Order for Oral Argument

On October 31, 1960, the Board adopted its decision and order (Order E-15975) in this proceeding. Thereafter on November 22, 1960, petitions for reconsideration, rehearing and reargument were filed by the parties pursuant to Rule 37 of the rules of practice, and answers with respect to such petitions may be filed within 10 days thereafter. In view of the issues raised by such petitions, the Board has concluded that oral argument should be held upon such petitions before the full Board. The times allotted and the issues upon which argument will be heard with respect to such petitions will be announced shortly.

It is ordered: That oral argument before the full Board upon the petitions for reconsideration, rehearing and reargument in this proceeding be held on December 6, 1960, at 10:00 a.m., Room

1027, Universal Building, Washington, D.C.

By the Civil Aeronautics Board:

SECURITIES AND EXCHANGE COMMISSION

[File No. 24S-1664]

BEN HUR GOLD, INC.

Notice and Order for Hearing

NOVEMBER 25, 1960.

I. Ben Hur Gold, Inc. (issuer), an Idaho corporation, P.O. Box 2853, Boise, Idaho, filed with the Commission on March 12, 1959, a notification on Form 1-A and an offering circular relating to an offering of 200,000 shares of its 10¢ par value stock at 10¢ per share for an aggregate offering of $20,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) and Regulation A promulgated thereunder.

II. The Commission on April 16, 1959 issued an order pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, temporarily suspending the exemption under Regulation A and affording to any person having an interest therein an opportunity to request a hearing pursuant to Rule 261. A written request for hearing was received by the Commission.

The Commission deeming it necessary and appropriate to determine whether to vacate the temporary suspension order or to enter an order permanently suspending the exemption,

It is hereby ordered: That a hearing under the applicable provisions under the Securities Act of 1933, as amended, and the rules of the Commission be heard at the United States Attorney's Office, Federal Building, Boise, Idaho at 10:00 a.m., on December 1, 1960 with respect to the following matters and questions, without prejudice, however, to the specification of additional issues which may be presented in these proceedings:

A. Whether an exemption under Regulation A is not available pursuant to Rule 252(d)(2) in that the president of the issuer has been enjoined by courts of competent jurisdiction.

B. Whether the terms and conditions of Regulation A have not been complied with, in that:

1. The notification on Form 1-A fails to disclose the names and addresses of the issuer's predecessors, as required by Item 2(a);

2. The notification on Form 1-A fails to set forth fully the information required by Items 5 and 9 as to the issuer's predecessors;

3. The issuer has failed to file copies of the governing instruments defining the rights of the 10¢ par value stock proposed to be offered, as required by Item 11(a) of Form 1-A.

C. Whether the offering circular contains untrue statements of material facts and omits to state material facts necessary in order to make the statements made, in the light of the circumstances under which they are made, not misleading, particularly with respect to:

1. The statements on page 5 concerning Earl Cedric Heffner, a director, a promoter, and the president of the issuer, and the failure to disclose fully and adequately his background and experience;

2. The statements on page 5 concerning William Alexander Hutton, a director of the issuer and its mining engineer, and the failure to disclose fully and adequately his background and experience;

3. The failure to disclose the insolvent condition of Good Hope Investors, Inc., an affiliate and predecessor of the issuer;

4. The failure to disclose the condition and value of the issuer's mining machinery;

5. The failure to disclose the material terms of the issuer's mining equipment contracts and liens, if any, on such equipment;

6. The failure to disclose adequately the contract terms for, the nature of the title to, and the royalties payable on The Windfall Property, The Millsite and Parker Placer, The Ben Hur Quartz Property, The Buffalo Quartz Property, and The Coy-Dowing Humdinger #1 Quartz Claim;

7. The failure to disclose adequately the results of work upon the issuer's mining properties;

8. The statement on page 8 that "This property contains from 1,000 to 1,500 feet of Creek Bed Placer that we believe to be workable";

9. The statement on page 11 that "Values are in Lode Gold with quite a lot of Silver in places; our preliminary assays indicate a fairly good grade of rock and widths are also quite good; what lies underneath and beyond is a something we would all like to know";

10. The adequacy of the information given in the first paragraph on page 13, concerning assay results;

11. The failure to disclose adequately (a) Information about the type, condition, and capacity of the issuer's mill, and (b) the justification for the proposed expenditures on the issuer's mill in light of the amount of known ore;

12. The failure to set forth adequate financial statements properly reflecting the issuer's financial condition;

13. The failure to set forth appropriate financial statements for the issuer's predecessor;

14. The failure to disclose that there is no established market for the issuer's stock and that the offering price of the stock is an arbitrary figure.

D. Whether the offering would be made in violation of section 17 of the Securities Act of 1933, as amended, in that in addition to the foregoing, among other things, statements are made implying the existence of commercial quantities of ore and successful mining operations.

III. *It is further ordered,* That Sidney Gross or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing; that any officer or officers so designated to preside at any such hearing are hereby authorized to exercise all the power granted to the Commission under section 19(b), 21 and 22(c) of the Securities Act of 1933, as amended, and to hearing officers under the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve a copy of this order by registered mail to Ben Hur Gold, Inc.; that notice of the entering of this order shall be given to all persons by general release of the Commission and by publication in the FEDERAL REGISTER. Any person who desires to be heard or otherwise wishes to participate in the hearing shall file with the Commission on or before November 29, 1960, a request relative thereto as provided in Rule IX of the Commission's rules of practice.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[F.R. Doc. 60-11147; Filed, Nov. 30, 1960; 8:46 a.m.]

[File No. 24W-2344]

SABER BOATS, INC.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

NOVEMBER 25, 1960.

I. Saber Boats, Inc. (formerly Light House, Inc.), incorporated under the laws of the State of Maryland and formerly located at Accokeek, Maryland, filed with the Commission on January 27, 1960, a notification and offering circular relating to an offering of 106,875 shares of its 10 cent par value Class B non-voting stock, at $2 per share and 2,500 shares of its 10 cent par value Class A voting common stock at $2 per share, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to section 3(b) thereof and Regulation A promulgated thereunder. Batten and Company, with offices at 1835 K Street NW., Washington, D.C., was named as underwriter for this offering.

II. The Commission has reasonable cause to believe that:

A. The offering circular and other material used in connection with the offering contained untrue statements of material facts and omitted to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly with respect to:

1. The statement in the offering circular that the public offering price was $2 per share when in fact the stock was offered to some members of the public at $2 per share and to other members of the public at varying higher prices;

2. The statement in the offering circular that the issuer was owner of the "property and plant facilities" therein described, when in fact legal title thereto was incomplete and was not completed until July 18, 1960;

3. The financial statements were not prepared in accordance with generally accepted accounting principles and practices in that the issuer represents ownership in the balance sheet of the land and building, when in fact the issuer did not have legal ownership of the assets represented therein.

B. The terms and conditions of Regulation A have not been complied with in that:

1. Sales were made to the public without the use of an offering circular as required by Rule 256; and

2. The issuer and the selling stockholder failed to file a complete and accurate report of sales on Form 2-A as required by Rule 260, in that the report, filed May 12, 1960, incorrectly states that the offering was completed May 2, 1960, at $2 per share by the broker-dealer firm named therein, and fails to disclose the actual commissions paid and received.

C. The offering has been made in violation of section 17(a) of the Securities Act of 1933, as amended.

III. *It is ordered,* Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing within 30 days after the entry of this order; that within twenty days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission, for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; that if no hearing is requested and none is ordered by the Commission, this order shall become permanent on the thirtieth day after its entry and shall remain in effect unless or until it is modified or vacated by the Commission; and that notice of the time and place for any hearing will promptly be given by the Commission.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[F.R. Doc. 60-11151; Filed, Nov. 30, 1960; 8:47 a.m.]

[File No. 70-3913]

MISSISSIPPI POWER & LIGHT CO.

Notice of Proposed Issuance and Sale Of Short-Term Notes to Banks

NOVEMBER 23, 1960.

Notice is hereby given that Mississippi Power & Light Company ("Mississippi"), a public-utility subsidiary of Middle South Utilities, Inc., a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a) and 7 of the Act as applicable to the proposed transactions. All interested persons are referred to said declaration for a statement of the proposed transactions which are summarized below.

By order dated January 12, 1959 (Holding Company Act Release No. 13910), the Commission authorized Mississippi, pursuant to a Credit Agreement with nine banks, to issue and sell, from time to time, during the period from January 15, 1959, to January 15, 1961, its promissory notes not to exceed at any one time outstanding an aggregate face amount of $5,000,000. Under said Credit Agreement, Mississippi may, at its option, extend the term of the agreement and the due date of its loans to January 15, 1962. In the present filing, Mississippi is seeking Commission approval to issue notes pursuant to such an extension.

Under the Credit Agreement, the company's notes bear interest at the rate of 4 percent per annum and are prepayable, in whole or in part, without premium, unless paid from the proceeds of other bank borrowings at a lower interest rate. The Credit Agreement also provides for the payment of a commitment fee computed at the rate of one quarter of one percent per annum on the daily average unused amount of commitments during the term of the Credit Agreement after June 15, 1959, subject, however, to the right of the company, upon 10 days notice, to terminate or reduce such obligation without penalty. As of August 7, 1960, in accordance with the terms of the Credit Agreement, Mississippi reduced the credit commitment of the nine banks to a total of $3,000,000, allocated as follows:

	Amount of commitment
The Hanover Bank	$1,500,000
Deposit Guaranty Bank & Trust Company	690,000
First National Bank of Jackson	450,000
Grenada Bank	120,000
The First National Bank & Trust Company of Vicksburg	66,000
Greenville Bank & Trust Company	60,000
The Merchants National Bank and Trust Company of Vicksburg	54,000
The Commercial National Bank of Greenville	36,000
The First National Bank of Greenville	24,000
	$3,000,000

The declaration shows that no such notes are currently outstanding, the last $1,000,000 having been repaid on November 3, 1960. Declarant states that to meet temporary cash needs during 1961, it is expected that $2,000,000 of loans will be required in January 1961 and that an additional $1,000,000 will be borrowed in March 1961. The company presently anticipates that the entire amount will be repaid prior to December 1961.

The only expenses to be incurred in connection with the proposed transactions are miscellaneous expenses which are estimated at $50.00. The declaration states that no State or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than December 12, 1960, at 5:30 p.m., request in writing that a hearing be held on such matters, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[File No. 24S-1773]

EDSCO MANUFACTURING CO., INC.

Order Changing Place of Hearing

NOVEMBER 25, 1960.

The Commission, by order dated November 7, 1960, having ordered a hearing in the above entitled matter pursuant to section 3(b) and the Securities Act of 1933, as amended, and Rule 261 thereunder and said hearing being now scheduled to commence on December 5, 1960 at 10:00 a.m., P.s.t., at the Clark County Courthouse, Vancouver, Washington; and

Counsel for the Division of Corporation Finance having requested that the place of hearing be changed and counsel for the issuer not objecting thereto;

It is ordered, That the hearing scheduled to commence on December 5, 1960 be held at 10:00 a.m., P.s.t., in the United States Attorney's Office, United States Post Office and Federal Building, Portland, Oregon, and to continue thereafter at such time and place as the hearing officer may determine.

By the Commission.

[File No. 70-3917]

COLUMBIA GAS SYSTEM, INC.

Notice of Proposed Execution of Surety Bond by Holding Company for Public-Utility Subsidiary

NOVEMBER 23, 1960.

Notice is hereby given that The Columbia Gas System, Inc. ("Columbia"), a registered holding company, has filed a declaration, pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 12(b) of the

Act and Rule 45 promulgated thereunder as applicable to the proposed transaction, which is summarized as follows:

United Fuel Gas Company ("United"), a wholly-owned gas utility subsidiary company of Columbia, has filed with the Public Service Commission of West Virginia ("West Virginia Commission"), an application for increased gas rates estimated to produce increased annual revenues of approximately $4,682,000. Under applicable West Virginia law, United is collecting the higher rates provided for in the rate filing subject to the obligation to refund with interest, any portion of the higher rates which may ultimately be determined to be excessive. This refund obligation is now guaranteed by two bonds in the amounts of $1,600,000 and $100,000 executed by United with Columbia acting as surety. On November 2, 1960, the West Virginia Commission issued an order requiring the posting of an additional bond of $1,000,000 as security for the obligation to refund and it has indicated its willingness to accept Columbia as surety. Columbia, therefore, proposes to act as surety on said bond without fee or other charges to United in order to relieve United of paying the customary fee of an insurance company. In the event any portion of the increased rates should ultimately be determined to be excessive, United, as required, will make refunds in the ordinary course of business out of its general corporate funds.

It is estimated that the fees and expenses to be incurred in connection with the proposed transaction will be limited to $100 for services of the Columbia Gas System Service Corporation rendered primarily in connection with the present filing.

The declaration states that, other than for the acceptance of the proposed surety bond by the West Virginia Commission, no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than December 5, 1960, at 12:30 p.m., request this Commission in writing that a hearing be held in respect of such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. At any time after said date the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the rules and regulations promulgated under the Act, or the Commission may grant exemption from its rules as provided in Rules 20(a) and 100 thereof, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

Order Changing Place of Hearing

NOVEMBER 25, 1960.

The Commission, by order dated November 7, 1960, having ordered a hearing in the above entitled matter pursuant to section 3(b) and the Securities Act of 1933, as amended, and Rule 261 thereunder and said hearing being now scheduled to commence on November 29, 1960 at 10:00 a.m., P.s.t., at the Federal Building, Spokane, Washington; and

Counsel for the Division of Corporation Finance having requested that the place of hearing be changed and counsel for the issuer not objecting thereto;

It is ordered, That the hearing scheduled to commence on November 29, 1960 be held at 10:00 a.m., P.s.t., in the United States Attorney's Office, United States Post Office and Courthouse, Spokane, Wash., and to continue thereafter at such time and place as the hearing officer may determine.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

DEPARTMENT OF COMMERCE

Maritime Administration

[Docket No. S-119]

MOORE-McCORMACK LINES, INC.

Notice of Application and of Hearing

Notice is hereby given of the application of Moore-McCormack Lines, Inc., for written permission of the Maritime Administrator, under section 805(a) of the Merchant Marine Act, 1936, as amended, 46 U.S.C. 1223, for its owned vessel, the "Mormacguide", which is under time charter to States Marine Lines to engage in one intercoastal voyage commencing at United States North Pacific ports on or about December 9, 1960, to load a cargo of lumber and/or lumber products for discharge at United States Atlantic ports. This application may be inspected by interested parties in the Office of Hearing Examiners, Maritime Administration, Washington, D.C.

A hearing on the application has been set before the Maritime Administrator for December 8, 1960, at 9:30 a.m., e.s.t., in Room 4519, General Accounting Office Building, 441 G Street NW., Washington 25, D.C. Any person, firm, or corporation having any interest (within the meaning of section 805(a)) in such application and desiring to be heard on issues pertinent to section 805(a) must, before the close of business on December 7, 1960, notify the Secretary, Maritime Administration in writing, in triplicate, and file petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief. Notwithstanding anything in Rule 5(n) of the rules of practice and procedure, Maritime Administration, petitions for leave to intervene received after the close of business on December 7, 1960, will not be granted in this proceeding.

Dated: November 29, 1960.

THOMAS LISI, *Secretary.*

GENERAL SERVICES ADMINISTRATION

[Delegation of Authority 391]

SECRETARY OF THE INTERIOR

Disposal of Certain Government Owned Real Property Comprising a Portion of Wheelock Academy

1. Pursuant to authority vested in me by the provisions of the Federal Property and Administrative Services Act of 1949 (63 Stat. 377), as amended (hereinafter referred to as "the Act"), authority is hereby delegated to the Secretary of the Interior to dispose of 30 acres of vacant land consisting of the East ½ of the Northeast ¼ of the Northeast ¼; the Northeast ¼ of the Southeast ¼ of the Northeast ¼ of Section 34, Township 6 South, Range 22 East, comprising a portion of the former Wheelock Academy, Millerton, Oklahoma, by sale upon such terms as may be deemed advantageous to the United States. Provided, that in the case of a negotiated disposal not less than the appraised value shall be obtained.

2. The authority conferred herein shall be exercised in accordance with the Act and regulations of the General Services Administration issued pursuant thereto, including the screening required by GSA Reg. 2-V-405.02, .03 and .04; except, however, that no screening of the property as required by GSA Reg. 2-IV-202.05 need be conducted since the property has been screened among Federal agencies and a determination made that no Federal need exists therefor.

3. In the event of a negotiated sale, the Secretary of the Interior shall submit to the appropriate Committees of Congress an explanatory statement of the type required by section 203(e) of the Act. A copy of each such statement shall be furnished to the General Services Administration.

4. The authority delegated herein may be redelegated to any officer or employee of the Department of the Interior.

5. This delegation of authority shall be effective as of the date hereof.

Dated: November 25, 1960.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24S-1664]

BEN HUR GOLD, INC.

Notice and Order for Hearing

NOVEMBER 25, 1960.

I. Ben Hur Gold, Inc. (issuer), an Idaho corporation, P.O. Box 2853, Boise, Idaho, filed with the Commission on March 12, 1959, a notification on Form 1-A and an offering circular relating to an offering of 200,000 shares of its 10¢ par value stock at 10¢ per share for an aggregate offering of $20,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) and Regulation A promulgated thereunder.

II. The Commission on April 16, 1959 issued an order pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, temporarily suspending the exemption under Regulation A and affording to any person having an interest therein an opportunity to request a hearing pursuant to Rule 261. A written request for hearing was received by the Commission.

The Commission deeming it necessary and appropriate to determine whether to vacate the temporary suspension order or to enter an order permanently suspending the exemption,

It is hereby ordered: That a hearing under the applicable provisions under the Securities Act of 1933, as amended, and the rules of the Commission be heard at the United States Attorney's Office, Federal Building, Boise, Idaho at 10:00 a.m., on December 1, 1960 with respect to the following matters and questions, without prejudice, however, to the specification of additional issues which may be presented in these proceedings:

A. Whether an exemption under Regulation A is not available pursuant to Rule 252(d)(2) in that the president of the issuer has been enjoined by courts of competent jurisdiction.

B. Whether the terms and conditions of Regulation A have not been complied with, in that:

1. The notification on Form 1-A fails to disclose the names and addresses of the issuer's predecessors, as required by Item 2(a);

2. The notification on Form 1-A fails to set forth fully the information required by Items 5 and 9 as to the issuer's predecessors;

3. The issuer has failed to file copies of the governing instruments defining the rights of the 10¢ par value stock proposed to be offered, as required by Item 11(a) of Form 1-A.

C. Whether the offering circular contains untrue statements of material facts and omits to state material facts necessary in order to make the statements made, in the light of the circumstances under which they are made, not misleading, particularly with respect to:

1. The statements on page 5 concerning Earl Cedric Heffner, a director, a promoter, and the president of the issuer, and the failure to disclose fully and adequately his background and experience;

2. The statements on page 5 concerning William Alexander Hutton, a director of the issuer and its mining engineer, and the failure to disclose fully and adequately his background and experience;

3. The failure to disclose the insolvent condition of Good Hope Investors, Inc., an affiliate and predecessor of the issuer;

4. The failure to disclose the condition and value of the issuer's mining machinery;

5. The failure to disclose the material terms of the issuer's mining equipment contracts and liens, if any, on such equipment;

6. The failure to disclose adequately the contract terms for, the nature of the title to, and the royalties payable on The Windfall Property, The Millsite and Parker Placer, The Ben Hur Quartz Property, The Buffalo Quartz Property, and The Coy-Dowing Humdinger #1 Quartz Claim;

7. The failure to disclose adequately the results of work upon the issuer's mining properties;

8. The statement on page 8 that "This property contains from 1,000 to 1,500 feet of Creek Bed Placer that we believe to be workable";

9. The statement on page 11 that "Values are in Lode Gold with quite a lot of Silver in places; our preliminary assays indicate a fairly good grade of rock and widths are also quite good; what lies underneath and beyond is a something we would all like to know";

10. The adequacy of the information given in the first paragraph on page 13, concerning assay results;

11. The failure to disclose adequately (a) Information about the type, condition, and capacity of the issuer's mill, and (b) the justification for the proposed expenditures on the issuer's mill in light of the amount of known ore;

12. The failure to set forth adequate financial statements properly reflecting the issuer's financial condition;

13. The failure to set forth appropriate financial statements for the issuer's predecessor;

14. The failure to disclose that there is no established market for the issuer's stock and that the offering price of the stock is an arbitrary figure.

D. Whether the offering would be made in violation of section 17 of the Securities Act of 1933, as amended, in that in addition to the foregoing, among other things, statements are made implying the existence of commercial quantities of ore and successful mining operations.

III. *It is further ordered,* That Sidney Gross or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing; that any officer or officers so designated to preside at any such hearing are hereby authorized to exercise all the power granted to the Commission under section 19(b), 21 and 22(c) of the Securities Act of 1933, as amended, and to hearing officers under the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve a copy of this order by registered mail to Ben Hur Gold, Inc.; that notice of the entering of this order shall be given to all persons by general release of the Commission and by publication in the FEDERAL REGISTER. Any person who desires to be heard or otherwise wishes to participate in the hearing shall file with the Commission on or before November 29, 1960, a request relative thereto as provided in Rule IX of the Commission's rules of practice.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[F.R. Doc. 60-11147; Filed, Nov. 30, 1960; 8:46 a.m.]

[File No. 24W-2344]

SABER BOATS, INC.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

NOVEMBER 25, 1960.

I. Saber Boats, Inc. (formerly Light House, Inc.), incorporated under the laws of the State of Maryland and formerly located at Accokeek, Maryland, filed with the Commission on January 27, 1960, a notification and offering circular relating to an offering of 106,875 shares of its 10 cent par value Class B non-voting stock, at $2 per share and 2,500 shares of its 10 cent par value Class A voting common stock at $2 per share, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to section 3(b) thereof and Regulation A promulgated thereunder. Batten and Company, with offices at 1835 K Street NW., Washington, D.C., was named as underwriter for this offering.

II. The Commission has reasonable cause to believe that:

A. The offering circular and other material used in connection with the offering contained untrue statements of material facts and omitted to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly with respect to:

1. The statement in the offering circular that the public offering price was $2 per share when in fact the stock was offered to some members of the public at $2 per share and to other members of the public at varying higher prices;

2. The statement in the offering circular that the issuer was owner of the "property and plant facilities" therein described, when in fact legal title thereto was incomplete and was not completed until July 18, 1960;

3. The financial statements were not prepared in accordance with generally accepted accounting principles and practices in that the issuer represents ownership in the balance sheet of the land and building, when in fact the issuer did not have legal ownership of the assets represented therein.

B. The terms and conditions of Regulation A have not been complied with in that:

1. Sales were made to the public without the use of an offering circular as required by Rule 256; and

2. The issuer and the selling stockholder failed to file a complete and accurate report of sales on Form 2-A as required by Rule 260, in that the report, filed May 12, 1960, incorrectly states that the offering was completed May 2, 1960, at $2 per share by the broker-dealer firm named therein, and fails to disclose the actual commissions paid and received.

C. The offering has been made in violation of section 17(a) of the Securities Act of 1933, as amended.

III. *It is ordered,* Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing within 30 days after the entry of this order; that within twenty days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission, for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; that if no hearing is requested and none is ordered by the Commission, this order shall become permanent on the thirtieth day after its entry and shall remain in effect unless or until it is modified or vacated by the Commission; and that notice of the time and place for any hearing will promptly be given by the Commission.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[F.R. Doc. 60-11151; Filed, Nov. 30, 1960; 8:47 a.m.]

[File No. 70-3913]

MISSISSIPPI POWER & LIGHT CO.

Notice of Proposed Issuance and Sale Of Short-Term Notes to Banks

NOVEMBER 23, 1960.

Notice is hereby given that Mississippi Power & Light Company ("Mississippi"), a public-utility subsidiary of Middle South Utilities, Inc., a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a) and 7 of the Act as applicable to the proposed transactions. All interested persons are referred to said declaration for a statement of the proposed transactions which are summarized below.

By order dated January 12, 1959 (Holding Company Act Release No. 13910), the Commission authorized Mississippi, pursuant to a Credit Agreement with nine banks, to issue and sell, from time to time, during the period from January 15, 1959, to January 15, 1961, its promissory notes not to exceed at any one time outstanding an aggregate face amount of $5,000,000. Under said Credit Agreement, Mississippi may, at its option, extend the term of the agreement and the due date of its loans to January 15, 1962. In the present filing, Mississippi is seeking Commission approval to issue notes pursuant to such an extension.

Under the Credit Agreement, the company's notes bear interest at the rate of 4 percent per annum and are prepayable, in whole or in part, without premium, unless paid from the proceeds of other bank borrowings at a lower interest rate. The Credit Agreement also provides for the payment of a commitment fee computed at the rate of one quarter of one percent per annum on the daily average unused amount of commitments during the term of the Credit Agreement after June 15, 1959, subject, however, to the right of the company, upon 10 days notice, to terminate or reduce such obligation without penalty. As of August 7, 1960, in accordance with the terms of the Credit Agreement, Mississippi reduced the credit commitment of the nine banks to a total of $3,000,000, allocated as follows:

	Amount of commitment
The Hanover Bank	$1,500,000
Deposit Guaranty Bank & Trust Company	690,000
First National Bank of Jackson	450,000
Grenada Bank	120,000
The First National Bank & Trust Company of Vicksburg	66,000
Greenville Bank & Trust Company	60,000
The Merchants National Bank and Trust Company of Vicksburg	54,000
The Commercial National Bank of Greenville	36,000
The First National Bank of Greenville	24,000
	$3,000,000

The declaration shows that no such notes are currently outstanding, the last $1,000,000 having been repaid on November 3, 1960. Declarant states that to meet temporary cash needs during 1961, it is expected that $2,000,000 of loans will be required in January 1961 and that an additional $1,000,000 will be borrowed in March 1961. The company presently anticipates that the entire amount will be repaid prior to December 1961.

The only expenses to be incurred in connection with the proposed transactions are miscellaneous expenses which are estimated at $50.00. The declaration states that no State or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than December 12, 1960, at 5:30 p.m., request in writing that a hearing be held on such matters, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate.

By the Commission.

EDSCO MANUFACTURING CO., INC.

Order Changing Place of Hearing

NOVEMBER 25, 1960.

The Commission, by order dated November 7, 1960, having ordered a hearing in the above entitled matter pursuant to section 3(b) and the Securities Act of 1933, as amended, and Rule 261 thereunder and said hearing being now scheduled to commence on December 5, 1960 at 10:00 a.m., P.s.t., at the Clark County Courthouse, Vancouver, Washington; and

Counsel for the Division of Corporation Finance having requested that the place of hearing be changed and counsel for the issuer not objecting thereto;

It is ordered, That the hearing scheduled to commence on December 5, 1960 be held at 10:00 a.m., P.s.t., in the United States Attorney's Office, United States Post Office and Federal Building, Portland, Oregon, and to continue thereafter at such time and place as the hearing officer may determine.

By the Commission.

[File No. 70-3917]

COLUMBIA GAS SYSTEM, INC.

Notice of Proposed Execution of Surety Bond by Holding Company for Public-Utility Subsidiary

NOVEMBER 23, 1960.

Notice is hereby given that The Columbia Gas System, Inc. ("Columbia"), a registered holding company, has filed a declaration, pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 12(b) of the

Act and Rule 45 promulgated thereunder as applicable to the proposed transaction, which is summarized as follows:

United Fuel Gas Company ("United"), a wholly-owned gas utility subsidiary company of Columbia, has filed with the Public Service Commission of West Virginia ("West Virginia Commission"), an application for increased gas rates estimated to produce increased annual revenues of approximately $4,682,000. Under applicable West Virginia law, United is collecting the higher rates provided for in the rate filing subject to the obligation to refund with interest, any portion of the higher rates which may ultimately be determined to be excessive. This refund obligation is now guaranteed by two bonds in the amounts of $1,600,000 and $100,000 executed by United with Columbia acting as surety. On November 2, 1960, the West Virginia Commission issued an order requiring the posting of an additional bond of $1,000,000 as security for the obligation to refund and it has indicated its willingness to accept Columbia as surety. Columbia, therefore, proposes to act as surety on said bond without fee or other charges to United in order to relieve United of paying the customary fee of an insurance company. In the event any portion of the increased rates should ultimately be determined to be excessive, United, as required, will make refunds in the ordinary course of business out of its general corporate funds.

It is estimated that the fees and expenses to be incurred in connection with the proposed transaction will be limited to $100 for services of the Columbia Gas System Service Corporation rendered primarily in connection with the present filing.

The declaration states that, other than for the acceptance of the proposed surety bond by the West Virginia Commission, no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than December 5, 1960, at 12:30 p.m., request this Commission in writing that a hearing be held in respect of such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. At any time after said date the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the rules and regulations promulgated under the Act, or the Commission may grant exemption from its rules as provided in Rules 20(a) and 100 thereof, or take such other action as it may deem appropriate.

By the Commission.

FEDERAL REGISTER

Telephone WOrth 3-3261

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D.C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 7375 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Baxter Woolen Co., Inc., and Charles B. Baxter

Subpart—Misbranding or mislabeling: § 13.1185 *Composition:* § 13.1185–90 *Wool Products Labeling Act.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.852 *Formal regulatory and statutory requirements:* § 13.1852–80 *Wool Products Labeling Act.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2–5, 54 Stat. 1128–1130; 15 U.S.C. 45, 68) [Cease and desist order, Baxter Woolen Company, Inc., et al., East Rochester, N.H., Docket 7375, September 29, 1960]

Consent order requiring a manufacturer in East Rochester, N.H., to cease violating the Wool Products Labeling Act by labeling as "85 percent wool—15 percent nylon", "70 percent wool—20 percent nylon—10 percent rayon decoration", etc., woolen fabrics which contained substantially less woolen fibers than thus set forth, and by failing to label other wool products as required.

The order to cease and desist is as follows:

It is ordered, That Respondents, Baxter Woolen Company, Inc., a corporation, and its officers, and Charles E. Baxter (erroneously in the complaint as Charles B. Baxter), individually and as an officer of said corporation, and Respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation, or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939, of fabrics or other "wool products" as such products are defined in and subject to the Wool Products Labeling Act of 1939, do forthwith cease and desist from misbranding such products by:

1. Falsely or deceptively stamping, tagging, labeling or otherwise identifying such products as to the character or amount of the constituent fibers included therein;

2. Failing to affix labels to such products showing each element of information required to be disclosed by section 4(a)(2) of the Wool Products Labeling Act of 1939.

It is further ordered, That Respondents, Baxter Woolen Company, Inc., a corporation, and its officers, and Charles E. Baxter, individually and as an officer of said corporation, and Respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of fabrics or any other products in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from misrepresenting the constituent fibers of which their products are composed, or the percentages or amounts thereof, on invoices, shipping memoranda or in any other manner.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That Respondents Baxter Woolen Company, Inc., a corporation and Charles E. Baxter, individually and as an officer of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: September 29, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[F.R. Doc. 60–11193; Filed, Dec. 1, 1960; 8:46 a.m.]

[Docket 8024 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Dean Studios et al.

Subpart—Advertising falsely or misleadingly: § 13.157 *Prize contests.* Subpart—Using contest schemes unfairly: § 13.2270 *Using contest schemes unfairly:* § 13.2270–50 *Puzzle prize contests.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Clark H. Geppert et al. trading as Dean Studios, Des Moines, Iowa, Docket 8024, September 29, 1960]

In the Matter of Clark H. Geppert, Byron Geppert and Fidelis Geppert, Individually and as Partners Trading as Dean Studios

Consent order requiring a partnership in Des Moines, Iowa, engaged in developing film and enlarging, tinting, and framing photographs, to cease using deceptive promotional schemes to sell its photographic services and products, specifically, purported puzzle contests—so easy to solve that anyone could "qualify" and "win" but then was required to sell respondents' products to 20 others before receiving the "real, live Miniature" dog or monkey offered as prize—which were thus used as "bait" to get names of persons who might sell respondents' services and products.

The order to cease and desist is as follows:

It is ordered, That respondents Clark H. Geppert, Byron Geppert and Fidelis Geppert, individually and as partners trading as Dean Studios, or trading under any other name or names, and their agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of photographic services, including the developing of film, and the sale of enlargements, frames for photographs, or other products, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, that respondents are conducting a puzzle contest in which prizes will be awarded for correctly solving the puzzle, unless such is the fact.

2. Failing to clearly and conspicuously disclose that participants in "puzzle contests" will not receive prizes until their efforts have resulted in the sale to others of respondents' products.

3. Misrepresenting in any manner, directly or by implication, the nature of any contest or the prizes which will be awarded in connection therewith.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: September 29, 1960.

By the Commission.

[Docket 7912 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Discount Motor Sales, Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.15 *Business status, advantages, or connections:* § 13.15–80 *Government connection;* § 13.70 *Fictitious or misleading guarantees;* § 13.85 *Government approval, action, connection or standards;* § 13.260 *Terms and conditions.* Subpart—Using misleading name—VENDOR: § 13.2380 *Government connection.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Discount Motor Sales, Inc., et al., Washington, D.C., Docket 7912, September 29, 1960]

In the Matter of Discount Motor Sales, Inc., a Corporation, and John E. Kymingham, Leon N. Pappas and Pearl S. Kymingham, Individually and as Officers of Said Corporation

Consent order requiring Washington, D.C., used car dealers to cease misrepresenting down payments, financing rates, and guarantees on their used cars, as in the order below specified, and representing falsely, by use of the name "Military Discount Motor Sales, Inc." in advertising in publications circulating among Armed Forces personnel, or otherwise, that their business had some connection with the military forces.

Said order to cease and desist is as follows:

It is ordered, That respondents Discount Motor Sales, Inc., a corporation, and its officers, and John E. Kymingham and Leon N. Pappas, individually and as officers of said corporation, and Pearl S. Kymingham, as an officer of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of automobiles in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing, directly or by implication:

1. That used cars can be purchased with a minimum down payment of one dollar or any other amount not in accord with the facts;

2. That they offer or make available 4 percent bank rate financing, or misrepresenting the financing rates under which their used cars are sold;

3. That no small loans are necessary to make a purchase of a used car; or only one monthly payment in one place is required on their credit accounts unless such is the fact;

4. That no down payment for the purchase of a used car is required of officers and enlisted men of the first three grades of the Armed Forces; and that no down payment is required of any other person, unless such is the fact;

5. That used cars are sold with a new car warranty;

6. That their used cars are guaranteed 100 percent; or are guaranteed to any other extent, that is not in accord with the facts, or have a 90 days no cost parts or labor warranty, unless such is the fact, or have a warranty for any other period of time or for any other coverage, that is not in accord with the facts;

7. That they are connected with or endorsed by the military services.

It is further ordered, That the complaint be, and it hereby is, dismissed as to respondent Pearl S. Kymingham, individually.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents Discount Motor Sales, Inc., a corporation; John E. Kymingham and Leon N. Pappas, individually and as officers of said corporation; and Pearl S. Kymingham, as an officer of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: September 29, 1960.

By the Commission.

[Docket 7656 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Eversharp Lawn Mower Corp. et al.

Subpart—Advertising falsely or misleadingly: § 13.155 *Prices:* § 13.155–40 *Exaggerated as regular and customary.* Subpart—Furnishing means and instrumentalities of misrepresentation or deception: § 13.1055 *Furnishing means and instrumentalities of misrepresentation or deception.* Subpart — Misrepresenting oneself and goods—PRICES: § 13.1805 *Exaggerated as regular and customary.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Eversharp Lawn Mower Corporation et al., St. Louis, Mo., Docket 7656, September 30, 1960]

In the Matter of Eversharp Lawn Mower Corporation, a Corporation, and Oscar S. Rudman and Michael L. Rudman, Individually and as Officers of the Said Corporation

Consent order requiring a St. Louis distributor to cease giving retailers the means to deceive the public as to the usual price of its lawn mowers through furnishing them with price lists containing purported retail prices that were fictitiously high and through participating with them in advertising in newspapers which used the fictitious list prices.

The order to cease and desist is as follows:

It is ordered, That respondents, Eversharp Lawn Mower Corporation, a corporation, and its officers, and Oscar S. Rudman, individually and as an officer of said corporation, and Michael L. Rudman, as an officer of the said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution of lawn mowers or any other product in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, by furnishing price lists to their customers setting out suggested retail prices of their lawn mowers or any other product, or otherwise, that certain amounts are the usual and regular retail prices of their products, when such amounts are in excess of the prices at which such products are usually and regularly sold at retail in the trade area or areas where the representations are made;

2. Putting any plan into operation through the use of which retailers or others may misrepresent the usual and regular retail prices of such products.

It is further ordered, That the complaint, insofar as it relates to the respondent, Michael L. Rudman, in his individual capacity be, and the same hereby is, dismissed.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents Eversharp Lawn Mower Corporation, and Oscar S. Rudman, individually and as officer of said corporation, and Michael L. Rudman, as an officer of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: September 30, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[F.R. Doc. 60-11196; Filed, Dec. 1, 1960; 8:46 a.m.]

[Docket 7965 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

L. L. Berger, Inc.

Subpart—Advertising falsely or misleadingly: § 13.30 *Composition of goods:* § 13.30–30 *Fur Products Labeling Act;* § 13.155 *Prices:* §13.155–15 *Comparative;* §13.155–40 *Exaggerated as regular and customary;* §13.155–70 *Percentage savings.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements:* § 13.1852–35 *Fur Products Labeling Act.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U.S.C. 45, 69f) [Cease and desist order, L. L. Berger, Inc., Buffalo, N.Y., Docket 7965, September 29, 1960]

Consent order requiring a Buffalo, N.Y., furrier to cease violating the Fur Products Labeling Act by false advertising in newspapers which represented prices of fur products as reduced from fictitious "regular" prices; which represented, by use of such statements as "½ off original prices", that usual retail prices were reduced by such percentage; which represented prices as reduced without giving the time of compared higher prices; and which contained names of animals other than those producing certain furs; and by failing to maintain adequate records as a basis for price and value claims.

The order to cease and desist is as follows:

It is ordered, That L. L. Berger, Inc., a corporation, and its officers, and respondent's representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce of fur products, or in connection with the sale, advertising, offering for sale, transportation, or distribution of fur products which are made in whole or in part of fur which has been shipped and received in commerce, as "commerce", "fur" and "fur products" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

1. Falsely or deceptively advertising fur products through the use of any advertisement, public announcement or notice, which is intended to aid, promote, or assist, directly or indirectly, in the sale or offering for sale of fur products and which:

A. Represents directly or by implication that the regular or usual price of any fur product is any amount which is in excess of the price at which respondent has usually and customarily sold such products in the recent regular course of business.

B. Represents directly or by implication through percentage savings claims that the regular or usual retail prices charged by respondent for fur products in the recent regular course of business were reduced in direct proportion to the amount of savings stated, when contrary to the fact.

C. Bases comparative prices on former or original prices that are not the prevailing prices at the time of the advertisement without stating the times or dates of the compared prices.

D. Misrepresents in any manner the savings available to purchasers of respondent's fur products.

E. Sets forth the name or names of any animal or animals other than the name or names provided in section 5(a)(1) of the Fur Products Labeling Act.

2. Making price claims and representations respecting prices and values of fur products unless there is maintained by respondent full and adequate records disclosing the facts upon which such claims and representations are based.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondent herein shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: September 29, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

Title 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER A—INCOME AND EXCESS-PROFITS TAXES

[T.D. 6510]

[Reg. 111]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

[Reg. 118]

PART 39—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1951

Definitions of Certain Minerals

On February 10, 1959, notice of proposed rule making regarding amendments to Regulations 118 (26 CFR (1939) Part 39) and Regulations 111 (26 CFR (1939) Part 29) with respect to definitions of certain minerals was published in the FEDERAL REGISTER (24 F.R. 975). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the following amendments are hereby adopted:

PARAGRAPH 1. Paragraph (b) of § 39.23 (m)–5 is amended:

(A) By striking that part of the first sentence which precedes the colon and inserting in lieu thereof the following:

(b) For the purpose of identifying the minerals listed in paragraph (a), such minerals shall be given their commonly understood commercial meanings. If a mineral of a taxpayer is within both a specific and a general mineral classification listed in paragraph (a), such mineral shall be considered to fall within the more specific classification. If the name of a mineral listed in paragraph (a) has no commonly understood commercial meaning but the name implies a particular use or uses, such mineral is to be defined in terms of such use or uses. Certain of the minerals listed in paragraph (a) are defined below in accordance with the foregoing criteria set forth in this paragraph:

(B) By striking the term "Calcium carbonates" and the definition of such term and inserting in lieu thereof the following:

Calcium carbonates. Miscellaneous limestones and other calcium carbonate rocks (not specifically provided for at a 5 percent or 15 percent rate of percentage allowance) which are used or sold for use for purposes for which the calcium carbonate content is a major requirement. For example, the term "calcium carbonates" includes limestone which is not of chemical or metallurgical grade and which is used or sold for use for cement manufacture or soil treatment. However, the term "calcium carbonates" does not include any carbonate mineral which is identifiable as dolomite, marble, stone, oyster shells, or clam shells within the commonly understood commercial meaning of those terms.

(C) By inserting immediately after the term "Clay, brick and tile" and the definition of such term the following:

Clay, refractory and fire. Clay which has a pyrometric cone equivalent of 19 or higher.

(D) By striking the terms "Limestone, chemical grade" and "Limestone, metallurgical grade" and the definitions of such terms and inserting in lieu thereof the following:

Dolomite. Any carbonate rock which contains substantial amounts of the mineral dolomite and which is considered to be dolomite within the commonly understood commercial meaning of the term.

Limestone, chemical and metallurgical grade. Limestone which contains a calcium carbonate and magnesium carbonate content totaling 95 percent or higher by weight. For this purpose, the term "limestone" does not include any carbonate mineral which is identifiable as a mineral falling within a more specific classification such as dolomite, marble, oyster shells, or clam shells.

(E) By inserting immediately after the term "Pumice" and the definition of such term the following:

Quartzite. Metamorphosed or silica-cemented sandstone which is so firmly cemented that it has the characteristic of breaking across rather than around the original sand grains. The term "quartzite" is not applicable to any mineral which constitutes sand or gravel within the commonly understood commercial meaning of those terms.

(F) By striking the term "Stone" and the definition of such term and inserting in lieu thereof the following:

Stone. Common dimension, crushed or broken stone within the ordinary meaning of these terms. However, the term "stone" does not include any mineral which is identifiable as a mineral falling within a more specific classification such as dolomite, quartzite, or chemical or metallurgical grade limestone.

PAR. 2. The second undesignated paragraph of § 29.23(m)–5 as amended by Treasury Decision 6031, approved July 14, 1953, is further amended:

(A) By striking that part of the first sentence which precedes the colon and inserting in lieu thereof the following: "For the purpose of identifying the minerals listed in the preceding paragraph, such minerals shall be given their commonly understood commercial meanings. If a mineral of a taxpayer is within both a specific and a general mineral classification listed in the preceding paragraph, such mineral shall be considered to fall within the more specific classification. If the name of a mineral listed in the preceding paragraph has no commonly understood commercial meaning but the name implies a particular use or uses, such mineral is to be defined in terms of such use or uses. Certain of the minerals listed in the preceding paragraph are defined below in accordance with the foregoing criteria set forth in this paragraph:"

(B) By striking the term "Calcium carbonates" and the definition of such term and inserting in lieu thereof the following:

Calcium carbonates. Miscellaneous limestones and other calcium carbonate rocks (not specifically provided for at a 5 percent or 15 percent rate of percentage allowance) which are used or sold for use for purposes for which the calcium carbonate content is a major requirement. For example, the term "calcium carbonates" includes lime-

stone which is not of chemical or metallurgical grade and which is used or sold for use for cement manufacture or soil treatment. However, the term "calcium carbonates" does not include any carbonate mineral which is identifiable as dolomite, marble, stone, oyster shells, or clam shells within the commonly understood commercial meaning of those terms.

(C) By inserting immediately after the term "Clay, brick and tile" and the definition of such term the following:

Clay, refractory and fire. Clay which has a pyrometric cone equivalent of 19 or higher.

(D) By striking the terms "Limestone, chemical grade" and "Limestone, metallurgical grade" and the definitions of such terms and inserting in lieu thereof the following:

Dolomite. Any carbonate rock which contains substantial amounts of the mineral dolomite and which is considered to be dolomite within the commonly understood commercial meaning of the term.

Limestone, chemical and metallurgical grade. Limestone which contains a calcium carbonate and magnesium carbonate content totaling 95 percent or higher by weight. For this purpose, the term "limestone" does not include any carbonate mineral which is identifiable as a mineral falling within a more specific classification such as dolomite, marble, oyster shells, or clam shells.

(E) By inserting immediately after the term "Pumice" and the definition of such term the following:

Quartzite. Metamorphosed or silica-cemented sandstone which is so firmly cemented that it has the characteristic of breaking across rather than around the original sand grains. The term "quartzite" is not applicable to any mineral which constitutes sand or gravel within the commonly understood commercial meaning of those terms.

(F) By striking the term "Stone" and the definition of such term and inserting in lieu thereof the following:

Stone. Common dimension, crushed or broken stone within the ordinary meaning of these terms. However, the term "stone" does not include any mineral which is identifiable as a mineral falling within a more specific classification such as dolomite, quartzite, or chemical or metallurgical grade limestone.

[T.D. 6509, Regs. 130]

PART 40—EXCESS PROFITS TAX; TAXABLE YEARS ENDING AFTER JUNE 30, 1950

Excess Profits Credit of Regulated Public Utilities Entitled to Benefits

On September 24, 1960, a notice of proposed rule making conforming § 40.448–2 of Regulations 130 (26 CFR (1939) Part 40) to the decision in Louisville Gas and Electric Company v. United States (1960) Ct. Cl. No. 65–59, was published in the FEDERAL REGISTER (25 F.R. 9180). No objection to the rules proposed having been received during the 30-day period prescribed in the notice, the regulations as so published are hereby adopted.

(53 Stat. 467; 26 U.S.C. (1952 ed.) 3791)

[SEAL] DANA LATHAM,
Commissioner of Internal Revenue.

Approved: November 29, 1960.

DAVID A. LINDSAY,
Acting Secretary of the Treasury.

In order to conform Regulations 130 (26 CFR (1939) Part 40) to the principle involved in the decision in Louisville Gas and Electric Company v. United States (1960) Ct. Cl. No. 65–59, and to make certain clarifying changes, paragraph (e)(2) of § 40.448–2 of such regulations, as amended by Treasury Decision 5983, approved February 10, 1953, is further amended to read as follows:

§ 40.448–2 Definitions.

* * * * * * *

(e) *Adjusted invested capital.* * * *

(2) In the case of a corporation described in paragraph (a)(1)(i) or (ii), (2), or (4) of this section, if the corporate books of account are maintained in accordance with systems of accounts prescribed by an appropriate regulatory body (or, if not so prescribed, are maintained in accordance with the uniform systems of accounts prescribed by the Federal Power Commission or the National Association of Railway and Utility Commissioners), the adjusted invested capital for such taxable year shall be the sum of the average outstanding common and preferred capital stock accounts for the taxable year and the average capital surplus and earned surplus accounts for such taxable year, as properly recorded on the corporate books of account. The following rules shall apply for the purpose of this paragraph:

(i) The determination of the capital surplus and earned surplus accounts shall be based upon the amounts properly recorded on the corporate books of account and made in accordance with the system of accounts so maintained.

(ii) The term "an appropriate regulatory body" as used in this section means a regulatory body described in section 448(c)(1) and in paragraph (a)(1) of this section, under whose jurisdiction the corporation operates.

(iii) The average of any account (such as the common stock account or the capital surplus account) shall be the sum, divided by the number of days in the taxable year, of the amount of such account as of the beginning of each day of the taxable year.

(iv) If the adjusted invested capital for any taxable year is computed by the method prescribed by this paragraph, the taxpayer must attach a statement to its return for such taxable year setting forth all the facts which require the use of such method.

Title 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER A—INCOME TAX

[T.D. 6507]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

PART 18—CERTAIN INCOME TAX MATTERS UNDER THE TECHNICAL AMENDMENTS ACT OF 1958

Additional First-Year Depreciation Allowance

On September 3, 1960, a notice of proposed rule making regarding the regulations under section 179 of the Internal Revenue Code of 1954, relating to additional first-year depreciation allowance, effective for taxable years ending after June 30, 1958, and certain amendments to the Income Tax Regulations (26 CFR Part 1) to conform to the rules relating to additional first-year depreciation allowance was published in the FEDERAL REGISTER (25 F.R. 8554). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the regulations as so published, are hereby adopted, subject to the changes set forth below. Such regulations supersede § 18.1–3 of Treasury Decision 6335 (26 CFR Part 18), approved November 13, 1958 (23 F.R. 8981).

PARAGRAPH 1. Paragraph (a) of § 1.179–1 is revised.

PAR. 2. Paragraph (d)(1) of § 1.179–2 is revised.

PAR. 3. Paragraphs (a) and (c)(2) of § 1.179–3 are revised.

PAR. 4. Paragraphs (a) and (d)(2) of § 1.179–4 are revised.

(68A Stat. 917; 26 U.S.C. 7805)

[SEAL] DANA LATHAM,
Commissioner of Internal Revenue.

Approved: November 29, 1960.

DAVID A. LINDSAY,
Acting Secretary of the Treasury.

The regulations under section 179 of the Internal Revenue Code of 1954, relating to additional first-year depreciation allowance, set forth in paragraph 1 are hereby prescribed, effective for taxable years ending after June 30, 1958.

The Income Tax Regulations (26 CFR Part 1) are amended as set forth in paragraph 2 to conform to the rules relating to additional first-year depreciation allowance prescribed under section 179.

PARAGRAPH 1. The following regulations are hereby prescribed under section 179 of the Internal Revenue Code of 1954:

Sec.
1.179 Statutory provisions; additional first-year depreciation allowance.
1.179–1 Additional first-year depreciation allowance.

Sec.
1.179–2 Dollar limitation.
1.179–3 Definitions and special rules.
1.179–4 Time and manner of making election.

§ 1.179 Statutory provisions; additional first-year depreciation allowance.

SEC. 179. *Additional first-year depreciation allowance for small business*—(a) *General rule.* In the case of section 179 property, the term "reasonable allowance" as used in section 167(a) may, at the election of the taxpayer, include an allowance, for the first taxable year for which a deduction is allowable under section 167 to the taxpayer with respect to such property, of 20 percent of the cost of such property.

(b) *Dollar limitation.* If in any one taxable year the cost of section 179 property with respect to which the taxpayer may elect an allowance under subsection (a) for such taxable year exceeds $10,000, then subsection (a) shall apply with respect to those items selected by the taxpayer, but only to the extent of an aggregate cost of $10,000. In the case of a husband and wife who file a joint return under section 6013 for the taxable year, the limitation under the preceding sentence shall be $20,000 in lieu of $10,000.

(c) *Election*—(1) *In general.* The election under this section for any taxable year shall be made within the time prescribed by law (including extensions thereof) for filing the return for such taxable year. The election shall be made in such manner as the Secretary or his delegate may by regulations prescribe.

(2) *Election irrevocable.* Any election made under this section may not be revoked except with the consent of the Secretary or his delegate.

(d) *Definitions and special rules*—(1) *Section 179 property.* For purposes of this section, the term "section 179 property" means tangible personal property—

(A) Of a character subject to the allowance for depreciation under section 167,

(B) Acquired by purchase after December 31, 1957, for use in a trade or business or for holding for production of income, and

(C) With a useful life (determined at the time of such acquisition) of 6 years or more.

(2) *Purchase defined.* For purposes of paragraph (1), the term "purchase" means any acquisition of property, but only if—

(A) The property is not acquired from a person whose relationship to the person acquiring it would result in the disallowance of losses under section 267 or 707(b) (but, in applying section 267 (b) and (c) for purposes of this section, paragraph (4) of section 267(c) shall be treated as providing that the family of an individual shall include only his spouse, ancestors, and lineal descendants),

(B) The property is not acquired by one member of an affiliated group from another member of the same affiliated group, and

(C) The basis of the property in the hands of the person acquiring it is not determined—

(i) In whole or in part by reference to the adjusted basis of such property in the hands of the person from whom acquired, or

(ii) Under section 1014(a) (relating to property acquired from a decedent).

(3) *Cost.* For purposes of this section, the cost of property does not include so much of the basis of such property as is determined by reference to the basis of other property held at any time by the person acquiring such property.

(4) *Section not to apply to trusts.* This section shall not apply to trusts.

(5) *Estates.* In the case of an estate, any amount apportioned to an heir, legatee, or devisee under section 167(g) shall not be taken into account in applying subsection (b) of this section to section 179 property of such heir, legatee, or devisee not held by such estate.

(6) *Dollar limitation of affiliated group.* For purposes of subsection (b) of this section—

(A) All members of an affiliated group shall be treated as one taxpayer, and

(B) The Secretary or his delegate shall apportion the dollar limitation contained in such subsection (b) among the members of such affiliated group in such manner as he shall by regulations prescribe.

(7) *Affiliated group defined.* For purposes of paragraphs (2) and (6), the term "affiliated group" has the meaning assigned to it by section 1504, except that, for such purposes, the phrase "more than 50 percent" shall be substituted for the phrase "at least 80 percent" each place it appears in section 1504(a).

(8) *Adjustment to basis; when made.* In applying section 167(f), the adjustment under section 1016(a)(2) resulting by reason of an election made under this section with respect to any section 179 property shall be made before any other deduction allowed by section 167(a) is computed.

(e) *Regulations.* The Secretary or his delegate shall prescribe such regulations as may be necessary to carry out the purposes of this section.

[Sec. 179 as added by sec. 204, Small Business Tax Revision Act of 1958 (72 Stat. 1679)]

§ 1.179–1 Additional first-year depreciation allowance.

(a) *In general.* For taxable years ending after June 30, 1958, in the case of "section 179 property" acquired by purchase after December 31, 1957, a taxpayer (other than a trust) may elect for the first taxable year for which a deduction with respect to such property is allowable under section 167 to the taxpayer to include as part of the "reasonable allowance" allowable under section 167(a) an additional allowance of 20 percent of the cost or of a portion of the cost of such property. A trust is not eligible for the additional depreciation allowance under section 179. The allowance under section 179 is in addition to the depreciation allowable under section 167 computed on the balance of the unrecovered cost of the property after adjustment for the allowance under this section. For application of the dollar limitations of section 179(b), see § 1.179–2. For a definition of the term "section 179 property" and for special rules, see § 1.179–3. For the time and manner of making the election under this section, see § 1.179–4.

(b) *Proration not required.* The allowance under section 179 is determined without any proration based on the period of time the section 179 property has been in service during the taxable year. For example, taxpayer A, who makes his income tax returns on the calendar year basis, purchased and placed in service on August 7, 1958, section 179 property costing $8,000. A elects to claim the additional first-year depreciation on the total cost of $8,000. A is entitled to a deduction of $1,600 (20 percent of $8,000) under this section for 1958, without proration for the number of days in 1958 during which the property was in service.

(c) *Amount subject to allowance.* The allowance under section 179 is equal to 20 percent of the cost, or portion of the cost, of section 179 property selected by the taxpayer. Thus, all or a part of the cost of one item of property, or all or parts of the cost of several items of property, may be selected, subject to the dollar limitations of section 179(b) and § 1.179–2. For example, B, who makes his income tax returns on the basis of the calendar year, purchased section 179 property costing $9,000 in March 1959. B elects to claim the additional first-year depreciation allowance, but only with respect to $3,000 of the cost of the property. B's allowance under section 179 for 1959 is $600 (20 percent of $3,000).

(d) *Salvage.* The allowance under section 179 is computed without regard to any salvage value which is estimated will be realizable upon the sale or other disposition of the section 179 property when it is no longer useful in the taxpayer's trade or business or in the production of his income and is to be retired from service by the taxpayer. But see paragraphs (a) and (c) of § 1.167(a)–1 for rules relating to salvage in computing the depreciation allowance under section 167 on the unrecovered cost of the section 179 property after the allowance of the deduction under section 179.

(e) *When allowance is available.* (1) (i) The term "the first taxable year for which a deduction is allowable under section 167 to the taxpayer with respect to such property" means the first taxable year for which depreciation is allowable under section 167 on such property. See paragraph (b) of § 1.167(a)–10. The provisions of this subdivision may be illustrated by the following examples:

Example (1). M Corporation, which makes its income tax returns on the calendar year basis, purchases section 179 property costing $10,000 on December 27, 1960, places it in service on the same date, and does not use an averaging convention in determining the depreciation allowance. Since depreciation is allowable for the December 27–31, 1960, period, M Corporation may elect to claim the additional first-year depreciation allowance of $2,000 (20 percent of $10,000) for 1960.

Example (2). N Corporation, which files its income tax returns on the calendar year basis, purchases section 179 property costing $10,000 on August 10, 1960, and places it in service on the same date. N Corporation places the section 179 property in a multiple asset account under which it is assumed, for purposes of computing depreciation, that all additions and retirements during the first half of the taxable year were made on the first day of that year, and that all additions and retirements during the second half of the taxable year were made on the first day of the following year. Under these circumstances, N Corporation is entitled to elect the additional first-year depreciation allowance under section 179 on such property only for 1961, since that is the first year for which a deduction is allowable under section 167 on such property.

(ii) In the case of an emergency facility which the taxpayer elects to amortize under the provisions of section 168, and which facility also qualifies as section 179 property, the additional first-year depreciation allowance is not available (except as hereafter provided) unless the taxpayer elects under § 1.168–2 to begin the amortization deductions under section 168 with the succeeding

taxable year. If the taxpayer elects under § 1.168–2 to begin the amortization deductions under section 168 with the month following the month in which the facility was completed or acquired, and the facility qualifies as section 179 property, the additional first-year allowance is available only with respect to the portion of the facility which is not certified in accordance with section 168(e). If 100 percent of the facility is certified in accordance with section 168(e) and the taxpayer elects under § 1.168–2 to begin the amortization deductions under section 168 with such following month, no additional first-year allowance is available with respect to any portion of the facility.

(2) The additional first-year depreciation allowance on section 179 property is not available if the cost of such property is to be recovered through amortization deductions under section 162 and the regulations thereunder instead of through depreciation allowances under section 167(a).

§ 1.179–2 Dollar limitation.

(a) *Maximum amount subject to election.* (1) In any one taxable year the maximum amount of the cost of section 179 property with respect to which the taxpayer may elect to take an allowance under section 179 is $10,000, except that in the case of a husband and wife who file a joint income tax return under section 6013(a) for the taxable year the limitation is $20,000. But see paragraph (e) of this section. If the section 179 property purchased by the taxpayer exceeds the $10,000 or $20,000 limitation, as the case may be, the taxpayer may select the cost or portion of the cost of section 179 property to which his election is to apply. For example, X Corporation purchased five new delivery trucks in February 1959 at a cost of $5,000 each. The trucks qualify as section 179 property. X may select $2,000 of the cost of each truck to be subject to the allowance under § 1.179–1, or the total cost of $5,000 for each of any two trucks, or X may allocate the $10,000 maximum cost among some or all of the trucks in any other manner it chooses. The selection of property made by X is irrevocable unless X obtains consent of the Commissioner to change. See paragraph (b) of § 1.179–4.

(2) The dollar limitations of section 179 apply to each taxpayer, and not to each trade or business in which the taxpayer has an interest. For example, G is a single individual who makes his income tax returns on the calendar year basis. G operates two separate businesses on his own account and is a member of a partnership engaged in business. During 1960, G purchased section 179 property costing $8,000 for one of his businesses and section 179 property costing $6,000 for the other. In addition, G's distributive share of the partnership's section 179 allowance for 1959 is $300. The maximum allowance available to G under section 179 for 1960, including his $300 distributive share from the partnership is $2,000 (20 percent of $10,000). See, however, paragraph (b) of this section.

(b) *Amount apportioned by an estate.* The maximum amount of the cost of section 179 property with respect to which an estate may elect to take an allowance under section 179 is $10,000. The maximum allowance available to an estate under section 179 is $2,000 reduced, however, by any such section 179 allowance apportioned to an heir, legatee, or devisee. The amount of the allowance under section 179 apportioned from an estate to an heir, legatee, or devisee shall not be taken into account by such heir, legatee, or devisee in determining his $10,000 or $20,000 limitation (as provided in paragraph (a) of this section). See section 179(d)(5). For example, D, a single individual who makes his income tax return on the basis of the calendar year, purchases section 179 property costing $12,000 in December 1960 for use in his business. D elects to claim the additional first-year depreciation allowance on the maximum allowable cost, $10,000, and claims a deduction under section 179 for $2,000 (20 percent of $10,000). D is also a legatee of the XYZ estate, and in 1960 is allocated income of $1,500 from the estate, $500 as his share of the estate's additional first-year depreciation allowance, and $200 as his share of the estate's depreciation allowance under section 167. The net income of $800 ($1,500 minus $700) received by D from the estate will be included in D's income tax return for 1960. The $500 additional first-year depreciation allowance allocated to him by the estate will not affect his right to the allowance of $2,000 under section 179.

(c) *Affiliated group.* Taxpayers which constitute an affiliated group, as defined in paragraph (e) of § 1.179–3, shall be treated as one taxpayer in applying the $10,000 limitation of this section. The allowance may be taken by any one such member or allocated among the several members in any manner, pursuant to allocation by the common parent corporation if a consolidated return is filed, or in accordance with an agreement entered into by the members of the group if separate returns are filed. The amount of the allowance allocated to any member, however, shall not exceed 20 percent of the cost of section 179 property actually purchased by the member in the taxable year. If a consolidated return is filed, the common parent corporation shall file a statement in accordance with § 1.179–4. If separate returns are filed, the statement shall be filed by each member of an affiliated group to which is allocated any part of the deduction under section 179. Such statement shall include, in addition to the information required by § 1.179–4, the names of all the members of the affiliated group, the taxable year of the common parent corporation, and a description of the manner in which the deduction under section 179 has been divided among them. An allocation among the members of an affiliated group of the allowance under section 179 shall not, if a consolidated return is filed, be revoked after the due date of the return (including extensions of time) of the common parent corporation for a taxable year for which an election to take the allowance is made. If the members of an affiliated group do not file a consolidated return for a taxable year for which an election to take the allowance is made, the allocation as to all members of the group shall not be revoked after the due date of the return (including extensions of time) of the common parent corporation. For the purpose of the preceding sentence, the taxable years of the other members of the affiliated group ending with or within the taxable year of the common parent shall be considered as corresponding to the taxable year of the common parent. Thus, where a common parent's taxable year ends November 30, 1960, the allowance will apply with respect to section 179 property purchased in August 1959 by an affiliated corporation whose taxable year ends June 30, 1960 (a taxable year ending within the taxable year of the parent).

(d) *Partnership.* (1) In the case of a partnership, the election under section 179 with respect to section 179 property of the partnership shall be made by the partnership. See section 703(b). However, the amount of the section 179 allowance shall be determined separately as to each partner. The amount of the section 179 allowance available to a partner with respect to the cost of the section 179 property selected by the partnership is 20 percent of the maximum amount of the cost of such property allocable to the partner for the purpose of computing such allowance. This maximum is the individual partner's share of the total cost of the section 179 property (but not in excess of $10,000 or $20,000, whichever is applicable) computed by applying to the total cost of such property the percentage or fraction used in determining each partner's distributive share of the partnership's depreciation allowance under section 167 for the taxable year on such property. The partner's distributive share of the partnership's depreciation allowance under section 167 shall be determined in accordance with the provisions of section 704 and the regulations thereunder. The maximum amount of the allowance permitted under section 179 to the partnership shall be the aggregate of the maximum amounts allowable to the separate partners. The basis of the partnership's section 179 property must be adjusted to reflect the amount of the section 179 allowance to the partnership. See paragraph (f) of § 1.179–3. A trust's share of partnership property shall not be taken into account in determining the amount of the section 179 allowance of a partnership. In no event is a partner entitled to a section 179 allowance of more than $2,000 or $4,000, as the case may be, whether the allowance is in respect of section 179 property of the partnership or in respect of section 179 property which he acquired separately, or both. See, however, paragraph (b) of this section. Any allocation among the partners of the section 179 allowance shall not be modified after the due date of the partnership return (without regard to extensions of time) for the year for which the election under section 179 is made.

(2) The principles of this paragraph may be illustrated by the following examples:

Example (1). Partnership ABCD is composed of partner A who is married and files a joint income tax return, and partners B, C, and D who are single. Under the terms of the partnership agreement, the allocation of each partner's distributive share of depreciation under section 167 is 30 percent to A, 20 percent to B, 45 percent to C, and 5 percent to D. In 1960, the partnership purchases $100,000 of section 179 property. The partnership elects to claim the additional first-year depreciation allowance under § 1.179–1 with respect to the maximum allowable amount of the cost of section 179 property. The partnership is entitled in 1960 to an additional first-year depreciation allowance of $9,000 computed as follows:

	1	2	3	4
	Distributive share of depreciation under sec. 167	Allocable share of total cost of sec. 179 property ($100,000 x column 1)	Maximum amount subject to election (lesser of column 2 or ($10,000 or $20,000, as the case may be))	Sec. 179 allowance (20 percent x column 3)
	Percent			
Partner A	30	$30,000	$20,000	$4,000
Partner B	20	20,000	10,000	2,000
Partner C	45	45,000	10,000	2,000
Partner D	5	5,000	5,000	1,000
Total partnership allowance				9,000

In the foregoing example, the portion of the cost of the property selected by the partnership is $45,000, the total of column 3. The basis of the section 179 property of the partnership must be adjusted to reflect the $9,000 section 179 allowance. Such adjustment to the partnership's basis is required even though a partner may not be entitled to deduct the amount or a portion of the amount of the section 179 allowance available to him from such partnership for the reason that the aggregate of the section 179 allowances available to him from such partnership and from other partnerships or sole proprietorships exceed the appropriate limitation provided by section 179(b). If the partnership desired to elect only with respect to one-half of the maximum allowable amount, the entries in columns 3 and 4 with respect to each partner would be reduced by one-half. In such case, the portion of the cost of the property selected would be $22,500, the total section 179 allowance would be $4,500, and the basis would be adjusted accordingly.

Example (2). Partnership EFT is composed of partners E and F who are married and file joint income tax returns, and partner T which is a trust. Under the terms of the partnership agreement, the allocation of each partner's distributive share of depreciation under section 167 is 40 percent to E, 40 percent to F, and 20 percent to T. In 1960 the partnership purchases $50,000 of section 179 property. The partnership may not select a cost of section 179 property in excess of $40,000, which is the total of column 3 in the following computation:

	1	2	3	4
	Distributive share of depreciation under sec. 167	Allocable share of total cost of sec. 179 property ($50,000 x column 1)	Maximum amount subject to election (lesser of column 2 or ($10,000 or $20,000, as the case may be))	Sec. 179 allowance (20 percent x column 3)
	Percent			
Partner E	40	$20,000	$20,000	$4,000
Partner F	40	20,000	20,000	4,000
Partner T	20	0	0	0
Total partnership allowance				8,000

Since partner T is a trust, its share of partnership property may not be taken into account in determining the section 179 allowance of the partnership. Also, partner T is not entitled to any portion of the additional first-year depreciation allowance under section 179. The partnership is entitled in 1960 to an additional first-year depreciation allowance of $8,000.

(e) *Joint returns.* In the case of a husband and wife who file a joint income tax return under section 6013(a), the maximum amount of the cost of section 179 property with respect to which the taxpayer may elect an allowance under section 179 is $20,000, regardless of which spouse purchased the property. However, in the case of a husband and wife who elect under section 6013(b) to file a joint income tax return for a taxable year after the time prescribed by law for filing the return for such taxable year has expired, the dollar limitation under section 179 shall be the aggregate allowable dollar amount of section 179 property for which the election was made on their separate income tax returns. For example, H, who purchased section 179 property costing $18,000 in November 1960, filed a separate income tax return for 1960 on April 1, 1961, in which he elected to claim the additional first-year depreciation allowance on $10,000 of the cost of such property used in his separate business. W, who purchased section 179 property costing $7,000 in October 1960 for use in her separate business, filed a separate income tax return in March 1961 in which she elected to claim the additional first-year depreciation allowance on only $5,000 of the cost of such property. After the due date of the return, H and W elect under section 6013(b) to file a joint income tax return for 1960. Although H and W purchased section 179 property costing $25,000 in 1960, the maximum amount with respect to which the additional first-year depreciation allowance may be claimed in their joint income tax return is $15,000, the aggregate of the amounts elected on their separate income tax returns.

§ 1.179–3 Definitions and special rules.

The following definitions and special rules apply for purposes of section 179, §§ 1.179–1, 1.179–2, 1.179–4, and this section.

(a) *Section 179 property.* The term "section 179 property" means any tangible personal property, new or used, of a character subject to the allowance for depreciation under section 167, acquired by purchase after December 31, 1957, for use in the taxpayer's trade or business or in the production of his income, and which has an estimated useful life (determined at the time of acquisition) of 6 years or more. For purposes of determining the estimated useful life of section 179 property, the provisions of paragraph (b) of § 1.167(a)–1 shall be applied. For definition of the term "purchase", see paragraph (c) of this section.

(b) *Tangible personal property.* Local law definitions will not be controlling for purposes of determining the meaning of the term "tangible personal property" as it is used in section 179 and the regulations thereunder. For purposes of section 179, the term "tangible personal property" includes any tangible property except land, and improvements thereto, such as buildings or other inherently permanent structures thereon (including items which are structural components of such buildings or structures). Assets accessory to the operation of a business, such as machinery, printing presses, transportation or office equipment, refrigerators, individual air conditioning units, grocery counters, etc., generally constitute tangible personal property for purposes of section 179, even though such assets may be termed fixtures under local law. The term does not include, for example, the wiring in a building, plumbing systems, nor central heating or central air conditioning machinery, pipes, or ducts or other items, which are structural components of a building or other permanent structure, nor does the term include trademarks, goodwill, or other intangibles.

(c) *Purchase.* (1) The term "purchase" means any acquisition of property after December 31, 1957, but only if all the requirements of subdivisions (i), (ii), and (iii) of this subparagraph are satisfied.

(i) The property is not acquired by purchase if it is acquired from a person whose relationship to the person acquiring it would result in the disallowance of losses under section 267 or 707(b). In applying the rules of section 267 (b) and (c), section 267(c)(4) shall be treated as providing that the family of an individual shall include only his

spouse, ancestors, and lineal descendants. For example, a purchase of property from a corporation by a taxpayer who owns, directly or indirectly, more than 50 percent in value of the outstanding stock of such corporation does not qualify as a "purchase" under section 179(d)(2), nor does the purchase of property by a husband from his wife. However, the purchase of section 179 property by a taxpayer from his brother or sister does qualify as a purchase for purposes of section 179(d)(2).

(ii) The property is not acquired by purchase if acquired from any one member of an affiliated group (as defined in paragraph (e) of this section) by another member of the same affiliated group.

(iii) The property is not acquired by purchase if the basis of the property in the hands of the person acquiring it is determined in whole or in part by reference to the adjusted basis of such property in the hands of the person from whom acquired, or under section 1014 (a), relating to property acquired from a decedent. For example, property acquired by gift or bequest does not qualify as property acquired by purchase, for purposes of section 179(d)(2), nor does property received in a corporate distribution the basis of which is determined under section 301(d)(2)(B), property acquired by a corporation in a transaction to which section 351 applies, property acquired by a partnership through contribution (section 723), nor property received in a partnership distribution which has a carryover basis under section 732(a)(1).

(2) If property is in the process of construction, reconstruction, or erection on December 31, 1957, the term "purchase" will apply only to that part of the cost of such property which is attributable to such construction, reconstruction, or erection after December 31, 1957. The portion of the cost of such property attributable to construction, reconstruction, or erection after December 31, 1957, consists of all costs of the property allocable to the period after that date, including the cost or other basis of materials entering into such property. It is not necessary that such materials be acquired after December 31, 1957, or that their estimated useful lives independently determined be 6 years or more provided, however, that the property constructed, reconstructed, or erected has an estimated useful life of 6 years or more.

(d) *Cost.* The cost of section 179 property does not include so much of the basis of such property as is determined by reference to the basis of other property held at any time by the taxpayer. For example, N Corporation purchases a new drill press costing $9,000 in November 1960 which qualifies as section 179 property, and is granted a trade-in allowance of $2,000 on its old drill press. The old drill press had a basis of $1,200. Under the provisions of sections 1012 and 1031(d), the basis of the new drill press is $8,200 ($1,200 basis of old drill press plus cash expended of $7,000). However, only $7,000 of the basis of the new drill press qualifies as cost for purposes of the allowance under § 1.179–1; the remaining $1,200 is not part of the cost because it is determined by reference to the basis of the old drill press.

(e) *Affiliated group.* For purposes of section 179, the term "affiliated group" has the meaning assigned to it by section 1504 and paragraph (b) of § 1.1502–2, except that the phrase "more than 50 percent" shall be substituted for the phrase "at least 80 percent" each place it appears in those sections.

(f) *Adjustment to basis.* A taxpayer who elects the additional first-year depreciation allowance under section 179 must make the necessary adjustment to basis of the section 179 property, as required by section 179(d)(8), in the records he is required to keep under paragraph (c) of § 1.167(a)–7, before any other deduction allowable by section 167(a) is computed. For example, M Corporation which makes its return on the basis of the calendar year and uses the straight-line method of depreciation, purchases a $15,000 machine on July 1, 1960, which qualifies as section 179 property, and elects to claim the additional first-year depreciation allowance. The machine has an estimated 10-year life and an estimated salvage value of $1,000. For 1960, M Corporation is entitled to an allowance of $2,000 (20 percent of $10,000) under section 179. The cost basis of $15,000 must be adjusted by the $2,000 allowance before any other deduction under section 167 is computed. The adjusted basis of $13,000, less $1,000 salvage, or $12,000 may then be depreciated over the 10-year useful life of the machine in accordance with the provisions of section 167 and the regulations thereunder. Since M Corporation uses the straight-line method of depreciation for the machine, it will be entitled to a total deduction of $2,600 in 1960; that is $2,000 for additional first-year depreciation plus $600 ($12,000 x 10 percent x 6 mos.) depreciation on the balance of $12,000.

§ 1.179–4 Time and manner of making election.

(a) *Election.* A separate election must be made for each taxable year in which an additional first-year depreciation allowance is claimed with respect to section 179 property. The election under section 179 and § 1.179–1 to claim an additional first-year depreciation allowance on section 179 property shall be made in a statement attached to the taxpayer's income tax return for the taxable year to which the election applies. The return and statement must be filed not later than the time prescribed by law (including extensions thereof) for filing the return for such taxable year. The statement shall indicate that the taxpayer elects under section 179 to claim an additional first-year depreciation allowance for section 179 property, and shall set forth the following information with respect to the property selected:

(1) Description of property (truck, printing press, etc.).

(2) Date property acquired (after December 31, 1957).

(3) Total cost of each item of property with respect to which the election is made.

(4) Portion of cost of property selected.

(5) Estimated useful life at date of acquisition (at least 6 years).

(6) Additional first-year depreciation.

The taxpayer shall maintain records which permit specific identification of section 179 property and reflect how and from whom such property was acquired. Except as provided in paragraph (d)(1) of this section, an election will not be valid unless the statement is submitted at the time and in the manner prescribed herein. The election to claim an additional first-year depreciation allowance under this section with respect to any property is irrevocable and shall be binding on the taxpayer with respect to such property for the taxable year for which the election is made and for all subsequent taxable years, unless the Commissioner gives his consent to revoke the election. Similarly, the selection of section 179 property by the taxpayer to be subject to the additional first-year depreciation allowance must be adhered to in computing the taxpayer's taxable income for the taxable year for which the selection is made and for all subsequent taxable years, unless consent to change the selection of property is given by the Commissioner.

(b) *Revocation.* A request to revoke an election under section 179 and § 1.179–1 or to change the property selected for the additional first-year depreciation allowance shall be in writing and shall be addressed to the Commissioner of Internal Revenue, Washington 25, D.C. The request shall include the name and address of the taxpayer and shall be signed by the taxpayer or his duly authorized representative. It must be filed no later than 6 months after the date prescribed by law (without regard to extensions of time) for filing the income tax return for the year in which the allowance under § 1.179–1 was claimed, shall be accompanied by a statement showing the year and property involved, and shall set forth in detail the reasons for the request to revoke the election or to change the selection of property. Ordinarily, a request for consent to revoke the election or to change the selection of property will not be granted if it appears from all the facts and circumstances that the only reason for the desired change is to obtain a tax advantage.

(c) *Effective date.* The provisions of this section apply only to income tax returns and statements filed after the date of publication of these regulations in the FEDERAL REGISTER as a Treasury decision. Elections made under the provisions of Treasury Decision 6335 (26 CFR 18.1–3), approved November 13, 1958 (23 F.R. 8979) continue in effect.

(d) *Special rules.* (1) If the taxpayer has exercised the election by claiming the additional allowance on his income tax return for any taxable year, but failed to attach the statement required by paragraph (a) of this section or by § 18.1–3(b) of Treasury Decision 6335 and the last day prescribed by law (including extensions of time) for filing the return falls on or before the ninetieth day after the date the regulations under section 179 are published in the FEDERAL REGISTER as a Treasury decision, the election will not be invalid, provided that on or before such ninetieth day the required statement is submitted to the district director for the district in which his income tax return for such year was filed.

(2) If the last day prescribed by law (including extensions of time) for filing an income tax return for any taxable year ending after June 30, 1958, falls on or before the ninetieth day after the date the regulations under section 179 are published in the FEDERAL REGISTER as a Treasury decision, consent is hereby given to the taxpayer to revoke his election under section 179 and Treasury Decision 6335 for such taxable year or to change his previous selection of property subject to the additional first-year depreciation allowance, provided that on or before such ninetieth day he submits to the district director for the district in which his income tax return for such year was filed a statement showing the new selection of property or that the election for such taxable year is being revoked. Amended income tax returns for the year of revocation or change and for any other taxable year affected, or treated as affected, by the revocation or by the change in the selection of property must accompany such statement.

PAR. 2. Paragraphs (a) and (c) of § 1.167(a)–1 are amended to read as follows:

§ 1.167(a)–1 Depreciation in general.

(a) *Reasonable allowance.* Section 167(a) provides that a reasonable allowance for the exhaustion, wear and tear, and obsolescence of property used in the trade or business or of property held by the taxpayer for the production of income shall be allowed as a depreciation deduction. The allowance is that amount which should be set aside for the taxable year in accordance with a reasonably consistent plan (not necessarily at a uniform rate), so that the aggregate of the amounts set aside, plus the salvage value, will, at the end of the estimated useful life of the depreciable property, equal the cost or other basis of the property as provided in section 167(f) and § 1.167(f)–1. An asset shall not be depreciated below a reasonable salvage value under any method of computing depreciation. See paragraph (c) below for definition of salvage. The allowance shall not reflect amounts representing a mere reduction in market value. See section 179 and § 1.179–1 for a further description of the term "reasonable allowance."

* * * * *

(c) *Salvage.* Salvage value is the amount (determined at the time of acquisition) which is estimated will be realizable upon sale or other disposition of an asset when it is no longer useful in the taxpayer's trade or business or in the production of his income and is to be retired from service by the taxpayer. Salvage value shall not be changed at any time after the determination made at the time of acquisition merely because of changes in price levels. However, if there is a redetermination of useful life under the rules of paragraph (b) of this section, salvage value may be redetermined based upon facts known at the time of such redetermination of useful life. Salvage, when reduced by the cost of removal, is referred to as net salvage. The time at which an asset is retired from service may vary according to the policy of the taxpayer. If the taxpayer's policy is to dispose of assets which are still in good operating condition, the salvage value may represent a relatively large proportion of the original basis of the asset. However, if the taxpayer customarily uses an asset until its inherent useful life has been substantially exhausted, salvage value may represent no more than junk value. Salvage value must be taken into account in determining the depreciation deduction either by a reduction of the amount subject to depreciation or by a reduction in the rate of depreciation, but in no event shall an asset (or an account) be depreciated below a reasonable salvage value. See, however, paragraph (a) of § 1.167(b)–2 for the treatment of salvage under the declining balance method, and § 1.179–1 for the treatment of salvage in computing the additional first-year depreciation allowance. The taxpayer may use either salvage or net salvage in determining depreciation allowances but such practice must be consistently followed and the treatment of the costs of removal must be consistent with the practice adopted. For specific treatment of salvage value see §§ 1.167(b)–1, 2, and 3. When an asset is retired or disposed of, appropriate adjustments shall be made in the asset and depreciation reserve accounts. For example, the amount of the salvage adjusted for the costs of removal may be credited to the depreciation reserve.

[T.D. 6508]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Stock; Gross Receipts

On October 8, 1960, a notice of proposed rule making regarding regulations under section 1244 (relating to losses on small business stock) of the Internal Revenue Code of 1954, as added by section 202(b) of the Small Business Tax Revision Act of 1958 (72 Stat. 1676), was published in the FEDERAL REGISTER (25 F.R. 9682). No objection to the rules proposed having been received during the 30-day period prescribed in the notice, the regulations as so published are hereby adopted.

(72 Stat. 1678; 26 U.S.C. 1244(e); 68A Stat. 917; 26 U.S.C. 7805)

[SEAL] DANA LATHAM,
Commissioner of Internal Revenue.

Approved: November 29, 1960.

DAVID A. LINDSAY,
Acting Secretary of the Treasury.

The following regulations, effective for taxable years beginning after December 31, 1953, and ending after August 16, 1954, are hereby prescribed under the Internal Revenue Code of 1954:

§ 1.1244(c)–1 Section 1244 stock defined.

* * * * *

(g) *Gross receipts.* * * *

(2) The requirement of subparagraph (1) of this paragraph need not be satisfied if for the applicable period the aggregate amount of deductions allowed to the corporation exceeds the aggregate amount of its gross income. But for this purpose the deductions allowed by section 172, relating to the net operating loss deduction, and by sections 242, 243, 244, and 245, relating to certain special deductions for corporations, shall not be taken into account. Notwithstanding the provisions of this subparagraph and of subparagraph (1) of this paragraph, pursuant to the specific delegation of authority granted in section 1244(e) to prescribe such regulations as may be necessary to carry out the purposes of section 1244, ordinary loss treatment will not be available with respect to stock of a corporation which is not largely an operating company within the five most recent taxable years (or such lesser period as the corporation is in existence) ending before the date of the loss. Thus, for example, assume that a person who is not a dealer in real estate forms a corporation which issues stock to him which meets all the formal requirements of section 1244 stock. The corporation then acquires a piece of unimproved real estate which it holds as an investment. The property declines in value and the stockholder sells his stock at a loss. The loss does not qualify for ordinary loss treatment under section 1244 but must be treated as a capital loss.

Title 31—MONEY AND FINANCE: TREASURY

Chapter I—Monetary Offices, Department of the Treasury

PART 54—GOLD REGULATIONS

Application to Gold Situated in Hawaii, the Possessions of the United States, and the Canal Zone

The purpose of these Amendments to the Gold Regulations is to make such regulations applicable to the acquisition, holding, etc., of gold in Hawaii, the Possessions of the United States, and the Canal Zone. The texts of §§ 54.4(a), 54.6(e), 54.7, 54.15, 54.25, 54.40 and 54.41 of the Gold Regulations, as hereby amended, are set forth below. These amendments will become effective 90 days after their publication in the FEDERAL REGISTER.

During a period of 90 days following publication of these regulations in the FEDERAL REGISTER, the acquisition, holding, etc., of gold in Hawaii, the Possessions of the United States, and the Canal

Zone, including the issuance of licenses and the disposition of any gold, the possession of which is not licensed or authorized by the Gold Regulations, will be governed by the provisions of a new section of the Gold Regulations, § 54.80. In summary, the following provisions are made for the transition.

1. Every person who owns or is in possession of gold bullion or foreign gold coin (other than rare gold coin) situated in Hawaii, the Possessions of the United States, or the Canal Zone must file with the Director of the Mint within 30 days from the date of publication of these regulations in the FEDERAL REGISTER, a report concerning such gold. In addition, every person who owns or is in possession of gold bullion situated in Hawaii, a Possession of the United States, or the Canal Zone in an aggregate amount exceeding 50 fine troy ounces, and who requires such gold for legitimate and customary use in the industry, profession or art in which he is regularly engaged, must file an application for a license to hold such gold.

2. For a period of 90 days from the date of publication of these regulations in the FEDERAL REGISTER, persons who own or have in their possession gold situated in Hawaii, any possession of the United States, or the Canal Zone are authorized to hold such gold within Hawaii, such Possession, or the Canal Zone, respectively. In addition, any person regularly engaged in an industry, profession or art who requires gold for legitimate, customary and ordinary use therein, may melt and treat gold and may replenish his supplies of gold provided that the aggregate amount of gold acquired, held, transported, melted or treated at any one time does not exceed 50 fine troy ounces of gold content. The acquisition and holding for the foregoing purpose of gold in amounts exceeding 50 fine troy ounces of fine gold content is authorized only to the extent permitted by licenses issued in accordance with the provisions of § 54.25. Further, the exportation and transportation of gold from Hawaii, a Possession of the United States, or the Canal Zone is permitted only to the extent authorized in § 54.25(b) or a license issued pursuant to such section.

3. During the 90 day period referred to in paragraph 2, above, the United States Mints are authorized to purchase any gold bullion and foreign gold coin situated in Hawaii, the Possessions of the United States, and the Canal Zone which has not at any time been held, transported, exported, etc., in non-compliance with the Gold Reserve Act, the Act of October 6, 1917, as amended, section 3 of the Act of March 9, 1933, or any orders, regulations, rulings, or instructions issued thereunder. The price paid for all gold purchased by the Mint shall be the price specified in § 54.44 of the Regulations, i.e., $35 less ¼ of 1 percent per troy ounce of fine gold and mint charges. Gold which the mints are authorized to purchase under this section may be received through the offices designated, and in accordance with the procedures outlined, in § 54.80 set forth below.

4. The Director of the Mint will, in accordance with the provisions of § 54.25 of the Gold Regulations, issue Treasury gold licenses on the approved form for the holding, melting, treating, etc., of gold in Hawaii, the Possessions of the United States, and the Canal Zone which is necessary for the legitimate and customary requirements of industry, profession or art.

5. On and after 90 days from the date of publication of these regulations in the FEDERAL REGISTER, the acquisition, possession, melting, treating, etc., of gold in Hawaii, the Possessions of the United States, and the Canal Zone will be prohibited except as permitted by the Gold Regulations or licenses issued thereunder.

These regulations are issued without notice and public procedure thereon because such procedures are deemed to be impracticable and contrary to the public interest. The amendments to §§ 54.4 to 54.41 are effective 90 days from the date of their publication in the FEDERAL REGISTER. Section 54.80 is effective on the date of publication in the FEDERAL REGISTER.

(Sec. 5(b), 40 Stat. 415, as amended, sections 3, 8, 9, 11, 48 Stat. 340, 341, 342; 12 U.S.C. 95a, 31 U.S.C. 442, 733, 734, 822b, E.O. 6260, Aug. 28, 1933, as amended by E.O. 10896, Nov. 29, 1960, F.R. issue of Dec. 1, 1960; E.O. 6359, Oct. 25, 1933; E.O. 9193, as amended, 7 F.R. 5205; 3 CFR 1943 Cum. Supp; E.O. 10289, 16 F.R. 9499; 3 CFR 1951 Supp.)

§ 54.4 [Amendment]

Section 54.4(a) (3) and (4) are amended to read as follows:

(3) "United States" means the Government of the United States or where used to denote a geographical area, means the States of the United States, the District of Columbia, and all other places subject to the jurisdiction of the United States.

(4) "States of the United States" means the States of the United States and the District of Columbia.

§ 54.6 [Amendment]

Section 54.6(e) is amended to read as follows:

(e) No license issued hereunder shall exempt the licensee from the duty of complying with the legal requirements of any State or local authority.

Section 54.7 is amended to read as follows:

§ 54.7 General provisions affecting export licenses.[2]

At the time any license to export gold is issued, the Bureau of the Mint, or Federal Reserve bank issuing the same, shall transmit a copy thereof to the collector of customs at the port of export designated in the license or, if the port of export is not within the customs territory of the United States, to the government officer at such port charged with the enforcement of laws relating to the exportation of merchandise from the United States. No collector of customs or other government officer charged with the enforcement of laws relating to the exportation of merchandise from the United States shall permit the export or transportation from the States of the United States to the Possessions of the United States, to the Canal Zone, or to places not subject to the jurisdiction of the United States or the export or transportation from the Possessions of the United States or from the Canal Zone to places not subject to the jurisdiction of the United States of gold in any form except upon surrender of a license to export, a copy of which has been received by him from the agency issuing the same (except that licenses on Form TGL–15 (general) covering multiple shipments during a six-months' period are retained by the licensees until the expiration of such period when they are returned to the Director of the Mint): *Provided, however,* That the export or transportation from the States of the United States, the Possessions of the United States and the Canal Zone of fabricated gold may be permitted pursuant to § 54.25(b)(2) and the export or transportation from the States of the United States, the Possessions of the United States and the Canal Zone of gold imported for reexport may be permitted pursuant to §§ 54.32 and 54.33: *And provided further,* That gold held by the Federal Reserve banks under §§ 54.28 to 54.30, may be exported or transported for the purposes of such sections without a license. The collector of customs or other government officer to whom a license to export is surrendered shall cancel such license and return it to the Director of the Mint or the Federal Reserve bank which issued the same. In the event that the shipment is to be made by mail, a copy of the export license shall be sent by the agency issuing the same to the postmaster of the post office designated in the application, who will act under the instructions of the Postmaster General in regard thereto.

Section 54.15 is amended to read as follows:

§ 54.15 Transportation of gold to the Possessions of the United States.

Gold may be transported from the States of the United States to the Possessions of the United States and to the Canal Zone only as authorized by §§ 54.25, 54.32, 54.33 or § 54.34 or licenses issued pursuant thereto.

Section 54.25 is amended to read as follows:

§ 54.25 Licenses.

(a) *Licenses for the acquisition and holding, transportation, melting and treating, importing and disposition of gold.* (1) Upon receipt of the application and after obtaining such additional information as may be deemed advisable, the Director of the Mint, shall, if satisfied that gold is necessary for the legitimate and customary requirements of the applicant's industry, profession, art, or business, and that the applicant is qualified in all respects to conduct gold operations in full compliance with the provisions of this part and the provisions of a Treasury gold license, issue or cause to be issued to the applicant a Treasury gold license on the approved form for the kind of industry, profession, art, or business, in which the applicant is engaged.

(2) Licenses issued under this section may authorize the licensee to acquire and hold not to exceed a maximum amount specified therein; to transport such gold, melt or treat it to the extent necessary to meet the requirements of the industry, profession, art or business for which it was acquired and held or otherwise to carry out the purposes for which it is held under license; and to import gold so long as the aggregate amount of all gold held after such importation does not exceed the maximum amount authorized by the license to be held.

(3) Licenses issued under this paragraph do not permit the exportation or transportation of gold in any form from the States of the United States to the Possessions of the United States, to the Canal Zone or to places not subject to the jurisdiction of the United States, or the exportation or transportation from the Possessions of the United States or from the Canal Zone to places not subject to the jurisdiction of the United States. Such exportation or transportation is permitted only to the extent authorized in paragraph (b) of this section or in a separate license issued pursuant to such paragraph.

(b) *Licenses and authorizations for the exporting of gold.*—(1) *Semi-processed gold.* Semi-processed gold as defined in § 54.4 may be exported or transported from the States of the United States to the Possessions of the United States, to the Canal Zone, or to places not subject to the jurisdiction of the United States, and from the Possessions of the United States or from the Canal Zone to places not subject to the jurisdiction of the United States, only pursuant to a separate export license. Such licenses shall be issued by the Director of the Mint upon application made on Form TG–15 establishing to the satisfaction of the Director that the gold to be exported is semi-processed gold and that the export or transport is for a specific and customary industrial, professional, or artistic use and not for the purpose of using or holding or disposing of such semi-processed gold outside the States of the United States, as or in lieu of money, or for the value of its gold content.

(2) *Fabricated gold.* Fabricated gold as defined in § 54.4 may be exported or transported from the States of the United States, from the Possessions of the United States and from the Canal Zone without the necessity of obtaining a Treasury gold license: *Provided, however,* That the Bureau of the Census Schedule B statistical classification number of each specific commodity to be exported shall be plainly marked on the outside of the package or container, the shipper's export declaration shall contain a statement that such gold is fabricated gold as defined in § 54.4 and is being exported pursuant to the authorization contained in this subparagraph, and such additional documentation shall be furnished as may be required by the Bureau of Customs or any other government agency charged with the enforcement of laws relating to the exportation of merchandise from the United States.

(3) *Rare coin.* (i) Rare gold coin, as defined in § 54.20, made prior to April 5, 1933, may be exported or transported from the States of the United States, from the Possessions of the United States and the Canal Zone without the necessity of obtaining a Treasury gold license: *Provided, however,* That the shipper's export declaration shall contain a statement that such coin is rare gold coin and is being exported pursuant to the authorization contained in this subparagraph and such additional documentation shall be furnished as may be requested by the Bureau of Customs or any other government agency charged with the enforcement of laws relating to the exportation of merchandise from the United States.

(ii) Gold coin made subsequent to April 5, 1933, may be exported or transported from the States of the United States, from the Possessions of the United States and from the Canal Zone only under license on Form TGL–11 issued by the Director of the Mint. Application for such a license shall be executed on Form TG–11 and filed with the Director of the Mint, Treasury Department, Washington 25, D.C.

(4) *Other exports of gold.* Export licenses may also be issued upon application made on Form TG–15B in the same manner as prescribed in subparagraph (1) of this paragraph, authorizing the exportation of gold in any form for refining or processing subject to the condition that the refined or processed gold (or the equivalent in refined or processed gold) be returned to the United States, or subject to such other conditions as the Director may prescribe.

Section 54.40 is amended to read as follows:

§ 54.40 Imported gold.

Except for gold which may be purchased in accordance with the provisions of § 54.41, the mints are authorized to purchase only such gold imported into the United States as has been in customs custody throughout the period in which it shall have been situated within the customs limits of the United States, and then only subject to the following provisions:

(a) *Notation upon entry.* Upon formal entry of any gold intended for sale to a mint under this subpart, the importer shall declare to the collector of customs at the port of entry where the gold is formally entered that the gold is entered for such sale. The collector shall make a notation of this declaration upon the entry and forward a copy to the mint designated by the importer.

(b) *Statement by importer.* Upon the deposit of the gold with the mint designated by the importer, the importer shall file a statement executed in duplicate on Form TG–23.

Section 54.41 is amended to read as follows:

§ 54.41 Gold refined from imported gold-bearing material.

The mints are authorized to purchase gold refined (or the equivalent to gold refined) from gold-bearing material which has been either imported into the United States pursuant to a license issued under paragraph (a) of § 54.25 for sale of the gold derived therefrom to a designated mint, or imported into the United States under § 54.32 (notwithstanding the declaration made by the importer upon the entry into the United States of such gold-bearing material as required by § 54.32(b)), whether or not such gold or gold-bearing material has been in customs custody throughout the period it has been in the customs limits of the United States, subject to the following provisions:

(a) In the case of gold-bearing material imported pursuant to license issued under paragraph (a) of § 54.25, the importer shall declare to the collector of customs at the port of entry that the gold-bearing material is being imported for sale of the gold refined therefrom to a designated mint; the collector shall make on the entry a notation to this effect and forward a copy thereof to the mint designated by the importer.

(b) In the case of gold-bearing material imported under § 54.32, if the gold refined therefrom is offered to a mint other than the mint at San Francisco or the assay office at New York, the importer shall have caused the copy of the entry described in § 54.32(b) to be forwarded to the mint to which he is offering the gold for sale.

(c) Before any gold may be purchased under this section, the requirements of § 54.32(b) (2) and (3) must be shown to have been complied with: *Provided, however,* That any person importing gold-bearing materials for sale of the gold refined therefrom to a mint other than the mint at San Francisco or the assay office at New York shall have caused the true copy of the record described in § 54.32(b)(3) to be forwarded to the mint to which he is offering the gold for sale.

(d) Upon presentation of the gold to a mint or assay office for purchase, the importer shall file a statement executed in duplicate on Form TG–26, together with two true copies of the settlement sheet covering the gold-bearing material imported.

(e) No gold shall be accepted for purchase under authority of this paragraph unless it is delivered to the mint and all of the terms hereof complied with within seven months from the date of the formal entry into the United States of the gold-bearing material from which it was extracted.

[2] The regulations in this part shall not be construed as relieving any person from the obligation of compliance with the regulations of the Bureau of Foreign Commerce (formerly the Office of International Trade), (15 CFR Parts 360 to 399), the Bureau of Customs (19 CFR Ch. I) or other laws or regulations relating to the importation or exportation of merchandise, where applicable to imports or exports of gold, or articles containing gold.

Section 54.80 is set forth as follows:

§ 54.80 Temporary provisions applicable to gold situated in Hawaii, the Possessions of the United States and the Canal Zone.[1]

(a) *Conditions under which gold may be acquired, held, etc., in Hawaii, the Possessions of the United States and the Canal Zone during the period of 90 days after publication of this section.* For a period of 90 days from the date of publication in the FEDERAL REGISTER of the regulations in this section, gold bullion and foreign gold coin situated in Hawaii, a Possession of the United States or the Canal Zone may be acquired, held, transported, melted or treated, imported, exported, or earmarked, only to the extent permitted by and subject to the conditions prescribed in the regulations in this section.

(b) *Reports and applications for licenses.* Within 30 days from the date of publication in the FEDERAL REGISTER of the regulations in this section, every person in possession of, and every person owning, gold bullion and/or foreign gold coin (other than rare coin) situated in Hawaii, a Possession of the United States or the Canal Zone shall file a report in duplicate with the Director of the Mint. The report shall state the name and address of the person making the report, and furnish true and complete information relative to such coin and bullion, including the kind and amount of such coin and bullion, and, if held for another, the capacity in which held and the person for whom held. A report relating to gold coins shall also set forth a complete description of the coins, including the country of issue, date, denomination, and mint marks, if any. In addition to the report required to be filed under this section, every person who requires gold for legitimate and customary use in the industry, profession or art in which he is regularly engaged, and who owns or is in possession of gold bullion situated in Hawaii, a Possession of the United States or the Canal Zone, in an aggregate amount which exceeds 50 fine troy ounces of fine gold, shall, within the 30 day period specified for the filing of the report, file an application with the Director of the Mint on Form TG–12 for a license to hold such bullion.

(c) *Temporary authorization for holdings of gold during the period of issuance of licenses.* (1) Every person who is resident or domiciled in Hawaii, one of the Possessions of the United States or the Canal Zone, and who owns or has in his possession gold bullion and/or foreign gold coin concerning which a report has been filed under paragraph (b) of this section, is authorized to hold such gold within Hawaii, such Possession of the United States or the Canal Zone, respectively, for the 90 day period specified in paragraph (a) of this section.

(2) The exportation or transportation from Hawaii, the Possessions of the United States or the Canal Zone of gold bullion and gold coin is permitted only to the extent authorized in § 54.25(b), or a separate license issued pursuant to such section.

(d) *Disposition of gold holdings not authorized by the Gold Regulations or a license issued thereunder.* The mints, subject to the conditions specified in the general provisions governing the mints, are authorized during the 90-day period specified in paragraph (a) of this section, to purchase any gold bullion and foreign gold coin situated in Hawaii, the Possessions of the United States or the Canal Zone, which has not been held at any time in non-compliance with the Acts, orders, regulations, rulings, instructions or licenses issued thereunder, including the regulations in §§ 54.1 to 54.70. The price paid for all gold purchased by the mints under this paragraph shall be the price specified in § 54.44, $35 (less one-fourth of 1 percent per fine troy ounce of fine gold and less the applicable mint charges. Detailed instructions concerning the delivery of gold will be furnished to persons reporting, pursuant to paragraph (b) of this section, holdings of gold which are not required for legitimate and customary use in the industry, profession or art in which they are engaged.

(e) *Designation of offices for receipt of reports, applications, and deliveries of gold.* The offices designated below are authorized to receive for transmission to the mints, gold bullion and foreign gold coin delivered under paragraph (d) of this section for sale to the United States. Payment for gold so delivered, however, will be made only after actual receipt of the gold by the mints, and determination by the mints of the actual fine gold content thereof.

Place and Designated Office

Hawaii: Office of the Collector of Customs, Honolulu.
Puerto Rico: Office of the Collector of Customs, San Juan.
Virgin Islands: Office of the Collector of Customs, Charlotte Amalie.
Guam: Office of the Governor of Guam.
American Samoa: Office of the Governor of American Samoa.
Midway Islands: Office of the Commanding Officer, Naval Air Station.
Wake Island: Office of the Federal Aviation Agency Administrator.
Other Island Possessions: Nearest United States Naval Command Activity.
Canal Zone: Governor of the Canal Zone, Balboa Heights, Canal Zone.

NOTE: The reporting requirements of these regulations have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[SEAL] LAWRENCE B. ROBBINS,
Acting Secretary of the Treasury.

[F.R. Doc. 60–11222; Filed, Dec. 1, 1960; 8:49 a.m.]

[1] As used in this part, the term "Possessions of the United States" means Puerto Rico, Guam, the Virgin Islands, American Samoa, Midway Islands, Wake Island, Johnston Island, and Sand Island, Swan Island and the other Island Possessions of the United States.

Title 46—SHIPPING

Chapter II—Federal Maritime Board, Maritime Administration, Department of Commerce

SUBCHAPTER G—EMERGENCY OPERATIONS

[General Order 75, Rev., Amdt. 7]

PART 308—WAR RISK INSURANCE

Change in Expiration Dates

Section 308.6 *Period of interim binders if insurance thereunder does not attach*, § 308.106 *Standard form of war risk hull insurance interim binder*, § 308.206 *Standard form of war risk protection and indemnity insurance interim binder*, and § 308.305 *Standard form of Second Seamen's war risk interim binder* are hereby amended by changing the expiration dates appearing therein from "midnight, December 7, 1960, G.m.t." to "midnight, March 7, 1961, G.m.t."

(Sec. 204, 49 Stat. 1987, as amended; 46 U.S.C. 1114)

Dated: November 23, 1960.

By order of the Maritime Administrator.

THOMAS LISI,
Secretary.

Title 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 27—OFFICIAL MAIL

Official Mail Regulations

The regulations of the Post Office Department in Part 27—Federal Government Mail and Free Mail, as amended by Federal Register Document 60–3353, 25 F.R. 3171, are further amended by (1) changing the title caption of the part to read: "Part 27—Official Mail"; (2) revising and rearranging the regulations under new section headings for the purpose of clarification; and (3) by including additional departments and agencies authorized to mail under the "Postage and Fee Paid" endorsement. As so amended, Part 27 reads as follows:

Sec.
27.1 Members of Congress.
27.2 Executive and judicial officers.
27.3 Mail sent to government departments.
27.4 State employment security mailings.
27.5 Diplomatic and consular mail.
27.6 Absentee balloting materials.
27.7 Former Presidents and widows of former Presidents.
27.8 Pan America Union and Pan American Sanitary Bureau.

AUTHORITY: §§ 27.1 to 27.8 issued under R.S. 161, as amended, sec. 1303(d), 40 Stat. 1141, as amended; secs. 501, 2303, 4151–4156, 4158–4168, Pub. Law 86–682 (74 Stat. 580, 599, 600, 660–663); 2 U.S.C. 277, 5 U.S.C. 22, 39 U.S.C. 501, 2303, 4151–4156, 4158–4168.

§ 27.1 Members of Congress.

(a) *Collection of postage.* Postage on mail sent under the franking privilege by the Vice President, Members and Members-elect of Congress, the Resident Commissioner from Puerto Rico, the Secretary of The Senate, Sergeant at Arms of the Senate, and the Clerk of the House of Representatives is paid annually by a lump sum to the Post Office Department.

(b) *Description.* Official mail of Members of Congress is sent without prepayment of postage bearing written signature or a printed facsimile signature instead of a postage stamp. Mail accepted under frank, and the officials authorized to use franked mail, are shown in paragraph (c) of this section.

(c) *Authorized users.*

Persons authorized to use the frank	Matter that may be franked	Marking required	Period during which the frank may be used
Vice President of the United States, Members of Congress, Resident Commissioners, Secretary of the Senate, Sergeant at Arms of the Senate, and Clerk of the House.	Public documents printed by order of Congress.	The words *Public Document—Free* and the signature and title, either written or printed facsimile, of the person entitled to frank it, must appear on the address side.	Until the 30th day of June following expiration of their respective terms of office.
Members of Congress and Resident Commissioners.	Congressional Record or any part of it, or speeches or reports contained in it.	The words *Congressional Record or Part of Congressional Record—Free* and the signature and title, either written or printed facsimile, of the person entitled to frank it, must appear on the address side.	During term of office only.
Members of Congress.....	Seeds and agricultural reports from the Department of Agriculture.	The signature and title, either written or printed facsimile, of the person entitled to frank it, must appear on the address side.	Until the 30th day of June following the expiration of their terms of office.
Vice President of the United States, Members and Members-elect of Congress, Resident Commissioners, Secretary to the Senate, and Sergeant at Arms of the Senate.	Official correspondence not exceeding 4 ounces in weight. Official correspondence when addressed to a Government official by title may exceed 4 ounces in weight, but must not exceed 4 pounds.	The signature and title, either written or printed facsimile, of the person entitled to frank it, must appear on the address side.	Until the 30th day of June following expiration of their respective terms of office. When the position of Secretary of the Senate or Sergeant at Arms of the Senate is vacant, privilege may be exercised in officer's name by authorized persons.

(d) *Restrictions.* The following restrictions apply to franked mail:

(1) Official correspondence transmitted under frank of the Vice President, Members and Members-elect of Congress, Secretary of the Senate, Sergeant at Arms of the Senate, and Resident Commissioners, must be on official or departmental business.

(2) No franked mail will be admitted to the mail unless admissible as ordinary mail.

(3) A person entitled to use franked mail may not loan his frank or permit its use by any committee, organization, or association; or permit its use by any person for the benefit or use of any committee, organization, or association. This restriction does not apply to any committee composed of Members of Congress.

(4) Franked mail is forwarded like any other mail, but when once delivered to the addressee it may not be remailed. A package of franked pieces may be sent by a person entitled to the franking privilege, to one addressee, who, on receiving and opening the package, may on behalf of such person, place addresses on the franked articles and mail them.

(5) Franked mail is handled as ordinary mail. Fees for special services must be paid at the time of mailing.

(e) *Weight and size limits*—(1) *Weight.* Official correspondence is limited to 4 ounces, except that when addressed to a Government official by title the limit is 4 pounds.

(2) *Size.* No limit.

§ 27.2 Executive and judicial officers.

(a) *Collection of postage.* Departments, agencies, and establishments of the U.S. Government must reimburse the Post Office Department in amounts equivalent to the amount of postage and fees due on their mail for which the Post Office Department does not otherwise receive compensation. Instructions governing the manner of reimbursement for mailings made without postage or fees prepaid are issued by the Bureau of Finance which negotiates reimbursement agreements with the departments and agencies concerned.

(b) *Description.* The following kinds of mail may be sent as Federal Government mail by those authorized to use this privilege:

(1) Official mail relating exclusively to the business of the Government of the United States mailed by officers of the executive and judicial branches of the Government; official mail of legislative counsel for the House of Representatives and the Senate; official mail of the Superintendent of Documents; and official correspondence concerning the Congressional Directory under direction of the Joint Committee on Printing.

(2) All correspondence, bulletins, and reports relating to agricultural extension work and home economics carried on in cooperation with the United States Department of Agriculture, when mailed by the college officer or other person connected with the extension department of the college who has been designated by the Secretary of Agriculture. Mailings may be deposited by the designated officer only at the authorized post office. Correspondence must be conducted under the name of the designated officer. Correspondence with autograph signature may be sealed but all other matter must be left unsealed.

(3) Bulletins, reports, periodicals, reprints of articles, and other publications necessary for the dissemination of results or researches and experiments, including lists of publications available for distribution, when mailed by agricultural experiment stations designated by the act of March 2, 1887, as amended by the act of August 11, 1955, as follows:

The officer in charge of a station that claims the privilege of sending materials without prepayment of postage through the mail must file an application with the Bureau of Operations, Postal Services Division, through the post office where the station is located, stating the date of establishment of the station, its name or designation, its official organization, the names of its officers, the name of the college, school or institution to which it is attached, if any, the legislation of the State or Territory providing for its establishment, and any other legislation granting it the benefits of the act of Congress referred to in this section.

(4) Annual reports of Government-aided colleges established under the act of July 2, 1862, when addressed to the Secretary of the Interior, the Secretary of Agriculture, and to any other Government-aided college. The postmaster receiving the annual reports from an officer of the college will use a post office penalty envelope or label to send it through the mail.

(5) Copyright material sent to the Register of Copyrights with claim for registration, as follows:

(i) Postmasters receiving the claim for registration and any articles that are required to accompany the claim will use a post office penalty envelope or label to send the matter to the Register of Copyrights, Washington 25, D.C.

(ii) If requested to do so, the postmaster will give a receipt for articles delivered to him to accompany a claim for registration.

(iii) When desired, the person submitting copyright matter to the postmaster may also present the fee for copyright registration enclosed in a sealed envelope addressed to Register of Copyrights, Washington 25, D.C., which must have postage prepaid at the letter rate. The postmaster, after canceling the postage stamps, will enclose the envelope containing the fee together with the copyright material in the post office penalty envelope sent to the Register of Copyrights.

(iv) Matter for copyright enclosed in post office penalty envelopes will not be sent by registered mail unless the registry fee is prepaid.

(c) *Methods of preparing official mail*—(1) *Postage and fees paid.* (i) All official mail of authorized departments or agencies, subject to the weight and size limits, if any, for matter of its class, shall be given the postal service indicated on its cover when the mail is marked in the upper right corner of the

address side "Postage and Fees Paid". This marking may not be handwritten or typewritten.

(ii) Authorized departments and agencies are:

Agriculture, Department of.
Air Force, Department of.
Alaska International Rail and Highway Commission.
Army, Department of.
Atomic Energy Commission.
Bureau of the Budget.
Bureau of Prisons (or FBP).
Civil Service Commission.
Civil Aeronautics Board.
Coast Guard.
Commerce, Department of.
Council of Economic Advisers.
Development Loan Fund.
Employment Security Mail.
Federal Aviation Agency.
Federal Bureau of Investigation.
Federal Home Loan Bank Board.
Federal Housing Administration.
Federal Mediation and Conciliation Service.
Federal National Mortgage Association.
Federal Power Commission.
Federal Reserve System, Board of Governors of the.
Federal Trade Commission.
General Services Administration.
Health, Education, and Welfare, Department of.
Housing and Home Finance Agency.
Immigration and Naturalization Service.
Interior, Department of.
Internal Revenue Service.
International Cooperation Administration.
Interstate Commerce Commission.
Justice, Department of.
Labor, Department of.
Library of Congress.
Marine Corps.
National Aeronautics and Space Agency.
National Capital Housing Authority.
National Gallery of Art.
National Institutes of Health.
National Labor Relations Board.
National Science Foundation.
Navy, Department of.
Panama Canal Company.
President's Committee on Employment of the Physically Handicapped.
President's Council on Youth Fitness.
Public Housing Administration.
Railroad Retirement Board.
Saint Lawrence Seaway Development Corporation.
Secretary of Defense, Office of.
Securities and Exchange Commission.
Selective Service System.
Small Business Administration.
Smithsonian Institution.
State, Department of.
State Employment Security Offices (See § 27.4).
Tax Court of United States.
Tennessee Valley Authority.
Treasury, Department of.
U.S. Court of Claims.
U.S. Court of Customs and Patent Appeals.
U.S. Court of Military Appeals.
U.S. Courts.
U.S. Information Agency.
U.S. Supreme Court.
Veterans Administration.
Virgin Islands Corporation.

(iii) Mail sent as "Postage and Fees Paid" must show over the words "Official Business" in the upper left corner of the address side the name and address of the department, bureau, office, or officer.

(iv) Printed reply envelopes or labels marked "Postage and Fees Paid" and preaddressed to a Federal Government office or officer may be furnished to persons or concerns for convenience in submitting information for official purposes, or for delivery of official matter, subject to the following conditions:

(a) Reply envelopes or labels furnished to contractors must in every case bear printed return address of one of the agencies listed in subdivision (ii) of this subparagraph over the words "Official Business". No return name and address of a private person or firm may be shown.

(b) When a special service is required, the reply envelope or label must be preprinted with the type of special service desired. Users of reply labels may not add their own markings for these services.

(2) *Penalty.* Penalty mail, subject to the restrictions of paragraph (d) of this section, is sent without prepayment of postage. Envelopes, cards, labels, tags, and wrappers used in transmitting official mail under the penalty privilege must bear in the upper right corner of the address side the printed statement of the penalty of misuse: "Penalty for Private Use to Avoid Payment of Postage, $300." The printed statement of the penalty for misuse may not be handwritten or typewritten. They must also show, over the words "Official Business" in the upper left corner of the address side, the name and address of the department, bureau, office, or officer. The following markings are required, when applicable:

(i) Official mail of designated State extension directors must bear in the upper left corner the name of the agricultural college and the name of the post office at which the mail is to be accepted without prepayment of postage, followed by the name and title of the designated officer and the words "Cooperative Agricultural Extension Work—Acts of May 8 and June 30, 1914."

(ii) Official mailings by agricultural experiment stations must bear in the upper left corner of the address side the name of the station, the name of the post office at which the matter is to be accepted, and the name and title of the officer in charge of the station, followed by the word "Publication". The title of the bulletin or report may be used.

(3) *Prepaid postage.* Official mail which is not sent as penalty mail or as postage and fees paid mail must have postage prepaid. The regular rates and conditions apply except that postage on official mail weighing over 4 pounds may be paid at the fourth-class rates. See paragraph (e) (1) of this section.

(d) *Use.* (1) The markings authorized on official mail in paragraph (c) of this section may not be placed on other mail to avoid payment of postage or special service fees.

(2) Any department or office authorized to use the Official mail privilege may furnish self-addressed envelopes or labels to persons or concerns for their convenience in submitting official information desired by any U.S. Government department or agency. Reply envelopes may not be furnished to bidders or contractors, or to enable private persons or concerns to send without prepayment of postage reports or other information which they are required by law to make.

(3) The right of an officer to use the Official mail privilege ceases immediately on his going out of office.

(4) Official matter of those departments and agencies listed in paragraph (c) (1) (ii) of this section that is marked "Postage and Fees Paid" shall be given any special service, including airmail, when it is so marked by the sender without requiring prepayment of postage or fees. See § 111.2(d) (2) (ii) of this chapter regarding international mail.

(5) Airmail and the special services may not be given official mail in penalty envelopes without prepayment of air postage or prepayment of the appropriate fee for the special service requested. Exception: Penalty envelopes containing urgent official communications of the Postal Service may be sent airmail, or as registered, certified or special delivery mail without prepayment of the postage or fees.

(e) *Weight and size limits.*—(1) *Weight*—(i) *Penalty mail.* No article or package of official matter, or number of articles or packages of official matter constituting in fact a single shipment exceeding 4 pounds may be admitted to the mail under the "penalty" privilege except stamped paper and supplies sold or used by the Postal Service, and books or documents published or circulated by order of Congress when mailed by the Superintendent of Documents. Official matter in packages exceeding 4 pounds, if otherwise mailable, will be accepted on payment of postage at the fourth-class rates within the limits of weight prescribed for such matter. (See § 25.3 (a) of this chapter.) Such parcels may be sealed or unsealed, and may include written matter when mailed at those rates. Official matter of the Postal Service, and books and documents circulated by order of Congress when mailed by the Superintendent of Documents may weigh up to 70 pounds.

(ii) *Postage and fees paid mail.* Maximum weight same as § 25.3(a) of this chapter, except airmail. See § 26.3 of this chapter.

(iii) *Prepaid Government mail.* Maximum weight same as § 25.3(a) of this chapter, except airmail. See § 26.3 of this chapter.

(2) *Size.* There is no size limit prescribed for penalty mail. Other matter is subject to the size limits prescribed in § 25.3(b) of this chapter.

§ 27.3 Mail sent to Government Departments.

(a) *Census mail.* All mail, of whatever class, relating to the census and addressed to the Census Office, or to any official thereof, and endorsed "Official Business, Census Office", will be sent without prepayment of postage. Such mail may not exceed 4 pounds. (See § 27.2(a) regarding postage reimbursement.) Mail sent by the Census Bureau of the Department of Commerce or one of its officers in envelopes of that Bureau is subject to the conditions in § 27.2(c) (1).

(b) *Immigration and Naturalization Service mail.* All mail of whatever class, relating to naturalization, including duplicate papers required by law or regulation to be sent to the Service by clerks of courts addressed to the Department of Justice or the Immigration and Naturalization Service, or any official of either, and endorsed "Official Business", will be transmitted without prepayment of postage and marked "Naturalization Papers". Mail relating to naturalization may not exceed 4 pounds. (See § 27.2(a) regarding postage reimbursement.)

§ 27.4 State employment security mailings.

All mail of State employment security offices cooperating with the Department of Labor, that bears in the upper left corner of the address side the words "Official Business" printed immediately below the name and address of the State employment agency, and in the upper right corner the words "Postage and Fees Paid", will be accepted without prepayment of postage or fees. Postage and fees chargeable are collected periodically under a special arrangement with the Post Office Department. Such matter will be given the service indicated on the cover.

§ 27.5 Diplomatic and consular mail.

(a) *Diplomatic mail.* All correspondence (written or printed) of members of the Diplomatic Corps of the countries of the Postal Union of the Americas and Spain stationed in the United States may be reciprocally transmitted in the domestic mail without prepayment of postage. This correspondence may not exceed 4 pounds in weight. The envelopes, cards, tags, wrappers, and labels must show in the upper left corner of the address side the name of the ambassador or the minister, or the name of the embassy or legation, together with the post office address; and in the upper right corner the inscription "Diplomatic Mail" over the word "Free". These inscriptions may be handwritten, handstamped, or printed.

(b) *Consular mail.* The official correspondence (written or printed) exchanged between consulates (consuls and vice consuls) of the countries of the Postal Union of the Americas and Spain stationed in the United States and correspondence directed by those consulates to the Government of the United States or their respective embassies or legations or to officials of State or local governments may be transmitted in the domestic mail without prepayment of postage. This correspondence may not exceed 4 pounds in weight. The envelopes, labels, etc., covering correspondence of consulates must show over the words "Official Correspondence", in the upper left corner of the address side, the name and address of the consul or consulate, and the name of the country represented; and, in the upper right corner, the inscription "Consular Mail" over the word "Free". These inscriptions may be handwritten, handstamped, or printed.

§ 27.6 Absentee balloting materials.

(a) *Purpose.* Balloting materials consisting of post card applications, ballots, voting instructions, and envelopes, are sent through the mail without prepayment of postage, including airmail postage, for the purpose of enabling every person in any of the following categories to vote by absentee ballot when he is absent from the place of his voting residence and is otherwise eligible to vote:

(1) Members of the Armed Forces while in active service and their spouses and dependents.

(2) Members of the merchant marine of the United States and their spouses and dependents.

(3) Civilian employees of the United States in all categories serving outside the United States and the District of Columbia and their spouses and dependents when residing with or accompanying them, whether or not the employee is subject to the civil-service laws and the Classification Act of 1949, as amended, and whether or not paid from funds appropriated by the Congress.

(4) Members of religious groups or welfare agencies assisting members of the Armed Forces, who are officially attached to and serving with the Armed Forces, and their spouses and dependents.

(b) *Elections affected.* The materials may be sent for any general election of electors for President and Vice President or of Senators and Representatives in Congress and for other general, primary, and special elections.

(c) *Markings required on ballot envelopes and post card applications.* (1) Envelopes used to send balloting material and envelopes supplied for return of the ballot must have printed across the face two parallel horizontal red bars, each ¼ inch wide, extending from one side of the envelope to the other side, with an intervening space of ¼ inch, the top bar to be 1¼ inches from the top of the envelope, and the words "Official Election Balloting Material—Airmail", or similar language as prescribed by State law, between the bars. There must be printed in the upper right corner of each envelope in a rectangular box the words "Free of U.S. Postage, Including Airmail". All printing on the face must be in red with an appropriate inscription or blanks for return address of sender in the upper left corner.

Name and complete military, naval, or merchant marine address

_____

_____

§ 27.7 Former Presidents and widows of former Presidents.

All mail of former United States Presidents Herbert Hoover and Harry S. Truman; and all mail of Anna Eleanor Roosevelt, widow of former President Franklin Delano Roosevelt, and Edith Bolling Wilson, widow of former President Woodrow Wilson, shall be accepted without prepayment of postage if it bears the written signature of sender, or facsimile signature, in the upper right corner of the address side.

§ 27.8 Pan American Union and Pan American Sanitary Bureau.

The Pan American Union and Pan American Sanitary Bureau are authorized by law to transmit official matter without prepayment. The mail must bear the printed clause citing the penalty for private use instead of postage stamps. It must be prepared like Federal Government penalty mail and is subject to the same restrictions. See § 27.2 (c)(2), (d), and (e).

NOTE: The corresponding Postal Manual part is 137.

[SEAL] HERBERT B. WARBURTON,
General Counsel.

[F.R. Doc. 60-11170; Filed, Dec. 1, 1960; 8:45 a.m.]

Title 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

SUBCHAPTER L—MINERAL LANDS

[Circular No. 2053]

PART 192—OIL AND GAS LEASES

Leasing of Certain Lands

Pursuant to the authority vested in the Secretary by the Act of February 25, 1920 (41 Stat. 437; 30 U.S.C. 181, et seq.), as amended, and the Act of August 7, 1947 (30 U.S.C. 359, 61 Stat. 915), Part 192 of 43 CFR is hereby amended. The purpose of this amendment is to provide that no drilling or prospecting under any lease on wildlife refuge lands be conducted except with prior consent of the Secretary.

Subparagraph (1) of paragraph (b) of § 192.9 is amended to read as follows:

§ 192.9 Leasing of wildlife refuge lands, game range lands and coordination lands.

* * * * *

(b) *Leasing policy and procedure.* (1) No offers for oil and gas leases covering wildlife refuge lands will be accepted and no leases covering such lands will be issued except as provided in subparagraph (2) of this paragraph. There shall be no drilling or prospecting under any lease heretofore or hereafter issued on lands within a wildlife refuge except with the consent and approval of the Secretary of the Interior with the concurrence of the Fish and Wildlife Service as to the time, place and nature of such operations in order to give complete protection to wildlife populations and wildlife habitat on the areas leased, and all such operations shall be conducted in accordance with the stipulations in the Bureau of Land Management stipulation form 4-1383, issued pursuant to this section.

Since the purpose of this amendment is further to protect wildlife refuge lands under the leasing policy prescribed in subparagraph (1) of paragraph (b) of § 192.9, published in 24 F.R. 227, January 11, 1958, it is deemed that notice of proposed rule-making would be impracticable, contrary to the public interest and unnecessary. This amendment shall become effective December 1, 1960.

FRED A. SEATON,
Secretary of the Interior.

DECEMBER 1, 1960.

[F.R. Doc. 60-11292; Filed, Dec. 1, 1960; 11:27 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Agency

[Reg. Docket No. 570; Reg. SR-443]

PART 49—TRANSPORTATION OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

Authority To Deviate From Certain Provisions of the Civil Air Regulations Within the State of Alaska

Correction

In F.R. Doc. 60-10951, appearing at page 11146 of the issue for Thursday, November 24, 1960, in the third column, the first paragraph should read: "In consideration of the foregoing, the following Special Civil Air Regulation is hereby adopted to become effective November 14, 1960:".

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 585; Amdt. 229]

PART 507—AIRWORTHINESS DIRECTIVES

Lockheed 188 Series Aircraft

Amendment 163 (25 F.R. 4677) imposed a 300-hour repetitive inspection on Lockheed 188 Series aircraft due to failures of the aileron balance-weight attaching angles, pending development of a reinforcement modification. These FAA approved modifications are now provided in a new directive superseding Amendment 163. When incorporated in the aircraft the need for special inspections will be eliminated.

Since this amendment affords operators a means for relief from special inspections and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and it may be made effective upon publication in the FEDERAL REGISTER.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is hereby amended by adding the following new airworthiness directive:

LOCKHEED. Applies to all Model 188 Series aircraft.

Compliance required as indicated.

As a result of reported cracked aileron counterweight attaching angles, the following is required:

(a) At intervals not to exceed 300 hours' time in service, inspect for cracks in the angles which attach the aileron balance-weight brackets to the aileron spar at aileron stations 13.85, 30.95, 48.01, 82.16, 116.31, 150.46 and 184.61. Cracked angles must be replaced before further flight.

(b) The replacement of angles found to be cracked must be made in accordance with either (1) or (2) below:

(1) Original angles may be replaced with parts having the same dimensions as the original parts but fabricated from 0.090-inch thickness AISI 8630 or AISI 4130 steel heat-treated to 150,000-170,000 p.s.i. ultimate tensile strength, cadmium plated and baked. Lockheed Process Specifications Nos. 522, 491, and 170 or FAA approved equivalent must be used for the respective processes indicated.

(2) Original angles may be replaced in accordance with the instructions in the kits outlined in Lockheed Service Bulletin 88/SB-451 or FAA approved equivalent. This service bulletin also contains detailed instructions for accomplishing this modification.

(c) After replacement of the original parts in accordance with the instructions in (b), subsequent inspections of replaced parts may then be made at normal inspection periods.

This supersedes Amendment 163, 25 F.R. 4677.

This amendment shall become effective December 2, 1960.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on November 28, 1960.

OSCAR BAKKE,
Director, Bureau of Flight Standards.

[F.R. Doc. 60-11189; Filed, Dec. 1, 1960; 8:45 a.m.]

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Reg. Docket No. 564; Amdt. 194]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

The amendments to standard instrument approach procedures contained herein are being adopted to become effective when indicated in order to promote safety. The revised procedures supersede the existing procedures of the same classification now in effect for the airports specified therein. For the convenience of the users, the revised procedures specify the complete procedure and indicate the changes to the existing procedures.

As a situation exists which demands immediate action in the interests of safety in air commerce, I find that compliance with the notice, procedure and effective date provisions of section 4 of the Administrative Procedure Act would be contrary to the public interest and is therefore not required.

Pursuant to the authority delegated to me by the Administrator (24 F.R. 5662), Part 609 is amended as follows:

1. The low or medium frequency range procedures prescribed in § 609.100(a) are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots

5. The instrument landing system procedures prescribed in § 609.400 are amended to read in part:

ILS STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less: 65 knots or less	2-engine or less: More than 65 knots	More than 2-engine, more than 65 knots

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[FCC 60-1401]

PART 1—PRACTICE AND PROCEDURE

PART 12—AMATEUR RADIO SERVICE

New Amateur Application Forms

In the matter of amendment of Parts 1 and 12 of the Commission's rules to provide for new amateur application forms.

1. The Commission has reviewed the application forms currently used by applicants seeking authorizations for amateur operator and/or stations in the Amateur Radio Service, and has determined that by appropriate alteration thereof this Service can be administered more efficiently. It is anticipated that adoption of the changes described below will result in the receipt of fewer defective applications and will enable the Commission's staff to process and issue licenses more expeditiously.

2. At the present time, FCC Form 405–A (renewal), FCC Form 602 (Amateur Station at a Military Post), and FCC Form 610 (new or modified operator and/or station license, club station license, or additional station license) are the application forms in use. After the dates specified in this Order, the first two forms will no longer be used; the format and scope of FCC Form 610 will be altered, and a new Form 610–A will be initiated.

3. The new form 610–A will be used by applicants for an additional amateur station, an amateur club station, and for an "amateur station for recreation under Military auspices." This latter title will supersede the one used to describe the present "602 station": Amateur Station at a Military Post. This will more clearly identify these stations as amateur rather than Military in character. Any request for renewals and/or modification of any of the above classes of station shall also be submitted on this Form 610–A. An application submitted on this form particularly for renewal or modification will then contain on its face sufficient information to enable the Commission's staff to process the request without the necessity of time-consuming research of the Commission's records. Since all applicants using this form will be seeking stations of a somewhat similar nature, it has been possible to design many questions which are uniquely applicable to their operation. After completing this common information, the applicant need only supply a few additional details relevant to the type of station for which authorization is requested.

4. All requests, whether for new, modified, or renewal authorizations, other then those described in paragraph 3, supra, shall be made on FCC Form 610. This form will then cover applications for an amateur operator's license, a combination operator and station license, and a station license in cases where the applicant already holds an operator's license only. As is the case with the Form 610–A, the same advantage of time saved in processing will accrue to the Commission's staff and, hence, to the applicants by using this amended form.

5. The use of FCC Form 405–A for renewal has been misunderstood by many licensees resulting in the submission of an excessive number of defective applications. The form has been erroneously used by amateurs who really are requesting modifications; it has been mistaken for the amateur authorization itself, and it contains such limited information that it is inadequate as an aid to the Commission to determine whether a renewal of a license would be in the public interest. The new procedure will standardize amateur applications, thus, reducing the number of defective ones, and enabling the staff to process all applications more rapidly.

6. Presently, an application for renewal of an amateur license may be submitted within 120 days of the expiration date of the license. Applications for renewal in the other Safety and Special Radio Services must be filed within 60 days of the expiration date. The additional time permitted in the Amateur Service was to aid the Commission's staff in processing a tremendous influx of renewal applications filed immediately subsequent to World War II. Since this situation no longer exists, it appears desirable from the point of view of administrative consistency to restore the 60-day time limit to the Amateur Service. However, it is recognized that it would be unfair to require that renewal applicants use the new forms as soon as they are generally available and to comply with the 60-day period immediately. Many of the old forms are currently in circulation, and it would be difficult to recall all of them before the appearance of the new forms. Similarly, many renewal applications submitted within the 120-day period are currently pending and would be patently unfair to return them as being prematurely filed. Therefore, the Commission will accept amateur renewal applications filed on FCC Form 405–A, and under existing time limits, until June 30, 1961.

7. Use of the new Forms 610 and 610–A will be encouraged as soon as they are ready for distribution. Part 1 and Part 12 of the Commission's rules will be amended as set forth in the attached Appendix to reflect procedures to be followed when using the new forms. However, all forms currently in use may continue to be filed until June 30, 1961.

8. Since these changes are editorial in nature and are to promote administrative efficiency, it appears that they can be effected without the notice of proposed rule making and public procedures contemplated by section 4 of the Administrative Procedure Act. Authority for these amendments are contained in sections 4(i) and 303 of the Communications Act of 1934, as amended.

9. *Therefore, it is ordered,* This 22d day of November 1960, that Parts 1 and 12 of the Commission's rules are amended as set forth below, effective January 3, 1961.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U.S.C. 303)

Released: November 28, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

A. Part 1 of the Commission's rules is amended as follows:

1. Section 1.502(a) is amended to read:

§ 1.502 Where the applications are to be filed.

(a) Applications for any class of amateur operator license requiring examination under Part 12 of this Chapter shall be filed in the nearest FCC Field Office, listed in § 0.49 of the Commission's Statement of Organization, Delegations of Authority, and Other information.

2. Section 1.522 is amended by deleting "602, Application for Amateur Station License at a Military Post" and "610, Application for Amateur Operator and/or Station License" and by adding the following:

§ 1.522 Forms to be used.

* * * * *

610 Application for Amateur Operator License or for Combination of Station License with Operator License.

610–A Application for Additional Amateur Station, Amateur Club Station License, and Amateur Station for Recreation under Military Auspices.

3. Section 1.526 is revised by amending paragraphs (a) and (b), and by adding a new paragraph (c). As revised, § 1.526 reads as follows:

§ 1.526 Application for renewal of license.

(a) Application for renewal of station license shall be submitted on FCC Form 405–A (except as noted in paragraph (b) of this section).

(b) Application for renewal of a station license for an additional amateur station, an amateur club station, or an amateur station for recreation under Military auspices shall be filed on FCC Form 610–A; applications for renewal of an amateur operator's license or of a combined operator-station license shall be submitted on FCC Form 610: *Provided,* That, until June 30, 1961, all such applications for renewal may be also submitted on FCC Form 405–A. Application for renewal of authorization to operate an amateur station in the Radio Amateur Civil Emergency Service (RACES) shall be filed on FCC Form 481–1 and shall be submitted concurrently with the application for renewal of the basic amateur radio station license. Application for renewal of Civil Air Patrol radio station authorizations shall be submitted on FCC Form 480. Application for renewal of aircraft radio station licenses, other than Civil Air Patrol, shall be submitted on FCC Form 404. Application for renewal of ground station authorizations in the Aviation Services, other than Civil Air Patrol, shall be submitted on FCC Form 406. Application for renewal of Citizens Radio Station License shall be submitted on FCC Form 505.

(c) All applications for renewal of license shall be filed during the last 60 days of the license term. In any case in which the licensee has, in accordance with the provisions of this Chapter made timely and sufficient application for renewal of license, no license with reference to any activity of a continuing nature shall expire until such application shall have been finally determined.

B. Part 12 of the Commission's rules is amended as follows:

1. In § 12.27 paragraph (d) is amended to read as follows and paragraphs (e) and (f) are deleted.

§ 12.27 Renewal or modification of amateur operator license.

* * * * *

(d) Application for renewal and/or modification (change of address, etc.) of an amateur operator license shall be submitted on FCC Form 610 and shall be accompanied by the applicant's license. Unless otherwise directed by the Commission, each application for renewal of license shall be filed only during the last 60 days of the license term or within a period of grace of one year after the expiration date of such license. During this one year period of grace an expired license is not valid. A renewed license issued upon the basis of an application filed during the grace period will be dated currently and will not be backdated to the date of expiration of the license being renewed. In any case in which the licensee has, in accordance with the Commission's rules made timely and sufficient application for renewal of license, no license with reference to any activity of a continuing nature shall expire until such application shall have been finally determined. In accordance with § 12.29, a license for modification only will be dated to expire on the same date as the license being modified.

2. Section 12.61 is amended to read as follows:

§ 12.61 Eligibility for amateur station license.

A license for an amateur station will be issued in response to proper application therefor to a licensed amateur operator who has made a satisfactory showing of control of the transmitting station for which license is desired and of control of the specific premises upon which all of the station apparatus is to be located, at a designated fixed location. An amateur station license may also be issued to an individual, not a licensed amateur operator (other than an alien or a representative of an alien or of a foreign government), who is in charge of a proposed amateur station for recreation under Military auspices (only of the Armed Forces of the United States) which is to be located in approved public quarters but not operated by the United States Government.

3. Section 12.63 is amended to read as follows:

§ 12.63 Application for amateur station license.

(a) Each application for an additional station, a club station, or a station for recreation under Military auspices shall be made in writing, subscribed and verified on FCC Form 610–A. An application for a station license, where the amateur already holds an operator license only or, where the applicant is concurrently applying for an operator license, shall be made in writing, subscribed and verified on FCC Form 610.

(b) One application and all papers incorporated therein and made a part thereof shall be submitted for each amateur station license. If the application is for station license only, it shall be filed directly with the Commission at its Washington 25, D.C., office. If the application also contains application for any class of amateur operator license, it shall be filed in accordance with the provisions of § 12.22.

4. In § 12.64, the introductory text of paragraph (b) and subparagraph (6) of paragraph (b) are amended to read as follows:

§ 12.64 Location of station.

* * * * *

(b) Authority for operation of an amateur station with the licensed operator on duty at a specific remote control point in lieu of the remote transmitter location may be granted upon filing an application for a modified station license on FCC Form 610, or FCC Form 610–A, as appropriate, and provided that the following conditions are met:

* * * * *

(6) In the event that operation of an amateur transmitter from a remote control point by radio is desired, an application for a modified station license on FCC Form 610 or FCC Form 610–A, as appropriate, should be submitted with a letter requesting authority to operate in such a manner stating that the controlling transmitter at the remote control location will operate within amateur frequency bands 220 megocycles or higher and that there will be full compliance with subparagraphs (1) through (5) of this paragraph. Supplemental statements and diagrams should accompany the application and show how radio remote control will be accomplished and what means will be employed to prevent unauthorized operation of the transmitter by signals other than those from the controlling unit. There should be included complete data on control channels, relays and functions of each, directional antenna design for the transmitter and receiver in the control circuit and means employed for turning the main transmitter on and off from the remote control location.

5. Section 12.67 is amended to read as follows:

§ 12.67 Renewal and/or modification of amateur station license.

Application for renewal and/or modification (change of address, etc.) of an additional station license, a club station license, a station for recreation under Military auspices shall be submitted on FCC Form 610–A. Application for renewal and/or modification (change of address, etc.) of any other station license shall be submitted on FCC Form 610. In every case the application should be accompanied by the applicant's license. Unless otherwise directed by the Commission, each application for renewal of license shall be filed during the last 60 days of the license term or within a period of grace of one year after the expiration date of such license. During this one-year period of grace, an expired license is not valid. A renewed license issued upon the basis of an application filed during the grace period will be dated currently and will not be backdated to the date of expiration of the license being renewed. In any case in which the licensee has, in accordance with the provisions of this Chapter, made timely and sufficient application for renewal of license, no license with reference to any activity of a continuing nature shall expire until such application shall have been finally determined. In accordance with § 12.65, a modified license will be dated to expire on the same date as the license being modified.

[F.R. Doc. 60-11226; Filed, Dec. 1, 1960; 8:50 a.m.]

[Docket No. 11654; FCC 60-1400]

PART 5—EXPERIMENTAL RADIO SERVICES (OTHER THAN BROADCAST)

PART 9—AVIATION SERVICES

PART 10—PUBLIC SAFETY RADIO SERVICES

PART 11—INDUSTRIAL RADIO SERVICES

PART 16—LAND TRANSPORTATION RADIO SERVICES

PART 19—CITIZENS RADIO SERVICE

PART 21—DOMESTIC PUBLIC RADIO SERVICES (OTHER THAN MARITIME MOBILE)

Type Acceptance of Transmitters, Bandwidth, and Spurious Emissions

In the matter of amendment of Parts 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 16, 19 and 21 of the Commission's Rules concerning type acceptance of transmitters, bandwidth and spurious emissions, Docket No. 11654.

1. On March 21, 1956, the Commission adopted a notice of proposed rule making in the above-entitled matter, which notice was published in the FEDERAL REGISTER on March 28, 1956 (21 F.R. 1903). Comments were to be filed by

June 1, 1956, and replies within ten days thereafter. The First Report and Order in this matter, adopted August 1, 1957 (22 F.R. 6346) amended § 8.136 of the Commission's rules. The Second Report and Order in this proceeding, adopted November 5, 1958 (23 F.R. 8797) amended § 7.137 of the rules.

2. Since the notice of proposed rule making was issued, the domestic public radio services, then regulated under Part 6, have been made the subject of a new Part 21; accordingly, the title of this proceeding is hereby amended to include Part 21.

3. This Report and Order is directed to amendment of Parts 5, 9, 10, 11, 16, 19 and 21 by revising the specifications for attenuation of unwanted emissions in the vicinity of the assigned frequency. At the same time, the tables of spurious emission specifications contained in Parts 5, 10, 11 and 16 are being revised to provide a formula in place of the tables, the formula being approximately equivalent to the previous tabular specifications.

4. The pertinent comments received in this proceeding have been discussed in the First Report and Order and that discussion need not be repeated here. Specifically, the instant action provides a uniform specification of 35 decibels attenuation for unwanted emissions on frequencies which are removed from the assigned frequency by more than 100 per cent up to and including 250 per cent of the authorized bandwidth, in lieu of the more stringent requirements previously applicable.

5. The spurious emission specifications in §§ 5.103, 10.104, 11.104 and 16.104 are in tabular form and provide discrete values of attenuation requirements which changed in steps of 10 or 20 decibels at certain values of transmitter power input. In other rule Parts 3, 8, 9 and 21, the corresponding specifications are expressed in terms of a formula which provides a continuous range of attenuation values based on transmitter input or output power, resulting in a fixed level of spurious emission power specification at 50 microwatts, subject to an attenuation limit of 80 decibels. This formula, 43 plus 10Log_{10} (output power in watts) decibels, or 40 plus 10Log_{10} (input power in watts) decibels, assuming 50 per cent efficiency, is approximately equivalent to or less stringent than the values given in the corresponding tables heretofore used in Parts 5, 10, 11 and 16. It is desirable that, where feasible, the corresponding technical specifications in the respective Rule Parts be equivalent, particularly since many types of transmitters may be designed for use in several different services. In this case, it appears that this equivalence should be achieved by amending §§ 5.103, 10.104, 11.104 and 16.104 to specify spurious emission attenuation in terms of the formula 43 plus 10Log_{10} (mean output power in watts). For clarification, the use of mean power is specified both for spurious emissions and for the output power in order to encompass all of the varied kinds of emission, some of which do not employ a carrier, which are coming into general use.

6. The record in this proceeding includes comments filed pursuant to a further notice of proposed rule making in Dockets 11513, 11678 and 11654, adopted October 16, 1957, which relates to the use of single sideband transmission in the aviation radio services (Part 9). Since no decision has been reached as yet in Dockets 11513 and 11678 regarding single sideband, and since the comments filed pursuant to the further notice of proposed rule making are also on file in Dockets 11513 and 11678, it is unnecessary to keep the instant proceeding (Docket 11654) open pending disposition of the other two dockets (11513 and 11678). When technical standards for single sideband transmission are promulgated, amendment of the rules adopted herein may be necessary.

7. The record in this proceeding also includes comments pertaining to the specification of spurious emissions for standard, FM and television broadcast transmitters. Specifications for standard and FM broadcast transmitters were adopted September 2, 1959 in Docket 11233 (24 F.R. 7274) by a Report and Order amending §§ 3.40 and 3.317 which took into consideration the record in the instant proceeding. Amendment of the television broadcast specifications has been considered in the instant proceeding; however, it is found that there is insufficient information in the record to warrant adoption of revised television broadcast spurious emission specifications. Likewise, no action is being taken in this proceeding to amend Parts 4 and 6.

8. The notice of proposed rule making in the instant proceeding included proposed changes in § 2.524, concerning bandwidth and spurious emission measurements for type acceptance to require measurement of signal components within 100 percent of the authorized bandwidth removed from the carrier frequency and to direct particular attention to sidebands removed from the carrier by 100 percent or more of the authorized bandwidth. Further consideration of this proposal, however, indicates that the existing language of § 2.524(e), together with the amended specifications adopted in the instant proceeding for the various radio services, requires measurement of these sidebands and signal components without the necessity for the proposed amendment of § 2.524. Consequently, § 2.524 is not being amended in this proceeding.

9. In view of the foregoing: *It is ordered,* Under the authority contained in sections 4(i), 301 and 303 of the Communications Act of 1934, as amended, that Parts 5, 9, 10, 11, 16, 19 and 21 of the Commission's rules are amended, effective January 1, 1961, as set forth below and that the instant proceedings are hereby terminated.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interpret or apply secs. 301, 303, 48 Stat. 1081, 1082; 47 U.S.C. 301, 303)

Adopted: November 22, 1960.

Released: November 28, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

1. Section 5.103(b) is amended to read as follows:

§ 5.103 Emission limitations.

* * * * *

(b) The mean power of emissions shall be attenuated below the mean output power of the transmitter in accordance with the following schedule:

(1) On any frequency removed from the assigned frequency by more than 50 percent up to and including 100 percent of the authorized bandwidth: at least 25 decibels;

(2) On any frequency removed from the assigned frequency by more than 100 percent up to and including 250 percent of the authorized bandwidth: at least 35 decibels;

(3) On any frequency removed from the assigned frequency by more than 250 percent of the authorized bandwidth: at least 43 plus 10Log_{10} (mean output power in watts) decibels or 80 decibels, whichever is the lesser attenuation.

2. Section 9.183(a) is amended to read as follows:

§ 9.183 Emission limitations.

(a) The mean power of emission shall be attenuated below the mean output power of the transmitter in accordance with the following schedule:

(1) On any frequency removed from the assigned frequency by more than 50 percent up to and including 100 percent of the authorized bandwidth: at least 25 decibels;

(2) On any frequency removed from the assigned frequency by more than 100 percent up to and including 250 percent of the authorized bandwidth: at least 35 decibels;

(3) On any frequency removed from the assigned frequency by more than 250 percent of the authorized bandwidth:

(i) Aircraft stations below 30 Mc: 40 decibels,

(ii) Aircraft stations above 30 Mc and all ground stations: 43 plus 10Log_{10} (mean output power in watts) decibels.

3. Section 10.104(c) is amended to read as follows:

§ 10.104 Emission limitations.

* * * * *

(c) The mean power of emissions shall be attenuated below the mean output power of the transmitter in accordance with the following schedule:

(1) On any frequency removed from the assigned frequency by more than 50 percent up to and including 100 percent of the authorized bandwidths: At least 25 decibels;

(2) On any frequency removed from the assigned frequency by more than 100 percent up to and including 250 percent of the authorized bandwidth: At least 35 decibels;

(3) On any frequency removed from the assigned frequency by more than 250 percent of the authorized bandwidth: At least 43 plus 10Log_{10} (mean output power in watts) decibels or 80 decibels, whichever is the lesser attenuation.

4. Section 11.104(c) is amended to read as follows:

§ 11.104 Emission limitations.

* * * * *

(c) The mean power of emissions shall be attenuated below the mean output power of the transmitter in accordance with the following schedule:

(1) On any frequency removed from the assigned frequency by more than 50 percent up to and including 100 percent of the authorized bandwidth: At least 25 decibels;

(2) On any frequency removed from the assigned frequency by more than 100 percent up to and including 250 percent of the authorized bandwidth: At least 35 decibels;

(3) On any frequency removed from the assigned frequency by more than 250 percent of the authorized bandwidth: At least 43 plus 10Log_{10} (mean output power in watts) decibels or 80 decibels, whichever is the lesser attenuation.

5. Section 16.104(c) is amended to read as follows:

§ 16.104 Emission limitations.

* * * * *

(c) The mean power of emissions shall be attenuated below the mean output power of the transmitter in accordance with the following schedule:

(1) On any frequency removed from the assigned frequency by more than 50 percent up to and including 100 percent of the authorized bandwidth: At least 25 decibels;

(2) On any frequency removed from the assigned frequency by more than 100 percent up to and including 250 percent of the authorized bandwidth: At least 35 decibels;

(3) On any frequency removed from the assigned frequency by more than 250 percent of the authorized bandwidth: At least 43 plus 10Log_{10} (mean output power in watts) decibels or 80 decibels, whichever is the lesser attenuation.

6. Section 19.35(d) is amended to read as follows:

§ 19.35 Emission limitations.

* * * * *

(d) The mean power of emissions shall be attenuated below the mean output power of the transmitter in accordance with the following schedule:

(1) On any frequency removed from the assigned frequency by more than 50 percent up to and including 100 percent of the authorized bandwidth: At least 25 decibels;

(2) On any frequency removed from the assigned frequency by more than 100 percent up to and including 250 percent of the authorized bandwidth: At least 35 decibels;

(3) On any frequency removed from the assigned frequency by more than 250 percent of the authorized bandwidth, at least the amounts indicated in the following table:

Maximum authorized plate power input to final radio frequency stage:	*Attenuation (db)*
Over 3 watts	50
3 watts or less	[1] 40

[1] In the case of Class B stations having a maximum plate power input to the final radio frequency stage of 3 watts or less, any emission appearing on any frequency within a band allocated to industrial, scientific and medical equipment under the provisions of Part 2 of this chapter shall be attenuated at least 30 db.

7. Section 21.106 is amended to read as follows:

§ 21.106 Emission limitations.

(a) The mean power of emissions shall be attenuated below the mean output power of the transmitter in accordance with the following schedule:

(1) On any frequency removed from the assigned frequency by more than 50 percent up to and including 100 percent of the authorized bandwidth: At least 25 decibels;

(2) On any frequency removed from the assigned frequency by more than 100 percent up to and including 250 percent of the authorized bandwidth: At least 35 decibels;

(3) On any frequency removed from the assigned frequency by more than 250 percent of the authorized bandwidth: At least 43 plus 10Log_{10} (mean output power in watts) decibels, or 80 decibels, whichever is the lesser attenuation.

(b) When an emission outside of the authorized bandwidth causes harmful interference, the Commission may, at its discretion, require greater attenuation than specified in paragraph (a) of this section.

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1954) Part 48]

MANUFACTURERS AND RETAILERS EXCISE TAXES

Laminated Tires

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth below in tentative form are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D.C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner within the 30-day period. In such a case, a public hearing will be held and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] DANA LATHAM,
Commissioner of Internal Revenue.

In order to conform the Manufacturers and Retailers Excise Tax Regulations (26 CFR Part 48) to the Act of April 22, 1960 (Public Law 86-440, 74 Stat. 80), such regulations are amended as follows:

PARAGRAPH 1. Section 48.4071 is amended to read as follows:

§ 48.4071 Statutory provisions; imposition of tax.

SEC. 4071 *Imposition of tax*—(a) *Imposition and rate of tax.* There is hereby imposed upon the following articles, if wholly or in part of rubber, sold by the manufacturer, producer, or importer, a tax at the following rates:

(1) Tires of the type used on highway vehicles, 8 cents a pound.

(2) Other tires (other than laminated tires to which paragraph (5) applies), 5 cents a pound.

(3) Inner tubes for tires, 9 cents a pound.

(4) Tread rubber, 3 cents a pound.

(5) Laminated tires (not of the type used on highway vehicles) which consist wholly of scrap rubber from used tire casings with an internal metal fastening agent, 1 cent a pound.

(b) *Determination of weight.* For purposes of this section, weight shall be based on total weight, except that in the case of tires such total weight shall be exclusive of metal rims or rim bases. Total weight of the articles shall be determined under regulations prescribed by the Secretary or his delegate.

(c) *Rate reduction.* On and after July 1, 1972—

(1) The tax imposed by paragraph (1) of subsection (a) shall be 5 cents a pound; and

(2) Paragraph (4) of subsection (a) shall not apply.

[Sec. 4071 as amended and in effect Jan. 1, 1959, and as further amended by Act of Apr. 22, 1960 (Pub. Law 86-440, 74 Stat. 80)]

PAR. 2. Paragraph (b) (1) of § 48.4071-1 is amended to read as follows:

§ 48.4071-1 Imposition and rates of tax.

* * * * *

(b) *Rates and computation of tax*—(1) *Rates of tax.* Tax is imposed upon each of the above-mentioned taxable articles at the rate applicable on the date on which the article is sold, as specified below:

	Cents per pound
(i) *Tires:*	
(a) Of the type used on highway vehicles;	
(1) For the period January 1, 1959, to June 30, 1972, inclusive	8
(2) On or after July 1, 1972	5
(b) Of the type used on other than highway vehicles (excluding laminated tires)	5
(c) Laminated tires:	
(1) For the period January 1, 1959, to May 31, 1960, inclusive	5
(2) On or after June 1, 1960	1
(ii) Inner tubes	9
(iii) Tread rubber:	
For the period January 1, 1959, to June 30, 1972, inclusive	3

For definitions of the terms "tires of the type used on highway vehicles" and "laminated tires", see paragraphs (c) and (f) of § 48.4072-1.

PAR. 3. Section 48.4072-1 is amended by striking paragraph (f) and inserting the following:

§ 48.4072-1 Definitions.

* * * * *

(f) *Laminated tires.* The term "laminated tires", for purposes of the tax imposed by section 4071, means tires (1) which are not "tires of the type used on highway vehicles" within the meaning of paragraph (c) of this section, and (2) which consist wholly of scrap rubber from used tire casings with an internal metal fastening agent.

(g) *Cross references.* For other definitions, see §§ 48.0-2 and 48.7701.

[F.R. Doc. 60-11221; Filed, Dec. 1, 1960; 8:49 a.m.]

DRAWBACK ON DISTILLED SPIRITS USED IN MANUFACTURING NON-BEVERAGE PRODUCTS

Notice of Proposed Rule Making

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth below in tentative form are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate, to the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D.C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Director within the 30-day period. In such a case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954.

(68A Stat. 917; 26 U.S.C. 7805)

[SEAL] DANA LATHAM,
Commissioner of Internal Revenue.

The purposes of this Treasury decision are (1) to delete strictly internal management instructions, (2) to amend provisions relating to special tax claims to conform to changes effected in the Internal Revenue Code by Public Law 85-859, (3) to prescribe a retention period for records and forms, (4) to correct certain obsolete forms references, (5) to conform certain provisions relating to stamps on distilled spirits containers to related changes in other regulations, and (6) to add a cross-reference to the provisions of Subpart U of 26 CFR Part 170 respecting the recovery of distilled spirits.

Pursuant to the above:

§§ 197.44, 197.45 [Deletion]

1. Sections 197.44 and 197.45 are deleted.

2. The undesignated center heading immediately following § 197.54 is revised to read: "Adjustment or Refund of Special Tax".

§ 197.55 [Amendment]

3. Section 197.55 is amended:

(A) By striking the second sentence and inserting in lieu thereof a new sentence which reads: "On payment of the special tax at the higher rate, the manufacturer may surrender the special tax stamp showing payment of $25, to the district director to whom such tax was paid, with a claim on Form 843 for refund."; and

(B) By revising the citation of authority at the end of the section to read: "(68A Stat. 791; 26 U.S.C. 6402)".

§ 197.56 [Amendment]

4. Section 197.56 is amended:

(A) By striking, in the first sentence, the phrase, "for redemption of the stamp", and inserting in lieu thereof the phrase, "for refund"; and

(B) By revising the citation of authority at the end of the section to read: "(68A Stat. 791; 26 U.S.C. 6402)".

5. Section 197.57 is revised to read as follows:

§ 197.57 Absence of liability, refund of special tax.

The special tax paid may be refunded if it is established that the taxpayer did not file a claim for drawback for the period covered by the special tax stamp. Where claim for drawback was filed, the special tax may be refunded if it is established that no drawback was paid or allowed for the period covered by the stamp.

6. The undesignated center heading immediately following § 197.57 is deleted.

§ 197.58 [Amendment]

7. Section 197.58 is amended:

(A) By changing the section heading to read: "Filing of claims.";

(B) By striking from the first sentence the phrase "for redemption of a special tax stamp", and inserting in lieu thereof the phrase "for refund of special tax"; and

(C) By revising the citation of authority at the end of the section to read: "(68A Stat. 791; U.S.C. 6402)".

8. Section 197.59 is revised to read as follows:

§ 197.59 Time limit for filing claim.

No claim for refund of special tax shall be allowed unless presented within three years next after the payment of the tax.

(68A Stat. 808; 26 U.S.C. 6511)

§ 197.66 [Amendment]

9. Section 197.66 is amended:

(A) By striking from the first sentence the last part thereof which begins "in Treasury Department Form 356," and inserting in lieu thereof "as set forth in the current revision of Treasury Department Circular 570." and

(B) By striking from the second sentence "Form 356" and inserting in lieu thereof "Circular 570".

§ 197.75 [Amendment]

10. Section 197.75 is amended by striking from the last sentence the words ", Form 1490, or a notice of release, Form 1491" and inserting in lieu thereof the words "or release on Form 1490".

§ 197.79 [Amendment]

11. Section 197.79 is amended:

(A) By striking the first sentence and inserting in lieu thereof "Upon determination that the bond on Form 1730 may be terminated (a) where a superseding bond has been approved, (b) where the principal has discontinued filing monthly claims, or (c) where the surety has made application for release from bond as provided in § 197.76, the assistant regional commissioner will execute, on Form 1490, a notice of termination or release of bond." and

(B) By striking from the second sentence, immediately following the words "termination or", the words "the notice of".

§ 197.80 [Amendment]

12. Section 197.80 is amended by striking from the first sentence the words "Forms 1490 and 1491 of the termination of such bonds" and inserting in lieu thereof the words "Form 1490 of the termination or release of such bonds".

13. Section 197.112 is revised to read as follows:

§ 197.112 Distilled spirits received in tank cars or tank trucks.

Each claim covering distilled spirits received in tank cars or tank trucks will be accompanied by a statement showing in respect of each shipment received: The date of receipt; the name and address of the vendor; the number or other identification mark of the tank car or tank truck; the serial number of the distilled spirits stamp and the date it was affixed to the tank car or tank truck; the name of the producer; and the kind, quantity, and proof of the spirits. If the tank car or tank truck is received without the stamp affixed thereto, the vendee shall note such fact on the bill of lading, if any, or on Form 179, and immediately notify the assistant regional commissioner who will cause such inquiry to be made respecting the shipment and receipt of the conveyance as he may deem appropriate. (The distilled spirits stamp shall be completely destroyed when the distilled spirits have been removed from the tank car or tank truck.)

14. Section 197.113 is revised to read as follows:

§ 197.113 Distilled spirits received in barrels, drums, or other portable containers.

Each claim covering distilled spirits received in barrels, drums, or other portable containers bearing distilled spirits stamps shall be accompanied by a statement showing: The date of receipt; the name and address of the vendor; the kind and serial number of the stamp affixed to the container and the date the stamp was issued or affixed as stated on the stamp; the serial number, if any, of the container; the name of the producer; and the kind, quantity, and proof of the spirits. (When the container is emptied, the stamp shall be completely destroyed.)

§ 197.117 [Amendment]

15. Section 197.117 is amended by adding immediately after the last sentence the following parenthetical sentence, "(For additional provisions respecting the recovery of distilled spirits and the records relating thereto, see Subpart U of 26 CFR Part 170.)"

§ 197.130 [Amendment]

16. Section 197.130 is amended by changing paragraph (c) to read:

(c) Kind of container (such as tank car, drum, case of bottles) and serial number thereof, and the kind and serial number of the stamp affixed to the container (serial numbers of strip stamps if spirits are in bottles).

§ 197.132 [Amendment]

17. Section 197.132 is amended by striking the last sentence thereof.

18. A new § 197.133, as follows, is added:

§ 197.133 Retention of records.

Each manufacturer shall retain for a period of not less than two years all records required by this part, all Forms 179 received by him evidencing tax determination of the spirits, and all bills of lading received by him in respect of shipment of the spirits. In addition, a copy of each approved formula returned to the manufacturer shall be retained by him for not less than two years from the date he files his last claim for drawback under such formula. Such records, forms, and formulas shall be readily available during the manufacturer's regular business hours for examination and taking abstracts therefrom by internal revenue officers.

[F.R. Doc. 60-11220; Filed, Dec. 1, 1960; 8:48 a.m.]

DEPARTMENT OF LABOR

Division of Public Contracts

[41 CFR Part 50-202]

METAL BUSINESS FURNITURE AND STORAGE EQUIPMENT INDUSTRY

Tentative Decision in Redetermination of Prevailing Minimum Wages

A complete record of proceedings held under sections 1 and 10 of the Walsh-Healey Public Contracts Act (41 U.S.C. 35 and 45a) to determine the prevailing minimum wages for persons employed in the metal business furniture and storage equipment industry has been certified by the hearing examiner. A tentative decision, including a statement of findings and conclusions, as well as the reasons and basis therefor, on all material issues of fact, law, and discretion presented on the record, and any proposed wage determination is now appropriate under the applicable rules of practice (41 CFR Part 50-203.21(b)) and the Administrative Procedure Act (5 U.S.C. 1007(b)).

Definition. The definition of the metal business furniture and storage equipment industry published in the notice of hearing (24 F.R. 10077) is essentially the same as that contained in the present wage determination for that industry, and describes the industry to include without limitation the following products:

(1) Bank counters; benches; stools; bookcases; chairs; desks; desk trays; filing boxes; cabinets and cases; cabinets for printers' type; storage cabinets; cabinet partitions; tables; visible business equipment; wardrobes; and waste baskets;

(2) Lockers; racks, and industrial and general-purpose shelving;

(3) Rotating bins and sectional bins; tool boxes, tool cabinets and tool chests;

metal boxes, metal chests and metal cases.

Excluded from the definition are merchandise display racks, show-cases, and display stands; restaurant furniture, carts, and food wagons; telephone booths; and all consumable office supply items.

The economist representing the Wage and Hour and Public Contracts Divisions testified that with regard to the products shown in subparagraph (1) of the definition, the word "cabinet" preceding the word "partitions" should be deleted. The witness pointed out that the deletion would make no change in the products covered by the definition, but would clarify the industry as presently defined, because all metal office partitions have been included by interpretation in the current application of the wage determination. No objection has been raised to the suggested change, and it is adopted for the purpose of this tentative decision.

Representatives of the American Federation of Labor and Congress of Industrial Organizations (AFL–CIO) and the Office Equipment Manufacturers Institute (O.E.M.I.) raised no objections to the proposed definition. However, one individual manufacturer, Jebco, Inc., contended that the proposed definition encompassed several industries which should be treated separately. Jebco, Inc., also claimed that there was a great deal of uncertainty about whether certain products were included or excluded in the present definition. That manufacturer, therefore, recommended that the following changes be made in the proposed definition:

(a) Exempt from the proposed definition for the Metal Business Furniture and Storage Equipment Industry all tailormade metal boxes, metal chests, metal cabinets, metal cases, metal lockers and metal racks which are not normally used in the general conduct of private business; or

(b) Segregate the present industry under inquiry into "Metal Office Furniture Industry," "Storage Equipment Industry" and "Metal Fabricating Industry" with a view of permitting a determination of separate minimum wages for these industries.

In conformance with the requirements of the Walsh-Healey Public Contracts Act that the minimum wages determined thereunder be "those prevailing for persons employed on similar work or in the particular or similar industries or groups of industries," the products that are produced by establishments engaged in the same or similar types of industrial activities have been grouped together in the proposed definition. As the record indicates, the basic source of information used in this grouping was the Standard Industrial Classification (SIC) Manual (1957 edition). Most of the products within the proposed definition are contained within two of the Manual's closely related industrial establishment classifications (Industry Nos. 2522 and 2542).

The recommendations of Jebco, Inc., that various products be exempted if "tailor-made" and "not normally used in the general conduct of private business" do not appear to be well advised. As there is no established use of these terms in the industry as a means of classifying the products produced by it, ambiguity rather than clarification would, therefore, attend their use. As the products which these terms would exempt are frequently the object of contracts subject to the Act, adoption of these exemptions would diminish the usefulness of this determination. In regard to the recommendation that the manufacture of metal business furniture, storage equipment, and metal fabricating be considered separate industries, it clearly appears from the previously mentioned classification in the SIC Manual that for the most part the industrial activity involved in the manufacture of metal business furniture and metal storage equipment is indeed closely related. There are, of course, unrelated products in the metal fabricating industry, but they have not been included within the ambit of the present definition. Accordingly, I decline to follow the above recommendation of Jebco, Inc. However, after considering the record, I have decided for the purpose of this tentative decision to revise the language of the definition by adopting the deletion suggested by the Divisions' witness and by incorporating additional illustrative language into the definition. These revisions in no way change the content or scope of the current definition or of the definition carried in the Notice of Hearing. I am satisfied, that as revised, the definition is reasonably clear.

Locality. In connection with the locality issue, the record contains compilations prepared by the Wage and Hour and Public Contracts Divisions showing the origin (place of manufacture) and destination (place of Government use) in terms of successful and unsuccessful bids for about $47.7 million of $53.5 million worth of procurement activity involving products of this industry under contracts subject to the Walsh-Healey Public Contracts Act during 1958. In agreement with industry representatives, the tabulations of this information were shown by individual States and by six regions: the Northeast, Border States, South, Great Lakes, Middle West, and Pacific. The compilations are found in Government Exhibit 4.

An examination of these compilations indicates that the competition for Government contracts for products within the industry has no regional bounds. The establishments in each producing region do a great deal of bidding on contracts calling for shipment to every major consuming region, and much of their bidding is successful. The compilations, therefore, reflect inter-regional and industry-wide competition for Government contracts. For example, Table 2, representing an estimated value of procurement in excess of $30 million and showing the origin and destination of bids for General Services Administration stores stock catalog items on invitations-for-bids issued during calendar year 1958, indicates that the Northeast is one of the major producing areas. Yet, almost 59 percent of all bids on contracts calling for delivery in the Northeast (404 of 687) originated from outside of the region, and about 65 percent of the successful bids on contracts calling for delivery in that region (154 of 238) came from beyond its borders. However, the same table shows that establishments in the Northeast competed successfully in all six regions, acquiring 84 of 238 successful bids in the Northeast itself, 47 of 126 in the Border States, 66 of 227 in the South, 50 of 148 in the Great Lakes, 45 of 131 in the Middle West, and 120 of 449 in the Pacific region. A similar pattern of inter-regional competition is revealed for other areas of the country. Furthermore, Table 3, showing the origin and destination for various Federal Supply Schedule items on invitations-for-bids and solicitations-for-offers issued during calendar year 1958, demonstrates that successful bids were made by establishments in widely separated parts of the country to deliver anywhere in the United States for one price. Table 4, containing a compilation of competition data supplied by various military agencies and the Post Office Department, illustrates graphically the ability of establishments in most regions to compete successfully throughout the United States. For example, establishments in the Northeast were successful bidders on approximately the same proportion of the procurement in the Pacific region as in the Northeast region itself. Moreover, almost three-quarters of the successful bids submitted by establishments in the Northeast were for delivery to other regions.

Aside from matters considered elsewhere, the O.E.M.I. pointed out: (1) that 11 of the 201 contracts possibly encompassing more than 11 of the awards considered in Table 4 should not have been included because they were for amounts of less than $10,000 and, therefore, were not subject to the Walsh-Healey Public Contracts Act; (2) that the compilations contained awards under what is called the "multiple award system" whereunder contractors whose bids are accepted are obligated to supply items to the Government at specified prices, but the Government is not obligated to buy from any particular contractor; and further, the fact that an award is made under this system provides no indication of the destination to which the ultimate order may be shipped; (3) that the notices of awards used by the Divisions in compiling its data do not always establish whether the products called for fall within the proposed definition of the industry; and (4) that only that segment of the market which consists of Government contracts is shown by the compilations.

The evidence of record establishes that the contracts and awards of the type discussed in the first point do not alter the pattern of competition indicated by this table. Furthermore, these contracts must necessarily represent a value of less than $110 thousand ($10,000×11) as compared with the value of over $10 million represented by Table 4.

The second point would not appear to warrant a conclusion that the "multiple award system" is not indicative of competition for Government contracts. The record contains evidence (Government

Exhibit 7) indicating that multiple awards are made to qualified bidders whose bids "will be most advantageous to the Government, taking into consideration the multiplicity and complexity of equipment of various manufacturers and the differences in performance required to accomplish or produce required end results, reasonableness of prices quoted, compliance with delivery requirements, and other pertinent factors." Thus, each award reflects an act of successful competition by the firm making the accepted offer to ship from its specified establishment to the delivery points where it has agreed to do the supplying (i.e., 48 States and the District of Columbia). The record further indicates that Government ordering offices are required to buy at the lowest price available for the type of article or service required or justify why they have not done so.

In regard to the third point, the record shows that in all cases of doubt the procurement agency was contacted, and the exact nature of the product called for was ascertained. Therefore, the data contained in the area of competition tables are confined solely to items covered by the definition of this industry.

The fourth point is, of course, true. However, it is such competition for Government contracts that the Walsh-Healey Public Contracts Act is intended to affect. Evidence regarding commercial competition is not necessarily relevant to the question of patterns existing with respect to competition for Government contracts. Accordingly, the absence of such evidenec obviously does not prevent a determination from resting solely upon evidence relating to Government competition.

In conclusion, it is my opinion that the locality in which products of the metal business furniture and storage equipment industry are to be manufactured or furnished for any Government contract subject to the Walsh-Healey Public Contracts Act cannot be defined more narrowly than the entire area in which the industry operates. Under these circumstances, an industry-wide minimum wage determination is essential in this tentative decision in order to achieve the purposes of the statute. (Cf. the tentative decision in the Textile Industry (17 F.R. 11197); Mitchell v. Covington Mills, Inc., 229 F. 2d 506, certiorari denied, 350 U.S. 1002, rehearing denied 351 U.S. 934).

The wage survey. The record contains a wage survey prepared by the Bureau of Labor Statistics which purports to represent the minimum wages paid by every establishment with eight or more employees, in which the manufacture of metal business furniture and storage equipment constitutes 50 percent or more of the total value of their sales in 1958. The sources of information used to locate the establishments thus defined consisted of State unemployment compensation agency listings of manufacturers of products within the industry definition, a list of Government awards of contracts for such products provided by the Wage and Hour and Public Contracts Divisions, a list of such manufacturers submitted by the International Association of Machinists, a similar list submitted by the O.E.M.I., and the Office Appliance Buyers Index, a trade directory. From this information, the industry was considered to be composed of 213 establishments with 29,963 employees. Of these 21,280 were engaged in work of a type covered by the Walsh-Healey Public Contracts Act when performing on a contract subject to the Act and are referred to hereinafter as "covered workers." The survey contains information concerning the minimum wages paid by the 213 establishments.

The O.E.M.I. challenged the adequacy of the survey, contending that it accounts for only about one-half of the number of establishments that fall within the survey's scope, though it conceded that the survey included over 90 percent of the workers. It attempted to resolve this divergence by assuming that the missing plants averaged only approximately 10 total workers, as compared with the average of 141 among those reporting to, and counted by the Bureau of Labor Statistics. The association also assumed that such smaller plants as a group pay lower minimum wages and reached a conclusion that no determination of the customary type can be made now, for lack of adequate evidence of wages.

The O.E.M.I. rests its basic assumption that half the plants are missing on certain data in the U.S. Census of Manufactures, 1954 Vol. II Industrial Statistics, and 1958 Census of Manufactures preliminary reports. The Census contains statistics on the number of establishments and employees at various times engaged in the manufacture of wood and metal office furniture and partitions and fixtures. Though the Census treatment of furniture gives these figures separately for wood and metal, the wood and metal fabricating plants and employment are not segregated in its treatment of partitions and fixtures. The principal difficulty with the O.E.M.I. estimate lies in the fact that the definition of this industry includes most of these products when made of metal, but none of them when made of wood.

As it conceded that it had no direct evidence, the O.E.M.I. engaged in a series of broad assumptions which resulted in an estimate of the number of plants and employees engaged in the manufacture of products within the scope of the definition that should have been included in the survey. The only omission from the defined scope of the survey which is alleged, is restricted to SIC Industry No. 2541 (Partitions and Fixtures). In order to substantiate its claim, O.E.M.I. adverted to the 1954 Census data for this combined group and attempted to segregate the number of establishments processing metal products. This was attempted by estimating the value of total shipments for such products, determining what proportion this represented of the total value of shipments of all partitions and fixtures (i.e. 40 percent), and assuming that the same ratio would also measure the relative numbers of wood and metal fabricating establishments in the unsegregated group.

As the Census data do not show separately plants with less than 8 employees, a second series of assumptions as to distribution of plants by number of employees was made in an effort to make the data compatible with the 8-employee cut-off point used in the BLS wage-survey.

After the resulting estimates were combined they were updated from 1954 to 1958 by using 1958 Census data. Because 1958 Census preliminary data relate only to establishments with 20 or more employees, an additional assumption was necessary to arrive at the estimated establishment total for 1958.

O.E.M.I. applied the same technique to 1954 and 1958 Census data in arriving at an estimate of 32,271 employees in the industry. It claimed that the validity of the technique was supported by the fact that its estimate of total employment was only 108 percent of that of the BLS. O.E.M.I. also cited the close similarity, with qualification, to March 1958 employment data collected by the Bureau of Employment Security for Unemployment Insurance purposes. O.E.M.I. therefore claims equal validity for its estimate of 400 to 450 establishments.

Basic to this series of assumptions is the proposition that the number of establishments and the number of employees are directly proportional to the value of shipments, regardless of whether the product is wood or metal. Particularly with respect to establishments, BLS expert testimony in the record makes clear no such assumption is warranted. In the first place, the data on value of shipments are drawn from several seven-digit census product groups, whereas the wage survey here, like the four-digit census and standard industrial classifications, on an industry basis. The result is that thirteen percent of the shipments counted by the O.E.M.I. were not produced by establishments within the scope of the survey because these establishments are primarily in some other industry, and twelve percent of the products produced by the industry which is the subject of this portion of the BLS Survey were not counted by the O.E.M.I. because they are minor products of establishments in this industry, not among these seven-digit product groups. Moreover, it is possible that the products of a single establishment may fall into several of these seven-digit groups. For example, a plant specializing in metal partitions (Product group code No. 2541–115) may also make metal lockers (Product group code No. 2541–155). The O.E.M.I. method would, therefore, produce duplication within the system. In the second place, the O.E.M.I. estimate relies on a wholly unwarranted assumption that notwithstanding the obvious differences in raw material, fabricating machinery, labor skills, and product values, the average dollar value of shipments per establishment and per worker is exactly the same in the metal fabricating plants as it is in the wood fabricating plants. The witness who postulated these sundry assumptions admitted that he made no inquiry to determine whether there was even approximate truth in this assumption of exact equality.

Wholly apart from such inaccuracies as must underlie most of the unsup-

ported assumptions on which this criticism of the wage survey is based, adjustment of just this one of them to accord with the actual probabilities as shown by the evidence of record deprives the criticism of practically all of its substance. The relationship between the average dollar value of shipments per establishment and per worker in metal, as contrasted with wood fabricating plants, if it must be assumed, is best guided by the separate data available for the metal office furniture portion of this industry as compared with the wood office furniture industry. The same Census pamphlet which presents the data on which the criticism is based reveals that the value of shipments from the average metal office furniture plant is three and one-third times the value of shipments from the average wood office furniture plant. The average value of shipments per worker from these metal fabricating plants is one and three-tenths times the average value of these shipments from wood fabricating plants. Applying these ratios which represent actual differences between metal and wood fabricating establishments in the place of the equality between them arbitrarily assumed in the O.E.M.I. estimate, the 40 percent factor used by the O.E.M.I. witness for both plants and employees becomes approximately one-sixth for plants and one-third for workers. Indulging each and every other assumption indulged by the O.E.M.I. witness and making every other calculation just as he did, the 213 percent of the BLS count of establishments the O.E.M.I. projected becomes only 118 percent, and 108 percent of the BLS count of employees the O.E.M.I. projected becomes 100 percent. In other words, the discrepancy between the projection and the count is practically eliminated by an appropriate adjustment in this one assumption, such that the remaining projected discrepancy is most plainly nothing more than the margin of error one would normally expect to find in any projected estimate based on such an extensive series of assumptions.

The only other charge of omission of plants or employees related to a number of metal fabricating plants producing boxes, chests, and cases. It was estimated that as many as 5,000 metal fabricating plants were bidding for Government contracts in this field, although no evidence was offered or concession made that any of these plants was within this industry to a greater extent than it was in other industries as required for survey coverage. On this point the record clearly shows that the BLS secured coverage of the plants properly within its survey through the use of all the reasonably relevant and available materials including trade directories, an awards list prepared by the Wage and Hour and Public Contracts Divisions, and lists submitted by the trade association and the union.

In the light of the foregoing, and because I accept the testimony of the expert witness from the Bureau of Labor Statistics who considered these criticisms and reached a soundly based opinion that the survey was reasonably complete and accurate, I find that the survey conducted by the Bureau of Labor Statistics furnishes an appropriate basis for determining the prevailing minimum wage in this industry under the Walsh-Healey Public Contracts Act.

Prevailing minimum wages. The wage survey presents separate wage data for beginners, non-beginners and all covered workers, thus providing a basis for making one determination for beginners, and a separate one for non-beginners, or one determination for all covered workers including beginners. It becomes necessary, therefore, next to decide whether a separate determination should be provided for beginners in order to identify the appropriate wage data.

The O.E.M.I. and Jebco, Inc., recommended a beginner tolerance of 10 cents. The minimum wage determination currently in effect for this industry provides a 10-cent tolerance. The current survey suggests that such special treatment is no longer warranted. It appears that a majority of establishments pay no experienced covered worker less than $1.40, and a majority of the experienced covered workers are employed in plants paying none of them less than $1.52. These check points are identical on the data which include beginners. Other data indicate that on the survey date only 17 of the 213 establishments employed only 81 beginners of the total 21,280 covered workers at rates less than $1.52.

It is clear from these data that a differential for beginners is not warranted. I will not, therefore, exercise any exemptive authority under section 6 of the Act to grant a tolerance for beginners or probationary workers. This tentative decision will be based on the data which include beginners with other covered workers in reporting minimum wages.

The tables of wage data contained in the Bureau of Labor Statistics survey show both the lowest rates of wages actually paid and the lowest established job rates reported. Upon the basis of the former, Labor asserts that the prevailing minimum wage throughout the industry at the time of the survey was $1.52. Upon the basis of the latter, the O.E.M.I. contends that in the event an industry-wide minimum wage be determined that it should be found to be $1.27½ at the time of the survey. Of the 213 establishments surveyed, 139 reported having a lowest established job rate. Of these establishments, 94 paid this rate during the survey payroll period. The remaining 45 establishments did not pay their lowest established job rates during the survey period.

In light of the foregoing contentions, it must be determined initially whether the wage determination should be based only upon the lowest rates actually paid during the payroll period covered by the survey (February 1959) or whether it should be based upon lowest established job rates.

Labor opposes giving any weight to lower wage rates than those actually paid in the survey period. It argues: (1) That it is doubtful that these rates will be used in the future, and (2) that as the Act requires a determination of the minimum wages prevailing for "persons employed," it should not be interpreted as referring to persons who may be employed at a later date.

To the contrary, the O.E.M.I. contends that the lowest established job rate is the best measure of an establishment's minimum rate for the purpose of finding the prevailing minimum wage in this industry under the Act. It points out that most establishments which have lowest established job rates did in fact pay those rates at the time of the survey. Therefore, the O.E.M.I. argues that the lowest established job rates are truly indicative of the minimum wages that are paid and will be paid in the industry.

In the light of past practices, it would appear to be too conjectural, however, to conclude that the 45 establishments within the industry which are not paying their lowest established job rates are likely to pay those rates in the future merely because most other establishments in the same industry do pay from time to time their lowest established job rates. In judging whether these unpaid rates are real rates which will probably be paid in the future evidence concerning the past practices of these 45 establishments must be examined. Of these establishments, employing 4,752 covered workers, only 16 establishments, employing 1,169 covered workers, paid their lowest established job rates within the six-month period preceding the survey date, and these establishments plus two others, employing 558 covered workers, paid their lowest established job rates within a year of the survey period. Consequently, it would seem that in this instance the lowest established job rates would not adhere as closely to the requirement in the Walsh-Healey Public Contracts Act that the Secretary consider the minimum wages of "persons employed" as would the lowest rates actually paid, and I conclude that for the purpose of this decision the lowest rates actually paid provide a better guide to the minimum wages paid in the industry.

The lowest rates actually paid in the industry vary from $1.00 per hour to $2.35 or more, and there are no predominant concentrations at any one rate. However, it is possible here, as in similar cases, to find a rate which is representative of the minimum wages paid throughout the industry.

The O.E.M.I. recommended a statistical method for arriving at the prevailing minimum wage called the "inter-quartile theory." Under this method, the minimum wage a contractor must pay is the lowest wage paid by 75 percent of the industry. It is contended that the prevailing minimum wages are the minimum wages paid by the half of the industry centered around the median for the industry as a whole. It is argued that this is in accord with the text of the statute, because a single wage cannot be regarded to be "prevailing" but a range can be so regarded.

Although a range of wages may be said to prevail more than a single point in a wage distribution does, it is still a single wage and not a range of wages that must be ultimately chosen as the prevailing minimum wage for the purposes of the Act. This is the case no matter what statistical method is used. In effect, "the inter-quartile theory," does no more than choose the wage which is the median between the lowest minimum wage paid in the industry and the median minimum wage paid in the industry. I am not convinced that a wage thus arrived at fairly represents the various minimum wages which are paid throughout the industry.

It appears to me that the requirements of the Act are met more effectively by recognizing that the prevailing minimum wage lies closer to the center of the several minimum rates that are paid. On the basis of my examination of the minimum wages paid in this industry, I find that the prevailing minimum wage in the Metal Business Furniture and Office Equipment Industry is $1.43. The evidence indicates that 46.9 percent of the establishments employing 58.6 percent of the covered workers in this industry paid no covered worker less than $1.43 at the time of the survey. This rate gives consideration to the minimum wages paid by a majority of the establishments within the industry and the minimum wages paid by the establishments employing a majority of the covered workers in the industry. For this reason, $1.43 is representative of the minimum wages paid in the industry as a whole.

Although the higher minimum wage determination advocated by labor would still be representative of the minimum wages paid by establishments employing a majority of the covered workers in the industry, it would not give equal or fair consideration to a minimum wage which is representative of those paid by the several establishments of which the industry is composed.

Labor also asserts the prevailing minimum wage has risen two cents between the survey date in February 1959 and the hearing date in January 1960. The assertion is based upon the fact that the B.L.S. in the latest of its monthly Employment and Earnings Reports available at the time of the hearing had reported a two-cent per hour rise in gross average hourly earnings in the Metal Office Furniture Industry. However, this increase may not have been received at the minimum wage level. It may also have been accounted for in part by an increase in overtime hours worked in the industry. I, therefore, do not believe that this evidence alone warrants a finding of a post-survey increase in the prevailing minimum wage.

Accordingly, upon the findings and conclusions stated herein, pursuant to authority under the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U.S.C. 35 et seq.), and in accordance with the Administrative Procedure Act (60 Stat. 237; 5 U.S.C. 1001 et seq.), notice is hereby given that I propose to amend Title 41 of the Code of Federal Regulations by amending § 50–202.50 to read as follows:

§ 50–202.50 Metal Business Furniture and Storage Equipment Industry.

(a) *Definition.* (1) The Metal Business Furniture and Storage Equipment Industry is defined as that industry which manufactures or furnishes metal business furniture or metal business storage equipment, including but not limited to the following metal products: (1) Bank counters; benches; stools; book cases; chairs; desks; desk trays; filing boxes, cabinets and cases; cabinets for printers' type; storage cabinets; partitions; tables; visible business equipment; and waste baskets; (2) lockers; racks; and industrial and general-purpose shelving; (3) notating bins and sectional bins; tool boxes, tool chests and tool cabinets; boxes, chests and cases including stock boxes, cash and stamp boxes, sorting cases, mail distribution cases, and carrier throwback cases.

(2) Excluded from the definition are merchandise display racks, show-cases, and display stands; restuarant furniture, carts, and food wagons; telephone booths; ammunition racks and chests; bomb racks, chests, and cradles; outdoor mail storage boxes; shipping cases; foot lockers; laboratory cabinets; and all consumable office supply items.

(b) *Minimum wage.* The minimum wage for persons employed in the manufacture or furnishing of the products of the metal business furniture and storage equipment industry under contracts subject to the Walsh-Healey Public Contracts Act shall be $1.43 an hour arrived at either on a time or piece-rate basis.

(c) *Effect on other obligations.* Nothing in this section shall affect any other obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

Within thirty days from the date of the publication of this notice in the FEDERAL REGISTER, interested parties may submit written exceptions, together with supporting reasons, to the tentative decision above set out. Exceptions should be directed to the Secretary of Labor and filed with the Chief Hearing Examiner, Room 4414, United States Department of Labor, Washington 25, D.C.

Signed at Washington, D.C., this 25th day of November 1960.

JAMES P. MITCHELL,
Secretary of Labor.

[F.R. Doc. 60-11198; Filed, Dec. 1, 1960; 8:46 a.m.]

ATOMIC ENERGY COMMISSION

[10 CFR Part 115]

PROCEDURES FOR REVIEW OF CERTAIN NUCLEAR REACTORS EXEMPTED FROM LICENSING REQUIREMENTS

Notice of Proposed Rule Making

On March 12, 1959 (AEC Press Release B–42) the Commission announced adoption of policies designed to provide opportunity for public participation in the consideration of safety aspects of reactor projects in the Commission's power demonstration reactor program. The proposed regulations set forth below are designed to implement that policy. The proposed regulations incorporate relevant provisions of Part 50 with such modifications as are appropriate to adapt them to the reactor projects which will be subject to this part. Provisions are included which will make Parts 20 and 55, and relevant provisions of Part 2, applicable to reactors subject to this part.

The press release contained the following policy statement by the Commission:

The nuclear power reactors which are planned for operation under the so-called "second round" of the Commission's power demonstration reactor program, and the proposed reactor to be operated by Consumers Public Power District in Nebraska, are not subject to the formal licensing requirements of the Atomic Energy Act of 1954, as amended. Under section 110 of the Act they are exempt from licensing requirements because they are to be constructed and operated under contracts "with and for the account" of the Commission. However, these and all other Commission-owned reactors receive the same technical review to assure the public health and safety as do licensed reactors.

Unlike most Commission-owned reactors, these Commission-owned demonstration reactor projects will not be located at Commission installations but will be operated as an integral part of the power-generation facilities of operating utility systems. For this reason, the Commission has decided that the public interest would best be served by making available to members of the public opportunity for participation in safety considerations concerning these projects in accordance with procedures which would parallel those observed in licensing proceedings. Accordingly, the hazards reports filed by the prime contractors for the construction or operation of these reactors will be made available for public inspection in the Commission's Public Document Room. As in the case of license applications, the Commission will publish and make available in the Public Document Room copies of the reports of the Advisory Committee on Reactor Safeguards and copies of the hazards evaluations prepared by the Division of Licensing and Regulation.

In addition, the Commission has decided to set these cases down for public hearing to consider health and safety questions involved in the proposed construction and operation of the reactors. A notice of hearing will be issued in each case at least 30 days prior to the date of hearing. Following the issuance of the notice of hearing, proceedings will be conducted in accordance with the provisions of Part 2 of the Commission's regulations (10 CFR, Part 2 "Rules of Practice") applicable to formal hearings.

This policy will also be applied to all future Commission-owned reactors not located at Commission-owned installations, which are to be operated as part of conventional electric utility systems.

The proposed rules would apply to any prime contractor of the Commission who proposes to construct or operate a nuclear reactor which (a) is not subject to licensing requirements, (b) is not located at a Commission installation, and (c) is to be operated as a part of the power generating facilities of an electric utility system. The rules would require such contractors to obtain a construction "authorization" and an operating "authorization" corresponding to the construction permits and operating licenses issued by the Commission under Part 50. Reactor projects subject to the proposed rules would be made subject to

formal regulatory requirements, including Part 20 "Standards for Protection Against Radiation", Part 55 "Operators' Licenses", Subparts A, B, G, and H of Part 2 "Rules of Practice", and to such other requirements as may be established by applicable Commission regulations or orders issued pursuant to subsection 161b. of the Atomic Energy Act of 1954, as amended.

Notice is hereby given that adoption of the following rules is under consideration. All interested persons who desire to submit written comments and suggestions for consideration in connection with the proposed rules should send them (in triplicate) to the Secretary, United States Atomic Energy Commission, Washington 25, D.C., Attention: Director, Division of Licensing and Regulation, within 60 days after publication of this notice in the FEDERAL REGISTER. Although consideration will be given, if feasible, to comments received after that period, no assurance of consideration can be given except as to comments received within the 60-day period.

GENERAL PROVISIONS

Sec.
115.1 Purpose.
115.2 Scope.
115.3 Definitions.
115.4 Interpretations.
115.5 Specific exemptions.

DESCRIPTION OF AUTHORIZATIONS

115.7 Construction and operating authorizations.

APPLICATIONS FOR AUTHORIZATIONS, FORM, CONTENTS

115.20 Applications for authorizations.
115.21 Elimination of repetition.
115.22 Contents of applications; general information.
115.23 Contents of applications; technical information hazards summary report.
115.24 Extended time for providing technical information.
115.25 Designation of technical specifications.
115.26 Public inspection of applications.

STANDARDS FOR OPERATING AND CONSTRUCTION AUTHORIZATIONS

115.30 Standards for authorizations.
115.31 Standards for construction authorization.

ISSUANCE, LIMITATIONS, AND CONDITIONS OF AUTHORIZATIONS

115.40 Issuance.
115.41 Duration of authorization, renewal.
115.42 Conditions of authorizations.
115.43 Conditions of construction authorizations.
115.44 Conversion of construction authorization or amendment of authorization to operating authorization.
115.45 Provisional operating authorization.
115.46 Hearings and reports of the Advisory Committee on Reactor Safeguards.

INSPECTION, RECORDS, REPORTS

115.50 Inspections.
115.51 Maintenance of records, making of reports.

AMENDMENT OF AUTHORIZATIONS AT REQUEST OF HOLDER

115.60 Application for amendment of authorization.
115.61 Issuance of amendment.

REVOCATION, SUSPENSION, MODIFICATION, AMENDMENT OF AUTHORIZATIONS

Sec.
115.70 Revocation, suspension, modification of authorizations for cause.
115.71 Retaking possession of special nuclear material.

APPLICABILITY OF OTHER REGULATIONS

115.80 Applicability of other regulations.

ENFORCEMENT

115.90 Violations.

AUTHORITY: §§ 115.1 to 115.90 issued under sec. 161(b), 68 Stat. 948, 42 U.S.C. 2201.

GENERAL PROVISIONS

§ 115.1 Purpose.

(a) The regulations in this part are issued by the Atomic Energy Commission pursuant to the Atomic Energy Act of 1954 (68 Stat. 919) to establish public procedures for Commission review of safety considerations involved in the construction and operation by Commission contractors of certain Commission-owned nuclear reactors; to provide opportunity for participation by interested persons in such review of safety considerations; and to establish requirements which must be observed by persons authorized to construct or operate such reactors in order to protect health and minimize danger to life or property.

(b) The procedures and requirements established in this part are designed to parallel those established in Parts 2, 50 and 55 of this chapter for production and utilization facilities subject to the licensing requirements contained in Chapter 10 (42 U.S.C. 2131) of the Atomic Energy Act of 1954.

§ 115.2 Scope.

This part applies to any prime contractor of the Commission to the extent that such contractor proposes to construct or operate a nuclear reactor which:

(a) Is not subject to the licensing requirements set forth in Chapter 10 of the Act and Part 50 of the regulations in this chapter;

(b) Is not located at a Commission installation; and

(c) Is to be operated as part of the power-generation facilities of an electric utility system.

§ 115.3 Definitions.

As used in this part:

(a) "Act" means the Atomic Energy Act of 1954 (68 Stat. 919) including any amendments thereto.

(b) "Atomic energy" means all forms of energy released in the course of nuclear fission or nuclear transformation.

(c) "Atomic weapon" means any device utilizing atomic energy, exclusive of the means for transporting or propelling the device (where such means is a separable and divisible part of the device), the principal purpose of which is for use as, or for development of, a weapon, a weapon prototype, or a weapon test device.

(d) "Authorization" means an order issued pursuant to this part authorizing construction or operation of a nuclear reactor.

(e) "By-product material" means any radioactive material (except special nuclear material) yielded in or made radioactive by exposure to the radiation incident to the process of producing or utilizing special nuclear material.

(f) "Commission" means the Atomic Energy Commission or its duly authorized representatives.

(g) "Nuclear reactor" means an apparatus, other than an atomic weapon, designed or used to sustain nuclear fission in a self-supporting chain reaction.

(h) "Person" means (1) any individual, corporation, partnership, firm, association, trust, estate, public or private institution, group, Government agency other than the Commission, any State or any political subdivision of, or any political entity within a State, any foreign government or nation or any political subdivision of any such government or nation, or other entity; and (2) any legal successor, representative, agent, or agency of the foregoing.

(i) "Source material" means source material as defined in section 11s. of the Act and in the regulations contained in Part 40 of this chapter.

(j) "Special nuclear material" means (1) plutonium, uranium 233, uranium enriched in the isotope 233 or in the isotope 235, and any other material which the Commission, pursuant to the provisions of section 51 of the Act, determines to be special nuclear material, but does not include source material; or (2) any material artificially enriched by any of the foregoing, but does not include source material.

(k) "United States" when used in a geographical sense, includes all Territories and possessions of the United States, the Canal Zone, and Puerto Rico.

§ 115.4 Interpretations.

Except as specifically authorized by the Commission in writing, no interpretation of the meaning of the regulations in this part by any officer or employee of the Commission other than a written interpretation by the General Counsel will be recognized to be binding upon the Commission.

§ 115.5 Specific exemptions.

The Commission may, upon application by any interested person, grant such exemptions from the requirements of the regulations in this part as it determines will not endanger life or property or the common defense and security and are otherwise in the public interest.

DESCRIPTION OF AUTHORIZATIONS

§ 115.7 Construction and operating authorizations.

A construction authorization for the construction of a reactor will be issued prior to the issuance of an operating authorization, if the application is otherwise acceptable. The construction authorization will be converted upon due completion of the nuclear reactor and Commission action into an operating authorization, as provided in § 115.44.

A construction authorization for the alteration of a nuclear reactor will be issued prior to the issuance of an amendment of an operating authorization, if the application for amendment is otherwise acceptable, as provided in § 115.61.

APPLICATIONS FOR AUTHORIZATIONS FORM, CONTENTS

§ 115.20 Applications for authorizations.

(a) *Place of filing.* Each application for an authorization, including whenever appropriate a construction authorization, or amendment thereof, should be filed with the Atomic Energy Commission, Attention: Division of Licensing and Regulation. Filings made by mail should be addressed to the Commission at Washington 25, D.C. Filings may be made in person at the Commission's offices at 1717 H Street NW., Washington, D.C., or its offices at Germantown, Md.

(b) *Execution of applications.* Each application for an authorization, including whenever appropriate a construction authorization or amendment thereof, should be executed in three signed originals by the applicant or duly authorized officer thereof.

(c) *Number of copies of applications.* Each filing of any application under this section should include, in addition to the three signed originals, 19 copies of the application, except that with respect to that portion of the application containing the information required by § 115.23 (Hazards Summary Report) the filing should include 40 copies.

§ 115.21 Elimination of repetition.

In his application, the applicant may incorporate by reference information contained in previous applications, statements or reports filed with the Commission: *Provided*, That such references are clear and specific.

§ 115.22 Contents of applications; general information.

Each application shall state:

(a) Name of applicant;

(b) Address of applicant;

(c) Description of business or occupation of applicant;

(d) The use to which the nuclear reactor will be put and the period of time for which the authorization is sought;

(e) The technical qualifications of the applicant to engage in the proposed activities;

(f) If the application contains Restricted Data or other defense information, it shall be prepared in such manner that all Restricted Data and other defense information are separated from the unclassified information.

§ 115.23 Contents of applications; technical information hazards summary report.

Each application shall state the following technical information:

(a) A description of the chemical, physical, metallurgical, or nuclear process to be performed, and a statement of the kind and quantity of any radioactive effluent expected to result from the process. The description of the process should be sufficiently detailed to permit evaluation of the radioactive hazards involved. The magnitude of the proposed operation should be indicated in terms of the amount and radioactivity of source, special nuclear, or byproduct material to be handled per unit of time, and thermal power to be generated if any.

(b) A description of the nuclear reactor. The description should be based on the design criteria for the reactor as a whole and for those major component parts which are essential to the safe operation of the reactor, and should be presented in sufficient detail to allow an evaluation of the adequacy of the various means proposed to minimize the probability of danger from radioactivity to persons both on and off-site. The description should also cover any activities, other than those subject to license or otherwise authorized proposed to be carried on in the building which will house the reactor and on the balance of the site.

(c) A description of the site on which the reactor facility is to be located. This should include a map of the area showing the location of the site and indicating the use to which the surrounding land is put, i.e., industrial, commercial, agricultural, residential; location of sources of potable or industrial water supply, watershed areas and public utilities; and a scale plot plan of the site showing the proposed location of the reactor.

(d) A description of proposed procedures for: routine and non-routine operations, start-up and shut-down, maintenance, storage, training of employees, minimizing operational mishaps (such as locked controls, check-lists, and close supervision), investigating unusual or unexpected incidents; and a description of such other details as may be useful in evaluating the existence and effectiveness of safeguards against the radioactive hazards in the operation of the reactor.

(e) A description of plans or proposals in the event that acts or accidents occur which would create radioactive hazards. The description should relate the various operational procedures, the protective devices, and the pertinent features of the site, to such happenings as operational mistakes, equipment or instrument failure or malfunction, fire, electric power failure, flood, earthquake, storm, strike, and riot.

(f) Meteorological, hydrological, geological, and seismological data necessary for evaluating the measures proposed for protecting the public against possible radioactive hazards.

(g) An evaluation of the proposed measures and devices to prevent acts or accidents which would create radioactive hazards or to protect against the consequences should such acts or accidents occur.

(h) A description of procedures for disposal of radioactive solid waste and the final disposal of liquid waste effluent.

(i) A description of means provided to sample atmosphere discharges through stacks where such stacks may emit by-product material or special nuclear material.

§ 115.24 Extended time for providing technical information.

Where, because of the nature of a proposed project, an applicant is not in a position to supply initially all of the technical information otherwise required to complete the application, he shall indicate the reason, the items or kinds of information omitted, and the approximate times when such data will be produced. If the Commission is satisfied that it has information sufficient to provide reasonable assurance that a nuclear reactor of the general type proposed can be constructed and operated at the proposed location without undue risk to the health and safety of the public and that the omitted information will be supplied, it may process the application and issue a construction authorization on a provisional basis without the omitted information subject to its later production and an evaluation by the Commission that the final design provides reasonable assurance that the health and safety of the public will not be endangered.

§ 115.25 Designation of technical specifications.

(a) The Commission will indicate, by notice to the applicant, which of the provisions of his hazards summary report or any supplement thereto will be deemed to be technical specifications that become part of the construction or operating authorization. In giving such notice, the Commission will afford the applicant reasonable opportunity to amend or revise the technical information supplied before proceeding further to process the application.

(b) The Commission may require the applicant to designate those provisions of his hazards summary report or any supplement thereto, which he proposes be incorporated as technical specifications in the construction or operating authorization.

§ 115.26 Public inspection of applications.

Applications and documents submitted to the Commission in connection with applications may be made available for public inspection in accordance with such provisions of the regulations contained in Part 2 of this chapter as would apply if such applications were for licenses under Part 50 of this chapter.

STANDARD FOR OPERATING AND CONSTRUCTION AUTHORIZATIONS

§ 115.30 Standards for authorizations.

In determining that an authorization will be issued to an applicant, the Commission will be guided by the following considerations:

(a) The processes to be performed, the operating procedures, the nuclear reactor and equipment, the use of the reactor, and other technical specifications, or the proposals in regard to any of the foregoing collectively provide reasonable assurance that the applicant will comply with applicable regulations in this chapter, including the regulations in Part 20 of this chapter, and that the health and safety of the public will not be endangered.

(b) The applicant is technically qualified to engage in the proposed activities in accordance with the regulations in this part.

(c) The issuance of an authorization to the applicant will not, in the opinion of the Commission, be inimical to the common defense and security or to the health and safety of the public.

§ 115.31 Standards for construction authorization.

An applicant for an operating authorization or an amendment of an operating authorization who proposes to construct or alter a nuclear reactor will be initially granted a construction authorization if the application is in conformity with and acceptable under the provisions of §§ 115.20 through 115.30.

ISSUANCE, LIMITATIONS, AND CONDITIONS OF AUTHORIZATIONS

§ 115.40 Issuance.

Upon determination that an application for an operating authorization meets the standards and requirements of the Act and applicable regulations in this chapter, the Commission will issue an operating authorization, or if appropriate a construction authorization, in such form and containing such conditions and limitations including technical specifications, as it deems appropriate and necessary.

§ 115.41 Duration of authorization, renewal.

Each authorization will be issued for a fixed period of time to be specified in the authorization but in no case to exceed the term specified in the applicable contract with the Commission. Where construction of a reactor is involved, the Commission may specify in the construction authorization the period for which the operating authorization will be issued if approved pursuant to § 115.44. Authorizations may be renewed by the Commission upon the expiration of the period.

§ 115.42 Conditions of authorizations.

Whether stated therein or not, the following shall be deemed conditions in every authorization issued:

(a) Title to all special nuclear material utilized or produced pursuant to the authorization shall at all times be in the United States.

(b) No right to special nuclear material shall be conferred by the authorization except as may be defined by the authorization.

(c) Neither the authorization, nor any right thereunder, nor any right to utilize or produce special nuclear material shall be transferred, assigned, or disposed of in any manner, either voluntarily or involuntarily, directly or indirectly, through transfer of control of the authorization to any person, unless the Commission shall, after securing full information, give its consent in writing.

(d) The authorization shall be subject to revocation, suspension, modification, or amendment for cause as provided in the Act and applicable regulations.

(e) The holder of the authorization will at any time before expiration of the authorization, upon request of the Commission submit written statements, signed under oath or affirmation, to enable the Commission to determine whether or not the authorization should be modified, suspended or revoked.

(f) The authorization shall be subject to the provisions of the Act now or hereafter in effect and to all applicable rules, regulations, and orders of the Commission. The terms and conditions of the authorization shall be subject to amendment, revision, or modification, by reason of amendments of the Act or by reason of applicable rules, regulations, and orders issued in accordance with the terms of the Act.

(g) The holder of the authorization shall not permit the manipulation of the controls of the reactor by anyone who is not a licensed operator as provided in § 115.80.

(h) The holder of the authorization shall not, except as authorized pursuant to a construction authorization make any alteration in the reactor constituting a change from the technical specifications previously incorporated in an operating or construction authorization.

§ 115.43 Conditions of construction authorizations.

Each construction authorization shall be subject to the following terms and conditions:

(a) Except as modified by this section, the construction authorization shall be subject to the same conditions to which an operating authorization is subject.

(b) At or about the time of completion of the construction or modification of the nuclear reactor, the applicant will file any additional information needed to bring the original application for authorization up to date.

§ 115.44 Conversion of construction authorization or amendment of authorization to operating authorization.

Upon completion of the construction or alteration of a nuclear reactor, in compliance with the terms and conditions of the construction authorization and subject to any necessary testing of the reactor for health or safety purposes, the Commission will, in the absence of good cause shown to the contrary, issue an operating authorization.

§ 115.45 Provisional operating authorization.

(a) As an intermediate procedure prior to issuance of an operating authorization pursuant to § 115.44, the Commission may issue a provisional operating authorization in a proceeding where findings required for the issuance of a final operating authorization cannot be made because (1) construction of the facility has not been completed, or (2) there are involved features, characteristics, or components of the proposed facility as to which it appears desirable to obtain actual or further operating experience before issuance of an operating authorization for the full term requested in the application.

(b) In any case subject to paragraph (a), a provisional operating authorization will be issued by the Commission upon finding that:

(1) Construction of the facility has proceeded, and there is reasonable assurance that the facility will be completed, in conformity with the construction authorization and the application as amended, the provisions of the Act, and the rules and regulations of the Commission; and

(2) There is reasonable assurance (i) that the activities authorized by the provisional operating authorization can be conducted without endangering the health and safety of the public, and (ii) that such activities will be conducted in compliance with the regulations in this chapter; and

(3) The applicant is technically and financially qualified to engage in the activities authorized by the provisional operating authorization in accordance with the regulations in this chapter; and

(4) There is reasonable assurance that the facility will be ready for initial loading with nuclear fuel within ninety (90) days from the date of issuance of such provisional authorization.

(c) Each provisional operating authorization will include appropriate provisions with respect to any uncompleted items of construction and such limitations or conditions as are required to assure that operations during the period of the provisional operating authorization will not endanger public health and safety.

(d) The duration of each provisional operating authorization will be specified therein, not to exceed eighteen (18) months from the date of issuance; provided, however, that, upon good cause shown, the expiration date of the provisional operating authorization may be extended.

(e) The presiding officer may, upon good cause being shown, provide that any intermediate decision and order issued pursuant to this section shall become effective immediately upon issuance subject to (1) the review thereof and further decision by the Commission upon exceptions thereto filed by any party within twenty (20) days after issuance of such intermediate decision, pursuant to the Commission's rules of practice, and (2) such further order as the Commission may enter upon such exceptions or upon its own motion within forty-five (45) days after the issuance of such intermediate decision: *Provided, however*, That, in the absence of any further Commission order pursuant to the foregoing and exceptions to the intermediate decision, the intermediate decision of the presiding officer shall become the final decision of the Commission at the end of such forty-five (45) day period. In the event of objection by any party to immediate effectiveness of such intermediate decision and order, the presiding officer may in his discretion stay such effectiveness pending filing by such party within five (5) days of exceptions to the provision for immediate effectiveness and thereafter until decision on such exceptions by the Commission.

§ 115.46 Hearings and reports of the Advisory Committee on Reactor Safeguards.

(a) Each application for an authorization to construct or operate a nuclear reactor subject to this part shall be referred to the Advisory Committee on Reactor Safeguards for review and report thereon. Such report shall be made part of the record of the application and available to the public except to the extent that security classification prevents disclosure.

(b) The Commission will hold a hearing after 30 days' notice and publication once in the FEDERAL REGISTER on each application for authorization to construct or operate a nuclear reactor subject to this part.

INSPECTION, RECORDS, REPORTS

§ 115.50 Inspections.

Each holder of an authorization shall permit inspection, by duly authorized representatives of the Commission, of his records, premises, activities, and of materials in possession or use, related to the construction or operating authorization as may be necessary to effectuate the purposes of this part and other applicable regulations or orders of the Commission.

§ 115.51 Maintenance of records, making of reports.

Each holder of an authorization shall maintain such records and make such reports, in connection with the authorized activity, as may be required by the conditions of the authorization or by the rules, regulations, and orders of the Commission in effectuating the purposes of the Act.

AMENDMENT OF AUTHORIZATIONS AT REQUEST OF HOLDER

§ 115.60 Application for amendment of authorization.

Whenever a holder of an authorization desires to amend the authorization, application for an amendment shall be filed with the Commission, fully describing the changes desired, and following as far as applicable the form prescribed for original applications.

§ 115.61 Issuance of amendment.

In determining whether an amendment to an authorization will be issued to the applicant, the Commission will be guided by the considerations which govern the issuance of authorizations, to the extent applicable and appropriate. If the application involves the material alteration of a nuclear reactor, a construction authorization will be issued prior to the issuance of the amendment to the authorization.

REVOCATION, SUSPENSION, MODIFICATION, AMENDMENT OF AUTHORIZATIONS

§ 115.70 Revocation, suspension, modification of authorizations for cause.

An authorization may be revoked, suspended, or modified, in whole or in part, for any material false statement in the application for authorization or in the supplemental or other statement of fact required of the applicant; or because of conditions revealed by the application for authorization or statement of fact or any report, record, inspection, or other means, which would warrant the Commission to refuse to grant an authorization on an original application; or for failure to construct or operate a nuclear reactor in accordance with the terms of the authorization; or for violation of, or failure to observe, any of the terms and provisions of the Act, regulations, authorization or order of the Commission.

§ 115.71 Retaking possession of special nuclear material.

Upon revocation of an authorization, the Commission may immediately retake possession of all special nuclear material possessed by the holder of the authorization.

APPLICABILITY OF OTHER REGULATIONS

§ 115.80 Applicability of other regulations.

(a) The provisions of Subparts A, B, G, and H of Part 2 of this chapter shall apply to authorizations and applications for authorizations, and to proceedings with respect thereto, to the same extent as if such applications were applications for licenses or construction permits under Part 50 of this chapter; and to the same extent as if such authorizations were licenses or construction permits under Part 50.

(b) Each holder of an authorization shall comply with the provisions of Part 20 of this chapter to the same extent as if such authorization were a license or construction permit issued under Part 50 of this chapter.

(c) No individual shall manipulate the controls of any facility authorized pursuant to this part without a valid operator's license issued pursuant to Part 55 of this chapter.

ENFORCEMENT

§ 115.90 Violations.

An injunction or other court order may be obtained prohibiting any violation of any provision of the Act or any regulation or order issued thereunder. Any person who willfully violates any provision of the Act or any regulation or order issued thereunder may be guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both, as provided by law.

Dated at Germantown, Md., this 25th day of November 1960.

For the Atomic Energy Commission.

WOODFORD B. MCCOOL,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 13854; FCC 60-1408]

TELEVISION BROADCAST STATIONS

Requirements for Frequency Monitors

In the matter of amendment of Part 3 of the Commission rules governing TV broadcast stations concerning requirements for frequency monitors, Docket No. 13854.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. In November 1955, the Commission adopted a Report and Order in Docket No. 11094, which for the first time required television broadcast stations to have an approved frequency monitor in operation during all periods of operation of the station. Since no approved monitors were available at that time, the time for compliance with the rule was set forward to June 1, 1957. This date has subsequently been extended, the most recent extension having been made by order adopted November 16, 1960 (FCC 60-1379) which extended the time for compliance to February 28, 1961. In the extension Orders the Commission stated that it would review the requirement for frequency monitors to determine whether it was still needed.

3. The development of new and better frequency controls and the crystals used therein for television broadcast stations has improved the stability of transmitters to the point where their short term frequency stability is approaching that of the currently available frequency monitors. There have been relatively few incidents where TV stations were found operating beyond their frequency tolerance and in some of those the off-frequency operation came about because the operator attempted to adjust the transmitter frequency to agree with the frequency monitor indication but the frequency monitor had drifted off-frequency.

4. The lack of long-term frequency stability in currently available monitors makes it necessary to check them with an external frequency source of known accuracy at periodic intervals. In most cases the standard frequency transmissions of WWV, operated by the National Bureau of Standards, are used. One of the most commonly used procedures is to check the operating frequency of the transmitter and then correct the monitor to agree with the known transmitter frequency.

5. In view of the foregoing, we believe that the requirement that a continuously operating frequency monitor be installed at television broadcast stations can be eliminated and licensees permitted to compare the operating frequency of the station with an external frequency source of known accuracy at sufficiently frequent intervals to insure that the operating frequency is maintained at all times within the prescribed tolerance. This frequency check should be made as often as necessary to insure compliance and, in all cases, at least once each day. The choice of measuring equipment and the method employed is left to the discretion of the licensee but must be technically sound. Stations desiring to maintain continuously operating frequency monitors of suitable design may continue to do so. However, the daily checks against a frequency source of known accuracy must still be made.

6. It is proposed to amend §§ 3.663 and 3.690 of the Commission rules as set forth below and to delete § 3.693.

7. Authority for the issuance of the proposed amendments is contained in sections 4(i), 303 (e), (f) and (r) of the Communications Act of 1934, as amended.

8. Pursuant to applicable procedures set out in § 1.213 of the Commission's rules, interested parties may file comments on or before December 26, 1960, and reply comments on or before January 6, 1961. In reaching its decision on the rules and standards of general applicability which are proposed herein, the Commission will not be limited to consideration of comments of record, but will take into account all relevant information obtained in any manner from informed sources.

9. In accordance with the provisions of § 1.54 of the Commission's rules and regulations, an original and fourteen copies of all statements, briefs, or comments filed shall be furnished the Commission.

Adopted: November 22, 1960.

Released: November 28, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

1. Delete § 3.690 *Frequency monitor* and substitute the following:

§ 3.690 Frequency measurements.

(a) The operating frequencies of the visual and aural transmitters shall be checked at sufficiently frequent intervals to insure that they are within the prescribed tolerance and in any event at least once each day. A frequency monitor or other frequency source of known accuracy, independent of the frequency controlling elements of the transmitter, shall be used for this check. The determination may be a measurement of the actual operating frequency of the station or a multiple or sub-multiple thereof, or in terms of the difference between the actual operating frequency and the assigned frequency without regard as to whether the difference is plus or minus.

(b) The frequency monitor or other frequency source employed for the above check shall be capable of supplying a reference signal at the time the check is made, that when compared with the standard frequency transmissions of the National Bureau of Standards, is accurate to within 10 percent of the allowable frequency tolerance at the operating frequency of the station and shall maintain this accuracy during the period required for the frequency check.

(c) The frequency monitor or other frequency source employed for the above frequency determination shall be checked against the standard frequency transmissions of the National Bureau of Standards at sufficiently frequent intervals to insure that the required accuracy is maintained and in any event at intervals no longer than one month.

(d) If a commercial frequency measuring service is employed for the periodic checks of the operating frequency, the licensee of the station shall secure a written statement from the organization performing the frequency measurements giving the guaranteed accuracy of their measurements and the frequency with which their equipment is checked against the standard frequency transmissions of the National Bureau of Standards. This statement shall be posted or filed at the operating position of the station.

§ 3.692 [Amendment]

2. Delete the words "frequency" and "and" from the heading of § 3.692.

3. Delete § 3.693 *Requirements for type approval of frequency monitors* and substitute the following:

§ 3.693 [Reserved]

§ 3.663 [Amendment]

4. Delete subparagraph (iii) of § 3.663 (b) (4).

5. Add the following subparagraphs to § 3.663(b):

(6) An entry showing the time and date of each check of the operating frequency against a frequency source of known accuracy, giving the method used, the deviation noted, and any correction made in the operating frequency. If a fixed routine is employed for such checks, the detailed description of the method may be posted or filed at the operating position and the log entry merely refer to the posted or filed description.

(7) An entry showing the time and date of each check against the standard frequency transmissions of the National Bureau of Standards, of the equipment used to check the operating frequency of the transmitter, giving the method used, the deviation noted, and any correction made. If a fixed routine is employed for these checks, the detailed description of the method may be posted or filed at the operating position and the log entry merely refer to the posted or filed description.

§ 3.694 [Amendment]

6. Delete paragraph (a) of § 3.694 *Requirements for type approval of aural modulation monitors*, and redesignate paragraphs (b) through (e) as (a) through (d) respectively.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 27]

[Docket No. FDC-70]

CANNED FRUITS AND CANNED FRUIT JUICES; DEFINITIONS AND STANDARDS OF IDENTITY; QUALITY; AND FILL OF CONTAINER

Notice of Hearing Re Establishment of Definitions and Standards of Identity for Orange Juice and Orange Juice Products

In the matter of establishing definitions and standards of identity for orange juice (§ 27.106), pasteurized orange juice (§ 27.107), canned orange juice (§ 27.108), sweetened pasteurized orange juice (§ 27.109), canned sweetened orange juice (§ 27.110), concentrated orange juice (§ 27.111), sweetened concentrated orange juice (§ 27.112), reconstituted orange juice (§ 27.113), sweetened reconstituted orange juice (§ 27.114), and industrial orange juice with added chemical preservatives:

Notices of proposed rule making were published in the FEDERAL REGISTER of November 6, 1956 (21 F.R. 8511), and June 4, 1957 (22 F.R. 3893), setting forth proposals of Kraft Food Company, 500 Prestigo Court, Chicago, Illinois, the National Association of Frozen Food Packers, 1415 K Street NW., Washington, D.C., and the Commissioner of Food and Drugs for the establishment of definitions and standards of identity for orange juice and certain types of orange juice products. Subsequently, an order was published in the FEDERAL REGISTER of March 1, 1960 (25 F.R. 1770), promulgating identity standards for all the above-identified orange juice and orange juice products, except for industrial orange juice, the petition for which was denied. Objections were filed to the order and a public hearing was requested as provided in the Federal Food, Drug, and Cosmetic Act (sec. 701 (e) (2), 70 Stat. 919; 21 U.S.C. 371(e) (2)). A notice was published April 13, 1960 (25 F.R. 3159), announcing that objections had been filed and that the order was stayed pending a resolution of the issues at a public hearing.

The Commissioner of Food and Drugs has concluded that the objections state reasonable grounds for a hearing on the following issues:

I–A. Whether the following designations constitute the common or usual names for the several products:

1. Orange juice.
2. Pasteurized orange juice.
3. Canned orange juice.
4. Sweetened pasteurized orange juice.
5. Canned sweetened orange juice.
6. Concentrated orange juice, orange juice concentrate.
7. Sweetened concentrated orange juice, sweetened orange juice concentrate.
8. Reconstituted orange juice, orange juice from concentrate.
9. Sweetened reconstituted orange juice, sweetened orange juice from concentrate.

B. If the designations listed in I–A do not constitute the common or usual names for the products, what are the common or usual names?

C. If the common or usual names under which any of the products listed in I–A have been marketed fail to convey to the consumer what the products really are and how they differ from freshly squeezed orange juice, thus making it impractical and contrary to the promotion of honesty and fair dealing in the interest of consumers to standardize the foods under such names, what means should be used to avoid consumer deception and confusion?

D. If there are no common or usual names for the several products, or if it is impractical to standardize the foods under such names, will the names designated in the proposed standard promote honesty and fair dealing in the interest of consumers?

II–A. Whether the optional ingredients permitted in the proposed standards should include any of the following:

1. Tangerine juice.
2. Juice from "sour" oranges.
3. Orange oil.
4. Orange essence.
5. Orange pulp.
6. Artificial sweeteners (§§ 27.109, 27.110, 27.112, and 27.114 only).
7. Nutrient sweeteners (§§ 27.109, 27.110, 27.112, and 27.114 only).
8. Orange juice concentrate.
9. Reconstituted orange juice (in pasteurized orange juice only, § 27.107).
10. Liquid sugar sirup (§§ 27.109 and 27.110 only).
11. Liquid invert sugar sirup (§§ 27.109 and 27.110 only).

B. For each item listed in II–A that should be included as an optional ingredient:

1. How can that ingredient best be described in the standard?
2. What should be the maximum amount of that item in the several products?
3. What should be the minimum amount of that item in the several products?

C. For each item listed in II–A that should be included as an optional ingredient:

1. Should the presence of that item in the several products be declared on the label?
2. If so, what label declaration will best promote honesty and fair dealing in the interest of consumers?

III. Whether the following Brix and Brix/acid ratio requirements identify the several products and are necessary for the protection of the consumer:

§ 27.107 Brix tests not less than 10.5° on the Brix hydrometer; Brix/acid ratio of not less than 10:1.
§ 27.108 Brix tests not less than 10.5° on the Brix hydrometer; Brix/acid ratio of not less than 10:1.
§ 27.109 Brix tests not less than 12.5° on the Brix hydrometer; Brix/acid ratio of not less than 10:1.
§ 27.110 Brix tests not less than 12.5° on the Brix hydrometer; Brix/acid ratio of not less than 10:1.
§ 27.113 Brix tests not less than 11.8° on the Brix hydrometer.
§ 27.114 Brix tests not less than 12.5° on the Brix hydrometer; Brix/acid ratio of not less than 10:1.

If not, what Brix and Brix/acid ratio requirements are needed properly to promote honesty and fair dealing in the interest of consumers?

IV. Whether the proposed standards should provide for the optional use of the following methods of manufacture:

§ 27.106 Orange juice—Freezing; heating to permit removal of peel oil.
§ 27.107 Pasteurized orange juice—Freezing; thawing of single-strength juice.
§ 27.111 Concentrated orange juice and § 27.112 Sweetened concentrated orange juice—Heat treatment of finished product as well as ingredients; addition of orange juice concentrate both before and after concentration but before freezing.
§ 27.113 Reconstituted orange juice and § 27.114 Sweetened reconstituted orange juice—Heat treatment of finished product; sealing in containers and heat processing to prevent spoilage.

V–A. Whether the following limits should be placed on the amount of concentrate that may be added to the several products as an optional ingredient:

§ 27.106 Orange juice: None.
§ 27.107 Pasteurized orange juice, § 27.108 Canned orange juice, § 27.109 Sweetened pasteurized orange juice, and § 27.110 Canned sweetened orange juice: One-fourth of the total orange juice solids of the finished product.

B. If such limits should be placed on the amount of concentrate, will it promote honesty and fair dealing in the interest of consumers to declare the presence of such concentrate in such products on the label?

C. If so, what label declaration will best serve to inform the consumer?

D. Whether the concentrated orange juice used in adjusting the orange juice solids of the products listed in V–A may have a concentration of less than 41.8° Brix.

VI–A. Whether it is in the interest of consumers to establish a maximum limit on the amount of sweetener that may be added to:

§ 27.109 Sweetened pasteurized orange juice.
§ 27.110 Canned sweetened orange juice.
§ 27.112 Sweetened concentrated orange juice.
§ 27.114 Sweetened reconstituted orange juice.

B. If so, what maximum should be applied?

C. Should a minimum limit also be established?

VII–A. Whether the extracted residual juices vary as the extracting process varies, so that it will promote honesty and fair dealing in the interest of consumers to identify and/or to limit the processes employed in extracting juice from the particular residual pulp.

B. If the method of preparation of concentrated orange juice should be identified, whether the following statements on the label will serve to identify the method by which the juice is obtained:

1. "Prepared in part from water extract of orange pulp."
2. "Prepared in part from finisher extract of orange pulp."

A number of objections were received requesting the inclusion of chemical preservatives as ingredients in orange juice concentrates. By the order published on March 1, 1960 (25 F.R. 1770), the Commissioner specifically denied the establishment of a definition and standard of identity for industrial orange juice with added chemical preservatives. It is the understanding of the Commissioner that the orange juice concentrates referred to in the objections to that order are either used as bases for orange drinks or are flavoring materials. It is not contemplated that such orange juice concentrates come within the definition and standard of identity for concentrated orange juice now under consideration.

Objections were also received requesting the promulgation of a standard of identity for powdered (dehydrated) orange juice crystals and strained orange juice for infants. It is the opinion of the Commissioner that these products do not come within the proposed standards. Therefore, evidence will not be received regarding these products.

Objections were also received with reference to the size and style of containers in which the several finished products are packaged. It is the opinion of the Commissioner that the size and style of such containers are not issues in this hearing.

Finally, a number of objections were received to the effect that the standards did not make it definite enough that the several products may not be diluted with water. It is the opinion of the Commissioner that the proposed standards are sufficiently clear to establish that the volume of the final products, with the exception of reconstituted orange juice and sweetened reconstituted orange juice as provided for in §§ 27.113 and 27.114, may not be increased by the addition of water.

Now, therefore, pursuant to the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and delegated to the Commissioner of Food and Drugs (25 F.R. 8625), notice is given that a public hearing will be held for the purpose of receiving evidence relevant and material to the issues set forth above.

The hearing will begin at 10:00 o'clock, eastern standard time, in the morning of January 30, 1961, in the main auditorium, Health, Education, and Welfare Building, 330 Independence Avenue SW., Washington, D.C., and will continue thereafter at such times and places as directed by the presiding officer. All persons interested are invited to attend the hearing and present evidence. The hearing will be conducted in accordance with the rules of practice provided therefor. A prehearing conference for the simplification of the issues, exchange of documentary evidence, the scheduling of witnesses, and such other matters as may aid in the disposition of the proceeding will be held in Room 5131, Health, Education, and Welfare Building, beginning at 10:00 in the morning of January 16, 1961. All interested persons who will attend the hearing are urged to appear or to send a representative. Any interested person intending to introduce documentary evidence at the hearing is requested to bring five copies of such documentary evidence to the prehearing conference or to send five copies to the presiding officer in advance of the conference. Only those persons expecting to actively participate at the hearing should attend the

prehearing conference. All persons expecting to attend the prehearing conference should notify the presiding officer in advance.

Mr. William J. Risteau, Room 5440, Health, Education, and Welfare Building, is hereby designated as presiding officer to conduct the hearing, with full authority to administer oaths and affirmations and do all other things appropriate to the conduct of the hearing. The presiding officer is required to certify the entire record of the proceedings to the Commissioner of Food and Drugs for action.

At the termination of the hearing, written statements may be submitted on factors which may have a bearing on the effective date of the final standard.

Dated: November 25, 1960.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner, of Food and Drugs.

[21 CFR Part 120]

O,O-DIETHYL O-(2-ISOPROPYL-4-METHYL-6-PYRIMIDINYL) PHOSPHOROTHIOATE

Notice of Amendment of Petition for Establishment of Tolerances

Pursuant to the provisions of the Federal Food, Drug, and Cosmetics Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice appeared in the FEDERAL REGISTER on May 20, 1960 (25 F.R. 4482), that a petition had been filed by Geigy Agricultural Chemicals, Division of Geigy Chemical Corporation, Saw Mill River Road, Ardsley, New York, proposing the establishment of tolerances for residues of *O,O*-diethyl *O*-(2-isopropyl-4-methly-6-porimidinyl) phosphorothioate in or on raw agricultural commodities as follows:

3.0 parts per million in or on alfalfa, corn forage.

0.75 part per million in or on sweet corn (kernels and cob with husks removed), peas, almond hulls, pea forage, bean forage.

0.25 part per million in or on meat, fat, and other meat byproducts from cattle.

The petition has been modified so that the tolerances now requested are as follows:

10 parts per million in or on alfalfa hay.

3 parts per million in or on alfalfa, bean hay, corn forage, pea hay.

0.75 part per million in or on sweet corn (kernels and cob with husks removed), peas, almond hulls, pea forage, bean forage.

0.25 part per million in or on meat, fat, and other meat byproducts from cattle.

The methods of analysis proposed for determining residues of *O,O*-diethyl *O*-(2-isopropyl-4- methyl - 6 - pyrimidinyl) phosphorothioate are those referred to in the original notice of filing.

Dated: November 25, 1960.

Notices

POST OFFICE DEPARTMENT

RELOCATION OF REGIONAL HEADQUARTERS

The following is the text of Order Number 57049 of the Postmaster General dated November 10, 1960:

Effective December 1, 1960, the Regional Office Headquarters for the states of Alaska, Idaho, Montana, Oregon, and Washington will be relocated from Portland, Oregon, to Seattle, Washington.

The Headquarters of the Seattle Regional Office initially will be located in the Republic Building, Third Avenue and Pike Street, Seattle, Washington.

The office of the Regional Controller will temporarily remain in Portland but will be relocated to Seattle as soon as Government-owned space can be acquired.

(R.S. 161, as amended, sec. 1(b), 63 Stat. 1066, sec. 501, Pub. Law 86-682 (74 Stat. 580); 5 U.S.C. 22, 133z-15, 39 U.S. Code 501)

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 12931; FCC 60M-2009]

CARTER MOUNTAIN TRANSMISSION CORP.

Order Continuing Hearing

In re application of Carter Mountain Transmission Corporation, Cody, Wyoming, Docket No. 12931, File No. 2463-C1-P-58; for construction permit to install an additional transmitter, to transmit on frequency 6387.5 Mc. Location: Copper Mountain, 40 miles south of Worland, Wyoming.

The Chief Hearing Examiner having under consideration the motion filed in the above-entitled proceeding on November 23, 1960, by Carter Mountain Transmission Corporation requesting continuance of date of notification of witnesses to be called for cross-examination and of hearing date from November 23 and November 28, 1960, respectively, to November 29 and December 12, 1960, respectively;

It appearing that all parties have consented to immediate consideration and grant of the said motion and that good cause for a grant thereof is shown;

It appearing further that the Hearing Examiner designated to preside in the instant proceeding has been taken suddenly ill and it cannot presently be determined at what date he will be able to proceed in this matter;

It is ordered, This 25th day of November 1960 that the said motion is granted insofar as continuance of the said dates is requested and is otherwise denied; and

It is ordered further, That the date herein for notification of witnesses to be called for cross-examination and the date for commencement of hearing are continued to dates to be subsequently specified.

Released: November 25, 1960.

OREGON TELEVISION, INC., AND WILLAMETTE-LAND TELEVISION, INC.

Order Continuing Hearing

In re applications of Oregon Television, Inc., Salem, Oregon, Docket No. 13747, File No. BPCT-2611; Willamette-Land Television, Inc., Salem, Oregon, Docket No. 13748, File No. BPCT-2651; for construction permits for new television broadcast stations (Channel 3).

The Hearing Examiner having under consideration a "Joint Petition for Extension of Procedural Hearing Dates" filed by the applicants in the above-entitled matter on November 23, 1960, and

It appearing that counsel for the Broadcast Bureau has advised the other parties that he has no objection to the immediate consideration and grant of the relief requested therein, and that good cause for granting the petition is shown,

It is ordered, This 23d day of November 1960, that the aforesaid Petition is granted, and

It is further ordered, In accordance therewith, that the following schedule shall govern the procedure in this case:

1. Exchange of exhibits—date changed from December 1, 1960, to January 5, 1961,

2. Notification of witnesses for cross-examination—date changed from December 8, 1960, to January 12, 1961, and

3. Hearing—date changed from December 12, 1960, to 10:00 a.m., January 19, 1961, in the Commission's offices in Washington, D.C.

Released: November 25, 1960.

RALPH J. SILKWOOD

Order Continuing Hearing

In re application of Ralph J. Silkwood, Klamath Falls, Oregon, Docket No.

13329, File No. BP-12656; for construction permit.

The Hearing Examiner having under consideration a pleading filed on November 23, 1960, on behalf of Ralph J. Silkwood, requesting postponement of hearing in the above-entitled proceeding from the scheduled date of November 28, 1960, to January 6, 1961; and

It appearing that the postponement of the hearing is necessary because of the illness of Mr. Silkwood and the consequent delay in the consideration of matters in connection with the instant application; and

It further appearing that there are no other applicants or respondents in this proceeding and counsel for the Broadcast Bureau has informally agreed to a waiver of the four-day requirement of § 1.43 of the Commission's rules and has no objection to a grant of the request for postponement;

It is ordered, This 25th day of November 1960, that the request be and it is hereby granted; and the hearing in the above-entitled proceeding be and it is hereby continued to January 6, 1961.

Released: November 28, 1960.

FEDERAL POWER COMMISSION

[Docket No. G-9288, etc.]

ATLANTIC REFINING CO. ET AL.

Order Canceling Hearing

NOVEMBER 23, 1960.

By order issued October 19, 1960, we fixed January 16, 1961 as the date for the public hearing in these consolidated proceedings to commence.

On October 17, 1960 an order was issued advancing the date of hearing in Continental Oil Company, et al., Docket Nos. G-11024, et al., to November 28, 1960, in which proceeding The Atlantic Refining Company (Atlantic) is one of the applicants. Atlantic filed a petition for reconsideration of our order in Docket Nos. G-11024, et al., in which it avers, among other things, that it cannot prepare for both proceedings at the same time. In order to assure that the proceedings in Docket Nos. G-11024, et al., may be expeditiously concluded and to avoid any hearing conflicts which may interfere in the accomplishment of this objective we deem it advisable to cancel the hearing in these proceedings now scheduled for January 16, 1961, subject to further order of the Commission.

The Commission orders: The public hearing scheduled to commence on January 16, 1961, by our order issued October 19, 1960, in these proceedings is hereby cancelled. In all other respects the order consolidating proceedings, fixing date of hearing and prescribing procedure, issued herein on September 23, 1960, as amended by our order of October 19, 1960, shall remain in full force and effect pending further order of the Commission in these proceedings.

By the Commission (Commissioner Kline dissenting).

MICHAEL FARRELL,
Acting Secretary.

[Docket Nos. RI61-247—RI61-251]

BERT FIELDS ET AL.

Order Providing for Hearings on and Suspension of Proposed Changes in Rates [1]

NOVEMBER 25, 1960.

Bert Fields, et al., Docket No. RI61-247; Prince Marine Drilling and Exploration Company (Operator) et al., Docket No. RI61-248; Continental Oil Company (Operator) et al., Docket No. RI61-249; Edwin L. Cox, Docket No. RI61-250; Midwest Oil Corporation (Operator), et al., Docket No. RI61-251.

The above-named respondents have tendered for filing proposed changes in presently-effective rate schedules for sales of natural gas, subject to the jurisdiction of the Commission. The proposed changes are designated as follows:

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Amount of annual increase	Date filing tendered	Effective date [1] unless suspended	Date suspended until—	Cents per Mcf: Rate in effect	Cents per Mcf: Proposed increased rate	Rate in effect subject to refund in docket No.
RI61-247	Bert Fields, et al., 1211 Fidelity Union Life Building, Dallas, Tex.	8	12	Texas Eastern Transmission Corp. (Greenwood-Waskom Field, Caddo Parish, La.).	$98	10-26-60	11-26-60	4-26-61	[2] 16.0058	16.211	G-19738
RI61-247	Bert Fields, et al	9	7	Texas Eastern Transmission Corp. (Waskom Field, Harrison and Panola Counties, Tex.).	2,400	10-26-60	11-26-60	4-26-61	[3] 14.8	15.0	G-19738

RI61-251	do	20	5	United Fuel Gas Co. (Ellis Field, Acadia Parish, La.).	4,083	10-31-60	12-1-60	5-1-61	[3] 19.5	19.9	RI60-182

[1] The proposed effective dates are the first day after the required thirty days' notice or, if later, the date requested by respondent.
[2] The pressure base is 15.025 psia.
[3] The pressure base is 14.65 psia.

The increased rates and charges so proposed may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds it is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the several proposed changes and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders: (A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), public hearings shall be held upon the dates to be fixed by notices from the Secretary concerning the lawfulness of the several proposed increased rates and charges contained in the above-designated supplements.

(B) Pending hearings and decisions thereon, the above-designated supplements are hereby suspended and the use thereof deferred until the date indicated in the above "Rate Suspended Until" column, and thereafter until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until these proceedings have been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before January 9, 1961.

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11206; Filed, Dec. 1, 1960; 8:47 a.m.]

[1] This order does not provide for the consolidation for hearing or disposition of the several matters covered herein, nor should it be so construed.

[Project No. 2278]

CHIFLO PUMPED DIVERSION PROJECT AND PLAINS ELECTRIC GENERATION AND TRANSMISSION COOPERATIVE, INC.

Notice of Land Withdrawal; New Mexico

NOVEMBER 28, 1960.

Conformable to the provisions of section 24 of the Act of June 10, 1920 (41 Stat. 1063), as amended, notice is hereby given that the lands hereinafter described, insofar as title thereto remains in the United States are included in power Project No. 2278 (Chiflo Pumped Diversion Project) for which completed application for preliminary permit was filed August 30, 1960, by the Plains Electric Generation and Transmission Cooperative, Inc., 2401 Aztec Road NE., Albuquerque, N. Mex.

The area reserved by the filing of this application is approximately 4,967.22 acres, of which approximately 4,112.30 acres have been previously withdrawn by water Power Designation No. 1, Power Site Reserves No. 548 and 740, Power Site Classifications No. 360 or 393. Approximately 130 acres are within the boundaries of the Carson National Forest.

NEW MEXICO PRINCIPAL MERIDIAN—NEW MEXICO

All of the following described subdivisions as depicted on the map exhibit submitted to the Federal Power Commission on August 30, 1960, entitled "General Map, Project Area, Proposed Chiflo Pump Diversion Project, Rio Grande and Red River, New Mexico", (FPC No. 2278-1):

T. 28 N., R. 12 E.,
Sec. 4: Lot 4, SW¼NW¼, W½SW¼, S½SE¼SW¼, S½S½SE¼;
Sec. 5: Lots 1, 2, 3, 4, S½N½, S½;
Sec. 6: Lots 1, 2, 3, S½NE¼, SE¼NW¼, E½NE¼SW¼, N½SE¼, N½SW¼SE¼, SE¼SE¼;
Sec. 8: E½, E½W½, E½W½W½, W½NW¼NW¼;

Sec. 10: W½NW¼NW¼;
Sec. 16: W½NW¼NE¼, NW¼, NW¼SW¼;
Sec. 17: E½, E½W½, E½W½W½;
Sec. 19: E½E½E½;
Sec. 20: N½NW¼NE¼, N½NW¼, SW¼NW¼, N½SE¼NW¼, W½W½SW¼.
T. 29 N., R. 12 E.,
Sec. 17: S½ of lot 3, lot 4, SE¼ of lot 6, S½ and NE¼ of lot 7, south portion of lot 9, lot 10;
Sec. 20: lots 1, 2, 3, 4, 6, 7, 8, E½E½NW¼, E½SW¼, E½SW¼SW¼;
Sec. 21: W½W½SW¼;
Sec. 28: W½W½NW¼;
Sec. 29: Lots 1, 2, 3, 4, 5, 6, 7, 8, E½E½, W½;
Sec. 30: E½E½SE¼;
Sec. 31: E½NE¼, E½SW¼NE¼, E½SE¼SW¼, SE¼;
Sec. 32: NW¼NW¼.

Copies of the project map exhibit (FPC No. 2278-1) have been transmitted to the Bureau of Land Management, Geological Survey, and Forest Service.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11190; Filed, Dec. 1, 1960; 8:45 a.m.]

[Docket Nos. RI61-240—RI61-244]

LARIO OIL & GAS CO. ET AL.

Order Providing for Hearings on and Suspension of Proposed Changes in Rates, and Allowing Increased Rate To Become Effective Subject to Refund [1]

NOVEMBER 22, 1960.

Lario Oil & Gas Company, Docket No. RI61-240; Crescent Oil and Gas Corporation (Operator), et al., Docket No. RI61-241; K. S. Adams, Jr., Docket No. RI61-242; South-Tex Corporation (Operator), et al., Docket No. RI61-243; French M. Robertson (Operator), et al., Docket No. RI61-244.

The above-named Respondents have tendered for filing proposed changes in presently effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission. All of the sales are made at a pressure base of 14.65 psia. The proposed changes are designated as follows:

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Amount of annual increase	Date filing tendered	Effective date unless suspended	Date suspended until—	Cents per Mcf: Rate in effect	Cents per Mcf: Proposed increased rate	Rate in effect subject to refund in docket Nos.
RI61-240	Lario Oil & Gas Co., 301 South Market Street, Wichita 2, Kans.	12	3	Northern Natural Gas Co. (Hugoton Field, Finney County, Kans.) (Kansas).	$335	10-24-60	[1] 11-24-60	4-24-61	[2] 12.0	[2] 17.0	----------
RI61-241	Crescent Oil and Gas Corp. (Operator), et al., c/o C. N. Haskell, Attorney, 1202 Philtower Building, Tulsa 3, Okla.	1	10	Texas Eastern Trans. Corp. (Waskom Field, Panola County, Tex.) (R.R. Dist. No. 6).	1,638	10-24-60	[1] 11-24-60	4-24-61	14.8	15.0	G-19735
RI61-242	K. S. Adams, Jr., P.O. Box 844, Houston 1, Tex.	3	4	Phillips Petroleum Co. (W. Panhandle Field, Moore County, Tex.) (R.R. Dist. No. 10).	[3] 7,655	10-24-60	[1] 11-24-60	11-25-60	[4] 7.5534 / [5] 8.00	[4] 8.37723 / [5] 9.49625	----------
RI61-243	South-Tex Corp. (Operator), et al., 1410 Bank of the Southwest Building, Houston, Tex.	1	21	Tennessee Gas Trans. Co. (various fields, Nueces and Jim Wells Counties, Tex.) (R.R. Dist. No. 4).	270,814	10-24-60	[6] 12-1-60	5-1-61	11.90337	17.02416	----------
RI61-244	French M. Robertson (Operator), et al., P.O. Box 519, Abilene, Tex.	1	7	El Paso Natural Gas Co. (Noelke Field, Crockett County, Tex.) (R.R. Dist. No. 7-c).	13,427	10-25-60	[1] 11-25-60	4-25-61	[7] 12.0767	14.69575	G-16535

[1] The stated effective date is the first day after expiration of the required thirty days' notice.
[2] Subject to downward Btu adjustment.
[3] No sweet gas deliveries.
[4] Sour gas, sweet gas higher but have no present production.
[5] Sweet gas.
[6] The stated effective date is the effective date proposed by Respondent.
[7] Rate of 16.0 cent per Mcf suspended in Docket No. G-18692 until 11-22-59. Motion never filed to place the suspended rate in effect.

In support of its proposed redetermined rate increase, Lario Oil & Gas Company states that the proposed rate is below the commodity value of the gas; the rate is the result of arm's-length negotiations; and the cost of finding gas has been increasing due to inflation, deeper drilling, drilling in more inaccessible places, lower discovery ratios and smaller reserves.

Crescent Oil and Gas Corporation (Operator), et al., in support of its proposed periodic rate increase, states that the increased rate does not create any new price plateau; it does not operate to trigger prices under other contracts; and

[1] This order does not provide for the consolidation for hearing or disposition of the several matters covered herein, nor should it be so construed.

it is not greater that the reasonable market price for gas in the particular area.

In support of his proposed spiral escalation adjusted periodic rate increase, K. S. Adams, Jr., cites the contractural provisions [1] and states that the proposed rate is well below the market price for gas and below the 11.0 cents per Mcf ceiling for increased rates in Texas Railroad District No. 10, as announced in the Commission's Statement of General Policy No. 61.

In support of its proposed favored-nation rate increase, South-Tex Corporation (Operator), et al., submits a favored-nation notification letter dated March 10, 1960, cites the contractural provisions, and states that the contract was negotiated at arm's length.

French M. Robertson (Operator), et al., in support of his proposed renegotiated rate increase, states that the rate was negotiated at arm's length; in consideration of such rate Robertson, et al., surrendered their rights under the favored-nation provision of the original contract; and the increased rate is in line with current natural gas prices in the area.

The increased rates and charges so proposed may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the several proposed changes and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Chapt. I), public hearings shall be held upon dates to be fixed by notices from the Secretary concerning the lawfulness of the several proposed increased rates and charges contained in the above-designated supplements.

(B) Pending hearings and decisions thereon, the above-designated supplements are hereby suspended and the use thereof deferred until the date indicated in the above "Rate Suspended Until" column, and thereafter until such further time as they are made effective in the manner prescribed by the Natural Gas Act: *Provided, however,* That Supplement No. 4 to K. S. Adams, Jr.'s (Adams) FPC Gas Rate Schedule No. 3 shall become effective on the date and in the manner herein prescribed if within 20 days from the date of the issuance of this order Adams shall execute and file under Docket No. RI61-242 with the Secretary of the Commission his agreement and undertaking to comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder (prescribed by Order 215 and 215A), accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved. Unless Adams is advised to the contrary within 15 days after the filing of such agreement and undertaking his agreement and undertaking shall be deemed to have been accepted.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until these proceedings have been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before January 4, 1961.

By the Commission.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11192; Filed, Dec. 1, 1960; 8:45 a.m.]

[1] Adams' contract with Phillips Petroleum Company, who resells the subject gas to El Paso Natural Gas Company (El Paso), provides that if El Paso is granted a rate increase, then Adams shall be entitled to a corresponding rate increase in the same proportion. El Paso's proposed increased rates (used by Adams in calculating his proposed increased rate) are in effect subject to refund in Docket Nos. G-2018 and RP60-3.

[Project No. 1985]

CALIFORNIA-PACIFIC UTILITIES CO.

Notice of Application for Surrender of License

NOVEMBER 25, 1960.

Public notice is hereby given that California-Pacific Utilities Company, of 550 California Street, San Francisco, California, has filed application under the Federal Power Act (16 U.S.C. 791a-825r) for surrender of the license for water-power Project No. 1985, located on the North and South Forks of Mill Creek in Union County, Oregon, and affecting lands of the United States within the Whitman National Forest, Minan Division.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last date upon which protests or petitions may be filed is January 3, 1961. The application is on file with the Commission for public inspection.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11207; Filed, Dec. 1, 1960; 8:47 a.m.]

[Docket No. G-9510 etc.]

CITIES SERVICE PRODUCTION CO. ET AL.

Order Continuing Hearing

NOVEMBER 23, 1960.

On October 14, 1960, the presiding examiner recessed the hearing in these proceedings until December 5, 1960, at which time witnesses for interveners and the staff were to be cross-examined by counsel for the Respondents. In view of the facts set forth in our order issued today in the proceedings in Continental Oil Company, et al., Docket No. G-11024 etc., it is appropriate that the hearing in these proceedings be continued until a later date.

The Commission orders: The hearing in these proceedings presently scheduled to resume on December 5, 1960, is hereby continued until January 31, 1961.

By the Commission (Commissioner Kline dissenting).

MICHAEL J. FARRELL,
Acting Secretary.

[Docket No. E-6968]

DUKE POWER CO.

Notice of Application

NOVEMBER 25, 1960.

Take notice that on November 17, 1960, an application was filed with the Federal Power Commission pursuant to section 204 of the Federal Power Act by Duke Power Company ("Applicant") for authorization of the assumption of liability in respect of securities of Carolinas Virginia Nuclear Power Associates, Inc. ("CVNPA"). Applicant is a corporation organized under the laws of the State of New Jersey with its principal business office at 422 South Church Street, Charlotte, North Carolina, and is authorized to do business in the States of North Carolina and South Carolina. Applicant is a public utility operating in the States of North Carolina and South Carolina. CVNPA is incorporated as a non-profit corporation under the laws of the State of North Carolina, and domesticated in the State of South Carolina with its principal business office at Charlotte, North Carolina. CVNPA was formed by four neighboring public utility companies, consisting of Applicant, Carolina Power & Light Company, South Carolina Electric & Gas Company and Virginia Electric and Power Company (the "Member Companies"), for the purpose of research and development in the use of nuclear energy for the generation of electricity. Under a contract with the Atomic Energy Commission (AEC) dated January 12, 1959 (Exhibit N of application) and under a construction license issued by AEC on May 4, 1960, CVNPA is constructing a nuclear steam generating plant on a site at Parr, South Carolina, near the Broad River.

The four Member Companies have agreed with CVNPA and with each other to pay all contractual indebtedness of CVNPA, in the following proportions:

	Percent
Carolina Power & Light Co	20.0
Duke Power Co	34.0
South Carolina Electric & Gas Co	12.5
Virginia Electric and Power Co	33.5

CVNPA proposes to finance the costs of the design and construction of the nuclear plant and the start-up of the reactor through contributions to it by the Member Companies and through loans from commercial banks guaranteed as to principal and interest by the Member Companies severally in the proportions stated above. The Member Companies will first contribute to CVNPA a total of not less than $3,000,000 of which amount $2,150,000 had been contributed to CVNPA by the Member Companies as of July 31, 1960. Thereafter, during the course of the construction of the plant, CVNPA will obtain short-term loans from commercial banks from time to time as funds are required by it for construction costs. CVNPA will issue its promissory notes for such loans and the payment of the principal of, and the interest on, such notes will be guaranteed by the Member Companies proportionately. The interest rate on each note will fluctuate automatically as the prime commercial rate changes, so as to be at all times the prime commercial rate prevailing in New York, New York, plus ½ percent. As of the date of the application such prime interest rate was 4½ percent per annum. Each note will be dated as of its actual date of issue and will mature in no more than one year after the date thereof. As such notes mature, they will be renewed by similar notes, similarly guaranteed, until the construction of the nuclear plant has been completed. It is estimated that, even including possible escalation, the aggregate principal amount of such notes, excluding renewals, will not exceed $19,000,000.

The Chase Manhattan Bank of New York, New York, will make a commitment to CVNPA for the proposed construction loans, and CVNPA will pay that bank a loan commitment fee at the rate of ¼ of 1 percent per annum on the daily average unused amount of the commitment. Upon completion of the construction of the nuclear plant or on December 31, 1962, whichever is earlier, the aggregate principal amount of the notes then outstanding will be funded by a five-year loan or loans from The Chase Manhattan Bank and other participating banks. CVNPA will issue its promissory note or notes for such five-year loan, and payment of CVNPA's note or notes will be guaranteed by the Member Companies severally in the proportions stated above. The interest rate on the aforesaid note or notes will be the prime commercial rate in New York, New York, as of the date of issue, plus ½ percent per annum.

Applicant states that the purpose for which the proposed promissory notes are to be issued is to obtain funds for financing in part the costs of construction of the above-described nuclear plant of CVNPA or for reimbursing the treasury of CVNPA for expenditures made by CVNPA for such construction costs.

Any person desiring to be heard or to make any protest with reference to said application should on or before the 15th day of December 1960, file with the Federal Power Commission, Washington 25, D.C., petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file and available for public inspection.

MICHAEL J. FARRELL,
Acting Secretary.

[1] These respective applications, have been, heretofore, duly noticed by Notice of Application and Date of Hearing issued April 22, 1960 and published in the FEDERAL REGISTER April 29, 1960 (25 F.R. 3769). In the Matters of Elmer R. Lewis, et al., Docket Nos. G-3143, et al. and are included herein for the purpose of hearing.

[2] Garfield Gas Gathering Company (Garfield) in Docket No. CI61-191 seeks authorization to construct and operate approximately 27.5 miles of gathering and transportation facilities and to sell and deliver natural gas to El Paso Natural Gas Company (El Paso) at a point of connection with El Paso's lateral line in the Piceance Creek Field area, Colorado. Garfield will initially purchase all of its gas supply from Carter and Carter in the Rulison Field Area, Rifle, Colorado, as proposed by Carter and Carter in Docket No. CI61-190 in this consolidated proceeding.

Take notice that each of the above Applicants has filed an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing each to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the respective applications, amendments and supplements thereto, which are on file with the Commission and open to public inspection.

The respective Applicants produce and propose to sell natural gas for transportation in interstate commerce for resale as indicated below:

The public convenience and necessity require that these matters be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 29, 1960, at 9:30 a.m., e.s.t., in a Hearing Room at the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petition to intevene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 15, 1960. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made: *Provided, further,* If a protest, petition to intervene or notice of intervention be timely filed in any of the above dockets, the above hearing date as to that docket will be vacated and a new date for hearing will be fixed as provided in § 1.20(b)(2) of the rules of practice and procedure.

MICHAEL J. FARRELL,
Acting Secretary.

[Docket No. RI61–252]

UNION OIL CO. OF CALIF.

Order Providing for Hearing on and Suspension of Proposed Change in Rate and Allowing Increased Rate To Become Effective Subject to Refund

NOVEMBER 25, 1960.

On November 1, 1960, Union Oil of California[1] (Union Oil) tendered for filing proposed changes in rate for sales of natural gas subject to the jurisdiction of the Commission. The sales are to Arkansas Louisiana Gas Company from the producing area of Colquitt Field, Claiborne Parish, Louisiana, and the proposed change, designated Supplement No. 4 to Union Oil's FPC Gas Rate Schedule No. 22, reflects an increase from 12.888[2] cents to 13.337 cents per Mcf at a pressure base of 15.025 psia. The amount of annual increase is $1,975.00. Union Oil requests an effective date of December 21, 1960.

The proposed change may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds (1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the proposed change and that the above-designated supplement be suspended and the use thereof be deferred as hereinafter ordered.

(2) It is necessary and proper in carrying out the provisions of the Natural Gas Act that Supplement No. 4 to Union Oil's FPC Gas Rate Schedule No. 22 be allowed to take effect December 22, 1960, subject to refund upon the timely filing of its respective agreement and undertaking, as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing shall be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in the above-designated supplement.

(B) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Supplement No. 4 to Union Oil's FPC Gas Rate Schedule No. 22 shall be effective as of December 22, 1960: *Provided, however,* That within 20 days from the date of the issuance of this order, Union Oil shall execute and file under Docket No. RI61–252 with the Secretary of the Commission its respective agreement and undertaking to comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder (prescribed by Order 215 and 215A), signed by a responsible officer of the corporation, evidenced by proper authority from the Board of Directors and accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved. Unless Union Oil is advised to the contrary within 15 days after the filing of such agreement and undertaking, its agreement and undertaking shall be deemed to have been accepted.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before January 9, 1960.

By the Commission.

MICHAEL J. FARRELL,
Acting Secretary.

SUN OIL CO. ET AL.

Order Providing for Hearings on and Suspension of Proposed Changes in Rate; Correction

NOVEMBER 10, 1960.

Sun Oil Company (Operator), et al., Docket Nos. RI61–138, etc.; Hidalgo Gas Production Corporation, Docket No. RI61–144.

In the order providing for hearings on and suspension of proposed changes in rate, issued October 26, 1960, and published in the FEDERAL REGISTER on November 2, 1960 (F.R. Doc. 60–10261; 25 F.R. 10505): On page 10506, in the chart under the heading "Docket No." change the last two docket designations from "RI60–144" to read "RI61–144."

MICHAEL J. FARRELL,
Acting Secretary.

FEDERAL RESERVE SYSTEM

FIRSTAMERICA CORPORATION

Notice of Receipt of Application

Notice is hereby given that the Board of Governors of the Federal Reserve System has received an application by Firstamerica Corporation, Los Angeles, California, pursuant to section 3(a) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842), for the Board's prior approval of the acquisition by that Corporation of the capital stock of the proposed First Western Bank and Trust Company, San Francisco, California.

This application, together with several separate but related applications filed pursuant to sections 18(c) and 18(d) of the Federal Deposit Insurance Act (12 U.S.C. 1828 (c) and (d)) and section 9 of the Federal Reserve Act (12 U.S.C. 321), has been submitted seeking approval of the Board of Governors and the Federal Deposit Insurance Corporation, respectively, of separate but related transactions.

In determining whether to approve the application submitted pursuant to section 3(a) of the Bank Holding Company Act, the Board is required by that Act to take into consideration the following factors: (1) The financial history and condition of the company and the bank concerned; (2) their prospects; (3) the character of their management; (4) the convenience, needs, and welfare of the communities and the area concerned; and (5) whether or not the effect of such acquisition would be to expand the size or extent of the bank holding company system involved beyond limits consistent with adequate and sound banking, the public interest, and the preservation of competition in the field of banking.

Not later than thirty (30) days after the publication of this notice in the FEDERAL REGISTER, comments and views regarding the proposed acquisition may be filed with the Board. Communications should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington 25, D.C.

Dated at Washington, D.C., this 30th day of November 1960.

By order of the Board of Governors.

[SEAL] MERRITT SHERMAN, *Secretary.*

[F.R. Doc. 60-11204; Filed, Dec. 1, 1960; 8:47 a.m.]

HARRISON SALES CO. ET AL.

Deposting of Stockyards

It has been ascertained, and notice is hereby given, that the stockyards named herein, originally posted on the respective dates specified below as being subject to the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.), no longer come within the definition of a stockyard under said act for the reason that they are no longer being conducted or operated as public markets, and are, therefore, no longer subject to the provisions of the act.

Name of Stockyard and Date of Posting
Harrison Sales Co., Harrison, Ark.; Dec. 13, 1958.
Kite Stockyards, Kite, Ga.; July 15, 1960.
Clinton Livestock Sale, Clinton, Ill.; Nov. 18, 1959.
Ellington Auction Sales, Ellington, Mo.; May 25, 1959.
Crowley Auction Sale, Crowley Tex.; Mar. 9, 1959.
Clearwater Farms, Inc., Plainfield, Wis.; May 8, 1959.

Notice or other public procedure has not preceded promulgation of the foregoing rule since it is found that the giving of such notice would prevent the due and timely administration of the Packers and Stockyards Act and would, therefore, be impracticable and contrary to the public interest. There is no legal warrant or justification for not depositing promptly a stockyard which is no longer within the definition of that term contained in said act.

The foregoing is in the nature of a rule granting an exemption or relieving a restriction and, therefore, may be made effective in less than 30 days after publication in the FEDERAL REGISTER. This notice shall become effective upon publication in the FEDERAL REGISTER.

(42 Stat. 159, as amended and supplemented; 7 U.S.C. 181 et seq.)

Done at Washington, D.C., this 28th day of November 1960.

DONALD L. BOWMAN,
Acting Chief, Rates and Registration Branch, Packers and Stockyards Division, Agricultural Marketing Service.

INTERSTATE COMMERCE COMMISSION

[Notice 416]

MOTOR CARRIER TRANSFER PROCEEDINGS

NOVEMBER 29, 1960.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 63751. By order of November 22, 1960, the Transfer Board approved the transfer to Dale Hulshizer, doing business as Hulshizer Grain Co., Utica, Minn., of Certificate No. MC 115305, issued September 9, 1960, to Edward J. Brink, doing busines as Ferguson Grain Co., Wykoff, Minn., authorizing the transportation of animal and poultry feed, over irregular routes, from New Richmond, Wis., to Dover, Eyota, and Stewartville (Omsted County), Minn., points in Mower, Fillmore, and Houston Counties, Minn., and those in Winona County, Minn., on and south of U.S. Highway 14. A. R. Fowler, 2288 University Avenue, St. Paul 14, Minn., for applicants.

No. MC-FC 63754. By order of November 22, 1960, the Transfer Board approved the transfer to Lewis R. Hunt and C. L. Hunt, a partnership, doing business as Hunt and Son, Holden, Missouri; Corrected Certificate No. MC 82808, issued May 27, 1960, to Bert A. Savage, Sr., doing business as Blairstown Truck Line, Blairstown, Missouri; authorizing the transportation of livestock, over regular routes, from Blairstown, Mo., to Kansas City, Kans., serving the intermediate and off-route points of Kansas City, Mo., and those within 30 miles of Blairstown; feed, fencing material, roofing material, and agricultural implements, from Kansas City, Kans., to Blairstown, Mo., serving the intermediate and off-route points of Kansas City, Mo., and those within 30 miles of Blairstown; general commodities, excluding household goods, commodities in bulk, and various specified commodities, over regular routes, from Kansas City, Kans., to Blairstown, Mo., serving the intermediate and off-route points of Kansas City, Norris, Chilhowee, Denton, Medford, and Latour, Mo.; general commodities, except household goods, commodities in bulk, and various specified commodities, between Kansas City, Kans., and Blairstown, Mo., serving no intermediate points; livestock, over irregular routes, from points in Benton County, Mo., on and west of U.S. Highway 65, and those in Henry County, Mo., to Kansas City, Kans.; between Quick City, Mo., and points within 20 miles of Quick City, on the one hand, and on the other, Kansas City, Kans.; farm machinery, hay, and feed, from Kansas City, Kans., to Quick City, Mo., and points within 20 miles of Quick City; groceries, from Kansas City, Kans., to Quick City, Mo.; household goods, between Quick City, Mo., and points within 20 miles of Quick City, on the one hand, and, on the other, points in Kansas; between Blairstown, Mo., and points within 30 miles of Blairstown, on the one hand, and, on the other, points in Kansas; and logs, from points in the above specified Missouri territory to Leavenworth, Kans. C. L. Hunt, 420 East South Avenue, Independence, Mo., for applicants.

[SEAL] HAROLD D. MCCOY,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3914]

MISSISSIPPI POWER & LIGHT CO.

Notice of Proposed Acquisition of Common Stock of Business Development Corporation

NOVEMBER 25, 1960.

Notice is hereby given that Mississippi Power & Light Company ("Mississippi"), a public-utility subsidiary of Middle South Utilities, Inc., a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 9(c)(3) thereof as applicable to the proposed transaction. All interested persons are referred to said application for a statement of the proposed transaction which is summarized below.

Mississippi proposes to subscribe for not in excess of 9,000 shares of the $10 par value Common Stock of Mississippi Business and Industrial Development Corporation ("Development Corporation") at the subscription price of $10 per share, or for a total consideration of not to exceed $90,000.

The application states that Development Corporation is incorporated in the State of Mississippi under the provisions of "The Mississippi Business Development Corporation Act." The purposes of this corporation are set forth specifically in the State act. They may be briefly summarized as follows: to promote and assist, through loans, investments, or other business transactions, the location of new business and industry and the expansion or rehabilitation of existing industry in the State of Mississippi. Development Corporation has the authority to issue 1,000,000 shares of $10 par value Common Stock. The Common Stock has the right to one vote per share in the election of a Board of Directors. Initially, Development Corporation will issue approximately one million dollars ($1,000,000) of $10 par value Common Stock. Of this amount, approximately five hundred thousand dollars ($500,000) will be subscribed by utility companies, including telephone, gas, electric, and transportation companies. The other half million dollars in capital stock will be sold to business and industry and the general public. It is anticipated that electric and gas companies will purchase stock in the approximate amount of $0.50 per customer served.

The application also states that Mississippi will not exercise control over Development Corporation or its activities. The 9,000 shares of Common Stock proposed to be acquired by Mississippi will represent less than 1 percent of the total authorized amount of such stock, although it will represent 9 percent of the amount of Common Stock proposed to be initially outstanding. At no time will Mississippi's investment exceed 9 percent of the outstanding amount of such stock. Development Corporation presently has 12 directors, which is the maximum permitted by its charter. The President of Mississippi, who is also one of its directors, has been elected a director and Vice President of Development Corporation.

Development Corporation is empowered to borrow money from participating financial institutions ("Members") on a pro rata basis as needs for additional resources occur. When the corporation borrows money from these financial institutions, a Board of Members will assume an equal and joint power with the directors in the affairs of the corporation. As long as any of such indebtedness is outstanding, the direction of the corporation shall, under the charter, be vested in an Executive Committee elected jointly by the Board of Directors and the Board of Members. (In the absence of such borrowings, the Board of Directors will have exclusive direction of the affairs of the corporation.) It is anticipated that Development Corporation will normally be directed by the seven member Executive Committee, composed of three members elected by the Board of Directors, three members elected by the Board of Members, and one member elected by the other six.

At least 10 percent of the net earnings of Development Corporation will be set apart as earned surplus each year until earned surplus equals the amount paid in on the capital stock then outstanding. Whenever earned surplus is thereafter impaired, it will be built up to the required amount in the manner provided for its original accumulation. Subject to this requirement (determined after the provision for such reserve as the directors or the Executive Committee may deem desirable), dividends on the Common Stock may be declared.

To facilitate investment in Development Corporation, section 7(1) of the State law under which it was organized exempts such subscription from the approval of any regulatory authority of the State of Mississippi; however, it is understood that the State Public Service Commission proposes to issue an order stating that any amounts so invested in Development Corporation will be made a part of the rate base of regulated companies which participate in the enterprise. "Membership" by financial institutions in the State of Mississippi is likewise specifically granted (with certain limitations as to amount) without the necessity of approval of any regulatory authority of the State.

Mississippi states that it has the largest public-utility investment and serves the largest number of utility customers of any electric utility operating in the State of Mississippi. It operates and owns property in 43 of the 82 counties of the State. Mississippi believes

that Development Corporation's efforts to promote the economic welfare of the State will benefit both the company and its customers and that its subscription for the Common Stock of Development Corporation will be in the public interest. Mississippi has covenanted that, as long as its interest is more than 5 percent of the outstanding Common Stock and surplus of Development Corporation, no officer or director of the company may be a member of the Board of Members or of the Executive Committee.

The only separable expenses to be incurred in connection with the proposed transaction are miscellaneous expenses which are estimated not to exceed $250.00. The application states that no State or Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than December 13, 1960, at 5:30 p.m., request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[F.R. Doc. 60-11199; Filed, Dec. 1, 1960; 8:46 a.m.]

DEPARTMENT OF COMMERCE

Bureau of Foreign Commerce

[Case No. 280]

AMERICAN POTASH & CHEMICAL CORP. ET AL.

Probation and Export Denial Order

In the matter of American Potash & Chemical Corporation, 3000 West 6th Street, Los Angeles 54, California; Edward M. Kolb, 99 Park Avenue, New York 16, New York; Ernest A. Graupner, 20 East 74th Street, New York, New York; respondents; Case No. 280.

The Director of the Investigation Staff, Bureau of Foreign Commerce, charged American Potash & Chemical Corporation of Los Angeles, California (hereafter referred to as American Potash), Edward M. Kolb, General Sales Manager of its Heavy Chemical Division (hereafter referred to as Kolb), and Ernest A. Graupner, Manager of its Export Department prior to his resignation in September 1958 (hereafter referred to as Graupner), with violations of the Export Control Act of 1949, as amended, and regulations promulgated thereunder, by a charging letter dated March 24, 1960, and served upon all three respondents. The charges set forth alleged violations in connection with exportations of boron products by American Potash to Yugoslavia for end-use there.

Respondents, each represented by separate counsel, filed answers to the charging letter. Thereafter respondents discussed the issues with officials of the Bureau of Foreign Commerce (hereafter referred to as BFC), and pursuant to § 382.10 of the export control regulations, by agreement with the Director, Investigation Staff, proposed that a consent order, substantially in the form of Parts I through VI hereof, be entered against them. The respondents in consenting to the issuance of such order admitted certain of the allegations in the charging letter, but maintained that their actions or failure to act did not result from wilfulness or intent to violate the Export Control Act or the regulations promulgated thereunder.

The charging letter, respondent's answers and admissions, and their proposals, together with evidentiary and other supplementary data were presented to the Compliance Commissioner herein. The Compliance Commissioner, having carefully reviewed all of such materials, approved such proposals, and reported the facts of the case to the undersigned Acting Director, Office of Export Supply, with his recommendations.

After reviewing and considering the entire record of this case and the Compliance Commissioner's Report and Recommendations, I hereby make the following findings of fact:

1. Since the year 1955, the Bureau of Foreign Commerce (hereafter referred to as BFC) had been conferring with U.S. producer-exporters of primary boron products with a view to securing effective controls under the regulations to prevent the exportation, re-exportation, diversion, and transshipment of these strategic commodities to unauthorized persons and destinations, especially to the Sino-Soviet bloc. American Potash participated in the discussions and agreed to the program. One type of action to which it agreed was to examine carefully its export transactions covering such commodities, and if it had any suspicion about, or received any information which made suspect, any transaction in that the goods might be intended for an unauthorized person, use, or destination, American Potash would promptly report such information to the BFC and would not enter into or complete the transaction without BFC's subsequent approval. Graupner with others represented American Potash in the conferences with BFC officials, and he and Kolb were primarily responsible at the company's operating levels for carrying out American Potash's internal instructions which were promulgated and circulated to carry out policies and procedures agreed to with BFC.

2. In July 1957, Graupner submitted to BFC license applications for 250 metric tons of borax and 250 metric tons of boric acid. Each of the license applications, with supporting Yugoslav End-use Certificates, stated that a specified Yugoslav company was the ultimate consignee and purchaser, that Yugoslavia was the ultimate destination, and that the borax and boric acid were to be used to manufacture ceramics and glass. On the basis of the license applications and supporting documents submitted, BFC issued validated export licenses in July 1957 authorizing such shipment of the borax and boric acid.

3. The export orders covered by the aforesaid licenses had been negotiated by Graupner with another company in New York. American Potash has an affiliate abroad which generally is responsible for American Potash sales of boron products in the European market, including Yugoslavia. The then managing director of the affiliate, having ascertained from company reports that a proposed shipment under BFC validated export licenses, involving substantial new amounts of borax and boric acid was to be made to the designated Yugoslav company, with further substantial orders in prospect, wrote to Graupner on July 29, 1957, with copies to Kolb and another official, stating that he did not understand the large quantities going to the Yugoslav company involved. He stated that he well knew the Yugoslav market for consumption of boron products, listed a number of Yugoslav customers which the affiliate had been supplying through its Yugoslav agent and the tonnage of boron products supplied during the past year. The named consignee in the orders was not included in his list as a customer. He also indicated that the rest of the Yugoslav consumers used a relatively small amount of such materials, and that his estimate of the then present total yearly consumption of boron products in Yugoslavia would make the present and expected orders in excess of the requirements for that market. He therefore felt that some or all of the boron products being sold there by American Potash might be reexported from Yugoslavia to an unauthorized, or Soviet bloc, destination.

4. On August 1, 1957, Kolb telephoned the said managing director on various matters and during the conversation the managing director's letter of July 29, 1957, was discussed. The latter asserted in addition that if the business covered had been given to his company he would have declined it, and concluded by saying he thought the matter worthy of immediate reconsideration.

5. Graupner and Kolb then, and on at least one subsequent occasion, discussed the facts, views, and suspicions expressed by the managing director, as well as other circumstances which they believed were pertinent to these boron sales to Yugoslavia. These discussions occurred when the exportations were underway, and while Graupner submitted to BFC the additional applications for licenses to export boron products to Yugoslavia which were approved by BFC. Graupner and Kolb, considering for varying reasons (erroneously as it developed) the managing director's statements as being mere unsupported opinion, failed to transmit or cause to be transmitted such facts, views, and suspicions to the BFC, despite their knowledge that this type of information was to be submitted pursuant to BFC policy and export regulations and the related American Potash instructions. Graupner's and Kolb's decisions at those times were made primarily in furtherance of business sales practices. This attitude also led to other of their improper actions and omissions connected with these export transactions.

6. The 500 tons of boron products covered by the first export licenses were exported from the United States on August 10, 1957, and were unloaded at Rijeka, Yugoslavia, on October 8, 1957. In early September 1957, Graupner received information from which he had reason to know that there was another Yugoslav company, not named by him in the license applications, which was a party in interest to these export transactions. Graupner failed to disclose this information and the party's identity to the BFC at any time. Later in September 1957, and in January 1958, Graupner submitted to BFC applications for validated licenses to export a total of 1,000 metric tons of borax to another named company in Yugloslavia. These applications were also supported by Yugoslav import certificates, and the named company was designated as the ultimate consignee and purchaser, and Yugoslavia as the ultimate destination. BFC issued export licenses based upon the September applications, and the 500 tons of borax were shipped from the United States in October 1957, arriving at Rijeka, Yugoslavia, in February 1958. BFC did not issue an export license to cover the January 1958 application. For each of the American Potash applications, Graupner failed to obtain the co-signature of an order party to the export transactions located in New York, a party with which Graupner negotiated the sales, and which received in turn the export orders from Yugoslavia. He also did not notify the BFC that there was such order party in the transactions.

7. A substantial portion of the 1,000 tons of boron products which American Potash shipped to Yugoslavia in these transactions was, upon arrival in Yugoslavia, transshipped to unauthorized persons and destinations in the Soviet bloc.

Conclusions. And from the foregoing, I have concluded:

(A) That American Potash, Kolb, and Graupner failed to report and thereby concealed material facts from the BFC in connection with the preparation, submission, issuance, and use of export control documents, and in connection with effecting exportations from the United States, the re-exportation, transshipment, or diversion of such exportations, and the maintenance in effect of documents relating to export control, having reason to know that these actions were in violation of §§ 381.2 and 381.5 of the Export Regulations. The corporation acted through its officials, Kolb and Graupner, charged by it with the responsibilities mentioned, and therefore is responsible for the legal consequences of their acts herein, unless otherwise indicated.

(B) That American Potash, Kolb, and Graupner sold, disposed of, and transported exportations from the United States, having reason to know that with respect to the whole or part of any such exportation, violations of the Export Control Law and regulations and licenses issued thereunder had occurred, were about to occur and would occur, in violation of §§ 381.2 and 381.4 of the Export Regulations.

(C) That American Potash, Kolb, and Graupner failed to report or to notify the BFC of material changes in the facts, circumstances, or intentions relating to export transactions from those previously represented, in violation of §§ 372.4(f)(5) and 381.5, and had reason to know that they permitted the omission of acts required by the regulations and licenses issued under the Export Control Law, in violation of § 381.2 of the Export Regulations.

(D) That American Potash and Graupner failed to obtain the signature of an order party to applications for validated export licenses, failed to disclose the existence of an order party to, and of other parties concerned with or interested in, proposed exportations, and thereby had reason to know they concealed material facts from the BFC, in violation of §§ 372.4 and 381.5 of the Export Regulations.

(E) That the respondents Kolb and Graupner by their conduct herein acted in violation of § 384.2(a) of the Export Regulations.

Now, after reading the record herein and giving careful consideration to the proposals and the report and recommendations of the Compliance Commissioner, and taking into consideration among other things the full and complete co-operation of American Potash with the BFC in its investigation, its prompt revision of its procedures so as to minimize the possibility of future export control violations, and the fact that a denial of export privileges to American Potash would create a shortage of refined boron products in the industries of friendly foreign countries; and being of the opinion that the proposed order is fair and necessary to achieve effective enforcement of the law: *It is hereby ordered*, That:

I. (1) Upon condition that the American Potash & Chemical Corporation, during the period of one year from the date of the order, does not knowingly violate the Export Control Act of 1949, as amended, and all regulations, orders, and licenses promulgated thereunder, the Corporation shall be permitted all export privileges as though this order had not been made and, at the expiration of the one year period, this order shall without further action be and become terminated. In the event, however, that it be found by the Director, Office of Export Supply, BFC, or such other official as may at that time be exercising his responsibility, after full investigation, that the Corporation has failed to comply with the foregoing condition in any respect during the aforesaid one year period, such official may, as provided in § 382.16, enter and publish a supplemental order against it in substance as provided hereinafter. Said order shall not limit the Bureau of Foreign Commerce from taking other action based on such violation as it shall deem warranted. In the event that such supplemental order is issued, the Corporation shall have the right to a hearing and appeal therefrom, as provided in the Export Regulations.

(2) In the event that a determination is made by the said official that the Corporation has violated the aforesaid condition, an order may be entered which may revoke all outstanding validated licenses as to which the Corporation is a party, and which may for a period up to and including three months, deny to the Corporation, and to all persons and firms related to it, all privileges of participating directly or indirectly in any manner or capacity in an exportation of any commodity or technical data from the United States to any foreign destination, including Canada.

(3) At the end of each three-month period during the period of one year from the date of the order, the Corporation shall furnish to the Bureau of Foreign Commerce a report summarizing the procedures being employed by it to assure compliance with the Export Control Act and the regulations issued thereunder.

II. (1) The respondent Edward M. Kolb is hereby denied all privileges of participating directly or indirectly in any manner or capacity in an exportation of any commodity from the United States to any foreign destination, including Canada, for a period of eight months from the date of this order. An additional four months' period of denial of export privileges shall be withheld conditional upon the respondent's full compliance with the terms of the denial order and of the Export Regulations during the entire twelve months' period. At the end of the first eight months' period, all export privileges shall be restored to the respondent without any further order of the Bureau of Foreign Commerce, provided no action is taken theretofore pursuant to the following paragraph (2).

(2) In the event that respondent Kolb shall knowingly violate the terms of this denial order or of the Export Regulations at any time during the said entire twelve months' period, the Bureau of Foreign Commerce may summarily and without notice to the respondent, at the time that it determines such violation has occurred, issue a supplemental order which shall deny to the respondent all privileges of participating in an exportation for the four months' period which has been conditionally withheld, or for a lesser period, and shall revoke all validated licenses then outstanding as to which the respondent may be a party. Such action shall not thereby limit the Bureau of Foreign Commerce from taking such other and further action based on such violations as it shall deem warranted. In the event that such supplemental order is issued, the respondent shall have the right to hearing and appeal therefrom as provided in the Export Regulations.

III. The respondent Ernest A. Graupner is hereby denied all privileges of participating directly or indirectly in any manner or capacity in an exportation of any commodity pursuant to a validated export license from the United States to any foreign destination, including Canada, for a period of twelve months from the date of this order.

IV. (1) Without limitation of the generality of Parts I and II hereof, participation in an exportation shall be deemed to include and prohibit the aforesaid respondents' participation, directly or indirectly in any manner or capacity (a) as a party or as a representative of a party to any export license application, (b) in the preparation or filing of any export license application or documents to be submitted therewith, (c) in the obtaining or using of any validated or general export license or other export control documents, (d) in the receiving, ordering, buying, selling, using or disposing in any foreign country of any commodities or technical data in whole or in part exported or to be exported from the United States, and (e) in the financing, forwarding, transporting, or other servicing of such exports from the United States.

(2) Without limitation of the generality of Part III hereof, participation in an exportation shall be deemed to include and prohibit the aforesaid respondent's participation, directly or indirectly in any manner or capacity, (a) as a party or as a representative of a party to any export license application, (b) in the preparation or filing of any export license application or document to be submitted therewith, (c) in the obtaining or using of any validated export license or other export control document in connection therewith, (d) in the receiving, ordering, buying, selling, using, or disposing in any foreign country of any commodities in whole or in part exported or to be exported from the United States pursuant to a validated export license, and (e) in the financing, forwarding, transporting or other servicing of such validated license exports from the United States.

V. The aforesaid denials of export privileges in Parts I and II, at this time or in the future conditional upon the happening of future violations shall extend not only to the respondents, but also to any person, firm, corporation, or business organization with which they now or hereafter may be related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of trade in which may be involved exports from the United States or services connected therewith.

VI. During the respective periods of time when, and to the respective extents that, respondents Kolb and Graupner are denied export privileges pursuant to this order, no person or business organization shall, without prior disclosure to and specific authorization from the Bureau of Foreign Commerce, directly or indirectly in any manner or capacity (a) apply for, obtain, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any exportation or re-exportation of any commodity or technical data, or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in any exportation or re-exportation of any commodity or technical data exported or to be exported from the United States, on behalf of or in association with respondents Kolb or Graupner, or when either respondent may have any interest in, or may obtain any benefit from, the transaction, directly or indirectly.

Dated: November 28, 1960.

FRANK W. SHEAFFER,
Acting Director,
Office of Export Supply.

[F.R. Doc. 60-11163; Filed, Nov. 30, 1960; 8:48 a.m.]

[File 23-714]

R. HÄUSLER & CO., K.G. AND SAMPROD GES.M.B.H.-LTD.

Order Temporarily Denying Export Privileges

In the matter of R. Häusler & Co., K.G. and SAMPROD Ges. m.b.H.-Ltd., Graz, Rechbauerstrasse 15, Austria, Respondents; File 23-714.

The Director, Investigation Staff, Bureau of Foreign Commerce, U.S. Department of Commerce, pursuant to the provisions of § 382.11 of the Bureau of Foreign Commerce Export Regulations (Title 15, Chapter III, Subchapter B, Code of Federal Regulations), has applied to the Compliance Commissioner for an order temporarily denying to R. Häusler & Co., K.G. of Graz, Austria, one of the respondents herein, all United States export privileges pending the continued investigation of the facts giving rise to this application and the commencement of such administrative proceedings as may be deemed proper.

The Compliance Commissioner, having considered the evidence submitted in support of said application, has reported the facts upon which the application is based and has recommended that this temporary denial order be issued. After careful consideration of the report and the evidence submitted together therewith, I find that the evidence reasonably supports the conclusion that R. Häusler & Co., K.G., knowing that it was the subject of an investigation concerned with the transshipment by it to the Soviet Union of certain U.S. electronic testing equipment obtained upon representations that it had been intended for use in Austria, resorted to the device of having SAMPROD Ges. m.b.H.-Ltd. purchase other electronic equipment from a supplier in the United States without disclosing either its interest therein or the intended end use and destination thereof. Such actions on the part of both Häusler and SAMPROD suggest an intention to try to obtain electronic materials from the United States for purposes not authorized by the export control regulations and in violation thereof. Now, having concluded that the protection of the public interest requires and that it is necessary to achieve affective enforcement of the law that the respondents be denied all export privileges, at least for the period hereinafter provided, during which they may have an opportunity to contest the findings herein: *It is ordered as follows:*

(1) The respondents, R. Häusler & Co., K.G. and SAMPROD Ges. m.b.H.-Ltd., their owners, officers, agents, servants, and employees, and all other persons and firms associated with them, are hereby denied all privileges of participating directly or indirectly in any manner, form, or capacity in any exportation of any commodity or technical data from the United States to any foreign destination, including Canada. Without limitation of the generality of the foregoing, participation in an exportation shall include and prohibit respondents' participation (a) as parties or as representatives of a party to any validated export license application; (b) in the obtaining or using of any validated or general export license or other export control document; (c) in the receiving, ordering, buying, selling, delivering, or disposing of any commodities in whole or in part exported or to be exported from the United States; and (d) in the financing, forwarding, transporting, or other servicing of exports from the United States;

(2) Such denial of export privileges shall apply not only to the said respondents, but also to any other person, firm, corporation, or business organization with which they may be now or hereafter related by ownership, affiliation, control, position of responsibility, or other connection in the conduct of trade in which may be involved exports from the United States or services connected therewith;

(3) This order shall take effect forthwith and shall remain in effect for a period of forty days from the date hereof unless it is hereafter extended, amended, modified, or vacated in accordance with the provisions of the Export Regulations;

(4) No person, firm, corporation, or other business organization, within the United States or elsewhere, without prior disclosure of the facts to, and specific authorization from the Bureau of Foreign Commerce, shall directly or indirectly in any manner, form, or capacity (a) apply for, obtain, transfer, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any exportation of commodities from the United States, or (b) order, receive, buy, sell, use, deliver, dispose of, finance, transport, forward, or otherwise service or participate in an exportation from the United States, or in a re-exportation of any commodity exported from the United States, with respect to which any of the persons or companies within the scope of paragraphs (1) and (2) hereof may receive any benefit or have any interest or participation of any kind or nature, direct or indirect;

(5) A certified copy of this order shall be served upon the respondents.

(6) In accordance with the provisions of § 382.11(c) of the Export Regulations, the respondents may move at any time to vacate or modify this temporary denial order by filing an appropriate motion therefor, supported by evidence, with the Compliance Commissioner and may request oral hearing thereon, which, if requested, shall be held before the Compliance Commissioner at Washington, D.C., at the earliest convenient date.

Dated: November 25, 1960.

FRANK W. SHEAFFER,
Acting Director,
Office of Export Supply.

ATOMIC ENERGY COMMISSION

[Docket No. 50-13]

BABCOCK & WILCOX CO.

Notice of Issuance of Facility License Amendment

Please take notice that the Atomic Energy Commission has issued Amendment No. 7, set forth below, to License No. CX-1. The amendment authorizes The Babcock & Wilcox Company, as requested in its applications for license amendment dated June 9, 1960, and September 16, 1960, to perform certain critical experiments utilizing metal clad oxide fuel at power levels up to 200 kilowatts (thermal) in the Babcock & Wilcox Company's Critical Experiment Laboratory located near Lynchburg, Virginia. The Commission has found that operation of the facility in accordance with the terms and conditions of the license, as amended, will not present any undue hazard to the health and safety of the public and will not be inimical to the common defense and security.

The Commission has found that prior public notice of proposed issuance of this amendment is not necessary in the public interest since the conduct of the proposed experiments does not present any substantial changes in the hazards to the health and safety of the public from those presented by the previously approved operation of the facility.

In accordance with the Commission's rules of practice (10 CFR Part 2) the Commission will direct the holding of a formal hearing on the matter of the issuance of the license amendment upon receipt of a request therefor from the licensee or an intervener within thirty days after issuance of the license amendment. Petitions for leave to intervene or requests for a formal hearing shall be filed by mailing a copy to the Office of the Secretary, Atomic Energy Commission, Washington 25, D.C., or by delivery of a copy in person to the Office of the Secretary, Germantown, Maryland, or the AEC's Public Document Room, 1717 H Street NW., Washington, D.C.

For further details see (1) the applications for license amendment dated June 9, 1960 and September 16, 1960, submitted by The Babcock & Wilcox Company, and (2) a hazards analysis prepared by the Hazards Evaluation Staff of the Division of Licensing and Regulation, both on file at the AEC's Public Document Room. A copy of item (2) above may be obtained at the AEC's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington 25, D.C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Maryland this 28th day of November 1960.

For the Atomic Energy Commission.

R. L. KIRK,
Deputy Director,
Division of Licensing and Regulation.

[License No. CX-1; Amdt. 7]

In addition to the activities previously authorized by the Commission in License No. CX-1, as amended, The Babcock & Wilcox Company is authorized, as requested in its applications for license amendment dated June 9, 1960, and September 16, 1960, to operate any of the critical assemblies which utilizes metal clad oxide fuel only and conduct any of the experiments which involves metal clad oxide fuel only which has previously been authorized under License No. CX-1 and Amendments 1 through 6 thereto in Bay No. 1 of The Babcock & Wilcox Company's Critical Experimental Laboratory located near Lynchburg, Virginia, at power levels up to 200 kilowatts (thermal).

The activities shall be conducted in accordance with the procedures and subject to the limitations, except those limiting maximum power level, in License No. CX-1 and Amendments 1 through 6 thereto and in the corresponding applications for license and license amendments. The activities shall be conducted also in accordance with all of the limitations and subject to all of the procedures in the applications for license amendment dated June 9, 1960 and September 16, 1960.

This amendment is effective as of the date of issuance.

Date of issuance: November 28, 1960.

For the Atomic Energy Commission.

R. L. KIRK,
Deputy Director, Division of Licensing and Regulation.

In the Matter of Eversharp, Inc., a Corporation, and E. E. Ettinger, Individually and as an Officer of Said Corporation; and Compton Advertising, Inc., a Corporation, and John Hise, Individually and as an Officer of Said Corporation; and Alex Hoffman, Individually and as an Account Executive of Compton Advertising, Inc.

Consent order requiring the manufacturer of "Schick" safety razors and razor blades and its advertising agency to cease use of deceptive television demonstrations purporting to prove that the Schick razor was safer than other safety razors, disparaging competitive razors, and misrepresenting harmful consequences that might result from use of the latter.

The order to cease and desist is as follows:

It is ordered, That respondents Eversharp, Inc., a corporation, and its officers, and E. E. Ettinger, individually and as an officer of said corporation, and Compton Advertising, Inc., a corporation, and its officers, and John Hise, individually and as an officer of said corporation, and Alex Hoffman, individually, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the advertising, offering for sale, sale or distribution of safety razors and safety razor blades in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using any pictorial presentation or demonstration purporting to prove or representing as proving, that the Schick safety razor or any other safety razor of substantially similar design, is safer, than other safety razors, in actual use, when such pictorial presentation or demonstration does not in fact so prove.

2. Disparaging by untruthful statements or any misleading or deceptive method, safety razors competitive with those of respondent Eversharp, Inc., by any pictorial presentation, demonstration, or in any other manner.

3. Misrepresenting, directly or by implication, in any manner, any consequence that may result in the actual use of safety razors competitive with those of respondent Eversharp, Inc.

It is further ordered, That the complaint be, and the same hereby is, dismissed as to the respondent Alex Hoffman as an account executive of Compton Advertising, Inc.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: September 30, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

Title 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

[Amdt. 1]

PART 722—COTTON

Subpart—Regulations Pertaining to Acreage Allotments for the 1961 Crop of Upland Cotton

COUNTY ALLOTMENT; ALLOCATIONS TO COUNTIES FROM STATE'S SHARE OF NATIONAL RESERVE AND FROM STATE RESERVE; AND REMAINDER OF STATE RESERVE

Basis and purpose. The purpose of this amendment is to establish county allotments consisting of computed county allotments, allocations from State's share of national reserve, and

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

adjustments from State reserve for trends and abnormal conditions; allocations to counties from State reserve for small farms and to correct inequities and prevent hardship; and to establish the remainder of State reserve which is available for allocation to counties for new farms, late and reconstituted farms and correction of errors.

This amendment is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (52 Stat. 31, as amended; 7 U.S.C. 1281 et seq.). Notice of the proposed issuance of acreage allotment regulations for the 1961 crop of upland cotton was published in the FEDERAL REGISTER on August 13, 1960 (25 F.R. 7761) in accordance with section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) prior to issuance of such regulations.

Farmers engaged in the production of upland cotton in 1960 will determine in a referendum to be held on December 13, 1960, whether marketing quotas will be in effect for the 1961 crop of upland cotton. In order that farm allotments may be established as early as possible and notices of individual farm allotments may be mailed, insofar as practicable, so as to be received by farmers prior to the referendum, as required by section 362 of the Agricultural Adjustment Act of 1938, as amended, it is essential that this amendment be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice and public procedure requirements and the 30-day effective date requirement of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest and this amendment shall be effective upon filing of this document with the Director, Office of the Federal Register.

Section 722.416(h)(1) of the regulations pertaining to acreage allotments for the 1961 crop of upland cotton (25 F.R. 9987) is amended to read as follows:

(1) *County allotments; allocations to counties from State reserve for small farms and to correct inequities and prevent hardships; and remainder of State reserve.* There are set forth below the county allotments consisting of computed county allotments, allocations from State's share of national reserve and adjustments from State reserve for trends and abnormal conditions; allocations to counties from State reserve for small farms and to correct inequities and prevent hardships; and the remainder of the State reserve which is available for allocation to counties for new farms, late and reconstituted farms and correction of errors. No adjustments from the State reserve for minimum farm allotments are required since the allocation from the State's share of the national reserve meets the total needs for minimum farm allotments. The State reserve for Alabama, Arizona, Arkansas, California, Florida, Georgia, Illinois, Kansas, Louisiana, Mississippi, Missouri, Nevada, New Mexico, North Carolina, South Carolina, Texas, and Virginia, does not include a reserve for new farms.

[Amdt. 1]

PART 722—COTTON

Subpart—Regulations Pertaining to Acreage Allotments for the 1961 Crop of Extra Long Staple Cotton

COUNTY ALLOTMENT; ALLOCATIONS TO COUNTIES FROM STATE RESERVE; AND REMAINDER OF STATE RESERVE

Basis and purpose. The purpose of this amendment is to establish county allotments showing components thereof (computed county allotment; adjustments from State reserve for trends and abnormal conditions); allocations to counties from State reserve for small farms, and to correct inequities and prevent hardship; and to establish the remainder of State reserve which is available for allocation to counties for new farms, late and reconstituted farms and correction of errors. The amendment contained herein is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (52 Stat. 31, as amended; 7 U.S.C. 1281 et seq.), including an amendment under Public Law 86-566 (74 Stat. 295, approved June 30, 1960). Notice of the proposed issuance of acreage allotment regulations for the 1961 crop of extra long staple cotton was published in the FEDERAL REGISTER on August 13, 1960 (25 F.R. 7760) in accordance with section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) prior to issuance of such regulations.

Farmers engaged in the production of extra long staple cotton in 1960 will determine in a referendum to be held on December 13, 1960, whether marketing quotas will be in effect for the 1961 crop of extra long staple cotton. In order that farm allotments may be established as early as possible and notices of individual farm allotments may be mailed, insofar as practicable, so as to be received by farmers prior to the referendum, as required by section 362 of the Agricultural Adjustment Act of 1938, as amended, it is essential that this amendment be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice and public procedure requirements and the 30-day effective date requirement of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest and this amendment shall be effective upon filing of this document with the Director, Office of the Federal Register.

Section 722.466(g) (1) of the regulations pertaining to acreage allotments for the 1961 crop of extra long staple cotton (25 F.R. 9996) is amended to read as follows:

(1) *County allotment showing components thereof; allocations to counties from State reserve for small farms and to correct inequities and prevent hardship; and remainder of the State reserve.* There are set forth below the county allotments showing components thereof (computed county allotments, adjustments from State reserve for trends and abnormal conditions); allocations to counties from State reserve for small farms and to correct inequities and prevent hardship; and the remainder of the State reserve which is available for allocation to counties for new farms, late and reconstituted farms and correction of errors. The State reserve for Arizona, California, Florida, Georgia, New Mexico, Texas, and Puerto Rico, does not include a reserve for new farms.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 195]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 914.495 Navel Orange Regulation 195.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914), regulating the handling of navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act by tending to establish and maintain such orderly marketing conditions for such oranges as will provide, in the interests of producers and consumers, an orderly flow of the supply thereof to market throughout the normal marketing season to avoid unreasonable fluctuations in supplies and prices, and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting, the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on December 1, 1960.

(b) *Order.* (1) The respective quantities of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a.m., P.s.t., December 4, 1960, and ending at 12:01 a.m., P.s.t., December 11, 1960, are hereby fixed as follows:

(i) District 1: 900,000 cartons;

(ii) District 2: 227,192 cartons;

(iii) District 3: 75,000 cartons;

(iv) District 4: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," "District 4," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 2, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 60–11344; Filed, Dec. 2, 1960; 11:17 a.m.]

[Orange Reg. 380]

PART 933—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

§ 933.1035 Orange Regulation 380.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, including Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, excluding Temple oranges, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on November 29, 1960, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are, except with respect

to the prohibition of shipments recommended for the period December 23–28, 1960, both dates inclusive, identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of oranges, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, diameter, standard pack, and standard box, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140–51.1178 of this title; 25 F.R. 8211).

(2) During the period beginning at 12:01 a.m., e.s.t., December 5, 1960, and ending at 12:01 a.m., e.s.t., January 2, 1961, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any oranges, except Temple oranges, grown in the production area, which do not grade at least U.S. No. 1 Russet;

(ii) Any oranges, except Temple oranges, grown in the production area, which are of a size smaller than 2⅝ inches in diameter, except that a tolerance of 10 percent, by count, of oranges smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in said United States Standards for Florida Oranges and Tangelos: *Provided,* That in determining the percentage of oranges in any lot which are smaller than 2⅝ inches in diameter, such percentage shall be based only on those oranges in such lot which are of a size 2 1/16 inches in diameter or smaller; or

(iii) Any Temple oranges, grown in the production area, which do not grade at least U.S. No. 1 Russet: *Provided,* That such oranges may have slightly rough texture caused only by scarring, and may have scars and discoloration to the extent permitted under the U.S. No. 2 grade.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 1, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 60–11310; Filed, Dec. 2, 1960; 9:06 a.m.]

[Grapefruit Reg. 333]

PART 933—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

§ 933.1036 Grapefruit Regulation 333.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of all grapefruit, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on November 29, 1960, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are, except with respect to the prohibition of shipments recommended for the period December 23–28, 1960, both dates inclusive, identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, diameter, standard pack, and standard box, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Grapefruit (§§ 51.750–51.783 of this title; 25 F.R. 8219).

(2) During the period beginning at 12:01 a.m., e.s.t., December 5, 1960, and ending at 12:01 a.m., e.s.t, January 2, 1961, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any grapefruit, grown in the production area, which do not grade at least U.S. No. 1: *Provided,* That such grapefruit may have discoloration to the extent permited under the U.S. No. 2 Russet grade, and may have slightly rough texture caused only by speck type melanose;

(ii) Any seeded grapefruit, grown in the production area, which are smaller than 3 5/16 inches in diameter, except that a tolerance of 10 percent, by count, of seeded grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in said United States Standards for Florida Grapefruit; or

(iii) Any seedless grapefruit, grown in the production area, which are smaller than 3 3/16 inches in diameter, except that a tolerance of 10 percent, by count, of seedless grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in said United States Standards for Florida Grapefruit.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 1, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 60–11308; Filed, Dec. 2, 1960; 9:06 a.m.]

[Tangerine Reg. 219]

PART 933—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS, GROWN IN FLORIDA

Limitation of Shipments

§ 933.1037 Tangerine Regulation 219.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of tangerines, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on November 29, 1960, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are, except with respect to the prohibition of shipments recommended for the period December 23–28, 1960, both dates inclusive, identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such tangerines; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of tangerines, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, diameter, and standard pack, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Tangerines (§§ 51.1810–51.1834 of this title; 25 F.R. 8216).

(2) During the period beginning at 12:01 a.m., e.s.t., December 5, 1960, and ending at 12:01 a.m. e.s.t., January 2, 1961, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any tangerines, grown in the production area, that do not grade at least U.S. No. 1; or

(ii) Any tangerines, grown in the production area, that are of a size smaller than the size that will pack 210 tangerines, packed in accordance with the requirements of a standard pack, in a half-standard box (inside dimensions 9½ x 9½ x 19⅛ inches; capacity 1,726 cubic inches).

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 1, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 60–11311; Filed, Dec. 2, 1960; 9:07 a.m.]

[Tangelo Reg. 25]

PART 933—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

§ 933.1038 Tangelo Regulation 25.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangelos, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of tangelos, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on November 29, 1960, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are, except with respect to the prohibition of shipments recommended for the period December 23–28, 1960, both dates inclusive, identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such tangelos; it is necessary, in order to effectuate the declared policy of the act to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of tangelos, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, diameter, standard pack, and standard box, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140–51.1178 of this title; 25 F.R. 8211).

(2) During the period beginning at 12:01 a.m., e.s.t., December 5, 1960, and ending at 12:01 a.m., e.s.t., January 2, 1961, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any tangelos, grown in the production area, which do not grade at least U.S. No. 1 Russet; or

(ii) Any tangelos, grown in the production area, which are of a size smaller than 2⅝ inches in diameter, except that a tolerance of 10 percent, by count, of tangelos smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in said United States Standards for Florida Oranges and Tangelos.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 1, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 60–11312; Filed, Dec. 2, 1960; 9:07 a.m.]

[Lemon Reg. 875]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 953.982 Lemon Regulation 875.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part

953; 23 F.R. 9053), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U.S.C. 1001 et seq.) because the time intervening between the date when information upon which this section is based becomes available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on November 29, 1960.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a.m., P.s.t., December 4, 1960, and ending at 12:01 a.m., P.s.t., December 11, 1960, are hereby fixed as follows:

(i) District 1: 37,200 cartons;

(ii) District 2: 93,000 cartons;

(iii) District 3: 18,600 cartons.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: November 30, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 60-11309; Filed, Dec. 2, 1960; 9:06 a.m.]

Title 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

SUBCHAPTER P—MINING

PART 171—LEASING OF TRIBAL LANDS FOR MINING

Administration of Mineral Permits and Leases Covering Minerals

On page 9206 of the FEDERAL REGISTER of November 11, 1959, there was published a notice of intention to add a new section to Title 25 Code of Federal Regulations, Part 171. The purpose of the addition is to provide regulations for administration by the Commissioner of Indian Affairs of those mineral permits and leases which were issued pursuant to 43 CFR prior to the date the minerals were acquired by the Ute Tribe of the Uintah and Ouray Reservation, Utah, under the Act of July 14, 1956 (70 Stat. 546), and the Pueblos of Zia and Jemez, New Mexico, under the Act of August 2, 1956 (70 Stat. 941).

Interested persons were given an opportunity to submit their views, data and arguments concerning the proposed addition within thirty days from the date of publication of the notice. No written communications pertaining to the proposed addition were received.

The proposed addition to the regulations is hereby adopted, without change and is set forth below. This amendment is effective at the beginning of the 30th calendar day following the date of publication in the FEDERAL REGISTER.

ELMER F. BENNETT,
Acting Secretary of the Interior.

NOVEMBER 28, 1960.

Section 171.1a, a new section, is added to read as follows:

§ 171.1a Existing permits or leases on minerals acquired for the Ute Indian Tribe of the Uintah and Ouray Reservation, Utah, and the Pueblos of Zia and Jemez, New Mexico.

By the Act of July 14, 1956 (70 Stat. 546), title to the minerals underlying certain lands in Utah was vested in the United States in trust for the Ute Indian Tribe of the Uintah and Ouray Reservation and by the Act of August 2, 1956 (70 Stat. 941), title to certain land in New Mexico and the improvements thereon was declared to be in the United States of America in trust for the Pueblos of Zia and Jemez, subject to valid and existing rights. Existing mineral prospecting permits and mining leases on these lands issued pursuant to 43 CFR and all action on the permits and leases shall be administered by the Secretary of the Interior or his authorized representative in accordance with the regulations set forth in Title 43 of the Code of Federal Regulations, except as follows:

(a) Appeals from administrative action shall be made pursuant to applicable regulations set forth in this title.

(b) Payments or reports required by the leases, permits, or regulations in 43 CFR shall be made to the Superintendent having jurisdiction over the land involved instead of the officer of the Bureau of Land Management designated in Title 43 of the Code of Federal Regulations.

[F.R. Doc. 60-11249; Filed, Dec. 2, 1960; 8:47 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 60-NY-82]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Modification

On August 19, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 8034) stating that the Federal Aviation Agency proposed to realign VOR Federal airway No. 30 from Akron, Ohio, to Clarion, Pa., and realign VOR Federal airway No. 72 from Attica, Ohio, to Youngstown, Ohio.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, the following actions are taken:

1. In the text of § 600.6030 (14 CFR 600.6030, 25 F.R. 107) "Youngstown, Ohio, omnirange station;" is deleted and "INT of the Akron VOR 092° True and the Clarion VOR 265° True radials;" is substituted therefor.

2. In the text of § 600.6072 (14 CFR 600.6072, 24 F.R. 8491, 25 F.R. 855, 2574, 4376, 3813, 8809) "Cleveland, Ohio, VOR;" is deleted and "Akron, Ohio, VOR;" is substituted therefor.

These amendments shall become effective 0001 e.s.t. February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 28, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11240; Filed, Dec. 2, 1960; 8:46 a.m.]

[Airspace Docket No. 60-WA-213]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Modification of Control Area Extensions

On September 14, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 8823) stating that the Federal Aviation Agency proposed to modify the Peru, Ind., and the Lafayette, Ind., control area extensions.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, the following actions are taken:

1. Section 601.1258 (14 CFR 601.1258) is amended to read:

§ 601.1258 Control area extension (Lafayette, Ind.).

Within a 25-mile radius of the Purdue University Airport (latitude 40°24'45" N., longitude 86°55'57" W.).

2. Section 601.1405 (14 CFR 601.1405) is amended to read:

§ 601.1405 Control area extension (Peru, Ind.).

Within a 25-mile radius of the Bunker Hill AFB (latitude 40°39'38" N., longitude 86°08'31" W.), excluding the portion which would coincide with the Lafayette, Ind. (§ 601.1258) and the Fort Wayne, Ind. (§ 601.1462), control area extensions; and including the area NW of Peru bounded on the S by the Lafayette control area extension, on the W by VOR Federal airway No. 7, on the N by VOR Federal airway No. 38 and on the E by the Fort Wayne control area extension.

These amendments shall become effective 0001 e.s.t. February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 28, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11238; Filed, Dec. 2, 1960; 8:45 a.m.]

[Airspace Docket No. 60-KC-52]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Modification of Control Area Extension

On September 14, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 8824) stating that the Federal Aviation Agency (FAA) proposed to modify the Rochester, Minn., control area extension.

No adverse comments were received regarding the proposed amendment.

Subsequent to publication of the Notice the FAA has determined that a requirement for the proposed control area extension northeast of the low frequency range no longer exists. Therefore, action is taken herein to eliminate this extension from the description of the control area extension as proposed in the notice.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated herein and in the notice, § 601.1263 (25 F.R. 861) is amended to read:

§ 601.1263 Control area extension (Rochester, Minn.).

Within a 15-mile radius of the Rochester Municipal Airport (latitude 43°54'33" N, longitude 92°29'42" W.); within 5 miles either side of the 209° True radial of the Rochester VOR extending from the 15-mile radius control area extension to 15 miles SW of the VOR.

This amendment shall become effective 0001 e.s.t. February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 28, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11239; Filed, Dec. 2, 1960; 8:45 a.m.]

[Airspace Docket No. 60-KC-55]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Modification of Control Zone

On September 16, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 8910) stating that the Federal Aviation Agency proposed to modify the Grand Forks, N. Dak., control zone.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, § 601.2102 (14 CFR 601.2102) is amended to read:

§ 601.2102 Grand Forks, N. Dak., control zone.

Within a 5-mile radius of the Grand Forks International Airport (latitude 47°55'40" N., longitude 97°05'45" W.); within 2 miles either side of the S course of the Grand Forks RR, extending from the 5-mile radius zone to 12 miles S of the RR; within 2 miles either side of the 340° True radial of the Grand Forks VOR, extending from the 5-mile radius zone to the VOR.

This amendment shall become effective 0001 e.s.t. February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 28, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11287; Filed, Dec. 2, 1960; 8:45 a.m.]

[Airspace Docket No. 60-NY-120]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Revocation and Modification of Reporting Points

The purpose of these amendments to § 601.7001 of the regulations of the Administrator is to revoke the Norfolk, Va., VOR as a domestic reporting point and modify the Lithonia, Ga., INT.

Flight progress reports over designated locations, automatically initiated by pilots, will facilitate air traffic management and assist the controller in the performance of his duties. However, due to the continuous modernization of the airway structure, the need for reporting points at particular locations is constantly being revised. The actions taken herein reflect this changing need on the part of air traffic management.

Since these amendments are of a procedural nature and do not assign or reassign the use of navigable airspace, notice and public procedure hereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, these amendments will become effective more than 30 days after publication.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), the following actions are taken:

In § 601.7001 (14 CFR 601.7001, 25 F.R. 8540), the following changes are made:

1. In the text delete:

Norfolk, Va., VOR.
Lithonia INT: The INT of the McDonough, Ga., VOR 345° True and the Atlanta, Ga., VORTAC 054° True radials.

2. In the text add:

Lithonia INT: The INT of the McDonough, Ga., VOR 345° True and the Atlanta, Ga., VORTAC 063° True radials.

These amendments shall become effective 0001 e.s.t. February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 28, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11243; Filed, Dec. 2, 1960; 8:46 a.m.]

[Airspace Docket No. 60-NY-50]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Revocation of Federal Airway, Associated Control Areas and Reporting Points, and Modification of Control Area Extension

On September 14, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 8828) stating that the Federal Aviation Agency proposed to revoke, in its entirety, Red Federal airway No. 37, its associated control areas and reporting points, and modify the Roanoke, Va., control area extension.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, the following actions are taken:

1. In Part 600 (14 CFR Part 600) the following change is made:

§ 600.237 [Revocation]

Section 600.237 *Red Federal airway No. 37 (Roanoke, Va., to Gordonsville, Va.)* is revoked.

2. In Part 601 (14 CFR Part 601) the following changes are made:

§ 601.237 [Revocation]

(a) Section 601.237 *Red Federal airway No. 37 control areas (Roanoke, Va., to Gordonsville, Va.)* is revoked.

§ 601.4237 [Revocation]

(b) Section 601.4237 *Red Federal airway No. 37 (Roanoke, Va., to Gordonsville, Va.)* is revoked.

3. Section 601.1063 (14 CFR 601.1063) is amended to read:

§ 601.1063 Control area extension (Roanoke, Va.).

The airspace S of Roanoke bounded on the N by VOR Federal airway No. 136, on the SE by VOR Federal airway No. 222, and on the W by VOR Federal airway No. 103.

These amendments shall become effective 0001 e.s.t. February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C. on November 28, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11242; Filed, Dec. 2, 1960; 8:46 a.m.]

[Airspace Docket No. 60-NY-53]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Revocation of Federal Airway, Associated Control Areas and Reporting Points; Revocation and Designation of Control Area Extensions

On September 14, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 8829) stating that the Federal Aviation Agency proposed to revoke, in its entirety, Blue Federal airway No. 29, its associated control areas and reporting points. In addition, the Lynchburg, Va., control area extension would be redesignated and the South Boston, Va., control area extension would be revoked.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, the following actions are taken:

1. In Part 600 (14 CFR 600) the following change is made:

§ 600.629 [Revocation]

Section 600.629 *Blue Federal airway No. 29 (Raleigh, N.C., to Lynchburg, Va.)* is revoked.

2. In Part 601 (14 CFR 601) the following changes are made:

§ 601.629 [Revocation]

(a) Section 601.629 *Blue Federal airway No. 29 control areas (Raleigh, N.C., to Lynchburg, Va.)* is revoked.

§ 601.4629 [Revocation]

(b) Section 601.4629 *Blue Federal airway No. 29 (Raleigh, N.C., to Lynchburg, Va.)* is revoked.

§ 601.1450 [Revocation]

(c) Section 601.1450 *Control area extenstion (South Boston, Va.)* is revoked.

3. Section 601.1059 (14 CFR 601.1059) is amended to read:

§ 601.1059 Control area extension (Lynchburg, Va.).

Within a 20-mile radius of the Lynchburgh, Va., VOR extending clockwise from VOR Federal airway No. 260 E of Lynchburg to VOR Federal airway No. 143 SW of Lynchburg; within a 15-mile radius of the Lynchburg VOR extending clockwise from VOR Federal airway No. 260 W of Lynchburg to VOR Federal airway No. 143 N of Lynchburg.

These amendments shall become effective 0001 e.s.t. February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 28, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11241; Filed, Dec. 2, 1960; 8:46 a.m.]

[Reg. Docket No. 586]

PART 612—AERONAUTICAL FIXED COMMUNICATIONS

Revision of Part

Part 612 contains references to the Civil Aeronautics Administration, Civil Aeronautics Act of 1938, Interstate Airways Communications Stations, Overseas Foreign Aeronautical Communications Stations, and CAA Regional Administrator that are no longer appropriate. In addition it contains language in § 612.1 that is no longer applicable. Therefore, this revision is issued to incorporate all of the previous amendments to Part 612 and to bring the wording of the regulation up-to-date by substituting the words Federal Aviation Agency, Federal Aviation Act of 1958, Flight Service Stations, International Flight Service Stations and FAA Regional Manager where applicable. Section 612.1 is corrected by deleting the last part of the first sentence, which refers to studies by International Civil Aviation Organization and International Telecommunications Union and by substituting Federal Aviation Act of 1958 section references in the last sentence. The ICAO/ITU studies referred to were not completed, therefore, further mention of them is no longer necessary.

Since this revision contains only editorial changes, makes no substantive changes, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary, and good cause exists for making the revised regulation effective immediately.

In consideration of the foregoing, Part 612 of Chapter III of Title 14 of the Code of Federal Regulations is hereby revised as follows to become effective December 3, 1960.

Sec.
612.1 Basis and purpose.
612.2 Acceptability of messages.
612.3 Assessment of fees.
612.4 Methods of payment.
612.5 Priority of transmission.
612.6 Limitation of liability.

AUTHORITY: §§ 612.1 to 612.6 issued under secs. 305, 307(b), 313, 72 Stat. 749, 752; 49 U.S.C. 1346, 1348, 1354; sec. 10, 62 Stat. 453, 49 U.S.C. 1159.

§ 612.1 Basis and purpose.

The purpose of this part is to prescribe the types of messages pertaining to international or overseas aircraft operations which will be accepted for transmission by FAA communications stations and the fees which will be assessed for the transmission of certain types of these messages. The basis for the part is found in sections 305 and 307(b) of the Federal Aviation Act of 1958, and section 10 of the International Aviation Facilities Act of 1948.

§ 612.2 Acceptability of messages.

(a) FAA International Flight Service Stations and FAA Flight Service Stations located in territory (including the states of Alaska and Hawaii) outside the continental United States, will accept for transmission messages regarding international or overseas aircraft operations where such messages are of the following types:

(1) Distress messages and distress traffic.

(2) Messages for the safety of human life.

(3) Flight safety messages comprising:

(i) Air traffic control messages including:

(*a*) Air traffic control messages concerning aircraft in flight or about to depart,

(*b*) Departure messages,

(*c*) Flight plan/departure messages,

(*d*) Arrival messages,

(*e*) Flight plan messages,

(*f*) Flight notification messages,

(*g*) Messages concerning cancellation of flight, and

(*h*) Messages concerning delayed departure.

(ii) Position reports from aircraft.

(iii) Messages originated by an aircraft operating agency of immediate concern to an aircraft in flight or to an aircraft about to depart.

(iv) Meteorological advice of immediate concern to aircraft in flight or to an aircraft about to depart.

(4) Meteorological messages comprising:

(i) Messages containing meteorological forecasts.

(ii) Messages containing exclusively meteorological observations.

(iii) Other meteorological messages exchanged between meteorological offices.

(5) Aeronautical administrative messages comprising:

(i) Messages regarding the operation or maintenance of facilities essential for the safety or regularity of aircraft operation.

(ii) Messages essential to the efficient functioning of aeronautical tele-communication services.

(iii) Messages exchanged between Government Civil Aviation Authorities relating to aircraft operation.

(6) Notices to airmen.

(7) Flight regularity messages comprising:

(i) Messages containing details of the number of passengers and crew, weight of cargo and other data required for weight and balance computation. Other remarks essential to the rapid clearance of the load from the aircraft may be included. These messages shall only be acceptable when addressed to the point of intended landing and to not more than two other addressees concerned in the general area of the route segment of the flight to which the message refers.

(ii) Messages concerning changes in aircraft operating schedules to become effective within 72 hours after the message is filed.

(iii) Messages concerning the servicing of aircraft, when the aircraft is en route or scheduled to depart within 48 hours.

(iv) Messages concerning changes in collective requirements for passengers, crew, and cargo, caused by unavoidable deviations from normal operating schedules and necessary for flight regularity in the case of aircraft en route or about to depart. Individual requirements of passengers or crew are not admissible in this type of message,

(v) Messages concerning nonroutine landings to be made by an aircraft en route or about to depart.

(vi) Messages concerning parts and materials urgently required for the operation of aircraft en route or scheduled to depart within 48 hours.

(vii) Messages concerning the preflight arrangement of air navigation services, and operational servicing for nonscheduled or irregular operations of aircraft, filed within 48 hours of proposed time of departure.

(b) FAA Flight Service Stations located within the continental United States (excluding Alaska and Hawaii) will accept for transmission messages described in paragraph (a) (1) through (6) of this section. In addition, such stations will relay messages described in paragraph (a) or (c) of this section which are originally accepted for transmission at FAA stations located outside the continental United States or are received from foreign stations of the integrated international aeronautical network, and which in normal routing require transit of the continental United States to reach overseas addresses.

(c) Where adequate non-Government communication facilities are not available, FAA International Flight Service Stations, and FAA Flight Service Stations located in territory (including the states of Alaska and Hawaii) outside the continental United States will accept messages, other than those prescribed in paragraph (a) of this section, originated by and addressed to aircraft operating agencies relating to international aircraft operations, overseas aircraft operations, or aircraft operations within a United States territory or possession which, by virtue of their importance, have a direct bearing on the efficient and economic conduct of the day-to-day operations of such agencies, concerning the following:

(1) Messages of the types prescribed in paragraph (a) (7) of this section which do not conform to the time limitations prescribed therein.

(2) Parts, equipment or supplies required for aircraft, air navigation, communication and other essential ground facilities.

(3) Train reservations or hotel accommodations for passengers or agency personnel.

(4) Lost baggage or personal effects.

(5) Tickets or cargo shipments or payment therefor.

(6) Inquiries relative to passenger whereabouts and cargo receipt or delivery.

(7) New or revised passenger or cargo rates.

(8) Crew assignments and similar operations personnel matters to become effective within seven days after the time of the message.

(9) Post-flight reports for routine record purposes.

(10) Publicity messages and special handling of dignitaries.

(11) Reservation messages originated by aircraft operating agencies to secure the space required in transport aircraft.

NOTE: Third party messages or messages addressed to parties other than aircraft operating agencies or their representatives shall not be acceptable.

§ 612.3 Assessment of fees.

(a) No fee shall be assessed for the transmission of a message which is of a type or types specified in § 612.2(a) (1) through (7). A separate fee shall be assessed for the transmission to each addressee of a message which contains, in whole or in part, matter related to any of that described in § 612.2(c).

(b) Transmission of such a message to an addressee may in some cases consist of receipt of the message from a non-FAA communications station and the forwarding of that message without additional use of the FAA communications system. Only one fee per addressee shall be assessed regardless of the number of FAA communications stations through which the message may be sent. Each fee shall be computed on the basis of twenty-five cents for each ten words or portion thereof contained in the text and signature of the message. If delivery of the message involves refiling with a non-FAA communications facility, such refiling will be accomplished on a "Collect" basis at no additional cost to, or assumption of liability by, the FAA. Local tele-communications facilities required for the acceptance or delivery of messages will be provided by the user without expense to the FAA.

NOTE: The Internal Revenue Code provides that there shall be imposed on the

amount paid within the states of the United States, and the District of Columbia, for each telegraph, cable, or radio dispatch or message, a tax equal to (a) fifteen percent of the amount so paid, or (b) ten percent of the amount so paid in the case of an international communication.

(Sec. 3797(a)(9), 53 Stat. 469, sec. 3465(a)(1)(3), 56 Stat. 975; 26 U.S.C. 3797, 3465)

§ 612.4 Methods of payment.

Fees shall be paid in United States dollars to the FAA official in charge of the communications station first transmitting or receiving the message or to any other properly designated FAA official. Deferred payment of fees shall be permitted only where prior written arrangements have been made for such payment on a periodic basis or where prepayment is not practicable in a specific case. Arrangements for the deferred payment of fees may be made with the FAA Regional Manager having jurisdiction over the FAA communications station first transmitting or receiving the message.

§ 612.5 Priority of transmission.

The aeronautical messages of the types stated in § 612.2(a) (1) through (7) shall have priority over messages containing matter described in § 612.2(c).

§ 612.6 Limitation of liability.

The Government shall not be liable for error or delay in the transmission or delivery, or for nondelivery, of any message accepted for transmission under this part, regardless of whether such error, delay, or nondelivery is due to the negligence of any employee of the Government or otherwise, beyond the amount of the fee assessed for the transmission of such message.

Issued in Washington, D.C., on November 28, 1960.

E. R. QUESADA,
Administrator.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 121—FOOD ADDITIVES

Subpart A—Definitions and Procedural and Interpretative Regulations

REFUSAL TO EXTEND EFFECTIVE DATE OF STATUTE FOR CERTAIN SPECIFIED FOOD ADDITIVES

The Commissioner of Food and Drugs, pursuant to the authority provided in the Federal Food, Drug, and Cosmetic Act (sec. 6(c), Public Law 85-929; 72 Stat. 1788; 21 U.S.C., note under sec. 342) and delegated to him by the Secretary of Health, Education, and Welfare (25 F.R. 8625), hereby refuses to authorize the use in food of safrole, oil of sassafras, dihydrosafrole, and iso-safrole.

Long-term pharmacological studies in the laboratories of the Food and Drug Administration, demonstrated safrole, which is also the principal component of oil of sassafras, to be a carcinogen. The scientific data were carefully reviewed by a group of scientists made up of representatives of government and representatives from a panel recommended by the National Academy of Sciences. This group concluded that safrole is to be classed as a weak hepatic carcinogen. Thus, under the provisions of section 409(b)(3)(a), safrole and oil of sassafras are food additives which may not be the subject of any regulation authorizing their use in foods. Food and Drug Administration studies of dihydrosafrole and iso-safrole demonstrated that they cause liver damage to test animals.

The principal food use of these substances has been in the flavoring of root beer and similar beverages. Representatives of the industry involved were kept advised of the progress of the experimental work, both in the Food and Drug Administration laboratories and in commercial laboratories. As a result, the industry began, months ago, to eliminate the safrole and oil of sassafras from its output. An extensive survey by Food and Drug inspectors covering about 3,200 bottlers and suppliers completed on November 25, 1960 disclosed that neither of these substances is now being used by the industry. The use of dihydrosafrole and iso-safrole has also been eliminated.

Part 121 is amended by adding to Subpart A the following new section:

§ 121.89 Substances refused extension of time for compliance.

On the basis of data before him, the Commissioner cannot find that there is no undue risk to the public health in extending the effective date of the Food Additives Amendment of 1958 as it applies to safrole, oil of sassafras, dihydrosafrole, and iso-safrole. The requests for extensions are denied, and any prior sanction or approval of the use of these articles in food is hereby cancelled.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since the Commissioner is authorized to grant extensions only where he can conclude on reliable scientific evidence that there is no undue risk to the public health. Since there is no reliable basis for reaching that conclusion, a delay in issuance of this order would be contrary to the public interest.

Effective date. This order shall become effective on the date of signature, because there is no adequate scientific basis for extending the effective date of the law beyond that date.

(72 Stat. 1788; 21 U.S.C., note under sec. 342)

Dated: November 30, 1960.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

[F.R. Doc. 60-11264; Filed, Dec. 2, 1960; 8:49 a.m.]

Title 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 2209]

[Fairbanks 025492]

ALASKA

Withdrawing Lands for Use of Federal Aviation Agency for Air Navigation Purposes

By virtue of the authority vested in the Secretary of the Interior by section 4 of the Act of May 24, 1928 (45 Stat. 729; 49 U.S.C. 214), it is ordered as follows:

Subject to valid existing rights, the following-described lands in Alaska are hereby withdrawn from all forms of appropriation under the public land laws, including the mining but not the mineral-leasing laws, nor the disposals of materials under the Act of July 31, 1947 (61 Stat. 681; 30 U.S.C. 601-604) as amended, and reserved for use of the Federal Aviation Agency in the maintenance of air navigation facilities:

UMIAT, ALASKA

From U.S.M. "Able" at 69°22'13.453" N., 152°09'07.330" W., go N. 7°18' W., 78.11 feet, thence
N. 82°42' E., 80.34 feet to runway centerline station 0+00;
S. 7°18' E., 2,500.00 feet to the point of beginning; thence
S. 82°42' W., 6,700.00 feet;
N. 7°18' W., 900.00 feet;
S. 82°42' W., 4,500.00 feet;
N. 7°18' W., 2,600.00 feet;
N. 82°42' E., 19,200.00 feet;
S. 7°18' E., 3,500.00 feet;
S. 82°42' W., 8,000.00 feet to the point of beginning.

The tract described contains 1,449.7 acres.

2. The reservation made by this order shall be subject to the withdrawal made by Executive Order No. 3797-A of February 27, 1923, for oil and gas as Navy Petroleum Reserve No. 4 and to the jurisdiction granted to the Department of the Navy over Naval Petroleum Reserves by the act of August 10, 1956 (70A Stat. 457-462; 10 U.S.C. 7421-7438), and shall take precedence over but not otherwise affect the withdrawal made by Public Land Order No. 82 in connection with the prosecution of the war.

3. There is reserved for the Department of the Navy's Arctic Research Laboratory: (a) A right to use, operate and maintain, and to have rights of ingress to and egress from buildings and other facilities for which said Department may be and remains accountable; (b) access to and use of the airstrip landing field; (c) access to and use of the float landing lagoon; (d) the right to consolidate Arctic Research Laboratory buildings into one general location within the withdrawn area; and, (e) access to and use of existing wells for testing purposes.

GEORGE W. ABBOTT,
Assistant Secretary of the Interior.

NOVEMBER 28, 1960.

[F.R. Doc. 60-11250; Filed, Dec. 2, 1960; 8:47 a.m.]

[Public Land Order 2210]

[Anchorage 052837]

ALASKA

Partly Revoking Public Land Order No. 797 of January 25, 1952

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. Public Land Order No. 797 of January 25, 1952, which excluded the following-described lands from the Chugach National Forest, is hereby revoked so far as it re-withdrew in paragraph 5 thereof, approximately 62,053 acres of the excluded lands for classification:

Beginning at Mile Post 90 on the Alaska Railroad on the North shore of Turnagain Arm in approximate latitude 60°59' N., longitude 149°34'30" W., thence by metes and bounds:

North, 5.90 miles;
East, 13.50 miles;
South, 5.60 miles;
East, 2.20 miles;
South, 5.20 miles to M.P. 71 on the Alaska Railroad;
South, 0.25 mile to mean high tide line Turnagain Arm;
Northwesterly, along mean high tide line Turnagain Arm to a point due south of M.P. 90, Alaska Railroad;
North, 0.12 mile to M.P. 90, the point of beginning.

The tract described contains approximately 76,064 acres.

2. Of the excluded lands, Public Land Order No. 797 provided that the status of 1,270 acres at Indian Creek, 9000 acres at Bird Creek, and 308 acres at Glacier Creek, all as described more particularly in Public Land Order No. 797, would not otherwise be changed until so provided by the issuance of an appropriate order opening the lands to disposition under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U.S.C. 682a), as amended. Except for 378.83 acres described in Small Tract Classification Orders No. 51, 75, and 81, plans for further small tract development in the areas have been abandoned.

3. In the excluded area, Public Land Order No. 797 withdrew (a) 2800 acres for preservation and protection of scenic values, (b) 630 acres for protection of the water supply of the City of Anchorage, and (c) 2.2 acres for airport purposes, all as described in the order, which withdrawals shall remain intact.

4. Subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law, the unreserved, unappropriated lands described in paragraphs 1 and 2 of this order, are hereby opened to settlement and to the filing of such applications, selections, and locations as are allowable on unsurveyed lands in accordance with the following:

a. Applications and selections under the nonmineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) Until 10:00 a.m. on February 28, 1961, the State of Alaska shall have a preferred right to select the lands in accordance with and subject to the provisions of the act of July 28, 1956 (70 Stat. 709; 48 U.S.C. 46-3b), and section 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339), and the regulations in 43 CFR 76.1-18.

(3) All valid applications under the nonmineral public land laws other than any from the State, presented prior to 10:00 a.m. on January 3, 1961, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands have been open to applications and offers under the mineral leasing laws. They will be open to settlement under the Homestead and Alaska Homesite laws, and to location under the United States mining laws, beginning at 10:00 a.m. on February 28, 1961.

5. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims.

Inquiries concerning the lands should be addressed to the Manager, Land Office, Bureau of Land Management, Anchorage, Alaska.

GEORGE W. ABBOTT,
Assistant Secretary of the Interior.

NOVEMBER 28, 1960.

[F.R. Doc. 60-11251; Filed, Dec. 2, 1960; 8:47 a.m.]

[Public Land Order 2211]

[Montana 037251]

MONTANA

Restoration Under Section 24, Federal Power Act

By virtue of the authority contained in section 24 of the act of June 10, 1920 (41 Stat. 1075; 16 U.S.C. 818), as amended, and pursuant to DA-168-Montana issued December 15, 1959, it is ordered as follows:

The following-described lands are hereby opened to application, petition, location and selection under the public land laws, subject to valid existing rights, to the provisions of section 24 of the Federal Power Act, supra, and to the preference rights of application of the State of Montana provided by section 24 of the Federal Power Act and subsection (c) of section 2 of the act of August 27, 1958 (72 Stat. 928; 43 U.S.C. 851, 852):

PRINCIPAL MERIDIAN

T. 20 N., R. 17 E.,
Sec. 18, SW¼NE¼ and NE¼SE¼.

Containing 80 acres.

Subject to the preference rights of application of the State of Montana, applications received at or before 10:00 a.m. on January 3, 1961, shall be considered as simultaneously filed at that time. Those thereafter received shall be considered in the order of filing, provided, that applications from those having prior existing valid settlement rights, preference rights conferred by existing law or equitable claims subject to allowance and confirmation, will take priority over all other applications.

The lands have been open to applications and offers under the mineral leasing laws, and to location under the United States mining laws by virtue of the act of August 11, 1955 (69 Stat. 682; 30 U.S.C. 621).

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Billings, Montana.

GEORGE W. ABBOTT,
Assistant Secretary of the Interior.

NOVEMBER 28, 1960.

[F. R. Doc. 60-11252; Filed, Dec. 2, 1960; 8:47 a.m.]

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1954) Part 1]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Certain Options

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth below in tentative form are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D.C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner within the 30-day period. In such a case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954.

(68A Stat. 917; 26 U.S.C. 7805)

[SEAL] DANA LATHAM,
Commissioner of Internal Revenue.

In order to provide rules for the tax treatment of certain options, the Income Tax Regulations (26 CFR Part 1) are amended as follows:

PARAGRAPH 1. Paragraph (d)(1) of § 1.61–2 is amended to read as follows:

§ 1.61–2 Compensation for services, including fees, commissions, and similar items.

* * * * *

(d) *Compensation paid other than in cash*—(1) *In general.* If services are paid for other than in money, the fair market value of the property or services taken in payment must be included in income. If the services were rendered at a stipulated price, such price will be presumed, in the absence of evidence to the contrary, to be the fair market value of the compensation received, except in the case of options to purchase stock or other property which are issued as compensation for services (including services performed by employees and services performed by independent contractors). In the case of such options which are not subject to section 421, see paragraph (c) of §§ 1.61–14 and 1.421–6.

PAR. 2. Section 1.61–14 is amended by adding at the end thereof the following new paragraph (c):

§ 1.61–14 Miscellaneous items of gross income.

* * * * *

(c) *Certain options.* There are certain options to purchase stock or other property that are granted as payment of an amount which is includible in gross income and which is not a capital gain. If section 305 or 421 does not apply to such an option, then the time when income is realized by reason of the granting of such option and the amount of such income shall be determined by applying the rules of § 1.421–6. For example, the rules of such section shall be applied to an option which is granted to a person as payment for his services as an independent contractor, or to an option which is granted to a person as part payment for the loan of money or for the entering into of an agreement to loan money.

PAR. 3. Section 1.421–6 is amended to read as follows:

§ 1.421–6 Options to which section 421 does not apply.

(a) *Scope of section.* (1) If an employer or other person grants to an employee or other person for any reason connected with the employment of such employee an option to purchase stock of the employer or other property, and if section 421 is not applicable, then this section shall apply. This section will apply, for example, when an option is not a restricted stock option at the time it is granted (see section 421(d)(1) and § 1.421–2), or when an option is modified so that it no longer qualifies as a restricted stock option (see section 421(e) and § 1.421–4), or when there is a disqualifying disposition of stock acquired by the exercise of a restricted stock option so that section 421 does not apply. When an option is granted for any reason connected with the employment of an employee, this section applies, if section 421 does not apply, irrespective of whether the option is granted by the employer, by a parent or subsidiary of the employer, by a stockholder of any of such corporations, or by any other person, and irrespective of whether the option is granted to the employee, to a member of his family, or to any other person, and irrespective of whether the option is to purchase the stock of the employer, the stock of a parent or subsidiary of the employer, the stock of any other corporation, or to purchase any other property. In addition, paragraph (c) of § 1.61–14 makes the rules of this section applicable in determining the time when certain other options result in the realization of income and the amount of such income.

(2) This section is applicable only to options granted on or after February 26, 1945, except that this section is not applicable to—

(i) Property transferred pursuant to an option exercised before September 25, 1959, if the property is transferred subject to a restriction which has a significant effect on its value, or

(ii) Property transferred pursuant to an option granted before September 25, 1959, and exercised on or after such date, if, under the terms of the contract granting such option, the property to be transferred upon exercise of the option is to be subject to a restriction which has a significant effect on its value and if such property is actually transferred subject to such restriction.

However, if an option granted before September 25, 1959, and on or after February 26, 1945, is sold or otherwise disposed of before exercise, the provisions of this section shall be fully applicable to such disposition.

(3) If an option to which this section applies has a readily ascertainable fair market value when granted, no amount is includible in gross income under this section by reason of the transfer or exercise of such option, irrespective of whether such value was included in income for the taxable year in which the option was granted, and any deduction which is allowable as a result of the granting of such option is allowable only for the taxable year in which the option is granted. Thus, if an option having a readily ascertainable fair market value to which this section applies was granted in a taxable year for which an assessment of deficiency was barred at the time of the adoption of paragraph (c) of this section as a Treasury decision, no amount is includible in gross income under this section by reason of the transfer or exercise of such option. However, if there is a determination to which the rules of sections 1311–1314 apply, there may be an adjustment for the taxable year in which the option was granted.

(b) *Meaning and use of certain terms.* (1) For the purpose of this section, the term "option" includes the right or privilege of a person to purchase property from any person by virtue of an offer continuing for a stated period of time, whether or not irrevocable, to sell such property at a stated price, such person being under no obligation to purchase.

(2) As used in this section, the terms "employee", "employment", and "employer" have reference to the legal and bona fide relationship of employer and employee. For rules applicable to the determination whether the employer-employee relationship exists, see section 3401(c) and the regulations thereunder.

(3) For purposes of applying the rules of this section to the options which are made subject to such rules by paragraph (c) of § 1.61–14—

(i) In the case of options granted to persons performing services for compensation as independent contractors, the term "employee" includes the person who performs such services, the term "employer" includes the person for whom such services are performed, and the term "employment" includes the performance of such services, and

(ii) In the case of options granted as part payment for the loan of money, the term "employee" includes the lender, the term "employer" includes the borrower, and the term "compensation" shall be read as interest.

(c) *Options with a readily ascertainable fair market value.* (1) If there is granted an option to which this section applies and which has a readily ascertainable fair market value (determined in accordance with subparagraphs (2) and (3) of this paragraph) at the time the option is granted, the employee in connection with whose employment such option is granted realizes compensation at such time in an amount equal to the excess, if any, of such fair market value over any amount paid for the option. If an option to which this section applies does not have a readily ascertainable fair market value at the time the option is granted, the time when the compensation is realized and the amount of such compensation shall be determined under paragraph (d) of this section.

(2) Although options may have a value at the time they are granted, that value is ordinarily not readily ascertainable unless the option is actively traded on an established market. If an option is actively traded on an established market, the fair market value of such option is readily ascertainable for purposes of this section by applying the rules of valuation set forth in § 20.2031–2 of this chapter (the Estate Tax Regulations).

(3)(i) When an option is not actively traded on an established market, the fair market value of the option is not readily ascertainable unless the fair market value of the option can be measured with reasonable accuracy. For purposes of this section, if an option is not actively traded on an established market, the option does not have a readily ascertainable fair market value when granted unless the taxpayer can show that all of the following conditions exist:

(*a*) The option is freely transferable by the optionee;

(*b*) The option is exercisable immediately in full by the optionee;

(*c*) The option or the property subject to the option is not subject to any restriction or condition (other than a lien or other condition to secure the payment of the purchase price) which has a significant effect upon the fair market value of the option or such property; and

(*d*) The fair market value of the option privilege is readily ascertainable in accordance with subdivision (ii) of this subparagraph.

(ii) The fair market value of an option includes the value attributable to the option privilege and may include the value attributable to the right to make an immediate bargain purchase of the property subject to the option. If the option provides an option price which is less than the fair market value of the property subject to the option at the time it is granted, an immediate gain may be realized by exercising the option at the bargain price and selling the property so acquired. However, irrespective of whether there is a right to make an immediate bargain purchase of the property subject to the option, the fair market value of the option includes the value of the option privilege. The option privilege is the opportunity to benefit at any time during the period the option may be exercised from any appreciation during such period in the value of the property subject to the option without risking any capital. Therefore, the fair market value of an option is not merely the difference which may exist at a particular time between the option price and the value of the property subject to the option but also includes the value of the option privilege. Accordingly, for purposes of this section, the fair market value of the option is not readily ascertainable unless the value of the option privilege can be measured with reasonable accuracy. In determining whether the value of the option privilege is readily ascertainable, and in determining the amount of such value when such value is readily ascertainable, it is necessary to consider—

(*a*) Whether the value of the property subject to the option can be ascertained;

(*b*) The probability of any ascertainable value of such property increasing or decreasing; and

(*c*) The length of the period during which the option can be exercised.

(d) *Options without a readily ascertainable fair market value.* If there is granted an option to which this section applies, and if the option does not have a readily ascertainable fair market value at the time it is granted, the employee in connection with whose employment the option is granted is considered to realize compensation includible in gross income under section 61 at the time and in the amount determined in accordance with the following rules of this paragraph:

(1) Except as provided in subparagraph (2) of this paragraph, if the option is exercised by the person to whom it was granted, the employee realizes compensation at the time an unconditional right to receive the property subject to the option is acquired by such person, and the amount of such compensation is the difference between the amount payable for the property and the fair market value of the property at the time an unconditional right to receive the property is acquired. An individual has an unconditional right to receive the property subject to the option when his right to receive such property is not subject to any conditions, other than conditions that may be performed by him at any time. Thus, if an individual who has exercised an option has a right to make payment for the property at any time and to receive the property immediately after making such payment, such individual realizes compensation at the time he exercises the option. However, if an individual who has exercised an option is prevented by the terms of the option contract from making payment immediately or from receiving an immediate transfer of the property after making payment, such individual does not realize compensation at the time he exercises the option. Such individual will not realize compensation until he does acquire the right to make payment immediately and to receive an immediate transfer of the property. For purposes of this section, an unconditional right to receive the property subject to the option shall not be considered to have been acquired before the date on which the option is exercised.

(2)(i) If the option is exercised by the person to whom it was granted but, at the time an unconditional right to receive the property subject to the option is acquired by such person, such property is subject to a restriction which has a significant effect on its value, the employee realizes compensation at the time such restriction lapses or at the time the property is sold or exchanged, in an arm's length transaction, whichever occurs earlier, and the amount of such compensation is the lesser of—

(*a*) The difference between the amount paid for the property and the fair market value of the property (determined without regard to the restriction) at the time of its acquisition, or

(*b*) The difference between the amount paid for the property and either its fair market value at the time the restriction lapses or the consideration received upon the sale or exchange, whichever is applicable.

If the property is sold or exchanged in a transaction which is not at arm's length before the time the employee realizes compensation in accordance with this subdivision, any amount of gain which the employee realizes as a result of such sale or exchange is includible in gross income at the time of such sale or exchange, but the amount includible in gross income under this subdivision at the time of the expiration of the restriction on the sale or exchange at arm's length shall be reduced by the amount of gain includible in gross income as a result of the sale or exchange not at arm's length.

(ii) The provisions of subdivision (i) of this subparagraph may be illustrated by the following examples:

Example (1). On November 1, 1959, X Corporation grants to E, an employee, an option to purchase 100 shares of X Corporation stock at $10 per share. Under the terms of the option, E will be subject to a binding commitment to resell the stock to X Corporation at the price he paid for it in the event that his employment terminates within 2 years after he acquires the stock, for any reason except his death. Evidence of this commitment will be stamped on the face of E's stock certificate. E exercises the option and acquires the stock at a time when the stock, determined without regard to the restriction, has a fair market value of $18 per share. Two years after he acquires the stock, at which time the stock has a

fair market value of $30 per share, E is still employed by X Corporation. E realizes compensation upon the expiration of the 2-year restriction and the amount of the compensation is $600. The $600 represents the difference between the amount paid for the stock ($1,000) and the fair market value of the stock (determined without regard to the restriction) at the time of its acquisition ($1,600), since such value is less than the fair market value of the stock at the time the restriction lapsed ($3,000).

Example (2). Assume, in example (1), that E dies one year after he acquires the stock, at which time the stock has a fair market value of $25 per share. Since the restriction lapses upon E's death, he realizes compensation of $600 ($1,600 less $1,000) and this amount is includible in E's gross income for the taxable year closing with his death.

Example (3). Assume that, pursuant to the exercise of an option not having a readily ascertainable fair market value to which this section applies, an employee acquires stock subject to the sole condition that, if he desires to dispose of such stock during the period of his employment, he is obligated to offer to sell the stock to his employer at its fair market value at the time of such sale. Since this condition is not a restriction which has a significant effect on value, the employee realizes compensation upon acquisition of the stock.

Example (4). Assume, in example (3), that the employee is obligated to offer to sell the stock to his employer at its book value rather than at its fair market value. Since this condition amounts to a restriction which has a significant effect on value, the employee does not realize compensation upon acquisition of the stock, but he does realize such compensation upon the lapse of the restriction, such as, for example, his death or the termination of his employment.

(3) If the option is not exercised by the person to whom it was granted, but is transferred in an arm's length transaction, the employee realizes compensation in the amount of the gain resulting from such transfer of the option, and such compensation is includible in his gross income in accordance with his method of accounting.

(4) If the option is not exercised by the person to whom it was granted, but is transferred in a transaction which is not at arm's length, the employee realizes compensation in the amount of the gain resulting from such transfer of the option, and such compensation is includible in his gross income in accordance with his method of accounting. Moreover, the employee realizes additional compensation at the time and in the amount determined under subparagraph (1), (2), or (3) of this paragraph, except that the amount of compensation determined under subparagraph (1), (2), or (3) of this paragraph shall be reduced by any amount previously includible in gross income as a result of such transfer of the option. For example, if in 1960 an employee is granted an option not having a readily ascertainable fair market value to buy a share of stock for $50 at a time when the stock has a fair market value of $100, and later in 1960 the employee transfers, in a transaction not at arm's length, the option to his wife for $10, the employee realizes compensation of $10 in 1960. If in 1961 the wife exercises the option at a time when the stock has a fair market value of $120, the employee realizes additional compensation in 1961 in the amount of $60 (the $70 bargain spread less the $10 taxed as compensation in 1960). For the purpose of this subparagraph, if a person other than the employee dies holding an unexercised option at a time when the employee is still living, the transfer which results by reason of the death of such person is a transfer in a transaction which is not at arm's length.

(5) If there is granted an option to which this section applies, and the employee dies before realizing the compensation in accordance with the rules of this paragraph, income having the character of compensation is realized at the time and in the amount determined under this paragraph by the person who transfers or exercises the option, or the person who receives the property subject to a restriction which has a significant effect on its value. For example, this subparagraph is applicable:

(i) When an option not having a readily ascertainable fair market value is granted to an employee, and he dies before transferring or exercising the option,

(ii) When an option not having a readily ascertainable fair market value is granted to the employee, and he dies after the transfer of the option in a transaction which is not at arm's length, but before the option is exercised, or

(iii) When an option not having a readily ascertainable fair market value is granted to another person, and the employee dies before realizing all of the compensation which would result from any transfer or exercise of the option. If the option is one which was granted to the employee and he dies before transferring or exercising the option, the option shall be considered a right to receive income in respect of a decedent to which the rules of section 691 apply. In any such case, if the option is transferred, section 691 provides that the amount received for such transfer or the fair market value of the property transferred at the time of transfer, whichever is greater, is income realized at the time of such transfer. Moreover, if a transfer is subject to this rule, it will be treated as a transfer in an arm's length transaction for the purpose of this paragraph.

(6) If an option to which this section applies is exercised in part and transferred in part, the rules of this paragraph shall be applied as if there were two options—one exercised and one transferred.

(7) Notwithstanding the other provisions of this paragraph, if this section is applicable because of a disqualifying disposition of stock acquired by the exercise of a restricted stock option, the taxable year of the employee for which he is required to include in his gross income the compensation resulting from such option is determined under section 421 (f) and paragraph (e) of § 1.421–5.

(e) *Basis.* (1) If an option to which this section applies is exercised by the person to whom it was granted, such person's basis for the property so acquired shall be increased by any amount that is includible in the gross income of the employee under paragraph (d) of this section. If such person transfers such property to a person whose basis is the same as the transferor's basis, such transferee's basis shall also reflect the adjustment made by this paragraph. However, if such property is transferred by either of such persons at death so that its basis is determined under section 1014, the basis so determined shall not be increased by reason of this paragraph.

(2) If an option to which this section applies is transferred in a transaction which is not at arm's length, the transferee who exercises the option shall increase his basis for the property so acquired by any amount that is includible in the gross income of the employee at the time such transferee acquires the property.

(3) If an option to which this section applies is transferred in a transaction which is at arm's length, the basis of the property acquired by an exercise of the option shall not be increased by reason of any amount that is includible in the gross income of the employee under this section.

(4) If an option to which this section applies has a readily ascertainable fair market value at the time it is granted, the basis of such option includes any amount includible in gross income of the employee under paragraph (c) of this section.

(f) *Deductions.* If the employer grants an option to which this section applies, the employer of the employee in connection with whose employment the option is granted is considered to have paid compensation to such employee at the same time and in the same amount as such employee is considered under paragraph (c) or (d) of this section to have realized compensation. The deductibility of the amount considered so paid is determined under section 162 or other provision of the Code which is applicable to such a payment. Whether such amount may be deducted in the taxable year considered so paid, or whether such amount is a capital expenditure which is not deductible or which may be amortized, depends upon the nature of the transaction involved and the facts and circumstances of each case. If this section is applicable because of a disqualifying disposition of stock acquired by the exercise of a restricted stock option, the employer's taxable year for which such compensation is deductible is determined under section 421(f) and paragraph (e) of § 1.421–5.

[26 CFR (1954) Part 1]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Stock Options

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D.C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner within the 30-day period. In such a case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] DANA LATHAM,
Commissioner of Internal Revenue.

In order to conform the Income Tax Regulations (26 CFR Part 1) relating to sections 421 and 1014 of the Internal Revenue Code of 1954 to the Act of February 11, 1958 (Public Law 85–320, 72 Stat. 4), and sections 25 and 26 of the Technical Amendments Act of 1958 (72 Stat. 1623, 1624), such regulations are amended as follows:

PARAGRAPH 1. Section 1.421 is amended by revising section 421(a), by revising section 421(d)(1)(A)(ii), by adding a subparagraph (C) to section 421(d)(6), by adding a paragraph (7) to section 421(d), and by adding a historical note. These amended and added provisions read as follows:

§ 1.421 Statutory provisions; employee stock options.

SEC. 421. *Employee stock options*—(a) *Treatment of restricted stock options.* If a share of stock is transferred to an individual pursuant to his exercise after 1949 of a restricted stock option, and no disposition of such share is made by him within 2 years from the date of the granting of the option nor within 6 months after the transfer of such share to him—

(1) No income shall result at the time of the transfer of such share to the individual upon his exercise of the option with respect to such share;

(2) No deduction under section 162 (relating to trade or business expenses) shall be allowable at any time to the employer corporation, a parent or subsidiary corporation of such corporation, or a corporation issuing or assuming a stock option in a transaction to which subsection (g) is applicable, with respect to the share so transferred; and

(3) No amount other than the price paid under the option shall be considered as received by any of such corporations for the share so transferred.

This subsection and subsection (b) shall not apply unless (A) the individual, at the time he exercises the restricted stock option, is an employee of either the corporation granting such option, a parent or subsidiary corporation of such corporation, or a corporation or a parent or subsidiary of such corporation issuing or assuming a stock option in a transaction to which subsection (g) is applicable, or (B) the option is exercised by him within 3 months after the date he ceases to be an employee of such corporations. In applying paragraphs (2) and (3) of subsection (d) for purposes of the preceding sentence, there shall be substituted for the term "employer corporation" wherever it appears in such paragraphs the term "grantor corporation", or the term "corporation issuing or assuming a stock option in a transaction to which subsection (g) is applicable", as the case may be.

* * * * *

(d) *Definitions.* * * *

(1) *Restricted stock option.* * * *

(A) * * *

(ii) In the case of a variable price option, the option price (computed as if the option had been exercised when granted) is at least 85 percent of the fair market value of the stock at the time such option is granted; and

* * * * *

(8) *Exercise by estate.* * * *

(C) *Basis of shares acquired.* In the case of a share of stock acquired by the exercise of an option to which subparagraph (A) applies—

(i) The basis of such share shall include so much of the basis of the option as is attributable to such share; except that the basis of such share shall be reduced by the excess (if any) of the amount, which would have been includible in gross income under subsection (b) if the employee had exercised the option and held such share at the time of his death, over the amount which is includible in gross income under subsection (b); and

(ii) The last sentence of subsection (b) shall apply only to the extent that the amount includible in gross income under such subsection exceeds so much of the basis of the option as is attributable to such share.

(7) *Variable price option.* The term "variable price option" means an option under which the purchase price of the stock is fixed or determinable under a formula in which the only variable is the fair market value of the stock at any time during a period of 6 months which includes the time the option is exercised; except that in the case of options granted after September 30, 1958, such term does not include any such option in which such formula provides for determining such price by reference to the fair market value of the stock at any time before the option is exercised if such value may be greater than the average fair market value of the stock during the calendar month in which the option is exercised.

[Sec. 421 as amended by sec. 1, Act of February 11, 1958 (Pub. Law 85–320, 72 Stat. 4); secs. 25 and 26, Technical Amendments Act 1958 (72 Stat. 1623, 1624)]

PAR. 2. Paragraph (d)(2) of § 1.421–1 is amended to read as follows:

§ 1.421–1 Meaning and use of certain terms.

* * * * *

(d) *Option price.* * * *

(2)(i) With respect to its option price, a restricted stock option must, when granted, meet either of the following requirements:

(*a*) The option price must be fixed or determinable at the time the option is granted; or

(*b*) In the case of an option exercised during any taxable year of the optionee which begins after December 31, 1953, and ends after August 16, 1954, the option price must be determinable under a variable price option as defined in subdivision (ii) of this subparagraph.

An option which does not meet the requirements of either (*a*) or (*b*) of this subdivision when granted will not be treated as a restricted stock option unless it is subsequently changed to meet such requirements. In case of such a change, see paragraph (c)(2) of § 1.421–4.

(ii) (*a*) The term "variable price option" means an option under which the option price is determined by a formula in which the only variable is the fair market value of the stock at any time during a period of six consecutive months which includes the day on which such option is exercised. Except as provided in (*b*) of this subdivision, such formula may provide for determining such price by reference to such value on any particular day in such 6-month period, or by reference to an average value of the stock over either the whole of such 6-month period or over any shorter period included in such 6-month period. Such 6-month period may begin with, end with, or in any other manner span the day on which such option is exercised. Such formula may also depend upon factors other than such value of the stock, but such other factors must not be variable and must be fixed in the option when granted. For example, such formula may provide that the option price shall be 85 percent of the value of the stock on the day the option is exercised, but such price shall not be less than $85, nor more than $110. Another example of a formula which meets the requirements of this subdivision is a provision that the option price shall be 95 percent of the fair market value of the stock on the day the option is exercised but not more than $95. However, the requirements of this subdivision are not met by a formula which provides that if the profits of the employer for the year do not exceed $100,000, the option price shall be $15 under the fair market value of the stock at the time the option is exercised, but if such profits exceed $100,000, the option price shall be $20 under such value of the stock. For an example of how to determine whether an option which contains a formula meeting the requirements of this subdivision also meets the requirement that the option price must be at least 85 percent of the fair market value of the stock at the time the option is granted, see paragraph (a)(1) of § 1.421–2.

(*b*) In the case of an option granted after September 30, 1958, the term "variable price option" does not include any option in which the formula provides for determining the option price by reference to the fair market value of the stock at any time before the option is exercised if such value may be greater than the average fair market value of the stock during the calendar month in which the option is exercised. Whether an option meets the requirement of this subdivision shall be determined solely by reference to the terms of the option, and the circumstances existing at the time the option is granted or exercised are immaterial. Thus, an option, granted after September 30, 1958, and containing a pricing formula which takes into consideration the value of the stock at any time before the option is exercised, is subject to the new

limitation and does not meet the requirement of this subdivision, even though the option price is not actually based upon such prior fair market value either at the time the option is exercised or at the time the option price is computed as if it were exercised for the purpose of applying the 85 percent test of section 421(d)(1)(A). For example, a formula which provides that the option price is to be 45 percent of the fair market value of the stock 30 days before the date on which the option is exercised, but not more than $85, will not qualify under this subdivision since under this formula the price may be determinable by reference to a higher prior value. On the other hand, a formula which provides that the option price is to be 90 percent of the average value of the stock during the month the option is exercised or the average value of the stock during the preceding month, whichever is lower, will qualify. In the case of an option granted after September 30, 1958, the only way that a formula which provides for determining the option price by reference to the fair market value of the stock at a time before the option is exercised can come within the requirement of this subdivision is to provide that the option price is to be determined by reference to such fair market value only if such fair market value is not greater than the average fair market value of the stock during the month in which the option is exercised. If under the terms of an option the price is to be determined by reference to the fair market value of the stock at a time before the option is exercised, whether such value is higher or lower than the average fair market value of the stock during the month the option is exercised, such option will not be considered a restricted stock option since the option price may be based upon the prior value of the stock when such value exceeds the average fair market value of the stock during the month the option is exercised. However, if an option provides for determining the option price by reference to a prior fair market value of the stock only when such value is lower than such average value of the stock, such option can qualify as a restricted stock option. The average fair market value of the stock during the month in which the option is exercised means such value during the calendar month the option is exercised and not merely during a 30- or 31-day period including the time the option is exercised. To compute the average fair market value of the stock for the month, it will be necessary to ascertain the fair market value of the stock for each day during the month, including those days which are not business days. In ascertaining the fair market value of the stock for each day, the generally accepted principles for ascertaining such value will be applied.

PAR. 3. Paragraph (a)(1) of § 1.421–2 is amended to read as follows:

§ 1.421–2 Restricted stock option.

(a) *In general.* (1) A "restricted stock option" is an option granted after February 26, 1945, to an individual, for any reason connected with his employment by a corporation, if granted by the employer corporation or its parent or subsidiary corporation, to purchase stock of any of such corporations, but, except in the case of options described in subparagraph (2) of this paragraph, only if—

(i) At the time such option is granted the option price is at least 85 percent of the fair market value at such time of the stock subject to the option; and

(ii) Such option by its terms is not transferable by such individual otherwise than by will or by the laws of descent and distribution, and is exercisable, during his lifetime, only by him; and

(iii) Such individual, at the time the option is granted, does not own stock possessing more than 10 percent of the total combined voting power of all classes of stock either of the employer corporation or of its parent or subsidiary corporation; and

(iv) In the case of options granted after June 21, 1954, such option by its terms is not exercisable after the expiration of ten years from the date on which such option was granted.

For the purpose of applying the rule of subdivision (i) of this subparagraph if the option price is determined by a formula described in paragraph (d)(2)(ii) of § 1.421–1, the option price shall, notwithstanding any provision of the option, be computed as if such option is exercised on the day when it is granted. For example, if on June 15, 1959, an option is granted providing that the option price shall be $10 under the average fair market value of the stock during the month in which the option is exercised or the average fair market value of the stock during the preceding month, whichever is lower, and if on June 15, 1959, the value of the stock subject to the option is $100 a share, to determine if the option meets the requirement of subdivision (i) of this subparagraph, it is necessary to determine the average fair market value of the stock during the months of May and June 1959. If such lower average fair market value is $95 or more, the option meets the requirement of subdivision (i) of this subparagraph.

PAR. 4. Paragraph (b) of § 1.421–3 is amended by revising subparagraph (1) and adding example (3) to subparagraph (2). These amended and added provisions read as follows:

§ 1.421–3 Exercise of restricted stock option.

* * * * *

(b) (1) Section 421 is applicable to the exercise of a restricted stock option only if at the time the individual exercises the option he is a bona fide employee of the corporation granting the option, or of a corporation which is at the time the option is exercised a parent or subsidiary of such corporation, unless the old option has been assumed or a new option has been issued in its place under section 421(g). See paragraph (d) of § 1.421–4. In case of such an assumption of the old option or such issuance of a new option, the individual exercising the option must, at the time he exercises the option, be a bona fide employee of the corporation so assuming or issuing the option, or a parent or subsidiary of such corporation. Section 421 is also applicable if the individual exercising the option was a bona fide employee of any of such corporations within three months before the exercise of the option. For purposes of determining whether an individual meets the requirement of this subparagraph, the term "employer corporation", as used in section 421(d)(2) and (3), shall be read as "grantor corporation" or "corporation issuing or assuming a stock option in a transaction to which section 421(g) is applicable", as the case may be. Therefore, for purposes of the employment requirement, the determination of whether a corporation is a parent corporation or a subsidiary corporation is based upon whether the corporation is a parent or subsidiary of the corporation granting an option or of a corporation which issued or assumed an option under section 421(g).

(2) The application of subparagraph (1) of this paragraph may be illustrated by the following examples:

* * * * *

Example (3). Assume that P Corporation which owns all of the stock of S Corporation grants a restricted stock option to E, an employee of S Corporation. If E exercises the option, section 421 is applicable since E is employed by a corporation which is a subsidiary of the corporation which granted the restricted stock option.

PAR. 5. Section 1.421–5 is amended by revising paragraph (b)(1)(i) and (2), by revising the example in paragraph (d)(3)(ii), and by adding a subparagraph (4) to paragraph (d). These amended and added provisions read as follows:

§ 1.421–5 Operation of section 421.

* * * * *

(b) *Additional rules applicable where the option price is between 85 percent and 95 percent of the value of the stock*—(1) *In general.* (i) If all the conditions necessary for the application of section 421(a) exist, section 421(b) provides additional rules which are applicable in cases where, at the time the restricted stock option is granted, the option price per share is less than 95 percent (but not less than 85 percent) of the fair market value of such share. In such case, upon the disposition of such share by the individual after the expiration of the 2-year and the 6-month periods, or upon his death while owning such share (whether occurring before or after the expiration of such periods), there shall be included in the individual's gross income as compensation (and not as gain upon the sale or exchange of a capital asset) an amount determined in the following manner. If the option qualified under section 421(d)(1)(A)(i) (see paragraph (d)(2)(i)(a) of § 1.421–1), such amount shall be the amount, if any, by which the option price is exceeded by the lesser of the fair market value of the share at the time the option was granted or the fair market value of the share at the time of such disposition or death.

However, if the option qualified under section 421(d)(1)(A)(ii) (see paragraph (d)(2)(i)(b) of § 1.421–1), such amount shall be whichever of the following amounts is lesser:

* * * * *

(2) *Basis.* If the special rules provided in section 421(b) are applicable to the disposition of a share of stock by an individual, the basis of such share in the individual's hands at the time of such disposition, determined under section 1011, shall be increased by an amount equal to the amount includible as compensation in his gross income under section 421(b). However, in the case of a share of stock acquired by the exercise of a restricted stock option after the death of the employee to whom the option was granted, the basis of such share shall be determined in accordance with the rules of paragraph (d)(4) of this section. If the special rules provided in section 421(b) are applicable to a share of stock upon the death of an individual, the basis of such share in the hands of the estate or the person receiving the stock by bequest or inheritance shall be determined under section 1014, and shall not be increased by reason of the inclusion upon the decedent's death of any amount in his gross income under section 421(b). See example (9) of this paragraph with respect to the determination of basis of the share in the hands of a surviving joint owner.

* * * * *

(d) *Exercise after death.* * * *

(3) * * *

(ii) The application of subdivision (i) may be illustrated by the following example:

Example. On June 1, 1953, E was granted a restricted stock option to purchase for $85 one share of the stock of his employer. On such day, the fair market value of such stock was $100 a share. E died on February 1, 1954, without having exercised such option. The option was, however, exercisable by his estate, and for purposes of the estate tax was valued at $30. On March 1, 1955, the estate exercised the option, and on March 15, 1955, sold for $150 the share of stock so acquired. For its taxable year including March 15, 1955, the estate is required by section 421(b) to include in its gross income as compensation the amount of $15. During such taxable year, no amounts of income were properly paid, credited, or distributable to the beneficiaries of the estate. However, under section 421(d)(6)(B), the estate is entitled to a deduction determined in the following manner. E's estate includes no other items of income in respect of a decedent referred to in section 691(a), and no deductions referred to in section 691(b), so that the value for estate tax purposes of the restricted stock option, $30, is also the net value of all items of income in respect of the decedent. The estate tax attributable to the inclusion of the restricted stock option in the estate of E is $10. Since $15, the amount includible in gross income by reason of section 421(b), is less than the value for estate tax purposes of the option, only 15/30 of the estate tax attributable to the inclusion of the option in the estate is deductible; that is, 15/30 of $10, or $5. No deduction under section 421(d)(6)(B) is allowable with respect to any capital gain.

(4)(i) In the case of an employee dying before January 1, 1957, the basis of any share of stock acquired by the exercise of the option under this paragraph, determined under section 1011, shall be increased by an amount equal to the amount includible as compensation in his gross income under section 421(b). The basis of the share shall not be increased by reason of the inclusion of the value of the restricted stock option in the estate for estate tax purposes.

(ii)(a) In the case of an employee dying after December 31, 1956, the basis of any share of stock acquired by the exercise of the option under this paragraph, determined under section 1011, shall be increased by an amount equal to the portion of the basis of the option attributable to such share. For example, if a restricted stock option to acquire 10 shares of stock has a basis of $100, the basis of one share acquired by a partial exercise of the option, determined under section 1011, would be increased by 1/10th of $100, or $10. The option acquires a basis, determined under section 1014(a), only if it is exercised in accordance with section 421. Therefore, to the extent the option is so exercised, in whole or in part, it will acquire a basis equal to its fair market value at the date of the employee's death or, if an election is made under section 2032, its value at its applicable valuation date. In certain cases, the basis of the share is subject to the adjustments provided by (b) and (c) of this subdivision, but such adjustments are only applicable in the case of an option which is subject to section 421(b).

(b) If the amount which would have been includible in gross income under section 421(b) had the employee exercised the option and held the share at the time of his death exceeds the amount which is includible in gross income under section 421(b), the basis of the share, determined under (a) of this subdivision, shall be reduced, by such excess. For example, if $15 would have been includible in the gross income of the employee had he exercised the option and held such share at the time of his death, and only $10 is includible under section 421(b), the basis of the share, determined under (a) of this subdivision, would be reduced by $5. For purposes of determining the amount which would have been includible in gross income under section 421(b) if the employee had exercised the option and held such share at the time of his death, the amount which would have been paid for the share shall be computed as if the option had been exercised on the date the employee died.

(c) If the amount includible in gross income under section 421(b) exceeds the portion of the basis of the option attributable to the share, the basis of the share, determined under (a) of this subdivision, shall be increased by such excess. Thus, if $15 is includible in gross income under section 421(b), and the basis of the option with respect to the share is $10, the basis of the share, determined under (a) of this subdivision, will be increased by $5.

(iii) If a restricted stock option is not exercised by the estate of the individual to whom the option was granted, or by the person who acquired such option by bequest or inheritance or by reason of the death of such individual, the option shall be considered to be property which constitutes a right to receive an item of income in respect of a decedent to which the rules of sections 691 and 1014(c) apply.

(iv) The application of this subparagraph may be illustrated by the following examples:

Example (1). On June 1, 1954, the X Corporation granted to E, an employee, a restricted stock option to purchase a share of X Corporation's stock for $85. The fair market value of the X Corporation stock on such date was $100 per share. On June 1, 1955, E died. The fair market value of X Corporation stock on such date exceeded $100 per share and the fair market value of the option on the applicable valuation date was $35. On August 1, 1956, the estate of E exercised the option and sold the share of X Corporation stock at a time when the fair market value of the share was $90. The estate is required by section 421(b) to include $5 in its gross income as compensation. Since E died before January 1, 1957, the basis of the share is $90 (the $85 paid for the stock plus the $5 includible in gross income as compensation), and the basis of the share is not increased by reason of the inclusion of the value of the option in the estate of E (see section 1014(d)). Thus, no gain or loss is realized on the disposition of the share since the basis of the share is equal to the sale price.

Example (2). On June 1, 1956, the X Corporation granted to E, an employee, a restricted stock option to purchase a share of X Corporation stock for $85. The fair market value of X Corporation stock on such date was $100 per share. On June 1, 1957, E died. The fair market value of X Corporation stock on such date exceeded $100 per share and the fair market value of the option on the applicable valuation date was $35. On August 1, 1958, the estate of E exercised the option and sold the share of X Corporation stock at a time when the fair market value of the share was $120. The basis of the share is $120 (the $85 paid for the stock plus the $35 basis of the option). When the share is sold for $120, the estate is required to include $15 in its gross income as compensation. Since $15 would have been includible in E's gross income if he had exercised the option and held such share at the time of his death, subdivision (ii)(b) of this subparagraph does not apply. Moreover, since the $15 includible in the gross income of the estate does not exceed the basis of the option ($35), subdivision (ii)(c) of this subparagraph does not apply. Since the basis of the stock and the sale price are the same, no gain or loss is realized by the estate on the disposition of the share.

Example (3). Assume the same facts as in example (2), except that the fair market value of the share of stock at the time if its sale was $90. The basis of the share, determined under subdivision (ii)(a) of this subparagraph, is $120 (the $85 paid for the stock plus the $35 basis of the option). When the share is sold for $90, the estate is required to include $5 in its gross income as compensation. If the employee had exercised the option and held the share at the time of this death, $15 would have been includible in gross income as compensation for the taxable year ending with his death. Since such amount exceeds by $10 the amount which the estate is required to include in its gross income, subdivision (ii)(b) of this subparagraph applies, and the basis of the share ($120), determined under subdivision (ii)(a) of this subparagraph is reduced by $10. Accordingly, the basis is $110, and a capital loss of $20 is realized on the disposition of the share.

Example (4). Assume the same facts as in example (2), except that the fair market value of the option on the applicable valuation date was $5, and that the fair market value of X Corporation stock on the date the employee died did not exceed $100. The basis of the share, determined under subdivision (ii) (*a*) of this subparagraph, is $90 (the $85 paid for the stock plus the $5 basis of the option). When the share is sold for $120, the estate is required to include $15 in its gross income as compensation. Since such amount exceeds by $10 the basis of the option, subdivision (ii) (*c*) of this subparagraph applies, and the basis of the share ($90), determined under subdivision (ii) (*a*) of this subparagraph, is increased by $10. Accordingly, the basis is $100 and a capital gain of $20 is realized on the disposition of the share.

Example (5). Assume the same facts as in example (2), except that on June 1, 1957, the date the employee died, the fair market value of X Corporation stock was $98, and that on June 1, 1958, the alternate valuation date, the fair market value of the stock had declined substantially, and the fair market value of the option was $5. On August 1, 1958, the estate of E exercised the option and sold the share when its fair market value was $92. The basis of the share, determined under subdivision (ii) (*a*) of this subparagraph, is $90 (the $85 paid for the stock plus the $5 basis of the option). When the share is sold for $92, the estate is required to include $7 in its gross income as compensation. Since $13 would have been includible in E's gross income if he had exercised the option and held such share at the time of his death, subdivision (ii) (*b*) of this subparagraph applies, and the basis of the share ($90), determined under subdivision (ii) (*a*) of this subparagraph, is reduced by $6 to $84. Furthermore, since the $7 that the estate is required to include in its gross income when the share is sold for $92 exceeds by $2 the basis of the option, subdivision (ii) (*c*) of this subparagraph applies, and the basis of the share ($84), determined under subdivision (ii) (*a*) and (ii) (*b*) of this subparagraph, is increased by $2. Accordingly, the basis is $86 and a capital gain of $6 is realized on the disposition of the share.

PAR. 6. Section 1.1014 is amended by striking out subsection (d) of section 1014 and by adding a historical note. This amended provision and historical note read as follows:

§ 1.1014 Statutory provisions; basis of property acquired from a decedent.

SEC. 1014. *Basis of property acquired from a decedent.* • • •

(d) [Deleted]

[Sec. 1014 as amended by sec. 2, Act of February 11, 1958 (Pub. Law 85-320, 72 Stat. 5)]

PAR. 7. Paragraph (c) (2) of § 1.1014 is amended to read as follows:

§ 1.1014-1 Basis of property acquired from a decedent.

• • • • • •

(c) *Property to which section 1014 does not apply.* • • •

(2) Restricted stock options described in section 421 which the employee has not exercised at death if the employee died before January 1, 1957. In the case of employees dying after December 31, 1956, see paragraph (d) (4) of § 1.4215.

INTERSTATE COMMERCE COMMISSION

[49 CFR Parts 71-78, 197]

[Docket No. 3666;[1] Notice 46]

TRANSPORTATION OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

Notice of Proposed Rule Making

NOVEMBER 29, 1960.

Existing regulations governing the transportation of explosives and other dangerous articles by motor vehicle were prescribed under authority of the Transportation of Explosives Act (18 U.S.C. 835) as regards common carriers by motor vehicle, and under authority of the Interstate Commerce Act (49 U.S.C. 304) as regards contract and private carriers by motor vehicle. This notice proposes to prescribe the regulations relating to contract and private carriers by motor vehicle under the Transportation of Explosives Act as amended September 6, 1960, instead of under the Interstate Commerce Act.

The Transportation of Explosives Act provides heavier penalties for violations of its provisions and of regulations thereunder than does Part II of the Interstate Commerce Act. The legislative history of the Act which amended the Transportation of Explosives Act indicates that one of the reasons for the amendment was to bring about uniformity in penalties whether common, contract, or private carriage be involved. This will be accomplished by the changes proposed in this notice. Other changes in the regulations may be proposed at a later date to implement the amended provisions of the Act. If so, a separate notice of proposed rule making will be issued.

Accordingly, notice is hereby given of the Commission's proposal to enter an order setting forth:

(1) That all the then effective provisions of Title 49 Code of Federal Regulations Parts 71 through 78, Regulations for Transportation of Explosives and Other Dangerous Articles, and of Title 49 Code of Federal Regulations Part 197, Transportation of Explosives and Other Dangerous Articles by Motor Vehicle, insofar as they relate to contract carriers by motor vehicle and private carriers of property by motor vehicle, and to shippers by such carriers, are thereafter prescribed under the Transportation of Explosives Act, as amended (18 U.S.C. 834), and not under the Interstate Commerce Act, as amended (49 U.S.C. 304);

(2) That the authority statements in those parts shall be amended to reflect this change; and

(3) That the two bracketed paragraphs following the authority statement in Part 73 and the three bracketed paragraphs following the authority statements in Part 77 shall be amended, without change in Note 1 thereto, to read:

[The regulations in Parts 71-78 of this chapter are applicable to every common and contract carrier by motor vehicle and every private carrier of property by motor vehicle subject to the regulatory provisions of sections 831-835, 62 Stat. 738, 74 Stat. 808; 18 U.S.C. 831-835.

Private carriers of property by motor vehicle subject to Parts 71-78 of this chapter are prohibited from transporting any explosive or other dangerous article unless the article is properly described by name in papers required by Parts 71-78 of this chapter to accompany every shipment of such article; and every such article must be packed and marked and in proper condition for transportation according to the regulations in Parts 71-78 of this chapter.]

Any party desiring to make representations in favor of or against the proposals may do so through the submission of written data, views, or arguments. The original and five copies of such submission may be filed with the Commission on or before December 15, 1960. The proposals are subject to change or changes that may be made as a result of such submissions.

Notice to the general public will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection, and by filing a copy of the notice with the Director, Office of the Federal Register.

(62 Stat. 738, 74 Stat. 808; 18 U.S.C. 834)

By the Commisison, Division 3.

[1] This notice embraces Ex Parte No. MC-13, In the Matter of Regulations Governing the Transportation of Explosives and Other Dangerous Articles by Motor Vehicle, and Ex Parte No. MC-8, In the Matter of Need for Establishing Reasonable Requirements To Promote Safety of Operation of Motor Vehicles Used in Transporting Property by Private Carriers.

Notices

FEDERAL POWER COMMISSION

[Docket No. CP61-105]

ATLANTIC SEABOARD CORP. AND TRANSCONTINENTAL GAS PIPE LINE CORP.

Notice of Application and Date of Hearing

NOVEMBER 29, 1960.

Take notice that Atlantic Seaboard Corporation (Atlantic), a Delaware corporation with a principal office at (P.O. Box 1273), Charleston, West Virginia, and Transcontinental Gas Pipe Line Corporation (Transco), a Delaware corporation with a principal office at 3100 Travis Street, Houston, Texas, filed a joint application in Docket No. CP61-105 on October 4, 1960, for certificates of public convenience and necessity authorizing Atlantic and Transco, respectively, to construct and operate natural gas facilities subject to the jurisdiction of the Commission, all as more fully described in the application on file with the Commission and open to public inspection.

Atlantic and Transco propose to establish a point of delivery to be located near Beaver Dam, Baltimore County, Maryland, where it is proposed to construct a section of pipeline 1,450 feet long extending from the existing 30-inch main line of Transco to the upstream side of Atlantic's existing measuring and regulating facilities on its main 20-inch line where it delivers gas to Baltimore Gas and Electric Company, which will establish a fifth delivery point near Baltimore and to operate it as an expansion of a previously authorized exchange service.

The application recites the purpose of the delivery point at Beaver Dam is to give added assurance of continuity of service to existing markets in the event of any unforeseen interruption of service and provide additional flexibility in Atlantic's 20-inch system and allow for emergency deliveries in either direction.

The proposed interconnecting facilities, including the 10-inch pipeline, to be constructed by Atlantic are estimated to cost $34,100 and will be financed by Atlantic from cash generated from operations. The main line interconnection, to be constructed by Transco, is estimated to cost $8,600 and will be financed by Transco from company funds.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held January 10, 1961, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 3, 1961. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

MICHAEL J. FARRELL, *Acting Secretary.*

[F.R. Doc. 60-11244; Filed, Dec. 2, 1960; 8:46 a.m.]

[Docket No. CP61-108]

EL PASO NATURAL GAS CO.

Notice of Application and Date of Hearing

NOVEMBER 29, 1960.

Take notice that on October 5, 1960, as supplemented on October 25, 1960, El Paso Natural Gas Company, P.O. Box 1492, El Paso, Texas (Applicant), filed in Docket No. CP61-108 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of small scale routine budget-type facilities during the calendar year 1961, all as more fully set forth in the application and supplement which are on file with the Commission and open to public inspection.

The proposed facilities consist of:

(1) Not more than 30 main line taps, together with the necessary standard appurtenances for the operation thereof, through which Applicant will sell and deliver from 50 to 500 Mcf of natural gas per day per installation to existing authorized resale customers in Colorado, Utah, Wyoming, Idaho, Oregon, Washington, Texas, New Mexico and Arizona. The estimated cost is $350 per tap, or a maximum total of $10,500 for 30 taps;

(2) Not more than 15 main line measuring and regulating stations, together with main line tap facilities and the necessary standard appurtenances, to sell and deliver from 50 to 5,000 Mcf of natural gas per day per installation to existing authorized resale customers as above. The estimated cost is $2,000 to $6,000 per installation, or a maximum total of $90,000 for the 15 proposed installations; and

(3) Not more than two (2) lateral or branch pipelines of not less than 2½-inch nor more than 6⅝-inch outside diameter, together with related main line taps, measuring and regulating stations, and the necessary standard appurtenances, to sell and deliver from 50 to 5,000 Mcf of natural gas per day per line to existing authorized resale customers as above. The maximum estimated cost is $350,000 per line, or a maximum total of $700,000 for the two.

The total estimated cost of all facilities proposed under this application will not exceed $800,500, which Applicant proposes to finance from its working funds or by the making of short-term bank loans.

The anticipated maximum deliveries through each type of facility during the calendar year 1961 are:

	Mcf at 14.73 psia			
	30 taps	15 meter stations	2 laterals	Total
Peak requirements	2,700	10,800	5,000	18,500
Annual requirements	339,000	1,665,000	900,000	2,904,000

All sales are to be made under Applicant's existing filed rates or those subsequently made effective by the Commission.

No increase in main line capacity is proposed.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 27, 1960, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 19, 1960. Failure of any party to appear at and participate in the hearing shall be construed as

waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11245; Filed, Dec. 2, 1960; 8:46 a.m.]

[Docket No. CP61-106]

TENNESSEE GAS TRANSMISSION CO.

Notice of Application and Date of Hearing

NOVEMBER 29, 1960.

Take notice that on October 4, 1960, as supplemented on October 24, 1960, Tennessee Gas Transmission Company, P.O. Box 2511, Houston 1, Texas, (Applicant) filed in Docket No. CP61-106 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of field facilities to enable Applicant to take into its certificated main transmission pipeline system natural gas which will be purchased from time to time during the calendar year 1961 in the general area of Applicant's existing transmission system, at a total cost not to exceed $5,000,000, with no single project to exceed a cost of $500,000, all as more fully set forth in the application and supplement which are on file with the Commission and open to public inspection.

The purpose of this "budget-type" application is to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting to its existing pipeline system new supplies of natural gas in various producing areas generally coextensive with said system.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 27, 1960, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 19, 1960. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

MICHAEL J. FARRELL,
Acting Secretary.

UNITED STATES LINES CO.

Notice of Application

Notice is hereby given that United States Lines Co. has applied for the privilege of carrying cargo (1) between United States Atlantic ports and Panama Canal Zone ports with vessels operating on its Line D Service (Trade Route No. 12) and (2) between United States Atlantic and Gulf ports and Panama Canal Zone ports with vessels operating on its Line E Service (Trade Route No. 16).

Any person, firm or corporation having any interest in such application and desiring a hearing on issues pertinent to section 605(c) of the Merchant Marine Act, 1936, as amended, 46 U.S.C. 1175, should by the close of business on December 16, 1960, notify the Secretary, Federal Maritime Board in writing in triplicate, and file petition for leave to intervene in accordance with the rules of practice and procedure of the Federal Maritime Board.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Federal Maritime Board determines that petitions to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Federal Maritime Board will take such action as may be deemed appropriate.

Dated: November 30, 1960.

By Order of the Federal Maritime Board.

SOUTH DAKOTA

Designation of Area for Production Emergency Loans

For the purpose of making production emergency loans pursuant to section 2(a) of Public Law 38, 81st Congress (12 U.S.C. 1148a-2(a)), as amended, it has been determined that in the following counties in the State of South Dakota a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

SOUTH DAKOTA

Corson. Dewey.

Pursuant to the authority set forth above, production emergency loans will not be made in the above-named counties after June 30, 1961, except to applicants who previously received such assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 29th day of November 1960.

MARVIN L. MCLAIN,
Acting Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice 417]

MOTOR CARRIER TRANSFER PROCEEDINGS

NOVEMBER 30, 1960.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 35355. By order of November 28, 1960, the Transfer Board approved the lease to Machinery & Materials Corporation, Shelbyville, Ind., a portion of Certificate No. MC 119830, issued November 14, 1960, to L. A. Lambrecht Trucking Co., a Corporation, Sterling, Ill., authorizing the transportation of contractor's equipment and machinery which, because of size or weight requires specialized handling or the use of special equipment, over irregular routes, between Sterling, Ill., and points within 5 miles thereof, on the one hand, and, on the other, points in Minnesota, South Dakota, Nebraska, Missouri, Indiana, Ohio, Iowa, Michigan, and Wisconsin. Kenneth F. Dudley, P.O. Box 557, Ottumwa, Iowa for applicants.

No. MC-FC 35357. By order of November 28, 1960, the Transfer Board approved the lease to William Dehlinger, Jr., and Sherrod Smith, a partnership, doing business as Oil Field Trucking Service of Wichita Falls, Abilene, Texas, of Certificate in No. MC 3837, issued June 15, 1953, to L. C. Ficklin, doing business as L. C. Ficklin Trucking Company, Wichita Falls, Texas, authorizing the transportation of: Machinery, materials, supplies and equipment incidental to, or used in the construction, development, operations and maintenance of facilities for the discovery, development, and production of natural gas and petroleum, over irregular routes, between points in Oklahoma and Texas. Dan M. Fergus, 608 Alexander Building, Abilene, Tex., for applicants.

No. MC-FC 63520. By order of November 23, 1960, the Transfer Board approved the transfer to Sherman K. Stromen, doing business as Stromen Transfer, New Richmond, Wis., of a portion of Certificate No. MC 82085, issued September 13, 1960, to Grant Bishop, Hammond, Wis., authorizing the transportation of: Canned vegetables, from New Richmond, Wis., to points in Minnesota within 160 miles of New Richmond, Wis., and fresh vegetables, from points in Minnesota within 160 miles of New Richmond, Wis., to New Richmond, Wis. W. P. Knowles, New Richmond, Wis., for applicants.

No. MC-FC 63545. By order of November 28, 1960, the Transfer Board approved the transfer to Gladys Montague, doing business as Jonesboro Transfer and Storage Company, 105 South Main St., Jonesboro, Ark., of Certificate No. MC 79531, issued January 28, 1953, to Walter Montague, doing business as Jonesboro Transfer & Storage Company, 105 South Main St., Jonesboro, Ark., authorizing the transportation of: Household goods, between Jonesboro, Ark., and points in Arkansas within 50 miles of Jonesboro, on the one hand, and, on the other, points in Alabama, Illinois, Iowa, Kansas, Mississippi, Missouri, Oklahoma, Tennessee, and those in Kentucky and Louisiana as specified.

No. MC-FC 63594. By order of November 28, 1960, the Transfer Board approved the transfer to Rich Freight Lines, a Corporation, Portland, Oreg., of Certificate No. MC 86419 Sub 1, issued July 26, 1955, as amended, to Rainbow Transportation Co., a Corporation, La Grande, Oreg., authorizing the transportation of: General commodities, excluding household goods, commodities in bulk, and other specified commodities, between Enterprise and Joseph, Oreg., over Oregon Highway 82, serving no intermediate points and between La Grande, and Enterprise, Oreg., over Oregon Highway 82, serving the intermediate points of Island City, Alicel, Imbler, Elgin, Minam, Wallowa, and Lostine, Oreg., and the off-route point of Clove, Oreg.; flour, from Island City, Oreg., to Weiser, Payette, Emmett, Nampa and Boise, Idaho; and livestock, wool, agricultural commodities, and building materials, between points in Union, Baker, Malheur, and Harney Counties, Oreg., on the one hand, and, on the other, points in Washington, Payette, Gem, Canyon, Boise, and Elmore Counties, Idaho. John M. Hickson, Failing Building, Portland, Oreg., for applicants.

No. MC-FC 63599. By order of November 23, 1960, the Transfer Board approved the transfer to Patrick O'Connor and Thomas O'Connor, doing business as O'Connor Bros., 839 Myrtle St., Elizabeth, N.J., of Certificate No. MC 8526, issued May 26, 1954, to Patrick O'Connor, Thomas O'Connor and James O'Connor, doing business as O'Connor Bros. Movers, 839 Myrtle St., Elizabeth, N.J., authorizing the transportation of: Household goods, between points in Essex, Union, Hudson, and Middlesex Counties, N.J., on the one hand, and, on the other, points in New Jersey and New York.

No. MC-FC 63627. By order of November 28, 1960, the Transfer Board approved the transfer to Charles Beil & Sons, Inc., Millstadt, Ill., of Certificates Nos. MC 110538 Sub 1, and MC 110538 Sub 2, issued December 16, 1957 and July 22, 1958, to Charles Beil, Walter Beil, Charles I. Beil, and Ralph Beil, doing business as Charles Beil & Sons, Millstadt, Ill., authorizing the transportation of: Coal, from points in St. Clair County, Ill., to St. Louis, Mo.; and haydite, in bulk, from Fairview, Ill., to points in Missouri. Delmar O. Koebel, 608 Spivey Building, East St. Louis, Ill., for applicants.

No. MC-FC 63667. By order of November 23, 1960, the Transfer Board approved the transfer to Joseph D. Larson, doing business as Cornish Express Co., Paterson, N.J., of Permit No. MC 110583, issued July 22, 1957, to Albert J. Buller and Joseph D. Larson, doing business as Cornish Express Company, Paterson, N.J., authorizing the transportation of: Household appliances, pianos, radios, and television sets, between Paterson, N.J., on the one hand, and, on the other, New York, N.Y., points in Nassau, Orange, Putnam, Rockland, and Westchester Counties, N.Y., and Monroe, Northampton, and Pike Counties, Pa. George A. Olsen, 69 Tonnele Avenue, Jersey City 6, N.J., for applicants.

No. MC-FC 63694. By order of November 28, 1960, the Transfer Board approved the transfer to English Trucking Corp., Brooklyn, N.Y., of Permit in No. MC 27894, issued June 24, 1943, to Herman Coleman, Brooklyn, New York, authorizing the transportation of: Such merchandise as is dealt in by wholesale, retail, and chain grocery and food business houses, and, in connection therewith, equipment, materials, and supplies used in the conduct of such business, between points in Long Island, and between points therein, on the one hand, and, on the other, points in New York, Bronx, Richmond, and Nassau Counties, N.Y., and points in New Jersey; fruits, vegetables, farm products, poultry and sea food from points in Long Island, N.Y., to points specified above. William D.

Traub, 10 East 40th Street, New York 16, N.Y., for applicants.

Title 3—THE PRESIDENT

Executive Order 10897

AUTHORIZING THE SECRETARY OF STATE TO PRESCRIBE RULES AND REGULATIONS RELATING TO THE FOREIGN SERVICE RETIREMENT AND DISABILITY SYSTEM

By virtue of the authority vested in me by section 303 of the Foreign Service Act of 1946 (60 Stat. 1002; 22 U.S.C. 843), and section 202 of the Revised Statutes (5 U.S.C. 156), it is ordered as follows:

SECTION 1. The Secretary of State is hereby authorized to exercise the following-described authority of the President:

(a) The authority vested in the President by section 801(a) of the Foreign Service Act of 1946 (22 U.S.C. 1061(a)) to prescribe rules and regulations for the maintenance of the Foreign Service Retirement and Disability System.

(b) The authority vested in the President by section 803(c)(1) of the Foreign Service Act of 1946, as amended (22 U.S.C. 1063(c)(1)), to prescribe regulations governing the participation of certain Foreign Service staff officers and employees in the Foreign Service Retirement and Disability System.

(c) The authority vested in the President by section 881(a) of the Foreign Service Act of 1946, as amended (22 U.S.C. 1116(a)), to prescribe regulations governing the deposit of voluntary contributions into the Foreign Service Retirement and Disability Fund.

SEC. 2. Executive Order No. 9941 of March 26, 1948, is hereby superseded.

SEC. 3. This order shall be effective as of October 16, 1960; and the Secretary of State, in his discretion and consistent with law, may make rules and regulations issued pursuant to section 1 hereof effective on or after that date.

DWIGHT D. EISENHOWER

THE WHITE HOUSE,

Executive Order 10898

ESTABLISHING THE INTERDEPARTMENTAL HIGHWAY SAFETY BOARD

By virtue of the authority vested in me as President of the United States, it is hereby ordered as follows:

SECTION 1. (a) For the purpose of providing Federal leadership and guidance of existing and future official activities that affect the safety of travel on public streets and highways and to establish a coordinated traffic safety program for Federal agencies, there is hereby established the Interdepartmental Highway Safety Board, hereinafter referred to as the Board.

(b) The Board shall have as members the following:

(1) The Secretary of Commerce, who shall be the chairman of the Board.
(2) The Secretary of Defense.
(3) The Postmaster General.
(4) The Secretary of Health, Education, and Welfare.
(5) The Chairman of the Interstate Commerce Commission.
(6) The Administrator of General Services.

(c) Each head of agency referred to in subsection (b) may provide for an alternate member who shall serve as a member of the Board in lieu of the regular member representing the agency when such regular member is unable to attend any meeting of the Board; and any alternate member shall while serving as such have in all respects the same status as a member of the Board as would the regular member in whose place he is serving.

(d) Three members of the Board shall constitute a quorum thereof.

SEC. 2. The functions and duties of the Board shall be as follows:

(a) To provide leadership to, and to coordinate the traffic safety aspects of programs carried on by, the departments and agencies of the Federal Government.

(b) To evaluate the continuing needs in traffic safety research and to formulate plans, priorities, and programs for the conduct of or for assistance to the most urgently needed research through departments and agencies of the Federal Government.

(c) To consult and cooperate with State and local officials having a public responsibility for traffic safety and their national associations, with the motor vehicle industry, and with other related interests, in the development and improvement, and particularly in the application, of traffic safety standards in areas such as uniform traffic laws, enforcement practices, accident records, driver licensing, motor vehicle equipment and inspection, traffic engineering, and safety education.

(d) To conduct continuing studies of national traffic safety needs as they relate to legislative and administrative actions by the Federal Government, and to report thereon.

(e) To perform such other functions and duties as the President may direct to coordinate more effectively the policies, programs, and functions of the departments and agencies of the Federal Government relating to traffic safety, including accident reporting, and to insure an orderly relationship among Federal, State, and local traffic safety programs.

SEC. 3. Consonant with law, each agency represented on the Board shall, as may be necessary for the effectuation of the purpose of this order, furnish assistance to the Board in accordance with section 214 of the act of May 3, 1945, 59 Stat. 134 (31 U.S.C. 691). Such assistance may include detailing employees to the Board, one of whom may serve as Executive Officer, to perform such functions, consistent with the purpose of this order, as the Board may assign to them.

SEC. 4. The Board shall be advisory to its individual members and to other heads of executive agencies; and this order shall not be construed as subjecting any agency, officer, or function to its control. The President's Committee for Traffic Safety (provided for in Executive Order No. 10858 of January 13, 1960) shall serve as consultant and advisor to the Board.

SEC. 5. The Board shall, from time to time, submit reports to the President on the national progress in traffic safety. The first such report shall include determinations of the status of Federal legislative and administrative needs in the several areas of traffic safety and recommendations for executive or legislative action.

DWIGHT D. EISENHOWER

THE WHITE HOUSE,
December 2, 1960.

Rules and Regulations

Title 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

SUBCHAPTER A—COMMODITY STANDARDS AND STANDARD CONTAINER REGULATIONS

PART 33—EXPORT APPLES AND PEARS

Subpart—Interpretative Rules

APPLES AND PEARS FOR PROCESSING

In accordance with the provisions of section 3 of the Administrative Procedure Act (5 U.S.C. 1001–1011), an interpretative rule is hereinafter promulgated relevant to terms "apples for processing" and "pears for processing" in § 33.12 (c) and (d) of Part 33—Export Apples and Pears (the revised regulations in effect under the Export Apple and Pear Act (7 U.S.C. 581–589).

The purpose of the rule is to make it clear that the intent of the exception for apples and pears for processing set forth in § 33.12 is not to facilitate the export, ostensibly for processing, of these fruits which were packaged for distribution in export in fresh form which have failed to meet the minimum of quality established for these fruits for such distribution. It is believed that the rule will promote uniform application of the provision with respect to the certification for export of apples and pears for processing.

The interpretative rule is issued under a new subpart headed "Interpretative Rules," and reads as follows:

§ 33.50 Apples and pears for processing.

The terms "apples for processing" and "pears for processing" as used in § 33.12 of this part apply only and are restricted to packages of apples or pears which were originally packaged for processing and marked "Cannery" as required by § 33.12 (c) and (d) of this part. Packages of apples or pears not so originally packaged and marked are not eligible for certification as "apples for processing" or "pears for processing" for purposes of this part.

Dated: December 1, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 874, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U.S.C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

Order, as amended. The provisions in paragraph (b)(1) (i), (ii) and (iii) of § 953.981 (Lemon Regulation 874, 25 F.R. 11205) are hereby amended to read as follows:

(i) District 1: Unlimited movement;
(ii) District 2: Unlimited movement;
(iii) District 3: Unlimited movement.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: November 30, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 14—AERONAUTICS AND SPACE

Chapter II—Civil Aeronautics Board

SUBCHAPTER B—PROCEDURAL REGULATIONS

[Reg. No. PR–43]

PART 300—PRINCIPLES OF PRACTICE OF CIVIL AERONAUTICS BOARD

Hearings

DECEMBER 1, 1960.

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 1st day of December 1960:

On March 18, 1960, the Board issued a notice of proposed rule making, Docket 11221,[1] proposing various amendments to Part 300, the Board's principles of practice, and Part 302, the Board's rules of practice in economic proceedings. This rule making proceeding was instituted as a result of the Board's opinion in the New York-San Francisco Nonstop Service Case, Docket 9214, which was adopted on November 19, 1959. In that decision the Board stated that in view of the various problems of interpretation and application of the Board's Principles of Practice, which became apparent during that proceeding, the Board would undertake a prompt rule making re-examination looking toward modification and clarification of its regulations. In the notice of proposed rule making the Board proposed the following amendments to Parts 300 and 302:

1. Define "private communications."
2. Define "on the merits."
3. Establish guidelines as to what constitutes improper solicitation.
4. Establish at what stage the rules concerning improper attempts to influence become applicable.

In addition to these specific issues, the notice of proposed rule making also contained a general clause inviting suggestions as to other improvements of the Board's rules concerning ethical practices.

Comments and suggestions in response to the notice have been received from 49 C.A.B. practitioners (Practitioners) who responded as a group, and from several air carriers and individual practitioners. The Board has reviewed these comments and suggestions and due consideration has been given to all relevant matters presented.

The most comprehensive comments and recommendations were those submitted by the Practitioners which generally cover but go beyond the scope of the specific issues raised by the notice. The comments relating to the specific issues raised by the Board's notice are generally favorable to the Board's proposed revision of Part 300. The attached final regulation, therefore, defines a "private communication on the merits" as "a written or oral communication on any substantive or procedural issue in the case" (§ 300.2(a)). Thus, procedural issues, including the issue of whether a proceeding should be expedited, are issues on the merits for the purposes of the rule against private communications.

With respect to the issue of solicitation, the Board's notice recognized that existing rules do not expressly authorize or prohibit parties from soliciting persons to support their positions either by participation in the hearing or by communications to the Board which are not improper private communications. The notice took the position that where such solicitation does not constitute an effort to bring pressure or influence to bear on the Members of the Board or its staff, or the examiner in the case and it is contemplated that the support will be expressed within the framework of the Board's rules, the solicitation of support is proper. The Board, therefore, proposed a new § 300.2(e) which would make it improper for any party to a proceeding to engage in any activity which may reasonably be expected to result in producing communications to the Board or its staff, or the examiner in the case, which will not be served upon all the parties or orally presented at a hearing or oral argument. This provision, while not prohibiting parties from soliciting the support of third persons, would nevertheless require that the solicitation be undertaken in a manner which would assure that such persons would not present their position, facts, or any other relevant material outside the framework of the Board's rules. The Practitioners, while not objecting to the Board's substantive proposal, suggest that it would be better to establish definite guidelines as to what constitutes improper solicitation than to rely upon general language. This suggestion appears to have merit and has been incorporated in § 300.2(e) which makes it improper for any party to solicit communications to the Board or its staff, or the examiner in the case, other than proper communications by parties or non-parties permitted under Rules 14 and 15 of the Board's rules of practice. Moreover, a party soliciting support of any person must call such person's attention to the provisions of Rules 14 and 15.

In the New York-San Francisco opinion, the Board raised the question whether its prohibitions against ex parte communications apply to proceedings requesting institution of an evidentiary hearing on a route application. The Board's notice of rule making proposed that these protective principles be made applicable to all matters to be decided upon an evidentiary record. With respect to matters required by statute or general rule to be decided after notice and hearing, the rules would be made applicable from the time an application is filed. As to matters which the Board voluntarily sets down for an evidentiary hearing, the rules would be applicable from the time of such Board action. These provisions are set forth in § 300.2 of the final regulation and will permit the Board in the future to handle problems like those presented in the New York-San Francisco Case.

As indicated above, the comments submitted by the Practitioners were directed not only to the specific issues raised by the Board's notice of rule making, but to other matters as well. With respect to other matters involving Part 300, they recommend the following:

1. *Expand the applicability of § 300.2 to include certain non-hearing cases of an adversary nature.* At the present time, the Board's rules against ex parte communications apply to proceedings which are decided by the Board after notice and hearing and upon a formal record. Practitioners contend that certain non-hearing cases (i.e., exemptions under section 416(b) of the Act) can have a profound competitive effect upon air carriers and, therefore, should fall within the proscription against private communications.

It does not appear to the Board that the solution to this problem lies in expanding Part 300 to include rule making and other non-hearing proceedings. Such a regulation would seriously hamper the Board in carrying out its duties and responsibilities and would result in delays in the Board's work. In addition to its statutory responsibilities of a quasi-judicial nature, the Board has certain quasi-legislative functions as well as the responsibility for the promotion, encouragement, and development of civil aeronautics. In performing these functions the Board and its staff should not be restricted to the same extent as in formal quasi-judicial proceedings.

By making the prohibition against ex parte communications applicable to cases which are determined on the basis of a formal record after notice and hearing, the Board's present rule (which goes beyond the protective provisions of the Administrative Procedure Act) adequately preserves the principles of basic fairness for all concerned with the administrative process. We are cognizant of the fact that certain non-hearing cases may contain adversary issues and therefore require the protective provisions of the principles of practice. The Board should be free to make its principles of practice applicable to such cases and we have amended § 300.2 so that the prohibition against ex parte communications is applicable to (1) cases which are to be decided by the Board after notice and hearing and upon a formal record, and (2) non-hearing cases which the Board by specific order may designate. We believe this is a better solution to the problem than expanding the rule to include all non-hearing cases as suggested by Practitioners.

2. *Establish a procedure whereby improper oral communications are reduced to writing and served on all parties.* The Practitioners have suggested that the Board establish a procedure whereby improper oral communications are preserved and notice of such communications is served on all parties. The burden such a provision would place upon the Board Member or employee would be substantial. Considering the many telephone calls and oral communications made to the Board and its staff in matters other than the merits of formal hearing cases, it would be difficult to delineate between matters which properly fall within such a provision. Moreover, the Member or employee might find himself in the position where he could not readily reduce such oral presentation to writing. From the standpoint of fairness, the person making the oral presentation would not have an opportunity to see the written memorandum until after it had been circulated to the other parties to the proceeding. If it were then contended that the memorandum did not properly reflect the oral conversation, fair play would require that an opportunity should be given to correct the record since one's reputation might well be involved. This, of course, would serve to further delay the disposition of the Board's proceeding. The suggestion of the Practitioners that oral communications be reduced to writing and served upon all parties therefore has not been incorporated in the regulation.

3. *Prohibit certain staff members from communicating with the Board.* The Practitioners have suggested that the Board amend its rules to prohibit certain staff members, in addition to those who served as witness or counsel in a case, from communicating with the Board. In support of this proposal, the Practitioners contend that staff members who have participated in the formulation of the staff's position play just as important a role in the proceeding as staff witnesses and counsel, and therefore should be prohibited from communicating with Members of the Board.

The Board's present regulations prohibit Board witnesses and counsel in all cases from communicating with the Board. In accusatory cases the Board's internal rules not only bar any staff witness and counsel who participated in the case, but also the staff of the entire office or bureau. Both provisions go beyond the separation-of-functions requirement of section 5(c) of the Administrative Procedure Act. The proposals made by Practitioners would prevent the Board from utilizing the expertise of its staff and would result in serious delays in the handling of Board work. We therefore reject this suggestion of Practitioners.

4. *Amendment of rules to deprive a party of the relief he seeks in a proceeding if he violates the Board's rules.* The Board's existing regulation provides that a person who violates its rules may be temporarily or permanently denied the privilege of appearing or practicing before the Board. Practitioners propose that the Board amend its rules to further provide that the Board may deprive a party which violates these rules of the relief he seeks in the proceeding. The Board believes that this suggestion has considerable merit since such a provision will materially assist the Board in enforcing its principles of practice. We

[1] 25 F.R. 2436.

have therefore amended § 300.6 to accomplish this objective.

5. *Congressional appearances in oral argument.* Practitioners suggest that Rule 14 of Part 302 of the Board's procedural regulations be revised so that non-parties could participate in a proceeding "only by presenting at the hearing evidence and memoranda relevant to issues in the case." This proposed change is discussed in the explanatory statement to a notice of proposed rule making issued simultaneously herewith.

This amendment to Part 300 constitutes a procedural regulation and therefore may be made effective on less than 30 days' notice.

In consideration of the foregoing, the Board, effective December 6, 1960, amends Part 300 of its procedural regulations (14 CFR Part 300).

1. By amending § 300.2 to read as follows:

§ 300.2 Hearing cases; improper influence.

It is essential in cases to be determined after notice and hearing and upon a record, or any other cases which the Board by order may designate, that the Board's judicial character be recognized and protected. Therefore, from the time of filing of an application or petition which is to be passed upon by the Board after notice and hearing, or, in case of other matters, from the time of notice by the Board that such matter shall be determined after notice and hearing and upon a record or that its Principles of Practice shall be applicable thereto:

(a) A written or oral communication on any substantive or procedural issue in the case to a Member of the Board or its staff, or to the examiner in the case other than in compliance with the Board's Rules of Practice by any person, either in private or public life, shall be deemed a private communication on the merits. Such communications, unless otherwise provided for by law or published rule are hereby prohibited: *Provided*, That this prohibition shall not be deemed to apply to informal complaints filed with the Board or to communications with staff members of the Board who are in the course of preparing a case, or for the purpose of determining whether a complaint shall be docketed, or to the usual informal communications between counsel, including discussions to effectuate a stipulation, or to settlement discussion between parties and the Board's enforcement staff, or investigative activities, or to other communications which are deemed proper in proceedings in the Federal courts. Communications which merely make inquiry as to the status of a proceeding without discussing issues are not considered communications on the merits. Any prohibited communication in writing received by the Board or its staff or the examiner in the case, shall be made public by placing it in the correspondence file of the case which is available for inspection and copying during business hours in the Board's Docket Section, but will not be considered by the Board or the examiner as part of the record for decision.

(b) Requests for expeditious treatment of a pending application will be considered communications on the merits. If made by a party or applicant for intervention, such a request shall be made by motion (§ 302.18). If made by any other interested person, such a request shall be made in accordance with the requirements in § 302.14. A request which is not made in accordance with the Board's rules shall be placed in the public correspondence file and will not be considered by the Board.

(c) It is improper that there be any private communication on the merits of any substantive or procedural issue in the case to a Member of the Board or to the examiner in the case by any members of the Board's staff who participate in the hearing as witnesses or as counsel.

(d) It is improper that there be any effort by any person interested in the case to sway the judgment of the Board by attempting to bring pressure or influence to bear upon the Members of the Board or its staff, or that such person or any member of the Board's staff, directly or indirectly, give statements to the press or radio, by paid advertisements or otherwise, designed to influence the Board's judgment in the case.

(e) It is improper that any party solicit communications to the Board or any of its members or its staff or to the examiner in the case other than proper communications by parties or non-parties permitted under Rules 14 and 15 of the Board's rules of practice. A party soliciting support of any person shall call such person's attention to the provisions of Rules 14 and 15.

§ 300.6 [Amendment]

2. By amending § 300.6 by inserting the designation (a) after the title "*Violations*" and by adding a new paragraph (b) to read as follows:

(b) Where appropriate in the public interest the Board may deny the relief requested by a party in a proceeding subject to this part in which such party has violated any provisions of this part.

(Sec. 204(a), 72 Stat. 743; 49 U.S.C. 1324. Interpret or apply sec. 1001, 72 Stat. 788; 49 U.S.C. 1481)

By the Civil Aeronautics Board.

[SEAL] ROBERT C. LESTER, *Secretary.*

[F.R. Doc. 60-11268; Filed, Dec. 5, 1960; 8:45 a.m.]

[Reg. No. PR-44]

PART 302—RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

Motions of Interested Persons for Expedition

DECEMBER 1, 1960.

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 1st day of December 1960:

On March 18, 1960, the Board issued a notice of proposed rule-making, Docket 11221, 25 F.R. 2436, proposing several amendments in Part 300, the Board's principles of practice, and Part 302, the Board's rules of practice in economic proceedings. In respect of Part 302 the notice proposed an amendment to § 302.14 which would provide for a procedure whereby interested persons other than parties may request that a proceeding be expedited.

Final action on the proposals in said notice relating to Part 300 is being taken simultaneously, by adoption of Amendment 1 to Part 300 and the Preamble thereto is hereby incorporated herein by reference. Among the amendments to Part 300 which are being adopted is one which outlaws communications to the Board on procedural issues in a hearing case made otherwise than in compliance with the Board's rules of practice, § 300.2(a). Under this provision persons who, because they are not parties, have no standing to make motions for expedition of the proceeding under Rule 18, could not urge expedition at all. Hence, upon consideration of all pertinent matter presented, it appears to the Board that Rule 14 should be amended to permit interested persons to make motions for expedition.

Since this amendment to Part 302 constitutes a procedural rule it may be made effective on less than 30 days' notice.

Accordingly, the Board hereby amends Part 302 of its Procedural Regulations, 14 CFR Part 302, effective December 6, 1960, and applicable to pending proceedings, by amending § 302.14 to read:

§ 302.14 Participation in hearing cases by persons not parties.

(a) *Requests for expedition.* In any case to which the Board's principles of practice, Part 300, are applicable, any interested person, including any State, subdivision thereof, State aviation commission, or other public body, may by motion request expedition of such case or file an answer in support of or in opposition to such motions. Such motions and answers shall be served upon all parties to the case as provided in § 302.8 hereof.

(b) *Participation in hearings.* Any person, including any State, subdivision thereof, State aviation commission, or other public body, may appear at any hearing, other than in an enforcement proceeding, and present any evidence which is relevant to the issues. With the consent of the Examiner or the Board, if the hearing is held by the Board, such person may also cross-examine witnesses directly. Such persons may also present to both the Examiner and the Board a written statement on the issues involved in the proceeding. Such statement shall conform to the requirements of these rules as to form, content, service, and time of filing of briefs to the Examiner and the Board.

(c) *Participation in oral argument.* A representative of any department, agency or branch of the Federal Government or of any State Government (including a State aviation commission) may appear and present oral argument in any proceeding in which argument has been assigned.

(Sec. 204(a), 77 Stat. 743; 49 U.S.C. 1324. Interpret or apply sec. 1001, 72 Stat. 788, 49 U.S.C. 1481)

By the Civil Aeronautics Board.

[SEAL] ROBERT C. LESTER, *Secretary.*

[F.R. Doc. 60-11269; Filed, Dec. 5, 1960; 8:46 a.m.]

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 550; Amdt. 230]

PART 507—AIRWORTHINESS DIRECTIVES

Curtiss-Wright C-46 Series Aircraft

Pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), an airworthiness directive was adopted on October 25, 1960, and made effective immediately because of the safety emergency involved, as to all known operators of Curtiss-Wright C-46 Series aircraft by individual telegrams dated October 25, 1960. This directive required replacement of outer wing panel attachment bolts prior to the next flight if not already accomplished within the last 10,000 hours' time in service. Thereafter, replacement was required at intervals of 10,000 hours' time in service. On October 26, 1960, as a result of further evidence regarding the structure involved, an amendment was adopted and made effective immediately as to all known operators of Curtis-Wright C-46 Series aircraft by individual telegrams dated October 26, 1960, amending the directive of October 25, 1960, to define more specifically the inspection intervals and replacement required.

For the reasons stated above it was found that immediate corrective action was required in the interest of safety, that notice and public procedure thereon were impracticable and contrary to the public interest and that good cause existed for making the airworthiness directive and amendment effective immediately by individual directives to all known operators of Curtis-Wright C-46 Series aircraft. Since these conditions still exist, the airworthiness directive (with subsequently corrected part numbers) adopted on October 25, 1960, as amended by the amendment adopted October 26, 1960, is hereby published as an amendment to § 507.10(a) of Part 507 (14 CFR Part 507), and shall become effective upon the date of publication in the FEDERAL REGISTER as to all other persons:

CURTISS-WRIGHT. Applies to all C-46 A, D, E, F, and R; C-46/CW 20T; Super C-46/CW 20T; Super 46; and Super 46C aircraft. Compliance required as indicated.

Due to fatigue failures found in the outer wing panel attachment bolts, the following must be accomplished:

(a) On aircraft having outer wing panel attachment bolts with 10,000 or more hours' time in service that have accumulated more than 5,000 hours' flight time since the last inspection of such bolts, the outer wing panel attachment bolts must be inspected for cracks, elongation and corrosion prior to the next flight except aircraft may be ferried without a special flight permit one time only, with occupancy limited to the required flight crew, to a base where personnel and facilities for required work are available.

(b) On aircraft having outer wing panel attachment bolts with 10,000 or more hours' time in service that have accumulated less than 5,000 hours' flight time since the last inspection of such bolts, the outer wing panel attachment bolts must be reinspected for cracks, elongation and corrosion within the next 25 hours of flight time.

(c) Outer wing panel attachment bolts found, during the inspections under (a) or (b), to be cracked, elongated or corroded must be replaced with new bolts prior to further flight.

(d) Outer wing panel attachment bolts which are not found, during the inspections under (a) or (b), to have cracks, elongation or corrosion, may be reused for a total time not to exceed 500 hours' flight time after such inspection at which time all such bolts must be replaced with new bolts.

(e) After compliance with the requirements of paragraph (c) and/or (d) all outer wing panel attachment bolts must be replaced at intervals of 10,000 hours' time in service.

(f) New bolts, P/N's SS 157-7-21 or MS 20007-21 or NAS 147-35 (31 per wing) and P/N's SS 157-6-20 or MS 20006-20 or NAS 146-33 (88 per wing) or FAA approved equivalents are acceptable replacements.

This amendment shall become effective on the date of publication in the FEDERAL REGISTER for all operators not receiving notice by telegrams dated October 25, 1960, and as amended October 26, 1960.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on November 29, 1960.

GEORGE C. PRILL, *Acting Director, Bureau of Flight Standards.*

[F.R. Doc. 60-11276; Filed, Dec. 5, 1960; 8:48 a.m.]

[Reg. Docket No. 507; Amdt. 38]

PART 514—TECHNICAL STANDARD ORDERS FOR AIRCRAFT MATERIALS, PARTS, PROCESSES, AND APPLIANCES

TSO-C11c Fire Detectors

A proposed amendment to § 514.21 establishing minimum performance standards for fire detectors used on civil aircraft of the United States was published in 25 F.R. 8909.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), Part 514 of the regulations of the Administrator (14 CFR Part 514) is hereby amended as follows:

Section 514.21 is revised as follows:

§ 514.21 Fire detectors (thermal sensing and ionization sensing types)—TSO-C11c.

(a) *Applicability*—(1) *Minimum performance standards.* Minimum performance standards are hereby established for fire detectors of the subject types which are required to be approved for use on piston and/or turbine engine-powered civil aircraft of the United States. New models of these types of fire detectors manufactured for use on civil aircraft of the United States on or after January 16, 1961, shall meet the standards specified in Federal Aviation Agency Standard "Fire Detectors (Thermal Sensing and Ionization Sensing Types)." Fire detectors approved prior to January 16, 1961, may continue to be manufactured under the provisions of their original approval.

(b) *Marking.* In lieu of information required in § 514.3(c), the alarm temperature shall be shown. Compliance of the detector with the piston or turbine engine requirements, or both, shall be designated by -P, -T, or -PT, respectively, as a suffix following the TSO designation, as: TSO-C11c-P.

(c) *Data requirements.* (1) The manufacturer shall maintain a current file of complete design data.

(2) The manufacturer shall maintain a current file of complete data describing the inspection and test procedures applicable to his equipment. (See paragraph (d) of this section.)

(3) Six copies each, except where noted, of the following shall be furnished to the Chief, Engineering and Manufacturing Division, Bureau of Flight Standards, Federal Aviation Agency, Washington 25, D.C., with the statement of conformance certifying that the instrument conforms to this section.

(i) Manufacturer's operating instructions and equipment limitations.

(ii) Installation procedures with applicable schematic drawings, wiring diagrams, and specifications. Indicate any limitations, restrictions, or other conditions pertinent to the installation. These data shall include the following:

(*a*) Starting ambient temperature used in determining the response time (see § 7.1.1);

(*b*) Maximum allowable normal ambient temperature at the point of sensor location;

(*c*) Maximum allowable rate of temperature rise at point of sensor location as a result of normal operation;

(*d*) Operating voltage;

(*e*) Mounting or support method; and

(*f*) Maximum or minimum number of units or detector length which can be used in one circuit or one fire zone without adversely affecting sensitivity or causing false indications due to temperature associated with normal operation.

(iii) One copy of the manufacturer's test report.

(d) *Quality control.* Fire detectors shall be produced under a quality control system, established by the manufacturer, which will assure that each detector is in conformity with the requirements of this section and is in a condition for safe operation. This system shall be described in the data required under paragraph (c)(2) of this section. A representative of the Administrator shall be permitted to make such inspections and tests at the manufacturer's facility as may be necessary to determine compliance with the requirements of this section.

Effective date. January 16, 1961.

(Secs. 313(a), 601; 72 Stat. 752, 775; 49 U.S.C. 1354(a), 1421)

Issued in Washington, D.C., on November 29, 1960.

GEORGE C. PRILL,
Acting Director, Bureau of Flight Standards.

Chapter XV—Defense Air Transportation Administration, Department of Commerce

[General Order—War Risk Insurance (Revised)]

PART 1501—WAR RISK INSURANCE

The General Order on Aviation War Risk Insurance, dated November 1, 1956, is hereby revised to read as follows:

Title XIII of the Federal Aviation Act of 1958 (72 Stat. 731, 49 U.S.C. 1531), which re-enacted the provisions of Public Law 47, 82d Congress (65 Stat. 65), as amended, authorizes the Secretary of Commerce, with the approval of the President, to provide insurance against loss or damage or legal liability arising out of war risks whenever it appears to the Secretary that such insurance adequate for the needs of the air commerce of the United States cannot be obtained on reasonable terms and conditions from companies authorized to do an insurance business in a State of the United States.

The Secretary of Commerce, by Department Order No. 137, effective November 12, 1951, authorized the Defense Air Transportation Administrator to perform the functions vested in the Secretary of Commerce under Public Law 47, 82d Congress, "except that the authority to determine that war risk insurance cannot be obtained on reasonable terms and conditions from private insurance companies is reserved to the Secretary of Commerce".

The Secretary of Commerce made a finding on September 11, 1952, that war risk insurance adequate for the needs of the air commerce of the United States cannot be obtained on reasonable terms and conditions from companies authorized to do an insurance business in a State of the United States, and the President, on September 17, 1952, gave the required approval for providing such insurance.

On August 26, 1958, the Secretary of Commerce delegated authority to the Defense Air Transportation Administrator to determine that war risk insurance cannot be obtained on reasonable terms and conditions from private insurance companies.

The President has approved the providing of war risk insurance, without premium, to the Department of Defense for participants in the Civil Reserve Air Fleet (CRAF) Program, and to the Department of State for American air carriers entering into certain agreements with such Department, in consideration of agreements of the Secretary of Defense and the Secretary of State to indemnify the Secretary of Commerce against all losses covered by such insurance.

The Defense Air Transportation Administrator is prepared to provide war risk hull insurance, war risk liability insurance, exclusive of cargo liability, and war risk carriers liability to cargo insurance, except that no insurance will be issued to cover any war risks or persons or property engaged or transported exclusively in air commerce within the several States of the United States and the District of Columbia. Geographical limits for the coverages may be prescribed by the Defense Air Transportation Administrator. The following rules and regulations for the providing of such insurance are promulgated:

Subpart A—General

Sec.
1501.1 Eligibility of aircraft for insurance.
1501.2 Change in status of an aircraft after interim binders have been issued.
1501.3 Applications for insurance and payment of binding fees.
1501.4 Time of attachment of insurance.
1501.5 Premiums and payment thereof.
1501.6 War risk insurance underwriting agents.
1501.7 Modifications.

Subpart B—War Risk Hull Insurance

1501.100 Amounts of insurance for which application may be made.
1501.101 Form of application.
1501.102 Issuance of interim binder: its terms and conditions.
1501.103 Sums which will be insured under interim binder.
1501.104 Calculation of premiums.
1501.105 Additional war risk hull insurance.
1501.106 Standard forms of war risk hull insurance interim binders.
1501.107 Standard forms of war risk hull insurance policies.

Subpart C—War Risk Liability Insurance, Exclusive of Cargo Liability

1501.200 Limits of liability insurance for which application may be made.
1501.201 Form of applications.
1501.202 Issuance of interim binder: Its terms and conditions.
1501.203 Sums which will be insured under interim binder.
1501.204 Calculation of premiums.
1501.205 Standard forms of war risk liability insurance, exclusive of cargo liability, interim binders.
1501.206 Standard forms of war risk liability insurance, exclusive of cargo liability, policies.

Subpart D—War Risk Carriers Liability to Cargo Insurance

1501.300 Limits of liability insurance for which application may be made.
1501.301 Form of application.
1501.302 Issuance of interim binder: its terms and conditions.
1501.303 Sums which will be insured under interim binder.
1501.304 Calculation of premiums.
1501.305 Standard forms of war risk carriers liability to cargo insurance interim binders.
1501.306 Standard forms of war risk carriers liability to cargo insurance policies.

AUTHORITY: §§ 1501.1 to 1501.306 issued under sec. 1307, 72 Stat. 803; 49 U.S.C. 1537.

Subpart A—General

§ 1501.1 Eligibility of aircraft for insurance.

An aircraft is eligible for insurance if it is:

(a) An American aircraft as defined in section 1301(a), Title XIII of the Federal Aviation Act of 1958; or

(b) A foreign-flag aircraft engaged in aircraft operations deemed by the Defense Air Transportation Administrator to be in the interest of the national defense or the national economy of the United States.

§ 1501.2 Change in status of an aircraft after interim binders have been issued.

In the event that an aircraft shall cease to come within either paragraph (a) or (b) of § 1501.1 after any interim binders set forth in §§ 1501.106, 1501.205 and 1501.305 have been issued, interim binders covering such an aircraft shall automatically terminate. In the event of sale, lease, confiscation, requisition, or total loss of an aircraft, or any other change in the status, which by the terms of the binder causes same to terminate, prompt notice shall be given in writing to the Defense Air Transportation Administrator.

§ 1501.3 Applications for insurance and payment of binding fees.

Applications for war risk hull and war risk liability, exclusive of cargo, insurance shall be filed on the same form, in duplicate, and applications for war risk carriers liability to cargo insurance shall be filed on a separate form, also in duplicate. Applications for insurance on those foreign-flag aircraft referred to in § 1501.1 shall be accompanied by a signed statement in quadruplicate, setting forth the dates of the applications, the forms of insurance applied for, the registry number of the aircraft, its flag, the name of the owner or lessee, the operations in which the aircraft is engaged and the reason such operations should be considered to be in the interest of the national defense or national economy of the United States, which statement shall be deemed to be a part of each application for insurance filed with respect to such aircraft. Applications shall be made to the Administrator, Defense Air Transportation Administration, Department of Commerce, Washington 25, D.C. A check payable to the Treasurer of the United States for the total amount of all binding fees payable by each applicant shall accompany the applications. Binding fees are not returnable unless applications are rejected.

§ 1501.4 Time of attachment of insurance.

The war risk insurance to be provided under this part shall attach at such date and hour as the applicant shall designate, but:

(a) In the case of premium insurance, not earlier than the date and hour commercial war risk insurance terminates by reason of the operation of the "twenty-four hour automatic termination clause", whether or not the aircraft was covered by such commercial insurance; and

(b) In the case of non-premium insurance, not earlier than the date and hour:

(1) The Civil Reserve Air Fleet (CRAF) Program is activated by order of the Secretary of Defense; or

(2) United States air carriers having agreements with the Department of State commence performance of services under such agreements.

§ 1501.5 Premiums and payment thereof.

The rates of premium for insurance shall be subject to review and revision by the Defense Air Transportation Administrator each calendar month, and the Administrator may deem it appropriate to fix premium surcharges or rate loadings. Premiums shall accrue upon the fixing of the rates by the Defense Air Transportation Administrator, and shall be payable within ten days after receipt of notice of the amounts thereof by the assured. Premiums shall be paid to the Defense Air Transportation Administrator by check payable to the order of the Treasurer of the United States.

§ 1501.6 War risk insurance underwriting agents.

Applications from companies or groups of companies authorized to do an aviation insurance business in any State of the United States for appointment as underwriting agents will not be received until the Defense Air Transportation Administrator finds that it is practical to employ such companies as underwriting agents. The Defense Air Transportation Administrator will promulgate, and publish in the FEDERAL REGISTER, the forms and agreements required for the appointment of underwriting agents.

§ 1501.7 Modifications.

The provisions of this part may be amended or modified at any time by the Defense Air Transportation Administrator.

Subpart B—War Risk Hull Insurance

§ 1501.100 Amounts of insurance for which application may be made.

An applicant for war risk hull insurance shall state the amount of insurance desired, but any payment for damage to or total loss of the aircraft will be made as provided in § 1501.103.

§ 1501.101 Form of application.

Applications submitted shall be in strict accordance with one of the following forms:

(a) DATA Form No. WRI-1 (Rev. 11-60).

UNITED STATES OF AMERICA

DEPARTMENT OF COMMERCE

DEFENSE AIR TRANSPORTATION ADMINISTRATION

Application for Premium War Risk Hull and Liability, Exclusive of Cargo, Insurance

Application is made for premium War Risk Hull and Liability, exclusive of Cargo, Insurance, pursuant to Title XIII of the Federal Aviation Act of 1958, and in accordance with all provisions of law and subject to all limitations thereof, on the aircraft described in the attached Schedule of Aircraft, with the understanding that this application does not commit the Defense Air Transportation Administrator to any liability or make the applicant liable for any premium unless insurance is effected by the Administrator:

Name of applicant _____
Address _____
Applicant's interest in aircraft described is that of _____
_____
Mortgage, or other encumbrance, if any _____
_____
Hull loss, if any, payable to _____
_____

Hull

Amounts set forth in the attached Schedule of Aircraft as representing the amount of war risk insurance desired with respect to each of such aircraft shall be deemed to be the "sum insured" in each instance, but in the event of damage to or total loss of any such aircraft, the insured value shall not be in excess of the stated valuation for such type of aircraft as determined by the Defense Air Transportation Administrator in accordance with the provisions of section 1307(a), Title XIII of the Federal Aviation Act of 1958 (49 U.S.C. 1537(a)), and set forth in § 1501.103 of Defense Air Transportation Administration General Order—War Risk Insurance (Revised) (Part 1501, Title 14, Code of Federal Regulations), and amendments thereto: *Provided*, That in the event the "sum insured" be less than the "stated valuation" determined under said section, this insurance shall not be in excess of the lesser amount.

Liability

The type of coverage required for the aircraft described in the attached Schedule of Aircraft shall be indicated, and the limits of liability desired for each of such coverages shall be specified, but such limits shall not be in excess of the maximum limits set forth below with respect to such coverages:

Type of coverage	Each person		Each occurrence	
	Requested	Maximum	Requested	Maximum
( ) Bodily injury or death (excluding passengers)		$300,000		$3,000,000
( ) Property damage				3,000,000
( ) Bodily injury or death, passengers		300,000		3,000,000
( ) Passengers baggage and personal effects				100,000

General

Insurance to attach, in the event of outbreak of war between any of the four Great Powers (France, Great Britain and/or any of the British Commonwealth of Nations, the Union of Soviet Socialist Republics and the United States of America), at and from 24 hours from midnight G.M.T. of the day on which such outbreak of war occurs. Nevertheless, should the aircraft:

(1) Be in the air when such outbreak of war occurs, or

(2) Being at an airport depart therefrom as a measure of safety in respect of an insured peril within 24 hours of such outbreak of war,

this insurance shall not attach until midnight G.M.T. of the day on which the aircraft lands wherever such landing may be regardless of whether or not accidental damage has been sustained by the aircraft.

If this application is for insurance with respect to a foreign-flag aircraft, it shall be accompanied by the statement specified in § 1501.3 of Defense Air Transportation Administration General Order—War Risk Insurance (Revised) (Part 1501, Title 14, Code of Federal Regulations) which statement shall be deemed to be part of this application.

Binding fee (not returnable unless application is rejected) is $100 per aircraft.

Check payable to the Treasurer of the United States for the total amount of all binding fees enclosed herewith.

Rate of premium shall be fixed by the Defense Air Transportation Administrator, acting for the Secretary of Commerce.

During the period in which war risk insurance attaches, aircraft may not engage exclusively in air commerce within the several States of the United States and the District of Columbia.

Applicant warrants that the particulars herein are true and complete to the best of his knowledge and that no information has been withheld or suppressed.

Applicant agrees that this application and the terms and conditions of the form of policy prescribed by the Defense Air Transportation Administrator, acting for the Secretary of Commerce, will constitute the basis of any contract between him and the United States of America.

§ 1501.102 Issuance of interim binder: its terms and conditions.

Upon acceptance of an application, an interim binder in the form of one of those set forth in § 1501.106 will be issued and there shall be deemed to be incorporated therein by reference, all of the terms, conditions and warranties contained in the standard war risk hull insurance policy to be prescribed by the Defense Air Transportation Administrator pursuant to the provisions of § 1501.107, to the same extent as if such policy were made a part of the binder. The binding fee shall be $100 per aircraft.

§ 1501.103 Sums which will be insured under interim binder.

The Defense Air Transportation Administrator has found, pursuant to section 1307(a) of the Federal Aviation Act of 1959 (49 U.S.C. 1537(a)), that the following values represent the fair and reasonable value of the aircraft to which they apply, and represent the maximum amounts for which the Defense Air Transportation Administrator will provide war risk hull insurance for damage to or total loss of the aircraft and the amounts for which claims for damage to or total loss of such insured aircraft may be compromised, settled, adjusted, or paid, by the Defense Air Transportation Administrator with respect to insurance attaching under the standard forms of war risk hull insurance interim binders prescribed by § 1501.106 or the standard forms of war risk hull insurance policies to be prescribed by the Defense Air Transportation Administrator pursuant to the provisions of § 1501.107:

Aircraft type:	Value
DC-4	$573,911
DC-6	1,199,852
DC-6A	1,561,173
DC-6B	1,561,173
DC-7	1,863,000
DC-7 (Freighter)	1,863,000
DC-7B	2,000,000
DC-7B (Freighter)	2,000,000
DC-7C	2,136,000
DC-7C (Freighter)	2,136,000
DC-8	5,500,000
L-049	1,257,707
L-749	1,257,707
L-749A	1,495,952
L-1049A	1,532,606
L-1049C	1,665,563
L-1049D	1,665,563
L-1049H	2,111,000
L-1649A	2,200,000
L-1649A (Freighter)	2,200,000
B-377	1,794,388
B-707—100	4,700,000
B-707—200	5,200,000
B-707—300	5,500,000

Revised values will be prescribed in subsequent revisions of this part. The latest published values will remain in effect until new ones are published.

§ 1501.104 Calculation of premiums.

Premiums will be calculated on the basis of the applicable premium rate multiplied by the dollar amount of insurance in force during the period under consideration.

§ 1501.105 Additional war risk hull insurance.

Persons having insurable interests in aircraft may obtain, on an excess basis, additional war risk hull insurance in such amounts as desired, and such insurance shall not inure to the benefit of the Defense Air Transportation Administrator as underwriter.

§ 1501.106 Standard forms of war risk hull insurance interim binders.

The following are the standard forms of war risk hull insurance interim binders for premium and non-premium war risk hull insurance:

(a) DATA Form No. WRI-2 (Rev. 11-60).

UNITED STATES OF AMERICA

DEPARTMENT OF COMMERCE

DEFENSE AIR TRANSPORTATION ADMINISTRATION

Interim Binder No. PR-H&LWR

The United States of America, represented by the Defense Air Transportation Administrator, acting for the Secretary of Commerce, in consideration of the binding fee and premium provided for herein, hereby insures, in accordance with applicable provisions of law and subject to all limitations thereof, particularly Title XIII of the Federal Aviation Act of 1958, against Hull and Liability, exclusive of Cargo, War Risks only, subject to the conditions stated herein, on the aircraft described in the attached Schedule of Aircraft:

Name of Insured ----------
Address ----------
Hull loss, if any, payable to ----------

Hull

Amounts set forth in the Schedule of Aircraft attached to the insured's application for premium war risk hull and liability, exclusive of cargo, insurance, a copy of which is attached hereto and made a part hereof, as representing the amount of war risk hull insurance desired for each of such aircraft shall be deemed to be the "sum insured" in each instance, but in the event of damage to or total loss of any such aircraft, the insured value shall not be in excess of the stated valuation for such type of aircraft as determined by the Defense Air Transportation Administrator in accordance with the provisions of section 1307(a), Title XIII of the Federal Aviation Act of 1958 (49 U.S.C. 1537(a)), and set forth in § 1501.103 of Defense Air Transportation Administration General Order—War Risk Insurance (Revised) Part 1501, Title 14, Code of Federal Regulations), and amendments thereto: *Provided*, That in the event the "sum insured" be less than the "stated valuation" determined under said section, this insurance shall not be in excess of the lesser amount.

Liability

Insurance of the type indicated and in the limits shown below, such limits being not in excess of the maximum limits set forth in the insured's application for premium war risk hull and liability, exclusive of cargo, insurance, is provided for the aircraft shown in the attached Schedule of Aircraft:

Type of coverage	Each person	Each occurrence
( ) Bodily injury or death (excluding passengers)		
( ) Property damage		
( ) Bodily injury or death, passengers		
( ) Passengers baggage and personal effects		

General

Attaching in the event of outbreak of war between any of the four Great Powers (France, Great Britain and/or any of the British Commonwealth of Nations, the Union of Soviet Socialist Republics and the United States of America), at and from 24 hours from midnight G.m.t. of the day on which such outbreak of war occurs. Nevertheless, should the aircraft:

(1) Be in the air when such outbreak of war occurs, or

(2) Being at an airport depart therefrom as a measure of safety in respect to an insured peril within 24 hours of such outbreak of war,

this insurance shall not attach until midnight G.m.t. of the day on which the aircraft lands wherever such landing may be regardless of whether or not accidental damage has been sustained by the aircraft.

This binder shall terminate:

(a) Upon expiration of the authority of the Secretary of Commerce to provide War Risk Insurance under Title XIII of the Federal Aviation Act of 1958, or

(b) Within three years from its date, or

(c) Within five days after telegraphic notice of cancellation has been dispatched to the Insured by the Defense Air Transportation Administrator, or

(d) Upon the issuance of a policy by the Defense Air Transportation Administrator with respect to any insurance bound herein which is covered by that policy,

whichever shall occur first.

The insurance provided hereunder does not cover any war risks on persons or property engaged or transported exclusively in air commerce within the several States of the United States and the District of Columbia.

There shall be deemed to be incorporated herein all of the terms, conditions, and warranties contained in the applicable war risk hull and war risk liability, exclusive of cargo, insurance policies prescribed by the Defense Air Transportation Administrator pursuant to the provisions of §§ 1501.107 and 1501.206, respectively, of Defense Air Transportation Administration General Order—War Risk Insurance (Revised) (Part 1501, Title 14, Code of Federal Regulations).

The premium rate for this insurance shall be subject to review and revision by the Defense Air Transportation Administrator each calendar month. Unless the revised premium rate is accepted in writing by the insured within ten days after dispatch of notice of the amount thereof, the insurance provided hereunder shall automatically terminate at the end of such ten day period. Premium at the new revised rate shall be charged for the ten day period during which this insurance remained in force, unless the Defense Air Transportation Administrator receives notice within such period of the refusal of the insured to accept such new revised premium rate, in which event premium at the new revised rate shall be charged for that portion of the ten day period prior to receipt of such notice. Upon receipt of such notice of non-acceptance, the insurance provided hereunder shall terminate, notwithstanding any other provision for cancellation in this binder. In the event this insurance is cancelled, or otherwise terminated, and not replaced by a policy, there shall be a premium charge hereunder for the period during which this insurance has been in force. Premium payments shall be made to the Defense Air Transportation Administrator by check payable to the order of the Treasurer of the United States of America.

In the event of any loss covered by this binder, prompt notice thereof shall be given by the insured to the Defense Air Transportation Administrator, but failure to give such prompt notice because of wartime conditions or regulations shall not prejudice this insurance. The insurer shall be subrogated to all rights which the insured may have against any other person or entity in respect of any payment made under this binder to the extent of such payment, and the insured shall, upon the request of the insurer, execute all documents necessary to secure such rights to the insurer.

Warranted that during the period of this binder and the term of any insurance attaching hereunder the aircraft is (1) an American aircraft as defined in section 1301(a), Title XIII of the Federal Aviation Act of 1958, or

(2) a foreign-flag aircraft engaged in aircraft operations deemed by the Defense Air Transportation Administrator to be in the interest of the national defense of the national economy of the United States, and if, at any time during the binder period or after insurance attached hereunder, the aircraft shall cease to come within either (1) or (2) above, this binder and insurance provided hereunder shall automatically terminate at the time of such change with respect to such aircraft, without return of premium unless the Defense Air Transportation Administrator agrees otherwise.

UNITED STATES OF AMERICA,
BY DEFENSE AIR TRANSPORTATION ADMINISTRATOR, ACTING FOR THE SECRETARY OF COMMERCE.

DEFENSE AIR TRANSPORTATION ADMINISTRATION

Interim Binder No. NON–PR–H&LWR

The United States of America, represented by the Defense Air Transportation Administrator, acting for the Secretary of Commerce, in consideration of the agreement of the Secretary of Defense to indemnify the Secretary of Commerce against all losses covered by war risk insurance provided, without premium, for civil air carriers participating in the Civil Reserve Air Fleet (CRAF) Program, and in consideration of the binding fee provided for herein, hereby insures, in accordance with applicable provisions of law and subject to all limitations thereof, particularly Title XIII of the Federal Aviation Act of 1958, against Hull and Liability, exclusive of Cargo, War Risks only, subject to the conditions stated herein, on the aircraft described in the attached Schedule of Aircraft, to be operated under Civil Reserve Air Fleet Standby Contract No. ----, dated ----:

Name of Insured ---
Address ---
Hull loss, if any, payable to ---

Hull

Amounts set forth in the Schedule of Aircraft attached to the insured's application for war risk hull and liability, exclusive of cargo, insurance, without premium, a copy of which is attached hereto and made a part hereof, as representing the amount of war risk hull insurance desired for each of such aircraft shall be deemed to be the "sum insured" in each instance, but in the event of damage to or total loss of any such aircraft, the insured value shall not be in excess of the stated valuation for such type of aircraft as determined by the Defense Air Transportation Administrator in accordance with the provisions of section 1307(a), Title XIII of the Federal Aviation Act of 1958 (49 U.S.C. 1537(a)), and set forth in § 1501.103 of Defense Air Transportation Administration General Order—War Risk Insurance (Revised) (Part 1501, Title 14, Code of Federal Regulations), and amendments thereto: *Provided*, That in the event the "sum insured" be less than the "stated valuation" determined under said section, this insurance shall not be in excess of the lesser amount.

Liability

Insurance of the type indicated and in the limits shown below, such limits being not in excess of the maximum limits set forth in the insured's application for war risk hull and liability, exclusive of cargo, insurance, without premium, is provided for the aircraft shown in the attached Schedule of Aircraft:

Type of coverage	Each person	Each occurrence
( ) Bodily injury or death (excluding passengers)		
( ) Property damage		
( ) Bodily injury or death, passengers		
( ) Passengers baggage and personal effects		

General

Attaching when a Performance Notice becomes effective under insured's Civil Reserve Air Fleet Standby Contract No. ----, dated ----.

This binder shall terminate:

(a) Upon expiration of the authority of the Secretary of Commerce to provide War Risk Insurance under Title XIII of the Federal Aviation Act of 1958, or

(b) Within three years from its date, or

(c) Upon expiration or cancellation of the insured's Civil Reserve Air Fleet Standby Contract, or

(d) Within five days after telegraphic notice of cancellation has been dispatched to the insured by the Defense Air Transportation Administrator, or

(e) Upon the issuance of a policy by the Defense Air Transportation Administrator with respect to any insurance bound herein which is covered by that policy,

whichever shall occur first.

The insurance provided hereunder does not cover any war risks on persons or property engaged or transported exclusively in air commerce within the several States of the United States and the District of Columbia.

There shall be deemed to be incorporated herein all of the terms, conditions, and warranties contained in the applicable war risk hull and war risk liability, exclusive of cargo, insurance policies prescribed by the Defense Air Transportation Administrator pursuant to the provisions of §§ 1501.107 and 1501.206, respectively, of Defense Air Transportation Administration General Order—War Risk Insurance (Revised) (Part 1501, Title 14, Code of Federal Regulations).

In the event of any loss covered by this binder, prompt notice thereof shall be given by the insured to the Defense Air Transportation Administrator, but failure to give such prompt notice because of wartime conditions or regulations shall not prejudice this insurance. The insurer shall be subrogated to all rights which the insured may have against any other person or entity in respect of any payment made under this binder, to the extent of such payment and the insured shall, upon the request of the insurer, execute all documents necessary to secure such rights to the insurer.

Warranted that during the period of this binder and the term of any insurance attaching hereunder the aircraft is an American aircraft as defined in section 1301(a), Title XIII of the Federal Aviation Act of 1958, and if, at any time during the binder period or after insurance attaches hereunder, the aircraft shall cease to be an American aircraft as so defined, or ceases to be under the insured's Civil Reserve Air Fleet Standby Contract, this binder and insurance provided hereunder shall automatically terminate at the time of such change with respect to such aircraft, without return of binding fee unless the Defense Air Transportation Administrator agrees otherwise.

UNITED STATES OF AMERICA,
BY DEFENSE AIR TRANSPORTATION ADMINISTRATOR, ACTING FOR THE SECRETARY OF COMMERCE.

DEFENSE AIR TRANSPORTATION ADMINISTRATION

Interim Binder No. NON–PR–H&LWR

The United States of America, represented by the Defense Air Transportation Administrator, acting for the Secretary of Commerce, in consideration of the agreement of the Secretary of State to indemnify the Secretary of Commerce against all losses covered by war risk insurance provided, without premium, for United States air carriers having agreements with the Department of State for the continuation of regularly scheduled service or the provision of charter service, and in consideration of the binding fee provided for herein, hereby insures, in accordance with applicable provisions of law and subject to all limitations thereof, particularly Title XIII of the Federal Aviation Act of 1958, against Hull and Liability, exclusive of Cargo, War Risks only, subject to the conditions stated herein, on the aircraft described in the attached Schedule of Aircraft to be operated under an agreement with the Department of State dated ----.

Name of Insured ---
Address ---
Hull loss, if any, payable to ---

Hull

Amounts set forth in the Schedule of Aircraft attached to the insured's application for war risk hull and liability, exclusive of cargo, insurance, without premium, a copy of which is attached hereto and made a part hereof, as representing the amount of war risk hull insurance desired for each of such aircraft shall be deemed to be the "sum insured" in each instance, but in the event of damage to or total loss of any such aircraft, the insured value shall not be in excess of the stated valuation for such type of aircraft as determined by the Defense Air Transportation Administrator in accordance with the provisions of section 1307(a), Title XIII of the Federal Aviation Act of 1958 (49 U.S.C. 1537(a)), and set forth in § 1501.103 of Defense Air Transportation Administration General Order—War Risk Insurance (Revised) (Part 1501, Title 14, Code of Federal Regulations), and amendments thereto: *Provided*, That in the event the "sum insured" be less than the "stated valuation" determined under said section, this insurance shall not be in excess of the lesser amount.

Liability

Insurance of the type indicated and in the limits shown below, such limits being not in excess of the maximum limits set forth in the insured's application for war risk hull and liability, exclusive of cargo, insurance, without premium, is provided for the aircraft shown in the attached Schedule of Aircraft:

Type of coverage	Each person	Each occurrence
( ) Bodily injury or death (excluding passengers)		
( ) Property damage		
( ) Bodily injury or death, passengers		
( ) Passengers baggage and personal effects		

General

Attaching when the insured commences performance of services under its agreement with the Department of State dated ----.

This binder shall terminate:

(a) Upon expiration of the authority of the Secretary of Commerce to provide War Risk Insurance under Title XIII of the Federal Aviation Act of 1958, or

(b) Within three years from its date, or

(c) Upon expiration or cancellation of the insured's agreement with the Department of State dated ----, or

(d) Within five days after telegraphic notice of cancellation has been dispatched to the insured by the Defense Air Transportation Administrator, or

(e) Upon issuance of a policy by the Defense Air Transportation Administrator with respect to any insurance bound herein which is covered by that policy,

whichever shall occur first.

The insurance provided hereunder does not cover any war risks on persons or property engaged or transported exclusively in air commerce within the several States of the United States and the District of Columbia.

There shall be deemed to be incorporated herein all of the terms, conditions, and warranties contained in the applicable war risk hull and war risk liability, exclusive of cargo, insurance policies prescribed by the Defense Air Transportation Administrator pursuant to the provisions of §§ 1501.107 and 1501.206, respectively, of Defense Air Transportation Administration General Order—War Risk Insurance (Revised) (Part 1501, Title 14, Code of Federal Regulations).

In the event of any loss covered by this binder, prompt notice thereof shall be given by the insured to the Defense Air Transportation Administrator, but failure to give such prompt notice because of wartime conditions or regulations shall not prejudice this insurance. The insurer shall be subrogated to all rights which the insured may have against any other person or entity in respect to any payment made under this binder to the extent of such payment, and the insured shall, upon the request of the insurer, execute all documents necessary to secure such rights to the insurer.

Warranted that during the period of this binder and the term of any insurance attaching hereunder the aircraft is an American Aircraft as defined in section 1301(a), Title XIII of the Federal Aviation Act of 1958, and if at any time during the binder period or after insurance attaches hereunder, the aircraft shall cease to be an American aircraft as so defined, or ceases to be under the agreement with the Department of State, this binder and insurance provided hereunder shall automatically terminate at the time of such change with respect to such aircraft, without return of binding fee unless the Defense Air Transportation Administrator agrees otherwise.

state the limits of liability desired, but such limits shall not exceed the following:

Coverage	Each person	Each occurrence
Bodily injury or death (excluding passengers)	$300,000	$3,000,000
Property damage		3,000,000
Bodily injury or death, passengers	300,000	3,000,000
Passengers baggage and personal effects		100,000

§ 1501.201 Form of applications.

Applications submitted shall be in strict accordance with the forms set forth in §1501.101.

§ 1501.202 Issuance of interim binder; its terms and conditions.

Upon acceptance of an application, an interim binder in the form of one of those set forth in §1501.106 will be issued, and there shall be deemed to be incorporated therein by reference all of the terms, conditions and warranties contained in the standard war risk liability insurance, exclusive of cargo liability, policy to be prescribed by the Defense Air Transportation Administrator, pursuant to the provisions of § 1501.206, to the same extent as if such policy were made a part of the binder. The binding fee of $100 per aircraft set forth in § 1501.102 for war risk hull insurance shall also cover the cost of binding war risk liability insurance, exclusive of cargo liability.

§ 1501.203 Sums which will be insured under interim binder.

The sums insured shall not be in excess of those set forth in § 1501.200.

§ 1501.204 Calculation of premiums.

Premiums for Bodily Injury or Death (Excluding Passengers) and Property Damage liability will be calculated by multiplying the applicable premium rate by airplane miles. Premiums for Bodily Injury or Death, Passengers, and Passengers Baggage and Personal Effects liability will be calculated by multiplying the applicable premium rate by passenger miles.

§ 1501.205 Standard forms of war risk liability insurance, exclusive of cargo liability, interim binders.

The standard forms of war risk liability insurance, exclusive of cargo liability, interim binders for premium and non-premium insurance shall be those set forth in § 1501.106.

§ 1501.206 Standard forms of war risk liability insurance, exclusive of cargo liability, policies.

Standard forms of war risk liability insurance, exclusive of cargo liability, policies for premium and non-premium insurance will be prescribed by the Defense Air Transportation Administrator, and published in the FEDERAL REGISTER as an amendment to this section.

Subpart C—War Risk Liability Insurance, Exclusive of Cargo Liability

§ 1501.200 Limits of liability insurance for which application may be made.

Applicants for war risk liability insurance, exclusive of cargo liability, shall state the limits of liability desired, but the limit for any one accident shall not exceed $1,000,000.00.

§ 1501.301 Form of application.

Applications submitted shall be in strict accordance with one of the following forms:

(a) DATA Form No. WRI–6 (Rev. 11–60).

UNITED STATES OF AMERICA
DEPARTMENT OF COMMERCE
DEFENSE AIR TRANSPORTATION ADMINISTRATION

Application for Premium War Risk Carriers Liability to Cargo Insurance

Application is made for premium War Risk Carriers Liability to Cargo Insurance, pursuant to Title XIII of the Federal Aviation Act of 1958, and in accordance with all provisions of law and subject to all limitations thereof, on the aircraft described in the attached Schedule of Aircraft, with the understanding that this application does not commit the Defense Air Transportation Administrator to any liability or make the applicant liable for any premium unless insurance is effected by the Administrator:

Name of applicant ---
Address ---
Loss, if any, payable to ---

Limits of liability desired for each of the aircraft described in the attached Schedule of Aircraft shall be specified, but the limit for any one accident shall not exceed $1,000,000.

Insurance to attach, in the event of outbreak of war between any of the four Great Powers (France, Great Britain and/or any of the British Commonwealth of Nations, the Union of Soviet Socialist Republics and the United States of America), at and from 24 hours from midnight G.M.T. of the day on which such outbreak of war occurs. Nevertheless, should the aircraft:

(1) Be in the air when such outbreak of war occurs, or

(2) Being at an airport depart therefrom as a measure of safety in respect to an insured peril within 24 hours of such outbreak of war,

this insurance shall not attach until midnight G.m.t. of the day on which the aircraft lands wherever such landing may be regardless of whether or not accidental damage has been sustained by the aircraft.

If this application is for insurance with respect to a foreign-flag aircraft, it shall be accompanied by the statement specified in § 1501.3 of Defense Air Transportation Administration General Order—War Risk Insurance (Revised) (Part 1501, Title 14, Code of Federal Regulations) which statement shall be deemed to be a part of this application.

Binding fee (not returnable unless application is rejected) is $25 per aircraft.

Check payable to the Treasurer of the United States for the total amount of all binding fees enclosed herewith.

Rate of premium shall be fixed by the Defense Air Transportation Administrator, acting for the Secretary of Commerce.

During the period in which war risk insurance attaches, aircraft may not engage exclusively in air commerce within the several States of the United States and the District of Columbia.

Applicant warrants that the particulars herein are true and complete to the best of his knowledge and that no information has been withheld or suppressed.

Applicant agrees that this application and the terms and conditions of the form of policy prescribed by the Defense Air Transportation Administrator, acting for the Secretary of Commerce will constitute the basis of any contract between him and the United States of America.

Subpart D—War Risk Carriers Liability to Cargo Insurance

§ 1501.300 Limits of liability insurance for which application may be made.

Application for Non-Premium War Risk Carriers Liability to Cargo Insurance

Application is made for War Risk Carriers Liability to Cargo Insurance, without premium, pursuant to Title XIII of the Federal Aviation Act of 1958, and in accordance with all provisions of law and subject to all limitations thereof, on the aircraft described in the attached Schedule of Aircraft, with the understanding that this application does not commit the Defense Air Transportation Administrator to any liability unless insurance is effected by the Administrator:

Name of applicant _____
Address _____
Date of applicant's agreement with Department of State _____
Loss, if any, payable to _____
_____

Limits of liability desired for each of the aircraft described in the attached Schedule of Aircraft shall be specified, but the limit for any one accident shall not exceed $1,000,000.00.

Insurance to attach when the applicant commences performance of services under its agreement with the Department of State dated _____.

Binding fee (not returnable unless application is rejected) is $25 per aircraft.

Check payable to the Treasurer of the United States for the total amount of all binding fees enclosed herewith.

During the period in which war risk insurance attaches, aircraft may not engage exclusively in air commerce within the several States of the United States and the District of Columbia.

Applicant warrants that the particulars herein are true and complete to the best of his knowledge and that no information has been withheld or suppressed.

Applicant agrees that this application and the terms and conditions of the form of policy prescribed by the Defense Air Transportation Administrator, acting for the Secretary of Commerce, for war risk carriers liability to cargo insurance provided to United States air carriers having agreements with the Department of State, will constitute the basis of any contract between him and the United States of America.

§ 1501.302 Issuance of interim binder: its terms and conditions.

Upon acceptance of an application, an interim binder in the form of one of those set forth in § 1501.305 will be issued, and there shall be deemed to be incorporated therein by reference all of the terms, conditions and warranties contained in the standard war risk carriers liability to cargo insurance policies to be prescribed by the Defense Air Transportation Administrator, pursuant to the provisions of § 1501.306, to the same extent as if such policies were made a part of the binder. The binding fee shall be $25 per aircraft.

§ 1501.303 Sums which will be insured under interim binder.

The sums insured shall be those stated in the application, but the liability for any one accident shall not exceed $1,000,000.00.

§ 1501.304 Calculation of premiums.

Premiums will be calculated by multiplying the applicable premium rate by the gross revenue received by the insured for the transportation of cargo.

§ 1501.305 Standard forms of war risk carriers liability to cargo insurance interim binders.

The following are the standard forms of carriers liability to cargo insurance interim binders for premium and non-premium war risk carriers liability to cargo insurance:

(b) DATA Form No. WRI-7 (Rev. 11-60).

UNITED STATES OF AMERICA
DEPARTMENT OF COMMERCE
DEFENSE AIR TRANSPORTATION ADMINISTRATION

Interim Binder No. PR-CLWR

The United States of America, represented by the Defense Air Transportation Administrator, acting for the Secretary of Commerce, in consideration of the binding fee and premium provided for herein, hereby insures, in accordance with applicable provisions of law and subject to all limitations thereof, particularly Title XIII of the Federal Aviation Act of 1958, against Carriers Liability to Cargo War Risks only, subject to the conditions stated herein, on the aircraft described in the attached Schedule of Aircraft:

Name of Insured _____
Address _____
Loss, if any, payabe to _____
_____

Limits of liability set forth in the Schedule of Aircraft attached to the insured's application for premium war risk carriers liability to cargo insurance, a copy of which is attached hereto and made a part hereof, as representing the limits of liability insurance desired for each of such aircraft shall be the sums insured, but liability for any one accident shall not exceed $1,000,000.00.

Attaching in the event of outbreak of war between any of the four Great Powers (France, Great Britain and/or any of the British Commonwealth of Nations, the Union of Soviet Socialist Republics and the United States of America), at and from 24 hours from midnight GMT of the day on which such outbreak of war occurs. Nevertheless, should the aircraft:

(1) Be in the air when such outbreak of war occurs, or

(2) Being at an airport depart therefrom as a measure of safety in respect to an insured peril within 24 hours of such outbreak of war,

this insurance shall not attach until midnight G.m.t. of the day on which the aircraft lands wherever such landing may be regardless of whether or not accidental damage has been sustained by the aircraft.

This binder shall terminate:

(a) Upon expiration of the authority of the Secretary of Commerce to provide War Risk Insurance under Title XIII of the Federal Aviation Act of 1958, or

(b) Within three years from its date, or

(c) Within five days after telegraphic notice of cancellation has been dispatched to the insured by the Defense Air Transportation Administrator, or

(d) Upon the issuance of a policy by the Defense Air Transportation Administrator with respect to any insurance bound herein which is covered by that policy,

whichever shall occur first.

The insurance provided hereunder does not cover any war risks on persons or property engaged or transported exclusively in air commerce within the several States of the United States and the District of Columbia.

There shall be deemed to be incorporated herein all of the terms, conditions, and warranties contained in the applicable war risk carriers liability to cargo insurance policies prescribed by the Defense Air Transportation Administrator pursuant to the provisions of § 1501.306 of Defense Air Transportation Administration General Order—War Risk Insurance (Revised) (Part 1501, Title 14, Code of Federal Regulations).

The premium rate for this insurance shall be subject to review and revision by the Defense Air Transportation Administrator each calendar month. Unless the revised premium rate is accepted in writing by the insured within ten days after dispatch of notice of the amount thereof, the insurance provided hereunder shall automatically terminate at the end of such ten day period. Premium at the new revised rate shall be charged for the ten day period during which this insurance remained in force, unless the Defense Air Transportation Administrator receives notice within such period of the refusal of the insured to accept such new rate hereunder shall terminate, notwithstanding any other provision for cancellation in this binder. In the event this insurance is cancelled, or otherwise terminated, and not replaced by a policy, there shall be a premium charge hereunder for the period during which this insurance has been in force. Premium payments shall be made to the Defense Air Transportation Administrator by check payable to the order of the Treasurer of the United States of America.

In the event of any loss covered by this binder, prompt notice thereof shall be given by the insured to the Defense Air Transportation Administrator, but failure to give such prompt notice because of wartime conditions or regulations shall not prejudice this insurance. The insurer shall be subrogated to all rights which the insured may have against any other person or entity in respect of any payment made under this binder to the extent of such payment, and the insured shall, upon the request of the insurer, execute all documents necessary to secure such rights to the insurer.

Warranted that during the period of this binder and the term of any insurance attaching hereunder the aircraft is (1) an American aircraft as defined in Section 1301 (a), Title XIII of the Federal Aviation Act of 1958, or (2) a foreign-flag aircraft engaged in aircraft operations deemed by the Defense Air Transportation Administrator to be in the interest of the national defense or the national economy of the United States, and if, at any time during the binder period or after insurance attaches hereunder, the aircraft shall cease to come within either (1) or (2) above, or ceases to be operated by the insured, this binder and insurance provided hereunder shall automatically terminate at the time of such change with respect to such aircraft, without return of premium unless the Defense Air Transportation Administrator agrees otherwise.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 7886 c.o., etc.]

PART 13—PROHIBITED TRADE PRACTICES

Starday Recording & Publishing Co., Inc., et al.

Subpart—Bribing customers' employees: § 13.315 *Employees of private concerns.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist orders: Starday Recording & Publishing Co., Inc., et al., Madison, Tenn., Docket 7886, Sept. 29, 1960; Hit-Record Distributing Company of Cincinnati et al., Cincinnati, Ohio, Docket 7897, Sept. 28, 1960; Merle Schneider et al. doing business as S and S Distributing Company, Detroit, Mich., Docket 7899, Sept. 28, 1960; Peacock Record Company, Inc., Houston, Tex., Docket 7901, Sept. 29, 1960; ARC Distributing Company et al., Detroit, Mich., Docket 7959, Sept. 28, 1960; Mayfair Distributors, Inc., et al., New York, N.Y., Docket 8021, Sept. 29, 1960; and Cadet Distributing Company, Inc., et al., Detroit, Mich., Docket 8037, Oct. 4, 1960]

In the Matters of: Starday Recording & Publishing Co., Inc., a Corporation, Starday International Sales Company, Inc., a Corporation, and Donald F. Pierce, Individually and as an Officer of Said Corporations; Hit-Record Distributing Company of Cincinnati, a Corporation, and Isadore Nathan, Individually and as an Officer of Said Corporation; Merle Schneider and John Shepherd, Individually and as Co-Partners, Trading and Doing Business as S and S Distributing Company; Peacock Record Company, Inc., a Corporation; ARC Distributing Company, a Corporation, and Henry Droz and Ralph Jewell, Individually and as Officers of Said Corporation; Mayfair Distributors, Inc., a Corporation, and Jerry Winston, Individually and as an Officer of Said Corporation; and Cadet Distributing Company, Inc., a Corporation, and Harry Levin, Hyme Levin, and Isadore Levin, Individually and as Officers of Said Corporation

Consent agreements in the above seven cases requiring manufacturers and distributors of phonograph records in Madison, Tenn.; Cincinnati, Ohio; Detroit, Mich.; Houston, Tex.; and New York City, to cease giving concealed payola to disc jockeys or other personnel of radio and television programs to induce frequent playing of their records in order to increase sales.

Respondents in these seven proceedings were ordered to cease and desist as follows:

It is ordered, That respondents Starday Recording & Publishing Co., Inc., a corporation, Starday International Sales Company, Inc., a corporation, and their

officers, and Donald F. Pierce, individually and as an officer of said corporations; Hit-Record Distributing Company of Cincinnati, a corporation, and its officers, and Isadore Nathan, individually and as an officer of said corporation; Merle Schneider and John Shepherd, individually and as copartners, trading and doing business as S and S Distributing Company, or under any other name; Peacock Record Company, Inc., a corporation, and its officers; ARC Distributing Company, a corporation, and its officers, and Henry Droz and Ralph Jewell, individually and as officers of said corporation; Mayfair Distributors, Inc., a corporation, and its officers, and Jerry Winston, individually and as an officer of said corporation; and Cadet Distributing Company, Inc., a corporation, and its officers, and Harry Levin, Hyme Levin, and Isadore Levin, individually and as officers of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with phonograph records which have been distributed in commerce, or which are used by radio or television stations in broadcasting programs in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Giving or offering to give, without requiring public disclosure, any sum of money or other material consideration, to any person, directly or indirectly, to induce that person to select, or participate in the selection of, and the broadcasting of, any such records in which respondents, or any of them, have a financial interest of any nature;

(2) Giving or offering to give, without requiring public disclosure, any sum of money, or other material consideration, to any person, directly or indirectly, as an inducement to influence any employee of a radio or television broadcasting station, or any other person, in any manner, to select, or participate in the selection of, and the broadcasting of, any such records in which respondents, or any of them, have a financial interest of any nature.

There shall be "public disclosure" within the meaning of this order, by any employee of a radio or television broadcasting station, or any other person, who selects or participates in the selection and broadcasting of a record when he shall disclose, or cause to have disclosed, to the listening public at the time the record is played, that his selection and broadcasting of such record are in consideration for compensation of some nature, directly or indirectly received by him or his employer.

By separate "Decision of the Commission", etc., in each of the seven captioned matters, reports of compliance were required as follows (combining the orders):

It is ordered, That respondents herein shall, within sixty (60) days after service upon them of these orders, file with the Commission reports in writing setting forth in detail the manner and form in which they have complied with the orders to cease and desist.

Issued: September 28, 1960 (Dockets 7897; 7899; 7959); September 29, 1960 (Dockets 7886; 7901; 8021); October 4, 1960 (Docket 8037).

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F.R. Doc. 60-11289; Filed, Dec. 5, 1960; 8:50 a.m.]

Title 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER A—INCOME AND EXCESS-PROFITS TAXES

[T.D. 6511]

PART 16—EXCESS PROFITS ON ARMY CONTRACTS FOR AIRCRAFT

Setoffs of Deficiencies in Profit Against Excess Profits

On June 23, 1960, notice of proposed rule making regarding an amendment of the Excess Profits Regulations (26 CFR (1939) Part 16), relating to setoffs of deficiencies in profit against excess profits under section 14 of the Act of April 3, 1939, as amended, to conform to the decision in Emerson Electric Manufacturing Company (1957) 28 T.C. 1090, was published in the FEDERAL REGISTER (25 F.R. 5766). No objection to the rules proposed having been received during the 30-day period prescribed in the notice, the regulations as so proposed are hereby adopted.

[SEAL] CHARLES I. FOX,
Acting Commissioner of Internal Revenue.

Approved: November 30, 1960.

DAVID A. LINDSAY,
Acting Secretary of the Treasury.

COURTNEY JOHNSON,
Assistant Secretary of the Army (Logistics).

NOVEMBER 2, 1960.

P. B. TAYLOR,
Assistant Secretary of the Air Force.

NOVEMBER 17, 1960.

In order to conform the Excess Profits Regulations (26 CFR (1939) Part 16), relating to excess profits on Army contracts for aircraft, to the decision in Emerson Electric Manufacturing Company (1957) 28 T.C. 1090, and to make certain clarifying changes, such regulations are amended as follows:

PARAGRAPH 1. Section 16.5 is amended by revising paragraph (c) (2) and (3) to read as follows:

(2) The amount of any net loss allowable as a credit in determining the excess profit for the income-taxable year (see § 16.9); and

(3) The amount of any deficiency in profit allowable as a credit in determining the excess profit for the income-taxable year (see § 16.9). The amount remaining after such subtraction is the amount of excess profit for the income-taxable year.

PAR. 2. Section 16.6 is amended by revising the example to read as follows:

Example. On September 1, 1939, the B Corporation, which keeps its books and makes its Federal income tax returns on a calendar year basis, entered into a contract for the construction of Army aircraft coming within the scope of the act, the total contract price of which was $200,000. On March 10, 1940, the corporation entered into another such contract, the total contract price of which was $40,000. Both contracts were completed within the calendar year 1940, the first at a cost of $155,000 and the second at a cost of $45,000. During the year 1940, the B Corporation also completed at a deficiency in profit of $2,000 a contract entered into after April 3, 1939, for the construction of naval aircraft coming within the scope of 10 U.S.C. 2382 (formerly section 3 of the Act of March 27, 1934 (48 Stat. 505)). For the year 1939, the B Corporation sustained a net loss of $1,500 and a deficiency in profit of $1,000 on all contracts and subcontracts entered into after April 3, 1939, for Army aircraft coming within the scope of the act and completed within the calendar year 1939. For the year 1989, the B Corporation also sustained a net loss of $1,000 on a contract, entered into after April 3, 1939, and completed within the calendar year 1939, for naval aircraft coming within the scope of 10 U.S.C. 2382 (formerly section 3 of the Act of March 27, 1934 (48 Stat. 505)). For purposes of the Federal income tax, the net income of the B Corporation for the year 1940, on which the tax was paid, amounted to $96,000, which included the total net profit of $40,000 upon the two contracts entered into on September 1, 1939, and March 10, 1940. The excess profit liability is $4,332, computed as follows:

Total contract prices:		
Contract No. 1	$200,000	
Contract No. 2	40,000	
		$240,000
Less: Cost of performing contracts:		
Contract No. 1	$155,000	
Contract No. 2	45,000	
		200,000
Net profit on contracts		40,000
Less:		
12 percent of total contract prices (12 percent of $240,000)	$28,800	
Deficiency in profit (in naval aircraft contracts) in 1940	2,000	
Net loss (in Army aircraft contracts) from 1939	1,500	
Net loss (in naval aircraft contracts) from 1939	1,000	
Deficiency in profit (in Army aircraft contracts) from 1939	1,000	
		34,300
Excess profit for year 1940		5,700
Less: Credit for Federal income taxes (Federal income tax on $5,700 at rates for 1940)		1,368
Amount of excess profit payable to the United States		4,332

PAR. 3. Section 16.9 is amended:

(A) By revising paragraphs (a) and (b) to read as follows:

(a) The term "net loss" as used in the act and as applied to contracts and subcontracts for aircraft or portions thereof coming within the regulations prescribed under the act or under 10 U.S.C. 2382 (formerly section 3 of the Act of March 27, 1934 (48 Stat. 505)) means the amount by which the total cost of performing all such contracts and subcontracts for aircraft entered into after April 3, 1939, and completed by a particular contracting party within the income-taxable year exceeds the total contract prices of such contracts and subcontracts. As to the meaning of income-taxable year, see § 16.1.

(b) The term "deficiency in profit", as used in the act and as applied to contracts and subcontracts for aircraft or portions thereof coming within the regulations prescribed under the act or under 10 U.S.C. 2382 (formerly section 3 of the Act of March 27, 1934 (48 Stat. 505)), means the amount by which 12 percent of the total contract prices of all such contracts and subcontracts for aircraft entered into after April 3, 1939, and completed by a particular contracting party within the income-taxable year exceeds the net profit upon all such contracts and subcontracts.

(B) By revising the first sentence of paragraph (c) to read as follows:

(c) A net loss or a deficiency in profit sustained by a contracting party for an income-taxable year is allowable as a credit in computing the contracting party's excess profit on contracts and subcontracts for aircraft coming within the regulations prescribed under the act or under 10 U.S.C. 2382 (formerly section 3 of the Act of March 27, 1934 (48 Stat. 505)) and completed during the four next succeeding income-taxable years.

(C) By revising the example in paragraph (e) to read as follows:

Example. For the calendar year 1939, the A Corporation, which keeps its books and makes its Federal income tax returns on a calendar year basis, sustained a net loss of $30,000 on the contracts and subcontracts for Army aircraft and portions thereof coming within the scope of the act and completed within that year. During the year 1939, the A Corporation also completed contracts for naval aircraft coming within the scope of 10 U.S.C. 2382 (formerly section 3 of the Act of March 27, 1934 (48 Stat. 505)) at a deficiency in profit of $10,000. In 1940, the A Corporation completed similar contracts for Army aircraft totaling $175,000 at a cost of $155,000, whereby the A Corporation realized a net profit of $20,000 but sustained a deficiency in profit of $1,000 (i.e., 12 percent of $175,000, or $21,000, less $20,000). During the year 1940, the A Corporation also completed contracts for naval aircraft coming within the scope of 10 U.S.C. 2382 (formerly section 3 of the Act of March 27, 1934 (48 Stat. 505)) at a net loss of $2,000. In 1941, the A Corporation completed contracts for Army aircraft coming within the scope of the act totaling $400,000 at a cost of $300,000, or at a net profit of $100,000. After deducting from the net profit of $100,000 for the year 1941 the amount of $48,000 (i.e., 12 percent of the total contract price of $400,000), there remains $52,000 in excess profit on the contracts completed in the year 1941. The A Corporation may deduct from such $52,000, in determining the amount of excess profit it must pay for the year 1941 with respect to the contracts completed in such year, the net loss of $30,000 and the deficiency in profit of $10,000 sustained in 1939 on Army and naval aircraft contracts, respectively, and the net loss of $2,000 and the deficiency in profit of $1,000 sustained in 1940 on naval and Army aircraft contracts, respectively.

(Sec. 3, 48 Stat. 505, as amended, 53 Stat. 467, sec. 14, 53 Stat. 560; 34 U.S.C. 496, 26 U.S.C. 3791, 10 U.S.C. 311, 312)

[F.R. Doc. 60-11301; Filed, Dec. 5, 1960; 8:54 a.m.]

[T.D. 6512]

PART 17—EXCESS PROFITS ON NAVY CONTRACTS

Setoffs of Deficiencies in Profit Against Excess Profits

On June 23, 1960, notice of proposed rule making regarding an amendment of the Excess Profits Regulations (26 CFR (1939) Part 17), relating to setoffs of deficiencies in profit against excess profits under section 3 of the Act of March 27, 1934, as amended, to conform to the decision in Emerson Electric Manufacturing Company (1957) 28 T.C. 1090, was published in the FEDERAL REGISTER (25 F.R. 5767). No objection to the rules proposed having been received during the 30-day period prescribed in the notice, the regulations as so proposed are hereby adopted.

[SEAL] CHARLES I. FOX,
Acting Commissioner of Internal Revenue.

Approved: November 30, 1960.

DAVID A. LINDSAY,
Acting Secretary of the Treasury.

WILLIAM B. FRANKE,
Secretary of the Navy.

OCTOBER 19, 1960.

In order to conform the Excess Profits Regulations (26 CFR (1939) Part 17), relating to excess profits on Navy contracts for vessels and aircraft, to the decision in Emerson Electric Manufacturing Company (1957) 28 T.C. 1090, and to make certain clarifying changes, such regulations are amended as follows:

PARAGRAPH 1. Section 17.7 is amended:

(A) By revising paragraph (c) (2) and (3) to read as follows:

(2) The amount of any net loss which was sustained in the same or a prior income-taxable year with respect to contracts or subcontracts for the construction or manufacture of any complete aircraft or any portion thereof, and which is allowable as a credit in determining the excess profit for the income-taxable year with respect to contracts and subcontracts entered into for the construction or manufacture of complete aircraft or any portion thereof (see § 17.10(b)); and

(3) The amount of any deficiency in profit which was sustained in the same or a prior income-taxable year with respect to contracts or subcontracts for the construction or manufacture of any complete aircraft or any portion thereof, and which is allowable as a credit in determining the excess profit for the income-taxable year with respect to contracts and subcontracts entered into for the construction or manufacture of complete aircraft or any portion thereof (see § 17.10(c)).

(B) By revising the example in paragraph (e) to read as follows:

Example. On September 1, 1939, the B Corporation, which keeps its books and makes its Federal income tax returns on a calendar year basis, entered into a contract with the Secretary of the Navy for the construction of naval aircraft coming within the scope of the act, the total contract price of which was $200,000. On March 10, 1940, the B Corporation entered into another such contract, the total contract price of which was $40,000. Both contracts were completed within the calendar year 1940, the first at a cost of $155,000 and the second at a cost of $45,000. During the year 1940, the B Corporation completed at a deficiency in profit of $2,000 a contract entered into for the construction of Army aircraft coming within the scope of the act. During the year 1940, the B Corporation also completed at a loss of $10,000 two contracts entered into for the construction or manufacture of portions of a naval vessel coming within the scope of the act. For the year 1939, the B Corporation sustained a net loss of $2,500 and a deficiency in profit of $1,000 on all contracts and subcontracts for naval aircraft coming within the scope of the act and completed within the calendar year 1939. For the year 1939, the B Corporation also sustained a net loss of $1,800 on a contract for the construction of Army aircraft coming within the scope of the act which was completed within the calendar year 1939. For the purposes of the Federal income tax, the net income of the B Corporation for the year 1940, on which the tax was paid, amounted to $96,000, which included the net profit of $40,000 upon the contracts entered into on September 1, 1939, and March 10, 1940. The excess profit liability of the B Corporation for 1940 is payable with respect to the contracts for naval aircraft which were completed in 1940. The loss of $10,000 on the contracts for portions of a naval vessel completed in 1940 does not enter into the computation of such liability. Accordingly, the excess profit liability of the B Corporation for 1940 is $2,964 computed as follows:

Total contract prices:		
Contract No. 1	$200,000	
Contract No. 2	40,000	
		$240,000
Less: Cost of performing contracts:		
Contract No. 1	155,000	
Contract No. 2	45,000	
		200,000
Net profit on contracts		40,000
Less:		
12 percent of total contract prices (12 percent of $240,000)	$28,800	
Deficiency in profit (in Army aircraft contracts) in 1940	2,000	
Net loss (in naval aircraft contracts) from 1939	2,500	
Net loss (in Army aircraft contracts) from 1939	1,800	
Deficiency in profit (in naval aircraft contracts) from 1939	1,000	
		36,100
Excess profit for year 1940		3,900
Less: Credit for Federal income taxes (Federal income tax on $3,900 at rates for 1940)		936
Amount of excess profit payable to the United States		2,964

PAR. 2. Section 17.10 is amended:

(A) By revising paragraphs (b) and (c) to read as follows:

(b) *Net loss on contracts and subcontracts for aircraft or portions thereof.* In the case of contracts or subcontracts for the construction or manufacture of any complete aircraft or any portion thereof coming within the scope of the act which are completed within an income-taxable year ending after April 3, 1939, the term "net loss" as used in the act and in these regulations means the amount by which the total costs of performing all such contracts and subcontracts completed within such income-taxable year exceeds the total contract prices of such contracts and subcontracts. Such net loss sustained by a contracting party for an income-taxable year ending after April 3, 1939, is allowable as a credit in computing the contracting party's excess profit on contracts and subcontracts for the construction or manufacture of any complete aircraft or any portion thereof which are completed within the four next succeeding income-taxable years.

(c) *Deficiency in profit.* The term "deficiency in profit" as used in the act and in this part relates to contracts and subcontracts coming within the scope of the act which are for the construction or manufacture of any complete aircraft or any portion thereof and are completed within an income-taxable year ending after April 3, 1939. As so used, the term "deficiency in profit" means the amount by which 12 percent of the total contract prices of such contracts and subcontracts which are completed by a particular contracting party within the income-taxable year exceeds the net profit upon such contracts and subcontracts. A deficiency in profit sustained by a contracting party with respect to such contracts and subcontracts for the construction or manufacture of complete aircraft or any portion thereof and completed within any income-taxable year ending after April 3, 1939, is allowable as a credit in computing the contracting party's excess profit on contracts and subcontracts for the construction or manufacture of complete aircraft or any portion thereof which are completed within the same or the four next succeeding income-taxable years.

(B) By revising example (2) in paragraph (e) to read as follows:

Example (2). For the calendar year 1939, the B Corporation, which keeps its books and makes its Federal income tax returns on a calendar year basis, sustained a net loss of $10,000 and a deficiency in profit of $35,000 upon all contracts and subcontracts for naval aircraft and portions thereof coming within the scope of the act and completed within that year. During the year 1939, the B Corporation also completed contracts for Army aircraft coming within the scope of the Act at a net profit which was $15,000 in excess of 12 percent of the total contract prices of such contracts. On all contracts and subcontracts for naval aircraft coming within the scope of the act and completed within the calendar year 1940, the B Corporation realized a net profit which was $25,000 in excess of 12 percent of the total contract prices of such contracts and subcontracts while sustaining a deficiency in profit of $10,000 on like contracts and subcontracts for Army aircraft. On all contracts and subcontracts for naval aircraft coming within the scope of the act and completed within the calendar year 1941, the B Corporation realized a net profit which was $20,000 in excess of 12 percent of the total contract prices of such contracts. The net loss of $10,000 and deficiency in profit of $35,000 (or a total of $45,000) sustained in 1939 with respect to contracts and subcontracts for naval aircraft completed within that year may be taken as a credit to the extent of $15,000 in computing the excess profit on the contracts and subcontracts for Army aircraft completed in 1939. The remainder of such net loss and such deficiency in profit ($45,000 minus $15,000, or $30,000) may be combined with the deficiency in profit of $10,000 sustained in 1940 on contracts for Army aircraft and taken as a credit to the extent of $25,000 in computing the excess profit on the contracts and subcontracts for aircraft completed during 1940. The sum of such net loss and such deficiency in profit then remaining ($40,000 minus $25,000, or $15,000) may be taken as a credit in computing the excess profit realized on the contracts and subcontracts for aircraft completed in the year 1941.

(Sec. 3, 48 Stat. 505, as amended, 53 Stat. 467, 53 Stat. 112; 34 U.S.C. 496, 26 U.S.C. 3791, 26 U.S.C. 650, 651)

[F.R. Doc. 60-11302; Filed, Dec. 5, 1960; 8:54 a.m.]

Title 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

SUBCHAPTER J—AIR FORCE PROCUREMENT INSTRUCTIONS

MISCELLANEOUS AMENDMENTS TO SUBCHAPTER

The following miscellaneous amendments are issued to this subchapter:

PART 1008—TERMINATION OF CONTRACTS

Subpart F—Termination Inventory

1. Section 1008.611(e) is amended to read as follows:

§ 1008.611 Special machinery tooling and equipment.

* * * * *

(e) Exceptions. * * *

(1) The acquisition cost of the total amount of tooling provided under the contract is less than $2500.

(2) * * *

(3) [Deleted]

2. Revise § 1008.611-50 (a) and (b) as follows:

§ 1008.611-50 Duties of the local plant clearance officer.

* * * * *

(a) The contractor properly lists on DD Form 545, "Inventory Schedule D (Dies, Jigs, Fixtures, Etc., and Special Tools)," see § 8.802-7 of this title, (BOB No. 22-RO77) by AF part number the parts produced by the tooling, or in the absence of part numbers furnishes a description of the tooling. Program screening (§ 1008.611-53) will not require schedules.

(b) Letters of transmittal are prepared by the local plant clearance officer stating the following information:

* * * * *

(5) Plant clearance case number.

* * * * *

(8) Description of the end item produced by the tooling.

(9) Is end item common to other services?

(10) Designation of the weapon system for which subparagraph (8) of this paragraph is a component (if applicable).

(11) Condition of the tooling.

* * * * *

(14) Whether the tooling has been screened by the prime contractor and found excess to his needs for possible utilization as checked in subdivisions (i) to (iii) of this subparagraph.

3. Revise § 1008.611-51 as follows:

§ 1008.611-51 Screening agencies.

(a) *AMA or depot.* Inventory schedules will be forwarded to the Processing Control Branch, Plans & Management Division, Directorate of Materiel Management at the AMA or depot prime for the item produced by the tooling. Screening procedures will be established within the AMA or depot to determine whether interested activities (supply, maintenance, modification, IRAN, MAP, Offshore procurement, purchasing office (if located at the AMA or depot) weapons phasing and program groups) have potential requirements and to develop disposal recommendations.

(b) *Purchasing office.* Two copies of the schedules will be forwarded to the office through which procurement was accomplished (if not located at the AMA or depot prime for the end item).

(c) *Wright Air Development Division (WADD).* Two copies of the schedule will be forwarded to the assigned project office within WADD if the contract was executed at WPAFB.

(d) *Department of the Navy.* Three copies of schedules listing excess AF special tooling will be forwarded to the Bureau of Naval Weapons, Department of the Navy, Washington 25, D.C., when the end item is common to the Navy. The Navy will be advised that special tooling required by the Navy will be transferred provided there are no Air Force requirements.

(e) *Department of the Army.* Three copies of the schedules listing excess AF special tooling will be forwarded to the Department of the Army, Washington 25, D.C., when the end item is common to the Army. Special tooling required by the Army may be transferred, provided there are no Air Force requirements.

(f) Research and Development contracts under which no end items have been assimilated within the supply system (this may be determined from either the buyer or contractor) will only be screened according to paragraphs (b) and (c) of this section.

4. Revise §§ 1008.611-52 and 1008.611-53 to read as follows:

§ 1008.611-52 Disposal.

(a) Disposition will be accomplished by the local plant clearance officer according to the recommendations received from screening agencies and in conformance with Subpart E, Part 8 of this title. In instances where dual requirements are received as a result of concurrent screening under § 1008.611-51, requirements of the purchasing officer will receive priority. Disposition will not be accomplished until receipt of reply from all activities to whom schedules were submitted according to § 1008.611-51. Followup will be initiated if reply has not been received in 40 days.

(b) Unless otherwise stated, instructions to dispose of tooling used in the fabrication of a specific end item under a prime contract will be sufficient authority to dispose of tooling required for production of the same end item at a subcontractor's plant.

(c) When the screening agency desires retention of the special tooling they will state in their recommendation: (1) Reason for retention, (2) the period of time it is desired to retain the tooling in storage, and (3) office responsible for disposal recommendation in the event tooling is not utilized by expiration of the storage period. The designated plant clearance officer based upon instructions received from the screening agency, will make arrangements with the contractor for the storage of special tooling for the period requested by the screening agency. All storage agreements will be prepared according to § 1008.612 using the form prescribed in § 1008.758. The storage agreements, if possible, will be executed on a no cost basis. When a no cost storage agreement cannot be negotiated, the screening activity which requested that the tooling be stored shall be contacted and provided with the estimated weight of the tooling, the cubic area required for storage, and cost proposal incident to the execution of a cost type storage contract. Screening activity will be requested to furnish the necessary fund citation to cover the cost type storage contract, if after the consideration of the cost involved, the requirements justify the expenditure of funds to retain the tooling in storage.

(d) Two months prior to the completion of the contract, the contracting officer will request the plant clearance officer to contact the activity(s) for which the tooling was stored to determine whether (1) The tooling should be retained for an additional period of time or (2) disposition accomplished according to Subpart E, Part 8 of this title.

§ 1008.611-53 Program screening.

The term screening means the process of screening special tooling related to a complete airframe, engine, or major component before the tooling becomes excess due to production phase-out. This program will be used whenever possible. The general procedures are as follows:

(a) The local plan clearance officer will determine through the contractor when phase-outs are contemplated. The local plan clearance officer will screen the special tooling with the screening agencies by means of a transmittal letter prepared according to § 1008.611-50 and include the approximate date of production phase-out. (Schedules are not required.)

(b) Disposition of the tooling will be accomplished according to the recommendations received from the screening activities and § 1008.611-52.

5. Add § 1008.611-54 as follows:

§ 1008.611-54 Screening of standard test equipment items which are components of special tooling.

In some instances property reported as special tooling or special test equipment may include as a component or unit of a composite item of special tooling or special test equipment, standard shelf type items or items of standard test equipment. Listings containing such items will initially be screened as prescribed in § 1008.611-51 to determine any continuing requirement in connection with the end item procured under the contract.

(a) If there are no further end item requirements for special tooling as composite units, the items of special tooling will be reviewed to determine whether there are standard shelf type or test equipment items which are components of the special tooling which may be economically removed and reused. In event the contractor has a continuing requirement for such items under other cost type or facilities contracts, the administrative contracting officer will authorize their removal from the composite units and transfer to the appropriate contracts.

(1) If the requirement is such that the item is appropriately classified as a facility item, the transfer to a facility contract will be coordinated with WRU, Warner Robins AMA, and upon approval AMC Form 51 (BOB No. 21-RO71.3), "Industrial Equipment Inventory and Inspection Report," will be prepared and submitted to WRU.

(2) In event the continuing requirement is in connection with the fabrication of other special tooling items, into which the standard test items are to be incorporated, the transfer will be to the supplies contract. In this instance, the equipment will not be reported to WRU but will be controlled as a separate item (by the contractor) until incorporated into the special tooling, at which time control will be established as a component of the tooling.

(b) Standard test equipment items which may be economically removed from the composite unit and reused, having a unit cost $500 or more and falling within the categories established as "controlled items" by AMCM 78-1, which are excess to the known requirements of the contractor, will be listed and reported to WRU, WRAMA, see paragraph 6b(2), chapter 4, part one, AMCM 78-1, for decision as to whether the items are desired for inclusion in the Industrial Reserve Inventory. In event the items are not required for inclusion in the Industrial Reserve Inventory, WRU will so advise the originator of the listing and disposition of the composite unit will be accomplished through plant clearance action.

(c) All other items of standard test equipment which are components of special tooling items and which may be economically removed and reused, and are excess to the known requirements of the contractor, will be adequately described and listed as noncontrolled facility items on a DD Form 543, "Inventory Schedule B," and reported for screening. The items will not be removed from the composite units of special tooling unless and until decision has been made that the articles are desired. In event no requirement is established for retention of the items, the composite units will be disposed of through plant clearance actions. Standard items will be completely identified and described if offered for donation or sale.

6. In § 1008.2010(d)(4), a subparagraph (viii) is added as follows:

§ 1008.2010 Responsibility of termination contracting officers authorized to terminate contracts for default.

* * * * *

(d) * * *

(4) * * *

(viii) Hq AMC as follows:

One copy to Termination and Plant Clearance Branch (MCPKT).

One copy to Financial Branch (MCPMF).

One copy to Office of Inspetcion (MCPI).

7. Revise § 1008.2011 to read as follows:

§ 1008.2011 Procedure for handling termination for breach of contract with contracts not over $2,500 that do not contain default clauses.

See § 16.303 of this title.

(a) Where a contractor has failed to perform according to the terms of his contract without justifiable excuse and the contracting officer at the activity issuing the contract is of the opinion that the contractor has thereby "breached" a contract that does not contain a default clause, the contracting officer will take the following action:

(1) Conduct an investigation as described in § 1008.2010 in the degree necessary to determine whether or not the Government may refuse to accept further deliveries and subsequently reprocure the supplies or services from another source. Should such an investigation indicate that the Government may not at the time refuse to accept goods or services, the contracting officer may thereafter attempt to negotiate for and expedite delivery, or in the alternative he may terminate the contract for convenience of the Government on a cost or no cost basis, as warranted. If doubt exists as to whether a bilateral contract exists, it is suggested that the advice of the local staff judge advocate be obtained.

(2) If the investigation indicates that the Government is not obligated to accept future deliveries and may purchase the goods or services from another source, the contracting officer at the activity issuing the contract will, after obtaining a local staff judge advocate review (see Subpart E, Part 1054 of this chapter), notify the contractor by telegram (Written Report of Delivery) or registered mail (Return Receipt) in substantially the format shown below:

You are hereby notified that your failure to perform (Contract or Purchase Order No. ------) in the time required by the terms thereof constitutes a Breach of Contract. The Government will no longer accept delivery thereunder and at its option may procure the undelivered supplies from another source. The Government will hold you liable for any and all damages resulting from your Breach of Contract.

(3) Upon receipt of the "breach" notice by the contractor, the contracting officer may then reprocure the goods or service from another source if the requirement still exists.

(4) Upon execution of the reprocurement contract, the contracting officer will, after coordination with the local staff judge advocate, make demand upon the "breached" contractor for all valid damages, which would be in the form of a letter "Demand for Payment of Damages as a Result of Breach of Contract." The letter demanding damages need not follow any particular format but should clearly state: (i) Contractor's name and complete address, (ii) contract or purchase order number, (iii) the date of the notice of breach of contract, (iv) name and complete address of reprocurement contractor plus the date and contract number, (v) a reasonably detailed computation of the method of arriving at the extent of damages, and (vi) a demand to forward payment to the appropriate accounting and finance activity (payable to the Treasurer of the United States).

(5) Concurrently with the issues of the demand for payment of damages notice, the contracting officer will furnish a copy of that notice to the appropriate accounting and finance office, as cited in the breached contract, to permit instituting necesary collection procedures. (See Subpart V, Part 1054 of this chapter.) After referral to the appropriate accounting and finance office, the contracting officer is not required to make any further attempts to recover the damages caused by the "breach of contract," unless requested to do so by the accounting and finance office.

(b) Some AF contracts do contain a Disputes Clause although the termination clauses have not been incorporated therein. If the contract contains a Disputes Clause the "breached" contractor may properly appeal (the "breach notices" issued by the contracting officer) to the Secretary of the Air Force. In the event of an appeal the provisions of § 1054.504 will be complied with.

(c) If the contract contains neither a default termination clause nor a disputes clause the contractor is not entitled to invoke the appellate procedures afforded by the Disputes Clause. The "breached" contractor may normally resort to a court of law for his remedy, if any.

(d) Distribution of copies of notices: Upon issuance to the contractor of (1) A "breach" notice or (2) a demand for payment of damages, one copy of each notice will be distributed to each recipient of the contract, and one copy of each notice will be promptly forwarded to AMC (MCPKTT). Further distribution of copies of the aforementioned notices will be kept to a minimum; however, major commands may implement this distribution provision to the extent deemed appropriate.

(Sec. 8012, 70A Stat. 488; 10 U.S.C. 8012. Interpret or apply secs. 2301-2314, 70A Stat. 127-133; 10 U.S.C. 2301-2314)

PART 1009—PATENTS, DATA, AND COPYRIGHTS

Subpart A—Patents

§ 1009.107–6 [Amendment]

1. In § 1009.107–6:

a. In paragraph (c) "Specialized Projects Branch (MCPPA)" is changed to: "Procurement Committee (MCPC)."

b. Paragraph (e) is revised to read as follows:

(e) In respect to the clauses of subparagraphs (c) and (d) of this section, the contracting officer will consult the cognizant staff judge advocate for advice, the cognizant staff judge advocate may forward all questions relating to Patent Rights clauses, within:

(1) AMC and WADD to AMC (MCJP).

(2) ARDC to ARDC (RDJP).

2. Revise § 1009.107–7 to read as follows:

§ 1009.107–7 Contracts placed for NASA.

If necessary to obtain the NASA "Property Rights in Inventions" clause as required by § 9.107–7(a)(1)(5) of this title, contracting officers should communicate with National Aeronautics and Space Administration, Patent Counsel, Office of General Counsel, 1520 H Street Northwest, Washington 25, D.C. identifying the work request.

§ 1009.107–50 [Deletion]

3. Section 1009.107–50 is deleted.

4. Revise § 1009.110(a)(1) to read as follows:

§ 1009.110 Reporting of royalties.

(a) • • •

(1) • • •

(i) Hq AMC, AMC Aeronautical Systems Center (ASC), WADD, and AF procuring activities other than AMC or ARDC directly to AMC (MCJP).

(ii) AMC field procurement activities other than AMCASC to the AMC local staff judge advocate. The staff judge advocate will: (*a*) Review the forms for completeness, (*b*) retain one copy, and (*c*) send the remaining two copies to AMC (MCJP).

(iii) ARDC, other than WADD, directly to the Chief, Patents Division (RDJP), Hq ARDC. RDJP will send one copy of the form to MCJP for coordination and recommendation.

Subpart B—Data and Copyrights

In § 1009.202–1(a), a new subparagraph (5) is added, and former subparagraph (5) is redesignated subparagraph (6), as follows:

§ 1009.202–1 Acquisition of data.

(a) *General.* (1) • • •

(5) *Contract number identification on data.* The following clause will be included in the Schedule of all contracts in which data is specified to be delivered.

Contractor agrees to mark the number of this Contract on all Data delivered hereunder.

(6) *Product improvement programs or independent research.* • • •

Subpart K—Processing and Clearance of Invention, Subcontract and Royalty Reports

1. Revise § 1009.1101 to read as follows:

§ 1009.1101 Applicability of subpart.

This subpart applies to the staff judge advocate, Hq AMC and Hq ARDC, AMC field procurement activities, contract administration activities, AMC and ARDC local staff judge advocates, and AF accounting and finance offices responsible for payment of AF contracts, pursuant to the requirements of the Patent Rights clause and Reporting of Royalties clause or approved deviations, contained in such contracts. These provisions are also intended as a guide to contractors in preparing and submitting required reports.

§ 109.1102 [Deletion]

2. Delete § 1009.1102.

§§ 1009.1103 and 1009.1104 [Redesignation]

3. Redesignate §§ 1009.1103 and 1009.1104 as §§ 1009.1102 and 1009.1103.

§ 1009.1105 [Redesignation]

4. Section 1009.1105 is redesignated § 1009.1104; paragraph (a)(4) is deleted and paragraph (c) is amended to read as follows:

§ 1009.1104 Responsibility of contractor.

• • • • •

(c) *Royalty reports.* If the contract contains a Reporting of Royalties clause (Domestic) prescribed by § 9.110 of this title prior to ASPR Revision 38, October 15, 1958, or the Reporting of Royalties (Foreign) clause and is in an amount exceeding $50,000, the contractor is required to submit Royalty Reports according to the provisions of the appropriate clause.

(1) Royalty Reports under paragraph (a) of the Reporting of Royalties (Domestic) clause and under the Reporting of Royalties (Foreign) clause will be submitted as follows:

(i) The contractor has the option of submitting the required information by either of the following methods, by the use of:

(*a*) DD Form 783, "Royalty Report", in three copies including all information called for by that form, if the report is affirmative, and one copy if the report is negative.

(*b*) Contractor's own form or letter, submitted in three copies containing the same information called for by DD Form 783.

(ii) A negative report must be submitted when no royalties in excess of $250 have been paid or are to be paid to any one person or firm in connection with the performance of the contract.

(2) Royalty Reports under paragraph (b) of the Reporting of Royalties (Domestic) clause. (Contracts executed prior to October 15, 1958.)

(i) When the contractor has obtained approval under the provisions of paragraphs (b) and (c) of the clause to file a single consolidated report of royalties, he will furnish only one copy of the letter of approval to the office administering the contract.

§ 1009.1106 [Redesignation]

5. Redesignate § 1009.1106 as § 1009.1105, and revise to read as follows:

§ 1009.1105 Responsibility of office administering the contract.

The office administering the contract is responsible for the following action regarding the various reports submitted by the contractor under § 1009.1104.

(a) *Invention disclosure reports and interim reports of inventions.* (1) Reviewing each report submitted to determine whether it contains all the information required for a report of that type under § 1009.1104(a)(1) and (2), including a complete patentability search report or document where available. If the report does not contain all such information, the necessary additional information should be obtained immediately from the contractor.

(2) Forwarding all copies of each Invention Disclosure Report and two copies of each Interim Report of Inventions, whether affirmative or negative, one of which must be an original and manually signed by the appropriate representative of the contractor, and all inclosures, directly to the staff judge advocate of the procuring activity which wrote the contract or the office of the staff judge advocate to which procurement responsibility has been transferred. One copy of the report itself will be retained by the office administering the contract as a part of the official contract file and disposed of according to existing records disposition procedures. The cover letter forwarding these reports will contain the following information: (i) Date of contract, (ii) amount of contract, (iii) subject of contract, (iv) accounting and finance office which is disbursing funds, (v) indication of whether a Patent Rights Clause and/or a Reporting of Royalties Clause is included in the contract, (vi) name and organizational code of initiator and buyer, (vii) name and organizational code of project engineer, and (viii) type of contract.

(b) *Final reports of inventions, reports of subcontractors and reports of royalties.* (1) Insuring that each of these reports is obtained from the contractor in sufficient time to enable the issuance of clearances, as hereinafter provided, before the presentation by the contractor of its completion voucher to the accounting and finance office. Immediately upon receipt of a contract containing the Patent Rights or Reporting of Royalties clause, the office administering the contract should establish a target date for requesting the required reports from the contractor. Normally at approximately 75 percent of completion of the contract or 60 to 90 days in advance of final shipment on the contract, if the required reports have not been submitted, the contractor should be requested to submit them as soon as practicable.

(2) Checking each report submitted to determine whether it is complete and contains all the information required for a report of that type set forth under § 1009.1104(a)(3), (b), or (c). If the report is not complete in all respects, the necessary additional information should be obtained immediately from the contractor.

(3) Forwarding copies of these reports, at least one of which must be an original and manually signed by the contractor, as follows:

(i) Final report of invention: The original and one copy of the report, whether affirmative or negative, and all inclosures will be sent to the staff judge advocate of the procuring activity which wrote the contract, or the office of staff judge advocate to which procurement responsibility has been transferred. One copy of the report will be retained by the office administering the contract as a part of the official contract file and disposed of according to existing records disposition procedures. The cover letter forwarding these reports will contain the same information as required by paragraph (a)(2) of this section.

(ii) Reports of Subcontracts will be processed as in subparagraph (3)(i) of this paragraph. The copy of any subcontract patent rights clause submitted by the contractor should be forwarded directly to the staff judge advocate of the procuring activity which wrote the contract, or to the office of the staff judge advocate to which procurement responsibility has been transferred. The cover letter forwarding these reports and clauses will contain the same information as required by paragraph (a)(2) of this section, unless such information has been previously furnished.

(c) *Reports of royalties.* After reviewing each report submitted to determine whether it contains all the information required for a report of that type under § 1009.1104(c), the office administering the contract will take the following additional action with respect to royalty reports: (1) Negative royalty reports will be retained by the office administering the contract; without further investigation, that office will issue a clearance under the Reporting of Royalties clause to the accounting and finance office in the manner prescribed in § 1009.1103(b). If the contractor has obtained approval under the provisions of paragraph (b) and (c) of the Reporting of Royalties clause to file a single consolidated report of royalties and has previously furnished a copy of the letter of approval to the office administering the contract, that office will immediately advise the appropriate accounting and finance office not to withhold payment by virtue of the Reporting of Royalties clause in any contracts with the designated contractor, unless otherwise requested by AMC (MCJP) or ARDC (RDJP). (2) The original and one copy of affirmative royalty reports and all inclosures will be forwarded for review and clearance to AMC (MCJP), if the procuring activity which wrote the contract is within AMC or WADD, or to ARDC (RDJP) if the procuring activity which wrote the contract is within ARDC but not WADD. The cover letter forwarding these reports will contain the same information as is required by paragraph (a)(2) of this section.

§ 1009.1107 [Redesignation]

6. Section 1009.1107 is redesignated section 1009.1106 and is revised to read as follows:

§ 1009.1106 Responsibility of AMC or ARDC local staff judge advocate.

The staff judge advocate of the procuring activity which wrote the contract or the office of the staff judge advocate to which procurement responsibility has been transferred will take the following action respecting reports submitted by contractors and transmitted to that staff judge advocate according to § 1009.1105.

(a) *General.* Review all reports for proper compliance with pertinent contractual requirements and the requirements of §1009.1104. If a report is not complete in all respects, the necessary additional information should be obtained immediately from the contractor through the office administering the contract before any clearances are made or reports forwarded to the appropriate command staff judge advocate.

(b) *Invention reports*—(1) *Invention disclosure reports.* (i) With respect to inventions on which the contractor reports it has filed or will file patent applications, the invention disclosure reports, after examination for adequacy and completeness, including a completed patentability search report or document where available, will be forwarded, in the case of contracts written by an AMC or WADD procuring activity, to AMC (MCJPC). (See § 1009.1108 (c).) The staff judge advocate of the procuring activity which wrote the contract or to which procurement responsibility has been transferred will obtain and forward to AMC (MCJP) in the case of contract written by an AMC or WADD procuring activity, or to ARDC (RDJP) in the case of contracts written by an ARDC procuring activity other than WADD, a completed AFPI Form 83, "Contractor's Confirmatory License to Government," or an equivalent form furnished by the contractor, with respect to such inventions.

(ii) With respect to inventions on which the contractor has stated it will not file patent applications, the staff judge advocate will obtain completed ARDC Form 203, "Invention Evaluation", or AFPI Form 70A (formerly AMC Form 78C) for such inventions. Such evaluation, applicable disclosure and patentability search report or document, where available, will be forwarded to AMC (MCJPC) if the contract was written by an AMC or WADD procuring activity, or ARDC (RDJP) if the contract was written by an ARDC procuring activity other than WADD.

(2) *Interim reports of inventions.* (i) Negative: If the Interim Reports of Inventions are negative, the reports will be retained by the staff judge advocate until the contract has been cleared according to paragraph (e) of this section.

(ii) Affirmative: Affirmative Interim Reports of Inventions which summarize only inventions which previously have

been disclosed will be handled in the manner set forth in subdivision (i) of this subparagraph. If an affirmative Report of Inventions lists inventions not previously disclosed, the staff judge advocate will request through the office administering the contract a complete disclosure from the contractor. Upon receipt of the disclosure, the staff judge advocate will take the action prescribed in subparagraph (1) (i) and (ii) of this paragraph.

(3) *Final report of inventions.* (i) Affirmative: (*a*) If the final report is affirmative and lists inventions not previously disclosed, the staff judge advocate will request through the office administering the contract a complete disclosure from the contractor. Upon receipt of the disclosure, the staff judge advocate will take the action prescribed in subparagraph (1) of this paragraph.

(*b*) If the contractor has reported that Subject Inventions were made under the contract and if the development work under the contract has been completed, the opinion of the appropriate project engineer or other similarly qualified Government personnel will be obtained as to whether the contractor has reported all of the Subject Inventions which were made under the contract. It is emphasized that this inquiry should be made independently of the contractor and without his collaboration. If the person contacted concurs in the report, clearance will be made according to paragraph (e) (1) (i) of this section. If the person contacted believes that the contractor has not reported all Subject Inventions made under the contract, the matter will be referred back to the contractor, making specific reference to the Subject Invention in question. Only upon complete reporting by the contractor and concurrence therewith by the project engineer or other qualified Government personnel will clearance be made according to paragraph (e) (1) (i) of this section.

(ii) Negative: If the final report under any type of contract other than a Technical Representative Service Contract is negative in that the contractor has reported that no Subject Inventions were made under the contract, and if the development work under the contract has been completed, the opinion of the appropriate project engineer or other similarly qualified Government personnel will be obtained. It is emphasized that this laboratory check should be made independently of the contractor and without his collaboration. If the person contacted concurs in the report, clearance will be issued according to paragraph (e) (1) (ii). If the person contacted believes that the contractor did conceive or first reduce to practice an invention in the performance of the contract, the matter will be referred back to the contractor, making specific reference to the development in question. Only upon complete reporting by the contractor and concurrence therewith by the project engineer or other qualified Government personnel will clearance be made as in paragraph (e) (1) (i). Negative reports under Technical Representative Service contracts may be cleared without the above inquiry having been made, according to paragraph (e) (1) (i).

(c) *Subcontract reports.* (1) If the report from the prime contractor shows that subcontracts were awarded which contained a Patent Rights clause and that the subcontracts are complete, conduct correspondence with each subcontractor listed to obtain, according to the particular Patent Rights clause included in its subcontract, either of the following:

(i) One copy of a negative report of inventions when no invention within the terms of the subcontract Patent Rights clause, was made by the subcontractor.

(ii) Two copies of full Invention Disclosure Reports containing the information required in § 1009.1104(a) (1) for any inventions, within the terms of the subcontract Patent Rights clause, made by the subcontractor. One copy of each Patentability Search Report or similar document will be requested of the subcontractor for each of such inventions if the subcontractor has had such a search made with respect to such inventions or has otherwise determined that such invention reasonably appears to be patentable, if the subcontractor decides not to file a patent application, and if the costs of such search or determination are allowable as an item of cost under the subcontract, or such search or determination will be furnished without specific charge.

(2) Subcontractors' Invention Disclosure Reports and Patentability Search Reports or Documents will be processed in the same manner as those of prime contractors.

(3) Forwarding of prime contractor invention reports should not be delayed to include subcontractors' invention Disclosure Reports.

(4) If the Report from the prime contractor shows that no subcontracts were awarded which contained a Patent Rights clause, no further notice is required, other than the clearance prescribed in paragraph (e) (1) of this section.

(d) *Clearance record.* When clearance is made according to paragraph (e) of this section, an appropriate record will be maintained.

(e) *Clearance for final payment.* Clearances as defined in § 1009.1102(c) and procedures set forth in § 1009.1103 will be prepared and processed as follows:

(1) Clearance under Patent Rights clause: Contractor must submit both a Subcontract Report (see § 1009.1104(b)) and a Final Invention Report (see §1009.1104(a) (3)) before clearance under the Patent Rights clause can be made. The further processing of prime contractors' affirmative Subcontract Reports required by paragraph (c) of this section need not be accomplished prior to clearance. Clearance procedure further depends on whether the Final Invention Report is affirmative or negative.

(i) Affirmative: Clearance will be made and processed according to § 1009.1103, when it is determined under paragraph (b) (3) (i) of this section that clearance should be granted.

(ii) Negative: If the final report is negative and is submitted under a Technical Representative Service Contract, issue clearance according to § 1009.1103 without further investigation or action. If the final report is negative and is submitted under any other type of contract, issue clearance according to § 1009.1103 when it is determined under paragraph (b) (3) (ii) of this section that clearance should be granted.

(2) Clearance under Reporting of Royalties clause in contracts: Clearance under this clause will not be issued by the AMC or ARDC local staff judge advocate, but clearance will be issued by the office administering the contract if the report is negative or by MCJP or RDJP if the report is affirmative (See § 1009.1105(b) (3) (iii)).

§ 1009.1108 [Redesignation]

7. Redesignate § 1009.1108 as § 1009.1107 and revise to read as follows:

§ 1009.1107 Responsibility of accounting and finance office.

If the Accounting and Finance Office receives the completion voucher from the contractor for final payment on a contract for which necessary clearances have not been received, the accounting and finance office will forward a request for the status of clearance to the office administering the contract. All requests will set forth the contractor's name and address, contract number, and the nature of the clearance about which information is desired. Upon the receipt of such a request, the office administering the contract will obtain the desired information, and advise the requesting accounting and finance office of the status of clearance. Under no circumstance should the accounting and finance office request the status of clearance prior to the actual receipt of the completion voucher from the contractor for final payment. Under no circumstances should the accounting and finance office forward a request for status of clearance to the staff judge advocate.

§ 1009.1109 [Redesignation]

8. Redesignate § 1009.1109 as § 1009.1103 and revise to read as follows:

§ 1009.1108 Responsibility of Hq AMC and Hq ARDC.

AMC (MCJPC), and ARDC (RDJP), will be responsible for the following action with respect to the various types of reports:

(a) *General.* Rendering advice and assistance on all questions concerning this Subpart K which have been forwarded through the appropriate AMC or ARDC local staff judge advocate.

(b) *Invention disclosure reports and interim reports of inventions.* Taking necessary steps, according to the terms of the Patent Rights clause, to obtain assignments of inventions on which the contractor has elected not to file patent applications but on which the Government intends to file patent applications.

(c) *Royalty reports.* Checking all affirmative reports as to appropriateness of payment of the royalties reported and conducting necessary correspondence with contractors and/or their licensors to resolve all questions arising from the reports.

(d) *Clearance.* In the case of affirmative royalty reports, clearance will be issued after the appropriateness of the royalty report has been determined. Clearance as defined in § 1009.1102(c) will be processed according to § 1009.1103 (a), with an information copy being sent to the staff judge advocate of the procuring activity which wrote the contract.

§ 1009.1110 [Redesignation]

9. Redesignate § 1009.1110 as § 1009.1109.

(Sec. 8012, 70A Stat. 488; 10 U.S.C. 8012. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314)

PART 1010—BONDS AND INSURANCE

Subpart C—Insurance; General

1. Add § 1010.300 as follows:

§ 1010.300 Scope of subpart.

See § 10.300 of this title.

§ 1010.301 [Amendment]

2. In § 1010.301 the symbol "MCPPB" is amended to: "MCPF."

3. Revise § 1010.303 to read as follows:

§ 1010.303 Responsibility for loss of or damage to Government property.

For additional clauses covering these responsibilities see § 1007.3103–6 of this chapter (Construction Contracts) and § 1007.2703–2 of this chapter (Facilities Contracts).

§ 1010.305–50 [Amendment]

4. In § 1010.305–50, the symbol "MCPPB" is changed to: "(MCPF)".

PART 1012—LABOR

Subpart A—Basic Labor Policies

Section 1012.102–3(c) is revised to read as follows:

§ 1012.102–3 Procedures.

* * * * *

(c) *Contract clause for approved overtime.* In addition to the clause specified in § 12.102–3(c) of this title, the following clause will be incorporated in all contracts for performance of which a specified amount of overtime or extra-pay shifts has been authorized.

APPROVAL OF OVERTIME AND EXTRA-PAY SHIFTS

* * * * *

Subpart D—Labor Standards in Construction Contracts

1. Revise § 1012.402 to read as follows:

§ 1012.402 Applicability.

The contracting officer will determine the applicability of the acts cited in § 12.401 of this title. In case of doubt, AMC contracting officers will submit the matter to the appropriate AMC staff judge advocate for advice. Major air command contracting officers may seek the advice of their own staff judge advocate or, alternatively, of the Staff Judge Advocate, Hq AMC, using normal command channels. Requests for opinions by the Secretary of Labor concerning the applicability or interpretation of the acts and regulations cited in § 12.401 of this title, supported by full information and documentation, will, after coordination with the Staff Judge Advocate, Hq AMC, be submitted by Hq AMC to Hq USAF (AFMPP–PR–3).

2. In § 1012.404–1, the heading is amended; § 1012.404–1 now reads as follows:

§ 1012.404–1 General.

(a) *Administration of labor standards.* Special labor problems encountered by contracting officers, in connection with administration of contract provisions, may be referred to AMC (MCPK) when related to facility contracts and (MCPP) for all others.

(b) *Examination of records.* Prior to the approval of payment on any construction contract, the contracting officer administering the contract will initiate such examinations into the records and activities of the contractor and his subcontractor(s) as are necessary to insure full compliance with the applicable labor statutes and labor standards provisions in this subpart.

(Sec. 8012, 70A Stat. 488; 10 U.S.C. 8012. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314)

PART 1013—GOVERNMENT PROPERTY

Subpart A—General

1. Revise §1013.101–65 to read as follows:

§ 1013.101–65 AF representative.

The term "AF representative" as used in this part and Part 1030, Appendixes B and C of this chapter, means an AF plant representative or chief of an air procurement district or test site office under the jurisdiction of a contract management region (CMR) commander; or the chief of a procurement office in: (a) An AMC field procurement activity, (b) an AMC foreign central procurement activity, (c) an AF base procurement activity (ConUS and Foreign), or (d) ARDC.

2. In §1013.102–50(b), revised subparagraph (5) and paragraph (c), as follows:

§ 1013.102–50 Bailments.

* * * * *

(b) * * *

(5) Aircraft will be bailed under appropriate bailment agreement when the purpose of use is that defined for codes EB or XU Aircraft assigned for the purposes of code CW only, will not be bailed but will be furnished under the supply or services contract.

* * * * *

(c) The Director of Procurement and Production, Hq AMC, has determined that contracting officers of AMC field procurement activities may enter into and execute bailment agreements and amendments thereto for the loan of Government property, except complete aircraft, to AF contractors. This authorization for contracting officers at depots and AMA level pertains only to bailment actions relative to contracts which are placed by the depot and AMA and in this connection the procedures of § 1013.2004(a) will be followed. Depot and AMA contracting officers will not enter into, execute or amend bailment agreements for which procurement responsibility remains at AMC centers. All master bailment agreements and all AMC bailment actions pertaining to complete aircraft (whether a new bailment or a request for amendment to an existing bailment agreement) will be accomplished by the Bailment and Leasing Section (LMEMSB), AMC Aeronautical Systems Center.

3. In § 1013.102–51, add paragraphs (c) and (d) as follows:

§ 1013.102–51 Emergency assistance to civil aircraft and military contract carriers.

* * * * *

(c) This section applies to AF bases, continental United States and overseas. Civil air carriers, operating under military charter flights, are not considered to be military contract carriers under the conditions set forth in this section.

(d) All bailment agreements entered into by commanders of AF bases will be administered by a contracting officer of the AMC Aeronautical Systems Center (LMENS).

4. In § 1013.103, subparagraphs (5) and (6) of paragraph (b) are revised, and paragraph (c) is revised, as follows:

§ 1013.103 Control of Government property.

* * * * *

(b) * * *

(5) Commanders and deputy commanders of contract management regions, AMC field procurement activities, and separate base procurement activities with power of redelegation of only that authority cited in paragraph (a) (2) of this section, to the director of contract administration for the CMRs or to the staff officer responsible for procurement matters at the other activities, provided such officer is not below the level of the director of procurement and production at their air materiel area, or equivalent organization. Authority contained in paragraph (a) (1) and (3) of this section is not subject to further redelegation.

(6) Commanders and deputy commanders of Air Materiel Forces (AMFEA and AMFPA), with power of redelegation not to extend below a staff officer responsible for procurement of the first echelon of command immediately subordinate thereto.

* * * * *

(d) The Industrial Property Branch (MCPKI), Hq AMC * * * and overseas).

Subpart GG—Providing Vehicles to Air Force Contractors

1. Add § 1013.3300 as follows:

§ 1013.3300 Scope of subpart.

This subpart establishes policies, assigns responsibilities, and prescribes procedures within limitations set forth under §§ 13.102 and 13.103 of this title

and §§ 1013.102 and 1013.103 of this chapter.

(a) Providing industrial vehicular equipment to AF contractors, including industrial facility contracts, lease agreements, and service contracts.

(b) Reporting all vehicles in possession of AF contractors.

2. Revise § 1013.3301(c) to read as follows:

§ 1013.3301 Policy.

* * * * *

(c) Construction vehicular equipment will be provided only under facilities contracts and after approval by the responsible AMC center.

3. Add § 1013.3304 as follows:

§ 1013.3304 Assignment.

(a) Industrial vehicular equipment provided under AF contracts, as specified in § 1013.3300(a), are controlled by the responsible AMC center, however, Industrial Resources Division (MCPM), Hq AMC, may authorize major air commands to acquire and/or control industrial vehicular equipment for AF contractors under the jurisdiction of the respective commands. Vehicles will not be provided until an assignment number has been provided by the responsible AMC center. Requests will state: (i) Why it is not economically feasible for the contractor to furnish or purchase his own vehicular equipment; (ii) the equipment cannot be economically leased or rented by the contractor; and (iii) the type of utilization and complete justification for such requirement.

(b) The request will be initiated by the contractor and submitted to the appropriate ACO.

(c) The ACO will approve on the following basis:

(1) That the contractor cannot provide and that such provisioning is advantageous to the Government.

(2) Proper contractural coverage exists. For facilities contracts, the item must be included in the Facilities Appendix "A", and approved. In supply and service contracts, the item must be listed according to appropriate facilities clause.

(d) After approval by the ACO, the original and two exact duplicates of the request will be processed through channels to the responsible AMC center. The original is retained on file at the AMC center until disposal of the vehicle, one duplicate is retained as a working record in the AMC center and the other returned directly to the ACO.

(e) Since AF industrial vehicles are acquired to accomplish production of aircraft and are built to contractor specifications, to meet such production requirements, military specifications are not practical and seldom applicable. Standard commercial catalog models and types are utilized wherever possible, and the assignment number is approved on this design basis. In the area of special types of vehicular equipment, the design and specifications must be submitted to the responsible AMC center to provide the final basis for approval of assignment number.

4. Revise § 1013.3305 to read as follows:

§ 1013.3305 Lease; rental.

(a) The contractor may request and the ACO authorize the rental or lease for a short period of time and apply the costs against applicable AF contracts. Requests for periods in excess of 6 months or recurrent short period requests exceeding a total of 6 months must be forwarded through channels by the ACO, to the responsible AMC center and must contain the following:

(1) Contractor's statement why he will not, or cannot, provide with private funds.

(2) Contractor's justification for the requirement, type, and quantity of vehicles required, and the costs of lease or rental.

(3) Name and address of lessor or rental agency.

(4) Recommendations and comments by the ACO on conditions connected with the action.

(b) The ACO will not approve a rental action for a period in excess of 6 months until he has received prior approval from the responsible AMC center.

5. Add §§ 1013.3306, 1013.3307 and 1013.3308 as follows:

§ 1013.3306 Registration and identification.

Contractor-operated Government-owned vehicles will retain AF registration numbers. In the ConUS the accountability, tagging, identification, and reporting will be according to Part 30, Appendix B and C of this title. Except for the registration number which may be placed inconspicuously on the vehicle, all AF insignia and markings will be removed by the contractor upon receipt of a vehicle on permanent transfer basis and the words "Contractor Vehicle Operated by (Name and address of contractor)," will be painted conspicuously on both sides of the vehicle.

§ 1013.3307 Transfer, replacement and disposal (ConUS).

(e) After the letter of request has been review by the responsible AMC center and assignment number approved, availability of the required vehicle will be determined. There will be no restrictions on providing standard commercial type vehicles from the surplus listings (SF 120) so long as conformance is made with § 1013.3301(e). Assignment number will be referenced in item 23, AMC Form 266, "Request for/and Shipping Authorization," when requesting available vehicles.

(b) Transfer of vehicles within a prime contract structure will be made according to Category I, Idle Equipment procedures.

(c) Vehicles excess to the requirements of a contractor will be inspected and reported as Idle Equipment Category I, III, IV, or V. Shipping authorizations (AMC Form 266B) will be issued by WRAMA. This authorization will order the vehicle shipped or will request plant clearance action.

(d) Replacement of vehicles will be handled as one item being declared excess, as is paragraph (c) of this section, and one item being acquired, as in paragraph (a) of this section. The original assignment number will be used as authority for the replacing item.

§ 1013.3308 Acquisition under the contract (ConUS).

When the required vehicular equipment cannot be acquired by transfer from the industrial reserve, supply stocks or surplus listings (SF 120, issued by Materials Redistribution Division, Bureau of Supplies and Accounts, Department of the Navy), the assignment number may be used by the ACO to authorize purchase. This method of procurement is accomplished by reimbursement to the contractor, after the item is delivered by reimbursement to the contractor, after the item is delivered according to assignment specifications, under the applicable contract.

§ 1013.3310 [Amendment]

6. In § 1013.3310, "Maintenance", delete the words "to be" in the first line, and add the following as a second sentence: "See § 1007.2703-2(e) of this chapter for guidance."

7. Section 1013.3311(a) is revised as follows:

§ 1013.3311 Modification and cannibalization.

(a) It will become necessary from time to time to modify or cannibalize to meet production schedules. To keep such actions to an absolute minimum and maintain records of costs and usability, it will be necessary to receive written approval from the responsible AMC center, prior to modification or cannibalization of any item of vehicular equipment held under contract within the scope of this subpart.

(Sec. 8012, 70A Stat. 488; 10 U.S.C. 8012. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314)

PART 1016—PROCUREMENT FORMS

Subpart D—Construction Contract Forms

Revise §§ 1016.451–1 and 1016.451–2 to read as follows:

§ 1016.451–1 Preconstruction conference checklist (AFPI Form 27).

(a) Available as a reproducible offset master. Local reproduction of cut sheet forms for fill-in purposes from the offset master is authorized after appropriate additional items have been listed in Section IV of the reproducible master.

(b) See § 1054.3004(b)(1) of this chapter for additional instructions.

§ 1016.451–2 Construction contract progress schedule (AFPI Form 78).

Bureau of Budget approval number 21-R129 for AFPI Form 78 expires December 31, 1960 (see § 1054.3004(b)(2) of this chapter).

PART 1030—APPENDIXES TO AIR FORCE PROCUREMENT INSTRUCTION

§ 1030.2 [Amendment]

Amend § 1030.2 *Appendix B—Manual for control of Government property in possession of contractors*, as follows:

Part II—General Provisions:

1. Revise B–201 to read as follows:

B–201 *Duties and responsibilities of the contract administrator with respect to the control of Government property.* (a) to (e) See § 30.2, Appendix B of this title.

2. Revise B–203 to read as follows:

B–203 *Duties and responsibilities of the property administrator.* (a) The property administrator will be familiar with the functions of other AF personnel who have a duty or responsibility in connection with Government property. These other AF functions include, but are not limited to, audit, quality control, plant clearance, and production.

(b) Approval of the contractor's property control system (see also paragraph B–301(b) is subject to the adequacy of established property control records and procedures. In reviewing this system, the property administrator will evaluate the prescribed internal controls and conduct such tests or examinations as are reasonably necessary to determine that: (1) The records and procedures are commercially sound and (2) that the status of Government property will be properly reflected therein. The property administrator, in performing the above review and subsequent examinations and usage analysis required by the Manual, will take into consideration and utilize, as appropriate, data, reports, and documentation concerning property control which originates from reviews or examinations of the cognizant Government auditor and other assigned representatives.

(c) to (e) See § 30.2, Appendix B of this title.

(f) Research and development projects, because of the nature of the work performed thereunder, are not readily adaptable to the utilization of a bill of materials or other normal measures of allowances as in production contracts. In determining reasonableness of usage or consumption of Government property under such projects, the property administrator will depend largely upon visual and physical observation of the controls exercised in connection with the property, including the handling prior to use and the general conditions under which used.

(g) and (h) See § 30.2, Appendix B of this title.

3. In B–205.1, revise paragraph (b) as follows:

B–205.1 *Military Installations or other contractors' plants.*

* * * * *

(b) The power to authorize shipment of UR Exhibits to contractors for evaluation and study at no cost to the Government, without benefit of contractual coverage, has been extended to the commanders of CMRs, AMAs, AF depots and AMFs with power of redelegation to and through the director of logistics support management or the director of quality control as appropriate to the minimum level of authority set forth in the following: (1) The authority to approve the release of engineering UR Exhibits under the Quick Engineering Fix Program may be delegated to AFPRs and BARs, (2) the authority to approve the release of engineering exhibits other than described in (1) above will be vested in the chief and deputy chief of the appropriate logistics support management division; and (3) the authority to approve the release of procurement quality control UR Exhibits may be delegated to the chief and deputy chief of the quality control division of the AFPROs, TSOs, APDs, and AF field procurement offices not directly under the jurisdiction of an APD, except as may be otherwise designated. The use of the extended authority will require administrative review by the AMA, AMF or depot director of logistics support management, or director of quality control as appropriate, for justification and sufficiency of all requests for release of UR Exhibits to a contractor; adherence to the requirements contained herein; and inclusion of record of shipment or other disposition of the exhibits in the materiel improvement project (MIP) file.

* * * * *

4. In Z–206, "Segregation or commingling of Government property and contractor's property," paragraphs (c) and (d), "ACO" is changed to "property administrator."

5. In B–207, "Physical inventories," add the following: "See § 30.2, Appendix B of this title."

6. B–207.1, B–207.3 and B–207.5 are deleted.

In Part IV—Miscellaneous Provisions:

1. In B–401.1, "Identification," paragraphs (a), (2) and (3), "ACO" is changed to: "property administrator."

2. Revise B–403.3 to read as follows:

B–403.3 *Approval of scrap procedure.* (a) See responsibilities in § 1054.2304 of this chapter.

(b) Where it is recognized that recording scrap data is impracticable, the requirement may be waived by the property administrator, provided it is determined that other established and approved controls are adequate and more feasible in protecting the interest of the Government. A determination of this nature will be accomplished in writing and placed in the pertinent contract control files.

§ 1030.3 [Amendment]

Amend § 1030.3 *Appendix C—Manual for Control of Government property in possession of non-profit research and development contractors*, as follows:

In Part II—Government Administrative Provisions:

1. Revise C–201 to read as follows:

C–201 *Duties and responsibilities of the contract administrator with respect to the control of Government property.*

(a) to (d) see § 30.3, Appendix C of this title.

(e) The written advice of the contract administrator will contain statements as to: (1) An investigation has been made of the facts and circumstances surrounding the particular case, (2) the amount of liability, if any, and (3) where liability is involved, the method and details of settlement selected under Subpart V, Part 1054 of this chapter. It is not required that the property concerned be restated in the written advice if a listing is attached and appropriately referenced.

2. Add C–202.50 as follows:

C–202.50 *Designation of property administrators pursuant to AMC–ARDC agreement.* Contracts with profit organizations under which Government property is furnished or acquired will be assigned to an AMC property administrator, except (1) Contracts with ARO Incorporated; Arnold Engineering Development Center, Tullahoma, Tennessee; Pan American Airways, Incorporated, Patrick Air Force Base, Florida; and Vitro Corporation, Elgin Air Force Base, Florida, will be assigned to an ARDC property administrator located at the respective sites and (2) those contracts with contractors at locations assigned to a procuring activity other than the Air Force for property administration.

(a) The ARDC activity assigned administration of contracts with profit organizations, including the above designated contractors under which Government property is furnished or acquired will forward formal request for assignment of a property administrator to the cognizant Air Procurement District or the AF plant representative office, attn: chief, industrial property.

3. Revise C–203 to read as follows:

C–203 *Duties and responsibilities of the property administrator.* (a) The property administrator will be familiar with the functions of other AF personnel who have a duty or responsibility in connection with Government property. These other AF functions include, but are not limited to, audit, quality control, plant clearance, and production.

(b) Approval of the contractor's property control system (see paragraph C–207.2) is subject to the adequacy of established property control records and procedures. In reviewing this system, the property administrator will evaluate the prescribed internal controls and conduct such tests or examinations as are reasonably necessary to determine that (1) The records and procedures are commercially sound and (2) that the status of Government property will be properly reflected therein. The property administrator, in performing the above review and subsequent examinations and usage analysis required by the Manual, will take into consideration and utilize, as appropriate, the data, reports, and documentation concerning property control which originates from reviews or examinations of the cognizant Government auditor and other assigned representatives.

(c) See § 30.3, Appendix C of this title.

(d) Research and development projects, because of the nature of the work performed thereunder, are not readily adaptable to the utilization of a bill of materials or other normal measures of allowances as in production contracts. In determining reasonableness of usage or consumption of Government property under such projects, the property administrator will depend largely upon visual and physical observation of the controls exercised in connection with the property, including the handling prior to use and the general conditions under which used.

(e) to (i) See § 30.3, Appendix C of this title.

Part III—Contractor's Obligations:

1. In C–304, "Contractor's liability," add the following sentence:

The adjustment of discrepancies incident to shipment of Government property will be accomplished according to Subpart U, Part 1013 of this part.

2. In C–307.1, "Identification," paragraph (a)(iii), "administrative contracting officer" is changed to "property administrator."

Add a new § 1030.5, as follows:

§ 1030.5 Appendix E—Contract Financing.

E–000 *Scope; financing defined.* See § 82.1, Subchapter G of this title.

E–001 *Purposes.* See § 82.2, Subchapter G of this title.

E–002 *Application.* See § 82.3, Subchapter G of this title.

E–003 *Implementation.* See § 82.4, Subchapter G of this title.

Part I—Introduction

E–100 *Scope of part.* See § 82.5, Subchapter G of this title.

E–101 *Guaranteed loans; authority.* See § 82.6, Subchapter G of this title.

E–102 *Guaranteed loans; description.* See § 82.7, Subchapter G of this title.

E–103 *Advance payments; authority.* See § 82.8, Subchapter G of this title.

E–104 *Advance payments; description.* See § 82.9, Subchapter G of this title.

E–105 *Progress payments; authority.* See § 82.10, Subchapter G of this title.

E–106 *Progress payments; description.* See § 82.11, Subchapter G of this title.

E–107 *Responsibilities.* See § 82.12, Subchapter G of this title.

Part II—Basic Policies

E–200 *Scope of part.* See § 82.13, Subchapter G of this title.

E–201 *Acceleration of payments.* See § 82.14, Subchapter G of this title.

E–202 *Timely action.* See § 82.15, Subchapter G of this title.

E–203 *Uniformity.* See § 82.16, Subchapter G of this title.

E–204 *Small business.* See § 82.17, Subchapter G of this title.

E–205 *Purpose of contract financing.* See § 82.18, Subchapter G of this title.

E–206 *Support of procurement; minimizing monetary loss.* See § 82.19, Subchapter G of this title.

E–207 *Reasonable need.* See § 82.20, Subchapter G of this title.

E–208 *Working capital purposes.* See § 82.21, Subchapter G of this title.

E–209 *Order of preference.* See § 82.22, Subchapter G of this title.

E–210 *Financing not a handicap.* See § 82.23, Subchapter G of this title.

E–211 *Financial responsibility of contractors.* See § 82.24, Subchapter G of this title.

E–212 *Coordination before contract award.* See § 82.26, Subchapter G of this title.

E–212.50 *Facility capability report.* The FCR system (see Subpart I, Part I of this title, and Subpart I, Part 1052 of this chapter to be later superseded by appropriate ASPR implementation) provides the services of personnel qualified and competent to evaluate credit and financial problems prior to or contemporaneously with contract awards.

E–212.51 *Financial control list.* (a) Financial Branch (MCPMF), Hq AMC, will screen names received pursuant to the requirements of paragraph E–216 to determine which should appear on the Financial Control List referred to in (d) of this paragraph.

(b) Contract Financing Branch (AFAAF–6C), Hq USAF, furnishes to MCPMF monthly a list of contractors who meet the criteria of § 82.86(d), Subchapter G of this title.

(c) The Departments of Army and Navy furnish MCPMF monthly a list of contractors which require Army or Navy concurrence prior to contract awards by the Air Force. The Air Force has placed similar restrictions on Army and Navy. Each department publishes an identical list known as the interservice concurrence list.

(d) In the interest of administrative simplicity, MCPMF will consolidate the names of the three lists into a single list and distribute the resulting list monthly to all procurement activities, including ARDC, Army, and Navy. The single list will be known as the Financial Control List. See § 82.87–1, Subchapter G of this title.

(e) The reason why a particular name is on the list will not be shown. The list will be classified "For Official Use Only" and access thereto will be governed by AFR 11–30.

(f) MCPMF will establish dollar limitations above which awards may not be made without prior clearance with MCPMF.

E–212.52 *Proceduzes.* (a) If it becomes apparent to procurement personnel during placement of a contract, a supplement to an existing contract, or a substantial spare parts order under an existing contract and any one of the following conditions is present; the procedure set forth in (b) of this paragraph will be followed.

(1) The proposed contractor cannot reasonably be expected to perform without: (i) Guarantee of a bank loan by the Air Force. (See paragraph E–300 of this Appendix E.)

(ii) Unusual progress payments (see paragraph E–500 of this Appendix E).

(iii) Advance payments (See paragraph E–400 of this appendix E).

(2) Award of the proposed contract would overload the proposed contractor's production capacity.

(3) The proposed contractor does not have sufficient working capital, credit, or sources of borrowing to perform the proposed contract.

(4) The amount of Government financial assistance required is out of reasonable proportion to the proposed contractor's investment.

(5) The proposed contractor's name is on the Financial Control List referred to above.

(6) The contractor's name is on the hold-up list referred to in paragraph E–518.2 of this Appendix E.

(b) If any of the conditions set forth in (a) of this paragraph exist, procurement personnel will submit the matter through normal procurement channels to AMC (MCPMF) or to ARDC (RDMK) as appropriate. MCPMF or RDMK, as appropriate, will determine whether approval may be granted directly, or is required either by a General Officer at Hq AMC or Hq ARDC or by Hq USAF according to Part 82, Subchapter G of this title, particularly paragraphs E–517, E–505, E–406 or E–300 of this Appendix E. If coordination with Army or Navy is required, MCPMF or RDMK, will obtain it. Approvals within AMC or ARDC will be obtained according to normal Command procedures. If prior approval by higher authority at Hq USAF is required and is recommended, MCPMF or RDMK will submit the matter with a proposed memorandum of approval on Secretary of the Air Force letterhead outlining the pertinent facts therein and approving the action requested, to Hq USAF (AFMPP–PR). In the case of a small business concern, see § 82.48, Subchapter G, and § 1.705–6 of this title.

(c) Contracting officers and personnel performing an FCR should realize that Government guarantee of a bank loan is a normal method of assisting defense contractors and subcontractors in acquiring working capital. A request by a bank for Government guarantee of a portion of a loan it proposes to make to a contractor does not, in most cases, reflect upon the basic credit, ability, or character of a contractor. Therefore, if the possibility of a request by a bank for Government guarantee of a loan is the only question concerning a contractor's ability to finance a proposed contract, the Financial Branch (MCPMF), Hq AMC, will grant or deny financial clearance. MCPMF will advise the Contract Financing Branch, Directorate of Accounting and Finance, Office of the Comptroller, Hq USAF by letter of actions taken with an information copy to Hq USAF (AFMPP–PR). If other factors present convince MCPMF that prior clearance with Hq USAF would be warranted, the matter will be forwarded as set forth above.

(d) *Guaranteed loans.* In submitting the matter to AMC (MCPMF), use AFPI Form 63C "FCR Financial Action Summary". Attach the following data:

(i) Letter from the bank setting forth its intentions regarding request for Government guarantee or increase or extension of an existing loan.

(ii) A statement from contracting officer as to whether he would recommend issuance of Certificate of Eligibility.

(iii) The information in § 82.28, Subchapter G of this title necessary for MCPMF to arrive at the decision required.

(iv) Breakdown of contractor backlog between Government (by agency) and commercial.

(v) Any other pertinent data necessary to a proper conclusion in the matter.

(e) *Advance payments.* See §§ 82.61 and 82.62, Subchapter G of this title.

(f) *Unusual progress payments.* See § 82.74, Subchapter G of this title.

E–213 *Financial information and analysis.* See § 82.27, Subchapter G of this title.

E–213.50 *Responsibilities.* (a) The director of procurement and production in each APD will obtain financial information from contractors doing business with the Air Force and on a company for which an FCR is being completed when adequate data is not available from published sources. Hq ARDC will obtain financial information from contractors for contracts which are being administered solely by ARDC. When contractors, under AMC administration, also have contracts administered by ARDC, financial surveillance will be done by AMC. See § 1053.404–4(b) of this chapter. Forward an original or a signed copy of each item of financial data to AMC (MCPMF), as soon as received from companies or from internal AF sources. (See paragraph E–214.53).

(b) Buyers, price analysts, or others will not request financial data from contractors or prospective contractors other than cost data for use in pricing contracts. If an FCR is not required, anticipate the need for such data and request the information from the Financial Branch (MCPMF) or the cognizant APD, whichever is nearer. The APD will provide or will direct the appropriate air procurement district to provide the needed information. A division or subsidiary of a company may be asked to obtain financial data from its home office if needed for completion of an FCR.

(c) Procurement personnel who receive financial data direct, will forward it to MCPMF or the cognizant APD whichever is nearer. (See paragraph E–214.53.)

E–213.51 *Obtaining financial data.* (a) When possible make arrangements for automatic forwarding of information without necessity for periodic requests. Normally, regularly published quarterly financial statements will suffice. In exceedingly weak cases, monthly financial statements may be required. With unusually strong companies, semiannual or annual statements may be sufficient.

(b) *Special cases.* If a contractor or a prospective contractor has limited working capital or shows evidence of serious financial weakness, request the following data when completing an FCR.

(1) A cash flow sheet. See § 82.28–1, Subchapter G of this title.

(2) Statement of how the proposed contract will be financed.

(3) If the contract will be financed by new capital, appropriate evidence that the additional capital will be furnished.

(4) If the contract will be financed by borrowing from a bank, an agreement or letter from the bank stating that it will loan a specific amount or that it will furnish working capital sufficient for the performance of proposed contract. (This letter is not to require a commitment fee.)

(5) If the contract will be financed by guarantee of an individual or of a company, a letter from the individual or company (signed by an officer of the company, stamped with the corporate seal, and notarized), together with current balance sheet of company making the guarantee. If a guarantee is made by a corporation, a certified resolution of the board of directors authorizing the guarantee and disclosing the authority of the officer signing on behalf of the corporation to so obligate the corporation. (See paragraph E–214.51.)

(6) If the company is newly organized, a copy of the incorporation papers and a balance sheet reflecting amount of paid-in capital, unless such data has previously been furnished to the Air Force.

(7) Name of parent company and affiliates, and list of subsidiaries, if any.

(8) The APD may, prior to granting financial clearance, require the proposed contractor to agree in writing that it will furnish financial statements acceptable to the Air Force during the life of the contract. The required frequency of interim statements will be determined according to paragraph E–213.51(a) and will be made known to the proposed contractor. Fiscal year-end statements in such cases will be required within 90 days after the close of the fiscal year and interim statements within 30 days after the close of the interim period. The action authorized by this subparagraph normally will be taken by the APD upon determination that close surveillance will be required while contracts are outstanding and the proposed contractor does not publish financial statements adequate for such surveillance.

(c) Any financial statements required of a contractor will be specified in a letter, whether or not oral requests were made for the specific items needed.

E–214 *Appropriate information; purposes.* See §§ 82.28 and 82.27, Subchapter G of this title.

E–214.50 *Access to records.* If a company has an active contract providing for progress payments or advance payments, the company has a contractual obligation to furnish financial statements and other collateral information. See paragraph (g) of Progress Payments clause and paragraph (13) of the Advance Payments clause.

E–214.51 *Financial guaranties.* Agreements to provide financial assistance, performance guaranties, and subordination agreements will be reviewed for financial adequacy and legal sufficiency before granting financial clearance.

E–214.52 *Records and forms.* (a) Use AFPI Form 67, "Subordination Agreement (Applicable to One Government Contract)," AFPI Form 67A, "Subordination Agreement (Applicable to More Than One Government Contract)," AFPI Form 68, "Guaranty Agreement for Corporate Guarantor (Applicable to One Government Contract)," and AFPI Form 69A, "Guaranty Agreement for Corporate Guarantor (Applicable to More Than One Government Contract)," as required. Deviations must be approved by the contract Management Region (CMR) staff judge advocate. The CMR staff judge advocate's written approval will be affixed, preferably on a separate sheet. Each guaranty agreement will be supported by a current financial statement of the guarantor.

(b) Use AFPI Form 32, "Financial Data Record," and AFPI Form 33, "Memorandum for Credit Files," for recording financial data.

E–214.53 *Financial files.* MCPMF, Hq AMC, will maintain complete financial files on AF contractors. The only other complete financial file on any contractor will be maintained at the APD.

E–214.54 *Bureau of Budget clearance.* Bureau of Budget Clearance No. 21–R033 which expires February 15, 1963, has been assigned to requests for financial data within the scope of this part.

E–215 *Termination financing.* See § 82.29, Subchapter G of this title.

E–216 *Report of adverse development; prompt decisions.* (a) Production, quality control, financial, auditor and cognizant personnel will report pertinent facts to the ACO who will take whatever protective or remedial course of action is open to him. The ACO will report the situation in full to the procuring contracting officer with recommendations for additional action through normal channels by the most expeditious means. The PCO will take whatever action is proper, prudent, and in the best interests of the Government.

(b) All echelons will take whatever action they can within their scope of authority and will recommend any necessary additional action by higher authority to protect the interest of the Government. The interest of the Government may be better fostered by providing additional financial assistance and the advisability of recommending additional assistance should be given due weight in the light of the existing situation. All action will be governed by the need for continued production. The cost of reprocurement, the loss of production time, and the essentiality of the procurement should be evaluated against any risks of monetary loss that may be involved in recommending additional financial assistance or continuing existing assistance.

(c) Report known adverse developments through established channels to MCPMF, Hq AMC. Describe the adverse development, its expected impact upon continued satisfactory production by a contractor or subcontractor, remedial or protective measures taken, and recommend a course of action.

(d) MCPMF, Hq AMC, will explore the matter fully with AMC and, after coordination with MCP on the production aspects, will take appropriate action within the limits of the authority. If the adverse development involves a contractor or subcontractor having a bank loan guaranteed by the Air Force, a progress payment or an advance payment, NCPMF will describe the adverse development fully, its expected impact upon continued satisfactory production, remedial actions taken by MCPMF and lower echelons, and recommended additional action by higher authority in an electrically transmitted message or airmail letter to Hq USAF (AFMPP–PR).

(e) All echelons will take timely appropriate protective or remedial action when an adverse development occurs. Requests for information received by AMC activities directly from the Secretarial level of the Air Force will be handled as expeditiously as possible. Complete coordinated responses will be forwarded, through channels, over the signature of the Chief or Deputy Chief, Industrial Resources Division (MCPM), Hq AMC. In the interest of accuracy and completeness, telephonic responses will not be made unless requested. If telephonic response is made, the substance of the inquiry and the reply will be reduced to writing and forwarded by the Chief or Deputy Chief, (MCPM), Hq AMC to Hq USAF (AFMPP–PR) for information.

(f) In addition to the above, the director of procurement and production in each APD will arrange for the preparation of a report as of the end of January, April, July and October of AF contractors under the jurisdiction of the APD who have or who are developing serious financial problems because of production or other difficulties. Also see paragraph E–212. The report will be submitted by the APD through the Contract Management Region (CMR) to reach MCPMF, Hq AMC, by the 15th of February, May, August and November respectively. The report (RCS: 2 AMC–N31) will show, with respect to each contractor reported on, (i) the nature of the contractor's financial difficulty, (ii) factors involved, (iii) subsequent changes, if any, in the condition, (iv) significant financial changes that have taken place or can reasonably be expected to occur as a result of the difficulties experienced, and (v) constructive measures taken, contemplated, or recommended as necessary to protect the interests of the Government. The narrative report will be classified "For Official Use Only."

E–217 *Reports.* See § 82.31, Subchapter G of this title.

E–218 *Deviations; amendments.* See § 82.32, Subchapter G of this title.

E–219 *Interpretations.* Send written requests for interpretations, through channels to Hq USAF (AFMPP–PR).

E–220 *Foreign procurement.* See § 82.33 (a), Subchapter G of this title.

Part III—Guaranteed Loans

E–300 *Scope of part.* See § 82.34, Subchapter G of this title.

E–301 *Federal Reserve Banks.* See § 82.35, Subchapter G of this title.

E–302 *Board of Governors of the Federal Reserve System.* See § 82.36, Subchapter G of this title.

E–303 *Procedure on applications of a private financing institution.* See § 82.37, Subchapter G of this title.

(a) Authority to issue loan guarantees on behalf of the Air Force rests with the Deputy for Contract Financing to the Assistant Secretary (Financial Management).

(b) The financial aspects of an application for guarantee are evaluated by the Contract Financing Branch (AFAAF–6C), Hq USAF.

(c) A contracting officer receiving schedules of defense contracts from a Federal Reserve Bank will notify MCPMF, Hq AMC, to avoid duplication of effort.

E–304 *Loan guarantees to Federal Reserve Banks.* See § 82.38, Subchapter G of this title.

E–305 *Loan guarantees for terminated contracts.* See §82.39, Subchapter G of this title.

E–306 *Guaranteeing agency.* See § 82.40, Subchapter G of this title.

E–307 *100 percent guarantees.* See § 82.41, Subchapter G of this title.

E–308 *Asset formula.* See § 82.42, Subchapter G of this title.

E–309 *Amount and maturity of guaranteed loans.* See § 82.43, Subchapter G of this title.

E–310 *Assignments of claims under contracts.* See § 82.44, Subchapter G of this title. Also see § 1007.103–8 of this chapter and Part 6 of this Appendix E.

E–311 *Other collateral security.* See § 82.45, Subchapter G of this title.

E–312 *Contract surety bonds in relation to loan guarantees.* See § 82.46, Subchapter G of this title.

E–313 *Other borrowings.* See § 82.47, Subchapter G of this title.

E–314 *Eligibility certifications.* See § 82.48, Subchapter G of this title.

E–314.1 *Certificate of eligibility.* The Deputy Chief of Staff, Materiel, Hq USAF, has delegated his authority to issue Certificates of Eligibility, to the Commander, Air Materiel Command, with power of redelegation not below the level of the Chief or Deputy Chief, Industrial Resources Division (MCPM), Hq AMC. Redelegation has been made.

E–315 *Procedure for certificate of eligibility.* (a) Certificates may be requested by the Deputy for Contract Financing (SAAFM) to the Assistant Secretary (Financial Management); the Contract Financing Branch, (AFAAF–6C) Hq USAF; the Department of Army or Navy. Requests for certificates or related information will be directed to MCPMF, Hq AMC, who will immediately collect and evaluate the necessary supporting data.

(b) All procurement activities will furnish MCPMF supporting data upon request on a priority basis (normally within 5 working days). Personnel designated to process requests for certificates should be primarily interested in the procurement, production, or research and development aspects of the matter. Requests by MCPMF for supporting data will identify the principal contracts or subcontracts involved, the items or services being procured if known, and the undelivered dollar amount of the contracts or subcontracts if known.

(c) Data necessary to support a Certificate of Eligibility is set forth in § 82.49(f), Subchapter G of this title.

(d) After authorization of a loan guarantee by the Deputy for Contract Financing (SAAFM) on behalf of the Air Force, MCPMF, Hq AMC, will advise the cognizant procurement activity having contract administration responsibility of that fact. The procurement activity so advised will determine whether the contractor or subcontractor should receive special production surveillance with emphasis on quality control and delivery problems. See paragraph E-216 regarding report of adverse developments.

Part IV—Advance Payments

E-400 *Scope of part; references.* See § 82.50, Subchapter G of this title.

E-400.1 *Advance payments on subcontracts.* See § 82.50-1, Subchapter G of this title.

E-401 *Types of contracts that may have advance payments.* Advance payments in foreign countries for rent for periods necessary to conform with local custom and for tuition may be approved by the Director of Procurement in AMFEA or AMFPA.

E-402 *Advance payments in addition to progress payments.* See § 82.52, Subchapter G of this title.

E-403 *Interest.* See § 82.53, Subchapter G of this title.

E-404 *Standards; amounts; need.* See § 82.54, Subchapter G of this title.

E-405 *Statutory requirements.* See § 82.55, Subchapter G of this title.

E-406 *Responsibility; delegation of authority.* See § 82.56, Subchapter G of this title.

E-407 *Public Law 85-804; formally advertised contracts.* See § 82.57, Subchapter G of this title.

E-408 *Uses of advance payments.* See § 82.58, Subchapter G of this title.

E-409 *Standards for advance payment determinations; all contracts.* See § 82.59, Subchapter G of this title.

E-410 *Findings, determinations and authorization.* See § 82.60, Subchapter G of this title.

E-411 *Application for advance payment.* See § 82.61, Subchapter G of this title.

E-412 *Action by contracting officer; approval.* (a) The appropriate office within the Air Force is either MCPMF in AMC or RDMK in ARDC, hereinafter referred to as "Financial Branch." One copy is sufficient. The data in § 82.62 (e) and (f), Subchapter G of this title will be supplied by MCPMF or RDMK, as appropriate. Contracting officers in the Financial Branch have been delegated authority to act as the duly authorized representatives of the Commander, AMC, or ARDC, with respect to advance payments. Other contracting officers, including those exercising the functions outlined in §§ 1054.2703 to 1054.2706 of this chapter are not authorized to perform functions specifically delegated to contracting officers in the Financial Branch.

(b) If an FCR indicates the need for an advance payment to assure performance, or if a prospective contractor requests an advance payment, the procuring contracting officer may not proceed with the procurement until approval at the Secretarial level in the Air Force is obtained. The matter should be processed through channels with an appropriate recommendation to the Financial Branch which will process the matter according to paragraph E-212.

(c) If an ACO receives a request for an advance payment on an existing contract, or if it becomes apparent during administration of a contract that an advance payment would best serve the interest of the Government, he will make an appropriate recommendation through normal channels to the PCO who will add his recommendation and forward it to the Financial Branch. (Also see paragraph E-412.1.)

(d) Upon receipt of the data set forth in §82.62, Subchapter G of this title, the Financial Branch will arrange a meeting with the contracting officer or his representative, and the contractor to discuss the contractor's financial problems. Prior to the meeting, the Financial Branch will request the contractor to furnish to the extent that such material is not already in the files of the Financial Branch, as much of the information set forth in §§ 82.28 and 82.61, Subpart G of this title as is reasonably necessary to a conclusion regarding the necessity or propriety of an advance payment in the particular case.

(e) If, after consideration of all of the facts in the case, the Financial Branch considers that authority to make an advance payment should be requested, a letter of recommendation will be forwarded to Hq USAF, (AFMPP-PR) over the signature of the Director of Procurement (MCPM), Hq ARDC, or Chief or Deputy Chief, Industrial Resources Division, Hq AMC, as appropriate. The Director of Procurement and Production, Hq USAF, will formulate a recommendation and obtain necessary coordination within the Air Staff before presenting the matter to Secretarial level.

(f) The information to be forwarded to Hq USAF in support of a favorable recommendation is set forth in § 82.62 (d) and (e), Subchapter G of this title. The balance of the data in paragraph E-412 should be summarized in the forwarding letter. Do not send a copy of the contract unless requested.

E-412.1 *Action by contracting officer; disapproval.* The Financial Branch will forward the file to Hq USAF (AFMPP-PR).

E-412.50 *Procedures.* (a) *Payment of advance payment moneys to contractor.* (1) Advance payments to a contractor will be approved by contracting officers in the Financial Branch, authorized to approve such payments. Payments approved will be deposited immediately by the contractor in the special bank account. Approved advance payments will only be in amounts sufficient to satisfy the requirements of the contractor during a limited period.

(2) Requests for advance payments will be submitted (in duplicate) periodically to contracting officers authorized to approve such payments in the Financial Branch. Such requests will include a schedule (in duplicate) of cash requirements during the remaining period of the contract. The contractor will be advised that the first request for an advance payment must include seven copies of Standard Form 1034, "Public Voucher for Purchases and Service other than Personal," signed by the contractor. The request will be sent directly to the Financial Branch with a statement by the contractor that all amounts stated are reasonable and accurate and that payment is necessary.

(3) All subsequent Standard Form 1034 requests for payment of advance payments will be routed through the ACO who will add his comments and recommendations and forward them to the Financial Branch.

(4) The contracting officer in the Financial Branch will examine each request, supporting schedule, and the comments of the ACO. If satisfied that the contractor requires the amount requested and that such amount, plus sums previously advanced to the contractor, remaining unliquidated will not be in excess of the advance payments authorized, he will execute the voucher. The contracting officer will authorize the accounting and finance officer to make the advance payment covered by the voucher and will send him the executed voucher, with the original and one copy of the contractor's request.

E-413 *Security; supervision; covenants.* See § 82.63, Subchapter G of this title.

E-414 *Forms of contract provisions and supplemental agreements.* Contract provision recommended for inclusion in the contract or supplemental agreement will be attached to the proposed findings submitted pursuant to § 82.60. Variations from the approved form will be identified in the forwarding letter referred to in paragraph E-412.

E-414.1 *Forms of agreement for special bank account.* If the proposed form of bank agreement is identical to the form in § 82.64-1, Subchapter G of this title, include a statement to that effect in the forwarding letter (see paragraph E-412) and do not forward the form.

E-414.2 *Advance payment provisions.* See § 82.64-2, Subchapter G of this title.

E-415 *Pooled advance payments; general.* The authority and requirements for approval of advance payment pool agreements are the same as for a single contract.

(a) If it is desired to include a contract in an existing advance payment pool agreement administered by another AF procurement activity (e.g., ARDC), concurrence by the director of procurement of that activity is required before the contract may be included.

(b) Upon receipt of a request for advance payments, the Financial Branch will determine whether a pool agreement would better serve the interest of the Government and whether it would be feasible to request authority to enter into such an agreement.

(c) If a contractor requests inclusion of additional contracts or supplements to existing contracts in existing pool agreements the contracting officer will forward such requests to the Financial Branch with the following information: (i) Originating office, (ii) name and address of contractor, (iii) contracting officer, (iv) PR number, (v) amount of contract or supplemental agreement, (vi) duration of contract and identity of supply or service being procured, (vii) type of contract, (viii) contract number assigned and (ix) accounting and finance officer to make payments.

(d) Contract Clause: Upon approval of the advance payment and receipt of authority to enter into a pool agreement, the following clause will be added to each contract which is to become part of the advance payment pool agreement:

ADVANCE PAYMENTS

Advance payments will be made for the work called for hereunder in accordance with the Findings, Determinations and Authorization for advance payments dated _____. Payments made pursuant to this clause shall be governed by the terms and conditions of the Advance Payment Pool Agreement dated _____ as it may be amended from time to time between the United States of America and _____ which agreement is hereby incorporated by reference with the same force and effect as though fully set forth herein.

(e) If an advance payment pool agreement is entered into, disbursing responsibility on all contracts in the pool will be transferred to a single accounting and finance office to be designated by the Financial Branch.

(f) If a university is a party to an advance-payment pool agreement under the terms of which all contracts of a designated class with the university are financed, new contracts with the university will not be entered into without prior clearance with the Financial Branch, Hq ARDC. If financing of such new contracts would require an increase in the amount of advance payment authorization, prior approval of Hq USAF must be obtained. See paragraph E-212.

E-415.1 *Distribution between pool contracts and designated pool contracts.* See § 82.65-1, Subchapter G of this title.

E-416 *Advance payment pool agreements; special features.* See § 82.66, Subchapter G of this title.

E-417 *Liquidation; designated pool contracts; administering office.* The administering office designated in all pool agreements will normally be the Financial Branch. If it is desired to designate another office the forwarding letter will name the office and give reasons why it would be in the best interests of the Air Force to use such office.

E-418 *Pooled advance payments; understandings.* See § 82.68, Subchapter G of this title.

E-419 *Excluded advance payments.* See § 82.68a, Subchapter G of this title.

Part V—Progress Payments Based on Costs

E-500 *Scope.* See § 82.69 Subchapter G of this title.

E-500.2 *Exclusions.* See § 82.69-1, Subchapter G of this title. Cost-reimbursement type letter contracts as described in § 1007.2503 of this chapter are also excluded.

E-501 *Percentage or Stage of completion.* See § 82.70, Subchapter G of this title.

E-502 *General.* See § 82.71, Subchapter G of this title.

E-503 *Customary progress payments; standards.* See § 82.72, Subchapter G of this title.

E-504 *Formal advertising; small business restricted advertising.* See § 82.73, Subchapter G of this title.

E-504.5 *Total costs clause preferable.* See § 82.73-5, Subchapter G of this title. Use the clause in § 82.79, Subchapter G of this title in advertised procurement.

E-504.6 *Non-responsive bids; uninvited progress payment condition.* If progress payments will not be available include a statement to that effect in the IFB. (See § 2.201 of this title and § 1002.201 of this chapter.)

E-505 *Unusual progress payments; standards; procedure.* See §§ 82.74, 82.26 and 82.86, Subchapter G of this title. The Commander, AMC, has delegated to the Director of Procurement and Production, Hq AMC, his authority to approve, or to recommend to higher authority, approval of unusual progress payments. The Director, Procurement and Production, Hq AMC, has redelegated his authority to a Deputy Director of Procurement and Production, Hq AMC, and to the Commander and Vice Commander, ARDC. The Commander, ARDC, has redelegated his authority to the Director of Research, Hq ARDC. Submit requests for approval of unusual progress payments to AMC (MCPMF) or ARDC (RDMK) as appropriate.

E-506 *Accounting systems and control.* Obtain information as to the adequacy of an accounting system and controls from the Air Force Auditor General.

E-507 *Information required.* See § 82.76, Subchapter G of this title.

E-508 *Advance payments.* See § 82.77, Subchapter G of this title.

E-509 *Definitions.* See § 82.78, Subchapter G of this title.

E-510 *Contract clauses.* See § 82.79, Subchapter G of this title.

E-511 *General instructions for progress payment clauses.* See § 82.80, Subchapter G of this title.

E-512 *Progress payment liquidation.* See § 82.81, Subchapter G of this title.

E-513 *Subcontracts.* See § 82.82, Subchapter G of this title.

E-514 *Progress payments on subcontracts under cost-reimbursement types of prime contracts.* See § 82.83, Subchapter G of this title.

E-515 *Letter contracts.* See § 82.84, Subchapter G of this title.

E-516 *Transition.* See § 82.85, Subchapter G of this title.

E-517 *Contract financing office clearance.* See §§ 82.86, 82.74 and 82.26, Subchapter G of this title. The Contract Financing Office in the Air Force is the Deputy for Contract Financing to the Assistant Secretary of the Air Force (Financial Management) (SAFFM), Washington, D.C.

E-518 *Coordination.* See § 82.87, Subchapter G of this title.

E-519 *Contractor's request.* See § 82.88, Subchapter G of this title.

E-520 *Audit.* See § 82.89, Subchapter G of this title.

E-521 *Administration; general.* See § 82.90, Subchapter G of this title.

E-522 *Adjustments; retroactive price reduction; refunds.* See § 82.91, Subchapter G of this title.

E-523 *Maximum unliquidated amount.* See § 82.92, Subchapter G of this title.

E-524 *Suspension or reduction of progress payments; general.* See § 82.93, Subchapter G of this title.

E-525 *Government title.* See § 82.94, Subchapter G of this title.

E-526 *Consideration for progress payments; awards.* See § 82.95, Subchapter G of this title.

E-527 *Amendments to provide progress payments.* See § 82.96, Subchapter G of this title.

E-528 *Consideration for amendments providing for progress payments.* See § 82.97, Subchapter G of this title.

Part VI—Assignments of Claims Arising Under Government Contracts

E-600 *Scope of part.* This part states procedures and responsibilities relating to the assignment of claims for moneys due or to become due under contracts providing for payments aggregating $1,000 or more.

E-601 *Applicability of part.* This part applies to all AF procurement activities.

E-602 *General.* Pursuant to the Assignment of Claims Act of 1940 (Public Law 811, 76th Cong.), as amended, assignment of moneys due or to become due under Government contracts may be made, and the requirements under which such assignment can be made are outlined in § 7.103-8 of this title.

E-603 *Filing notices of assignment and instruments of assignment.* See instructions in § 7.103-8 of this title.

E-604 *Copies of notices for contracting officer and acknowledgement thereof.* (a) The four copies of notices of assignment and instruments of assignment directed to the contracting officer will be sent by receiving personnel as follows:

(1) If the assignment relates to a contract written or administered by an AMC procurement activity, to the contracting officer appointed for the purpose of acknowledging assignments at the AMC procurement activity.

(2) If the assignment relates to a contract written by an ARDC procurement activity, contracting officers mentioned in subparagraphs (A) and (B) below, will follow the procedure in paragraph (b).

(A) If received prior to distribution of the contract, to the cognizant procuring contracting officer.

(B) If received after distribution of the contract, to the cognizant administrative contracting officer.

(3) If the assignment relates to a contract written or administered by an AF procurement activity other than AMC or ARDC, to the appropriate contracting officer at that procurement activity.

(b) The contracting officer specified above to whom the notices of assignment and instruments will be sent, will:

(1) Examine notices of assignment and instruments of assignment and the contract involved.

(2) If satisfied that the assignment is in proper form, was properly executed, and that the contractor is empowered under the contract to assign the claim or claims involved, acknowledge receipt of the notice of assignment in the space provided.

(3) Return three copies of the notice thus acknowledged to the assignee.

(4) When the AMC contracting officer acknowledges the notice of assignment and instrument of assignment, the fourth copy of the notice of assignment and the copy of the instrument of assignment will be filed with the contract.

(5) When the ARDC procuring contracting officer acknowledges the notice of assignment and instrument of assignment prior to distribution of the contract, and when the contract is to be administered by an AMC field procurement activity, the fourth copy of the notice thus acknowledged and the copy of the instrument of assignment will be transmitted with the copy (or copies) of the contract when forwarded to the AMC field procurement activity for administration purposes.

(c) The Accounting and Finance Division (MCCA), Hq AMC, has advised that accounting and finance officers will not make payments to assignees unless the first invoice or voucher covering the amounts to be paid the assignee is accompanied by two copies of the notice of assignment duly acknowledged by the contracting officer.

E-605 *Procedure when acknowledgment is refused or delayed.* If, for any reason, the assignment involved is one which the contract does not authorize the contractor to make, or is not in proper form, or is not properly executed, the contracting officer will return the copies of the notice of assignment and the copy of the instrument of assignment to the assignee with an explanation of the objections to the proposed assignment and the acknowledgment form on the notices of assignment will not be executed by the contracting officer. In addition if, upon receipt of notices of assignment and the copy of the instrument of assignment, it appears that a considerable delay may occur before the notices of assignment are acknowledged or returned unacknowledged as the case may be, the contracting officer will advise the assignee that such a delay is likely to occur and will normally furnish the assignee a statement of the reasons for the delay.

E-606 *Further assignments and reassignments.* Contracts permitting the assignment of claims for moneys due or to become due hereunder also permit such claims to be further assigned and reassigned by the assignee to a bank, trust company, or other financing institution, including any Federal lending agencies. Copies of written notices of further assignment and reassignment and copies of instruments of such further assignment and reassignment will be processed in the same manner as copies of initial assignment and instruments of initial assignment. The three acknowledged copies of the notice of further assignment or reassignment will be sent to the assignee under the assignment thus acknowledged.

E-607 *Examination of assignment.* In ascertaining that an assignment is in proper form, is properly executed, and is one that the contractor is entitled to make under the contract, contracting officers will satisfy themselves that:

(a) The contract has been duly executed and approved where necessary. Contractors frequently make assignments of claims for moneys due or to become due under a contract, upon notice of award of the contract, even though the contract has neither been executed nor approved. Copies of notices of such assignment will be immediately returned to the assignee unacknowledged.

(b) The contract is one under which claims may be assigned under the provisions of the Assignment of Claims Act of 1940. In rare cases, Secret or Confidential contracts will contain provisions prohibiting assignments of claims thereunder. It should be noted that assignment of claims under Secret or Confidential contracts, permitting the assignment thereof, will not be acknowledged by contracting officers until adequate

steps have been taken to protect the interests of the Government.

(c) The assignment covers all amounts payable under the contract, and not already paid, and is not made to more than one person, and the assignee is a bank, trust company, or other financing institution, including any Federal lending agency. In this connection the following will be noted:

(1) Most contracts provide that any assignment of claims thereunder will cover all amounts payable under the contract, and not already paid, and will not be made to more than one person except that assignments may be made to one person as agent or trustee for two or more persons participating in the financing of a contractor. Under the Assignment of Claims Act, however, contracts may provide for assignments of part of the contractor's claims for money due or to become due or for such assignments to more than one person. In the absence of contract provisions authorizing such assignments, the assignments are unlawful. Because of the administrative burden on accounting and finance officers, partial assignments or assignments to more than one person, if permitted under a contract, should be limited to cases where the contractor is financially obligated to Government agencies and the assignment is made for the protection of such Government agencies.

(2) Where the contract provides for advance payments, whether or not advance payments have actually been made to the contractor, notice of assignment will not be acknowledged unless:

(A) The assignment expressly recites that the rights of the assignee are subordinate to the rights of the Government:

(1) To withhold from the contractor amounts required to liquidate advance payments.

(ii) To have deposited in the contractor's special advance payment bank account all moneys payable to the contractor which the contract requires the contractor to deposit in that account.

(B) The contracting officer obtains from the assignee an agreement that the assignee will pay to the contractor all amounts which may be received by the assignee and which the contractor is obligated by the contract to deposit in its special advance payment bank account. See § 82.64, Subchapter G of this title. In special cases, additional documents signed by the contractor or the assignee or both, thought necessary by the contracting officer to protect the interests of the Government against the assignee, may be required by the contracting officer.

Assignments such as those referred to in this subparagraph are subordinate to the rights of the Government against the contractor under the contract involved; for that reason they are not assignments of less than all amounts payable under the contract nor assignments to more than one person.

(d) The assignment will cover only claims for money due or to become due under the contract involved. It must not cover any of the obligations or duties of the contractor under the contract. The contracting officer will be sure that the copy of the instrument of assignment which is submitted to him is a duplicate of the original instrument, or has been certified as a true copy, acknowledged as such before a notary public or other officer authorized by law to administer oaths. Care will also be taken to ascertain that the assignment has been properly executed.

(1) Assignments by corporations should be executed by an authorized representative, attested by the secretary or assistant secretary of the corporation, with the seal of the corporation impressed upon the assignments or in lieu of such seal, accompanied by a certified copy of a resolution of the corporation board of directors authorizing the representative involved to execute the assignment.

(2) If the contractor is a partnership, the instrument of assignment may be signed by one partner, provided it is accompanied by a duly acknowledged certificate to the effect that the signer is a general partner of the partnership.

(3) If the contractor is an individual, the assignment must be signed by such individual and duly acknowledged by him before a notary public or other person authorized to administer oaths.

(e) If there have been previous assignments of claims under the contract, unless assignments to more than one person thereunder are permitted by the contract provisions, the previous assignments have been fully released. Attention is again invited to paragraph E-605 which points out that contracts specifically authorize further assignments and reassignments of claims thereunder.

E-608 *Assignment of claims clause, "No setoff" provision.* See § 7.103-8 of this title.

E-609 *Releases of assignments.* Releases of assignments require the same execution and acknowledgment by the assignee as required of an assignor in the case of an assignment. Releases are required only in cases of reassignment or where further payments are anticipated under the contract.

E-610 *Transfers of businesses and corporate mergers.* Transfers of an entire business, corporate mergers, and assignments by operation of law, each of which may affect the assignment of claims under a contract, are not prohibited by the Federal statutes and hence do not depend upon the Assignment of Claims Act of 1940 for their validity. (See § 16.505 of this title and § 1016.505 of this chapter.) However, in the case of transfers of a business or corporate mergers, notices of assignment or claims under the contract made by the transferee or successor corporation will not be acknowledged until a supplemental agreement has been executed substituting the transferee or successor corporation as the contractor with the Government. Similarly, before acknowledging assignments made by transferees by operation of law, the contracting officer will require the submission of a certified copy of the document evidencing the transfer by operation of law.

E-611 *Procedure.* The Financial Branch (MCPMF), Hq AMC will maintain staff supervision over the procedure for processing and recording requests for acknowledgement of assignments of moneys due or to become due under contracts written or administered at AMC procurement activities, and will be available for consultation and advice.

E-612 *Records.* Contracting officers designated to acknowledge assignments of contracts written or administered by AMC procurement activities will use AFPI Form 26, "Record of Assignment of Contractual Claims" to keep a record of all assignments, acknowledged by them, of moneys due or to become due under contracts and of all releases of such assignments.

(Sec. 8012, 70A Stat. 488; 10 U.S.C. 8012. Interpret or apply secs. 2301-2314, 70A Stat. 127-133; 10 U.S.C. 2301-2314)

PART 1016—PROCUREMENT FORMS

Subpart D—Construction Contract Forms

1. Section 1016.400 is added and §§ 1016.401 and 1016.401-4 are revised, as follows:

§ 1016.400 Scope of subpart.

See § 16.400 of this title.

§ 1016.401 Standard forms 19, 19A, 20, 21, 22, 23, 23A, and DD Form 1260.

§ 1016.401-4 Terms, conditions and provisions.

See § 16.401-4 of this title and Subpart EE, Part 1007 of this chapter. Whenever Standard Form 19 is used, the following will be added:

NOTE: Unless a lesser number of days is inserted by the bidder for acceptance of his bid, the bid will be considered for acceptance until 60 days have expired from the date of opening.

(Sec. 8012, 70A Stat. 488; 10 U.S.C. 8012. Interpret or apply secs. 2301-2314, 70A Stat. 127-133; 10 U.S.C. 2301-2314)

PART 1052—PREAWARD SURVEYS

Subpart D—Management of the FCR

Revise the introductory paragraph in § 1052.402 to read as follows:

§ 1052.402 Overall management of the FCR.

Staff supervision of the FCR policies and procedures is by the industrial Resources Division (MCPM), Hq AMC. The cognizant contract management region commander is responsible for maintaining surveillance over the technical sufficiency and timely execution of requests for FCRs. An FCR monitor will be appointed from the Production Division by each AFPR and each APD chief. The monitor will be responsible for the management aspects of the FCR as covered by this subpart. Chiefs of APDs and AFPRs will establish necessary lines of coordination, priority of FCR work over routine work by all organizations, and invest in the FCR monitor sufficient control authority to enable accomplishment of the FCR management with a minimum of assistance or supervision from higher administrative levels. Duties of the FCR monitor include:

* * * * *

Subpart E—Facility Advisory Boards

1. Revise § 1052.502 to read as follows:

§ 1052.502 Establishment.

Each APD chief and AFPR is responsible for establishment of FABs under his command.

§ 1052.503 [Amendment]

2. Delete paragraphs (b) and (c) in § 1052.503.

(Sec. 8012, 70A Stat. 488; 10 U.S.C. 8012. Interpret or apply secs. 2301-2314, 70A Stat. 127-133; 10 U.S.C. 2301-2314)

PART 1053—CONTRACTS; GENERAL

Subpart A—Miscellaneous Requirements

Subpart A is deleted and reserved.

Subpart D—Administrative Requirements

§ 1053.404-2 [Amendment]

1. In § 1053.404-2:

a. The symbol "AMA" is changed to "CMR," in paragraphs (c), (j) and (k), and the first sentence of paragraph (b) now reads as follows: "A component of a contract management region (CMR)."

b. Revise the second note to read as follows:

NOTE: * * *
(1) * * *
(2) AF personnel will address all official communications intended for the contractor activities at test and missile operational sites through the cognizant AMCTSO/AMCMFO.

2. Revise § 1053.404-5 to read as follows:

§ 1053.404-5 Geographical areas of CMRs, APDs and AFPROs.

(a) *CMRs.*

(1) *Eastern Contract Management Region (ECMR).* The States of Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Maryland, Delaware, Pennsylvania, District of Columbia, West Virginia, Virginia, North Carolina, South Carolina, Mississippi, Alabama, Georgia, Florida and the Caribbean areas.

(2) *Central Contract Management Region (CCMR).* North Dakota, South Dakota, Minnesota, Iowa, Nebraska, Kansas, Oklahoma, Texas, Missouri, Arkansas, Louisiana, Tennessee, Kentucky, Illinois, Indiana, Ohio, Michigan, Wisconsin, and the Canadian Provinces.

(3) *Western Contract Management Region (WCMR).* Montana, Wyoming, Colorado, New Mexico, Arizona, Utah, Idaho, Washington, Oregon, California, Nevada, Alaska and Hawaii.

(b) *APDs.*

(1) *Arizona Air Procurement District (WCMR):* Arizona and New Mexico.

(2) *Atlanta Air Procurement District (ECMR):* Alabama, Mississippi, Georgia, South Carolina, and those portions of the States of Virginia and North Carolina located west of U.S. Highway 52, excluding any cities on that highway.

(3) *Boston Air Procurement District (ECMR):* Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and Connecticut (less Fairfield County).

(4) *Chicago Air Procurement District (CCMR):* Iowa, and that portion of Illinois north of the northern boundaries of the following counties: Adams, Brown, Cass, Douglas, Edgar, Macon, Menard, Moultrie, and Sangamon.

(5) *Cleveland Air Procurement District (CCMR):* Beginning at western boundary of the Ohio State Line, that portion of Ohio north of Highways 30 and 30S and the cities located thereon (excluding the city of Lima) to the western boundary of Marion County and that portion of Ohio north of the southern boundaries of the following counties: Marion, Morrow, Knox, Muskingum, Noble, and Monroe.

(6) *Dallas Air Procurement District (CCMR):* Texas and Louisana.

(7) *Dayton Air Procurement District (CCMR):* Kentucky, Tennessee; and beginning at the western boundary of the Ohio State Line, that portion of Ohio south of Highways 30 and 30S exclusive of cities on said highway lines (but including Lima), to the western boundary of Marion County and that portion of Ohio south of the southern boundaries of the following counties: Marion, Morrow, Knox, Muskingum, Noble, and Monroe.

(8) *Detroit Air Procurement District (CCMR):* Michigan and Dominion of Canada.

(9) *Indianapolis Air Procurement District (CCMR):* Indiana.

(10) *Los Angeles Air Procurement District (WCMR):* Kern, San Luis Obispo, San Bernardino, Los Angeles, Orange, Riverside, Santa Barbara, Ventura Counties in California, and Clark County, Nevada.

(11) *Milwaukee Air Procurement District (CCMR):* Wisconsin, Minnesota, North Dakota, and South Dakota.

(12) *Newark Air Procurement District (ECMR):* Richmond County in New York State and following counties in New Jersey: Bergen, Essex, Hudson, Hunterdon, Mercer, Middlesex, Monmouth, Morris, Ocean, Passaic, Somerset, Sussex, Union, and Warren.

(13) *New York Air Procurement District (ECMR):* Fairfield County in Connecticut; and the following counties in New York State: Bronx, Columbia, Dutchess, Greene, Kings, Nassau, New York, Orange, Putnam, Queens, Rockland, Suffolk, Ulster, and Westchester.

(14) *Ogden Air Procurement District (WCMR):* Utah, Idaho, Montana, and Wyoming.

(15) *Orlando Air Procurement District (ECMR):* Florida and the Caribbean area.

(16) *Philadelphia Air Procurement District (ECMR):* Pennsylvania, Delaware, Maryland, West Virginia, District of Columbia, and the following counties in New Jersey: Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester, and Salem.

(17) *Richmond Air Procurement District (ECMR):* Virginia and North Carolina east of U.S. Highway 52, including all cities on that highway.

(18) *Rochester Air Procurement District (ECMR):* That portion of New York State north and west of, but not including, Ulster, Orange, Greene, and Columbia Counties.

(19) *San Diego Air Procurement District (WCMR):* Imperial and San Diego Counties in California.

(20) *San Francisco Air Procurement District (WCMR):* Oregon, Nevada less Clark County, all of California north of the northern boundaries of San Luis Obispo, Kern, and San Bernardino Counties, and Hawaii.

(21) *St. Louis Air Procurement District (CCMR):* Missouri, Nebraska, Oklahoma, Kansas, Arkansas, and that portion of Illinois south of the northern boundaries of the following counties: Cass, Adams, Brown, Douglas, Edgar, Macon, Menard, Moultrie, and Sangamon.

(c) *AFPROs (Those with geographical areas).*

(1) *Boeing, Seattle (WCMR):* Washington and Alaska.

(2) *Martin, Denver (WCMR):* Colorado.

Subpart E—Review and Approval of Awards and Contracts

Revise § 1053.510(a)(2) to read as follows:

§ 1053.510 Evidence of contract approval on contracts subject to manual approval.

(a) * * *

(2) When the contract has not yet been executed and when approval of an award is requested, the authorized individual will manually sign his approval either on the face of the Notice of Award or on a separate award page entitled "Approval of Award." This "Approval of Award" page will be retained in the contract file. If the Notice of Award is not manually approved on its face, it will contain the following language:

Award of this contract has been approved by ---------- on
(Name and title)
----------by manual signature on Approval
(Date)
of Award page which is retained in the official contract file.

Subpart G—Contractor Acknowledgment of Receipt of Contractual Documents

Subpart G is deleted.

Subpart K—Use of New Contracts for Follow-on Procurements

Subpart K is deleted.

Subpart O—Prior Government Ownership of Items Being Procured

Subpart O is deleted.

Subpart P—Contracts Between the Government and Its Employees, Proposed Subcontracts Between Prime Contractors and Government Employees

Subpart P is deleted.

Subpart Q—Air Force Policy; Fur Procurement

Subpart Q is deleted.

Subpart R—Preparation and Use of Certain Kinds of Base Procurement Contracts

1. In § 1053.1802:

a. Subparagraphs (1) to (4) are deleted and the following substituted therefor:

§ 1053.1802 Contracts for care of remains of deceased Government personnel.

(a) *General.* (1) Due to the nature of the services, the invitation for bids will not be posted in public places.

(2) When cremation is requested, cremation services will be procured on an individual basis. A suitable casket (cloth-covered suggested) and an urn may be provided.

(3) In the case of all nonviewable remains, a sealer type casket with an all-metal innerseal will be called for. When death is due to a communicable disease and the remains are viewable, a sealer type casket with a viewing panel of glass or acrylic and metal innerseal will be called for. (See paragraph 4.2c(5), specification MIL-C-9876 (USAF).)

b. Paragraph (b)(2)(i) is revised to read as follows:

(b) * * *

(2) The following insertions will be made on the Standard Form 33:

(i) In the introductory paragraph, following the words "for delivery FOB," insert the words "destination as provided in the attached Schedule (Part I) and Specification MIL-C-9876 (USAF)."

2. Revise § 1053.1803(b) to read as follows:

§ 1053.1803 Department of Defense commercial warehousing and related services for household goods of military personnel.

* * * * *

(b) *General.* To achieve maximum uniformity and desired efficiency in performing this function, the duties of the contracting officer located in the transportation activity and procedures to be used are set forth as follows:

(1) Obtain the following, from the transportation officer, on each individual request for services:

(i) Completed DD Form 1099, "Application for Non-Temporary Storage of Household Goods" (chapter 2, part 9, AFM 75-1).

(ii) Completed Standard Form 116, "Application for Transportation of Household Goods," and power of attorney or informal letter of authorization is required only when for some reason the DD Form 1099 cannot be accomplished. Standard Form 116 should indicate:

(*a*) Name and grade of military member.

(*b*) Location of household goods to be stored.

(*c*) Date the household goods will be available for pickup.

(*d*) Approximate weight of household goods involved.

(*e*) The maximum weight allowance of storage the individual member is entitled to at Government expense. In determining storage entitlement, the transportation officer will consider other actions, such as packing and crating, that might have been processed for the same individual under authority of the same travel orders.

(*f*) Other information required in processing the action.

(iii) Sufficient copies of the individual travel orders necessary for required distribution.

(iv) A statement to the effect that commercial storage has been determined to be more economical than Government storage.

(2) Determine the order of preference for selecting the basic agreement to be used for each individual requirement. The cost of the service will be the sole determining factor. In the event of identical rates under two or more basic agreements, the requirements should be distributed according to AF policy concerning award of equal low bids.

(3) Obtain either oral or written offers, as appropriate, from commercial storage firms according to the basic agreement.

(4) Execute service orders (DD Form 1164) in sufficient quantity to satisfy distribution requirements. Where travel orders authorizing the services quote an open allotment, the related service orders will cite that open allotment accounting classification, provided the services are performed in the same fiscal year in which the funds are applicable. If the travel orders are issued in one fiscal year and the services are not performed until the following fiscal year, or where supplemental service orders are issued to continue the services or provide removal and post storage services, the correct accounting classification will be obtained from the accounting and finance office. Neither initial service orders nor supplemental service orders will cover services extending beyond the fiscal year during which the cited appropriation is applicable. All service orders of $2,500 or less will cite authority 10 U.S.C. 2304(a)(3), those exceeding $2,500 will cite 10 U.S.C. 2304(a)(10).

(5) When required, effect renewal of all active service orders in the following manner: (i) Prepare a single supplemental service order, on reproducible master, for each contractor involved, listing all service orders by order number with that particular firm, authorizing extension of services; (ii) reproduce sufficient copies to provide one copy for each individual service order file involved and distribution to each recipient of the basic service order; (iii) cite the correct allotment for each service order recorded on the supplement; and (iv) relate the blanket supplemental order to a selected basic service order using corresponding numbers.

(6) Receive initially all invoices covering services performed. Reconcile charges thereon with rates under the applicable service order to determine accuracy and correctness of billings. Certify on invoices involving storage only that the services have been rendered and forward to accounting and finance officer for payment. Invoices covering prestorage or poststorage services will be forwarded to the transportation officer or his designee for a certification of performance prior to submission to the accounting and finance officer.

(7) Maintain jacket file, by individual lot, containing complete record of each transaction. As a minimum this file should include:

(i) Copy of DD Form 1099.

(ii) Copy of Travel Orders.

(iii) Statement by transportation officer indicating commercial storage was determined to be more economical.

(iv) Record of contractors with whom contract was made with a statement as to why the service was placed with other than the lowest contractor, if applicable.

(v) Copies of initial service order and all supplemental orders issued thereto (DD Form 1164).

(vi) Copy of contractor's offer, when appropriate (DD Form 1163).

(vii) Copies of all reports indicating shortages or damages.

(viii) Copy of inventory list.

(ix) Copy of weight certificate.

(x) Copy of the warehouse receipt submitted by the contractor.

(xi) Records relative to partial removal of household goods.

(xii) Record of all payments effected.

(xiii) Other data considered necessary to proper and efficient administration of the transaction.

(8) Upon receipt of notification from the transportation officer, advise the contractor of the final date to which the individual is entitled to storage at Government expense and that all storage charges accruing thereafter will be a matter between the contractor and the individual concerned. Simultaneously, the contractor will be provided with the individual's mailing address, and the jacket file will be appropriately documented to reflect the action. The fact that household goods remain in storage beyond the individual's period of entitlement does not alter the Government's responsibility to defray the cost for removal and poststorage services. However, supplemental orders requesting this service should not be issued until the contractor has advised that all storage charges, payable by the individual, have been satisfied.

(Sec. 8012, 70A Stat. 488; 10 U.S.C. 8012. Interpret or apply secs. 2301-2314, 70A Stat. 127-133; 10 U.S.C. 2301-2314)

PART 1054—CONTRACT ADMINISTRATION

Subpart A—Administration of AF Contracts by Contracting Officers

Revise § 1054.104 (n), and (dd) to read as follows:

§ 1054.104 Matters of contract administration to be handled by administrative contracting officers.

* * * * *

(n) Report all litigation involving a CPFF contractor to the Office of the Judge Advocate General, Hq USAF. Confer with his staff judge advocate as required.

* * * * *

(dd) When advised by the contractor according to § 1007.4053 of this chapter that an item being procured under any contract he is administering will contain radioactive materials, he will forward this information to AMC (MCDPE), SAAMA (SANATF), and the inventory manager of the commodity.

Subpart C—Contract Change Notifications

Revise § 1054.302 to read as follows:

§ 1054.302 Definitions.

(a) *Change order.* See § 1001.201-22 of this chapter.

(b) *Contract change notification (CCN).* See § 1001.201-50 of this chapter.

(c) *Supplemental agreement.* See § 1.201-19 of this title.

(d) *Master serial number.* A number assigned by the contract distribution office of the issuing activity, for keeping a record of CCN's in consecutive order as issued.

Subpart G—Contract Change Releases

1. Revise § 1054.702(b) to read as follows:

§ 1054.702 Definitions.

* * * * *

(b) *Logistic Support Manager (LSM) or Inventory Manager (IM).* As used herein the AMA or depot having the inventory management responsibility for the end article under procurement.

§ 1054.704 [Amendment]

2. In § 1054.704(a), change symbol "CCM" to "IM" in subparagraphs (3) and (5). Also in subparagraph (5), change "commodity class" to "IM."

Subpart I—Wage and Salary Acceptance

§ 1054.911 [Amendment]

In § 1054.911(b), delete the second sentence.

Subpart R—Renegotiation Board Inquiries

§ 1054.1803 [Deletion]

1. Section 1054.1803 is deleted.

2. Add § 1054.1802 as follows:

§ 1054.1802 Responsibility and procedures.

(a) The Renegotiation Board will secure procurement and contract information directly from the source of information, i.e., AMC field procurement activity, APD, AFPRO, and from the headquarters of other major commands. The Board may, if it deems necessary, contact the appropriate contract management region having surveillance of the APD, AFPRO, TSO, or Hq AMC (MCPKTT) for information.

(b) The commander of an AMC field procurement activity, chief of an APD or AFPRO, commander of contract management region or major commands will designate an individual to monitor requests from the Renegotiation Board. The individual's name and office identification will be furnished to AMC (MCPKTT). The monitor will insure receipt of adequate information by the Renegotiation Board. The checklists of questions set forth in § 1054.1804 will be used as guides in furnishing information to the Board.

§ 1054.1805 [Redesignation]

3. Redesignate § 1054.1805 as § 1054.1804.

Subpart S—Performance Data on MPSA Contractors

1. Revise the heading of Subpart S as shown above.

2. Revise § 1054.1903 to read as follows:

§ 1054.1903 Source and routing of requests.

Requests for performance information will be received by the cognizant CMR from the Renegotiation Board through its regional boards. (Similar requests will be simultaneously submitted to MPSA by the Board.) The quality control office of the cognizant CMR will process the requests to the appropriate air procurement district office.

Subpart V—Debts Owed by Contractors; Deferred Payments

§ 1054.2203 [Amendment]

1. In § 1054.2203(b), add the following sentence: "Any known changes in the amount of indebtedness except changes arising from payments, whether the indebtedness is under appeal or not, will also be reported by the appropriate contracting officer to the responsible accounting and finance office.

Subpart W—Scrap Control

§ 1054.2302 [Redesignation]

1. Section 1054.2302 is redesignated § 1054.2301 and is revised to read as follows:

§ 1054.2301 Applicability of subpart.

This subpart applies to contract management regions (CMRs) and air materiel forces administering AF contracts involving Government property or property acquired by the contractor under fixed-price contracts with price redetermination clauses.

§ 1054.2303 [Redesignation]

2. Redesignate § 1054.2303 as § 1054.2302.

§ 1054.2304 [Redesignation]

3. Redesignate § 1054.2304 as § 1054.2303 and revise to read as follows:

§ 1054.2303 Responsibilities.

The administrative contracting officer, in administering AF production contracts, will be supported by a Technical Assistance Group (TAG) appointed by authority of CMRs, and consisting of industrial property, quality control, production, and audit personnel, which will operate under the chairmanship of its production representative. The ACO, supported by the TAG, in reviewing contractors' scrap control will:

(a) Review and evaluate the contractor's procedures and practice of scrap control and the results obtained from such control.

(b) Review rejection trends of the contractor and spot-check to satisfy himself that scrap controls as established by the contractor are actually being practiced.

(c) Determine that the contractor's controls pertaining to the generation of scrap, including procedures and records, are according to the generally accepted objectives of scrap control within the segment of the industry concerned and are adequate to protect the Government's interest. Advise the contractor and local cognizant AF personnel, in writing, of the determination. If corrective measures are necessary, advise the contractor so he may accomplish them. A copy of this correspondence will be sent to the cognizant CMR commander.

(d) Advise the CMR commander of any areas in which action by higher authority is necessary to resolve or clarify responsibility for scrap control matters that involve various functional elements of the Air Force.

A new Subpart DD is added as follows:

Subpart DD—Administration of Base Procurement Contracts

Sec.

1054.3000 Scope of subpart.
1054.3001 Applicability of subpart.
1054.3002 General.
1054.3004 Contract administration procedures.
1054.3005 Contract modifications.
1054.3006 Variation in quantity.
1054.3007 Extension of delivery schedules.
1054.3008 Payment of accounts.
1054.3009 Losses, damages, or destruction of Government property in possession of contractors under military suspense accounting.
1054.3010 Control of Government property in possession of contractors.

AUTHORITY: §§ 1054.3000 to 1054.3010 issued under sec. 8012, 70A Stat. 488; 10 U.S.C. 8012. Interpret or apply secs. 2301-2314, 70A Stat. 127-133; 10 U.S.C. 2301-2314.

§ 1054.3000 Scope of subpart.

This subpart sets forth the procedures and references the guidelines to be followed in the administration of base procurement contracts.

§ 1054.3001 Applicability of subpart.

This subpart applies to all AF procuring activities accomplishing base procurement.

§ 1054.3002 General.

Regardless of the speed, efficiency and economy with which contracts are awarded, an inadequate contract administration program can jeopardize the mission of the Air Force and be detrimental to the Government's best interests. Failure to insure contractor compliance and performance not only hampers the operation of requiring activities but is prejudicial to the interests of other bidders who based their bids on requirements of delivery or performance as established by the Government. The procurement cycle is not completed with the award of a contract. An agressive and systematic contract administration program must be utilized to fulfill the role the base procurement program plays in the overall base logistic program. Following the procedures prescribed by this subpart should materially aid in accomplishing proper contract administration without excessive administrative costs.

§ 1054.3004 Contract administration procedures.

(a) *Purchase and delivery orders (DD Form 1155), requests against blanket purchase agreements and all definite quantity contracts other than construction, service orders for commercial warehousing, utility service contracts and credit card purchases.* Following is the procedure to be followed in connection with proper administration of the above referenced documents.

(1) Review and followup action. (i) Files should be suspensed based upon the: (*a*) Scheduled date indicated on the DD Form 1155; (*b*) the scheduled delivery date indicated on the DD Form 250 or purchase request for Requests against Blanket Purchase Agreements; or (*c*) the specific date(s) established for delivery based upon date of receipt and acceptance of the document by the contractor, as evidenced by AFPI Form 29 or certified mail procedure.

(ii) Review and follow-up action will be completed daily on all files suspended for that day.

(iii) When the review of a contract file fails to indicate evidence of shipment or delivery by the suspensed date, the receiving component will be contacted by telephone and if they verify nonreceipt of the material: (*a*) File will be identified as a delinquent file; (*b*) the contractor will be promptly notified of delinquent delivery. This notification may be accomplished by AFPI Form 92, "Notice of Contract Delinquency," individually typed letter, or orally. Reproduced form letters will not be used for this notification. A copy of the written notification or, in cases of oral notification, a written memorandum of the conversation will be placed in the contract file. Whether notification is written or oral, care must be exercised to clearly indicate to the contractor that this notification

is merely for the purpose of ascertaining the reason for the delinquency so that the Government can determine the appropriate action to be taken and in no way is intended to waive any of the rights or remedies which the Government may have by law or under the contract; and, (c) file will be resuspensed for further action not more than ten (10) days when initial inquiry is made by telephone and not more than ten (10) days plus estimated transmittal time if written inquiry has been made.

(iv) On bona fide contracts (other than Requests against Blanket Purchase Agreements or Purchase Orders on DD Form 1155 where acceptance has not been received), if the contractor fails to make delivery or take action to cure the delinquency as a result of this initial notification and has not adequately justified such delay (for example: Delinquent delivery being wholly due to contractor's fault or negligence), then the contracting officer will immediately take the action required to either: (a) Terminate for default when the default clause is included in the contract (see Subpart T, Part 1008 of this chapter); or (b) terminate for Breach of Contract when a default clause is not included in the contract (see § 1008.2011 of this chapter). See subparagraph (2) (i) of this paragraph for appropriate action for delinquent Requests against Blanket Purchase Agreements and paragraph (d) (2) of this section for delinquent purchase orders on DD Form 1155 where acceptance has not been received.

(2) *Action against habitual delinquent contractors.* (i) Requests against Blanket Purchase Agreements: Periodic reports of current delinquent requests against Blanket Purchase Agreements should be used to establish trends of possible habitual delinquents. After a trend is established from these reports, all requests (completed and delinquent) placed with the contractor over a period of no less than 2 months should be reviewed and analyzed. If this review substantiates habitual delinquency on requests against Blanket Purchase Agreements, the contractor will be: (a) Furnished a detailed findings of the review including number of requests placed, percentage of delinquency, average number of days delinquent, etc.; (b) notified that deliveries against requests placed during the next 30 days will be reviewed and if delivery during that period is not improved, procurements with him through the Blanket Purchase Agreement method will be discontinued.

(ii) Purchase orders issued on DD Form 1155: Individual and complete action will be taken on each delinquent contract according to (1) (iv) of this paragraph. In addition, periodic reports of current delinquent purchase orders should be reviewed to establish trends of possible habitual delinquents. After a trend is established from these reports, all purchase orders (completed and delinquent) placed with this contractor over a period of no less than 2 months should be reviewed and analyzed. If this review substantiates habitual delinquency: (a) All buyers within the procurement office will be notified that future purchase orders on the DD Form 1155 with said delinquent contractor will contain the following statement:

Payment will not be made on partial deliveries accepted by the Government under this contract. Only one payment will be made upon completion of the contract pursuant to General Provision 5 entitled "Payments";

(b) Vendors written acceptance will be obtained on DD Form 1155s in view of the change in the payment provision (also see § 1016.303–52 of this chapter); and (c) contractor will be notified of the detailed findings of the review and of action being taken on future procurements on DD Form 1155.

(iii) Action against habitual delinquent contractors involving other unnumbered and numbered supply contracts and delivery orders will be essentially as outlined in subparagraph (2) (ii) of this paragraph to establish conclusive evidence of habitual delinquency and then consideration will be given to possible debarment action pursuant to § 1.604 of this title and § 1001.604 of this chapter.

(b) *Construction contracts.* Unlike the administration of other base procurement contracts where only a minimum amount of action may be required between the date of award and the expiration of the performance period specified in the contract, effective administration of construction contracts depends upon constant and continual inspection and observation of contractor's performance, the written recording of the deficiencies noted and the transmission of these deficiencies to the contractor for corrective action. By imposing on the contractor continual constructive pressure for strict compliance with the terms and conditions of the contract, especially during the early stages of performance, optimum performance will be assured.

(1) *Preconstruction conference or letter.* The primary factor involved in assuring timely performance is the clear understanding by the contractor of his responsibilities under the contract and of the Government's rights which can be imposed in areas of noncompliance. These responsibilities are conveyed to the contractor through the media of a preconstruction conference conducted prior to the commencement of work. AFPI Form 27, "Preconstruction Conference Checklist," sets forth important factors to be discussed with contractors at the preconstruction conference. (See § 1016.451–1 of this chapter.) AFPI Form 27 will be:

(i) Used as a guide for discussing pertinent factors regarding the performance of construction contracts at installations located within the United States.

(ii) Signed in the space provided by each Government or civilian personnel attending.

(iii) Checked by the contracting officer in the appropriate space after each subject is discussed.

(iv) Dated and signed by the contractor in the space provided at the bottom of the form to indicate that he has been thoroughly briefed on all subjects mentioned.

(v) Filed after completion in the appropriate file. If for some uncontrollable reason a preconstruction conference cannot be held, the contracting officer must write a letter to the contractor explaining the items referred to in the AFPI Form 27. When a preconstruction letter is used in lieu of a conference, the contract file will be documented by: (a) A statement justifying the substitution and (b) the copy of preconstruction letter containing the contractor's acknowledgment of receipt and his understanding of the responsibilities enumerated therein.

(2) *Construction contract progress schedules.* Special Provision 1–07, "Progress Charts, Sundays, Holidays and Nights," of the contract requires construction contractors to prepare and submit to the contracting officer for approval a practical and feasible progress schedule showing the order in which the contractor proposes to carry out work required by the contract. For all construction contracts over $10,000 this schedule, on AFPI Form 78, "Construction Contract Progress Schedule," is required to be submitted to the contracting officer within 5 days after commencement of work or within such time as established by the contracting officer (AFPI Form 78 is optional for use in connection with construction contracts in the $2,000–$10,000 price category awarded on Standard Form 19).

(i) Instructions to the contractor for preparation of AFPI Form 78 are contained on the reverse side. The submission of the brief written report referred to in Paragraph 11 of the instructions may satisfy the requirements for weekly submission of progress information required by SP 1–01.

(ii) After receipt of AFPI Form 78 showing a proposed plan of progress from the contractor, the contracting officer will:

(a) In coordination with the civil engineer, review the proposed plan of progress for accomplishing the work for compliance with the contract; and where applicable, assure that the planned progress is compatible with work being accomplished by other contractors or by the Government.

(b) If the proposed progress schedule submitted by the contractor is approved by the contracting officer, as recommended by the civil engineer, signature of the civil engineer or his designated representative will be obtained in block (10). The contracting officer will manually approve three copies of the schedule in block 11.

(c) Complete blocks 4 through 6 and distribute one copy to the contractor and one copy to the civil engineer.

(iii) AFPI Form 78 will be maintained according to the following instructions:

(a) As required by instructions on reverse of the form, the contractor will submit written reports of progress to the contracting officer. Weekly reports will show the percentage of work accomplished for each of the work elements shown on lines 1 through 15.

(b) The contracting officer or his authorized representative will enter the percentage of work reported complete under the appropriate column opposite the work element involved (lines 1 through 15). All work reported complete for a reporting period will be totaled and entered in the lower half of line 16. The total will then be the basis for computing an overlay graph. The planned progress as computed by the contractor is shown in this graph as a broken line. The contractor's actual progress will be plotted on the graph by a solid line. Where the actual progress is identical to the planned progress the solid line will obliterate the broken or dotted line. Where the actual progress is below the planned progress, immediate action will be taken to ascertain the reason and effect correction. The importance of prompt action in correcting delays as prescribed by Special Provision SP 1–07, cannot be overemphasized.

(c) Written reports of percentage of completion for each work element shown on AFPI Form 78 will be submitted to the contracting officer by the Government inspector assigned to the project. Frequency of reports will be the same as established for the contractor. Where the percentage of work reported as complete by the Government inspector and the contractor differs 5 percent or more, the reason will be ascertained and corrective action taken as indicated by the circumstances.

(d) Upon issuance of a modification to a contract (see § 1054.3005–(c)) which adds, deletes, or changes work to the extent that the completion date is changed or which increases or decreases the original completion date for other reasons such as excusable delays, a revised progress schedule will be obtained from the contractor. The new schedule should be completed to show a rescheduling of all work under the contract, taking into consideration that portion completed at the time the contract was modified. The revised schedule will be prepared, submitted, coordinated and approved in the same manner as the original except that the revised completion dates will be inserted in block 3 by the contractor and the words "First, Second, etc., revised schedule" will be inserted immediately underneath the form title and above block 8 immediately preceding the project title. The contracting officer will determine the time of submission of the revised schedule. However, unless unusual circumstances exist, submission of a revised progress schedule should not be delayed beyond 5 days after starting work, as required by SP 1–07.

(e) Current AFPI Forms 78 will not be filed in the contract folder. Where existing contracting office facilities permit, the schedule may be posted and maintained on office walls, chart boards or in an appropriate ledger binder for easy accessibility and reference.

(f) Upon completion of the construction contract for which an AFPI Form 78 is maintained, block 7 of the form will be completed and the form placed in the contract file as a permanent record.

(3) *Labor law compliance.* Subpart D, Part 1012 of this chapter, outlines the responsibilities and procedures for enforcement of labor standards in construction contracts. AFPI Form 7, "Labor Law Compliance Check Sheet," is designed to insure compliance with the labor provisions of the contract. Proper indoctrination of the contractor of his responsibilities under the labor law provisions of the contract during the preconstruction conference, together with detailed routine checks and field visits utilizing AFPI Form 7 will greatly reduce the possibility of actual or major violations requiring detailed and time-consuming special investigations.

§ 1054.3005 Contract modifications.

(a) *Supplemental agreements.* See § 1.201–19; of this title and § 1016.853 of this chapter.

(b) *Change orders.* See § 1.201–1 of this title and § 1016.854 of this chapter.

(c) *Modification to contracts.* (1) Any change required which is outside the scope of the provisions of the contract and may affect the price, terms, quantity or other conditions of the contract will be effected with the use of AFPI Form 12, "Supplemental Agreement." The contractor has no authority to proceed with performance of work contemplated by the change nor does the Government have authority to direct the contractor to proceed with performance of work contemplated by the change until the Supplemental Agreement is fully executed and all necessary approvals obtained.

(2) Any change required solely to reflect current AF administrative data and which does not affect the existing binding contract between the contracting parties will be incorporated with the use of AFPI Form 13, "Change Order." The recital on the form which reads "Pursuant to the Provisions of Clause _____" will be changed to read: "To accomplish a change in Air Force administrative data _____."

(3) Any change required which is within the scope of the provisions of the contract and where an agreement is reached on the adjustment of price or delivery schedule prior to issuing written direction to the contractor will be effected with the use of AFPI Form 12, "Supplemental Agreement."

(4) Any change required which is within the scope of the provisions of the contract, but time is of the essence not permitting negotiations of an adjustment in price or delivery will be directed with the use of AFPI Form 13. At the earliest possible time after issuance of the Change Order, negotiations will be conducted to establish an adjustment in price or delivery schedule for the directed change. Such mutual agreement will be reflected on AFPI Form 12. Where mutual agreement proves impossible, the contracting officer will prepare and process a findings and decision under the disputes clause.

(5) The contracting officer is responsible for negotiating a fair and reasonable price adjustment for any change made to a contract whether the change is authorized by the provision of the contract or represents a new procurement outside of the scope of the provision of the contract. Records of each negotiated change will be maintained in the contract file. Minimum records to be maintained for each modification to a construction contract will be:

(i) A price breakdown of the estimated cost (increase or decrease) of the contemplated change, prepared by the civil engineer, and submitted with the AF Form 9, "Purchase Request," for the change required. The estimated cost (actual costs will be shown to the extent available) will be broken down to reflect material costs, labor costs, other costs, and profit.

(ii) Contractors proposal with supporting price breakdown showing materials cost, labor costs, other costs, and profit.

(iii) Memorandum of price negotiation as required by § 1003.811 of this chapter.

(d) *Modification of purchase orders, DD Form 1155.* A purchase order issued on DD Form 1155 is an offer (unilateral action) only and therefore is not a binding contract between the parties until it is accepted by the vendor either in the form of a signed acceptance (DD Form 1155s) or by the commencement of performance under the order.

(1) When order has been accepted, changes when required will be issued pursuant to instructions in paragraph (c) of this section.

(2) When acceptance has not been received, one of the following courses of action will be taken:

(i) If vendor refuses to accept order and the reasons for non-acceptance cannot be determined or established, the order will be canceled by letter to the vendor outlining this failure to furnish written acceptance (perform under the order). This letter will be distributed to all recipients of the order.

(ii) If vendor refuses to accept the order and submits a counter-offer to the Government which affects the price, terms, quantity or quality established on the initial order, automatic modification of the order to reflect the counter-offer is not authorized. The counter-offer must be evaluated on the same basis as an additional quotation received for the requirement before award.

(a) If the counter-offer is no longer the most advantageous to the Government, the order will be canceled by letter as indicated in subparagraph (2) (i) of this paragraph and a new order will be issued to the vendor whose quotation is most advantageous to the Government.

(b) If the counter-offer is still the most advantageous received for the requirement, the purchase order will be modified by AFPI Form 13 to reflect the new price, terms, quantity or quality set forth in the counter-offer. The recital on the form reads: "Pursuant to the provisions of clause _____" will be changed to read: "Pursuant to vendor's letter dated _____"

(e) *Modification of delivery orders, DD Form 1155.* When changes are required to delivery orders, such changes will be accomplished according to the terms of the basic contract and paragraph (c) of this section.

§ 1054.3006 Variation in quantity.

(a) *Purchase and delivery orders (DD Form 1155).* When variations in quantities are specified in the schedule and shipments containing overages and/or shortages within the acceptable variation are received and accepted, a separate modifying document to the order reflecting such acceptance need not be written. When variations in quantities are not specified in the schedule, and the shortages exist in the shipment received, if it is determined that such shortages are in quantities so negligible that the operation of the installation will not be affected, and such shipment represents the final shipment by the contractor, such shipment may be accepted and the order completed, and a separate modifying document need not be written. In either of the above circumstances, the adjustment of the total dollar amount for payment will be made and initialed by the accounting and finance officer in the "Differences" section of the original and receiving report copies of the DD Form 1155 to reflect overage or shortage.

(b) *Numbered contracts and unnumbered contracts (other than DD Form 1155).* A separate modifying document is not required to accept quantities which vary from those specified in the contract when such variations in quantity are within the permissible variation prescribed in the contract and are caused by one or more of the conditions specified in the "Variation in Quantity" provisions of the contract. In all other instances if it is determined in the best interests of the Government to accept such variations in quantity, the contract must be modified to reflect acceptance.

§ 1054.3007 Extension of delivery schedules.

(a) *Contractor's fault or negligence.* Extension of delivery, service or construction schedules where the delinquency concerned was wholly due to the contractor's fault or negligence, represents the Government giving to the contractor certain rights and benefits that he was not otherwise entitled to under the original contract. To do so, without receiving consideration therefor, has been declared by the Comptroller General to be beyond the authority of any officer or agent of the Government. The amount of consideration obtained from the contractor in any particular case depends upon the facts involved, e.g., the contract price of the unfinished work or items, the length of extension desired, the availability of other contractors in the area in the event of a default termination, whether it is practical for the Air Force to default the contract at the present stage of the work, etc. A reasonable starting point for establishing "legal consideration" is to seek consideration sufficient to recompense the Government for the administrative expense and inconvenience involved in granting the extension. A nominal consideration may suffice when an extension of the delivery schedule is in the best interests of the Government, but normally the amount of consideration received should represent the fair value of the benefit being received by the contractor. Prior to issuing a contractual modification amending the delivery schedule, the contracting officer will affect coordination with his staff judge advocate to determine whether or not legal consideration exists. The staff judge advocate's determination will be final concerning the existence of legal consideration. The contracting officer is responsible for determining the adequacy or amount of consideration.

§ 1054.3008 Payment of accounts.

(a) *Price reduction on invoices.* (1) As a general rule, invoices submitted for less than the contract price(s) which clearly indicate that a voluntary reduction in price is intended, will be accepted and payment made without further action by the Government.

(2) Where invoices are received for less than the contract price(s) and after coordination between the accounting and finance and base procurement functions, it cannot be definitely established that the invoiced amount represents a voluntary price reduction, the invoice will be accepted and payment made without adjustment. Under these circumstances, the accounting and finance officer is required to notify the contractor.

(3) Contract modifications will not be written to reflect the reduced price paid. Such modifications serve no useful purpose, could be detrimental to the Government, and the delay involved could preclude prompt payment of acceptable commercial invoices.

(b) *Advance payments.* (See Subchapter G, Part 82, Subpart D of this title, and § 1030.5, Part IV of this chapter.)

(c) *Progress payments.* (See Subchapter G, Part 82, Subpart E of this title and § 1030.5, Part V of this chapter.)

(d) *Partial payments.* Partial payments will be made according to the terms of the contract.

§ 1054.3009 Losses, damages, or destruction of Government property in possession of contractors under military suspense accounting.

See Subpart Y of this part.

§ 1054.3010 Control of Government property in possession of contractors.

See § 1030.2 of this chapter.

(Sec. 8012, 70A Stat. 488; 10 U.S.C. 8012. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314)

PART 1055—SPARE PARTS

Subpart A—Policy for Procurement and Delivery of Spare Parts

Subpart A is deleted.

Subpart B—Contractual Provisioning Documents

Add § 1055.204 as follows:

§ 1055.204 Responsibilities of contracting officers.

Contracting officers will:

(a) Assure that the applicable contractual provisioning document is incorporated, by reference or otherwise, in affected contracts.

(b) Notify the contractor of his responsibilities under the provisioning document.

(c) Accomplish the specific responsibilities prescribed in the appropriate provisioning document.

(Sec. 8012, 70A Stat. 488; 10 U.S.C. 8012. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314)

PART 1057—REPORTS

Subpart S—Bailed and Government Furnished Property Aircraft Test and Utilization Monthly Report (AFPI Form 9)

§ 1057.1901 [Amendment]

In § 1057.1901, "AMA's" is changed to "CMRs."

(Sec. 8012, 70A Stat. 488; 10 U.S.C. 8012. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314)

PART 1059—AIRCRAFT AND GFAE PROCUREMENT

Subpart B—Use of Production Aircraft in Emergencies and Control of Flight Test and Demonstration Flights

1. Revise § 1059.201(a) to read as follows:

§ 1059.201 Use of production aircraft in emergencies.

(a) *Definitions.* Production aircraft are any aircraft being manufactured for use in the operational inventory.

2. Section 1059.202 is revised as follows:

§ 1059.202 Control of flight test and demonstration flights.

(a) *General.* In the interest of exercising every reasonable safety precaution in the performance of flying these aircraft and to obviate as far as possible criticisms and complaints from residents in areas adjacent to the airports from which these flights originate, CMR commanders will establish and maintain in current status such procedures as they deem necessary to assure positive supervision of the aircraft under their respective jurisdiction. They will accomplish frequent and periodic examinations of the control and coordination between their activities and contractors under their cognizance to assure that any deviation from proven practices will be made the subject of corrective action. It is emphasized to all military and contractor flying personnel operating AF aircraft or aircraft in which the Government has assumed liability for flight risks, the importance of recognizing and feeling personally responsible for the highest possible flying safety standards and the maintenance of the good will of the general public.

(b) *Policies and procedures.* Certain rules and principles are basic in maintaining high flying safety standards. Local conditions may require that these basic rules be implemented with additional and more detailed instructions. CMR commanders are urged to initiate additional detailed instructions considered necessary to control flights of aircraft which are under their immediate jurisdiction and to maintain close supervision over all such flights to assure strict observance of these instructions. The following rules are mandatory:

(1) Test flights of a routine nature, not included in a test-flight program approved by the Government under a specific contract, may be made on authority of the CMR commander or his designated representative.

(2) Demonstration flights will be performed according to provisions of AFR 60–12 (Aerial Demonstrations).

(3) In addition to the authorization required for performing flights pursuant to subparagraphs (1) and (2) of this paragraph, pilot and air crew members will not perform flight tests or demonstration flights unless so authorized in writing by the CMR commander or his designated representative. (Such representative will be designated in writing over the personal signature of the CMR commander.) CMR commanders will use prescribed procedures in approving contractor flight personnel to assure that such personnel are technically qualified and have been certified to be in proper physical condition to perform the required work.

(4) All flights will be conducted according to AF regulations. Deviations from these regulations are prohibited except as specifically authorized by competent authority for test flight and/or demonstration flight purposes.

(5) Normally, all test flying will be conducted under VFR conditions during the hours of daylight. However, CMR commanders may authorize test and acceptance flights under other conditions when deemed necessary to more effectively accomplish their mission.

(6) Formation takeoffs are prohibited. Low-altitude flying over metropolitan and populated areas and any attempts at exhibitionism are prohibited. When tests require accomplishing low-altitude flying, it will be performed over areas specifically designated for this purpose.

(7) CMR commanders will make certain that all practicable rescue equipment is available to insure safeguarding of life in the event of crash landings or ditching. This includes adequate air-sea rescue service.

(c) *Responsibility for adequacy of airport and flying facilities.* CMR commanders will insure that the airport and its facilities are adequate for safe operation of the aircraft to be flown.

(d) *Flights requiring escorts.* It is AF policy that first flights of experimental aircraft, first flights of initial article production aircraft, plus such subsequent flights as deemed necessary, and all flights of any test aircraft which are of a hazardous nature, or those which require observation from another aircraft to obtain data, will be accomplished by an "observer" aircraft.

(Sec. 8012, 70A Stat. 488; 10 U.S.C. 8012. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314)

R. J. PUGH,
Colonel, U.S. Air Force, Deputy Director of Administrative Services.

Title 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 3—VETERANS' CLAIMS

Additional Disability Compensation for Certain Seriously Disabled Veterans

In § 3.1550, paragraph (c)(2) is amended to read as follows:

§ 3.1550 Additional disability compensation for certain seriously disabled veterans.

* * * * * * *

(c) *Effective date.* * * *

(2) *New claims.* Claims, formal or informal, received on or after July 14, 1960, will be considered initial claims for the purpose of this act and the effective date will be determined under applicable laws and regulations relating to original claims but not earlier than September 1, 1960.

(i) Where a claim identifying the benefit sought is received within 1 year from September 1, 1960, and evidence of entitlement is of record on or before September 1, 1960, benefits will be payable from September 1, 1960.

(ii) For the purpose of this act, a report of Veterans Administration examination or Veterans Administration hospitalization will be accepted as a claim if the report relates to a disability which may establish entitlement to this benefit. (Instruction 1–A, 38 U.S.C. 314, Public Law 86–663)

(72 Stat. 1114; 38 U.S.C. 210)

This regulation is effective December 6, 1960.

[SEAL] ROBERT J. LAMPHERE,
Deputy Administrator.

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1954) Part 1]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Taxation of Regulated Investment Companies and Their Shareholders

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D.C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner within the 30-day period. In such a case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] DANA LATHAM,
Commissioner of Internal Revenue.

The Income Tax Regulations (26 CFR Part 1) under section 852 of the Internal Revenue Code of 1954 are hereby amended to reflect the amendment of section 852 made by section 39 of the Technical Amendments Act of 1958 (72 Stat. 1639), to provide rules for determining whether the buyer or seller of regulated investment company stock shall be considered the shareholder of such stock, and to make a clarifying change.

PARAGRAPH 1. Section 1.852 is amended (A) by adding a new paragraph (4) at the end of section 852 (b) and (B) by revising the historical note at the end thereof. These added and revised provisions read as follows:

§ 1.852 Statutory provisions; taxation of regulated investment companies and their shareholders.

SEC. 852. *Taxation of regulated investment companies and their shareholders.* • • •

(b) *Method of taxation of companies and shareholders.* • • •

(4) *Loss on sale or exchange of stock held less than 31 days.* If—

(A) Under subparagraph (B) or (D) of paragraph (3) a shareholder of a regulated investment company is required, with respect to any share, to treat any amount as a long-term capital gain, and

(B) Such share is held by the taxpayer for less than 31 days, then any loss on the sale or exchange of such share shall, to the extent of the amount described in subparagraph (A) of this paragraph, be treated as loss from the sale or exchange of a capital asset held for more than 6 months. For purposes of this paragraph, the rules of section 246(c)(3) shall apply in determining whether any share of stock has been held for less than 31 days; except that "30 days" shall be substituted for the number of days specified in subparagraph (B) of section 246(c)(3).

• • • • •

[Sec. 852 as amended by sec. 2, Act of July 11, 1956 (Pub. Law 700, 84th Cong., 70 Stat. 530); secs. 39, 101, Technical Amendments Act 1958 (72 Stat. 1638, 1674)]

PAR. 2. Section 1.852–4 is amended (A) by adding a new subdivision (iv) at the end of paragraph (b)(2) and (B) by adding a new paragraph (d) at the end of such section. These added provisions read as follows:

§ 1.852–4 Method of taxation of shareholders of regulated investment companies.

• • • • •

(b) *Capital gains.* • • •

(2) *Undistributed capital gains.* • • •

(iv) For purposes of determining whether the purchaser or seller of a share or regulated investment company stock is the shareholder at the close of such company's taxable year who is required to include an amount of undistributed capital gains in gross income, the amount of the undistributed capital gains shall be treated in the same manner as a cash dividend payable to shareholders of record at the close of the company's taxable year. Thus, if a cash dividend paid to shareholders of record as of the close of the regulated investment company's taxable year would be considered income to the purchaser, then the purchaser is also considered to be the shareholder of such company at the close of its taxable year for purposes of including an amount of undistributed capital gains in gross income. For rules for determining whether a dividend is income to the purchaser or seller of a share of stock, see paragraph (c) of § 1.61–9.

• • • • •

(d) *Special treatment of loss on the sale or exchange of regulated investment company stock held less than 31 days*—(1) *In general.* Under section 852(b)(4), if any person, with respect to a share of regulated investment company stock acquired by such person after December 31, 1957, and held for a period of less than 31 days, is required by section 852(b)(3)(B) or (D) to include in gross income as a gain from the sale or exchange of a capital asset held for more than six months—

(i) The amount of a capital gain dividend, or

(ii) An amount of undistributed capital gains,

then such person shall, to the extent of such amount, treat any loss on the sale or exchange of such share of stock as a loss from the sale or exchange of a capital asset held for more than 6 months. Such special treatment with respect to the sale of regulated investment company stock held for a period of less than 31 days is applicable to losses for taxable years ending after December 31, 1957.

(2) *Determination of holding period.* The rules contained in section 246(c)(3) (relating to the determination of holding periods for purposes of the deduction for dividends received) shall be applied in determining whether, for purposes of section 852(b)(4) and this paragraph, a share of regulated investment company stock has been held for a period of less than 31 days. In applying those rules, however, "30 days" shall be substituted for the number of days specified in subparagraph (B) of section 246(c)(3).

(3) *Example.* The application of section 852(b)(4) and this paragraph may be illustrated by the following example:

Example. On December 15, 1958, A purchased a share of stock in the X regulated investment company for $20. The X regulated investment company declared a capital gain dividend of $2 per share to shareholders of record on December 31, 1958. A, therefore, received a capital gain dividend of $2 which, pursuant to section 852(b)(3)(B), he must treat as a gain from the sale or exchange of a capital asset held for more than 6 months. On January 5, 1959, A sold his share of stock in the X regulated investment company for $17.50, which sale resulted in a loss of $2.50. Under section 852(b)(4) and this paragraph, A must treat $2 of such loss (an amount equal to the capital gain dividend received with respect to such share of stock) as a loss from the sale or exchange of a capital asset held for more than 6 months.

PAR. 3. Paragraph (a)(1) of § 1.852–9 is amended to read as follows:

§ 1.852–9 Special procedural requirements applicable to designation under section 852(b)(3)(D).

(a) *Regulated investment company*—(1) *Notice to shareholder.* A designation of undistributed capital gains under section 852(b)(3)(D) and paragraph (b)(2)(i) of § 1.852–2 shall be made by notice on Form 2439 mailed by the regulated investment company to each person who is a shareholder of record of the company at the close of the company's taxable year. The notice on Form 2439 shall show the name and address of the regulated investment company, the taxable year of the company for which the designation is made, the name and address of the shareholder, the amount designated by the company for inclusion by the shareholder in computing his long-term capital gains, and the tax paid with respect thereto by the company, which tax is deemed to have been paid by the shareholder. Form 2439 shall be prepared in triplicate, and copies B and C of the form shall be mailed to the shareholder on or before the 30th day following the close of the company's taxable year. Copy A of each Form 2439 must be associated with the undistributed capital gains tax return of the company (Form 2438), as provided in subparagraph (2) of this paragraph.

[F.R. Doc. 60–11307; Filed, Dec. 5, 1960; 8:55 a.m.]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 936]

FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

Order Directing That a Referendum Be Conducted; Designation of Referendum Agents To Conduct Such Referendum; and Determination of Representative Period

Pursuant to the applicable provisions of Marketing Agreement No. 85, as amended, and Order No. 36, as amended (7 CFR Part 936), and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674), it is hereby directed that a referendum be conducted during the 2-month period of December 1960 and January 1961, among the producers who, during the current marketing season beginning on March 1, 1960 (which period is hereby determined to be a representative period for the purposes of such referendum), were engaged, in the State of California, in the production of fruit covered by the said amended marketing agreement and order (as the term "Fruit" is therein defined) for shipment in fresh form to determine whether the producers of a particular fruit favor the termination of the said amended marketing agreement and order as to such fruit. Oscar H. Chapin, W. B. Blackburn, and David B. Fitz, of the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, are hereby designated as agents of the Secretary of Agriculture to perform, jointly or severally, the following functions in connection with the referendum:

(a) Conduct said referendum in the manner herein prescribed:

(1) By determining the time of commencement and termination of the period of the referendum, and by giving opportunity to each of the aforesaid producers to cast his ballot, in the manner herein authorized, relative to the aforesaid termination of the amended marketing agreement and order, on a copy of the appropriate ballot form. A cooperative association of such producers, bona fide engaged in marketing any such fruit or in rendering services for or advancing the interests of the producers of such fruits, may vote for the producers who are members of, stockholders in, or under contract with, such cooperative association (such vote to be cast on a copy of the appropriate ballot form); and the vote of such cooperative association shall be considered as the vote of such producers.

(2) By giving public notice, as prescribed in (a)(3) hereof, (i) of the time during which the referendum will be conducted, (ii) that any ballot may be cast by mail, and (iii) that all ballots so cast must be addressed to the Western Marketing Field Office, Fruit and Vegetable Division, Room 302, 701 K Street, Sacramento 14, California, and the time prior to which such ballots must be received at such office.

(3) By giving public notice (i) by utilizing available agencies of public information (without advertising expense), including both press and radio facilities in the State of California; (ii) by mailing a notice thereof (including a copy of the appropriate ballot form) to each such cooperative association and to each producer whose name and address are known; and (iii) by each other means as said referendum agent may deem advisable.

(4) By conducting meetings of producers and arranging for balloting at the meeting places, if said referendum agents determine that voting shall be at meetings. At each such meeting, balloting shall continue until all of the producers who are present, and who desire to do so, have had an opportunity to vote. Any producer may cast his ballot at any such meeting in lieu of voting by mail.

(5) By giving ballots to producers at the meeting, and receiving any ballots when they are cast.

(6) By securing the name and address of each person casting a ballot, and inquiring into the eligibility of such person to vote in the referendum.

(7) By giving public notice of the time and place of each meeting authorized hereunder by posting a notice thereof, at least two days in advance of each such meeting, at each such meeting place, and in two or more public places within the applicable area; and, so far as may be practicable, by giving additional notice in the manner prescribed in paragraph (a)(3) hereof.

(8) By appointing any persons deemed necessary or desirable, to assist the said referendum agents in performing their duties hereunder. Each such person so appointed shall serve without compensation and may be authorized, by the said referendum agents to perform any or all of the functions set forth in paragraphs (a) (5), (6), (7), and (8), hereof (which, in the absence of such appointment of subagents, shall be performed by said referendum agents) in accordance with the requirements herein set forth; and shall forward to the Western Marketing Field Office, Fruit and Vegetable Division, Room 302, 701 K Street, Sacramento 14, California, immediately after the close of the referendum, the following:

(i) A register containing the name and address of each producer to whom a ballot form was given;

(ii) A register containing the name and address of each producer from whom an executed ballot was received;

(iii) All of the ballots received by the respective referendum agents in connection with the referendum, together with a certificate to the effect that the ballots forwarded are all of the ballots cast and which were received by the respective agents during the referendum period;

(iv) A statement showing when and where each notice of referendum posted by said agent was posted and, if the notice was mailed to producers, the mailing list showing the names and addresses to which the notice was mailed and the time of such mailing; and

(v) A detailed statement reciting the method used in giving publicity to such referendum.

(b) Upon receipt by the said Western Marketing Field Office of all ballots cast in accordance with the provisions hereof, Oscar H. Chapin, W. B. Blackburn, or David B. Fitz, shall: (i) Canvas the ballots and prepare and submit to the Secretary a detailed report covering the results of the referendum, the manner in which the referendum was conducted, the extent and kind of public notice given, and all other information pertinent to the full analysis of the referendum and its results; and (ii) Forward such report, together with the ballots and other information and data, to the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D.C.

(c) Each referendum agent and appointees pursuant thereto shall not refuse to accept a ballot submitted or cast; but should they, or any of them, deem that a ballot should be challenged for any reason, or if such ballot is challenged by any other person, said agent or appointee shall endorse above his signature, on the back of said ballot, a statement that such ballot was challenged, by whom challenged, and the reasons therefor; and the number of such challenged ballots shall be stated when they are forwarded as provided herein.

(d) All ballots shall be treated as confidential.

The Director of the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, is hereby authorized to prescribe additional instructions, not inconsistent with the provisions hereof, to govern the procedure to be followed by the said referendum agents and appointees in conducting said referendum.

Copies of the text of the aforesaid amended marketing agreement and order, and of this order, may be examined in the Office of the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D.C., at the offices of the Field Representatives, Fruit and Vegetable Division, Agricultural Marketing Service, Room 302, 701 K Street, Sacramento 14, California, or at the office of the California Tree Fruit Agreement, 1515 Ninth Street, Sacramento, California.

Ballots to be cast in the referendum, and other necessary forms and instruc-

tions, may be obtained at said offices of the Field Representatives, or from any referendum agent or any appointee hereunder.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: November 30, 1960.

CLARENCE L. MILLER,
Assistant Secretary.

[F.R. Doc. 60–11293; Filed, Dec. 5, 1960; 8:53 a.m.]

[7 CFR Part 965]

[Docket No. AO–166–A25]

MILK IN CINCINNATI, OHIO, MARKETING AREA AND 15 NORTHERN KENTUCKY COUNTIES

Notice of Recommended Decision and Opportunity To File Written Exceptions on Proposed Amendments to Tentative Marketing Agreement and to Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Deputy Administrator, Agricultural Marketing Service, United State Department of Agriculture, with respect to proposed amendments to the tentative marketing agreement and order regulating the handling of milk in the Cincinnati, Ohio, marketing area (consideration was given to the alternative of issuing a separate order to regulate the handling of milk in 15 Northern Kentucky Counties). Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington, D.C., not later than the close of business the 20th day after publication of this decision in the FEDERAL REGISTER. The exceptions should be filed in quadruplicate.

Preliminary statement. The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order, were formulated, was conducted at Cincinnati, Ohio, on July 12–15, 1960, pursuant to notice thereof which was issued on June 22, 1960 (25 F.R. 5882).

The material issues on the record of the hearing relate to:

1. Regulation of certain counties in Northern Kentucky by (a) addition to the Cincinnati marketing area, or (b) the issuance of a separate order; and the deletion of part of Clermont County, Ohio, from the marketing area;
2. Basic formula price;
3. Classification;
4. Location adjustments;
5. Transfers;
6. Allocation of packaged Class I receipts from other Federal orders;
7. Shrinkage;
8. Diversion of producer milk;
9. Payments by handlers operating nonpool fluid milk plants; and
10. Seasonal incentive payments.

Issue number 10 was considered separately in a decision issued by the Assistant Secretary on September 13, 1960 (25 F.R. 8909). The remaining issues are considered herein.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Marketing area.* The marketing area should be expanded to include the Kentucky counties of Boone, Kenton, Campbell, Pendleton, Grant and Harrison, and the redefined area should be renamed the "Greater Cincinnati Marketing Area".

The Cincinnati Milk Sales Association proposed that the marketing area be expanded to include Mason, Boone, Kenton, and Campbell Counties, all in Kentucky. As an alternative, the proponent association proposed the four counties as the marketing area of a new and separate Federal order. The majority of handlers operating plants located in Northern Kentucky opposed regulation for the area but proposed that if any of the four counties were included in the marketing area of any Federal order, the regulation should be extended to include eleven additional Kentucky counties; namely, Gallatin, Carroll, Owen, Grant, Pendleton, Harrison, Bracken, Robertson, Fleming, Nicholas, and Lewis (except Magisterial Districts 2, 3 and 8). The inclusion in the Cincinnati marketing area of Kenton, Campbell and Boone Counties was considered at a previous hearing held during September 1958.

Although the Assistant Secretary, in a decision issued April 10, 1959, found that the order should not be expanded on the record of that hearing, the present record indicates the desirability of adding a portion of the Northern Kentucky area to the Cincinnati marketing area at this time.

In contrast to the previous record on this matter the present record shows:

1. Conditions of milk market instability now present in the market not present at the time of the previous hearing;

2. A higher degree of interrelationship in milk marketing between the existing Cincinnati portion of the marketing area and the Northern Kentucky portion in terms of both procurement and distribution of milk and milk products; and

3. Substantially greater support for the order among dairy farmers who ship to Northern Kentucky handlers as evidenced by the increased membership of such dairy farmers in the cooperative association which supported the proposal.

The largest concentration of population within the entire 15-County area proposed for regulation lies within Boone, Kenton and Campbell Counties (commonly referred to as the Tri-County area). The 1960 population estimate of the Tri-County area is 227,387; the population estimate of the six counties proposed herein for regulation is 259,714; and the estimate for the entire 15 counties proposed by interested parties is 338,112 (Official notice is hereby taken of preliminary population totals, 1960 Census of Population, United States Department of Commerce). The Tri-Counties are separated from Hamilton County, Ohio, within which the city of Cincinnati is located by the Ohio River. The two largest cities of Northern Kentucky, Newport and Covington, are located in Campbell and Kenton Counties, respectively, which the United States Department of Commerce includes as part of the Cincinnati metropolitan area.

The handling of milk in the six counties herein proposed to be part of the Cincinnati marketing area is in the current of interstate commerce or directly burdens, obstructs, or affects interstate commerce in milk and its products. Packaged fluid milk products and manufactured milk products from plants located in Ohio are regularly distributed in the six-county area. Manufactured dairy products regularly move from plants located in the six-county area into the present Cincinnati, Ohio, marketing area. Milk from farms located within Northern Kentucky is regularly supplied to milk plants located therein and to plants located in Cincinnati.

Marketing conditions in the area are such that order regulation of the handling of milk in the area will tend to effectuate the declared policy of the Act, and the expansion of the Cincinnati, Ohio, marketing area, rather than the promulgation of a new order, will more appropriately contribute to market stability and reflect the intent of the Agricultural Marketing Agreement Act of 1937.

The majority of farmers who regularly deliver milk to fluid plants primarily serving the six counties proposed for regulation are members of the proponent association. Dairy farmers whose farms are located in the same Kentucky areas who are also members of the proponent association, but who deliver to fluid milk plants located across the Ohio River in Cincinnati, receive classified prices for their milk as determined by the terms of the Cincinnati order. The dairy farmers delivering to Northern Kentucky plants receive prices for their milk which are based on Cincinnati order uniform prices regardless of the use for which it is disposed. Fluid milk plants located in Northern Kentucky have a high Class I utilization as compared with the marketwide utilization of handlers regulated under the terms of the order. Hence, the operators of Northern Kentucky plants, on the average, pay less for Class I milk than do Cincinnati regulated handlers. This has resulted in market instability in that at least some Northern Kentucky handlers are paying less than the use value of milk received from dairy farmers.

Some handlers operating plants in the area will not permit agents of the proponent association to check weights and butterfat content of deliveries of members' milk. This situation has caused dissatisfaction and contributed to market instability since the members have no way of establishing that they are receiving payment based on accurate weights and butterfat tests. The establishment of order regulation for the proposed area would provide a means of insuring accurate weights and butterfat tests of milk.

The sanitary requirements applicable for Grade A milk produced for distribution in Cincinnati and those for Grade A milk distributed in Northern Kentucky are patterned according to the same United States Public Health Ordinance and Code. Class I milk from one plant located in Cincinnati is being distributed throughout the Northern Kentucky area, and three Cincinnati plants are approved to distribute milk into Covington, Kentucky.

In addition, official notice is taken of the fact that one handler, who operated distribution plants in both the present marketing area and in Northern Kentucky, has closed the Northern Kentucky plant since the hearing and has transferred the producers to its Cincinnati plant. The milk which is distributed in Northern Kentucky by this handler is now bottled in Cincinnati. One handler operating a plant located in Newport has a permit from Cincinnati health authorities to distribute Class I milk in Cincinnati. Two Northern Kentucky plants have permits to sell ice cream and ice cream mix made from Grade A milk in Cincinnati.

At the time of the hearing two handlers operating Cincinnati pool plants also operated nearby nonpool plants from which Class I milk is distributed in unregulated areas contiguous to the Cincinnati marketing area, including Northern Kentucky. The nonpool plant of one of these handlers is located in Newport, Kentucky, and the nonpool plant of the other is located in Wilmington, Ohio. A third handler, who operates a pool plant located in Cincinnati, has a bottling arrangement with a nonregulated plant in Northern Kentucky whereby milk is packaged for the regulated handler at the unregulated plant and distributed in Northern Kentucky. These arrangements have contributed to instability. The possibility of other handlers making similar arrangements is always present under existing conditions. The proposed expansion will eliminate any incentive for handlers to so arrange their operations primarily to avoid pooling their Class I sales.

Milk from the same Northern Kentucky farms is marketed at times to Northern Kentucky plants and at times to Cincinnati pool plants. The dairy farmers whose milk is so moved hold permits issued by Kentucky and Cincinnati authorities. It was estimated that the total number of dairy farmers who ship to plants which will be regulated pursuant to the area expansion recommended herein was about 560. Of this total about 120 bulk tank shippers who are members of the proponent association and about 55 can shippers hold permits issued by the two authorities. Accordingly, it can be estimated that, at times, the production of between 25 and 30 percent of dairy farmers shipping to Northern Kentucky plants is carried by the Cincinnati pool. This volume of milk added to the Cincinnati pool depresses Cincinnati uniform prices and also prices paid by Northern Kentucky plants since these plants usually base their prices for milk on the Cincinnati uniform prices.

There are eleven distributing plants located within the fifteen Kentucky counties which were originally proposed for regulation. Of these, nine are located in the Tri-County area and most of the milk packaged in Northern Kentucky is processed at these nine plants. Approximately 560 dairy farmers supply these nine plants. Of the two plants outside the Tri-Counties, one is located in Mason County and the other in Carroll County. The two plants receive milk from about 30 and 10 dairy farmers, respectively.

Most of the handlers whose plants are located in the Tri-Counties did not support the inclusion of the counties to the southeast of the Tri-Counties; namely, Mason, Bracken, Lewis, Fleming, Nicholas and Robertson. However, one handler who operates a bottling plant in Cincinnati, as well as one in the Tri-Counties, did support the inclusion of the southeastern counties.

The handler operating the plant located in Mason County is the major distributor of Class I milk in that county but does not distribute milk in the more densely populated Tri-County area. Routes from this plant extend only into the predominantly rural counties of Bracken, Robertson, Fleming, and Lewis. Milk from two other plants located in Ohio outside of the present marketing area of the Cincinnati order is also distributed within parts of these four counties. Handlers whose plants are regulated by the Louisville-Lexington order distribute milk in Nicholas and Fleming Counties. Only one handler whose plant is located in the Tri-County area distributes milk into Bracken, Robertson, Fleming, Nicholas and Lewis Counties. The record does not disclose what portion of the milk disposed of in these counties is distributed from this handler's plant, from unregulated plants located in Ohio or from plants regulated under the terms of the Louisville-Lexington order.

Most of the Class I sales in Carroll County are made by a handler whose plant is located therein and who does not distribute milk in any other county. The record is not clear as to whether plants located in Northern Kentucky sell most of the Class I milk distributed in Gallatin and Owen Counties. A handler whose plant is located in Indiana testified that he was the major distributor in these counties, whereas another witness testified that Northern Kentucky handlers were the major distributors in the two counties.

Tri-County handlers distribute the major portion of Class I milk sold in the Tri-Counties and in Pendleton, Grant and Harrison Counties. Accordingly, regulation should be expanded to include the handling of milk in these counties. They cover most of the sales area served by the plants which will be fully regulated hereunder. Any larger marketing area would involve regulation of plants not primarily engaged in serving those counties which are the major market for handlers whose plants are located in the Tri-Counties.

Under the terms of the order, fluid milk plants located outside the marketing area are defined as pool plants if not less than 10 percent of Class I route disposition is disposed of within the marketing area. Northern Kentucky handlers whose plants will become pool plants proposed that, should regulation be expanded to include parts of Northern Kentucky, the order should provide for the pooling of any plant from which one quart or more of Class I milk is disposed of in the marketing area.

Only those fluid milk plants from which a substantial proportion of Class I sales are made in the marketing area should be fully subject to the pricing and pooling provisions of the order. The inclusion in the pool of a plant from which only a negligible volume of its total receipts is distributed in the market would not contribute to market stability since it would encourage a plant primarily engaged in manufacturing dairy products to package and distribute a sufficient volume of fluid milk in the marketing area to pool the entire receipts at the plant. Inclusion of such a plant in the pool would result in dissipation of the returns for Class I sales which are intended to secure an adequate supply of milk for the market.

No part of Clermont County, Ohio, should be deleted from the marketing area.

A handler proposed that Clermont County, except Union and Miami townships, be deleted from the marketing area. The deletion would remove his plant from pool status. His Class I utilization is higher than the market average and he must, therefore, make payments into the producer-settlement fund. He purchases Guernsey milk for which he pays a premium above the order uniform price. The proponent testified that were he not subject to payments into the producer-settlement fund, he would use such money for premium payments to his Guernsey producers.

Clermont County is contiguous to Hamilton County within which the city of Cincinnati is located. With the expansion of the Cincinnati urban area, the population of Clermont County has almost doubled since 1950. According to the United States Census, the 1950 population of Clermont County was 42,182 and the 1960 population estimate is 80,142. In the decision of April 10, 1959, the Assistant Secretary found that plants located in Cincinnati distributed approximately 70 percent of all the Class I milk sold in Clermont County. No evidence was offered at the recent hearing upon which this decision is based which would indicate that the proportion of sales in Clermont County by Cincinnati handlers has changed materially. While the proponent handler whose plant is not located in Cincinnati may be the major distributor in certain townships of the county, it would not be in the interests of market stability to split these townships from the area merely to obviate his obligation to make payments into the producer-settlement fund.

2. *Basic formula price.* No change should be made in the nonfat dry milk component of the basic formula price.

It was proposed that the make allowance of the nonfat dry milk component of the basic formula be decreased from 6.4 cents to 5.5 cents and that the component reflect the average of spray and roller process nonfat dry milk prices rather than only the price of spray process nonfat dry milk. The proposed nonfat dry milk formula is the same as that used in the neighboring Dayton-Springfield Federal milk order.

During the 12-month period preceding the hearing, if the proposed formula had been in effect, the basic formula and, accordingly, the Class I price would have been increased in 9 of the 12 months. The average Class I price increase would have been approximately three cents.

The Cincinnati Class I price is adjusted each month on the basis of the supply and demand for milk. Any increase in the Class I price should be the result of changing supply and demand conditions.

3. *Classification.* The order should not be amended to provide Class II rather than Class III classification for skim milk and butterfat disposed of in bulk to commercial food processing establishments where food products are prepared for consumption off the premises. The language of the classification provision should be clarified so that there is no doubt that skim milk and butterfat used to produce "dip" specialties are classified as Class III utilization.

The Cincinnati Milk Sales Association proposed that skim milk and butterfat disposed of to commercial food processing establishments where food products are prepared for consumption off the premises be reclassified from Class III to Class II utilization. Since Class II and Class III prices are identical during the months of September through February, the proposed amendment would increase the price of milk disposed of to food processing plants only during the relatively flush production months of March through August when the disposal of surplus milk is likely to create a problem. Because skim milk and butterfat used by food processors may be obtained from ungraded sources, any increase in the price of surplus Grade A Cincinnati milk which must compete with ungraded milk for a market would be a deterrent to the disposal of Cincinnati surplus.

The classification provision should be rewritten to specify clearly that skim milk and butterfat used in the manufacture of "dip" specialties are classified as Class III utilization. "Dip" specialties are cultured mixtures of skim milk and butterfat to which cheese or a food substance other than a milk product has been added and which contain butterfat equal to not more than 15 percent of the finished product. The current order language is indefinite as to the proper classification of such products. Cincinnati health authorities do not require "dip" products to be made from Grade A milk and such products produced in Cincinnati pool plants compete with similar products which are manufactured at plants located throughout the United States. Any classification other than Class III for these products is impractical under the circumstances.

4. *Location adjustments.* No substantive changes need be made in the provisions by which Class I and uniform prices are adjusted pursuant to the location of the plant at which milk is received.

It was proposed that no location adjustments to prices should apply at distributing plants located within the marketing area. The proposal was predicated on the premise that Mason County, Kentucky, would be included in the marketing area and that prices effective at a distributing plant located therein would be subject to location adjustments. Whether a particular plant is a distributing plant or supply plant and whether a particular plant is or is not located in the marketing area cannot be the only consideration relative to the application of location adjustments. The location adjustment provisions of the current order are appropriate for the marketing area provided in this decision and should remain as written with the exception of the correction noted below.

In an action effective March 1, 1960, the Cincinnati order was amended to eliminate location adjustments effective at plants located more than 20 but less than 30 miles from the City Hall in Cincinnati, but references to plants located "more than 20 miles" were inadvertently left in the order. These references should be corrected.

5. *Transfers.* The transfer provision should be amended to remove specific classfication rules for that skim milk and butterfat disposed of to nonpool distributing plants located in Campbell and Kenton Counties, Kentucky. These nonpool plants will become pool plants and transfers to these plants will be classified pursuant to the provisions applicable to transfers between pool plants.

6. *Allocation of packaged Class I receipts from plants regulated by other Federal orders.* The allocation procedure should be modified relative to Class I receipts in consumer packages from a plant fully regulated under the terms of another Federal order.

A handler proposed that packaged sour cream received at a Cincinnati pool plant from a plant regulated under the terms of another Federal order be allocated to Class I disposition at the Cincinnati plant. The handler further proposed that this allocation would apply only when the sour cream was classified as Class I under the terms of another order and was disposed of as Class I from the Cincinnati plant in the same consumer package as received.

The proponent handler operates a fluid milk plant under the Cincinnati order as well as a fluid milk plant under the Louisville-Lexington order. Sour cream in consumer packages is regularly received at the Cincinnati plant from the Louisville-Lexington plant. Sour cream is not packaged at the Cincinnati plant or received from any plant other than the one regulated under the Louisville-Lexington order. The present Cincinnati order provides prior Class I allocation for packaged Class I products received from Dayton-Springfield Federal order plants.

Since the order currently accommodates receipts of all Class I items received in consumer packages from a Dayton-Springfield plant, it would be appropriate to amend the order similarly to allocate to Class I all packaged Class I items received from a plant regulated by any other Federal order. Otherwise, the allocation provision would give preference to receipts of certain Class I items from a particular Federal order market over receipts from other Federal order markets. Therefore, the provision which gives prior Class I allocation to packaged Class I receipts from Dayton-Springfield should be expanded to include such receipts from a plant pooled under the terms of any other Federal order.

7. *Shrinkage.* No change should be made in the classification of butterfat shrinkage.

The order provides Class III classification for actual shrinkage up to a maximum of 2 percent of the butterfat contained in producer milk. A handler proposed that the order be amended to allow Class III classification of such shrinkage up to a maximum of 2.5 percent. The proponent presented no factual evidence as to actual plant loss of butterfat in his operations.

During 1959 actual plant loss of butterfat in all Cincinnati pool plants was less than 2 percent of total butterfat utilization. On the same marketwide basis, butterfat loss was less than 2 percent of total utilization during each of the first five months of 1960. In view of the fact that plant loss of butterfat has been less than 2 percent of total utilization no change should be made in the classification of the butterfat shrinkage provisions.

8. *Diversion of producer milk.* No change should be made in the provisions of the order which relate to diversion of producer milk.

The order permits diversion of producer milk from a pool plant to a nonpool plant during any month if a cooperative association is the diverting handler and during the months of March through August if a handler operating a pool plant is the diverting handler.

An association of producers proposed that diversion by handlers operating pool plants be limited to the months of April, May, June and July. The proponent testified that, in general, the association has no objection to the diversion provisions of the current order but, recently, has seen some possible abuses of diversion by handlers operating pool plants. The proponent further testified that handlers operating pool plants should have the right to divert milk only in the months of foreseeable unneeded supplies; namely, April, May, June and July.

The diversion provisions of the order are to accommodate the most efficient handling of the reserve milk supply of the market. The diversion of producer milk by proprietary handlers is currently limited to the six months of the year when handlers are most likely to find it necessary to divert unneeded producer milk. One handler who operates a pool plant had recently diverted milk during the months the proponent proposes to be deleted from the period during which proprietary handlers may divert milk. Under these circumstances it would not be in the interest of the orderly marketing of reserve supplies to further limit, at this time, the months during which handlers operating pool plants may divert producer milk.

9. *Payments by handlers operating nonpool fluid milk plants.* Subject to proper reporting and the maintenance of adequate records, handlers operating nonpool plants from which Class I milk is distributed in the marketing area should be given an opportunity to choose to make payments into the producer-settlement fund of either (1) an amount determined by multiplying the hundredweight of Class I milk (less the hundredweight of any Class I milk purchased during the month from a pool plant) disposed of from routes operated in the marketing area by the difference between the Class I price and the butter-powder component of the basic formula price, or (2) the amount by which total payments to dairy farmers delivering milk to such plants are less than the total obligation to producers which would be due if such plant were a pool plant.

The order now requires nonpool fluid milk plant operators to make payments to the producer-settlement fund in accordance with the formula detailed above in (1) of the recommended option. A handler operating a nonpool fluid milk plant testified that he pays, for milk sold in the marketing area, a price which is higher than that paid by fully regulated handlers. However, this can be ascertained only if the particular nonpool plant is subject to the same classification, allocation, and pricing provisions as are fully regulated handlers.

The option afforded herein to partially regulated fluid milk plants will protect the integrity of the regulation. If a handler elects to make payments under the first option, the regulatory plan will be protected in the same manner and to the same extent as is provided with respect to compensatory payments on other source milk. If a handler chooses to pay the full utilization value of his milk either directly to his own farmers or by combination of payments to his farmers and to the producer-settlement fund, his total minimum obligation for milk will be determined in exactly the same way as if he were a fully regulated handler.

Affording this latter option to nonpool plants from which some Class I milk is distributed in the marketing area will adequately protect the classified pricing and marketwide equalization plan in this particular market. Handlers in a position to use this option do not exist to an extent permitting any significant diversion of the revenue derived from Class I sales in the marketing area to farmers only incidentally associated with the market, thus dissipating the return to pool producers of milk for which minimum class prices are established under the order and who are relied upon to produce an adequate and dependable supply of approved milk for the marketing area. Consequently, the exercise of this option will not have a disruptive influence on the handling of milk in this area. Therefore, it is not necessary, in order to maintain the integrity of the regulatory plan in this particular market, to require these partially regulated plants to make payments into the producer-settlement fund if it is ascertained that they have paid their producers at least the total amount of money which they would be required to pay if they were fully regulated.

Under the terms of the present order operators of nonpool fluid milk plants distributing in the marketing area are not subject to any assessment to help pay the expense of administering the order. In the interest of providing equity of treatment between partially and fully regulated handlers, the order should be amended to provide that partially regulated handlers also contribute to the cost of order administration.

The amount of assessment of administrative expense should depend upon which option is selected by the nonpool distributor. If he elects to pay to the producer-settlement fund on the basis of his sales from routes operated in the marketing area, he should be required to pay administrative expense only on such quantities of milk so disposed of from routes operating in the marketing area. If he elects the payment based on the utilization value of his milk, he should pay administrative expense on his entire receipts of milk from Grade A dairy farmers. Obviously, the second option necessitates as much verification of reports and utilization by the market administrator as at a pool plant. Such verification might well include the checking of weights and butterfat tests of receipts from dairy farmers and products sold as well as a complete audit of the books and records for such plant.

It is possible that nonpool plants from which milk is distributed in the Cincinnati market will also be nonpool distributing plants under the terms of another Federal order. To eliminate any duplication of equalization and administrative payments, the Cincinnati order should credit such handlers with payments made under similar provisions of another Federal order.

It would also be in the interest of providing equity between handlers to apply an administrative assessment on other source milk allocated to Class I at Cincinnati pool plants. However, to avoid duplication, an assessment should not be applied on other source milk on which an assessment is made pursuant to the terms of another Federal order.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties in the market. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Recommended marketing agreement and order amending the order. The following order amending the order regulating the handling if milk in the Cincinnati, Ohio marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended:

MISCELLANEOUS PROVISIONS

965.90 Agents.
965.91 Separability of provisions.
965.92 Plants subject to other Federal orders.

§ 965.1 Act.

"Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

§ 965.2 Secretary.

"Secretary" means the Secretary of Agriculture of the United States or any other employee of the United States authorized to exercise the powers and to perform the duties of the said Secretary of Agriculture.

§ 965.3 Greater Cincinnati marketing area.

"Greater Cincinnati marketing area", hereinafter called the "marketing area", means all the territory within the perimeter boundaries of Butler, Clermont, Hamilton and Warren counties, all in the State of Ohio; and Boone, Campbell, Grant, Harrison, Kenton and Pendleton counties, all in the State of Kentucky.

§ 965.4 Person.

"Person" means any individual, partnership, corporation, association, or any other business unit.

§ 965.5 Route.

"Route" means a delivery (including a sale from a store) of milk, buttermilk, flavored milk drinks, or cream in fluid form to a wholesale or retail stop(s) other than to a milk processing plant(s).

§ 965.6 Fluid milk plant.

"Fluid milk plant" means a plant or other facilities used in the preparation or processing of milk, all or a portion of which is disposed of during the month on a route(s) operated wholly or partially in the marketing area.

§ 965.7 Pool plant.

"Pool plant" means a milk plant, other than a plant operated by a producer-handler, which is:

(a) A fluid milk plant located in the marketing area;

(b) A fluid milk plant located outside the marketing area and from which not less than 10 percent of the entire route disposition of Class I milk from such plant during the month is disposed of on a route(s) operated wholly or partially within the marketing area; or

(c) A plant which receives milk from persons described in § 965.10(a) and from which an amount of milk or skim milk in fluid form has been moved to a plant(s) described in paragraph (a) or (b) of this section equal to not less than one percent of the total Class I utilization of all plants described in paragraphs (a) and (b) of this section during the second month preceding such movement, as specified in the following schedule:

Months Plant Is Pool Plant

Months milk is moved.	
One of the months of October and November.	November.
Two of the months of October, November, and December.	December.
Three of the months of October, November, December, and January.	January through October.

Provided, That upon written request to the market administrator by the operator of a plant which is a pool plant pursuant to this paragraph for the discontinuance of such plant as a pool plant, such plant shall cease to be a pool plant in the first month, following such request, during which no milk is moved to a plant described in paragraph (a) or (b) of this section and shall not become a pool plant until such plant again meets the requirements for a pool plant pursuant to this paragraph.

§ 965.8 Nonpool plant.

"Nonpool plant" means any milk manufacturing, processing or bottling plant other than a pool plant.

§ 965.9 Dairy farmer.

"Dairy farmer" means any person who is engaged in the production of milk.

§ 965.10 Producer.

"Producer" means a dairy farmer, other than a producer-handler, who produces milk on a farm which is approved by a duly constituted health authority for the production of milk for fluid disposition and which milk is:

(a) Permitted by the duly constituted health authority having jurisdiction in the marketing area to be labeled and disposed of as Grade A milk in the marketing area; and

(b) Received during the month at a pool plant; or

(c) If from a dairy farmer whose milk previously has been received at a pool plant, is either (1) diverted during any of the months of March through August to a nonpool plant for the account of a handler as defined in § 965.11(a)(1); (2) diverted during the month to a nonpool plant for the account of a handler as defined in § 965.11(b); or (3) diverted during the month from a pool plant to another pool plant for the account of a handler as defined in § 965.11(a)(1) or (b) for not more than two consecutive days of delivery and not more than 10 days of delivery during the month.

§ 965.11 Handler.

"Handler" means (a) any person who operates (1) a pool plant; or (2) a fluid milk plant which is a nonpool plant; or

(b) Any cooperative association with respect to the milk of any producer which is diverted by the cooperative association during the month.

§ 965.12 Producer milk.

"Producer milk" means only that skim milk and butterfat contained in milk (a) received at a pool plant directly from producers during the month, or (b) diverted from a pool plant pursuant to the conditions set forth in § 965.10(c); *Provided*, That if such diverted milk is from a producer whose milk was physically received from the farm at a pool plant located less than 45 miles from the City Hall in Cincinnati on (1) 60 percent or more of the days of its delivery during the immediately preceding period of September through December or (2) 60 percent or more of the days of its delivery from the date of first delivery to the last day of February in the immediately preceding period of September through February, such milk shall be deemed to have been received by the handler at a pool plant at the same location as the pool plant from which it was diverted. Diverted milk not meeting the conditions specified in subparagraph (1) or (2) of this paragraph shall be deemed to have been received by the handler at a pool plant at the same location as the nonpool plant to which the milk is diverted.

§ 965.13 Producer-handler.

"Producer-handler" means any person who is both a dairy farmer and a handler, but who receives no milk from other dairy farmers: *Provided*, That such person provides proof satisfactory to the market administrator that (a) the maintenance, care and management of all the dairy animals and other resources necessary to produce the entire amount of milk handled is the personal enterprise of and at the personal risk of such person in his capacity as a dairy farmer, and (b) the operation of a fluid milk plant is the personal enterprise of and at the personal risk of such person in his capacity as a handler.

§ 965.14 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by (a) receipts during the month in the form of fluid milk products except (1) producer milk, (2) such products received from other pool plants, and (3) inventory of fluid milk products at the begining of the month; and (b) products other than fluid milk products from any source (except Class II products from pool plants but including products other than Class II products produced at the pool plant), which are reprocessed, repackaged, or converted to another product during the month or for which other utilization or disposition is not established pursuant to § 965.33.

§ 965.15 Fluid milk product.

"Fluid milk product" means the fluid form of milk, skim milk, buttermilk, flavored milk, milk drink; cream (sweet, cultured, sour or whipped), eggnog, concentrated milk; and any mixture of milk, skim milk or cream (including fluid, frozen or semi-frozen malted milk and milk shake mixtures containing less than 15 percent total milk solids; and excluding frozen storage cream, aerated cream in dispensers, ice cream and frozen dessert mixes, and evaporated and condensed milk).

§ 965.16 Chicago butter price.

"Chicago butter price" means the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any range as one price) per pound of Grade A (92-score) bulk creamery butter at Chicago as reported for the month by the United States Department of Agriculture.

MARKET ADMINISTRATOR

§ 965.20 Designation.

The agency for the administration of this part shall be a market administrator, who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of the Secretary.

§ 965.21 Powers.

The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 965.22 Duties.

The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to, the following:

(a) Within 45 days following the date on which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Pay, out of the fund provided by § 965.76, the cost of his bond and of the bonds of those of his employees who handle funds entrusted to the market administrator, his own compensation, and all other expenses which will necessarily be incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(d) Keep such books and records as will clearly reflect the transactions provided for in this part, and surrender the same to his successor or to such other person as the Secretary may designate;

(e) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, within ten days after the date upon which he is required to perform such acts, has not made reports pursuant to § 965.30 or has not made payments pursuant to §§ 965.70 and 965.72;

(f) Promptly verify the information contained in the reports submitted by handlers;

(g) Furnish such information and verified reports as the Secretary may request and submit his books and records to examination by the Secretary at any and all times;

(h) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the prices determined for each month as follows:

(1) On or before the 5th day after the end of such month, the minimum class prices computed pursuant to § 965.51 and the butterfat differentials computed pursuant to § 965.52; and

(2) On or before the 20th day after the end of such month the uniform prices computed pursuant to § 965.63, and the producer butterfat differential computed pursuant to § 965.74;

(i) On or before the 13th day after the end of each month:

(1) Notify each handler of his net obligation pursuant to §§ 965.60 and 965.61 and of any adjustments pursuant to § 965.62; and

(2) Report to each cooperative association the amount and class utilization of milk caused to be delivered by such association, either directly or from producers who have authorized such association to receive payments for them under § 965.73(b), to each handler to whom the cooperative association sells milk. For the purpose of this report the milk so received shall be prorated to each class in the proportions that the total receipts of milk from producers by such handler were used in each class.

(j) Prepare and disseminate, for the benefit of producers, consumers, and handlers, such statistics and information concerning the operation of this part as do not reveal confidential information.

REPORTS, RECORDS AND FACILITIES

§ 965.30 Monthly reports of receipts and utilization.

On or before the 10th day after the end of each month, each handler shall report for such month to the market administrator for each of his pool plants, in the detail and on forms prescribed by the market administrator the following:

(a) The total pounds of skim milk and butterfat contained in or represented by:

(1) Producer milk;

(2) Fluid milk products received from other pool plants;

(3) Other source milk; and

(4) Beginning and ending inventories of fluid milk products.

(b) The utilization of all skim milk and butterfat required to be reported pursuant to this section;

(c) Such other information with respect to such receipts and utilization as the market administrator may prescribe;

(d) His producer payroll, which shall show for each producer: (1) The total pounds of milk with the average butterfat test thereof, (2) the amount of the advance payment to such producer made pursuant to § 965.70 and the nature and amount of deductions and charges made by the handler; and

(e) The name and address of each new producer.

§ 965.31 Other reports.

Each handler who operates a fluid milk plant, which is a nonpool plant shall make reports to the market administrator at such time and in such manner as the market administrator may request.

§ 965.32 Verification of handler reports.

Each handler shall make available to the market administrator or to his agent, or to such other persons as the Secretary may designate, those records which are necessary for the verification of the information contained in the reports submitted pursuant to §§ 965.30 and 965.31, and those facilities which are necessary for the sampling, weighing, and testing of the milk of each producer.

§ 965.33 Records and facilities.

Each handler required to make reports to the market administrator shall maintain, and make available to the market administrator during the usual hours of business, such accounts and records of his operations and such facilities as in the opinion of the market administrator are necessary to verify reports, or to ascertain the correct information with respect to (a) the receipts and utilization of all skim milk and butterfat received, including all milk products received and disposed of in the same form; (b) the weights and tests for butterfat, and for other contents, of all milk and milk products handled; and (c) payments to producers and cooperative associations.

§ 965.34 Retention of records.

All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies a handler in writing that the retention of such books and records, or specified books and records, is necessary in connection with a proceeding under section 8c(15)(A) of the Act or a court action specified in such notice the handler shall retain such books and records, or specified books and records, until further written notification from

the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 965.40 Basis of classification.

The skim milk and butterfat which are required to be reported pursuant to § 965.30(a) shall be classified by the market administrator, subject to the provisions of §§ 965.41 through 965.46.

§ 965.41 Classes of utilization.

Subject to the conditions set forth in §§ 965.43 and 965.44, the classes of utilization shall be as follows:

(a) **Class I milk.** Class I milk shall be all skim milk and butterfat (1) disposed of in the form of a fluid milk product, except as provided in paragraph (c) (2) and (3) of this section, and (2) not accounted for as Class II milk or Class III milk;

(b) **Class II milk.** Class II milk shall be all skim milk and butterfat:

(1) Used to produce ice cream, frozen desserts, ice cream and frozen dessert mixes (excluding malted milk or milk shake mixtures containing less than 15 percent total milk solids), milk or skim milk and cream mixtures disposed of in containers or dispensers under pressure for the purpose of dispensing a whipped or aerated product, and cottage cheese; and

(2) Inventories of fluid milk products; and

(c) **Class III milk.** Class III milk shall be all skim milk and butterfat (1) used to produce butter, frozen cream, spray and roller process nonfat dry milk solids, all cheese (other than cottage cheese), evaporated and condensed milk (or skim milk) either in bulk or hermetically sealed cans, and cutlured mixtures of skim milk and butterfat to which cheese or any food susbtance other than a milk product has been added and which contain butterfat equal to not more than 15 percent of the finished product; (2) specifically accounted for as dumped, spilled or disposed of for animal feed; (3) disposed of in bulk as milk, skim milk, or cream to any commercial food processing establishment where food products are prepared only for consumption off the premises; (4) actual plant shrinkage allocated to producer milk pursuant to § 965.42 but not in excess of 2 percent of such receipts of skim milk and butterfat, respectively; and (5) actual plant shrinkage allocated to other source milk pursuant to § 965.42.

§ 965.42 Shrinkage.

The market administrator shall allocate shrinkage at the handler's pool plant(s) as follows:

(a) Compute the total shrinkage of skim milk and butterfat, respectively; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat, respectively, in producer milk (including producer milk physically received as diverted milk from another pool plant and excluding producer milk diverted to another pool plant) and other source milk received in the form of a fluid milk product in bulk.

§ 965.43 Transfers.

Skim milk and butterfat disposed of by a handler from a pool plant shall be classified:

(a) As Class I milk if transferred to the pool plant of another handler in the form of a fluid milk product, unless:

(1) Utilization in another class is claimed by the operators of both plants in their reports submitted pursuant to § 965.30; and

(2) The receiving plant has utilization in the claimed clasification of an equivalent amount of skim milk and butterfat, respectively, after making the assignments pursuant to § 965.46(a) (1), (2), and (3) and the corresponding steps of (b): *Provided*, That if either or both plants have other source milk, the milk, skim milk or cream so transferred, shall be classified so as to allocate the highest-valued use classification available at both plants to producer milk: *And provided further*, That milk may be transferred in farm delivery containers from one pool plant to another under the conditions of this paragraph if both such plants are pool plants pursuant to § 965.7 (a) or (b);

(b) As Class I milk if transferred or diverted as milk, skim milk or cream in fluid form to a fluid milk plant operated by a producer-handler.

(c) As Class I milk if transferred or diverted as milk, skim milk or cream in fluid form in bulk to a nonpool plant unless:

(1) The handler claims classification in another class and furnishes, on or before the 10th day after the end of the month, to the market administrator, a statement signed by all parties to the transaction that such skim milk and butterfat was used in a lower priced class;

(2) Books and records are maintained for the nonpool plant showing utilization of all skim milk and butterfat at such plant which are made available, if requested by the market administrator, for the verification of such mutually indicated utilization; and

(3) An equivalent amount of skim milk and butterfat, respectively, was used at such nonpool plant in the classification(s) claimed. Any amounts in excess of the actual use in such claimed classification(s) shall be assigned to the next highest priced classification to the extent available.

§ 965.44 Responsibility of handlers.

In establishing the classification as required in §§ 965.41 and 965.43, the burden rests upon the handler to account for all skim milk and butterfat received by him and to prove to the market administrator that such skim milk and butterfat, should not be classified as Class I milk.

§ 965.45 Computation of skim milk and butterfat in each class.

For each month the market administrator shall correct for mathematical and for other obvious errors the reports of receipts and utilization for the pool plant(s) of each handler and shall compute the pounds of butterfat and skim milk in Class I milk, Class II milk, and Class III milk for such handler: *Provided*, That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by the handler, the pounds of skim milk disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product plus all of the water normally associated with such solids in the form of whole milk.

§ 965.46 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 965.45, the market administrator shall determine the classification of producer milk received at the pool plant(s) of each handler during the month as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III milk the pounds of skim milk in producer milk shrinkage assigned to Class III milk pursuant to § 965.41(c)(4);

(2) Subtract from the remaining pounds of skim milk in each class, in series beginning with the lowest-priced used available, the pounds of skim milk in other source milk less the pounds subtracted pursuant to subparagraph (3) of this paragraph;

(3) Subtract from the remaining pounds of skim milk: (i) In Class I milk, the pounds of skim milk received in the form of fluid milk products in consumer packages not larger than one gallon if such skim milk is subject to the Class I pricing provisions of another order issued pursuant to the Act: *Provided*, That this subdivision shall not apply to skim milk in any product if the same product is processed and packaged in the same size and type of container in the pool plant; and (ii) in each class, in series beginning with the lowest-priced use available, the pounds of skim milk in other source milk received in the form of a fluid milk product, excluding the pounds subtracted pursuant to subdivision (i) of this subparagraph, which is subject to the Class I pricing provisions of an order issued pursuant to the Act;

(4) Subtract from the remaining pounds of skim milk in each class the skim milk in fluid milk products received from other pool plants according to the classification determined pursuant to §§ 965.41 and 965.43;

(5) Subtract from the remaining pounds of skim milk, in series from Class II milk and then Class I milk, the pounds of skim milk in inventory of fluid milk products on hand at the beginning of the month; and

(6) Add to the pounds of skim milk remaining in Class III milk the skim milk subtracted pursuant to subparagraph (1) of this paragraph and if the remaining pounds of skim milk in all classes exceed the pounds of skim milk contained in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with the lowest-priced use available.

(b) Butterfat shall be allocated in accordance with the same procedure prescribed for skim milk in paragraph (a) of this section.

MINIMUM PRICES

§ 965.50 Basic formula price.

The basic formula price per hundredweight of milk to be used in computing the minimum price for Class I milk shall be the higher of the prices computed by the market administrator pursuant to paragraphs (a) and (b) of this section:

(a) The average of the basic (or field) prices per hundredweight ascertained to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during such month at the following plants or places for which prices are reported to the market administrator or to the United States Department of Agriculture:

Company and Location

Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by adding together the plus amounts calculated pursuant to subparagraphs (1) and (2) of this paragraph:

(1) Multiply the Chicago butter price by 4.2;

(2) From the average of carlot prices per pound for nonfat dry milk, spray process, for human consumption f.o.b. manufacturing plants in the Chicago area, as published for the period from the 26th of the immediately preceding month through the 25th day of the current month by the United States Department of Agriculture, deduct 6.4 cents and multiply the result by 8.2.

§ 965.51 Class prices.

Subject to the provisions of § 965.52 and § 965.53, the class prices for milk per hundredweight for the month shall be determined by the market administrator as follows:

(a) *Class I milk.* The price for Class I milk shall be the basic formula price for the preceding month plus $1.30, plus or minus a "supply-demand adjustment" of not more than 50 cents computed as follows:

(1) Divide the total gross pounds of Class I milk set forth in § 965.41 (adjusted to eliminate duplications due to interhandler transfers) in the second and third months preceding by the total pounds of producer milk for the same months, multiply the result by 100, and round to the nearest whole number. The result shall be known as the "Class I utilization percentage";

(2) For each full percentage point that the Class I utilization percentage is above the applicable maximum base percentage listed below increase the Class I price differential by three cents; and for each full percentage point that the Class I utilization percentage is below the applicable minimum base percentage listed below decrease such differential by three cents: *Provided*, That the Class I differtial adjusted pursuant to this subparagraph for the month of June shall not be higher than such adjusted differential for the immediately preceding month of May; and that the Class I differential so adjusted for the month of January shall not be less than the adjusted differential for the immediately preceding month of December.

Month for which price is being computed	Base utilization percentages	
	Minimum	Maximum
January	67	69
February	66	68
March	66	68
April	67	69
May	63	65
June	60	62
July	53	55
August	49	51
September	48	50
October	51	53
November	58	60
December	63	65

(b) *Class II milk.* The price for Class II milk shall be the sum of the plus adjustments computed pursuant to subparagraphs (1) and (2) of this paragraph:

(1) Multiply the Chicago butter price by 4.13; and

(2) From the average price for nonfat dry milk spray process, described in paragraph (b) (2) of § 965.50, deduct 5.5 cents and multiply the result by 8.2.

(c) *Class III milk.* The price for Class III milk during each of the months of March through August shall be the price computed pursuant to subparagraph (1) of this paragraph; and the price for Class III milk during each of the months of September through February shall be the same as the Class II price;

(1) The simple average, as computed by the market administrator of the basic (or field) prices per hundredweight ascertained to have been paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants:

M. and R. Dietetic Laboratories, Inc., Chillicothe, Ohio.
Carnation Milk Co., Hillsboro, Ohio.
Nestles Milk Products, Inc., Greenville, Ohio.
Nestles Milk Products, Inc. (Osgood Milk Co.), Osgood, Ind.
Carnation Milk Co., Maysville, Ky.

§ 965.52 Butterfat differentials to handlers.

If the weighted average butterfat test of producer milk which is classified in any class, respectively, for any handler, is more or less than 3.5 percent there shall be added to, or subtracted from, as the case may be, the price for such class, for each one-tenth of one percent that such weighted average butterfat test is above or below 3.5 percent, a butterfat differential calculated by the market administrator as follows:

(a) *Class I milk.* Add 1.25 cents to the butterfat differential for Class II milk for the preceding month;

(b) *Class II milk.* Multiply the Chicago butter price by 118, subtract therefrom the amount computed pursuant to § 965.51(b)(2) and divide the result by 1000; and

(c) *Class III milk.* Multiply the Chicago butter price less 5.0 cents by 120, subtract therefrom the amount computed pursuant to § 965.50(b)(2) and divide the result by 1000: *Provided*, That for each of the months of September through February, the butterfat differential for Class III milk other than that used to produce butter shall be the same as the butterfat differential for Class II milk for such month.

§ 965.53 Location differentials to handlers.

For that skim milk and butterfat in producer milk received at a pool plant located 30 or more miles by the shortest highway distance from the City Hall in Cincinnati, Ohio, as determined by the market administrator, and which is (a) moved in the form of a fluid milk product or as condensed skim milk or frozen cream to a pool plant located less than 30 miles from the City Hall in Cincinnati, Ohio, or (b) otherwise disposed of or utilized as Class I or Class II milk at such plant, the handlers obligation pursuant to § 965.60, subject to the proviso of this section, shall be reduced at the rate set forth in the following schedule according to the location of the pool plant where such skim milk and butterfat are received from producers as follows:

Distance from City Hall (miles):	*Rate per hundredweight (cents)*
30 but less than 40	6.0
40 but less than 50	8.0
50 but less than 60	10.0
For each additional 10 miles or fraction thereof an additional	1.5

Provided, That in the case of transfers made under paragraph (a) of this section, the location differential credit (1) shall apply to the actual weight of the skim milk and butterfat moved, which weight shall not exceed the difference calculated by subtracting from the total pounds of skim milk and butterfat in Class I milk and Class II milk at the transferee's plant the total skim milk and butterfat in producer milk physically received at such plant, and (2) shall be allowed to the transferee-handler if such credit does not exceed the obligation of such handler to the producer-settlement fund for the month.

§ 965.54 Use of equivalent prices.

If for any reason a price quotation required by this part for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

COMPUTATION OF UNIFORM PRICE

§ 965.60 Net obligation of each handler.

The net obligation of each handler for producer milk for the month shall be a sum of money computed by the market administrator as follows:

(a) Multiply the pounds of producer milk in each class by the applicable class price and add together the resulting amounts;

(b) Subtract the location differential credits pursuant to § 965.53;

(c) Add the amounts computed by multiplying the pounds of overage deducted from each class pursuant to § 965.46(a)(6) and the corresponding step of (b) by the applicable class price;

(d) Add the amount computed by multiplying the difference between the applicable Class II price for the preceding month and the applicable Class I price for the current month by the pounds of milk in inventory subtracted from Class I milk pursuant to § 965.46 (a)(5) and the corresponding step of (b); and

(e) Add an amount computed by multiplying the pounds of other source milk subtracted from Class I milk and Class II milk pursuant to § 965.46(a)(2) and the corresponding step of (b) by the difference between the price for milk (of the same butterfat content) in the class from which subtracted and the price computed pursuant to § 965.50(b), adjusted to the same test by the Class III butterfat differential (other than butter): *Provided*, That for any month when the aggregate utilization of Class I milk for all handlers at pool plants is 90 percent or more of producer milk, no obligations shall be incurred pursuant to: (1) This paragraph, (2) paragraph (d) of this section on milk which is in excess of producer milk classified as Class II milk for the preceding month, or (3) § 965.61.

§ 695.61 Handlers operating nonpool fluid milk plants.

On or before the 17th day after the end of each month, each handler, except a producer-handler, operating a nonpool fluid milk plant shall pay to the market administrator the amounts computed pursuant to paragraph (a) of this section, unless the handler elects at the time of reporting pursuant to § 965.31 to pay the amounts computed pursuant to paragraph (b) of this section;

(a) An amount:

(1) For deposit to the producer-settlement fund determined by multiplying the hundredweight of milk disposed of as Class I milk from such plant on routes from which milk is disposed of within the marketing area (less the hundredweight of any Class I milk purchased by such handler during the month from a pool plant), by the amount by which the price of Class I milk computed pursuant to §§ 965.51, 965.52, and 965.53, exceeds the price computed pursuant to §965.50(b) adjusted by the Class III butterfat differential (other than butter); and

(2) For administrative assessment, equal to the rate specified in § 965.76 multiplied by the hundredweight of such Class I skim milk and butterfat disposed of on routes from which Class I milk is disposed of within the marketing area, unless an administrative assessment is applied to milk at such nonpool plant pursuant to another order issued pursuant to the Act on the same basis as plants fully regulated by such other order; or

(b) An amount:

(1) For deposit to the producer-settlement fund, equal to any plus amount remaining after deducting the amounts computed under subdivisions (i) and (ii) of this subparagraph from the obligation that would have been computed pursuant to § 965.60 for such nonpool plant, had such plant been a pool plant:

(i) The gross payments made on or before the 17th day after the end of the month for milk received at such nonpool plant during the month from dairy farmers who produce milk in compliance with the Grade A inspection requirements of a duly constituted health authority; and

(ii) Any payments to the producer-settlement fund under other orders issued pursuant to the Act applicable to milk handled at such plant during the month as a partially regulated plant under such other orders;

(2) For administrative assessment, equal to the amount which would have been computed pursuant to § 965.76 if such nonpool plant were a pool plant during the month: *Provided*, That such amount shall be reduced by any amount paid as an administrative expense assessment determined on the basis of Class I milk disposed of on routes in other marketing areas, pursuant to the terms of other orders issued pursuant to the Act: *And provided further*, That if less Class I milk is disposed of from such nonpool plant on routes in the Greater Cincinnati marketing area than is disposed of on routes in another marketing area as defined in an order issued pursuant to the Act, and if an administrative expense assessment is applied at such nonpool plant as if a fully regulated plant pursuant to the terms of the order for the marketing area where the volume of Class I milk disposed of from such nonpool plant is greatest, no administrative expense assessment shall be applicable under this order.

§ 965.62 Correction of errors.

Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses adjustments to be made, for any reason, which result in monies due (a) the market administrator from such handler, (b) such handler from the market administrator, or (c) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any such amount due, and payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred, following the 5th day after such notice.

§ 965.63 Computation of uniform prices.

For each month, the market administrator shall compute the uniform price per hundredweight of producer milk of 3.5 percent butterfat content as follows:

(a) Add together the values of milk as computed pursuant to § 965.60 for handlers other than those in arrears in payment (other than in payment for any amount pursuant to § 965.62) to the producer-settlement fund as required by § 965.72 for the preceding month;

(b) Subtract, if the weighted average butterfat test of all producer milk represented in the sum computed under paragraph (a) of this section is greater than 3.5 percent, or add, if the weighted average butterfat test of such milk is less than 3.5 percent, an amount computed as follows: Multiply the hundredweight of such milk by the difference of its weighted average butterfat test from 3.5 percent, and multiply the resulting amount by the butterfat differential computed pursuant to § 965.74 times 10;

(c) Subtract for each of the months of April, May, June, and July an amount computed by multiplying the total hundredweight of milk received from producers during such month by the following amounts: 30 cents in April; 35 cents in May and June; and 20 cents in July;

(d) Add for each of the months of September, October, November, and December an amount computed by dividing by four the total amount of the obligated balance in the producer-settlement fund pursuant to § 965.71(b) on September 30 of such year;

(e) Add the sums of the values of the location differentials allowable pursuant to § 965.75;

(f) Add the unobligated balance in the producer-settlement fund;

(g) Divide by the total hundredweight of producer milk pooled pursuant to paragraph (a) of this section; and

(h) Subtract not less than four cents or more than five cents per hundredweight.

PAYMENTS FOR MILK

§ 965.70 Payments to producers.

On or before the 5th day after the end of each month, each handler shall pay to each producer $1.00 per hundredweight of milk received from such producer during the month: *Provided*, That in the event the total amount of deductions and charges authorized by any producer against payments due such producer for the month next preceding is greater than the payment computed for such producer pursuant to § 965.73(a) with respect to the milk received from such producer during such preceding month, the handler may deduct from the payment required by this section a sum equal to the difference between such amounts.

§ 965.71 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund, known as the "producer-settlement fund", which shall function as follows:

(a) All payments made by handlers pursuant to §§ 965.61(a)(1) and (b)(1) and 965.72 shall be deposited in this fund, and all payments made pursuant to § 965.73 shall be made out of this fund;

(b) All amounts subtracted pursuant to § 965.63(c) shall be deposited in this fund and shall remain therein as an obligated balance until withdrawn for the purpose of effectuating § 965.63(d); and

(c) The difference between the amount added pursuant to § 965.63(f) and the amount resulting from the subtraction pursuant to § 965.63(h) shall be deposited in, or withdrawn from, this fund, as the case may be.

§ 965.72 Payments to producer-settlement fund.

On or before the 17th day after the end of each month, each handler shall pay to the market administrator his obligation for milk for such month of which he is notified pursuant to § 965.22(i)(1) less the amount paid out to each producer in accordance with § 965.70, and less the amount of the deductions and charges authorized by such producer which are itemized on the handler's producer payroll: *Provided*, That in the calculation of the total amount of such deductions and charges to be subtracted, the deductions and charges to be considered with respect to each individual producer shall not be greater than an amount which, when added to the payment made to such producer in accordance with § 965.70 (inclusive of the deductions and charges authorized by § 965.70) will not exceed the total value of the milk received from such producer.

§ 965.73 Payments from producer-settlement fund.

(a) The market administrator shall compute the payment due each producer for milk received during the month from such producer by a handler(s) who made the payments for such month pursuant to § 965.72, by multiplying the hundredweight of such milk by the uniform price computed pursuant to § 965.63 adjusted by the location differential pursuant to § 965.75 and the butterfat differential pursuant to § 965.74, and subtracting any charges and deductions made pursuant to § 965.72.

(b) On or before the 20th day after the end of each month, the market administrator shall pay, subject to the provisions of § 965.77:

(1) Direct to each producer who has not authorized a cooperative association to receive payments for such producer, the amount of the payment calculated for such producer pursuant to paragraph (a) of this section; and

(2) To each cooperative association authorized to receive payments due producers who market their milk through such cooperative association, the aggregate of payments calculated pursuant to paragraph (a) of this section, for all producers certified to the market administrator by such cooperative association as having authorized such cooperative association to receive such payments.

§ 965.74 Butterfat differential to producers.

In computing the payments due each producer for milk pursuant to § 965.73, there shall be added to or subtracted from the uniform price per hundredweight for each one-tenth of one percent of butterfat content in such milk above or below 3.5 percent, as the case may be, a butterfat differential computed by the market administrator as follows:

(a) Compute the percentage of the total butterfat in producer milk assigned to each class pursuant to § 965.46;

(b) Multiply each such percentage figure by the butterfat differential for the respective class pursuant to § 965.52; and

(c) Add into one total the value obtained in paragraph (b) of this section, rounding off the result to the nearest even one-tenth cent.

§ 965.75 Location differentials to producers.

In computing the payment due each producer pursuant to § 965.73, the uniform price for producer milk at a pool plant located 30 or more miles by the shortest hard surfaced highway distance from the City Hall in Cincinnati, Ohio, as determined by the market administrator, shall be reduced at the rate set forth in the following schedule according to the location of the pool plant where such milk is received from producers:

Distance from the City Hall (miles):	*Rate per hundredweight (cents)*
30 but less than 40	6.0
40 but less than 50	8.0
50 but less than 60	10.0
Each additional 10 miles or fraction thereof an additional	1.5

§ 965.76 Expense of administration.

As his pro rata share of the expense incurred in the maintenance and functioning of the office of the market adminstrator and in the performance of the duties of the market administrator, each handler shall pay to the market adminstrator, on or before the 17th day after the end of each month, two cents per hundredweight or such lesser amount as the Secretary may from time to time prescribe, with respect to: (a) all producer milk received during the month; and (b) other source milk as allocated to Class I during the month pursuant to § 965.46 excluding other source milk on which an administrative assessment is payable pursuant to another Federal order. A handler operating a fluid milk plant which is a nonpool plant shall pay administrative assessments pursuant to § 965.61.

§ 965.77 Marketing services.

The market administrator shall deduct an amount not exceeding six cents per hundredweight (the exact amount to be determined by the market administrator) from the payments made pursuant to § 965.73(b), with respect to the milk of those producers for whom the marketing services set forth in paragraph (b) of this section are not being performed by a cooperative association which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act", for the purpose of performing the services set forth in paragraph (b) of this section.

(b) The moneys received by the market administrator pursuant to paragraph (a) of this section shall be expended by the market administrator for market information to, and for the verification of weights, samples, and tests of milk of, producers for whom a cooperative association, as described in paragraph (a) of this section, is not performing the same services on a comparable basis, as determined by the market administrator, subject to review of the Secretary.

§ 965.78 Termination of obligation.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producers or cooperative association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part, shall terminate two years after the end of the calendar month during which milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 965.80 Effective time.

The provisions of this part, or any amendments to this part shall become

effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 965.81 Suspension or termination.

Any or all provisions of this part, or amendments to this part, shall be suspended or terminated as to any or all handlers after such reasonable notice as the Secretary may give, and shall terminate in any event, whenever the provisions of the act authorizing it cease to be in effect.

§ 965.82 Continuing power and duty of the market administrator.

If upon the suspension or termination of any or all provisions of this part, there are any obligations arising under this part, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate. The market administrator, or such other person as the Secretary may designate, shall continue in such capacity until removed by the Secretary, account from time to time for all receipts and disbursements and, when so directed by the Secretary, deliver all funds on hand, together with the books and records of the market administrator, or such other person to such person as the Secretary shall direct, and execute, if so directed by the Secretary, such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

§ 965.83 Liquidation after suspension or termination.

Upon the suspension or termination of any or all provisions of this part the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amount necessary to meet outstanding obligations and the expense necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 965.90 Agents.

The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 965.91 Separability of provisions.

If any provision of this part, or its application to any person or circumstances, is held invalid the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

§ 965.92 Plants subject to other Federal orders.

The provisions of this part shall not apply to a fluid milk plant or a supply plant during any month in which the milk at such plant would be subject to the classification and pricing provisions of another order issued pursant to the act unless such plant meets the requirements for a pool plant pursuant to § 965.7 and a greater volume of fluid milk products is disposed of from such plant to pool plants and to retail or wholesale outlets located in the Greater Cincinnati marketing area than in the marketing area regulated pursuant to such other order during the current month and each of the three months, immediately preceding: *Provided*, That the operator of a fluid milk plant or a supply plant which is exempted from the provisions of this order pursuant to this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

Issued at Washington, D.C., this 1st day of December 1960.

ROY W. LENNARTSON,
Deputy Administrator.

[7 CFR Part 989]

HANDLING OF RAISINS PRODUCED FROM RAISIN VARIETY GRAPES GROWN IN CALIFORNIA

Monthly Report of Disposition of Free Tonnage Raisins

Consideration is being given to a proposal to amend § 989.173(d) of the administrative rules and regulations, as amended (Subpart-Administrative Rules and Regulations; 7 CFR 989.101–989.180), effective pursuant to, and for operations under, Marketing Agreement No. 109, as amended, and Order No. 89, as amended (7 CFR Part 989), regulating the handling of raisins produced from raisin variety grapes grown in California. The amended marketing agreement and order are effective pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The proposal was recommended by the Raisin Administrative Committee, established under this regulatory program.

Section 989.173(d) requires each handler who is not a processor to report monthly the aggregate quantity of each varietal type of free tonnage raisins, segregated according to prescribed outlets and bulk or consumer packs, which such handler shipped or otherwise disposed of during the preceding month. Interhandler or interplant transfers within the State of California are excluded. The proposed amendment would require such handlers to segregate further the aggregate quantities in consumer packs according to the quantity shipped in consumer cartons and the quantity shipped in bags having a net weight content of four pounds or less. The more detailed information is expected to provide the committee with a better basis on which to formulate its marketing policy, and to determine the need for, or to cause to be carried out, research on the marketing, distribution, and consumption of raisins. In compiled form, it would show the trends in the use of the two types of containers and thus provide guides as to the growth or decline of market outlets for each of the two types of packaged raisins.

Consideration will be given to any written data, views, or arguments pertaining to the proposal which are received by the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D.C., not later than the seventh day after publication of this notice in the FEDERAL REGISTER.

The proposal is to amend § 989.173(d) of the administrative rules and regulations, as amended (Subpart-Administrative Rules and Regulations; 7 CFR 989.101–989.180), to read as follows:

(d) *Monthly report of disposition of free tonnage raisins.* Each handler who is not a processor shall file with the committee on or before the fifth day of each month a report for the preceding month showing the aggregate quantity of each varietal type of free tonnage packed raisins and standard natural condition raisins which were shipped or otherwise disposed of by him during the month (exclusive of transfers within the State of California between handlers and between the plants of any such handler). Such information shall be segregated as to: (1) Domestic outlets (exclusive of Federal Government purchases) according to the quantity shipped in consumer cartons, the quantity shipped in bags having a net weight content of four pounds or less, and the quantity shipped in bulk packs (including but not limited to, those in bags having a net weight content of more than four pounds); (2) Federal Government purchases; (3) export outlets according to the quantity shipped in consumer cartons, the quantity shipped in bags having a net weight content of four pounds or less, and the quantity shipped in bulk packs (including, but not limited to, those in bags having a net weight content of more than four pounds); and (4) each of any other outlets in which the handler has made disposition of such raisins other than by any transfer which is excluded by the preceding sentence. For the purpose of this paragraph, Canada shall be considered as a domestic outlet and not an export outlet.

Dated: December 1, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CIVIL AERONAUTICS BOARD

[14 CFR Part 302]

[Docket No. 11221]

RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

Statements and Oral Argument

DECEMBER 1, 1960.

Notice is hereby given that the Civil Aeronautics Board has under consideration a proposed amendment to Part 302 of the Board's rules of practice which would withdraw from persons who are not parties to a proceeding the privilege of presenting statements and oral argument to the Board after the hearing before the examiner is concluded.

The principal reasons for the proposed amendment are explained in the attached Explanatory Statement. This amendment is proposed under authority of sections 204(a) and 1001 of the Federal Aviation Act of 1958 (72 Stat. 743, 778; 49 U.S.C. 1324, 1481).

Interested persons may participate in the proposed rule making through submission of ten (10) copies of written data, views, or arguments pertaining thereto, addressed to the Docket Section, Civil Aeronautics Board, Washington 25, D.C. All relevant matter in communications received on or before February 3, 1961, will be considered by the Board before taking final action on the proposed rule. Copies of such communications will be available after February 3, 1961, for examination by interested persons in the Docket Section of the Board, Room 711, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C.

By the Civil Aeronautics Board.

[SEAL] ROBERT C. LESTER,
Secretary.

EXPLANATORY STATEMENT

On March 18, 1960, the Board issued a notice of proposed rule making, Docket 11221, proposing various amendments in Part 300, the Board's principles of practice (14 CFR Part 300), and in Part 302, the Board's rules of practice in economic proceedings (14 CFR Part 302). In addition to requesting comments on the specific proposals contained therein, the Board invited comments and suggestions as to other improvements which could be made in the Board's rules concerning ethical practices.[1]

In response to this notice over 49 C.A.B. practitioners (hereinafter referred to as Practitioners) submitted group comments and suggestions, and several air carriers and practitioners submitted individual comments and suggestions relating to, inter alia, the question of participation of persons who are not parties in Board proceedings.

Practitioners suggest that Rule 14 of Part 302 of the Board's procedural regulations be revised so that non-parties could participate in a proceeding "only by presenting at the hearing evidence and memoranda relevant to issues in the case." This proposed change would eliminate the oral arguments now presented to the Board by Congressmen, spokesmen for the Federal executive departments or agencies, and State Aviation Commissions. The amendment proposed by these Practitioners would also limit the rights now enjoyed by nonparties to present written memoranda expressing their views to the examiner or the Board in route cases by requiring such statements to be presented prior to the close of the hearings in order to afford other parties the opportunity to cross-examine them and rebut the evidence and contentions contained in such memoranda. A minority of the Practitioners issued a separate report favoring continuation of the present provisions of Rule 14.

In support of its position, the majority report contends that a court would not permit such persons to appear at oral arguments or permit its files to be cluttered with pleadings submitted by persons who do not have a sufficient interest to sustain intervention. It is further contended that Bureau Counsel, cities who are parties, and the air carrier parties adequately represent public interest considerations and that there is no need for Congressmen or other elected officials to appear at the oral argument.

The minority report of the Practitioners is opposed to any restriction on Congressmen or public officials participating in Board proceedings. The minority contends that the ability of such persons to present their views at oral argument will make it easier for the Board to enforce the rules against ex parte communications, that their appearances are of value to the Board as a matter of public relations, and that public officials generally have a better grasp of the local needs of their areas than an air carrier party to the proceeding.

It appears that the proposal in the majority report has merit and requires careful consideration. Since the notice heretofore issued by the Board did not contain a specific proposal in this respect, many persons who would be directly affected by withdrawal of the privileges to submit memoranda to the Board after conclusion of the hearing and to present oral argument have had no opportunity to submit comments thereon. The Board therefore has decided to issue an additional notice of proposed rule making containing a specific proposal, thereby providing an opportunity for all interested persons to submit comments.

PROPOSED RULE

The Board proposes to amend Part 302 of the procedural regulations (14 CFR Part 302):

1. By deleting the third and last sentences of paragraph (b) of § 302.14 and inserting in lieu thereof the following text: "Such persons may also present to the examiner a written statement on the issues involved in the proceeding. Unless otherwise directed by the examiner, such written statement shall be filed and served on all parties prior to the close of the hearing."

2. By deleting paragraph (c) of § 302.14.

[F.R. Doc. 60–11270; Filed, Dec. 5, 1960; 8:46 a.m.]

[1] Simultaneously herewith the Board has adopted as final rules the rules proposed in the Notice with certain minor changes, Docket 11221, Regulations Nos. PR–43 and PR–44.

FEDERAL AVIATION AGENCY

[14 CFR Part 507]

[Reg. Docket No. 588]

AIRWORTHINESS DIRECTIVES

Continental Engines

Pursuant to the authority delegated to me by the Administrator (14 CFR Part 405), notice is hereby given that the Federal Aviation Agency has under consideration a proposal to amend Part 507 of the regulations of the Administrator to include an airworthiness directive requiring replacement of exhaust valves on certain Continental engines to prevent failures which can result in engine damage.

Interested persons may participate in the making of the proposed rule by submitting such written data, views or arguments as they may desire. Communications should be submitted in duplicate to the Docket Section of the Federal Aviation Agency, Room B–316, 1711 New York Avenue, NW., Washington 25, D.C. All communications received on or before January 5, 1961, will be considered by the Administrator before taking action on the proposed rule. The proposals

contained in this notice may be changed in light of comments received. All comments submitted will be available, in the Docket Section, for examination by interested persons when the prescribed date for return of comments has expired. This proposal will not be given further distribution as a draft release.

This amendment is proposed under the authority of sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 (72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423).

In consideration of the foregoing, it is proposed to amend § 507.10(a) of Part 507 (14 CFR Part 507), by adding the following airworthiness directive:

CONTINENTAL. Applies to all E165, E185, E225, and O-470 Series engines. (These engines may be used in such aircraft as Beech 35 Series, Cessna 180, 182, 310 and Navion.)

Compliance required at next engine top overhaul or overhaul, whichever occurs first after the effective date of this directive.

Unless already accomplished per Continental Motors Corporation Service Bulletin No. M60-1, remove exhaust valves, CMC P/N 40651, 537844, 538997, or 539449, and replace with CMC P/N 626540. P/N 626540 may be identified by the following:

(a) The part number on the top surface of the head, or

(b) The letter "H" stamped or etched 0.06-inch high in two places 180 degrees apart on the valve stem between the keeper groove and the end of the valve.

Issued in Washington, D.C., on November 29, 1960.

GEORGE C. PRILL,
Acting Director,
Bureau of Flight Standards.

AIRWORTHINESS DIRECTIVES

Lockheed Aircraft

Pursuant to the authority delegated to me by the Administrator (14 CFR Part 405), notice is hereby given that the Federal Aviation Agency has under consideration a proposal to amend Part 507 of the regulations of the Administrator to include an airworthiness directive requiring repetitive inspections for cracks and looseness of the main landing gear drag strut attach plates on Lockheed PV-1 and B-34 aircraft. Failures of this part have resulted in collapse of the main landing gear. If cracks or deformation in the attach plates or bolts are found, replacement with strengthened parts must be accomplished.

Interested persons may participate in the making of the proposed rule by submitting such written data, views or arguments as they may desire. Communications should be submitted in duplicate to the Docket Section of the Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. All communications received on or before January 5, 1961, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in light of comments received. All comments submitted will be available, in the Docket Section, for examination by interested persons when the prescribed date for return of comments has expired. The proposal will not be given further distribution as a draft release.

This amendment is proposed under the authority of sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 (72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423).

In consideration of the foregoing, it is proposed to amend § 507.10(a) of Part 507 (14 CFR Part 507), by adding the following airworthiness directive:

LOCKHEED. Applies to all Model PV-1 and B-34 aircraft with main landing gear drag strut attach plates, P/N 112900 or P/N 12665.

Compliance required as indicated. (It will be necessary for operators to maintain a record of landings in order to ascertain compliance with this AD.)

Investigation has shown that failure of the main landing gear drag strut attach plate, P/N 112900 has caused the main landing gear to collapse. The B-34 main landing gear drag strut attach plate, P/N 12665, is the same as the PV-1. As a result of this service experience the following shall be accomplished:

(a) Within the next 25 landings and every 50 landings thereafter, inspect the main landing gear drag strut attack plates, P/N 112900, or P/N 12665, in place on the aircraft for cracks and looseness.[1] Dye penetrant or FAA approved equivalent must be used for crack detection. If the drag strut attach plate is loose, then it must be visually inspected for elongation of the bolt holes and the attaching bolts visually inspected for cracks, or deformation. If cracks or elongation of the bolt holes are found in the drag strut attach plate, it must be replaced prior to the next flight. Deformed or cracked bolts must be replaced prior to the next flight.

(b) The special inspections contained in this AD may be discontinued after the Howard Aero, Inc., replacement main landing gear drag strut attach plates, P/N 5-302006, or FAA approved equivalents, are installed using 180,000 p.s.i. minimum ultimate tensile strength attaching bolts.

Issued in Washington, D.C., on November 29, 1960.

GEORGE C. PRILL,
Acting Director,
Bureau of Flight Standards.

[14 CFR Parts 600, 601]

[Airspace Docket No. 60-LA-97]

FEDERAL AIRWAYS, CONTROL AREAS AND REPORTING POINTS

Revocation

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to Parts 600 and 601 of the regulations of the Administrator, the substance of which is stated below.

Red Federal airway No. 9 extends from Campo, Calif., to Casa Grande, Ariz. The Federal Aviation Agency is considering revoking Red 9 in its entirety. It is the policy of this Agency to revoke L/MF airways wherever adequate VOR airways are available and it appears that the route from Campo to Casa Grande is adequately served by VOR Federal airways No. 66 and No. 94. Therefore, it appears that the retention of this airway is unjustified as an assignment of airspace. Accordingly, the Federal Aviation Agency proposes to revoke Red 9, and its associated control areas from Campo to Casa Grande. Adoption of this proposal would not necessarily result in the discontinuance of the low frequency navigational aids associated with this segment of Red 9. Any proposals to discontinue one or more of these aids would be processed in accordance with current Agency procedures.

Concurrently with this action, § 601.4209, designated reporting points associated with Red 9, would be revoked.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box 90007, Airport Station, Los Angeles 45, Calif. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sec. 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on November 30, 1960.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

[F.R. Doc. 60-11273; Filed, Dec. 5, 1960; 8:46 a.m.]

[1] A method of inspection for looseness is to check for gapping of 0.010 inch or greater, between the drag strut plate and the backing plate at a point approximately 4.5 inches above the lower edge of the attach plate. Insert a feeler gage between the attach plate and the backing plate from the outboard side to make this check.

[14 CFR Parts 600, 601]

[Airspace Docket No. 60-LA-96]

FEDERAL AIRWAYS, CONTROL AREAS AND REPORTING POINTS

Revocation

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to Parts 600 and 601 of the regulations of the Administrator, the substance of which is stated below.

Red Federal airway No. 60 extends from Oakland, Calif., to Copper, Calif. The Federal Aviation Agency is considering revoking this airway in its entirety. It is the policy of this Agency to revoke L/MF airways wherever adequate VOR airways are available, and it appears that the route from Oakland to Copper is adequately served by VOR Federal airway No. 244. In addition, a Federal Aviation Agency IFR peak-day airway traffic survey for the period July 1, 1959, through June 30, 1960, shows a maximum of six aircraft movements between any two reporting points on Red 60. Therefore, it appears that retention of this airway is unjustified as an assignment of airspace. Accordingly, the Federal Aviation Agency proposes to revoke Red 60 and its associated control areas from Oakland to Copper. Adoption of this proposal would not necessarily result in discontinuance of the low frequency navigational aids associated with Red 60. Any proposals to discontinue one or more of these aids would be processed in accordance with current Agency procedures.

Concurrently with this action, § 601.4260, designated reporting points associated with Red 60, would be revoked.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box 90007, Airport Station, Los Angeles 45, Calif. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue, NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C. on November 30, 1960.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

[F.R. Doc. 60-11274; Filed, Dec. 5, 1960; 8:47 a.m.]

[14 CFR Part 608]

[Airspace Docket No. 60-FW-52]

RESTRICTED AREAS

Alteration of Restricted Area/Military Climb Corridor

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 608.41 of the regulations of the Administrator, the substance of which is stated below.

The Goldsboro, N.C., (Seymour Johnson AFB), Restricted Area/Military Climb Corridor (R-573) (Chart RF-130) is presently based on the 226° True radial of the Seymour Johnson terminal VOR and the controlling agency is the Seymour Johnson AFB control tower.

The Federal Aviation Agency is considering altering the Seymour Johnson AFB Restricted Area/Military Climb Corridor by basing it on the 228° True radial of the Seymour Johnson TACAN (latitude 35°20'53" N., longitude 77°55'33" W.), instead of the 226° True radial of the Seymour Johnson terminal VOR. This would facilitate use of the climb corridor since it is used primarily by TACAN equipped aircraft. In addition, the controlling agency would be changed from the Seymour Johnson AFB control tower to the Federal Aviation Agency, Raleigh-Durham, N.C., approach control facility. This would improve air traffic management since this facility provides the approach control service for Seymour Johnson AFB which is now served by a peripheral radio site located near the airbase.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 1689, Fort Worth 1, Tex. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue, NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C. on November 30, 1960.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

FEDERAL RESERVE SYSTEM

[12 CFR Part 206]

[Reg. F]

TRUST POWERS OF NATIONAL BANKS

Common Trust Funds

Part 206 (Regulation F), which relates to trust powers of national banks, contains provisions prohibiting the collective investment of trust funds except as permitted in § 206.17. Common Trust Funds as regulated by the Board of Governors by § 206.17, were intended to aid banks and trust companies establishing such Common Trust Funds to administer more effectively and economically certain accounts for which the bank or trust company held an appointment as trustee, executor, administrator or guardian, provided such accounts were created and used for bona fide fiduciary purposes. The Regulation prohibits "the operation of such Common Trust Funds * * * for other than strictly fiduciary purposes."

Questions have arisen from time to time as to the eligibility of various kinds of trusts for participation in Common Trust Funds so established and regulated. In order to emphasize the special purposes and restricted use of Common Trust Funds, to make more specific the types of trusts which may not be properly invested in participations in Common Trust Funds and to prohibit the use of such funds as a medium attracting individuals primarily seeking investment management of their funds, the Board currently is considering an amendment of the Common Trust Fund provisions of its Regulation F by adding a new sentence following the third sentence of subparagraph (3) of paragraph (a) of § 206.17, as follows: "The funds of an inter vivos trust revocable by the settlor and providing for the payment of the principal of the trust to the settlor's estate at his death may not be invested in a Common Trust Fund established and maintained under this section."

This notice is published pursuant to section 4 of the Administrative Pro-

cedure Act and section 2 of the rules of procedure of the Board of Governors of the Federal Reserve System (12 CFR 263.2). The proposed amendment is authorized under the authority cited at 12 CFR Part 206.

To aid in the consideration of this matter the Board will be glad to receive from interested persons any relevant data, views or arguments. Although such material may be sent directly to the Board, it is preferable that it be sent to the Federal Reserve Bank of the district which will forward it to the Board to be considered. All such material should be submitted in writing to be received not later than January 13, 1961.

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] MERRITT SHERMAN,
Secretary.

[F.R. Doc. 60-11288; Filed, Dec. 5, 1960; 8:52 a.m.]

Notices

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Classification No. 3]

FAIRBANKS LAND DISTRICT

Small Tract Classification

1. Pursuant to authority delegated to me by Bureau Order No. 541, dated April 21, 1954 (10 F.R. 2473), I hereby classify the following described public lands, totaling 219.57 acres at Birch Lake, as suitable for lease and sale for recreation purposes under the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U.S.C. 682a), as amended:

T. 7 S., R. 5 E., F. M.,
Section 12: Lots 3, 4 and that portion of Lot 5 which in normal subdivision would be described as $N\frac{1}{2}N\frac{1}{2}SW\frac{1}{4}SW\frac{1}{4}$ and $SW\frac{1}{4}NW\frac{1}{4}SW\frac{1}{4}SW\frac{1}{4}$.
T. 7 S., R. 6 E., F. M.,
Section 27: Lots 1, 2, 4 and $NE\frac{1}{4}NW\frac{1}{4}$.

Containing approximately 219.57 acres.

2. The lands described in paragraph one above were restored from withdrawal by Public Land Order 1253, dated November 15, 1955, but were retained in reserved status pending small tract classification and future opening.

3. Classification of the above described lands by this order segregates them from all appropriation, including locations under the mining laws, except to applications under the mineral leasing laws.

4. Nothing in this order shall preclude application for State selection in accordance with and subject to the provisions of the Act of July 28, 1956 (70 Stat. 709; 48 U.S.C. 46-3b) and section 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339).

5. The lands classified by this order shall not become subject to application under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U.S.C. 682a), as amended, until it is so provided by an order to be issued by an authorized officer, opening the lands to application or bid.

RICHARD L. QUINTUS,
Operations Supervisor.

ATOMIC ENERGY COMMISSION

[Docket No. 50-39]

CURTISS-WRIGHT CORP.

Notice of Termination of Utilization Facility License

Notice is hereby given that, as requested by the licensee, License No. R-36, issued to Curtiss-Wright Corporation, has been terminated, as of December 12, 1960, as set forth below.

Dated at Germantown, Md., this 29th day of November 1960.

For the Atomic Energy Commission.

R. L. KIRK,
Deputy Director, Division of Licensing and Regulation.

TERMINATION

Pursuant to the request of the licensee, dated November 17, 1960, License No. R-36, issued to Curtiss-Wright Corporation to operate a utilization facility at Quehanna, Pennsylvania, has been terminated as of December 12, 1960. Ownership of the facility is being transferred by Curtiss-Wright Corporation to The Pennsylvania State University upon the receipt of appropriate licenses by the University.

Date of issuance: November 29, 1960.

For the Atomic Energy Commission.

R. L. KIRK,
Deputy Director, Division of Licensing and Regulation.

[F.R. Doc. 60-11265; Filed, Dec. 5, 1960; 8:45 a.m.]

[Docket No. 50-174]

PENNSYLVANIA STATE UNIVERSITY

Notice of Issuance of Facility License

Please take notice that the Atomic Energy Commission has issued Facility License No. R-72, set forth below, authorizing The Pennsylvania State University to possess, but not to operate, the nuclear research reactor facility at the Curtiss-Wright Research and Development Center at Quehanna, Pennsylvania, which has heretofore been owned by the Curtiss-Wright Corporation, and previously operated under License No. R-36. Ownership of the facility will be transferred to the University upon the receipt of this license and the official name of the facility is to be The Curtiss-Wright Nuclear Research Laboratory of The Pennsylvania State University. The license, which becomes effective on December 12, 1960, also authorizes the possession of source and special nuclear material in connection with the eventual operation of the reactor.

The Commission has found that possession of the facility in accordance with the terms and conditions of the license will not present an undue hazard to the health and safety of the public and will not be inimical to the common defense and security.

The Commission has found that prior public notice of proposed issuance of this license is not necessary since the proposed possession of the facility does not present any substantial changes in the hazards to the health and safety of the public from those previously considered and approved in connection with the shutdown and maintenance of the facility on a stand-by basis.

In accordance with the Commission's rules of practice (10 CFR Part 2) the Commission will direct the holding of a formal hearing on the matter of the issuance of the license upon receipt of a request therefor from the licensee or an intervener within thirty days after issuance of the license. Petitions for leave to intervene shall be filed by mailing a copy to the Office of the Secretary, Atomic Energy Commission, Washington 25, D.C., or by delivery of a copy in person to the Office of the Secretary, Germantown, Maryland, or the AEC's Public Document Room, 1717 H Street, Washington, D.C. For further details see (1) the application for license dated September 29, 1960 and amendment thereto dated November 2, 1960 submitted by The Pennsylvania State University, and (2) a hazards analysis of the proposed possession prepared by the Research and Power Reactor Safety Branch of the Division of Licensing and Regulation, both on file at the AEC's Public Document Room. A copy of item (2) above may be obtained at the AEC's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington 25, D.C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 29th day of November 1960.

For the Atomic Energy Commission.

R. L. KIRK,
Deputy Director, Division of Licensing and Regulation.

[License No. R-72]

1. This license applies to the light water-moderated and -cooled swimming pool-type nuclear reactor facility (hereinafter referred to as "the facility") which is located at Quehanna, Pennsylvania, and which has heretofore been owned by the Curtiss-Wright Corporation, and previously operated under License No. R-36. The facility is described in the Pennsylvania State University's application dated September 29, 1960, and amendment thereto dated November 2, 1960 (hereinafter together referred to as "the application").

2. Pursuant to the Atomic Energy Act of 1954, as amended (hereinafter referred to as "the Act") and having considered the record in this matter, the Atomic Energy Commission (hereinafter referred to as "the Commission") finds that:

A. The facility has been constructed in conformity with Construction Permit No. CPRR-11 issued to Curtiss-Wright Corporation;

B. There is reasonable assurance that the facility can be possessed at the designated location without endangering the health and safety of the public;

C. The Pennsylvania State University is technically and financially qualified to possess the facility, to assume financial responsibility for payment of Commission charges for special nuclear material and to undertake and carry out the proposed activities in accordance with the Commission's regulations;

D. The possession of the facility and the receipt and possession of the special nuclear

material in the manner proposed in the application will not be inimical to the common defense and security or to the health and safety of the public.

3. Subject to the conditions and requirements incorporated herein, the Commission hereby licenses the Pennsylvania State University:

A. Pursuant to section 104c of the Act and Title 10, CFR, Chapter 1, Part 50, "Licensing of Production and Utilization Facilities", to possess, but not to operate, the facility as a utilization facility at the designated location at Quehanna, Pennsylvania, in accordance with the procedures and limitations described in the application and this license;

B. Pursuant to the Act and Title 10, CFR, Chapter 1, Part 70, "Special Nuclear Material", to receive and possess up to 10 kilograms of contained uranium 235 and 14.99 grams of plutonium contained in a plutonium-beryllium source for use in connection with future operation of the facility; and

C. Pursuant to the Act and Title 10, CFR, Chapter 1, Part 30, "Licensing of Byproduct Material", to possess but not to separate such byproduct material as was produced by previous operation of the reactor.

4. This license shall be deemed to contain and be subject to the conditions specified in § 50.54 of Part 50 and § 70.32 of Part 70, Title 10, Chapter 1, CFR, and to be subject to all applicable provisions of the Act, and to the rules and regulations and orders of the Commission, now or hereafter in effect, and to the additional conditions specified below:

A. The Pennsylvania State University shall not operate the reactor.

B. The fuel elements shall not be moved from their present locations unless procedures for transferring these elements have been reviewed and approved by the Commission.

C. In addition to those otherwise required under this license and applicable regulations, the Pennsylvania State University shall keep the following records:

1. Records showing radioactivity released or discharged into the air or water beyond the effective control of The Pennsylvania State University as measured at the point of such release or discharge.

D. The Pennsylvania State University shall immediately report to the Commission in writing any indication or occurence of a possible unsafe condition relating to the possession of the reactor.

5. This license is effective as of December 12, 1960, and shall expire at midnight December 12, 1962.

Date of issuance: November 29, 1960.

For the Atomic Energy Commission.

R. L. KIRK,
Deputy Director,
Division of Licensing and Regulation.

[F.R. Doc. 60-11266; Filed, Dec. 5, 1960; 8:45 a.m.]

[Docket No. 50-142]

REGENTS OF UNIVERSITY OF CALIFORNIA

Notice of Proposed Issuance of Amendment to Facility License

Please take notice that, unless within fifteen days after the filing of this notice with the Office of the Federal Register a request for a formal hearing is filed with the United States Atomic Energy Commission by the applicant or an intervener as provided by the Commission's rules of practice (Title 10, Chapter 1, Part 2), the Commission proposes to issue to The Regents of The University of California a facility license amendment substantially as set forth below authorizing operation of the Argonaut-type nuclear reactor located on the University of California campus at Los Angeles, at power levels up to 10 kilowatts (thermal). Petitions for leave to intervene shall be filed by mailing a copy to the Office of the Secretary, Atomic Energy Commission, Washington 25, D.C., or by delivery of a copy in person to the Office of the Secretary, Germantown, Maryland, or the AEC's Public Document Room, 1717 H Street NW., Washington, D.C.

For further details see (1) the application amendment dated October 20, 1960, submitted by the University of California, and (2) a hazards analysis prepared by the Hazards Evaluation Staff of the Division of Licensing and Regulation, on file at the AEC's Public Document Room. A copy of item (2) above may be obtained at the AEC's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington 25, D.C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 30th day of November 1960.

For the Atomic Energy Commission.

R. L. KIRK,
Deputy Director, Division of Licensing and Regulation.

[License No. R-71; Proposed Amdt. 1]

Paragraph 4.A.1. of Facility License No. R-71 is hereby amended to read as follows:

4.A.1. University of California shall not operate the reactor at power levels in excess of 10 kilowatts (thermal) without prior written authorization from the Commission.

Date of issuance: November 30, 1960.

For the Atomic Energy Commission.

R. L. KIRK,
Deputy Director,
Division of Licensing and Regulation.

ACCIDENT NEAR BOSTON, MASS.

Notice of Hearing

In the matter of investigation of accident involving aircraft of United States Registry N 5533, which occurred on October 4, 1960, in Boston, Massachusetts.

Notice is hereby given that an Accident Investigation Hearing on the above styled matter will be held commencing 9:30 a.m. (local time) on Wednesday, January 11, 1961, in the auditorium of the Air National Guard headquarters at Logan International Airport, Boston, Massachusetts.

Dated this 29th day of November 1960.

[SEAL] REID C. TAIT,
Hearing Officer.

[F.R. Doc. 60-11304; Filed, Dec. 5, 1960; 8:45 a.m.]

[Docket 11941]

WASHINGTON, D.C.; HELICOPTER SERVICE CASE

Order of Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 30th day of November 1960:

On June 27, 1960, New York Airways, Inc. (NYA) filed an application pursuant to section 401 of the Federal Aviation Act of 1958, as amended, for a certificate authorizing the transportation by vertical lift aircraft of persons, property, and mail between Washington, D.C., Washington National Airport, and Dulles International Airport, and for an exemption pursuant to section 416 of the Act permitting the operation of such service anywhere within the Washington Metropolitan Area (defined as the area included within a radius of 50 miles of the Washington Monument). New York Airways moved for immediate hearing and expedited disposition of its application.

Upon consideration of NYA's motion and more particularly in view of the pendency on the Board's docket of a number of applications to engage in air transportation in the Washington area with helicopter-type aircraft, the Board has decided to institute an investigation to determine whether or not the public convenience and necessity require the certification of such a service. At the present time, carriers certificated to serve Washington operate propeller-type equipment to Washington National Airport and jet equipment to Friendship Airport. Construction will be completed in the relatively near future at the Dulles International Airport which will also serve Washington. The availability of Washington services at three major airport locations may require air transportation between these airports and between the airports and downtown Washington and accordingly the Board concludes that it is timely to consider whether or not an operator of helicopter-type aircraft should be authorized to provide such a service.[1]

Three certificated air carriers presently operate helicopter aircraft in the Los Angeles, Chicago and New York areas. These carriers receive subsidy support in excess of four million dollars annually. With current helicopter carrier subsidy expenditures at this level, it is apparent that the certification of an additional helicopter carrier, with eligibility for subsidy mail pay, raises a serious question whether extension of what the Board has in the past regarded as the helicopter "experiment" would conform to the statutory standards of which subsidy cost is an important element. For that reason, in considering the need for a helicopter operation in the Washington Metropolitan Area, the Board will expect that the parties will make available in the record the latest information as to the operating characteristics and profitability expectations of helicopter aircraft types presently in operation and types expected to be put into service in the reasonably near future. The Board is interested in determining the likelihood of profitable helicopter operations in the light of recent technological development as well as considering the need for such a service in the Washington area.[2]

In past helicopter certification cases the Department of Defense has supported the helicopter carrier experiment and the Post Office Department has indicated that the service is useful for the carriage of mail. Accordingly, we will make these two departments parties to this proceeding so that their views may be made part of the record.

So that the case may be limited to the area of primary need, the proceeding will be limited to consideration of whether or not the Board should certificate one or more air carriers to engage in air transportation of persons, property or mail, with or without eligibility for subsidy, between Washington National Airport, Friendship Airport, Dulles International Airport, and a point or points in the District of Columbia. In view of past subsidy costs we intend to focus particularly on whether any award should be granted on a non-mail basis, non-subsidy mail basis or on the basis of a mail authorization including subsidy eligibility. Pending Washington helicopter applications will be consolidated except that portions of applications which extend beyond the area defined above will be dismissed.[3]

Since the future operating plans of carriers presently certificated to serve Washington will be an important element in determining the need for a route, they will also be made parties for the purpose of insuring that the record includes information as to the expected future volume of schedules at each airport.

New York Airways' motion will be denied except to the extent granted by our action herein.

Accordingly, it is ordered:

1. That an investigation be and it hereby is instituted to determine whether the public convenience and necessity require the certification of one or more carriers to engage in the air transportation of persons, property or mail, with or without subsidy eligibility, between Washington National Airport, Dulles International Airport, Friendship Airport, and a point or points in the District of Columbia;

2. That the applications in Dockets 5794, 6176, 6982, 8458, 9239, 9675, 9702 and 11543 to the extent they seek authority to engage in air transportation between Washington National Airport, Dulles International Airport, Friendship Airport, and a point or points in the District of Columbia, be and they hereby are consolidated with the investigation instituted herein, and to the extent that they seek authority to engage in air transportation to additional points or areas be and they hereby are dismissed;

3. That this proceeding shall be set down for hearing before an Examiner of the Board at a time and place hereafter designated;

4. That except to the extent granted herein the motion of New York Airways be and it hereby is denied;

5. That a copy of this order be served upon Baltimore and Annapolis R. R. Co., The Maryland Co., Henry M. Bliss et al., Pilgrim Helicopter Services, Inc., The Rumson Co., Chesapeake and Potomac Airways, Inc., D.C. Transit System, Inc., New York Airways, Inc., Allegheny Airlines, Inc., American Airlines, Inc., Braniff Airways, Inc., Capital Airlines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., Lake Central Airlines, Inc., National Airlines, Inc., Northeast Airlines, Inc., Northwest Airlines, Inc., Piedmont Aviation, Inc., Trans World Airlines, Inc., United Air Lines, Inc., the Postmaster General and the Department of Defense who are hereby made parties to the investigation instituted herein; and

6. That this order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] ROBERT C. LESTER,
Secretary.

[F.R. Doc. 60-11305; Filed, Dec. 5, 1960; 8:55 a.m.]

[1] There are many docketed helicopter applications on file but none involve a three-airport situation such as will be the case at Washington in the near future. Also Washington ranked third in certificated carrier aircraft departures and fourth in passenger boardings among U.S. cities in 1959. Air Commerce Traffic Pattern (Scheduled Carriers) Calendar Year 1959, June 1960, Federal Aviation Agency. Additionally, the thirteen passenger carriers certificated to serve Washington will be free to use any one of the three airports so that a need may arise for air transportation service between the airports to accommodate connecting traffic moving through Washington. In view of all these circumstances we deem it appropriate to consider Washington's need at this time.

[2] A complete record on the operating characteristics of helicopter aircraft will assist the Board in determining its future course of action with respect to the pending applications to provide helicopter service at other cities. In this connection, the Board would welcome a presentation in the record by the manufacturers of helicopter-type aircraft.

[3] Those portions of the applications which are being dismissed are either de minimus or of such an extent as to logically require refiling in the light of our action herein.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 13771-13774; FCC 60M-2028]

COLUMBIA RIVER BROADCASTERS, INC. ET AL.

Order Continuing Hearing

In re applications of Columbia River Broadcasters, Inc., Mount Vernon, Washington, Docket No. 13771, File No. BP-11933; Henry Perozzo (Kaye), Puyallup, Washington, Docket No. 13772, File No. BP-12844; KBKW, Inc. (KBKW), Aberdeen, Washington, Docket No. 13773, File No. BP-13406; Carl-Dek, Inc., Kirkland, Washington, Docket No. 13774, File No. BP-13491; for construction permits.

Upon oral request of counsel for the Broadcast Bureau and for good cause shown: *It is ordered,* This 29th day of November 1960, that the hearing in the above-entitled proceeding presently scheduled for December 15, 1960 is hereby rescheduled to commence at 10:00 a.m., December 21, 1960, in the Commission's offices in Washington, D.C.

Released: November 30, 1960.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-11318; Filed, Dec. 5, 1960; 8:55 a.m.]

[Docket No. 13601; FCC 60M-2020]

HOPKINSVILLE BROADCASTING CO., INC. (WHOP)

Order Continuing Hearing

In re application of Hopkinsville Broadcasting Company, Incorporated (WHOP), Hopkinsville, Kentucky, Docket No. 13601, File No. BP-12506; for construction permit.

The Hearing Examiner having under consideration "Motion for Continuance of Hearing" filed November 23, 1960, on behalf of Hopkinsville Broadcasting Company, Incorporated (WHOP) requesting that the dates for exchange of affirmative engineering and rebuttal engineering exhibits be scheduled for January 13, 1961, and January 27, 1961, respectively, and that the hearing now scheduled for December 19, 1960, be continued to February 3, 1961;

It appearing that good cause exists why said motion should be granted, there is no opposition thereto and all counsel have consented to a waiver of § 1.43 of the Commission's rules thereby permitting immediate consideration of the pleading;

Accordingly, it is ordered, This 28th day of November 1960, that the dates for the exchange of affirmative and rebuttal engineering exhibits shall be on or before January 13, 1961, and January 27, 1961, respectively.

It is further ordered, That the hearing now scheduled for December 19, 1960, be, and the same is hereby continued to February 3, 1961, 10:00 a.m., at the Commission's Offices, Washington, D.C.

Released: November 29, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[Docket No. 13853; FCC 60-1398]

MID-KANSAS, INC.

Memorandum Opinion and Order Designating Applications for Hearing on Stated Issues

In re applications of Mid-Kansas, Inc., Docket No. 13853, for construction permit for a common carrier microwave station at Manhattan, Kansas, File No. 2205-C1-P-60; for construction permit for a common carrier microwave station at Junction City, Kansas, File No. 2206-C1-P-60; for construction permit for a common carrier microwave station at Abeline, Kansas, File No. 2207-C1-P-60; for construction permit for a common carrier microwave station at St. Mary's, Kansas, File No. 224-C1-P-61.

1. Topeka Broadcasters Association, Inc. (hereinafter called Topeka), licensee of station WIBW-TV, Topeka, Kansas, timely filed, on October 26, 1960, a protest and request for reconsideration relative to the grants without hearing of the above-identified applications of Mid-Kansas, Inc. (hereinafter called Mid-Kansas). Mid-Kansas timely filed, on November 7, 1960, an opposition to the aforesaid protest and request for reconsideration; and Topeka timely filed a reply thereto on November 15, 1960.

THE PROTEST

2. Topeka alleges that it is a party in interest for the following reasons: It provides a television broadcast service, through station WIBW-TV at Topeka, Kansas, to a circular area with a radius of approximately 63 miles from its transmitter. Topeka also shows that it has pending an application to provide additional coverage to the west, by effecting construction which would achieve service to a circular area with a radius of approximately 71 miles. Mid-Kansas seeks to provide, as a communications common carrier, an off-the-air pickup and relay of three Kansas City television broadcast stations (KCMO-TV, KMBC-TV, and WDAF-TV) for delivery to CATV systems at Manhattan, Junction City, and Salina, Kansas, respectively. Mid-Kansas further indicates[1] that it may also hereafter provide such service to CATV subscribers at Abilene, Clay Center, and Concordia, Kansas. Since Manhattan and Junction City are within the present service area of station WIBW-TV; since Abilene and Clay Center would be within the service area of WIBW-TV as the latter propose to operate if its pending application is granted; and since WIBW-TV is alleged to be received now at all of the locations at which CATV subscribers to the Mid-Kansas system might be located; Topeka alleges that the impact of the competition from the proposed common carrier and CATV operations would seriously cripple station WIBW-TV as a going business concern and diminish its service to the public which it now serves and proposes to serve.

3. Topeka alleges that Mid-Kansas is not a common carrier because of the substantial identify of control of Mid-Kansas and the CATVs at Junction City and Manhattan and the reciprocal interest of each of these entities in the affairs of the other.[2] Topeka alleges that, in these circumstances, the Commission may not lawfully "wait and see" whether the public offering service of Mid-Kansas will actually be implemented by members of the public other than those identified with Mid-Kansas.

4. Topeka alleges that Mid-Kansas, as a common carrier, would not be operating in a "lawful" manner because it would be engaged in delivering converted, misappropriated or "pirated" property. This contention is supported by an argument that the television programs utilized by the CATVs belong to program producers, broadcast stations, networks, film owners and others, and that the utilization of this program material without securing the consent of the owners is in violation of the property rights of such owners. Thus, Mid-Kansas, when participating in such activity, is alleged to be engaged knowingly in such unlawful activity. In this connection, Topeka recognizes that there has been no legal adjudication of this property right question and that such matter will finally be adjudicated by the Courts.

5. Finally, Topeka urges, on the basis of all of the foregoing, that a grant of the subject applications would not serve the public interest and that the Commission's policy and interpretation of the administrative standard of public interest with respect to common carriers serving CATV systems, as expressed in paragraph 75 of its Report and Order in Docket No. 12443, is erroneous and unlawful and should not be applied to the subject applications.

6. Topeka asks that the Mid-Kansas applications be designated for evidentiary hearing on the following issues:

1. To determine the effect of the operation proposed by Mid-Kansas, Inc. in the above-styled applications upon the operation of television Station WIBW-TV, Topeka, Kansas, and upon the public served by the said Station.

2. To determine whether Mid-Kansas, Inc. is, or would be, a common carrier under the provisions of the Communications Act of 1934, as amended, and the Commission's Rules and Regulations.

3. To determine whether Mid-Kansas, Inc. proposes to engage in unfair competition with respect to Station WIBW-TV by distributing television programs to the public directly or indirectly, without compensating, or securing the consent of, those persons who possess property rights and interests in the said programs.

4. To determine whether Mid-Kansas, Inc. proposes to deal in, and profit from, the transmission of converted, misappropriated or unlawfully acquired property and property interests in respect to television programs; and, if so, to determine the effect of such facts upon the character qualifications of the applicant.

5. To determine whether the proposed operation of Mid-Kansas, Inc. would affect adversely the public interest in television broadcasting, with particular reference to the effect of such proposed operation of the effectuation of the Commission television channel allocation plan, the construction of new and improved stations and booster and translator stations, the continued existence of Station WIBW-TV and any other television stations licensed to serve the public interest, the quantity and quality of service presently and proposed to be provided by any television stations, the transmission and distribution of television programs broadcast by television stations outside their service areas and in the service area of Station WIBW-TV or any other television stations.

6. To determine in the light of the evidence adduced in response to the above-stated issues whether Mid-Kansas, Inc. is eligible to receive grants of the subject applications, and whether grants of the said applications would not serve the public interest.

DISPOSITION OF THE PROTEST

7. Upon the allegations of adverse economic impact, we find and conclude that Topeka is a party in interest in this proceeding.

8. In our Report and Order in Docket No. 12443, we set forth certain conclusions (paragraphs 45 thru 51 and 58 thru 79), which are, a priori, controlling in this case. In view of such determinations, and in light of the facts shown herein, we deem Mid-Kansas to be a communications common carrier eligible for a grant of the authorizations herein at issue. We have recognized that a communications common carrier may initially acquire such status by establishing a service and making an offering of such service to any member of the public who may desire it. We have also recognized that this determination should be subject to later review, after the carrier has had a reasonable opportunity to implement its service, so as to determine whether there is any continuing need for the common carrier offering. To this end, we have provided in our rule (§ 21.709) for careful review of this situation at the time of renewal of every such station license.[3][4]

9. In connection with Topeka's allegations of conversion, misappropriation and "piracy" of property, we note two significant facts: first, Topeka, in its pleading (paragraph 11(c)), recognizes that its statements of legal conclusion as to the alleged invasion of property right are not yet supported by any statutory or judicial authority; and second, Topeka has studiously refrained from alleging that the CATVs involved in this case have requested anyone's permission to use the signals which they will disseminate; that anyone has denied such permission; that any specific alleged owner of such signals or program material has objected to, or complained about, the alleged misappropriation here; and Topeka has refrained from addressing itself to consideration of whether the apparently unchallenged proposed operations of the CATVs carry, at least, an implied consent from the alleged property owners. The entire argument of Topeka on this point spins around the proposition that one who misappropriates property commits an unlawful act. While this statement may be correct, Topeka does not come out with a specific accusation or indictment of the CATVs in this case on that charge. For these reasons, we conclude that the allegations relative to the property right question do not adequately specify with particularity the facts relied upon and are not well pleaded. Accordingly, we do not think that any proposed issue relative to this matter requires further consideration.[5]

10. WIBW-TV serves Topeka with a 1960 population of 118,561 (1960 preliminary report). Manhattan, about 49 miles away, with 1960 population of 22,797, and Junction City, about 62 miles distant, with 1960 population of 18,660, are within WIBW-TV Grade B contour. Salina, over 100 miles away, with 1960 population of 42,182 is outside the Grade B contour and receives no television service at this time. On September 7, 1960, station KSLN-TV was authorized to construct a television station at Salina. Mid-Kansas urges that, if it is not stayed in the construction of the stations under protest, it will be in position to extend its system to serve the additional communities of Clay Center, Concordia, Abilene, and Beloit, Kansas. Topeka shows that it has pending an application to move its site to a point which will enable it to include Abilene and Clay Center within its Grade B contour. We do not think it desirable or proper to speculate, at this time, what either or both parties may do in the future. We think this protest should be considered on the basis of the facts as they exist at this time.

11. It is evident that the contested grants are not necessary to the maintenance or conduct of an existing service and, upon consideration of the facts set forth above, we are unable to conclude that the public interest requires that the grants herein remain in effect pending final disposition of this case.

12. In light of our determinations herein, we deem it necessary and appropriate to revise certain issues proposed by Topeka, and to eliminate others. We do not adopt any of the issues as our own.

13. *Accordingly, it is ordered,* That the protest is granted to the extent herein provided, and denied in all other respects; and the petition for reconsideration is denied; and that, pursuant to the provisions of section 309(c) of the Communications Act of 1934, as amended, a hearing be held herein, at the offices of the Commission at Washington, D.C., at a time and place to be hereafter announced, on the following issues:

(a) To determine the nature and extent of any adverse effect which the grant of the applications herein will have upon the operation of station WIBW-TV, Topeka, Kansas, and upon the public served by said station.

(b) To determine whether Mid-Kansas, Inc. is not, or would not be, a common carrier under the provisions of the Communications Act of 1934, as amended, and the Commission's rules and regulations.

(c) To determine whether the conclusions set forth in paragraphs 45 thru 51 and 58 thru 79 of the Report and Order in Docket No. 12443, as applied in this case, are in error.

(d) To determine whether, in the light of the determinations made upon the foregoing issues, the Commission should sustain the protest and set aside the grants of the applications herein.

It is further ordered, That Topeka Broadcasters Association, Inc. shall have the burden of proof on all issues herein; and

It is further ordered, That the grants of the foregoing applications, effected September 16, 1960, are hereby stayed pending the Commission's final decision in this matter after hearing; and

It is further ordered, That Topeka Broadcasters Association, Inc., Mid-Kansas, Inc., the Chief Common Carrier Bureau, and the Chief, Broadcast Bureau, are hereby made parties to the proceeding; and that each party intending to participate in the hearing herein shall file a notice of appearance not later than December 12, 1960.

Adopted: November 22, 1960.

Released: November 30, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

FEDERAL AVIATION AGENCY

[Amdt. 29]

ORGANIZATION AND FUNCTIONS

Closing of Air Carrier District Office

In accordance with the public information requirements of the Administrative Procedures Act, section 22(b) of the Organization and Functions of the Federal Aviation Agency as published on December 24, 1957 (22 F.R. 10499), is amended to announce the closing of an Air Carrier Office in Region Two:

1. Region Two, the Air Carrier District Office formerly located at Administration

[1] In its opposition, Mid-Kansas shows that it has firm requests for service at Abilene, Clay Center, Concordia, and Beloit. The latter communities, and Salina are outside Topeka's present Grade B contour.

[2] Mid-Kansas' opposition shows that its principals have only a minority interest in the Manhattan CATV and no interest in the Abilene, Clay Center, Concordia, and Beloit CATVs.

[3] *Section 21.709 Renewal of station licenses.* (a) Upon filing application for renewal of station license of a radio system in the Domestic Public Point-to-Point Microwave Radio Service, each such common carrier licensee who does not also operate a telephone or telegraph wireline system shall make a factual showing that, during its preceding license period, at least 50 percent of the total hours of service rendered over the radio system, and not less than 50 percent of the radio channels therein, have been used by subscribers not directly controlling or controlled by, or under direct or indirect common control with, the applicant.

(b) If the applicant is unable to meet the criteria set forth in paragraph (a) of this section, he shall make a factual showing of the extent of such service rendered, the specific nature, extent, and dates of any efforts the licensee has made to achieve use of the service by the public, and offer such further showing or explanation as he may deem appropriate.

(c) The showing made under paragraphs (a) and (b) of this section shall be made in duplicate and under oath and submitted with the appropriate renewal application.

All microwave relay point-to-point radio licenses expire on February 1, 1961.

[4] Mid-Kansas already shows more than a mere holding out. It has shown that it will have unrelated subscribers for its service.

[5] Even were this issue required to be determined, we would designate it for oral argument, as on demurrer, and ultimate disposition would probably follow our earlier decisions in this connection (cf. In the Matter of J. E. Belknap and Associates, 10 R.R. 518A; and In re Application of Carter Mountain Transmission Corp., Docket No. 12931, Memorandum Opinion and Order, May 18, 1860).

Building, Room 107, Municipal Airport, Tulsa, Oklahoma, will be discontinued as of this date.

Issued in Washington, D.C., on November 30, 1960.

E. R. QUESADA,
Administrator.

[F.R. Doc. 60-11279; Filed, Dec. 5, 1960; 8:48 a.m.]

FEDERAL POWER COMMISSION

[Docket No. CP61-42]

COLORADO-WYOMING GAS CO.

Notice of Application and Date of Hearing

NOVEMBER 29, 1960.

Take notice that Colorado-Wyoming Gas Company (Applicant), a Delaware corporation with a principal office at 888 Sherman Street, Denver, Colorado, filed an application in Docket No. CP61-42 on August 12, 1960, and a supplement thereto on October 14, 1960, pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the Applicant to serve natural gas to Public Service Company of Colorado, an existing customer, for distribution in the Town of Niwot, Colorado and also to construct and operate a 4-inch transmission lateral and one meter station to render the proposed service. The lateral would extend from Applicant's main line between Boulder and Longmont to Niwot and service would be rendered to the distributor at the city gate.

The foregoing is more fully stated in the application and supplement thereto filed with the Federal Power Commission, and open to public inspection.

The application recites that Public Service proposes to construct and operate the necessary connection with Colorado-Wyoming's proposed meter station and the distribution facilities in the Town of Niwot. Such facilities will consist of a regulator station, distribution mains, service lines and meter installation costing about $94,600 in 1961 and increasing gradually to $227,200 in 1965.

Applicant states the estimated maximum day and annual requirements of Public Service in Mcf at 14.73 psia are as follows:

Year:	*Maximum day*	*Annual*
1961	127	12,750
1962	255	58,600
1963	523	135,900
1964	993	187,100
1965	1,260	389,400

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 10, 1961 at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 3, 1961. Failure of any party to appear at and participate in the hearing shall be construed as waiver of an concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11280; Filed, Dec. 5, 1960; 8:48 a.m.]

[Docket No. CP61-109]

EL PASO NATURAL GAS CO.

Notice of Application and Date of Hearing

NOVEMBER 29, 1960.

Take notice that on October 5, 1960, El Paso Natural Gas Company, P.O. Box 1492, El Paso, Texas (Applicant), filed in Docket No. CP61-109 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of routine field facilities to enable Applicant to take into its certificated pipeline system natural gas which will be purchased from producers thereof in the general area of Applicant's existing transmission system from time to time during the calendar year 1961, at a total cost not to exceed $5,000,000, with no single project to exceed a cost of $500,000, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The purpose of this "budget-type" application is to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting to its pipeline system new supplies of natural gas in various producing areas generally coextensive with said system.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 29, 1960, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 19, 1960. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11281; Filed, Dec. 5, 1960; 8:48 a.m.]

[Docket No. E-6967]

GULF STATES UTILITIES CO.

Notice of Application

NOVEMBER 28, 1960.

Take notice that on November 17, 1960, an application was filed with the Federal Power Commission pursuant to section 204 of the Federal Power Act by Gulf States Utilities Company ("Applicant"), a corporation organized under the laws of the State of Texas and doing business in the States of Texas and Louisiana with its principal business office at Beaumont, Texas, seeking an order authorizing the issuance of 350,000 shares of Common Stock, without par value. Applicant proposes to issue the aforesaid Common Stock and to sell it at competitive bidding on or about January 24, 1961. The aforesaid Common Stock will have one vote per share. Applicant states that the proceeds from the issuance and sale of the additional Common Stock will be used initially to reimburse Applicant's treasury in part for construction expenses heretofore made; will enable Applicant to pay in full all of its short-term notes estimated to be outstanding as of the date of issuance of said additional Common Stock and will permit Applicant to carry forward its construction program until the Spring of 1961.

Any person desiring to be heard or to make any protests with reference to said application should on or before the 19th day of December 1960, file with the Federal Power Commission, Washington 25, D.C., petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file and available for public inspection.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11282; Filed, Dec. 5, 1960; 8:48 a.m.]

[Docket No. CP61-55]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Notice of Application and Date of Hearing

NOVEMBER 29, 1960.

Take notice that Natural Gas Pipeline Company (Applicant), a Delaware corporation with a principal office at 122 South Michigan Avenue, Chicago, Illinois, filed an application in Docket No. CP61-55 on August 23, 1960, and a supplement thereto on September 30, 1960, pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to construct and operate a tap on its existing 24-inch transmission pipeline, and approximately 100 feet of 2-inch lateral from this tap to the facilities of the city of Nebraska City, Nebraska (Nebraska City), and a meter and regulator station at the terminus of Applicant's proposed lateral, all in Otoe County, Nebraska. Applicant proposes to deliver natural gas to the city of Nebraska City for resale and distribution in the village of Unadilla, Nebraska. Applicant states Nebraska City has secured the necessary franchise and will construct and operate the necessary distribution system in the town and about 2,300 feet of pipeline connecting to Natural's pipeline. Nebraska City is an existing customer of Applicant in this area.

The foregoing is more fully stated in the application and supplement on file with the Commission, and open to public inspection.

Nebraska City estimates Unadilla's gas requirements as follows:

	Volumes in Mcf		
	1st year	2d year	3d year
Annual requirements	9,120	10,640	11,400
Peak day requirements	90	105	107.5

The delivery and sale of the gas will be made as part of the existing contract quantity of Nebraska City. The estimated cost of Nebraska City's proposed project is $25,202, which includes a proposed $5,000 contribution to Applicant, which it proposes to finance from funds on hand in its bond surplus fund which was $296,219 as of July 31, 1960. The interest rate is shown as 4 percent.

Applicant estimates the cost of its proposed facilities at $8,630 which will be paid out of funds on hand. Natural proposes to have Nebraska City reimburse it for $5,000 of the total cost.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 10, 1961, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 3, 1961. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11283; Filed, Dec. 5, 1960; 8:49 a.m.]

[Docket No. CP61-97]

NATURAL GAS STORAGE COMPANY OF ILLINOIS

Notice of Application and Date of Hearing

NOVEMBER 29, 1960.

Take notice that on September 30, 1960, as supplemented on October 17, 1960, Natural Gas Storage Company of Illinois, 122 South Michigan Avenue, Chicago 3, Illinois, (Applicant) filed in Docket No. GP61-97 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain additional storage field facilities at the Herscher Storage Field in Kankakee County, Illinois, all as more fully set forth in the application and supplement which are on file with the Commission and open to public inspection.

The facilities for which authorization is sought herein are:

(1) Supercharging three existing 2,000 BHP engines to 2,800 BHP each, a total of 2,400 additional horsepower; costing $325,000;

(2) Drilling and completing two injection-withdrawal wells at the Galesville Reservoir, with appurtenances; costing $144,300;

(3) Drilling and completing three injection-withdrawal wells at the Mount Simon Reservoir, with appurtenances; costing $417,300;

(4) Gathering facilities to tie in the new wells; costing $101,200;

(5) Overhead and contingencies; costing $91,300; and

(6) 2,612,500 Mcf of cushion gas at Mount Simon Reservoir; costing $771,471.

The total estimated cost above is $1,850,571, which Applicant proposes to finance, along with the cost of other certificated facilities, by the issuance and sale of $6,000,000 of bonds plus internally generated cash.

The proposed facilities will be used to increase the presently authorized maximum daily withdrawal from storage of 650,000 Mcf of natural gas to a total of 725,000 Mcf by using all three reservoirs: namely, the Galesville and Mount Simon at Herscher Field, and the Cooks Mills Field, the increased deliveries to be made to present customers of Applicant commencing with the 1961-62 winter season.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 29, 1960, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 19, 1960. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11284; Filed, Dec. 5, 1960; 8:49 a.m.]

[Docket No. CP61-99]

NORTHERN NATURAL GAS CO.

Notice of Application and Date of Hearing

NOVEMBER 29, 1960.

Take notice that Northern Natural Gas Company (Applicant), a Delaware corporation with a principal office at 2223 Dodge Street, Omaha, Nebraska, filed an application in Docket No. CP61-99 on September 29, 1960, for a certificate of public convenience and necessity authorizing the Applicant to construct and operate 1.4 miles of 3-inch pipeline from its Wilmar, Minnesota branch line to Bongards' Creamery, plus a measuring and regulating station, all in Carver County, Minnesota, and to sell natural gas to Minnesota Valley Natural Gas Company (an existing customer) for resale on an interruptible basis to Bongards Cooperative Creameries, near Waconia, Minnesota. Minnesota Valley is an existing customer of Northern, distributing gas in Waconia and other towns.

The foregoing is more fully described in the application on file with the Commission and open to public inspection.

The application recites that the proposed service will neither increase the contract demand or saleable capacity of its system nor affect its ability to serve the firm requirements of its utility customers.

On the basis of Bongards Creamery's actual 1959 fuel consumption, its daily and annual requirements for the first three years are estimated respectively at 750 Mcf and 204,300 Mcf at 14.73 psia. The annual curtailment, based on experience, is estimated at 44,400 Mcf.

Applicant states the cost of the proposed facilities including interest and overhead is estimated at $34,680 which Applicant proposes to meet out of cash on hand and cash generated from operations. Applicant states that Minnesota Valley has agreed to reimburse it for the total cost of the proposed facilities.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 11, 1961, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 3, 1961. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11285; Filed, Dec. 5, 1960; 8:49 a.m.]

[Project No. 2275]

PUBLIC SERVICE COMPANY OF COLORADO

Notice of Application for License

NOVEMBER 29, 1960.

Public notice is hereby given that Public Service Company of Colorado, Denver, Colorado, has filed application under the Federal Power Act (16 U.S.C. 791a–825r) for license for constructed Project No. 2275 located on South Arkansas River and Fooses Creek in Chaffee County, Colorado, affecting lands of the United States within he San Isabel National Forest. The project consists of two hydroelectric developments: (1) Salida Hydro No. 1, consisting of the Garfield Division and the Fooses Creek Reservoirs having a combined storage capacity of 16 acre-feet; Garfield gravity pipeline 4806 feet long; pressure pipeline 8080 feet long; powerhouse containing one 750 kw and two 160 kw generators; substation; control equipment and other appurtenances; and (2) Salida Hydro No. 2, consisting of a forebay which is the afterbay of Salida No. 1; pressure pipeline No. 2, 11,668 feet long; powerhouse containing one 560 kw and one 240 kw generator; substation; control equipment and other appurtenances.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is February 7, 1961. The application is on file with the Commission for public inspection.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11286; Filed, Dec. 5, 1960; 8:49 a.m.]

[Docket No. CP61-79]

UNITED GAS PIPE LINE CO. AND TEXAS GAS TRANSMISSION CORP.

Notice of Application and Date of Hearing

NOVEMBER 3, 1960.

Take notice that on September 20, 1960, United Gas Pipe Line Company (United) and Texas Gas Transmission Corporation (Texas Gas) filed in Docket No. CP61-79 a joint application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of natural gas at existing and proposed points of interconnection between their two systems as set forth in their exchange agreement dated August 30, 1960, and authorizing the installation and operation of new metering and interconnecting facilities at said proposed points of interconnection, all as more fully set forth in the joint application which is on file with the Commission and open to public inspection.

Proposed interconnections are:

(A) The intersection of United's 26-inch pipeline with Texas Gas' 20-inch pipeline near Bayou Sale, St. Mary Parish, Louisiana;

(B) The intersection of United's 16-inch pipeline with Texas Gas' 20-inch pipeline near Patoutville, Iberia Parish, Louisiana;

(C) The intersection of United's 6-inch pipeline with Texas Gas' 10-inch pipeline near Church Point, Acadia Parish, Louisiana;

(D) The intersection of United's 20-inch pipeline wtih Texas Gas' 16-inch pipeline near Iowa, Calcasieu Parish, Louisiana; and

(E) The intersection of United's 3-inch pipeline with Texas Gas' 26-inch pipeline near Meeker, Rapides Parish, Louisiana.

Existing interconnections at which exchange of gas is proposed are:

(F) The intersection of United's 26-inch pipeline with Texas Gas 26-inch and 18-inch pipelines near Guthrie, Ouachita Parish, Louisiana;

(G) The intersection of United's 8-inch pipeline with Texas Gas' 20-inch pipeline near the Carthage Corporation's gasoline plant in Carthage Field, Texas; and

(H) The tailgate of the Champlin Oil and Refining Company's gasoline plant in Carthage Field, Texas, where United and Texas Gas receive gas.

Texas Gas proposes to install, maintain and own metering facilities at (A) and (C). Estimated capital cost of such facilities is $18,020.

United proposes to install, maintain and own metering facilities at (B), (D) and (E). Estimated capital cost of such facilities is $29,465.

The exchange agreement contemplates deliveries of gas from either party when the system operation of the other party requires assistance, provided that such delivery causes no curtailment or interruption of service to the market of the party making the delivery. The company receiving the delivery must return an equal volume of gas within 60 days or such other period as is mutually agreeable.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 6, 1960, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street, NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 25, 1960. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11287; Filed, Dec. 5, 1960; 8:49 a.m.]

[Docket No. G-2306 etc.]

AMERICAN LOUISIANA PIPE LINE CO. ET AL.

Order Severing Proceedings, Consolidating Proceedings, Fixing Date of Hearing and Specifying Procedure

DECEMBER 1, 1960.

American Louisiana Pipe Line Company, Docket No. G-2306; Michigan Wisconsin Pipe Line Company, Docket No. G-2327; American Louisiana Pipe Line Company, Docket No. G-10396; Panhandle Eastern Pipe Line Company, Docket No. G-11061; Michigan Wisconsin Pipe Line Company, Docket No. G-17180; Trunkline Gas Company, Docket No. CP60-22, (Phase Two); Panhandle Eastern Pipe Line Company, Docket No. CP60-40; Panhandle Eastern Pipe Line Company, Docket No. CP60-60; Panhandle Eastern Pipe Line Company, Docket No. CP60-126; Village of Tremont, Illinois, Docket No. CP61-8; Panhandle Eastern Pipe Line Company, Docket No. CP61-36; Citizens Gas Company, Docket No. CP61-54; Central Illinois Light Company, Docket No. CP61-114; Central Illinois Light Company, Docket No. CP61-115.

In Docket Nos. G-2306, et al.,[1] the Commission issued Opinion No. 276 and accompanying order, on October 1, 1954, authorizing American Louisiana Pipe Line Company (American Louisiana), a Delaware corporation with principal place of business at 645 Griswold Street, Detroit 26, Michigan, to construct a new gas transmission pipeline system approximately 1,200 miles in length to extend from North Tepetate, Louisiana, to Detroit, Michigan.[2] As certificated, the new pipeline system had an initial sales capacity of approximately 300,000 Mcf of natural gas per day. In its application, American Louisiana sought authorization to deliver this entire initial sales capacity to two affiliated companies, Michigan Wisconsin Pipe Line Company (Michigan Wisconsin) in the amount of 100,000 Mcf per day, and Michigan Consolidated Gas Company (Michigan Consolidated) in the amount of 200,000 Mcf per day.[3] However, the allocation of the natural gas and certain other issues were reserved in Opinion No. 276.

In Docket No. G-2327, Michigan Wisconsin, a Delaware corporation with principal place of business at 500 Griswold Street, Detroit, Michigan, filed an application for a certificate authorizing the construction and operation of additional pipeline facilities consisting of looping existing pipeline and increasing compressor facilities in order to enlarge its average day system sales capacity from approximately 303,000 Mcf to 403,000 Mcf or more of natural gas per day.[4] This increase would utilize the 100,000 Mcf per day which American Louisiana sought to deliver to Michigan Wisconsin in Docket No. G-2306.

In Docket Nos. G-2306 and G-2327 et al., the Commission issued Opinion No. 291 and accompanying order, on May 7, 1956, authorizing, inter alia, American Louisiana to construct and operate the facilities described in its application in Docket No. G-2306 with respect to which decision was reserved in Opinion No. 276 and accompanying order. Michigan Wisconsin was authorized to construct and operate the facilities described in its application in Docket No. G-2327, consisting of looping existing pipeline facilities and increasing compressor facilities. (15 F.P.C. 23.)[5]

Of its initial sales capacity of approximately 300,000 Mcf per day, American Louisiana was authorized to sell to Michigan Wisconsin the maximum of 85,000 Mcf per day, and to Michigan Consolidated the maximum amount of 135,000 Mcf per day. Final disposition of the remaining volume of 80,000 Mcf per day was reserved until further order of the Commission and, pending such order, that volume was divided 15,000 Mcf per day to Michigan Wisconsin and 65,000 Mcf per day to Michigan Consolidated. (15 F.P.C. at 43).

Having previously amended the pertinent portion of Opinion No. 291 (16 F.P.C. 897), the Commission entered an order on May 9, 1957, which, inter alia, made a further modification of such opinion. It was there provided that Michigan Consolidated was to receive a permanent allocation of 146,000 Mcf per day and Michigan Wisconsin to receive 90,515 Mcf per day. The balance of 59,885 Mcf per day remaining in the American Louisiana capacity was temporarily allocated as follows: (a) 51,600 Mcf per day to Michigan Consolidated and (b) 8,825 Mcf per day to Michigan Wisconsin. (17 F.P.C. 657.)[6]

In Docket No. G-10396,[7] American Louisiana filed an application on May 14, 1956, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing it to construct and operate certain facilities for the transportation and sale of natural gas in interstate commerce. American Louisiana sought to construct and operate (as additions to the facilities theretofore certificated in Docket No. G-2306), 35.8 miles of 8⅝ inch "gathering" pipeline, meter and regulator stations, four new compressor stations with an aggregate of 42,000 horsepower and an addition of 2,000 horsepower to two of its three then certificated compressor stations. American Louisiana proposed to construct the facilities in two steps, as follows:

"Step one" to consist of the construction of two new 12,000 horsepower compressor stations in Indiana and Ohio and the addition of 2,000 horsepower in two previously certificated stations. This would result in an increase in the system daily delivery capacity from 300,000 Mcf to approximately 360,000 Mcf of natural gas per day.[8]

"Step two" to consist of the construction, by July 1, 1957, of two new compressor stations, numbers 2 and 5, one of 8,000 horsepower to be constructed in Louisiana and one of 10,000 horsepower to be constructed in Tennessee. The resultant increase in daily delivery capacity would be approximately 40,000 Mcf of natural gas per day.[9]

The overall system daily delivery capacity would be increased from 300,000 Mcf of natural gas per day (Docket Nos. G-2306, et al.) to 400,000 Mcf per day upon completion and operation of all the proposed facilities.

In Docket Nos. G-10398, G-10399, G-10400, G-10442 and G-10443, Gulf Refining Company (Gulf), a Delaware corporation, filed on May 14 and May 21, 1956, applications for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing it to sell natural gas to American Louisiana for transportation and resale in interstate commerce from the following fields: [10]

---

[1] The entire consolidated proceeding included: American Louisiana Pipe Line Company, G-2306; Michigan Wisconsin Pipe Line Company, G-2327 and G-9850; Northern Natural Gas Company, G-2399, G-2460, G-4259, G-4260, G-4261 and G-12241; El Paso Natural Gas Company, G-12135; Permian Basin Pipeline Company, G-12242; Iron Ranges Natural Gas Company, G-9648, G-12223 and G-12217; Midwestern Gas Transmission Company, G-9451, G-9452 and G-9453; Tennessee Gas Transmission Company, G-9454 and G-11107; and Natural Gas Pipeline Company of America, G-9966.

[2] Notice of the application filed by American Louisiana was published in the FEDERAL REGISTER on December 29, 1953 (18 F.R. 8812).

[3] Michigan Consolidated is exempt from the jurisdiction of the Commission (Docket No. G-6507), but forms a part of the American Natural Gas Company, together with American Louisiana and Michigan Wisconsin.

[4] Notice of the application filed by Michigan Wisconsin was published in the FEDERAL REGISTER on December 29, 1953 (18 F.R. 8812).

[5] References to this proceeding include: 15 F.P.C. 23; 16 F.P.C. 702; 16 F.P.C. 720; 16 F.P.C. 779; 16 F.P.C. 858; 16 F.P.C. 897; 16 F.P.C. 944; 17 F.P.C. 300; 17 F.P.C. 461; 17 F.P.C. 657; 17 F.P.C. 671; 18 F.P.C. 632; 18 F.P.C. 685; 19 F.P.C. 1; 19 F.P.C. 217; 19 F.P.C. 268; 19 F.P.C. 737; 19 F.P.C. 913; 19 F.P.C. 1113; 20 F.P.C. 410; 20 F.P.C. 447; 20 F.P.C. 575; 21 F.P.C. 70; 21 F.P.C. 409 and 21 F.P.C. 414.

[6] This temporary allocation was reaffirmed on June 25, 1958 (19 F.P.C. 1113). On October 31, 1958, the Commission entered an opinion and order in Docket Nos. G-2306, et al. (20 F.P.C. 575). In pertinent part, it was found and held that a permanent allocation of the 59,885 Mcf per day reserved in Docket Nos. G-2306 and G-2327 should not be made and should be deferred, with the temporary allocation set forth in 17 F.P.C. 657, 659 remaining in effect (20 F.P.C. 575 at 611, 613).

[7] References to this proceeding include: 17 F.P.C. 22; 18 F.P.C. 571; 19 F.P.C. 661; 20 F.P.C. 475; 20 F.P.C. 851; 21 F.P.C. 218; 21 F.P.C. 366; 21 F.P.C. 530; 21 F.P.C. 683; 22 F.P.C. 82 and 22 F.P.C. 91.

[8] On July 13, 1956, American Louisiana filed an application for temporary authorization to proceed with "step one" of its construction program, which authorization was granted by the Commission on August 8, 1956, without prejudice to the ultimate disposition of the application filed by American Louisiana.

[9] In Docket No. G-10396, an order was entered on March 14, 1958, denying permission to American Louisiana to withdraw pleadings designed to delete "step two" from the expansion program contained in the application.

[10] As noted herein, action in Docket No. G-10398 (Krotz Springs) has been postponed; in Docket No. G-10400 (West Little Chenier), a certificate has been granted; and in Docket Nos. G-10399 (Church Point), G-10442 (Hayes) and G-10443 (Washington), the applications were withdrawn.

Docket No. G–10398, Krotz Springs, La.
Docket No. G–10399, Church Point, La.
Docket No G–10400, West Little Chenier, La.
Docket No. G–10442, Hayes, La.
Docket No. G–10443, Washington, La.

These applications were related to the application filed by American Louisiana in Docket No. G–10396.[11]

In Docket No. G–11061, Panhandle Eastern Pipe Line Company (Panhandle), a Deleware corporation with principal offices at 1221 Baltimore Avenue, Kansas City 5, Missouri, and 120 Broadway, New York 5, New York, filed an application on September 10, 1956, pursuant to section 7(b) of the Natural Gas Act for an order permitting and approving complete abandonment of service to Michigan Consolidated,[12] including the delivery and sale of 125,000 Mcf of natural gas per day to Michigan Consolidated at Detroit, Michigan, and 2,000 Mcf of natural gas per day at Ann Arbor, Michigan.

In Docket Nos. G–10396, G–10398, G–10399, G–10400, G–10442, G–10443 and G–11061, consolidation was effectuated by an order issued October 5, 1956.

In Docket Nos. G–10399, G–10442 and G–10443, the certificate applications filed by Gulf were withdrawn by order of the Commission issued January 11, 1957. In Docket No. G–10398 (Krotz Springs field), action on the motion filed by Gulf to withdraw the certificate application was postponed. (17 F.P.C. 22.) [13]

In Docket Nos. G–10396, et al., an order was issued on October 10, 1958,[14] granting a certificate to American Louisiana and authorizing the construction and operation of the facilities involved in "step one" but not in "step two" of its application in Docket No. G–10396. The increased capacity made available thereby to American Louisiana was allocated 55 percent to Michigan Wisconsin and 45 percent to Michigan Consolidated until further order of the Commission, but none of the expansion gas was to be used for firm loads. (20 F.P.C. 475.)

In Docket No. G–18312, American Louisiana filed an application on April 15, 1959, for a certificate authorizing construction and operation of compressor stations, numbers 2 and 5, totalling 18,000 horsepower, for the purpose of increasing the daily delivery capacity of American Louisiana by approximately 43,000 Mcf of natural gas per day.[15] On December 29, 1959, the certificate was issued in Docket No. G–18312 and what American Louisiana sought in "step two" of its application in Docket No. G–10396, supra, was achieved. (22 F.P.C. 1116.)

In Docket No. G–11061, the order permitting abandonment of service by Panhandle to Michigan Consolidated was issued on December 19, 1958. It was ordered therein, in pertinent part, that American Louisiana should deliver to Michigan Consolidated 127,000 Mcf of natural gas per day, utilizing the 59,885 Mcf of natural gas per day reserved in Docket No. G–2306, additional output by use of all compressors, and the additional 57,000 Mcf per day capacity made available in Docket No. G–10396, until further order of the Commission. (Docket Nos. G–10396, et al.; 20 F.P.C. 851.)

On January 26, 1959, Michigan Consolidated filed with the Commission a proposal in settlement of the controversy. Under this proposal the order authorizing complete abandonment would be modified and would provide, instead, that Panhandle be authorized to abandon as of October 1, 1959, its present deliveries of 127,000 Mcf per day which are available on the peak days upon condition that on the same date Panhandle commence the delivery to Michigan Consolidated of the same annual volume of 46,355,000 Mcf. This plan, Michigan Consolidated urged, would enable Panhandle to serve 75,000 additional space heating consumers and at the same time permit Michigan Consolidated through the use of storage facilities to meet its own requirements. Numerous responses were filed for and against this plan. Among those opposing the plan were Panhandle and many of its customers. Since the plan was not acceptable to the parties and was otherwise inconsistent with the order authorizing abandonment, it was rejected by the Commission. (Docket Nos. G–10396, et al.; 21 F.P.C. 218 at 227.)

In Docket No. G–17180, Michigan Wisconsin filed an application on December 4, 1958, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing it to construct and operate certain facilities to sell natural gas to eight distributing companies [16] for distribution in 29 communities in Wisconsin and one in Michigan, all as more fully represented in the application.

Although Michigan Wisconsin stated in its application that such application is "wholly independent of any application or proposal" then pending before the Commission, it was stated that, on November 4, 1958, Michigan Wisconsin notified the Commission, in compliance with Opinion No. 316 (dated October 31, 1958) (20 F.P.C. 575), that the application in Docket No. G–17180 would be filed. In was also stated that service was originally sought from Michigan Wisconsin by the distributing companies in conjunction with its application in Docket No. G–2327 and that by Opinion No. 291, and subsequent orders, the Commission reserved for service to these new markets an average day volume of 59,885 Mcf out of the initial 300,000 Mcf per day capacity of American Louisiana (citing 15 F.P.C. 23, 16 F.P.C. 897, 17 F.P.C. 300 and 17 F.P.C. 657, in Docket Nos. G–2306, et al.).[17]

To accomplish the sale to the distributing companies, Michigan Wisconsin proposes to construct and operate approximately 278.9 miles of main line extensions and approximately 2,750 additional horsepower on its pipeline facilties.

The proposed expansion is estimated to cost aproximately $9,162,000. It is anticipated that the expansion would be financed through the issuance of bonds in the amount of $8,000,000. The balance of the funds required would be obtained from treasury funds.

In Docket No. G–18144, Panhandle filed an application on March 24, 1959, as supplemented on April 1, 1959, and April 15, 1959,[18] in the alternative for (1) a modification of the certificate of public convenience and necessity issued to it on June 30, 1956, in Docket No. G–2433 or (2) a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the operation of facilities which Panhandle has installed to modernize and turbocharge its compressor engines at existing stations and the delivery of an additional 30,000 Mcf of natural gas per day to its existing customers.

Docket Nos. G–10396, G–10400, G–11061, and G–18144 [19] were consolidated on April 22, 1959, for the purpose of a hearing on the issues concerning the allocation of (1) the 127,000 Mcf per day resulting from the abandonment by Panhandle of service to Michigan Consolidated and (2) the 30,000 Mcf per day resulting from the application filed by Panhandle in Docket No. G–18144 (21 F.P.C. 530).

In Docket No. G–11061, the Presiding Examiner issued his initial decision on June 16, 1959, approving the plan submitted by Panhandle for allocating the 127,000 Mcf of natural gas per day which resulted from the order authorizing abandonment by Panhandle of its service to Michigan Consolidated.

In Docket No. G–18144, the Presiding Examiner recommended that a certificate of public convenience and necessity issue to Panhandle authorizing the modernization and operation by Panhandle of its compressor station engines and a certificate authorizing Panhandle to allocate the 30,000 Mcf per day of additional capacity made available in Docket No. G–18144.

In Docket Nos. G–10396, et al., the Commission issued an order on July 16, 1959, adopting the initial decision of the Presiding Examiner both as to Docket No. G–11061 and Docket No. G–18144 (22 F.P.C. 82).[20]

In Docket Nos. G–10396 et al, eleven consolidated petitions for review were filed with the United States Circuit Court of Appeals for the District of Columbia Circuit, challenging three related orders of the Commission: (1) the order issued December 19, 1958, authorizing the abandonment by Panhandle and allocating American Louisiana's gas to Michigan Consolidated; (2) the order issued February 13, 1959, denying rehearing, rejecting the offer of settlement submitted by Michigan Consolidated and excluding the American Natural system and its customers from further proceedings involving disposition of the abandonment gas and (3) an order, issued during the course of the hearings, affirming the exclusion of certain evidence by the Presiding Examiner. Upon review, the orders were set aside and the case remanded to the Commission for further proceedings not inconsistent with the opinion of the Court. Michigan Consolidated Gas Company *v.* F.P.C., -- U.S. App. D.C., --, --, F 2d -- (Nos. 14975, et al., decided April 29, 1960, rehearing denied, July 11, 1960).

In Docket Nos. G–10396 et al., petitions were also filed with the Court to review the order of the Commission approving the proposal submitted by Panhandle for the distribution of 157,000 Mcf of gas among its customers, including the 127,000 Mcf of abandonment gas and the 30,000 Mcf made available by the expansion of the transmission facilities of Panhandle. Upon review, it was ordered that the order of allocation of the abandonment gas be set aside as moot. The order denying Michigan Consolidated leave to intervene with respect to the 30,000 Mcf was affirmed. Michigan Consolidated Gas Company v. F.P.C. -- U.S. App. D.C. --, --, F. 2d -- (No. 15358, decided July 11, 1960)

In CP60–22, Trunkline Gas Company (Trunkline), a Delaware corporation with principal place of business at Houston, Texas, filed an application on February 2, 1960, as amended on April 29, 1960, and July 11, 1960, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the construction and operation of certain facilities, and the sale of gas therefrom, all as more fully represented in the application. Pursuant to a notice of applications, issued August 12, 1960,[21] a consolidated hearing [22] was commenced on September 7, 1960, before a Presiding Examiner and the matter is pending decision on "Phase One" of the application filed by Trunkline.[23]

In Docket No. CP60–22, Trunkline requested in its second amendment filed on July 11, 1960, that consideration of the proposed sale of approximately 130,000 Mcf per day of natural gas to Panhandle, as described in the original application, be deferred until the Commission is prepared to proceed with the pending expansion application filed by Panhandle in Docket No. CP60–60. The notice of application issued on August 12, 1960, supra, related only to the "First Phase" of the application in Docket No. CP60–22 and not to the "Second Phase", the proposed sales to Panhandle.

In "Phase Two", Trunkline requests authorization to expand its certificated design capacity from 605,000 Mcf per day [24] to 710,000 Mcf per day for the purpose of increasing its sale to Panhandle. The application states that Panhandle has advised Trunkline of the intention of Panhandle to increase the volumes of gas to be supplied to its customers for the purpose of meeting the rapidly growing requirements of its markets and that Trunkline has agreed to supply Panhandle with substantial additional quantities of gas and to increase the maximum daily quantity to be sold by Trunkline to Panhandle to 475,000 Mcf, representing an increase of approximately 130,000 Mcf per day.[25]

In order to increase its line capacity to make the sale of an additional 130,000 Mcf per day to Panhandle, Trunkline proposes to install approximately 97.5 miles of main line loop and other necessary appurtenances.[26]

The proposed total expansion is estimated to cost approximately $45,100,000 and the proposed financing includes the sale of $10,000,000 in common stock to Panhandle and the issuance of $35,000,000 in long-term securities, consisting of $27,000,000 in bonds and $8,000,000 in preferred stock. "Phase One" of the application is estimated to cost approximately $25,400,000, and the proposed financing of it includes the issuance of $20,000,000 in long-term securities and the sale of $5,400,000 in common stock to Panhandle.

In CP60–40, Panhandle filed on February 19, 1960, an application, as supplemented on March 21, 1960, pursuant to section 7(c) of the Natural Gas Act, for a certificate of public convenience and necessity seeking authorization to construct and operate a measuring and regulating station on its existing main line in Paulding County, Ohio, in order to transport and sell natural gas to General Portland Cement Company (Portland), on an interruptible basis during the period March 15 to November 15 of each year, all as more fully represented in the application.

The application states that Portland will use the natural gas to fire 2 kilns in the manufacture of cement at its plant in Paulding County and that Portland will realize important economies in fuel consumption, ease of operation and other benefits by use of natural gas.

The sale will be made pursuant to an industrial gas contract which provides, among other things, for a maximum delivery of up to 10,000 Mcf per day during the period March 15 to November 15 of each year.

To accomplish the sale to Portland, Panhandle proposes to construct a measuring and regulating station at a cost of approximately $20,700, to be financed from funds on hand. Portland will construct and operate a short connecting lateral to its cement plant from the main line of Panhandle.

Notice of the application filed by Panhandle was published in the FEDERAL REGISTER on September 3, 1960 (25 F.R. 8584). The hearing, originally scheduled for September 29, 1960, was continued on September 28, 1960, subject to further notice by the Secretary of the Commission (25 F.R. 9577).

In Docket No. CP60–60, Panhandle filed, on March 14, 1960, as amended on May 24, 1960, and supplemented on August 19, 1960, an application pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing it to construct and operate certain facilities for the transportation and sale of an additional volume of 325,000 Mcf of natural gas per day in interstate commerce, all as more fully represented in the application.

Panhandle seeks authorization to construct and operate approximately 298 miles of 30-inch pipeline loops along its main transmission line between its existing Liberal, Kansas, and Montezuma, Indiana, compressor stations, and to add 25,000 horsepower of compressor units to existing stations along this section of line. Panhandle also proposes to construct and operate approximately 42.8 miles of 16- and 26-inch supply laterals and approximately 80 miles of 6- to 12-inch sales laterals.

---

[11] Notice of the applications of American Louisiana and Gulf was published in the FEDERAL REGISTER on August 24, 1956 (21 F.R. 6397–6398).

[12] Notice of the application filed by Panhandle was published in the FEDERAL REGISTER on October 11, 1956 (21 F.R. 7783).

[13] The right of Gulf to cancel the Krotz Springs contract is now the subject of judicial proceedings (20 F.P.C. 475 at 477).

[14] In Docket No. G–10400, the order of October 10, 1958 also granted a certificate of public convenience and necessity to Gulf. And in the same order, the Commission deferred action on the application by Panhandle to abandon service to Michigan Consolidated in Docket No. G–11061.

[15] Notice of the application filed by American Louisiana was published in the FEDERAL REGISTER on September 18, 1959 (24 F.R. 7558).

[16] Including: City Gas Company, Merrill Gas Company, Peoples Gas Company, Wisconsin Fuel and Light Company, Wisconsin Public Service Corporation, Wisconsin Rapids Gas and Electric Company, Central Wisconsin Gas Company and Natural Gas Distributors, Inc.

[17] In its application in Docket No. G–17180, Michigan Wisconsin also referred to Opinion No. 316, wherein its application to serve the same distributing companies as well as certain other communities and to provide an inter-connection with the facilities of Northern Natural Gas Company was denied (Docket No. G–9850) (20 F.P.C. 575 at 603–606, 613).

See also the application and orders of the Commission issued in the consolidated proceedings involving Docket No. G–18316 (22 F.P.C. 775, 1157; 23 F.P.C. 111, 583, 740; 24 F.P.C. 33), appeal pending, Michigan Gas and Electric Company v. F.P.C., CADC No. 15592.

[18] Notice of the application filed by Panhandle was published in the FEDERAL REGISTER on April 29, 1959 (24 F.R. 3334).

[19] Michigan Consolidated was denied leave to intervene in Docket No. G–18144 (21 F.P.C. 688 and 22 F.P.C. 91).

[20] The initial decision of the Presiding Examiner appears at 22 F.P.C. 86.

[21] Notice of the applications was published in the FEDERAL REGISTER on August 18, 1960 (25 F.R. 8008).

[22] In "Phase One" of Docket No. CP60–22, Trunkline seeks authority to make initial deliveries and sales of gas to Mississippi River Transmission Corporation, Northern Indiana Public Service Company, Central Illinois Electric and Gas Company and the City of Rensselaer, Indiana. Trunkline also proposes to deliver additional volumes of gas to certain of its existing customers, namely, Central Illinois Public Service Company, Citizens Gas Company, United Cities Gas Company and the City of McLeansboro, Illinois.

In the application, as amended, Trunkline proposes to construct and operate only a portion of those facilities described in its original application, including the installation of 154.5 miles of main loop line and 69.4 miles of supply lateral, measuring stations and other appurtances.

[23] The entire consolidated proceeding included: Trunkline Gas Company, Docket Nos. CP60–22 and CP60–61; Mississippi River Transmission Corporation, Docket No. CP60–95; Richardson & Bass, (Operator), Docket No. CI60–209; The California Company, Docket No. CI60–215 and Humble Oil & Refining Company, Docket No. CI60–259.

[24] Assuming that "Phase One" of the application in Docket No. CP60–22 is granted.

[25] The present Panhandle contract-demand from Trunkline is 345,000 Mcf per day.

[26] The 154.5 miles of main line loop proposed in "Phase One" and the 97.5 miles proposed herein will complete the looping of the main transmission line of Trunkline.

The proposed expansion is estimated to cost approximately $46,480,000, of which $43,680,000 is associated with main line and supply lateral facilities. It is anticipated that the expansion would be financed through the issuance of debentures.

Panhandle alleges that it has increased volumes of gas available from Trunkline, its subsidiary, and that it has entered into contracts with independent producers, which, together with existing supplies, assure that Panhandle can make the increased deliveries of gas for which it here seeks authority. Panhandle proposes to distribute the additional volumes of gas made available by this expansion to existing customers and "such other customers as may be sought during the pendency of the proceedings".

In Docket No. CP60–126, Panhandle filed on June 20, 1960, an application and on June 24, 1960, a supplement thereto, pursuant to section 7 of the Natural Gas Act, requesting authorization to transport natural gas in interstate commerce for sale to Johns-Manville Fiber Glass, Inc. (Johns-Manville) in Ohio, all as more fully represented in the application.

Panhandle now has authorization to transport gas to existing plants of Johns-Manville near Defiance, Ohio, and proposes to transport additional gas for sale and delivery to the new Johns-Manville fiberglass plant and to an existing Johns-Manville plant near Waterville, Ohio. The sales are to be made on an interruptible basis. Panhandle has agreed to supply Johns-Manville's natural gas requirements for processing use up to a daily volume of 6,000 Mcf. The estimated annual requirement for the proposed new service will not exceed 600,000 Mcf per year. Panhandle alleges that natural gas is essential to the processes which will be performed in the new Johns-Manville plant. The gas will be used principally to fire smelters and refiners in the glass furnaces, the product of which will be textile fiber glass. Panhandle states that the gas will not be used for boiler fuel. Under the contract between these parties Johns-Manville is required to keep standby fuel on hand.

Panhandle proposes to construct and operate measuring and regulating equipment at the point of connection between the main line of Panhandle and the supply line to the plants. The cost of the measuring and regulating station is estimated to be $15,000, which will be financed from cash on hand.

Notice of the application filed by Panhandle was published in the FEDERAL REGISTER on September 3, 1960 (25 F.R. 8584). The hearing, originally scheduled for October 25, 1960, was continued on September 23, 1960, subject to further notice by the Secretary of the Commission (25 F.R. 9309).

In Docket No. CP61–8, the Village of Tremont, Illinois, a municipal corporation organized and existing under the laws of Illinois, filed an application on July 14, 1960, as supplemented on September 13, 1960, pursuant to section 7(a) of the Natural Gas Act for an order directing Panhandle to establish physical connection of its transmission facilities with the facilities which it proposes to construct and to sell and deliver natural gas to it, all as more fully set forth in the application.[21]

The Village of Tremont is seeking a supply of gas in the following amounts:

[Mcf]

		Annual	Peak day
1st	year	33,520	270
2d	year	53,350	430
3d	year	71,110	580

The Village of Tremont proposes to construct and operate a distribution system and a lateral line extending from the village border to an interconnection with the Panhandle transmission line approximately 4 miles west of the village.

The total estimated cost of constructing the proposed distribution system and supply lateral is $275,000, which would be financed by the issuance of municipal natural gas revenue bonds, payable from the revenues of the gas system.

In Docket No. CP61–36, Panhandle filed an application on August 8, 1960, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity requesting authorization for the sale and delivery of natural gas to The B.F. Goodrich Company (Goodrich), in Allen County, Indiana, all as more fully set forth in the application.[22]

Panhandle proposes to transport the gas through its existing facilities to its Edgerton Compressor Station in Allen County, Indiana, at which point Northern Indiana Fuel and Light Company (Northern Indiana), a local distributor of gas in Indiana, will interconnect. Northern Indiana will transport the gas to Goodrich for the account of Panhandle and will be paid by Panhandle at the rate of 2 cents per Mcf for each Mcf transported and delivered. No additional facilities will be constructed by Panhandle.

The annual requirements of the Goodrich plant are estimated by Goodrich to be 580,000 Mcf and the contract volume which Panhandle is obligated to deliver does not exceed 5,000 Mcf per day. The service will be interruptible when in Panhandle's judgment firm customer requirements so warrant.

It is anticipated that service would commence on or about October 1, 1961, on which date Goodrich will have completed this new plant. Panhandle states that it has sufficient supplies of gas to furnish the service required by the Goodrich plant. On June 10, 1960, the Public Service Commission of Indiana entered an order granting authorization to Panhandle for the service to Goodrich.

In Docket No. CP61–54, Citizens Gas Company (Citizens Gas), an Illinois corporation of Tuscola, Illinois, filed on August 22, 1960, an application pursuant to section 7(a) of the Natural Gas Act for an order directing Panhandle to establish physical connection of its transportation facilities with the proposed facilities of Citizens Gas and to sell and deliver natural gas to Citizens for distribution and resale in the Village of Pesotum, Illinois, and surrounding area, all as more fully set forth in the application.

The facilities proposed to be constructed by Citizens Gas consist of a 3-inch pipeline extending from the village border for 2½ miles to the point of intersection with the Champaign Lateral on the Panhandle system, together with the necessary distribution lines.

The estimated natural gas requirements for the above service area are as follows:

Year	1	2	3	4	5
Peak day (Mcf)	157	255	324	343	353
Annual (Mcf)	16,778	27,392	37,130	37,206	38,348

Citizens Gas alleges that it is presently engaged in the business of distributing natural gas at retail in several communities in Illinois and that it has contract arrangements with Panhandle for sufficient quantities of natural gas to serve the market in the Village of Pesotum without any increase in firm contract quantities. The estimated cost of the facilities proposed by Citizens Gas is $89,544, initially, increasing to an ultimate cost of $109,000, which costs will be paid from available company funds.

In CP61–114, Central Illinois Light Company (Central Illinois), 300 Liberty Street, Peoria, Illinois, filed an application on October 11, 1960, pursuant to section 7(a) of the Natural Gas Act, for an order directing Panhandle to establish physical connection of its transportation facilities with the facilities proposed to be constructed by Central Illinois and to sell and deliver to Central Illinois its natural gas requirements for the Village of Williamsville, Sangamon County, Illinois (Williamsville), all as more fully represented in the application.

The application states that Williamsville has a population of approximately 750 and is situated approximately one quarter mile east of the 16-inch gas transmission line of Panhandle known as the Peoria Lateral. There are no existing natural gas facilities in Williamsville or its environs. Central Illinois is an operating public utility furnishing electric, gas and steam heating utility services in central Illinois and all the natural gas supplied by it to its customers is purchased from Panhandle, being delivered through the 16-inch Peoria Lateral.

Central Illinois proposes to construct and operate a local distribution system for service to Williamsville and environs at an estimated initial installation cost of $141,200, with an estimated cost at the end of the first five years of $157,600, which will be financed from funds available for construction purposes.

[21] On October 14, 1960, Panhandle filed an answer in opposition to the application filed by the Village of Tremont, including a motion to consolidate Docket No. CP61–8 with the existing application filed by Panhandle in Docket No. CP60–60.

[22] On September 16, 1960, Michigan Consolidated filed a motion to consolidate the applications filed by Panhandle in Docket Nos. CP60–40, CP60–126 and CP61–36 with the remanded proceedings in Docket Nos. G–10396 and G–11061 for hearing and decision.

It is estimated in the application that the peak day and annual requirements for the proposed service are 425 Mcf and 49,610 Mcf, respectively, for the first year and 626 Mcf and 70,489 Mcf, respectively, in the third year of service. Central Illinois alleges that use of this natural gas will afford substantial savings and convenience to the public in Williamsville and environs.

In Docket No. CP61–115, Central Illinois filed an application on October 11, 1960, pursuant to section 7(a) of the Natural Gas Act, for an order directing Panhandle to establish physical connection of its transportation facilities with the facilities proposed to be constructed by Central Illinois, and to sell and deliver to Central Illinois its natural gas requirements for the Village of Sherman, Sangamon County, Illinois (Sherman), all as more fully represented in the application.

The application states that Sherman has a population of approximately 300 and is situated approximately one-half mile west of the 16-inch gas transmission line of Panhandle known as the Peoria Lateral. There are no existing natural gas facilities in Sherman or its environs. Central Illinois is an operating public utility furnishing electric, gas and steam heating utility services in central Illinois and all of the natural gas supplied by it to its customers is purchased from Panhandle, being delivered through the 16-inch Peoria Lateral.

Central Illinois proposes to construct and operate a local distribution system for service to Sherman and environs at an estimated initial installation cost of $94,000, with an estimated cost at the end of the first five years of $123,500, which will be financed from funds available for construction purposes.

It is estimated in the application that the peak day and annual requirements for the proposed service are 164 Mcf and 18,127 Mcf, respectively, for the first year and 358 Mcf and 38,417 Mcf, respectively, in the third year of service. Central Illinois alleges that use of this natural gas will afford substantial savings and convenience to the public in Williamsville and environs.

All applications referred to herein are on file with the Commission and are open for public inspection. This order shall constitute notice of the filing of such applications.

The Commission finds:

(1) It is necessary and appropriate in the public interest to reopen the proceedings in Docket Nos. G–2306, G–2327, G–10396 and G–11061.

(2) It is necessary and appropriate in the public interest that Docket Nos. G–2306, G–2327, G–10396 and CP60–22 (Phase Two) be severed from all other dockets in which consolidation of Docket Nos. G–2306, G–2327, G–10396 and CP60–22 (Phase Two) and such other dockets has previously been ordered and, further, that the issues of allocation of natural gas remaining in Docket Nos. G–2306, G–2327, and G–10396 be severed from all other issues arising in the applications filed in such dockets and, further, that the issues remaining in Docket No. CP60–22 (Phase Two) be severed from all other issues arising in connection with the application filed therein.

(3) It is necesary and appropriate in the public interest that those portions of the applications in Docket Nos. G–2306, G–2327 and G–10396 regarding the allocation of natural gas, the application for abandonment in Docket No. G–11061, "Phase Two" of the application filed in Docket No. CP60–22, and the applications in Docket Nos. G–17180, CP60–40, CP60–60, CP60–126, CP61–8, CP61–36, CP61–54, CP61–114, and CP61–115 be consolidated, pursuant to § 1.20(b) of the rules of practice and procedure of the Commission, for the purpose of hearing on all matters at issue therein, including but not limited to a comparative consideration of the system capacities, markets and supplies of each party.

(4) It is necessary and appropriate in the public interest that an order of procedure be prescribed and followed so that the consolidated proceeding required by this order will be completed with reasonable dispatch.

The Commission orders:

(A) The proceedings in Docket Nos. G–2306, G–2327, G–10396, and G–11061 be reopened in accordance with this order.

(B) The orders consolidating Docket Nos. G–2306, G–2327, G–10396, and CP60–22 (Phase Two) with any other docket or proceeding be modified and all such other dockets or proceedings be severed from the instant consolidated proceedings and, further, the issues concerning allocation of natural gas remaining in Docket Nos. G–2306, G–2327, and G–10396 be severed from any and all other issues arising in the applications filed therein and, further, the issues concerning "Phase Two" of Docket No. CP60–22 be severed from any and all other issues arising in connection with the application filed in Docket No. CP60–22.

(C) The proceedings upon the applications filed in Docket Nos. G–2306, G–2327, G–10396, G–11061, G–17180, CP60–22 (Phase Two), CP60–40, CP60–60, CP60–126, CP61–8, CP61–36, CP61–54, CP61–114, and CP61–115 be consolidated for hearing in accordance with this order.

(D) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and Regulations thereunder, and the rules of practice and procedure of the Commission, a hearing will be held commencing January 31, 1961 at 10:00 a.m., e.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented in such applications, including but not limited to a comparative consideration of the system capacities, markets and supplies of each party. The hearing required by this order shall be conducted in accordance with the procedure prescribed in paragraph (E) hereof.

(E) With respect to the conduct of the hearing in this consolidated proceeding, unless the Presiding Examiner is convinced that a suggested deviation therefrom will materially assist in the prompt disposition of the issues, the procedure shall be as follows:

(i) The record in the consolidated proceeding shall be numbered consecutively commencing with page number one.

(ii) Other than the evidence referred to in subparagraph (viii) hereof, all testimony shall be presented orally upon the record at the hearing in the consolidated proceeding, in question and answer form. So-called prepared testimony shall be received as evidence in the consolidated proceeding when, in the opinion of the Presiding Examiner, the submission of the prepared testimony of particular witnesses will enable the hearing to be terminated with more reasonable dispatch.

(iii) Direct testimony with respect to all applications shall be presented prior to the commencement of any cross-examination.

(iv) The Village of Tremont shall go forward first with its direct evidence as to all matters related to its application in Docket No. CP61–8; following which Citizens Gas shall present its direct case in support of its application in Docket No. CP61–54; following which Central Illinois shall present its direct case in support of its applications in Docket Nos. CP61–114 and CP61–115.

Following which Trunkline shall present its direct case in support of its application in Docket No. CP60–22 (Phase Two).

Following which Panhandle shall present its direct case in support of its applications in Docket Nos. G–11061, CP60–40, CP60–60, CP60–126 and CP61–36.

Following which American Louisiana shall present its direct case in support of the allocation issues remaining in connection with the applications filed by it in Docket Nos. G–2306 and G–10396.

Following which Michigan Wisconsin shall present its direct case in support of its application in Docket No. G–17180 and in support of the allocation issues remaining in connection with the application filed by it in Docket No. G–2327.

Following which any party filing, pursuant to paragraph (F) hereof, a proposal or offer of settlement in the instant consolidated proceeding which is not agreed to by all the parties, shall present its direct case in support of such proposal or offer of settlement, including all relevant evidence which any other party may desire to offer. In the event that more than one proposal or offer of settlement is filed, the Presiding Examiner shall determine the order of presentation of direct evidence in support of such proposals or offers of settlement: *Provided, however,* That if a proposal or offer of settlement is filed by the Village of Tremont, Citizens Gas, Central Illinois, Trunkline, Panhandle, American Louisiana or Michigan Wisconsin, such party or parties shall present its direct case in support of its proposal or offer at the time it presents its direct case in support of the applications referred to hereinabove in this subparagraph.

(v) The order of presentation of all other evidence by the parties, including

rebuttal evidence, shall be determined by the Presiding Examiner: *Provided, however*, That presentation of evidence, if any, by staff shall be subsequent to that presented by all parties.

(vi) Upon the conclusion of the testimony of the last witness on direct, the Presiding Examiner shall recess the hearing until such date as he determines will permit the parties and staff a reasonable time within which to prepare for cross-examination.

(vii) Any party to this consolidated proceeding desiring to offer any testimony or exhibit previously presented in prior or other Commission proceedings for admission in evidence in this consolidated proceeding by reference to the prior or other proceeding, shall have such testimony or exhibit physically reproduced. Fifteen copies of such reproduced testimony or exhibit material shall be filed with the Commission on or before January 9, 1961, and service thereof shall be made upon those persons named in the list issued in accordance with paragraph (J) hereof.

(viii) Only testimony or exhibits previously presented in prior or other Commission proceedings which are physically reproduced, filed with the Commission and served in accordance with subparagraph (vii) hereof, and admitted into evidence by the Presiding Examiner, will be considered a part of the record in the consolidated proceeding required by this order.

(F) Proposals or plans for settlement of the consolidated proceeding required by this order, by any person, shall be filed with the Commission on or before January 6, 1961, and service thereof shall be made upon those persons named in the list issued in accordance with paragraph (J) hereof. Written response must be submitted by each person receiving a copy of the proposal or plan for settlement. The written responses shall be filed with the Commission on or before January 16, 1961, and service thereof shall be made upon those persons named in the list issued in accordance with paragraph (J) hereof. Fifteen copies of such proposals, plans and responses shall be filed with the Commission.

Consideration of such proposals or plans for settlement will be encompassed within the hearing on the consolidated proceeding required by this order. A settlement proposal which is agreed to by all the parties may be filed in accordance with 18 CFR 1.18 (1949).

(G) This order shall constitute notice of the following:

In Docket No. G–2306, application filed by American Louisiana, the issues regarding the allocation, if any, of the remaining natural gas.

In Docket No. G–2327, application filed by Michigan Wisconsin, the issues regard the allocation, if any, of the remaining natural gas.

In Docket No. G–10396, application filed by American Louisiana, the issues regarding the allocation, if any, of the remaining natural gas.

In Docket No. G–11061, the application filed by Panhandle on September 10, 1956.

Application of Michigan Wisconsin, Docket No. G–17180, filed December 4, 1958.

Application of Trunkline, Docket No. CP60–22 (Phase Two), filed February 2, 1960, as amended on April 29, 1960 and July 11, 1960.

Application of Panhandle, Docket No. CP60–40, filed February 19, 1960, as supplemented on March 21, 1960.

Application of Panhandle, Docket No. CP60–60, filed March 14, 1960, as amended on May 24 and supplemented on August 19, 1960.

Application of Panhandle, Docket No. CP60–126, filed June 20, 1960, as supplemented on June 24, 1960.

Application by the Village of Tremont, Illinois, Docket No. CP61–8, filed July 14, 1960, as supplemented on September 13, 1960.

Application by Panhandle, Docket No. CP61–36, filed August 8, 1960.

Application of Citizens Gas, Docket No. CP61–54, filed August 22, 1960.

Application of Central Illinois, Docket No. CP61–114, filed October 11, 1960.

Application of Central Illinois, Docket No. CP61–115, filed October 11, 1960.

(H) Any person heretofore permitted to intervene in the several and separate or consolidated proceedings in Docket Nos. G–2306, G–2327, G–10396, G–11061, G–17180, CP60–22, CP60–40, CP60–60, CP60–126, CP61–8, CP61–36, CP61–54, CP61–114, or CP61–115 desiring to participate in the consolidated proceeding required by this order shall, on or before December 21, 1960, file with the Commission a notice of intention to participate. An original and fourteen conformed copies of such notice shall be filed with the Commission. It will not be necessary for such person to file a petition for leave to intervene in the consolidated proceeding.

The notice shall include the exact legal name of the person and its principal place of business, the name and address of its attorney and the name, title and mailing address of the person or persons to whom communications concerning the consolidated proceeding are to be addressed.

Any such person who does not file such notice shall not participate in the consolidated proceeding required by this order except upon a showing of extraordinary reason.

(I) Further protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 21, 1960.

(J) Subsequent to December 21, 1960, the Secretary of the Commission shall issue a list showing those persons who have filed applications, notices of intention to participate and further protests or petitions to intervene in the consolidated proceeding required by this order.

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[Docket No. E–6969]

HEADWATER BENEFITS INVESTIGATION IN KANAWHA RIVER BASIN

Order Instituting Investigation

DECEMBER 1, 1960.

Pursuant to the provisions of section 10(f) of the Federal Power Act, we are authorized to determine and assess headwater improvement benefit charges against the owner of any water power project directly benefited by upstream improvements constructed by the United States, its licensees or permittees. The United States and its licensees or permittees have constructed and operated reservoir storage developments on the Kanawha River and tributaries in Virginia or West Virginia which may directly provide power benefits to downstream non-Federal water power developments.

The Commission finds: It is appropriate and in the public interest that an investigation be instituted by the Commission as hereinafter provided.

The Commission orders: An investigation is hereby instituted pursuant to the provisions of the Federal Power Act, particularly section 10(f) thereof, for the purpose of enabling the Commission to determine whether any of the non-Federal water power projects located downstream from improvements constructed by the United States, its licensees, or permittees on the Kanawha River and tributaries, are directly benefited by the construction and operation of such upstream improvements of the United States, its licensees or permittees and, if it so finds, to determine the equitable proportion of the annual charges to be paid by the owner of any downstream non-Federal water power project so benefited for interest, maintenance and depreciation on such upstream improvements constructed by the United States, its licensees or permittees.

By the Commission.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60–11323; Filed, Dec. 5, 1960; 8:56 a.m.]

[Docket No. RP61–14]

HOPE NATURAL GAS CO.

Order Providing for Hearing and Suspending Proposed Revised Tariff

NOVEMBER 30, 1960.

Hope Natural Gas Company (Hope), on October 31, 1960, tendered for filing its FPC Gas Tariff, First Revised Volume No. 1, proposing an annual increase in its rates and charges of approximately $3,551,923, or 5.8 percent, based on sales for the year ended August 31, 1960, as adjusted. Likewise, the company proposes a revision in its rate structure, and requests an effective date of December 1, 1960.

The proposed increased rates and charges would be in addition to the proposed increased rates and charges presently in effect subject to refund in Docket No. G–17220. In support of the increased rates and charges Hope asserts that they are made necesary because of (1) an increase in purchased gas costs to reflect the increased rates and charges of Tennessee Gas Transmission Company (TGT), one of its main suppliers, which became effective subject to refund on April 5, 1960 in Docket No. G–19983; (2) increased rates of local producers; (3) claimed loss of substantial sales volumes; (4) a claimed need for a rate of return of 6¾ percent on properties other than wellhead and rate of return of 10 percent on wellhead properties (exclusive of Louisiana properties); and (5) increases in operating expenses including increased wages and salaries.

The basic change in Hope's rate structure is the substitution of demand and commodity rates for straight volumetric rates. The contract-demand rate schedules contain minimum take-or-pay-for provisions based upon 65 percent of the annual quantity.

Since the proposed increased rates and charges of TGT are subject to hearing and refund, Hope's increased rates and charges to that extent are based upon contingent costs. Additionally, Hope has not fully supported other cost elements of its proposed increased rates and the lawfulness of its proposed changes in rate structure has not been fully shown.

The proposed increased rates and charges provided for in the above designated revised tariff tendered by Hope on October 31, 1960, may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest, and to aid in the enforcement of the provisions of the Natural Gas Act, that the Commission enter upon a hearing concerning the lawfulness of the proposed changes in rates, charges, classifications or services, and that the above designated revised gas tariff be suspended and the use thereof be deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly §§ 4 and 15 thereof, the Commission's rules of practice and procedure and regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held on a date to be designated by notice from the Secretary of the Commission, concerning the lawfulness of the rates, charges, classifications, and services contained in Hope's FPC Gas Tariff as proposed to be revised by the above designated First Revised Volume No. 1.

(B) Pending such hearing and decision thereon, Hope's proposed FPC Gas Tariff, First Revised Volume No. 1 is hereby suspended and the use thereof deferred until May 1, 1961, and until such further time as it may be made effective in the manner prescribed by the Natural Gas Act.

(C) Notices of intervention of petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37 (f) on or before January 16, 1961.

By the Commission.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60–11324; Filed, Dec. 5, 1960; 8:57 a.m.]

[Docket No. CP61–113]

UNITED GAS PIPE LINE CO.

Notice of Application and Date of Hearing

NOVEMBER 30, 1960.

Take notice that United Gas Pipe Line Company (Applicant), a Delaware corporation with a principal office (1525 Fairfield Ave.) in Shreveport, Louisiana, filed an application in Docket No CP61–113 on October 10, 1960, pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon and remove natural gas facilities subject to the jurisdiction of the Commission, all as more fully described in the application on file with the Commission, and open to public inspection.

Applicant proposes the removal and abandonment of a sales meter station and appurtenant facilities formerly used to deliver natural gas to Gulf Oil Corporation from Applicant's Sour Lake lateral pipeline in Hardin County, Texas.

The application recites that Applicant's contract with Gulf Oil Corporation covering the delivery of natural gas for use in a treater heater near Sour Lake, Texas, has terminated, and the deliveries of natural gas to such customer ceased on April 1, 1960, according to the application.

The application recites that the original cost of the subject facilities serving Gulf Oil Corporation was $372.80.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 12, 1961, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 3, 1961. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefore is made.

MICHAEL J. FARRELL,
Acting Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 812–1325]

BROAD STREET INVESTING CORP.

Notice of Filing of Application for Order Exempting Sale by Open-End Company of Its Shares at Other Than the Public Offering Price in Exchange for Assets of Private Investment Company

NOVEMBER 29, 1960.

Notice is hereby given that Broad Street Investing Corporation ("Broad Street"), a registered open-end investment company, has filed an application pursuant to section 6(c) of the Investment Company Act of 1940 ("Act") for an order of the Commission exempting from the provisions of section 22(d) of the Act the proposed issuance of its shares at net asset value for substantially all of the cash and securities of Hudson Investment Corporation ("Hudson").

Shares of Broad Street, a Maryland corporation, are offered to the public on a continuous basis at net asset value plus varying sales charges dependent on the amount purchased. As of September 26, 1960, the net assets of Broad Street amounted to $190,558,865.

Hudson, a New Jersey corporation, is a personal holding company with seven stockholders (of which two hold only directors' qualifying shares) which engages in the business of investing and reinvesting its funds. Hudson is exempt from registration under the Act by reason of the provisions of section 3(c)(1) thereof. Pursuant to an agreement between Broad Street and Hudson, substantially all of the cash and securities of Hudson, with a total value of $2,606,727 as of September 26, 1960, will be transferred to Broad Street in exchange for shares of stock of Broad Street. The shares acquired by Hudson are to be distributed immediately to its shareholders, who intend to take such shares for investment with no present intention of distribution or redemption. The number of shares of Broad Street to be delivered to Hudson will be determined by dividing the net asset value per share of Broad Street in effect at the closing time into the value of the Hudson assets to be exchanged (with certain adjustments as set forth below). The valuation time is fixed in the agreement as 3:30 p.m. on January 3,1961.

Since the exchange will be tax free for Hudson and its shareholders, Broad Street's cost basis for tax purposes on the assets acquired from Hudson will be the same as for Hudson, rather than the price actually paid by Broad Street for

the assets. Of the assets to be acquired from Hudson, Broad Street intends to retain in its portfolio, subject to changes in investment conditions and considerations, securities having a value as of September 26, 1960, of $222,188, including unrealized appreciation of $76,038. Broad Street also will acquire from Hudson for retention in its portfolio common stocks duplicating holdings in Broad Street's portfolio which Hudson intends to acquire prior to the exchange by investing its cash and the proceeds from the sale of its holdings of government securities. The aggregate value of such government securities and cash as of September 26, 1960, was $1,225,000. Other securities to be acquired from Hudson will be sold by Broad Street after acquisition. As of September 26, 1960, the market value of these securities was $1,159,539 and the unrealized capital gain thereon was $438,444. As of September 26, 1960, Broad Street had unrealized appreciation of $43,166,055 and undistributed realized gains of $2,965,000, of which $571,518 and $39,257, respectively, would have become applicable to the shares of Broad Street issued to Hudson if the proposed acquisition of Hudson's assets had occurred on this date.

Because Broad Street will acquire securities from Hudson at a tax-cost basis less than the price actually paid therefor, their sale after acquisition will result in artificial capital gains and consequent tax liability thereon to the present shareholders of Broad Street. As an offset to this unfavorable tax consequence, the acquisition of the Hudson assets will result in a potential tax benefit to the present shareholders of Broad Street by reason of a reduction in the net unrealized appreciation applicable to their shares. An adjustment, which takes into account the tax consequences of the exchange, is to be made in the value of the Hudson assets in accordance with the following formula:

(1) In respect of the securities of Hudson that Broad Street presently intends to sell and the resulting artificial capital gain thereon, there shall be determined the difference between net unrealized taxable capital gain on said securities and the portion of the realized but undistributed taxable long-term capital gain of Broad Street allocable to the aggregate shares of Broad Street to be issued to Hudson. (Such difference, as of September 26, 1960, amounted to $399,187.)

(2) In respect of the securities of Hudson that Broad Street presently intends to hold following acquisition, there shall be determined the difference between net unrealized taxable capital gain on said securities and the portion of Broad Street's unrealized appreciation applicable to the aggregate shares of Broad Street to be issued to Hudson determined on a pro forma basis giving effect to the acquisition of the assets of Hudson. (Such difference as of September 26, 1960, amounted to a negative amount of $496,487.)

(3) The amount computed under (1) shall be increased by the amount, if positive, or decreased by 50 percent of the amount, if negative computed under (2), and 12½ percent of the resulting amount ($150,943 as of September 26, 1960), which is the adjustment for excess unrealized appreciation of Hudson shall be applied to reduce the value of the assets of Hudson to be acquired. If the valuation under the agreement had taken place on September 26, 1960 the adjustment to the market value of the assets of Hudson to be acquired would have amounted to $18,868.

The application, in the foregoing formula, of a 50 percent factor to the reduction in unrealized appreciation resulting from the acquisition of the Hudson assets, is intended to recognize that this will be of full benefit to the present shareholders of Broad Street only in the indefinite future at such time, if any, as all the present unrealized appreciation in Broad Street's portfolio is realized, whereas an immediate tax liability will result from the realization of artificial capital gains upon the sale after acquisition of certain securities acquired from Hudson. The rate of 12½ percent applied to the excess unrealized appreciation of Hudson is used as an estimated measure of the average tax rate payable on capital gains by Broad Street shareholders.

Applicant points out that the proposed acquisition is in the best interests of its shareholders because of the resulting increase in its assets will tend to reduce per share expenses, since it is furnished investment research and administrative facilities and services at cost.

The application recites that the terms of the entire transaction were arrived at through arm's-length bargaining between Broad Street and Hudson. The application further states that there is no affiliation or relationship of any kind between the officers and directors of Broad Street and the officers, directors, and stockholders of Hudson.

Section 22(d) of the Act provides, in pertinent part, that no registered investment company shall sell any redeemable security issued by it to any person except at a current offering price described in the prospectus, with certain exceptions not applicable here. Under the terms of the Agreement, however, the shares of Broad Street are to be issued to Hudson at a price other than the public offering price stated in the prospectus, which lists a sales charge of 2.22 percent for sales of $250,000 or over.

Section 6(c) of the Act authorizes the Commission by order upon application to exempt, conditionally or unconditionally, any transaction from any provision of the Act or of any rule or regulation thereunder, if and to the extent that the Commission finds that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than December 15, 1960 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. At any time after said date, as provided by Rule O-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the showing contained in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[Notice 418]

MOTOR CARRIER TRANSFER PROCEEDINGS

DECEMBER 1, 1960.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 63616. By order of November 29, 1960, the Transfer Board approved the transfer to Soonan Transport Corp., Rochester, N.Y., of Certificate No. MC 116548, issued January 20, 1959, to Monroe Mercantile Carriers, Inc., Rochester, N.Y., authorizing the transportation of fresh meat, in vehicles equipped with mechanical refrigeration, from Rochester, N.Y., to New York, N.Y., points on Long Island, N.Y., and Philadelphia, Pa. Raymond A. Richards, 35 Curtice Park, Webster, N.Y., for applicants.

No. MC-FC 63619. By order of November 28, 1960, the Transfer Board approved the transfer to Melvin Parks, doing business as Mel's Trucking Service, Pocatello, Idaho, of certificates in Nos. MC 112558 Sub 1, MC 112558 Sub 2, and MC 112558 Sub 4, issued February 9, 1953, August 6, 1952, and March 14, 1958, respectively, to Clinton A. Gundersen, doing business as Gundersen Trucking Company, Mackay, Idaho, which authorize the transportation of: ore, over irregular routes, from mines in Custer and Lemhi Counties, Idaho, to the railheads at Darby and Armstead, Mont., and Mackay, Idaho, and to smelters in Salt Lake City, Magna, Garfield, Murray, Midvale, Tooele, and International, Utah; general commodities, except household goods, and commodities in bulk, from Mackay, Idaho, to specified points in Idaho. Kenneth G. Bell, 203 McCarty Building, Boise, Idaho, Attorney for applicants.

No. MC-FC 63727. By order of November 28, 1960, the Transfer Board approved the transfer to Wayne Barnett, doing business as Moran Truck Line, Moran, Kansas, of Certificates in No. MC 1946 and MC 1946 Sub 1, issued August 19, 1959, and May 26, 1960, respectively, to Glen Franklin Thomas, doing business as Glen Thomas, Route 2, Humboldt, Kansas, which authorize the transportation of farm machinery, feed, hardware, and building materials, from Kansas City, Mo., and Kansas City, Kans., to Humboldt, Kans., and points within 10 miles thereof other than Iola, and Chanute, Kans.; livestock, and steel, between Humboldt, Kans., and points within 10 miles thereof, on the one hand, and, on the other, Kansas City, Kans., and Kansas City, Mo., and feed, in bulk or in bags, from St. Joseph, Mo., to Humboldt, Kans.

No. MC-FC 63740. By order of November 28, 1960, the Transfer Board approved the transfer to Clyde Bacon, Newark, N.J., of Certificate in No. MC 115376, issued December 12, 1955, to A. & W. Motor Freight Company, Inc., Philadelphia, Pa., which authorizes the transportation of food products, over irregular routes, between Philadelphia, Pa., and Wilmington, Del. Morris J. Winokur, Winokur & Kahn, Two Penn Center Plaza, Pennsylvania Boulevard at 15th Street, Philadelphia 2, Pa., for applicants.

No. MC-FC 63748. By order of November 29, 1960, the Transfer Board approved the transfer to W. M. Lassiter and C. C. Lassiter, a partnership, doing business as City Transfer and Storage Company, High Point, N.C., of Certificates Nos. MC 29914 and MC 29914 Sub 2, issued February 14, 1941, and June 4, 1948, respectively, to Casper A. Warner, doing business as Warner's Transfer, High Point, N.C., authorizing the transportation of meats, over regular routes, from Greensboro, N.C., to Albemarle, N.C.; household goods, as defined by the Commission, over irregular routes, between points in North Carolina, on the one hand, and, on the other, points in South Carolina and Virginia; and between points in Virginia, on the one hand, and on the other, points in South Carolina; new furniture, between Lexington, N.C., on the one hand, and, on the other, Martinsville, Bassets, and Galax, Va., from Lexington, N.C., to points in South Carolina; panels and plywood, between Lexington, N.C., on the one hand, and, on the other, Martinsville, Bassets, and Galax, Va.; and household goods as defined by the Commission, over irregular routes, between High Point, N.C., and points within 10 miles thereof, on the one hand, and, on the other, points in Florida, Georgia, Maryland, New Jersey, New York, Ohio, Pennsylvania, Tennessee, West Virginia and the District of Columbia, traversing Delaware, Kentucky, South Carolina and Virginia for operating convenience only. Robert M. Martin, 307 North Carolina National Bank Building, High Point, N.C., for applicants.

No. MC-FC 63770. By order of November 29, 1960, The Transfer Board approved the transfer to Hayes Moving & Storage, Inc., Clarksville, Tenn., of a portion of Certificate No. MC 10173 issued June 17, 1960, to Marvin Hayes Lines, Inc., Clarksville, Tenn., authorizing the transportation of household goods as defined by the Commission, over regular routes, between Clarksville, Tenn., and Nashville, Tenn.; between Clarksville, Tenn., and Cumberland Furnace, Erin, and Dover, Tenn., and between Springfield, Tenn., and Dover, Tenn.; and household goods, over irregular routes, between Clarksville, Tenn., on the one hand, and, on the other, points in Alabama, Arkansas, Illinois, Indiana, Kentucky, Louisiana, Mississippi, Missouri, and Tennessee. Robert H. Cowan, 434 Stahlman Building, Nashville 3, Tenn., for applicants.

FEDERAL REGISTER

Telephone WOrth 3-3261

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D.C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Title 3—THE PRESIDENT

Letter of November 16, 1960

[TERMINATION OF SUSPENSION OF CERTAIN IMPORTS FROM POLAND AND AREAS UNDER PROVISIONAL ADMINISTRATION OF POLAND]

THE WHITE HOUSE,
Washington, November 16, 1960.

DEAR MR. SECRETARY:

I refer you to Part I of Proclamation No. 2935 of August 1, 1951 [1] carrying out sections 5 and 11 of the Trade Agreements Extension Act of 1951 [2] and to the first paragraph of the President's letter of January 17, 1953 to the Secretary of the Treasury.[3]

I hereby notify you that the suspension there provided shall cease to be applicable to imports from Poland and areas under the provisional administration of Poland which are entered, or withdrawn from warehouse, for consumption on and after December 16, 1960.

Sincerely,

DWIGHT D. EISENHOWER

THE HONORABLE ROBERT B. ANDERSON,
The Secretary of the Treasury.

Rules and Regulations

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 7988 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Carl W. Herrmann, Inc., et al.

Subpart—Invoicing products falsely: § 13.1108 *Invoicing products falsely:* § 13.1108–45 *Fur Products Labeling Act.* Subpart—Misbranding or mislabeling: § 13.1212 *Formal regulatory and statutory requirements:* § 13.1212–30 *Fur Products Labeling Act.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1845 *Composition:* § 13.1845–30 *Fur Products Labeling Act;* § 13.1852 *Formal regulatory and statutory requirements:* § 13.1852–35 *Fur Products Labeling Act.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U.S.C. 45, 69f) [Cease and desist order, Carl W. Herrmann, Inc., et al., Pittsburgh, Pa., Docket 7988, October 4, 1960]

In the Matter of Carl W. Herrmann, Inc., a Corporation, and Carl W. Herrmann, Jr., and Carl W. Herrmann, III, Individually and as Officers of Said Corporation

Consent order requiring a Pittsburgh furrier to cease violating the Fur Products Labeling Act by failing to set forth the terms "Persian Lamb" and "Dyed Broadtail Processed Lamb" where required on labels and invoices, and by failing to comply in other respects with regulations under the Act.

The order to cease and desist is as follows:

It is ordered, That Carl W. Herrmann, Inc., a corporation, and its officers, and Carl W. Herrmann, Jr. and Carl W. Herrmann, III, individually and as officers of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, manufacture for introduction into commerce, or the sale, advertising or offering for sale in commerce, or the transportation or distribution in commerce of fur products, or in connection with the sale, manufacture for sale, advertising, offering for sale, transportation or distribution of fur products which have been made in whole or in part of fur which has been shipped and received in commerce, as "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

1. Misbranding fur products by:

A. Failing to affix labels to fur products showing in words and figures plainly legible all the information required to be disclosed by each of the subsections of section 4(2) of the Fur Products Labeling Act.

B. Failing to set forth the term "Persian Lamb" where an election is made to use that term instead of Lamb.

C. Failing to set forth the term Dyed Broadtail processed Lamb where an election is made to use that term instead of Dyed Lamb.

D. Setting forth on labels affixed to fur products information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder:

(1) In abbreviated form;

(2) In handwriting.

2. Falsely or deceptively invoicing fur products by:

A. Failing to furnish to purchasers of fur products invoices showing all the information required to be disclosed by each of the subsections of section 5(b)(1) of the Fur Products Labeling Act.

B. Setting forth information required under section 5(b)(1) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in abbreviated form.

C. Failing to set forth the term Persian Lamb where an election is made to use that term instead of Lamb.

D. Failing to set forth the term Dyed Broadtail processed Lamb where an election is made to use that term instead of Dyed Lamb.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: October 4, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[F.R. Doc. 60–11336; Filed, Dec. 6, 1960; 8:46 a.m.]

[Docket 7715 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Ipswich Hosiery Co., Inc.

Subpart—Discriminating in price under sec. 2, Clayton Act—Payment for services or facilities for processing or sale under 2(d): § 13.824 *Advertising expenses.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 2, 49 Stat. 1527; 15 U.S.C. 13) [Cease and desist order, Ipswich Hosiery Company, Inc., Manchester, N.H., Docket 7715, October 12, 1960]

Consent order requiring a distributor of women's hosiery in Manchester, N.H., to cease violating Sec. 2(d) of the Clayton Act by paying certain of its jobber customers for advertising but not their competitors, such as payments of $450, $500, and $900 made in the years 1957, 1958, and 1959 to one Houston, Tex., purchaser.

The order to cease and desist is as follows:

It is ordered, That Ipswich Hosiery Company, Inc., a corporation, its officers, employees, agents or representatives, directly or through any corporate or other device, in or in connection with the sale in commerce, as "commerce" is defined in the Clayton Act, as amended, of hosiery products, do forthwith cease and desist from:

Making or contracting to make, to or for the benefit of J. Weingarten, Inc., or any other customer, any payment of anything of value as compensation or in consideration for advertising or other services or facilities furnished by or through such customer, in connection with the handling, offering for resale, or resale of the respondent's hosiery products, unless such payment is made available on proportionally equal terms to all other customers competing in the distribution or resale of such products.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondent herein shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: October 12, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

Title 41—PUBLIC CONTRACTS

Chapter 3—Department of Health, Education, and Welfare

PART 3–75—DELEGATIONS OF AUTHORITY

Subpart B—Delegatees and Specific Limitations

BUREAU OF MEDICAL SERVICES

Section 3–75.6–1 is revised to read as follows:

§ 3–75.6–1 Bureau of Medical Services.

Pursuant to authority vested in the Chief, Division of Administrative Services, the officials occupying the following positions in the Area Offices of the Division of Indian Health, Bureau of Medical Services, are authorized to negotiate and award contracts for architectural and engineering services for bridges, roads, sidewalks, sewers, mains, or other similar items, regardless of construction costs, and for any public building or public improvement when the construction cost is estimated to be less than $200,000; and to advertise and award contracts for construction of Indian health sanitation facilities pursuant to Public Law 86–121; and to advertise and award contracts for construction of Indian health facilities (other than contracts for construction of Indian health sanitation facilities pursuant to Public Law 86–121) when the construction cost is less than $200,000:

Medical Officer in Charge.
Deputy and/or Assistant Medical Officer in Charge.
Executive or Administrative Officer.
General Services Officer.

(41 CFR 3–75.6(d))

PAUL A. CAULK,
Executive Officer,
Public Health Service.

Title 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

PART 730—RICE

Subpart—1961–62 Marketing Year

STATE AND COUNTY RESERVE ACREAGES AND COUNTY ACREAGE ALLOTMENTS FOR 1961 CROP

Sec.
730.1205 Basis and purpose.
730.1206 State reserve acreages.
730.1207 County acreage allotments and county reserve acreages.

AUTHORITY: §§ 730.1205 to 730.1207 issued under secs. 301, 353, 375, 52 Stat. 38, 61, as amended, 66; 7 U.S.C. 1301, 1353, 1375.

§ 730.1205 Basis and purpose.

(a) The State and county reserve acreages and county acreage allotments for 1961 crop rice contained in §§ 730.1206 and 730.1207 have been determined pursuant to and in conformity with the provisions of section 353 of the Agricultural Adjustment Act of 1938, as amended. Said sections are issued to announce: (1) State reserve acreage for new farms or new producers in each of the applicable rice-producing States; (2) State reserve acreages for appeals and corrections, missed farms, and adjustments in factored allotments in the producer States of Arizona, California, Florida, North Carolina, Tennessee, Texas, and the "producer administrative area" in Louisiana; and (3) county acreage allotments and county reserve acreages for appeals and corrections, missed farms; and adjustments in factored allotments in the farm States of Arkansas, Illinois, Mississippi, Missouri, Oklahoma, South Carolina, and the "farm administrative area" in Louisiana. Since farm acreage allotments for 1961 crop rice in the producer States, including the "producer administrative area" of Louisiana, will be established pursuant to the act primarily on the basis of past production of rice by the producer on the farm in lieu of past production of rice on the farm, the 1961 State acreage allotments of rice for those States will be apportioned directly to farms, and county acreage allotments and county reserve acreages for appeals and corrections, missed farms, and adjustments in factored allotments will not be determined for such States.

(b) The determinations made in §§ 730.1206 and 730.1207 have been made on the basis of the latest available statistics of the Federal Government. The determinations made in §§ 730.1206 and 730.1207 indicate the amount of State reserve acreages for new farms or new producers in each of the applicable rice-producing States, the amount of State reserve acreages for appeals and corrections, missed farms, and adjustments in factored allotments in the "producer States"; and the amount of county acreage allotments and county reserve acreages for appeals and corrections, missed farms, and adjustments in factored allotments in the "farm States".

(c) The State and county reserve acreages in §§ 730.1206 and 730.1207 were established on the basis of the needs therefor as recommended by the State and county committees.

(d) The county acreage allotments in § 730.1207 were established by apportioning the State acreage allotment, minus the State acreage reserve for new farms, among the counties in the State in the same proportion that they shared in the total acreage allotted in 1956, as provided by section 353(c)(1) and section 353(c)(6) of the Agricultural Adjustment Act of 1938, as amended. No adjustments in county acreage allotments were made under the proviso in section 353(c)(1) of the act.

(e) Prior to the determination of State and county reserve acreages and county acreage allotments for 1961 crop rice, public notice (25 F.R. 9059) was given in accordance with the Administrative Procedure Act (5 U.S.C. 1003). No data, views, or recommendations pertaining to the determination of the State and county reserve acreages and county acreage allotments for 1961 crop rice were submitted pursuant to such notice.

(f) The determinations made in § 730.1207 were on the basis of the latest available statistics of the Federal Government as required by section 301(c) of the Agricultural Adjustment Act of 1938, as amended.

(g) Pursuant to the Agricultural Adjustment Act of 1938, as amended, marketing quotas on the 1961 crop of rice have been proclaimed (25 F.R. 11062) and the date for the referendum to be held to determine whether farmers are in favor of or opposed to such quotas has been set for December 13, 1960 (25 F.R. 11086). The act requires that, insofar as practicable, notices of farm acreage allotments, which are based on State and county allotments and reserves, be mailed to producers in time to be received prior to the referendum. Since the referendum will be held on December 13, 1960, it is necessary to waive the 30-day effective date provision of the Administrative Procedure Act as applied to the determinations herein. Accordingly, this document shall become effective upon publication in the FEDERAL REGISTER.

§ 730.1206 State reserve acreages.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Orange Reg. 361]

PART 933—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

§ 933.1039 Orange Regulation 381.

(a) *Findings.* (1) Pursuant to the marketing agreement as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, except Temple oranges, grown in the production area, are presently subject to regulation by grades and sizes, and Temple oranges are subject to grade regulation, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on November 29, 1960; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; information concerning such provisions has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth; and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, diameter, standard pack, and standard box, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140–51.1178 of this title; 25 F.R. 8211).

(2) During the period beginning at 12:01 a.m., e.s.t., December 7, 1960, and ending at 12:01 a.m., e.s.t., January 2, 1961, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any Temple oranges, grown in the production area, which are of a size smaller than 2⅜₆ inches in diameter, except that a tolerance of 10 percent, by count, of Temple oranges smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in the aforesaid United States Standards for Florida Oranges and Tangelos.

(3) Shipments of Temple oranges, grown in the production area, are, until 12:01 a.m., e.s.t., January 2, 1961, subject to the grade limitations specified in Orange Regulation 380 (§ 933.1035).

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 5, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and to the applicable provisions of the orders, as amended, regulating the handling of milk in the aforesaid milk marketing areas (7 CFR Part 900), hereinafter referred to as the "orders", it is hereby found and determined as follows:

(1) Inasmuch as the daily wholesale selling prices for Grade AA (93-score) and Grade A (92-score) butter on the Chicago market, as reported by the Dairy and Poultry Market News Service, Agricultural Marketing Service, United States Department of Agriculture, and employed in the orders as factors in the formulas for computing the class prices and butterfat differentials, are not available on a number of days during the month of November 1960, and the averages of the limited number of daily prices reported are not representative of such prices for the month of November 1960, it is hereby determined that the equivalent price for Grade AA (93-score) butter at Chicago for November 1960 shall be 61.74 cents and the equivalent price for Grade A (92-score) butter at Chicago shall be 61.47 cents for November 1960.

(2) Notice of proposed rule making, public procedure thereon and 30 days prior notice to the effective date hereof are impractical, unnecessary and contrary to the public interest, in that (a) the daily wholesale selling prices for Grade AA (93-score) and Grade A (92-score) butter on the Chicago market have not been reported by the Dairy and Poultry Market News Service, Agricultural Marketing Service, United States Department of Agriculture, on a number of days during the month of November 1960, and the averages of the limited number of daily prices reported are not representative of such prices for the month of November 1960; (b) the determination of an equivalent price immediately is necessary to make possible the announcement of the minimum class prices and butterfat differentials under the orders in valuing producer milk received by handlers during the months of November 1960 and December 1960; (c) an essential purpose of this determination is to give all interested persons notice that the averages of Grade AA (93-score) and Grade A (92-score) butter prices reported by the Dairy and Poultry Market News Service for November 1960 are not being used for the purpose of the price computations required in connection with the computation of class prices and butterfat differentials under the aforesaid orders; and (d) this determination does not require substantial or extensive preparation of any person.

Issued at Washington, D.C., this 1st day of December 1960.

CLARENCE L. MILLER,
Assistant Secretary.

PART 1031—ORANGES AND GRAPEFRUIT GROWN IN LOWER RIO GRANDE VALLEY IN TEXAS

Container Regulation

On November 9, 1960, notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 10705) that consideration was being given to a proposed container regulation to be effective under the marketing agreement and Order No. 131 (7 CFR Part 1031; 25 F.R. 9093) regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas. This is a regulatory marketing program issued pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

After consideration of all relevant matters presented, including the proposal set forth in the notice, which was submitted by the Texas Valley Citrus Committee (established pursuant to the said marketing agreement and order), it is hereby found that the container regulation, hereinafter set forth, is in accordance with the provisions of the said marketing agreement and order and will tend to effectuate the declared policy of the act.

§ 1031.307 Container regulation.

(a) Except as otherwise provided herein or by, or pursuant to, the provisions of Marketing Agreement No. 141 and this part (25 F.R. 9093) regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas, no handler shall, on and after 12:01 a.m., c.s.t., January 16, 1961, handle any fruit unless such fruit is in a container or containers meeting the following specifications:

(1) Containers with inside dimensions of 24⅝ x 11⅜ x 11⅜ inches.

(2) Containers with inside dimensions of 16¼ x 10¼ x 10¼ inches.

(3) Containers with inside dimensions of 16½ x 10¾ x 9½.

(4) Containers with inside dimensions of 19¾ x 13 x 13½ inches.

(5) Containers with inside dimensions of 19¾ x 13 x 12½ inches.

(6) Containers with inside dimensions of 19¾ x 13½ x 13½ inches.

(7) Containers with inside dimensions of 19¾ x 13 x 12¼ inches.

(8) Containers with inside dimensions of 22 x 14 x 16½ inches: *Provided,* That such containers may be used only for the shipment of 8-pound bags of grapefruit, and each such container shall contain 8 such bags of grapefruit.

(9) Bags having a capacity of 5, 8, or 20 pounds of fruit, respectively.

(10) Such other types and sizes of containers as may be approved by the Texas Valley Citrus Committee for testing in connection with a research project conducted by or in cooperation with the said committee: *Provided,* That the handling of each lot of fruit in such test containers shall be subject to prior approval, and under the supervision, of the Texas Valley Citrus Committee.

(b) The provisions of this section shall not apply to the handling of any gift packages of fruit.

(c) The terms used in the said marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order.

Dated: December 1, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 60-11345; Filed, Dec. 6, 1960; 8:48 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 590; Amdt. 1]

PART 506—AIRWORTHINESS DIRECTIVES RECORDATION

Cancellation of Part

The recordation requirements of Part 506 are no longer considered necessary. When an aircraft is sold, the extent of compliance with a published airworthiness directive is a part of the record accompanying the aircraft. Where there has, as yet, been no compliance at the time of sale, the published airworthiness directive exists as notice to the new owner. Therefore, it is not necessary to require separate recordation of the extent of compliance and non-compliance with all outstanding airworthiness directives applicable to an aircraft or to major components thereof. Part 506 no longer being necessary is hereby rescinded.

This amendment shall become effective upon publication in the FEDERAL REGISTER.

(Sec. 313, 72 Stat. 752, 49 U.S.C. 1354. Interpret or apply sec. 503, 72 Stat. 772, as amended, 49 U.S.C. 1403)

Issued in Washington, D.C., on November 29, 1960.

OSCAR BAKKE,
Director,
Bureau of Flight Standards.

[F.R. Doc. 60-11326; Filed, Dec. 6, 1960; 8:45 a.m.]

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Tolerances for Residues of Sodium 2,2-Dichloropropionate

A petition was filed with the Food and Drug Administration by Dow Chemical Company, Midland, Michigan, requesting the establishment of tolerances for residues of sodium 2,2-dichloropropionate, as 2,2-dichloropropionic acid, in or on peas (shelled or unshelled) and peavines (with or without pods) at 15 parts per million.

The data before the Commissioner show that the feeding to livestock of peas and fresh or ensiled peavines containing this pesticide chemical at levels not greater than the proposed tolerance of 15 parts per million will not result in residues in meat and milk. There is no basis for fixing a tolerance for the pesticide in milk or meat at a level higher than zero.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which tolerances are being established.

After consideration of the data submitted in the petition and other relevant material which show that the tolerances established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)) and delegated to the Commisioner of Food and Drugs by the Secretary (25 F.R. 8625), § 120.150 of the regulations for tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR 120.150) is amended by adding thereto tolerances for peas, peavines, and meat and milk. As amended, this section reads as follows:

§ 120.150 Tolerances for residues of sodium 2,2-dichloropropionate.

Tolerances for residues of sodium 2,2-dichloropropionate, as 2,2-dichloropropionic acid, in or on raw agricultural commodities, are established as follows:

75 parts per million in or on flaxseed.
35 parts per million in or on cottonseed.
30 parts per million in or on asparagus.
15 parts per million in or on peaches, peas (shelled or unshelled), peavines (with or without pods).
10 parts per million in or on potatoes.
5 parts per million in or on cranberries, sugar beets (roots), sugar beets (tops).
3 parts per million in or on apples, grapes, pears, pineapples.
1 part per million in or on apricots, plums.
Zero part per million in meat and milk.

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: November 29, 1960.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

[F.R. Doc. 60-11342; Filed, Dec. 6, 1960; 8:47 a.m.]

SUBCHAPTER C—DRUGS

PART 146—GENERAL REGULATIONS FOR THE CERTIFICATION OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

Labeling of Antibiotics for Use in Milk-Producing Animals; Extension of Effective Date of Order

On August 31, 1960, there was published in the FEDERAL REGISTER (25 F.R. 8321) an order prescribing certain labeling requirements for antibiotic drugs intended for use in milk-producing animals. On October 20, 1960, the Commissioner published an order (25 F.R. 10014) confirming the effective date of the regulation as originally proposed, i.e., December 1, 1960. The Commissioner has been requested to extend the effective date of this order. Good and sufficient reasons therefor appearing, the effective date is hereby extended to February 1, 1961.

(Sec. 507(f), 59 Stat. 463, as amended; 21 U.S.C. 357(f))

Dated: November 30, 1960.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

[F.R. Doc. 60-11341; Filed, Dec. 6, 1960; 8:47 a.m.]

Title 49—TRANSPORTATION

[Ex Parte No. 174]

Chapter I—Interstate Commerce Commission

PART 91—LOCOMOTIVE INSPECTION

Rules and Instructions for Inspection and Testing of Locomotives Other Than Steam; Modification of Effective Dates

Correction

In F.R. Doc. 11052, appearing at page 12182 of the issue for Tuesday, Nov. 29, 1960, the words "Commissioner Hutchinson." should follow the closing phrase which reads "By the Commission,".

PART 122—MONTHLY AND QUARTERLY OPERATING REPORTS

Subpart A—Railroads

QUARTERLY OPERATING STATISTICS

At a session of the Interstate Commerce Commission, division 2, held at its office in Washington, D.C., on the 22d day of August A.D. 1960.

On May 16, 1960, the Commission, Division 2, issued its notice of rule making, advising that it had under consideration the revision of 49 CFR 122.3 so as to require that all Class I railroads, including switching and terminal companies, be required to file quarterly reports in lieu of monthly reports on forms to be designated OS-A, OS-B, OS-C, OS-D, OS-E and OS-F, except that switching and terminal companies would not be required to file reports on Forms OS-A, OS-B and OS-D, as set forth therein. The notice stated that any party desiring to make representations in favor of or against the proposed changes might submit written views or data to the Commission within 45 days of publication thereof in the FEDERAL REGISTER; it was served on all Class I railroads, including switching and terminal companies; and it was published in the FEDERAL REGISTER on May 26, 1960, 25 F.R. 4654. Representations in favor of the proposed revisions were received from the Association of American Railroads, and representations in opposition thereto were received from The Railway Labor Executives' Association.

Upon further consideration of the matters and things set forth in the Commission's notice of rule-making, as described above, and on consideration of representations for and against the proposed revisions, as submitted in response to such notice:

It is ordered, That, with respect to reports for the three months beginning with January 1, 1961, and thereafter until further order, the ordering paragraph of the order of October 25, 1956, in the matter of Monthly Operating Reports-Railroads, be, and it is hereby, modified and amended to read as shown below.

It is further ordered, That 49 CFR 122.3, be, and it is hereby, modified to read as follows:

§ 122.3 Operating statistics.

Commencing with reports for the three months beginning January 1, 1961, and thereafter until further order, all Class I railroads, including Class I switching and terminal companies, subject to the provisions of Part I of the Interstate Commerce Act, be, and they are hereby required to file quarterly reports of operating statistics in accordance with forms of reports, and notes of instructions thereon, designated as follows:

Form OS-A—Freight Train Performance
Form OS-B—Passenger Train Performance
Form OS-C—Yard Service Performance
Form OS-D—Revenue Traffic
Form OS-E—Fuel and Power Statistics
Form OS-F—Motive Power and Car Equipment,

which forms are attached hereto and made a part of this section[1]; *Provided however,* that Class I switching and terminal companies are not required to submit reports on forms designated Forms OS-A, OS-B, and OS-D. Such quarterly reports shall be filed in duplicate in the Bureau of Transport Economics and Statistics, Interstate Commerce Commission, Washington 25, D.C., on or before the dates indicated in the notice on each form.

(Sec. 12, 24 Stat. 383, as amended; 49 U.S.C. 12. Interpret or apply sec. 20, 24 Stat. 386, as amended; 49 U.S.C. 20)

It is further ordered, That the heading of 49 CFR Part 122 be changed so as to read "Monthly and Quarterly Operating Reports".

And it is further ordered, That copies of this order and of Forms OS-A to OS-F, inclusive, shall be served on all Class I railroads, including switching and terminal companies, subject to the provisions of Part I of the Interstate Commerce Act, and upon every receiver, trustee, executor, administrator or assignee of any such railroad, and that notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission, Division 2.

[SEAL] HAROLD D. MCCOY,
Secretary.

Title 50—WILDLIFE

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 33—SPORT FISHING

Valentine National Wildlife Refuge, Nebraska

The following special regulation is issued.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

NEBRASKA

VALENTINE NATIONAL WILDLIFE REFUGE

Sport fishing on the Valentine National Wildlife Refuge, Nebraska is permissible only under the following conditions:

(a) Species permitted to be taken: As prescribed by State regulations.

(b) Open season: Daylight hours during the period December 15, 1960, through March 15, 1961.

(c) Daily creel limits: As prescribed by State regulations.

(d) Methods of fishing:

(1) Tackle—as prescribed by State regulations.

(2) Bait—the use of minnows, fish, or parts thereof, either alive or dead, is prohibited.

(3) Nets and seines—the use of nets or seines for capturing minnows or fish is prohibited.

(e) Description of areas open to fishing: Fishing is permitted in accordance with the above on the posted area which comprises approximately 3,900 acres and five percent of the total refuge and which includes the waters of the following lakes: Clear, Dewey, Duck, Hackberry, Pelican, Pony, Rice, Watts, West Long, and Willow Lakes.

(f) Other provisions:

(1) The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33.

(2) A Federal permit is not required to enter the public fishing area.

(3) The provisions of this special regulation are effective December 15, 1960, through March 15, 1961.

W. A. ELKINS,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

NOVEMBER 29, 1960.

[F.R. Doc. 60-11337; Filed, Dec. 6, 1960; 8:46 a.m.]

PART 33—SPORT FISHING

Des Lacs National Wildlife Refuge, North Dakota

The following special regulation is issued.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

NORTH DAKOTA

DES LACS NATIONAL WILDLIFE REFUGE

Sport fishing on the Des Lacs National Wildlife Refuge, North Dakota is suspended until further notice because no harvestable fish populations exist at the present time.

W. A. ELKINS,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

NOVEMBER 29, 1960.

[F.R. Doc. 60-11338; Filed, Dec. 6, 1960; 8:46 a.m.]

PART 33—SPORT FISHING

Lacreek National Wildlife Refuge, South Dakota

The following special regulation is issued.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

SOUTH DAKOTA

LACREEK NATIONAL WILDLIFE REFUGE

Sport fishing on the Lacreek National Wildlife Refuge, South Dakota is permissible only under the following conditions:

(a) Species permitted to be taken: As prescribed by State regulations.

(b) Open season: Daylight hours during the period December 15, 1960, through February 28, 1961.

(c) Daily creel limits: As prescribed by State regulations.

(d) Methods of fishing: As prescribed by State regulations.

(e) Description of areas open to fishing: Fishing is permitted in accordance with the above on the posted area which comprises approximately 1,040 acres and 11 percent of the total refuge and which is described as follows:

The waters of Little White River Recreational Area in the W½ Section 23; and those waters of Pool 10 in Sections 25 and 26, the N½ Section 35 and N½ Section 36; all in Township 37 N., R. 36 W.

(f) Other provisions:

(1) The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33.

(2) A Federal permit is not required to enter the public fishing area.

(3) The provisions of this special regulation are effective December 15, 1960, through February 28, 1961.

W. A. ELKINS,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

NOVEMBER 29, 1960.

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1954) Part 1]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Corporate Distributions and Adjustments

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D.C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner within the 30-day period. In such a case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] CHARLES I. FOX,
Acting Commissioner of Internal Revenue.

In order to conform the Income Tax Regulations (26 CFR Part 1) to sections 19, 21, and 22 of the Technical Amendments Act of 1958 (72 Stat. 1615 and 1620), relating to gain or loss on sales or exchanges in connection with certain liquidations, property received in certain corporate organizations and reorganizations, and certain acquisitions of stock, respectively, and to make certain corrections, such regulations are amended as follows:

PARAGRAPH 1. Section 1.304–1 is amended to read as follows:

§ 1.304–1 General.

(a) Except as provided in paragraph (b) of this section, section 304 is applicable where a shareholder sells stock of one corporation to a related corporation as defined in section 304. Sales to which section 304 is applicable shall be treated as redemptions subject to sections 302 and 303.

(b) In the case of—

(1) Any acquisition of stock described in section 304 which occurred before June 22, 1954, and

(2) Any acquisition of stock described in section 304 which occurred on or after June 22, 1954, and on or before December 31, 1958, pursuant to a contract entered into before June 22, 1954,

the extent to which the property received in return for such acquisition shall be treated as a dividend shall be determined as if the Internal Revenue Code of 1939 continued to apply in respect of such acquisition and as if the Internal Revenue Code of 1954 had not been enacted. See section 391. In cases to which this paragraph applies, the basis of the stock received by the acquiring corporation shall be determined as if the Internal Revenue Code of 1939 continued to apply in respect of such acquisition and as if the Internal Revenue Code of 1954 had not been enacted.

PAR. 2. Section 1.304–2 is amended by revising paragraph (a) and examples (1), (2), and (3) of paragraph (c). These amended provisions read as follows:

§ 1.304–2 Acquisition by related corporation (other than subsidiary).

(a) If a corporation, in return for property, acquires stock of another corporation from one or more persons and the person or persons from whom the stock was acquired were in control of both such corporations before the acquisition, then such property shall be treated as received in redemption of stock of the acquiring corporation. The stock received by the acquiring corporation shall be treated as a contribution to the capital of such corporation. See section 362(a) for determination of the basis of such stock. The transferor's basis for his stock in the acquiring corporation shall be increased by the basis of stock surrendered by him. (But see below in this paragraph for subsequent reductions of basis in certain cases.) As to each person transferring stock, the amount received shall be treated as a distribution of property under section 302(d), unless as to such person such amount is to be treated as received in exchange for the stock under the terms of section 302(a) or section 303. In applying section 302(b), reference shall be had to the shareholder's ownership of stock in the issuing corporation and not to his ownership of stock in the acquiring corporation (except for purposes of applying section 318(a)). In determining control and applying section 302(b), section 318(a) (relating to the constructive ownership of stock) shall be applied without regard to the 50-percent limitation in section 318(a)(2)(C). A series of redemptions referred to in section 302(b)(2)(D) shall include acquisitions by either of the corporations of stock of the other and stock redemptions by both corporations. If section 302(d) applies to the surrender of stock by a shareholder, his basis for his stock in the acquiring corporation after the transaction (increased as stated above in this paragraph) shall not be decreased except as provided in section 301. If section 302(d) does not apply, the property received shall be treated as received in a distribution in payment in exchange for stock of the acquiring corporation under section 302(a), which stock has a basis equal to the amount by which the shareholder's basis for his stock in the acquiring corporation was increased on account of the contribution to capital as provided for above in this paragraph. Accordingly, such amount shall be applied in reduction of the shareholder's basis for his stock in the acquiring corporation. Thus, the basis of each share of the shareholder's stock in the acquiring corporation will be the same as the basis of such share before the entire transaction. The holding period of the stock which is considered to have been redeemed shall be the same as the holding period of the stock actually surrendered.

* * * * *

(c) The application of section 304(a)(1) may be illustrated by the following examples:

Example (1). Corporation X and corporation Y each have outstanding 100 shares of common stock. One-half of the stock of each corporation is owned by an individual, A, and one-half by another individual, B, who is unrelated to A. A sells 40 shares of corporation X stock to corporation Y for $50,000, such stock having an adjusted basis of $10,000 to A. After the sale, A is considered as owning corporation X stock as follows:

(i) 10 shares directly, and

(ii) 45 shares constructively since by virtue of his 50-percent ownership of Y, he constructively owns 50 percent of the 40 shares owned directly by corporation Y, and 50 percent of the 50 shares attributed to corporation Y because they are owned by Y's stockholder, B.

Since after the sale A owns a total of more than 50 percent of the voting power of all the outstanding stock of corporation X, the transfer is not "substantially disproportionate" as to him as provided in section 302(b)(2). Under these facts, and assuming that section 302(b)(1) is not applicable, the entire $50,000 is treated as a dividend to A to the extent of the earnings and profits of corporation Y. The basis of the corporation X stock to corporation Y is $10,000, its adjusted basis to A. The amount of $10,000 is added to the basis of the stock of corporation Y in the hands of A.

Example (2). Corporation X and corporation Y each have outstanding 100 shares of common stock. A, an individual, owns one-half the stock of each corporation, B owns one-half the stock of corporation X, and C owns one-half the stock of corporation Y. A, B, and C are unrelated. A sells 30 shares

of the stock of corporation X to corporation Y for $50,000, such stock having an adjusted basis of $10,000 to him. After the sale, A is considered as owning 35 shares of the stock of corporation X (20 shares directly and 15 constructively because one-half of the 30 shares owned by corporation Y are attributed to him). Since before the sale, he owned 50 percent of the stock of corporation X and after the sale he owned directly and constructively only 35 percent of such stock, the redemption is substantially disproportionate as to him pursuant to the provisions of section 302(b)(2). He, therefore, realizes a gain of $40,000 ($50,000 minus $10,000). If the stock surrendered is a capital asset, such gain is long-term or short-term capital gain depending on the period of time that such stock was held. The basis to A for the stock of corporation Y is not changed as a result of the entire transaction. The basis to corporation Y for the stock of corporation X is $50,000, i.e., the basis of the transferor ($10,000), increased in the amount of gain recognized to the transferor ($40,000) on the transfer.

Example (3). Corporation X and corporation Y each have outstanding 100 shares of common stock. H, and individual, W, his wife, S, his son, and G, his grandson, each own 25 shares of stock of each corporation. H sells all of his 25 shares of stock of corporation X to corporation Y. Since both before and after the transaction H owned directly and constructively 100 percent of the stock of corporation X, and assuming that section 302(b)(1) is not applicable, the amount received by him for his stock of corporation X is treated as a dividend to him to the extent of the earnings and profits of corporation Y.

PAR. 3. Section 1.337 is amended by adding after section 337(c) a new subsection (d) and a historical note, as follows:

§ 1.337 Statutory provisions; gain or loss on sales or exchanges in connection with certain liquidations.

SEC. 337. *Gain or loss on sales or exchanges in connection with certain liquidations.* * * *

(d) *Special rule for certain minority shareholders.* If a corporation adopts a plan of complete liquidation on or after January 1, 1958, and if subsection (a) does not apply to sales or exchanges of property by such corporation, solely by reason of the application of subsection (c)(2)(A), then for the first taxable year of any shareholder (other than a corporation which meets the 80 percent stock ownership requirement specified in section 332(b)(1)) in which he receives a distribution in complete liquidation—

(1) The amount realized by such shareholder on the distribution shall be increased by his proportionate share of the amount by which the tax imposed by this subtitle on such corporation would have been reduced if subsection (c)(2)(A) had not been applicable, and

(2) For purposes of this title, such shareholder shall be deemed to have paid, on the last day prescribed by law for the payment of the tax imposed by this subtitle on such shareholder for such taxable year, an amount of tax equal to the amount of the increase described in paragraph (1).

[Sec. 337 as amended by sec. 19, Technical Amendments Act 1958 (72 Stat. 1615)]

PAR. 4. Section 1.337–5 is deleted and the following new sections are inserted in lieu thereof:

§ 1.337–5 Special rule for certain minority shareholders.

(a) *General.* If, with respect to a plan of complete liquidation adopted on or after January 1, 1958, the liquidating corporation fails to qualify for the treatment prescribed by section 337(a) solely by reason of the application of section 337(c)(2)(A), then, for the first taxable year of any shareholder (other than a corporation which meets the 80-percent stock ownership requirement specified in section 332(b)(1)) in which he receives a distribution in complete liquidation, the treatment prescribed by section 337(d) and this section shall be applicable to such shareholder. Since section 337(d) applies only with respect to distributions in complete liquidation under section 331, it does not apply with respect to a distribution which is treated as part of an exchange to which section 354 or 356 applies.

(b) *Treatment of minority shareholders.* (1) In cases to which section 337(d) and paragraph (a) of this section apply—

(i) The amount realized by the shareholder on the distribution shall be increased by his proportionate share of the amount by which the tax imposed by subtitle A of the Code (income taxes) on the liquidating corporation would have been reduced if section 337(c)(2)(A) had not been applicable (see paragraph (c) of this section for determination of the proportionate share of each shareholder), and

(ii) For purposes of the Code, the shareholder shall be deemed to have paid on the last day prescribed by section 6151 for the payment of the tax (the last day prescribed by section 6072 for the filing of his income tax return) for the taxable year in which he receives the first distribution in complete liquidation (whether the return is filed before, on, or after such last day), an amount of income tax equal to the amount of the increase described in subdivision (i) of this subparagraph.

(2) If a minority shareholder who receives a distribution to which section 337(d) and paragraph (a) of this section apply is a partnership, the amount realized by the partnership for the first taxable year in which it receives a distribution in liquidation shall be increased by the amount determined under paragraph (c) of this section, and the amount of tax referred to in subparagraph (1)(ii) of this paragraph shall be deemed paid by the partnership. Credit or refund of the tax deemed paid by the partnership shall be taken into account by the partners in accordance with section 702(a)(8), and the share taken into account by each partner shall be deemed paid by him on the last day prescribed by section 6151 for the payment of the tax for his taxable year in which or with which the partnership taxable year ends. Finally, the partners shall make such adjustments to the bases of their partnership interests as are required by section 705(a) and, for purposes of that section, the amount of tax deemed paid by the partnership shall be treated as a nondeductible partnership expenditure.

(3) If a minority shareholder who receives a distribution to which section 337(d) and paragraph (a) of this section apply is an electing small business corporation (within the meaning of section 1371(b)), then—

(i) The increase in the amount realized on such distribution, as determined under paragraph (c) of this section, shall be deemed received by such corporation on the last day of its taxable year during which such distribution is received;

(ii) On such last day the amount of tax referred to in subparagraph (1)(ii) of this paragraph shall be deemed distributed to those persons who are shareholders of such corporation on such last day, in the same proportion as the undistributed taxable income of such corporation would be included (under section 1373(b)) in the gross income of such persons, and, for purposes of section 301(c)(2) and (3), the distribution shall be considered a distribution which is not a dividend; and

(iii) The amount of tax deemed distributed to each shareholder under subdivision (ii) of this subparagraph shall be deemed paid by each such shareholder on the last day prescribed by section 6151 for the payment of the tax for his taxable year in which or with which the taxable year of such corporation ends.

(c) *Determination of each minority shareholder's increase in amount realized.* (1) Under section 337(d) and paragraph (b) of this section, the amount realized by each minority shareholder of the liquidating corporation shall be increased by his proportionate share of the amount by which the tax imposed by subtitle A of the Code on the liquidating corporation would have been reduced if section 337(c)(2)(A) had not been applicable. Where the corporation has only the one class of stock outstanding, the increase in the amount realized by each minority shareholder shall be determined by multiplying the reduction in the corporation's tax that would be applicable if section 337(c)(2)(A) did not apply by a fraction, the numerator of which is equal to the sum of all liquidating distributions received by such shareholder and the denominator of which is equal to the sum of all liquidating distributions received by all shareholders. Where the corporation has outstanding preferred stock which is limited to a specified amount on liquidation, as well as common stock, if the holders of the preferred stock receive the entire amount to which they are entitled, the fraction described in the preceding sentence shall be applied to determine the increase in the amount realized by the holders of common stock on the liquidation without taking the preferred stock into account. In all other cases, in determining the increase in the amount realized by each minority shareholder, consideration must be given to the extent to which different classes of stock are entitled to participate in the assets of the corporation on liquidation.

(2) If two or more minority shareholders receive distributions in liquidation with respect to the same stock (e.g., if a minority shareholder sells his stock after receiving one of a series of distributions in complete liquidation), the increase in the amount realized by the minority shareholder who surrenders the stock in liquidation shall be determined as though he received all the distributions in liquidation with respect to such

stock and shall then be divided between himself and the shareholder who has already received distributions in liquidation with respect to the same stock. This division must be in proportion to the amount each minority shareholder received in liquidation with respect to such stock.

(d) *Claim for credit or refund.* Claim for credit or refund of the tax deemed to have been paid by a shareholder pursuant to section 337(d) and paragraph (b) of this section shall be made on the shareholder's income tax return (or in an amended return or claim for credit or refund) for the taxable year in which he receives the first distribution in complete liquidation. In the case of a shareholder which is a partnership, claim shall be made by the partners for credit or refund of their distributive shares of the tax deemed to have been paid by the partnership. In the case of a shareholder which is an electing small business corporation (within the meaning of section 1371(b)), claim shall be made by those persons who are shareholders of such corporation on the last day of the corporation's taxable year in which it received the first distribution in complete liquidation. In the case of a shareholder who is a nonresident alien individual or a nonresident foreign corporation, see section 6012 and the regulations thereunder. In the case of a shareholder which is exempt from tax under section 501(a) and to which section 511 does not apply for the taxable year, claim for refund of the tax deemed to have been paid by such shareholder shall be made on Form 843. For other rules applicable to the filing of claims for credit or refund of an overpayment of tax, see section 6402 and the regulations thereunder. For the limitations applicable to the credit or refund of an overpayment of tax, see section 6511 and the regulations thereunder.

(e) *Illustrations.* The application of this section may be illustrated by the following examples:

Example (1). (i) Assume that corporation S, having only common stock outstanding, is owned 90 percent by corporation P (which has owned the S stock for 3 years) and 10 percent by individual A (a calendar year taxpayer), and that the sole assets of corporation S are two buildings, each having a fair market value of $100,000 and a basis to the corporation of $50,000. Assume further that A's basis for his stock is $10,000. On August 1, 1958, corporation S adopts a plan of complete liquidation. On September 1, 1958, corporation S sells building No. 1 for $100,000 and, during October 1958, the corporation makes a pro rata distribution of building No. 2 and the proceeds of the sale of building No. 1 (less $12,500 retained to pay the tax on such sale at the rate of 25 percent).

(ii) Under section 337(d) and this section, the amount realized by A on the distribution is increased by $1,250, A's proportionate share (10 percent) of the amount by which the tax imposed on corporation S upon such sale would have been reduced ($12,500) if section 337(a) had been applicable. Thus, the tax imposed on A with respect to the complete liquidation is computed as follows: The amount realized by A is $18,750 ($10,000 for A's one-tenth interest in building No. 2, plus $8,750 representing A's proportionate share of the $100,000 received by corporation S on the sale of building No. 1 less the tax imposed on corporation S upon such sale) plus $1,250 (the increase in the amount realized), or $20,000. Since A's basis for his stock is $10,000, the tax imposed on A with respect to the complete liquidation (assuming A's gain is taxed at a rate of 25 percent) is $2,500. Under section 337(d) and this section, A shall be deemed to have paid $1,250 in tax. Accordingly, A will be left with $17,500 in property and money ($18,750 minus $1,250).

Example (2). (i) Assume all the facts set forth in example (1) and the following additional facts: Corporation S has outstanding 1,000 shares of $100 par value preferred stock, the holders of which are entitled to receive full par value on liquidation, after which the common shareholders receive the balance of the assets. Individual A owns 10 percent of the preferred stock, with a basis to him of $10,000, as well as 10 percent of the common stock. Corporation S has, in addition to its two buildings, $100,000 in cash which it distributes in full payment in exchange for the outstanding preferred stock.

(ii) Individual A receives $10,000 in exchange for his preferred stock and recognizes no gain or loss on this portion of the liquidation. Under section 337(d) and this section, A is accorded the same treatment described in example (1) with respect to his common stock as though it were the only stock outstanding. Thus, with respect to his common stock the amount realized by A on the distribution is increased by $1,250, and the tax deemed paid by him is $1,250. Accordingly, after credit, A will be left with $27,500 in property and money ($10,000 on his preferred stock and $17,500 on his common stock).

Example (3). (i) Assume the same facts as in example (1) except that on August 2, 1958, corporation S makes a pro rata distribution of building No. 2 as a first distribution in complete liquidation. Assume further that on August 15, 1958, individual A sells his stock to B, and that on October 1, 1958, building No. 1 is sold and final distribution in liquidation is made of $87,500 ($100,000 sales proceeds less $12,500 retained to pay tax, assuming a 25-percent rate).

(ii) Under section 337(d) and this section, the increase in the amount realized by B shall first be determined as though he had received all the distributions in liquidation with respect to such stock. Then the increase in the amount realized ($1,250) is divided between A and B in proportion to the amount each shareholder received in liquidation with respect to such stock. Thus, A's share of the increase in the amount realized is $666.67 ($1,250×10,000/18,750) and B's share is $583.33 ($1,250×8,750/18,750). A is deemed to have paid tax in the amount of $666.67 and B is deemed to have paid tax in the amount of $583.33.

Example (4). (i) Assume the same facts as in example (1), except that A files his return for 1958 on April 15, 1959, and that corporation S sells building No. 1, and distributes the proceeds of such sale (less tax thereon), in May 1959.

(ii) Since building No. 1 is not sold until after A files his return for 1958, A's 1958 return will report no gain on the liquidation (A's pro rata share of building No. 2 being equal to the basis of his stock). However, under section 337(d) and this section, the amount realized by A on the liquidating distribution received by him in 1958 (the first taxable year in which he received a liquidating distribution) is increased by his entire proportionate share ($1,250) of the amount by which the tax imposed on corporation S upon the sale of building No. 1 would have been reduced if section 337(a) had been applicable. Moreover, A is deemed to have paid, on the last day prescribed by law for the payment of his tax for 1958 (April 15, 1959), an amount of tax equal to such increase. Thus, A will be obliged to file an amended return (or claim for refund) for 1958 to reflect the adjustments required by section 337(d) and this section. The amended return (or claim for refund) will show that in 1958 A realized gain on the liquidation in the amount of $1,250, the excess of the amount realized by A ($10,000 plus $1,250 or $11,250) over his basis ($10,000), and that A incurred a tax of $312.50 on such gain (assuming the gain is taxed at a rate of 25 percent). Moreover, the amended return (or claim) will show that A is deemed to have paid $1,250 in additional tax for 1958. Accordingly, if the excess of the tax deemed paid over the tax incurred, or $937.50, constitutes an overpayment of tax for 1958, such excess will be credited or refunded to A.

(iii) When A receives a further liquidating distribution of $8,750 in 1959 (i.e., his proportionate share of the proceeds of the sale of building No. 1, less tax thereon) he realizes a further gain of $8,750 (since he fully recovered the basis of his stock in 1958) on which, assuming the gain is taxed at a rate of 25 percent, he will incur a tax of $2,187.50. Thus, with respect to the liquidation of corporation S, A will in effect be left with $17,500 in property and money, determined as follows:

Amount actually realized in 1958		$10,000.00
Amount deemed paid as tax for 1958 and recoverable by credit or refund to extent it exceeds A's tax liability for 1958	$1,250.00	
Less: Tax on gain in 1958	312.50	
		937.50
Amount actually realized in 1959	8,750.00	
Less: Tax on gain in 1959	2,187.50	
		6,562.50
Total money and property received or credited		17,500.00

§ 1.337–6 Information to be filed.

(a) *Cases to which section 337(a) applies.* In cases to which section 337(a) applies, there must be attached to the return of the liquidating corporation the following information:

(1) A copy of the minutes of the stockholders' meeting at which the plan of liquidation was formally adopted, including a copy of the plan of liquidation.

(2) A statement of the assets sold after the adoption of the plan of liquidation, including the dates of such sales. If section 337(c)(2)(B), relating to limited nonrecognition of gain on sales by subsidiaries, is applicable, this statement must include a computation of the total gain and of the gain not recognized under section 337.

(3) Information as to the date of the final liquidating distribution.

(4) A statement of the assets, if any, retained to pay liabilities and the nature of the liabilities.

(b) *Cases to which section 337(d) is applicable.* In cases to which section 337(d) applies, a minority shareholder who claims credit or refund of tax deemed to have been paid shall file with the return on which the claim is made (or Form 843) a statement containing the name and address of the liquidating

corporation and the district in which it files its return, together with all information necessary to support the validity of his claim and a detailed computation of the amount of his claim.

PAR. 5. Section 1.358 is amended by revising section 358(a), and adding a historical note at the end of section 358, to read as follows:

§ 1.358 Statutory provisions; basis to distributees.

SEC. 358. *Basis to distributees.*—(a) *General rule.* In the case of an exchange to which section 351, 354, 355, 356, 361, or 371(b) applies—

(1) *Nonrecognition property.* The basis of the property permitted to be received under such section without the recognition of gain or loss shall be the same as that of the property exchanged—

(A) Decreased by—

(i) The fair market value of any other property (except money) received by the taxpayer,

(ii) The amount of any money received by the taxpayer, and

(iii) The amount of loss to the taxpayer which was recognized on such exchange, and

(B) Increased by—

(i) The amount which was treated as a dividend, and

(ii) The amount of gain to the taxpayer which was recognized on such exchange (not including any portion of such gain which was treated as a dividend).

(2) *Other property.* The basis of any other property (except money) received by the taxpayer shall be its fair market value.

* * * * *

[Sec. 358 as amended by sec. 21, Technical Amendments Act 1958 (72 Stat. 1620)]

Par. 6. Paragraph (a) of § 1.358–1 is amended to read as follows:

§ 1.358–1 Basis to distributees.

(a) In the case of an exchange or distribution to which section 354, 355, or 371(b) applies in which, under the law applicable to the year in which the exchange is made, only nonrecognition property is received, the sum of the basis of all of the stock and securities in the corporation whose stock and securities are exchanged or with respect to which the distribution is made, held immediately after the transaction, plus the basis of all stock and securities received in the transaction shall be the same as the basis of all the stock and securities in such corporation held immediately before the transaction allocated in the manner described in § 1.358–2. In the case of an exchange to which section 351 or 361 applies in which, under the law applicable to the year in which the exchange was made, only nonrecognition property is received, the basis of all the stock and securities received in the exchange shall be the same as the basis of all property exchanged therefor. If an exchange or distribution to which section 351, 356, 361, or 371(b) applies both nonrecognition property and "other property" are received, the basis of all the property except "other property" held after the transaction shall be determined as described in the preceding two sentences decreased by the sum of the money and the fair market value of the "other property" (as of the date of the transaction) and increased by the sum of the amount treated as a dividend (if any) and the amount of the gain recognized on the exchange, but the term "gain" as here used does not include any portion of the recognized gain that was treated as a dividend. In any case in which a taxpayer transfers property with respect to which loss is recognized, such loss shall be reflected in determining the basis of the property received in the exchange. The basis of the "other property" is its fair market value as of the date of the transaction.

PAR. 7. Section 1.391 is amended to read as follows:

§ 1.391 Statutory provisions; effective date of part I, subchapter C, chapter 1 of the Code.

SEC. 391. *Effective date of Part I.* Except as otherwise provided in this subchapter, part I shall take effect on June 22, 1954. Section 306 shall apply only with respect to dispositions (or redemptions) occurring on or after June 22, 1954. In the case of—

(1) Any acquisition of stock described in section 304 which occurred before June 22, 1954, and

(2) Any acquisition of stock described in such section which occurred on or after June 22, 1954, and on or before December 31, 1958, pursuant to a contract entered into before June 22, 1954;

the extent to which the property received in return for such acquisition shall be treated as a dividend shall be determined as if the Internal Revenue Code of 1939 continued to apply in respect of such acquisition and as if this Code had not been enacted.

[Sec. 391 as amended by sec. 22, Technical Amendments Act 1958 (72 Stat. 1620)]

PAR. 8. Section 1.391–1 is amended to read as follows:

§ 1.391–1 Effective date of part I of subchapter C.

Pursuant to section 395 and regulations thereunder, the provisions of part I, subchapter C, chapter 1 of the Code, shall be effective with respect to the described transactions which occur on or after June 22, 1954, and with respect to section 306 (relating to the disposition or redemption of "section 306 stock"), such section shall apply only to stock which is received in a transaction subject to the Internal Revenue Code of 1954, and which is disposed of or redeemed after June 22, 1954. Generally, stock issued after June 22, 1954, will be section 306 stock if such stock comes within the definition set forth in section 306(c). However, stock which otherwise qualifies within the definition set forth in section 306 is not section 306 stock if it is issued pursuant to a reorganization which by reason of the application of section 393(b) and section 395 is governed by the provisions of the Internal Revenue Code of 1939 without amendment by the Internal Revenue Code of 1954. In addition, stock which otherwise qualifies within the definition set forth in section 306(c) is not section 306 stock if it is issued pursuant to a reorganization which by reason of an election under section 393(b)(2) is governed by the provisions of the Internal Revenue Code of 1939 without amendment by the Internal Revenue Code of 1954. For rules applicable in the case of certain acquisitions of stock described in section 304, see paragraph (b) of § 1.304–1.

PAR. 9. Paragraph (b)(1)(iv) of § 1.6012–1 is amended to read as follows:

§ 1.6012–1 Individuals required to make returns of income.

* * * * * *

(b) *Returns of nonresident alien individuals.*—(1) *Individuals in class 1 (no United States business and gross income of not more than $15,400).* * * *

(iv) *Claim for refund.* Notwithstanding the provisions of subdivisions (i) and (ii) of this subparagraph, a nonresident alien individual within class 1 shall include on Form 1040NB his entire income described in paragraph (b) of § 1.871–7, whether or not the tax has been fully satisfied at the source upon a portion thereof, if a claim for the refund of an overpayment of tax is made in accordance with section 6402 and the regulations thereunder. However, if the overpayment to be refunded consists solely of tax deemed to have been paid under section 337(d)(2), relating to gain or loss on sales or exchanges in connection with certain liquidations, or section 852(b)(3)(D), relating to undistributed capital gains of a regulated investment company, or both, it is not necessary to include the Form 1040NB the entire income described in paragraph (b) of § 1.871–7.

PAR. 10. Paragraph (g)(1)(ii) of § 1.6012–2 is amended to read as follows:

§ 1.6012–2 Corporations required to make returns of income.

* * * * * *

(g) *Returns by foreign corporations.*—(1) *Nonresident foreign corporations.* * * *

(ii) *Claim for refund.* Notwithstanding the provisions of subdivision (i) of this subparagraph, a nonresident foreign corporation shall include on Form 1120NB its entire income described in § 1.881–2, whether or not the tax has been fully satisfied at the source upon a portion thereof, if a claim for refund of an overpayment of tax is made in accordance with section 6402 and the regulations thereunder. However, if the overpayment to be refunded consists solely of tax deemed to have been paid under section 337(d)(2), relating to gain or loss on sales or exchanges in connection with certain liquidations, or section 852(b)(3)(D), relating to undistributed capital gains of a regulated investment company, or both, it is not necessary to include on the Form 1120NB the entire income described in § 1.881–2.

[26 CFR (1954) Part 250]

LIQUORS AND ARTICLES FROM PUERTO RICO

Return System for Payment of Taxes

Notice is hereby given pursuant to the Administrative Procedures Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commis-

sioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D.C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Director within the 30-day period. In such a case, a public hearing will be held and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954.

(68A Stat. 917; 26 U.S.C. 7805)

[SEAL] DANA LATHAM,
Commissioner of Internal Revenue.

In order to (1) establish a return system for the payment of internal revenue taxes in Puerto Rico on liquors and articles of Puerto Rican manufacture which are to be withdrawn from insular bond for shipment to the United States, and (2) conform to administrative organizational changes, the regulations in 26 CFR Part 250, "Liquors and Articles From Puerto Rico and the Virgin Islands," are amended as follows:

A new section, reading as follows, is inserted immediately following § 250.11.

§ 250.11a Delegate.

The term "Secretary, or his delegate," means the Secretary, or any officer or employee of the Secretary duly authorized to perform the function mentioned or described in this part.

§ 250.20 [Deletion]

Section 250.20 is deleted.

A new section, reading as follows, is inserted immediately following § 250.21.

§ 250.21a Officer-in-Charge.

"Officer-in-Charge" shall mean the principal revenue officer in Puerto Rico charged with the duty of collecting internal revenue taxes, in Puerto Rico, under the jurisdiction of the Director of the Office of International Operations, Internal Revenue Service, Treasury Department, Washington, D.C.

Three new sections, reading as follows, are inserted immediately following § 250.26.

§ 250.26a Revenue agent.

"Revenue agent" shall mean any duly authorized Commonwealth Internal Revenue Agent of the Department of the Treasury of Puerto Rico.

§ 250.26b Secretary.

"Secretary" shall mean the Secretary of the Treasury of Puerto Rico.

§ 250.26c Taxpaid.

"Taxpaid", as used in this part with respect to liquors or articles of Puerto Rican manufacture, shall include liquors or articles on which the tax was computed but with respect to which payment was deferred under the provisions of Subpart E of this part.

§ 250.27 [Deletion]

Section 250.27 is deleted.

Section 250.30 is amended to read:

§ 250.30 United States Internal Revenue Service office.

"United States Internal Revenue Service office," as used in this part, shall mean the United States Internal Revenue Service office in Puerto Rico operating under the direction of the Director of the Office of International Operations, Internal Revenue Service, Treasury Department, Washington, D.C.

§ 250.38 [Amendment]

Section 250.38 is amended as follows:

(A) By striking, in the third sentence, the reference to "§ 250.77", and inserting in lieu thereof "§ 250.86".

(B) By striking the statutory citation at the end of the section and inserting in lieu thereof "(72 Stat. 1374; 26 U.S.C. 5301)."

Section 250.42 is amended to read:

§ 250.42 Destruction of stamps.

All stamps must remain on packages until the contents are emptied. When a package of distilled spirits is emptied, the internal revenue stamp thereon must be completely effaced and obliterated.

(68A Stat. 830, 72 Stat. 1358; 26 U.S.C. 6804, 5205)

§ 250.55 [Amendment]

Section 250.55 is amended by striking the word "treasurer" and inserting in lieu thereof the word "Secretary".

Subpart E is amended to read:

Subpart E—Taxpayment in Puerto Rico of Liquors Withdrawn Before Rectification or Bottling

BONDS

Sec.
250.61 General.
250.62 Corporate surety.
250.63 Deposit of securities in lieu of corporate surety.
250.64 Consents of surety.
250.65 Authority to approve bonds and consents of surety.
250.66 Bond, Form 2896—Distilled spirits and rectification.
250.67 Bond, Form 2897—Wine.
250.68 Bond, Form 2898—Beer.
250.69 Strengthening bonds.
250.70 New or superseding bonds.

TERMINATION OF BONDS

250.71 Termination of bonds.
250.72 Application of surety for relief from bond.
250.73 Relief of surety from bond.
250.74 Release of pledged securities.
250.75 Form 1490, Notice of Termination or Release of Bond.

PERMITS REQUIRED

250.76 Insular permits.

DISTILLED SPIRITS

250.77 Subject to tax.
250.78 Application and permit, Form 2899.
250.79 Computation and payment of tax.
250.80 Action by Officer-in-Charge.
250.81 Action by Secretary.
250.82 Release of spirits.
250.83 Bottling of distilled spirits.
250.84 Stamping bottles.
250.85 Rectification tax.

PACKAGES OF DISTILLED SPIRITS

250.86 Authority for shipment.
250.87 Evidence of taxpayment.
250.88 Application for distilled spirits stamps.
250.89 Issuance of distilled spirits stamps.
250.90 Affixing stamps to packages.
250.91 Release of packages.

WINE

250.92 Subject to tax.
250.93 Application and permit, Form 2900.
250.94 Computation and payment of tax.
250.95 Action by Officer-in-Charge and by the Secretary.
250.96 Release of wine.
250.97 Marking containers of wine.

LIQUEURS, CORDIALS, OR SIMILAR COMPOUNDS CONTAINING WINE

250.98 Insular permits required.
250.99 Taxpayment.
250.100 Permit to ship required.

BEER

250.101 Subject to tax.
250.102 Application and permit, Form 2900.
250.103 Computation and payment of tax.
250.104 Action by Officer-in-Charge and by the Secretary.
250.105 Release of beer.
250.106 Marking containers of beer.

ARTICLES

250.107 Taxable status.
250.108 Application for permit, Form 2899 and/or Form 2900.
250.109 Taxpayment.
250.110 Release of liquors.

PAYMENT OF TAX BY RETURN

250.111 General.
250.112 Taxes to be collected by returns for semimonthly periods.
250.113 Returns for prepayment of taxes.

PERMIT TO SHIP LIQUORS AND ARTICLES

250.114 Permit to ship required.
250.115 Application, Form 487B.
250.116 Issuance of permit, Form 487B, and customs inspection.

PROCEDURE AT PORT OF ARRIVAL

250.117 Action by carrier.
250.118 Inspection by collector of customs at port of arrival.
250.119 Disposition of forms by collector of customs.

Subpart E—Taxpayment in Puerto Rico of Liquors Withdrawn Before Rectification or Bottling

BONDS

§ 250.61 General.

Every person filing a bond under this subpart, or a consent of surety on such bond, shall file it with the Officer-in-Charge.

§ 250.62 Corporate surety.

Surety bonds may be given only with corporate sureties holding certificates of authority from, and subject to the limitations prescribed by, the Secretary of the Treasury of the United States, as set forth in United States Treasury Department Circular 570. Powers of attorney and other evidence of appointment of agents and officers to execute bonds or to consent to changes in the terms of bonds on behalf of corporate sureties are required to be filed with, and passed on by, the Commissioner of Accounts, Surety Bonds Branch, United States Treasury Department, Washington 25, D.C.

(61 Stat. 648; 6 U.S.C. 6, 7)

§ 250.63 Deposit of securities in lieu of corporate surety.

In lieu of corporate surety, the principal may pledge and deposit, as surety for his bond, securities which are transferable and are guaranteed as to both interest and principal by the United States, in accordance with the provisions of 31 CFR Part 225.

(61 Stat. 650; 6 U.S.C. 15)

§ 250.64 Consents of surety.

Consents of surety to changes in the terms of bonds shall be executed on Form 1533 by the principal and by the surety with the same formality and proof of authority as is required for the execution of bonds.

§ 250.65 Authority to approve bonds and consents of surety.

The Officer-in-Charge is authorized to approve all bonds and consents of surety filed under this part.

§ 250.66 Bond, Form 2896—Distilled spirits and rectification.

(a) *Withdrawal of distilled spirits from bonded storage in Puerto Rico.* Where the proprietor of a bonded warehouse or a bonded processing room intends to withdraw, for purpose of shipment to the United States, distilled spirits of Puerto Rican manufacture from bonded storage in Puerto Rico on computation, but before payment, of the tax imposed by section 7652(a), I.R.C., equal to the tax imposed in the United States by section 5001(a)(1), I.R.C., he shall, before making any such withdrawal, furnish a bond, Form 2896, to secure payment of such tax, at the time and in the manner prescribed in this subpart, on all distilled spirits so withdrawn. The bond shall be executed in a penal sum not less than the amount of unpaid tax which, at any one time, is chargeable against the bond: *Provided*, That the penal sum of such bond shall not exceed $1,000,000, but in no case shall the penal sum be less than $1,000.

(b) *Rectification in Puerto Rico.* Where the proprietor of a rectifying plant in Puerto Rico intends to ship rectified products to the United States and desires that the tax imposed by section 7652(a), I.R.C., equal to the tax imposed in the United States by section 5021 and/or section 5022, I.R.C., be computed at the time the bottling and casing is completed, but payment thereof be deferred, he shall furnish a bond, Form 2896, to secure payment of such tax, at the time and in the manner prescribed in this subpart, on all rectified spirits and wines so bottled and cased. The bond shall be executed in a penal sum not less than the amount of unpaid tax which, at any one time, is chargeable against the bond: *Provided*, That the penal sum of such bond shall not exceed $100,000, but in no case shall the penal sum be less than $1,000.

(c) *Blanket bond.* Any person who is the proprietor of more than one bonded warehouse, bonded processing room, or rectifying plant in Puerto Rico, may, in lieu of furnishing two or more separate bonds on Form 2896, as required by paragraphs (a) and/or (b) of this section, furnish a blanket bond on Form 2896. The penal sum of such blanket bond shall be equal to the sum of the penal sums of all the bonds in lieu of which it is given. Such blanket bond on Form 2896 shall show each bonded warehouse and/or bonded processing room and/or rectifying plant to be covered by the bond, and the part of the total penal sum (computed in accordance with paragraphs (a) and/or (b) of this section) to be allocated to each of the designated premises. If the penal sum of the bond allocated to a designated premises is in an amount less than the maximum prescribed in paragraphs (a) and/or (b) of this section, transactions at such premises shall not exceed the quantity permissible, as reflected by the penal sum allocated in the bond to such premises. Such blanket bond shall contain the terms and conditions of the bonds in lieu of which it is given and shall be conditioned that the total amount of the bond shall be available for satisfaction of any liability incurred under the terms and conditions of such bond.

(68A Stat. 775, 847, 906, 907; 26 U.S.C. 6301(b), 7101, 7102, 7651(2)(B), 7652(a))

§ 250.67 Bond, Form 2897—Wine.

Where a proprietor intends to withdraw, for purpose of shipment to the United States, wine of Puerto Rican manufacture from bonded storage in Puerto Rico on computation, but before payment, of the tax imposed by section 7652(a), I.R.C., equal to the tax imposed in the United States by section 5041, I.R.C., he shall, before making any such withdrawal, furnish a bond, Form 2897, to secure payment of such tax, at the time and in the manner prescribed in this subpart, on all wine so withdrawn. The bond shall be executed in a penal sum not less than the amount of unpaid tax which, at any one time, is chargeable against the bond: *Provided*, That the penal sum of such bond shall not exceed $250,000, but in no case shall the penal sum be less than $500.

(68A Stat. 775, 847, 906, 907; 26 U.S.C. 6301(b), 7101, 7102, 7651(2)(B), 7652(a))

§ 250.68 Bond, Form 2898—Beer.

Where a brewer intends to withdraw, for purpose of shipment to the United States, beer of Puerto Rican manufacture from bonded storage in Puerto Rico on computation, but before payment, of the tax imposed by section 7652(a), I.R.C., equal to the tax imposed in the United States by section 5051, I.R.C., he shall, before making any such withdrawal, furnish a bond, Form 2898, to secure payment of such tax, at the time and in the manner prescribed in this subpart, on all beer so withdrawn. The bond shall be executed in a penal sum not less than the amount of unpaid tax which, at any one time, is chargeable against the bond: *Provided*, That the penal sum of such bond shall not exceed $500,000, but in no case shall the penal sum be less than $1,000.

(68A Stat. 775, 847, 906, 907; 26 U.S.C. 6301(b), 7101, 7102, 7651(2)(B), 7652(a))

§ 250.69 Strengthening bonds.

In all cases where the penal sum of any bond becomes insufficient, the principal shall either give a strengthening bond with the same surety to attain a sufficient penal sum, or give a new bond to cover the entire liability. Strengthening bonds will not be approved where any notation is made thereon which is intended, or which may be construed, as a release of any former bond, or as limiting the amount of any bond to less than its full penal sum. Strengthening bonds shall show the current date of execution and the effective date.

§ 250.70 New or superseding bonds.

New bonds shall be required in case of insolvency or removal of any surety, and may, at the discretion of the Officer-in-Charge, be required in any other contingency affecting the validity or impairing the efficiency of an existing bond. Executors, administrators, assignees, receivers, trustees, or other persons acting in a fiduciary capacity, continuing or liquidating the business of the principal, shall execute and file a new bond or obtain the consent of the surety or sureties on the existing bond or bonds. Where, under the provisions of § 250.72, the surety on any bond given under this subpart has filed an application to be relieved of liability under said bond and the principal desires or intends to continue the operations to which such bond relates, he shall file a valid superseding bond to be effective on or before the date specified in the surety's notice. New or superseding bonds shall show the current date of execution and the effective date.

TERMINATION OF BONDS

§ 250.71 Termination of bonds.

Any bond given under the provisions of this subpart may be terminated as to future transactions—

(a) Pursuant to application of surety as provided in § 250.72;

(b) On approval of a superseding bond;

(c) On notification by the principal to the Officer-in-Charge that he has discontinued transactions under the bond; or

(d) On notification by the principal to the Officer-in-Charge that he has discontinued business.

§ 250.72 Application of surety for relief from bond.

A surety on any bond given under the provisions of this subpart may at any time in writing notify the principal and the Officer-in-Charge that he desires, after a date named, to be relieved of liability under said bond. Such date shall be not less than 10 days after the date the notice is received by the Officer-in-Charge. The surety shall also file with the Officer-in-Charge an acknowledgment or other proof of service on the principal. If such notice is not thereafter in writing withdrawn, the rights of the principal as supported by said bond shall be terminated on the date named in the notice, and the surety shall be relieved from liability to the extent set forth in § 250.73.

§ 250.73 Relief of surety from bond.

Where the surety on a bond given under the provisions of this subpart has filed application for relief from liability, as provided in § 250.72, the surety shall be relieved from liability for transactions occurring wholly subsequent to the date specified in the notice, or the effective date of a new bond, if one is given.

§ 250.74 Release of pledged securities.

Securities of the United States pledged and deposited as provided in § 250.63, shall be released only in accordance with the provisions of 31 CFR Part 225. Such securities will not be released by the Officer-in-Charge until the liability under the bond for which they were pledged has been terminated. When the Officer-in-Charge is satisfied that they may be released, he shall fix the date or dates on which a part or all of such securities may be released. At any time prior to the release of such securities, the Officer-in-Charge may extend the date of release for such additional length of time as he deems necessary.

(61 Stat. 650; 6 U.S.C. 15)

§ 250.75 Form 1490, Notice of Termination or Release of Bond.

When the Officer-in-Charge is satisfied that any bond given under the provisions of this subpart may be terminated or released, he shall issue Form 1490, Notice of Termination or Release of Bond, and shall forward copies to the principal and to the surety. The Officer-in-Charge shall appropriately modify Form 1490 to show his title in lieu of that of the "Assistant Regional Commissioner, Alcohol and Tobacco Tax."

PERMITS REQUIRED

§ 250.76 Insular permits.

Before liquors or articles of Puerto Rican manufacture may be shipped to the United States, an insular permit, Form 2899, to compute the taxes imposed by section 7652(a), I.R.C., and to withdraw the products from the bonded establishment where they may be deposited, must be obtained from the Secretary, and such products may not be shipped to the United States until a permit to ship, on Form 487B, is applied for and obtained from the Secretary.

DISTILLED SPIRITS

§ 250.77 Subject to tax.

Distilled spirits of Puerto Rican manufacture, and any products containing such spirits, coming into the United States and withdrawn for consumption or sale are subject to a tax equal to the internal revenue tax imposed in the United States by sections 5001(a)(1), 5021, and 5022, I.R.C.

(68A Stat. 907; 26 U.S.C. 7652)

§ 250.78 Application and permit, Form 2899.

Application for permit to compute the tax on, and to withdraw, distilled spirits shall be made on Form 2899, in quintuplicate, by the proprietor of the bonded warehouse or bonded processing room. The applicant shall forward all copies of the form to the Secretary. If the application is properly prepared and is otherwise in order, the Secretary, or his delegate, shall execute his permit, retain one copy for his files, and forward the original and remaining copies of the form to the revenue agent at the bonded warehouse or bounded processing room where the spirits are stored. The revenue agent shall gauge the spirits, make a report of his gauge on Form 2630, in quadruplicate, and deliver all copies of Forms 2899 and 2630 to the applicant.

§ 250.79 Computation and payment of tax.

(a) *Deferred payment.* Where the distilled spirits are to be withdrawn from bonded storage on computation of tax, payment of which is to be deferred under bond, Form 2896, given by the proprietor of such bonded storage, such proprietor shall compute the tax, enter the amount of such computed tax on all copies of Form 2899, and execute the agreement to pay the amount of tax which has been computed and entered. He shall also certify under the penalties of perjury that he is not in default of any payment of tax chargeable against his bond, and that his bond is in the maximum penal sum or that it is sufficient to cover the amount of tax on the distilled spirits described on the form in addition to all other amounts chargeable against his bond. The proprietor shall forward the original and two copies of Forms 2899 and 2630 to the Officer-in-Charge, and shall retain a copy of each form for his files. Where the penal sum of his bond is less than the maximum prescribed in § 250.66(a) or where the penal sum allocated to his premises under § 250.66(c) is less than the prescribed maximum, the proprietor shall maintain an account of his bond. He shall charge the bond with the amount of liability he accepts at the time he executes Form 2899, and shall credit the bond for the same amount at the time he files his return, Form 2901, and remittance to cover payment of the tax on the distilled spirits covered by such Form 2899.

(b) *Withdrawal after payment.* Where the distilled spirits are to be withdrawn from bonded storage after payment of the computed tax, the proprietor shall enter the amount of such computed tax on all copies of Form 2899, and execute the statement that such tax is being prepaid. He shall then prepare Form 2925, in quadruplicate, and send the original and two copies of Forms 2899, 2925, and 2630, together with his remittance in full for such tax, to the Officer-in-Charge, and retain a copy of each form for his files.

§ 250.80 Action by Officer-in-Charge.

(a) *Deferred payment.* On receipt of Forms 2899 and 2630, covering application to withdraw distilled spirits from bonded storage, on computation, but before payment, of the tax, the Officer-in-Charge shall, if the proprietor has on file a good and sufficient bond, Form 2896, execute his certificate of approval on all copies of Form 2899, and forward two copies of Form 2899 and 2630 to the Secretary, retaining the originals of each form for his records. Where the Officer-in-Charge finds that the proprietor does not have proper and sufficient coverage on bond, Form 2896, or where the Officer-in-Charge finds that the proprietor is in default of payment of any taxes previously charged to his bond, he shall, without approval, return all copies of Form 2899 and 2630 to the proprietor, giving his reasons for withholding approval.

(b) *Prepayment.* On receipt of Forms 2899, 2925 and 2630, with remittance, covering prepayment of tax on distilled spirits to be withdrawn from bonded storage, the Officer-in-Charge shall execute his certificate of receipt on all copies of Form 2925, and his certificate of approval on all copies of Form 2899. He shall then forward two copies of Forms 2899, 2925, and 2630 to the Secretary and retain the originals of each form for his files.

§ 250.81 Action by the Secretary.

On receipt of Forms 2899 and 2630, and Form 2925 where required, from the Officer-in-Charge, the Secretary, or his delegate, shall authorize the release of the spirits on both copies of Form 2899, retain a copy of each form for his files, and forward a copy of each form to the proper revenue agent.

§ 250.82 Release of spirits.

On receipt of Form 2899 from the Secretary, authorizing the release of the distilled spirits, the revenue agent will release the spirits for bottling or withdrawal in accordance with procedures prescribed in this part for bottling and shipment. Distilled spirits released from bonded storage under this section may not be shipped to the United States until permit for such shipment has been obtained from the Secretary as provided in §§ 250.114 through 250.116.

§ 250.83 Bottling of distilled spirits.

On receipt of Form 2899 from the Secretary authorizing the release of distilled spirits for bottling, the revenue agent will so release the spirits. Spirits which are to be bottled without rectification may not be removed through the bonded processing room to the bottling house, but must be removed directly from the bonded warehouse to the bottling house. The bottling operations will be conducted under supervision of the revenue agent.

§ 250.84 Stamping bottles.

Every bottle of distilled spirits of Puerto Rican manufacture to be shipped to the United States must have affixed thereto a red strip stamp of proper size bearing the name of the distiller, rectifier, or bottler. Red strip stamps will be procured, overprinted, and used as provided in Subpart G of this part.

(72 Stat. 1358; 26 U.S.C. 5205)

§ 250.85 Rectification tax.

(a) *Computation.* When rectified spirits on which distilled spirits tax equal to the tax imposed in the United States by section 5001(a)(1), I.R.C., has been paid or deferred (as prescribed in § 250.79) have been bottled and cased, the rectifier shall prepare Form 2926, in quadruplicate. He shall compute on Form 2926 the rectification tax (equal to the tax imposed in the United States by section 5021 and/or section 5022, I.R.C.) incurred on the spirits so rectified and bottled and cased. He shall then submit all copies of the form to the revenue agent who, after verifying the computation of the tax, will return all copies to the rectifier.

(b) *Deferred payment.* When payment of the rectification tax is to be deferred under bond, Form 2896, given by the rectifier, he shall execute, on Form 2926, the agreement to pay the amount of tax which has been computed and entered. He shall also certify under penalties of perjury that he is not in default of any payment of tax chargeable against his bond, and that his bond is in the maximum penal sum or that it is sufficient to cover the amount of the rectification tax entered on the form in addition to all other amounts chargeable against his bond. The rectifier shall forward the original and two copies of Form 2926 to the Officer-in-Charge and retain a copy for his files. The provisions of § 250.79(a) shall be applicable with respect to keeping an account of the bond.

(c) *Prepayment.* When the rectification tax is to be prepaid on completion of bottling and casing, the rectifier shall execute the statement on Form 2926 that such tax is being prepaid. He shall then prepare Form 2925, in quadruplicate, and send the original and two copies of Forms 2925 and 2926, together with his remittance in full for such tax, to the Officer-in-Charge and retain a copy of each form for his files.

(d) *Procedures applicable.* The applicable provisions of §§ 250.80 and 250.81 shall govern the processing of Forms 2925 and 2926 by the Officer-in-Charge and the Secretary.

PACKAGES OF DISTILLED SPIRITS

§ 250.86 Authority for shipment.

The laws of Puerto Rico provide that distilled spirits of Puerto Rican manufacture may be shipped or exported from Puerto Rico only in containers holding not more than one gallon, except that where any rectifier presents to the Secretary a sworn application, in duplicate, stating that he wishes to withdraw from business and to liquidate his stock of rum, the Secretary, or his delegate, may authorize the sale of such stock in barrels of forty gallons or more for shipment to the United States. Therefore, subject to the approval of such application by the Secretary, or his delegate, and pursuant to the provisions of this part, rum of Puerto Rican manufacture may be shipped to the United States in such bulk containers.

§ 250.87 Evidence of taxpayment.

Where, under the provisions of § 250.86, a rectifier has made application to the Secretary for authority to ship packages of Puerto Rican rum to the United States, he shall, at the same time, submit sworn evidence to the Secretary that the distilled spirits tax has been paid or will be paid, as provided in § 250.79, and that all rectification taxes incurred have been paid or will be paid in the same manner as provided in § 250.85 for rectified spirits bottled and cased, or he shall submit application, Form 2899, for permit to pay such taxes, as provided in this subpart. When satisfied that the rectifier has complied with all provisions of this part relating to the payment of taxes on such distilled spirits, the Secretary, or his delegate, shall note his approval on both copies of the sworn application, and return one copy to the applicant. On receipt of the approved application, the rectifier shall submit application for permit to ship, Form 487B, as prescribed in §§ 250.114 through 250.116.

§ 250.88 Application for distilled spirits stamps.

On receipt of approved Form 487B from the Secretary, the rectifier shall make written request in triplicate to the Officer-in-Charge for issuance of distilled spirits stamps for the packages. Such requests shall show the name and address of the packer, the serial number of each package and the proof gallon contents thereof, the serial number of the Form 2901 and/or Form 2925 pursuant to which tax was paid, and shall identify the permit, Form 487B, pursuant to which the packages are to be shipped. The request and the permit, Form 487B, shall be submitted to the revenue agent, who if satisfied that the request has been correctly prepared and that the requirements of this subpart relating to the payment of taxes have been met, will note his approval on all copies of the request and return them and Form 487B to the proprietor. The proprietor shall forward all copies of the approved request and Form 487B to the Officer-in-Charge.

§ 250.89 Issuance of distilled spirits stamps.

On receipt of the approved request therefor, and permit Form 487B, the Officer-in-Charge shall issue the required number of distilled spirits stamps. He shall enter, on each stamp, the name of the proprietor removing the spirits, the serial number of the container for which the stamp is issued and, where rectification tax has been paid (as provided in this subpart), the words "Rectified Product." When the stamps have been issued, the issuing officer shall enter the serial numbers thereof, preceded by the symbols "DS" on each copy of the request; return Form 487B and one copy of the request, with the stamps, to the applicant; forward one copy of the request to the Secretary; and retain the original for his files.

§ 250.90 Affixing stamps to packages.

At the time the proprietor affixes the stamp to the package he shall enter on the stamp the date the stamp is affixed. The stamps shall be securely affixed by the proprietor, under supervision of a revenue agent, to the heads of the packages. The revenue agent shall then cancel the stamps by drawing or otherwise imprinting a line (not less than one-eighth inch wide) in durable red ink diagonally across the stamp. When the stamps have been affixed and canceled, the proprietor shall immediately cover them with a transparent coat of shellac, lacquer, varnish, or other equally suitable material, to protect the markings on the stamps.

§ 250.91 Release of packages.

On stamping of packages of spirits authorized for shipment to the United States as provided in § 250.86, the revenue agent shall release the packages for shipment.

WINE

§ 250.92 Subject to tax.

Wine of Puerto Rican manufacture coming into the United States and withdrawn for consumption or sale is subject to a tax equal to the internal revenue tax imposed in the United States on wine by section 5041, I.R.C.

(68 Stat. 907; 26 U.S.C. 7652)

§ 250.93 Application and permit, Form 2900.

When wine of Puerto Rican manufacture is to be withdrawn for shipment to the United States, or for use in making any rectified product or article for shipment to the United States, application for permit to compute the tax on, and to withdraw, the wine shall be made on Form 2900, in quintuplicate, by the proprietor of the bonded premises where the wine is stored. If the withdrawal is to be made in casks, barrels, kegs, or similar containers, the applicant shall enter the name of the winemaker producing the wine, the serial numbers of the packages, the total number of wine gallons contained therein, and the taxable grade of the wine, i.e., "not more than 14%" if the wine contains not more than 14 percent of alcohol by volume, "14–21%" if the wine contains more than 14 percent and not exceeding 21 percent of alcohol by volume, "21–24%" if the wine contains more than 21 percent but not exceeding 24 percent of alcohol by volume. On wines containing more than 24 percent of alcohol by volume, the true percentage of alcohol by volume shall be stated. If the application covers more than one taxable grade of wine, the quantity in each taxable grade shall be reported separately. If the withdrawal is to consist of bottled wine, the applicant shall show the number of cases, size of the bottles, the number of bottles per case, the total quantity in wine gallons, and the taxable grade of the wine in the manner stated above. The applicant shall forward all copies of the form to the Secretary. If the application is properly prepared and is otherwise in order, the Secretary, or his delegate, shall execute his permit, retain one copy for his files, and return the original and three copies to the applicant.

§ 250.94 Computation and payment of tax.

(a) *Deferred payment.* When wine is to be withdrawn from bonded storage on computation of tax, payment of which is to be deferred under bond, Form 2897, given by the proprietor of such bonded storage, such proprietor shall compute the tax, enter the amount of the computed tax on all copies of Form 2900, and execute the agreement to pay the amount of tax which has been computed and entered. He shall also certify under the penalties of perjury that he is not

in default of any payment of tax chargeable against his bond, and that his bond is in the maximum penal sum or that it is sufficient to cover the amount of tax described on the form in addition to all other amounts chargeable against his bond. The proprietor shall forward the original and two copies of Form 2900 to the Officer-in-Charge, and shall retain one copy for his files. Where the penal sum of his bond is less than the maximum prescribed in § 250.67, the proprietor shall maintain an account of his bond. He shall charge the bond with the amount of liability he accepts at the time he executes Form 2900, and shall credit the bond for the same amount at the time he files his return, Form 2927, and remittance to cover payment of the tax on the wine covered by such Form 2900.

(b) *Withdrawal after payment.* Where the wine is to be withdrawn from bonded storage after payment of the computed tax, the proprietor shall enter such computed tax on all copies of Form 2900, and execute the statement that such tax is being prepaid. He shall then prepare Form 2928, in quadruplicate, and send the original and two copies of Forms 2900 and 2928, together with his remittance in full for such tax, to the Officer-in-Charge, and retain a copy of each form for his files.

§ 250.95 Action by Officer-in-Charge and by the Secretary.

The procedures prescribed in §§ 250.80 and 250.81 with respect to the processing of Forms 2899 and 2925 by the Officer-in-Charge and by the Secretary, shall be applicable to the processing, by such persons, of Forms 2900 and 2928.

§ 250.96 Release of wine.

On receipt of Form 2900 from the Secretary authorizing the release of the wine, the revenue agent shall release the wine. Wine may not be shipped to the United States until a permit to ship, Form 487B, has been obtained as provided in §§ 250.114 through 250.116.

§ 250.97 Marking containers of wine.

Containers of wine of Puerto Rican manufacture which are to be shipped to the United States must be marked with the name of the winemaker, the serial number of the container, the kind and taxable grade of the wine, the gallon content, and the serial number of the withdrawal permit, Form 487B, prefixed by the number of such form, e.g. "487B–61–3."

LIQUEURS, CORDIALS, OR SIMILAR COMPOUNDS CONTAINING WINE

§ 250.98 Insular permits required.

(a) *Distilled spirits.* When distilled spirits of Puerto Rican manufacture are to be withdrawn for use in the manufacture of liqueurs, cordials, or similar compounds containing wine which are to be shipped to the United States, an insular permit, Form 2899, must first be obtained from the Secretary, in the manner prescribed in § 250.78.

(b) *Wine.* When wine of Puerto Rican manufacture is to be used in the manufacture of liqueurs, cordials, or similar compounds which are to be shipped to the United States, an insular permit, Form 2900, must first be obtained from the Secretary, in the manner prescribed in § 250.93.

§ 250.99 Taxpayment.

(a) *Distilled spirits.* Gauge of distilled spirits withdrawn for use in the manufacture of liqueurs, cordials, or similar compounds containing wine shall be made and reported by the revenue agent in the manner prescribed in § 250.78, and the tax on such spirits, equal to the tax imposed in the United States by section 5001(a)(1), I.R.C., will be computed and paid in accordance with the provisions of § 250.79.

(b) *Wine.* The tax on the wine withdrawn for use in the manufacture of liqueurs, cordials, and similar compounds, equal to the tax imposed in the United States by section 5041, I.R.C., will be computed and paid in accordance with the provisions of § 250.94.

(c) *Finished product.* If the finished product is subject to rectification tax equal to that imposed in the United States by section 5021 or section 5022, I.R.C., such tax will be computed and paid in accordance with the applicable provisions of § 250.85. Containers of liqueurs, cordials, or similar compounds shall bear red strip stamps as provided in Subpart G of this part.

§ 250.100 Permit to ship required.

Before liqueurs, cordials, or similar compounds may be shipped from Puerto Rico to the United States, a permit to ship must be obtained as provided in §§ 250.114 through 250.116.

BEER

§ 250.101 Subject to tax.

Beer of Puerto Rican manufacture coming into the United States and withdrawn for consumption or sale is subject to a tax equal to the internal revenue tax imposed on beer in the United States by section 5051, I.R.C.

(68A Stat. 907; 26 U.S.C. 7652)

§ 250.102 Application and permit, Form 2900.

When beer of Puerto Rican manufacture is to be withdrawn for shipment to the United States, or for use in making an article for shipment to the United States, application for permit to compute the tax on, and to withdraw, the beer shall be made by the brewer on Form 2900, in quintuplicate. If the withdrawal is to be made in hogsheads, barrels, or kegs, the brewer shall enter the total number of each size, according to capacity, of containers which it is desired to withdraw. If the withdrawal is to be made in bottles, the brewer shall enter the number of cases, size of bottles, number of bottles per case, the total contents thereof in gallons (liquid measure), and the equivalent thereof in barrels and fractions of barrels of 31 gallons each. The brewer shall forward all copies of the form to the Secretary. If the application is properly prepared and is otherwise in order, the Secretary, or his delegate, shall execute his permit, retain one copy for his files, and return the original and three copies to the brewer.

§ 250.103 Computation and payment of tax.

(a) *Deferred payment.* When beer is to be withdrawn from bonded storage on computation of tax, payment of which is to be deferred under bond, Form 2898, given by the brewer, such brewer shall compute the tax, enter the amount of the computed tax on all copies of Form 2900, and execute the agreement to pay the amount of tax which has been computed and entered. He shall also certify under the penalties of perjury that he is not in default of any payment of tax chargeable against his bond, and that his bond is in the maximum penal sum or that it is sufficient to cover the amount of tax described on the form in addition to all other amounts chargeable against his bond. The brewer shall forward the original and two copies of Form 2900 to the Officer-in-Charge, and shall retain one copy for his files. Where the penal sum of his bond is less than the maximum prescribed in § 250.68, the brewer shall maintain an account of his bond. He shall charge the bond with the amount of liability he accepts at the time he executes Form 2900, and shall credit the bond for the same amount at the time he files his return, Form 2929, and remittance to cover payment of the tax on the beer covered by such Form 2900.

(b) *Withdrawal after payment.* Where the beer is to be withdrawn from bonded storage after payment of the computed tax, the brewer shall enter such computed tax on all copies of Form 2900, and execute the statement that such tax is being prepaid. He shall then prepare Form 2930, in quadruplicate, and send the original and two copies of Forms 2900 and 2930, together with his remittance in full for such tax, to the Officer-in-Charge, and retain a copy of each form for his files.

§ 250.104 Action by Officer-in-Charge and by the Secretary.

The procedures prescribed in §§ 250.80 and 250.81 with respect to the processing of Forms 2899 and 2925 by the Officer-in-Charge and by the Secretary, shall be applicable to the processing, by such persons, of Forms 2900 and 2930.

§ 250.105 Release of beer.

On receipt of Form 2900 from the Secretary authorizing the release of the beer, the revenue agent shall release the beer. Beer may not be shipped to the United States until a permit to ship, Form 487B, has been obtained as provided in §§ 250.114 through 250.116.

§ 250.106 Marking containers of beer.

Containers of beer of Puerto Rican manufacture which are to be shipped to the United States must be marked with the name of the brewer; the serial number, capacity, and size of the container; the kind of beer; and the serial number of the withdrawal permit, Form 487B, prefixed by the number of such form, e.g. "487B–61–3."

ARTICLES

§ 250.107 Taxable status.

Articles of Puerto Rican manufacture which are to be shipped to the United States and which are not exempt from tax under the provisions of § 250.36 are subject, under section 7652(a), I.R.C., to a tax equal to the tax imposed by the internal revenue laws of the United States on the distilled spirits, wine, or beer contained therein. A formula and process covering the manufacture of each such product shall be filed by the manufacturer in accordance with Subpart D of this part.

§ 250.108 Application for permit, Form 2899 and/or Form 2900.

(a) *Distilled spirits.* Where distilled spirits of Puerto Rican manufacture are to be used in the manufacture of the articles to be shipped to the United States, the manufacturer shall make application on Form 2899, in accordance with the applicable provisions of § 250.78.

(b) *Wine and/or beer.* Where wine and/or beer of Puerto Rican manufacture is to be used in the manufacture of the articles to be shipped to the United States, the manufacturer shall make application on Form 2900, in accordance with the applicable provisions of §§ 250.93 and/or 250.102. Wine and beer may be included in the same application.

(c) *Approval of applications.* The Secretary, or his delegate, shall approve and dispose of the applications in the manner prescribed in §§ 250.78, 250.93, and/or 250.102, as the case may be.

§ 250.109 Taxpayment.

(a) *Distilled spirits.* The tax on distilled spirits used in the manufacture of the articles to be shipped to the United States, equal to the tax imposed in the United States by section 5001(a)(1), I.R.C., shall be computed and paid as prescribed in § 250.79.

(b) *Wine.* The tax on wine used in the manufacture of the articles to be shipped to the United States, equal to the tax imposed in the United States by section 5041, I.R.C., shall be computed and paid as prescribed in § 250.94.

(c) *Beer.* The tax on beer used in the manufacture of articles to be shipped to the United States, equal to the tax imposed in the United States by section 5051, I.R.C., shall be computed and paid as prescribed in § 250.103.

§ 250.110 Release of liquors.

On receipt of authorization from the Secretary, the revenue agent shall release the liquors. A permit must be obtained as provided in §§ 250.114 through 250.116 before the articles manufactured from such liquors may be shipped to the United States.

PAYMENT OF TAX BY RETURN

§ 250.111 General.

All taxes imposed by section 7652(a), I.R.C., and which, under the provisions of this part, are paid in Puerto Rico, shall be paid and collected on the basis of a semimonthly or prepayment return as provided in this subpart. Any tax which has been paid in accordance with the provisions of this part in effect at the time of such payment, and before provision was made in the part for payment of such tax by return, shall be deemed to have been prepaid as prescribed in this part.

§ 250.112 Taxes to be collected by returns for semimonthly periods.

(a) *Distilled spirits.* The taxes imposed by section 7652(a), I.R.C. (equal to the taxes imposed in the United States by sections 5001(a)(1), 5021, and 5022, I.R.C.), the payment of which has been deferred under the provisions of §§ 250.79 (a) and 250.85(b), shall be paid pursuant to a return on Form 2901 prepared in quadruplicate. The proprietor shall list on his return the serial numbers of all Forms 2899 and 2926 covered by the return.

(b) *Wine.* The taxes imposed by section 7652(a), I.R.C. (equal to the taxes imposed in the United States by section 5041, I.R.C.), the payment of which has been deferred under the provisions of § 250.94(a), shall be paid pursuant to a return on Form 2927 prepared in quadruplicate. The proprietor shall list on his return the serial numbers of all Forms 2900 covered by the return.

(c) *Beer.* The taxes imposed by section 7652(a), I.R.C. (equal to the taxes imposed in the United States by section 5051, I.R.C.), the payment of which has been deferred under the provisions of § 250.103(a), shall be paid pursuant to a return on Form 2929 prepared in quadruplicate. The brewer shall list on his return the serial numbers of all Forms 2900 covered by the return.

(d) *Periods.* The periods to be covered by returns on Form 2901, 2927, and 2929, shall be semimonthly; such periods to run from the 1st day through the 15th day of each month and from the 16th day through the last day of each month.

(e) *Filing.* The original and two copies of returns on Forms 2901, 2927, and 2929, with remittance covering the full amount of the tax, shall be filed with the Officer-in-Charge not later than the 3d business day next succeeding the last day of the return period. Where the return and remittance are delivered by United States mail to the office of the Officer-in-Charge, the date of the official postmark of the United States Post Office stamped on the cover in which the return and remittance were mailed shall be deemed to be the date of delivery.

(f) *Default.* Where a taxpayer has defaulted in any payment of tax under this section, during the period of such default and until the Officer-in-Charge finds that the revenue will not be jeopardized by deferred payment of tax under this section, the tax shall be prepaid by such taxpayer in accordance with the provisions of § 250.113.

§ 250.113 Returns for prepayment of taxes.

(a) *General.* If a proprietor does not have on file with the Officer-in-Charge an approved bond covering the deferred payment of taxes, or if such bond is in an insufficient penal sum, or if there is default by him in any payment of tax under this subpart, liquors shall not be released from bonded storage before the proprietor has paid the tax thereon.

(b) *Remittances.* Remittances submitted to cover prepayment of taxes under this subpart shall be in cash, United States postal money orders, certified checks, or cashier's checks.

(c) *Distilled spirits.* In all cases where taxes equal to the taxes imposed in the United States by sections 5001(a)(1), 5021, and 5022, I.R.C., are to be paid before distilled spirits may be withdrawn from bonded storage, the proprietor shall pay such taxes pursuant to a return on Form 2925, and as prescribed in § 250.79(b) and/or § 250.85(c).

(d) *Wine.* In all cases where taxes equal to the taxes imposed in the United States by section 5041, I.R.C., are to be paid before wine may be withdrawn from bonded storage, the proprietor shall pay such taxes pursuant to a return on Form 2928, and as prescribed in § 250.94(b).

(e) *Beer.* In all cases where taxes equal to the taxes imposed in the United States by section 5051, I.R.C., are to be paid before beer may be withdrawn from bonded storage, the brewer shall pay such taxes pursuant to a return on Form 2930, and as prescribed in § 250.103(b).

(f) *Applicable procedures.* The procedures of § 250.112(e) with respect to returns delivered by United States mail shall apply to returns and remittances filed under the provisions of this section.

PERMIT TO SHIP LIQUORS AND ARTICLES

§ 250.114 Permit to ship required.

Before liquors and articles of Puerto Rican manufacture, upon which all internal revenue taxes have been paid or deferred as prescribed in this subpart, may be shipped to the United States, a permit to ship, Form 487B, must be obtained from the Secretary as provided in §§ 250.115 and 250.116.

§ 250.115 Application, Form 487B.

Application for permit to ship to the United States liquors and articles of Puerto Rican manufacture on which all taxes have been paid or deferred as prescribed in this subpart shall be made by the shipper on Form 487B, in sextuple. Each Form 487B will be given a serial number, by the applicant, beginning with "1" for the first day of January of each year and running consecutively thereafter to December 31, inclusive. This serial number will be prefixed by the last two digits of the calendar year. e.g. "61–1." All copies of the form shall be delivered to the revenue agent for execution of his certification thereon and forwarding of all copies to the Secretary within sufficient time to allow for the issuance of the permit and customs inspection as provided in § 250.116.

§ 250.116 Issuance of permit, Form 487B, and customs inspection.

If the application has been properly executed and the Secretary, or his delegate, finds that all internal revenue taxes imposed under section 7652(a), I.R.C., have been computed under the provisions of this part and have been paid or, pursuant to a sufficient bond, have been de-

ferred under the applicable provisions of this part, he will execute his permit on all copies thereof, retain one copy of the form, return two copies to the shipper, and send three copies to the collector of customs in Puerto Rico. The shipper will submit the two copies of the Form 487B to the collector at least six hours prior to the intended lading of the merchandise. The collector will then inspect the merchandise covered by the Form 487B after which he will execute his certificate on each copy of Form 487B indicating all exceptions. If discrepancies appear indicating differences between the quantity covered by Form 487B and the quantity actually contained in the shipment or the improper taxpayment of the merchandise, he will withhold release of the shipment and notify the Secretary of such discrepancies. Thereupon, such discrepancies must be corrected in the shipping documents and additional tax paid, if required, prior to release of the merchandise. The collector, upon release of the merchandise for shipment, will retain one copy of the Form 487B, return two copies to the shipper, and send two copies to the collector of customs at the port of arrival in the United States, one of which should be mailed and the other dispatched on the vessel concerned for the guidance of the inspector who will handle the cargo. After the shipment has been cleared by the collector of customs in Puerto Rico, the shipper shall retain one copy of the Form 487B and send one copy thereof, with other shipping documents, to the collector of customs at the port of arrival.

PROCEDURE AT PORT OF ARRIVAL

§ 250.117 Action by carrier.

The carrier of the merchandise specified on the Form 487B shall, at the time of unlading at the port of arrival in the United States, segregate and arrange the cases of liquors or articles for convenient customs examination and will assume any expense incurred in connection therewith.

§ 250.118 Inspection by collector of customs at port of arrival.

On receipt of properly executed Form 487B from the shipper and the copies of Form 487B from the collector of customs in Puerto Rico, the collector of customs at the port of arrival shall inspect the merchandise to determine whether the quantity specified on the Form 487B is contained in the shipment. He will then execute his certificate on each copy of Form 487B received and indicate thereon any exceptions found at the time of discharge. The statement of exceptions should show the serial number of each case or other shipping container which sustained a loss, the quantity of liquor reported shipped in such container and the quantity lost. Losses occurring as the result of missing bottles, cases, or other containers should be listed separately from empty containers and containers which have sustained losses due to breakage. Where the statement is made on the basis of bottles missing or lost due to other cause, the number and size of bottles lost should be shown. If the collector finds that the full amount of the taxes due has not been paid, he will require the difference due to be paid prior to release of the merchandise in accordance with the applicable provisions of this part. When the proper inspection of the merchandise has been effected, and any additional taxes found to be due on the liquors or articles collected, the merchandise will be released.

§ 250.119 Disposition of forms by collector of customs.

Two copies of the Form 487B will be forwarded to the United States Internal Revenue Service office, and one copy of the form will be retained by the collector of customs and be available for inspection by internal revenue officers. If the taxpayer files a claim for refund of tax on losses, the Officer-in-Charge will forward to the assistant regional commissioner of the region in which the port of arrival is located a copy of the completed Form 487B with the claim for refund.

§§ 250.127, 250.142 [Amendments]

Sections 250.127 and 250.142 are amended by striking, wherever it appears, the phrase "insular internal revenue agent" and inserting in lieu thereof the words "revenue agent".

§§ 250.143, 250.144 [Amendments]

Sections 250.143 and 250.144 are amended as follows:

(A) By striking, wherever it appears, the phrase "insular internal revenue agent" and inserting in lieu thereof the words "revenue agent".

(B) By changing the statutory citations to read "(72 Stat. 1358; 26 U.S.C. 5205)".

§ 250.146 [Amendment]

Section 250.146 is amended as follows:

(A) By striking, in the first and fourth sentences, the phrase "insular internal revenue agent" and inserting in lieu thereof the words "revenue agent".

(B) By striking, where it appears twice in the last sentence, the word "treasurer" and inserting in lieu thereof the word "Secretary".

Section 250.180 is amended to read:

§ 250.180 Applicable procedure.

Distilled spirits of less than 190 degrees of proof, wines, and beer of Puerto Rican manufacture (hereinafter referred to as "liquors" unless otherwise indicated) intended for shipment to the United States, which are withdrawn from producing or storage premises for entry into bonded rectification sections, bottling sections, or bonded warehouses, in accordance with the Spirits and Alcoholic Beverages Act, as amended, of Puerto Rico, shall be subject to the provisions of this subpart, and §§ 250.1 through 250.165, in so far as such sections may be applicable.

Section 250.182 is amended to read:

§ 250.182 Alcoholic constituents.

The alcoholic constituents of all liquors constituting a specific bottling lot shall be ascertained from records maintained in accordance with insular requirements. The revenue agent will verify the accuracy of the amount of tax entered on Form 2899 and/or Form 2900, as the case may be. The formula number under which the liquors were produced or manufactured for shipment to the United States will also be shown on the Form 2899 and/or Form 2900.

Section 250.183 is amended to read:

§ 250.183 Basis for computing tax on distilled spirits.

The taxes on distilled spirits to be withdrawn under this subpart shall be computed on the basis of wine gallons, if below proof, or proof gallons, if 100 proof or above, in accordance with the proof ascertained by the revenue agent prior to entry of the spirits into the bonded rectification section, or bonded bottling section, pursuant to appropriate entries in records prescribed by the insular authorities.

(68A Stat. 907, 72 Stat. 1314; 26 U.S.C. 7652(a), 5001)

Section 250.184 is amended to read:

§ 250.184 Procedural requirements.

Taxes shall be computed and paid at the rate(s) prescribed by law. The provisions of Subpart E of this part relative to bonds shall be applicable to liquors withdrawn under this subpart and for which payment of tax is to be deferred. The provisions of Subpart E of this part relative to the procurement of permits on Form 2899 and/or Form 2900, computation and payment of tax, release of liquors, procurement of permit to ship to the United States, and release for shipment, action by carrier, inspection by customs, and disposition of forms shall be applicable to liquors on which the tax is computed and paid on withdrawal after rectification or bottling.

Section 250.186 is amended to read:

§ 250.186 Withdrawal for shipment to United States.

Withdrawal of liquors for shipment to the United States may be made only after all taxes have been paid or deferred as prescribed in this part.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 52]

TRIBAL REORGANIZATION UNDER SECTION 16 OF THE INDIAN REORGANIZATION ACT

Notice of Proposed Rule Making

Basis and purpose. Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by the Revised Statutes, sections 161, 463, and 465 (5 U.S.C. 22; 25 U.S.C. 2 and 9), it is proposed to add new Part 52 to Title 25 of the Code of Federal Regulations to read as set forth below. The purpose of this part is to establish regulations and provide policies and procedures for tribal reorganization under section 16 of the Indian Reorganization Act.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested parties may submit written comments, suggestions, or objections with respect to the proposed new part to the Bureau of Indian Affairs, Washington 25, D.C., within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

GEORGE W. ABBOTT,
Assistant Secretary of the Interior.

DECEMBER 1, 1960.

Part 52, Chapter I, Title 25 of the Code of Federal Regulations reads as follows:

Sec.
52.1 Definitions.
52.2 Eligibility for reorganization and for voting thereon.
52.3 Drafting of tribal constitutions and bylaws.
52.4 Adoption of a tribal constitution and/or bylaws and Secretarial election therefor.
52.5 Effect of an approved constitution.
52.6 Amendment and revocation of tribal constitutions and/or bylaws.
52.7 Tribal ordinances and resolutions.
52.8 Review of tribal ordinances and resolutions.
52.9 Denial of authority of governing body.
52.10 Secretarial elections.
52.11 Election Board.
52.12 District Election Boards.
52.13 Voting districts.
52.14 Voting list.
52.15 Eligibility disputes.
52.16 Election notices.
52.17 Opening and closing of polls.
52.18 Manner of voting.
52.19 Ballots.
52.20 Absentee voting.
52.21 Publication of election returns.
52.22 Contesting of election results.
52.23 Interpreters.
52.24 Electioneering.
52.25 Tribal elections.
52.26 Powers of the governing body.
52.27 Restrictions on tribal power.
52.28 Subordinate units.
52.29 Tribal membership.
52.101 List of Reorganized Tribes with constitutions in conformity with this part. [Reserved.]
52.102 List of Reorganized Tribes with constitutions approved under prior regulations.
52.103 List of tribes without constitutions approved pursuant to section 16 of the Indian Reorganization Act.

AUTHORITY: §§ 52.1 to 52.103 issued under 25 U.S.C. 476.

§ 52.1 Definitions.

As used in this part:

(a) "Secretary" means the Secretary of the Interior or his duly authorized representative.

(b) "Officer in charge" means the Superintendent, Administrative Officer, or Field Representative, or other official of the local unit of the Bureau of Indian Affairs having administrative jurisdiction.

(c) "Indian" means all persons of Indian descent who are members of any recognized Indian tribe under Federal jurisdiction, and all persons who are descendants of such members who were, on June 1, 1934, residing within the then boundaries of any reservation, and shall further include all other persons of one-half or more Indian blood. Eskimos and other aboriginal peoples of Alaska are also here considered as Indians.

(d) "Adult Indian" means any Indian who has attained the age of 21 years.

(e) "Tribe" means any Indian tribe, organized band, pueblo, or the Indians residing on one reservation.

(f) "Recognized tribe" means any Indian tribe which has entered into a treaty, convention, or executive agreement with the Federal government or whose tribal entity has been otherwise recognized by it.

(g) "Statutory tribe" means any Indian tribe organized pursuant to Federal statute other than the Indian Reorganization Act, the Alaska Act, and the Oklahoma Indian Welfare Act.

(h) "Reorganized tribe" means any Indian tribe reorganized under section 16 of the Indian Reorganization Act (June 18, 1934, c. 576, sec. 16, 48 Stat. 984, 25 U.S.C. 476); section 1 of the Alaska Act (May 1, 1936, c. 254, sec. 1, 49 Stat. 1250, 25 U.S.C. 473a); or section 3 of the Oklahoma Indian Welfare Act (June 26, 1936, c. 831, sec. 3, 49 Stat. 1967, 25 U.S.C. 503).

(i) "Reservation" means any area, regardless of the ownership thereof, set aside by treaty, Federal statute, presidential executive order, or through long administrative action for the use and occupancy of Indians, as identified in § 52.103.

(j) "Restricted lands" means lands or interests therein (1) title to which is in Indian tribes, corporations, associations, or individuals subject to Federal restrictions against alienation or (2) held in trust for them by the United States.

(k) "Constitution" or "constitution and bylaws" means the fundamental organic law of a tribe embodied within a written document or documents. Where there is no such written document it means the fundamental organic law implied in its institutions, usages, and customs.

(l) "Charter" means the written instrument of incorporation granted to a tribe by the Secretary pursuant to section 17 of the Indian Reorganization Act authorizing it to carry out the economic functions therein enumerated.

(m) "General council" means the entire tribal voting membership in council assembled.

(n) "Governing body" means the tribal council, the general council, or other unit which acts for the tribe pursuant to powers granted to it in the tribal constitution.

(o) "Tribal election" means an election held within a tribe pursuant to regulations prescribed by its constitution or by its governing body.

(p) "Secretarial election" means an election held within a tribe pursuant to regulations prescribed by the Secretary of the Interior.

(q) "Indian Reorganization Act" means the act of June 18, 1934 (48 Stat. 984, as amended, 25 U.S.C. 461, et seq.).

§ 52.2 Eligibility for reorganization and for voting thereon.

Any tribe, except the Osage Tribe in Oklahoma, which has voted to accept the terms of the Indian Reorganization Act is eligible to adopt a constitution and bylaws under section 16 thereof. All adult Indians of a single tribe may vote in an election held to adopt such a constitution and/or bylaws but there is a requirement of residence on a reservation when a constitution is adopted not by one tribe alone but by the "Indians residing on one reservation".

§ 52.3 Drafting of tribal constitution and bylaws.

The Department of the Interior will cooperate with and offer advice and assistance to any tribe in the drafting of a constitution and/or bylaws when so requested by its governing body or by any representative committee of the members of the tribe or when so requested by any representative committee authorized to represent the adult Indians residing on a reservation and desiring to form a tribe. The Secretary may also suggest for consideration the adoption of a proposed constitution and/or bylaws. Such constitution, in addition to all the powers vested in any tribe or its governing body by existing law, shall also vest in such tribe or its governing body those specified in section 16 of the Indian Reorganization Act.

§ 52.4 Adoption of a tribal constitution and/or bylaws and Secretarial election therefor.

Where there is presented to the Secretary for consideration by the governing body of a tribe or tribes residing on a reservation or by any representative committee or group authorized to represent the adult Indians residing on a reservation and desiring to form a tribe, a proposed constitution and/or bylaws which appear to meet their needs and to be in consonance with all applicable laws, treaties, and Secretarial regulations made pursuant to Federal statute and published in the Code of Federal Regulations or the FEDERAL REGISTER, the Secretary may call a special election for the adoption thereof by a majority of those actually voting provided the total vote cast is not less than 30 percent of those entitled to vote. This election shall be held pursuant to the regulations therefor set forth in §§ 52.10 through 52.24.

§ 52.5 Effect of an approved constitution.

A reorganized tribe is a corporation which is separate and distinct from the business corporation which may be formed under section 17 of the Indian Reorganization Act. The continued existence of the former is not essential to that of the latter. Its constitution may endow it with both governmental and proprietary functions in contrast to a tribal charter which grants only the latter function. An approved constitution where consistent with law shall prevail over any inconsistent regulation of the Department of the Interior.

§ 52.6 Amendment and revocation of tribal constitutions and/or bylaws.

A constitution and/or bylaws may be amended or revoked by means of a Secretarial election open to the same voters and conducted in the same manner as that held for their adoption, but amendments require the approval of the Secretary (25 U.S.C. 476). An election to amend a constitution may be called by the Secretary. An election to revoke a constitution shall be called if requested by the tribal governing body or by a petition presented to it by the majority of the adult members of the tribe, or by the Secretary.

§ 52.7 Tribal ordinances and resolutions.

Many of a tribe's constitutional powers are not self-executing and must be implemented by ordinances and resolutions of its governing body. These constitute respectively the tribe's written laws and the formal expression of its will. These do not need the approval of officials of the Department of the Interior unless required by treaty, Federal statute, regulation pursuant to statute or by the tribal constitution itself.

§ 52.8 Review of tribal ordinances and resolutions.

Where, pursuant to treaty, Federal statute, regulation pursuant to statute or tribal constitution, the Secretary is required to review or approve any tribal ordinance or resolution, his approval will be confined to those matters contained therein requiring his review. The Secretary may approve the resolution in whole or in part and/or may return the same to the governing body for separation, provided the authority to disapprove in part is exercised only where the disapproved part is determined to deal with separate and separable subjects. It would not be proper to use the disapproval power to amend a resolution by striking out a portion dealing with the same subject matter as the remaining portion of the resolution.

§ 52.9 Denial of authority of governing body.

When the Secretary finds that a governing body is acting outside the scope of its constitutional authority or inconsistent with law, he may refuse to acknowledge the authority or actions of the governing body.

§ 52.10 Secretarial elections.

Secretarial elections for the adoption, amendment, or revocation of a tribal constitution shall be conducted as indicated in §§ 52.11 through 52.25.

§ 52.11 Election Board.

(a) There shall be an Election Board consisting of the officer in charge, acting as chairman thereof, and four other persons appointed by him, all of whom must be able to read and write English. In addition, the officer in charge may appoint an interpreter and as many clerks as he deems necessary but they shall not be members of the Board.

(b) It shall be the duty of the Board to conduct elections in substantial compliance with the procedures described in this part and in particular (1) to see that the name of each qualified person desiring to vote is on the official voting list, (2) that ballot boxes are kept locked at all times except when ballots are being counted, (3) that the ballot is cast by the voter himself and that thereupon the said list be checked to indicate this, (4) to count the regularly cast ballots immediately after the close of the polls, the absentee ballots immediately after expiration of the time for their receipt, and return all the ballots in the ballot boxes, which should be marked and locked together with all unused ballots, and the certified election returns, to the officer in charge.

§ 52.12 District Election Boards.

Where the reservation has been divided into voting districts either by the tribal constitution, ordinance, or resolution, or by the Election Board, the Election Board shall appoint District Election Boards for each district which shall have the duties above prescribed for the Election Board except that it should return the ballots in the ballot boxes, all unused ballots, and its certification of the district election results to the Election Board which will make the final recapitulation of the election results for the entire reservation and transmit it together with all the aforementioned ballots and ballot boxes to the officer in charge.

§ 52.13 Voting districts.

If voting districts have not already been delimited in the tribal constitution or by tribal ordinance or resolution, and in its judgment voting districts throughout the reservation are needed, the Election Board shall delimit them and designate a polling place for each district, taking into consideration the needs and convenience of tribal members. The regular voting places for State, County, and/or tribal elections shall be selected unless for sufficient reasons the Election Board decides to the contrary.

§ 52.14 Voting list.

The Election Board shall compile an official alphabetical voting list, arranged by voting districts, if any, of the members of the tribe who have attained the age of twenty-one years. A copy of this list shall be supplied to each District Election Board and also posted at the headquarters of the local administrative unit of the Bureau of Indian Affairs and at various public places designated by the Election Board throughout the reservation at least 20 days prior to the election.

§ 52.15 Eligibility disputes.

The Election Board shall determine any written claim to vote presented to it by one whose name is not on the official voting list as well as any written challenge of the right to vote of anyone whose name is on this list, and its decision shall be final. It shall set a date not more than ten or less than five days before the election to pass on all such matters. All claims not presented on or before this date shall be automatically disallowed.

§ 52.16 Election notices.

Not less than twenty (20) nor more than sixty (60) days' notice shall be given of an election unless so authorized by the Secretary. If an election is called upon less than twenty (20) days' notice, sick and absentee voters shall nevertheless be allowed twenty (20) days from the giving of such notice in which to mail or otherwise record their votes. The Election Board shall determine whether the notice shall be given by television, radio, newspaper, poster or mail, or by one or more of these methods and whether in an Indian language in addition to English. A copy of any written notice shall be mailed to each voter and posted at the local administrative unit of the Bureau of Indian Affairs and elsewhere as directed by the Election Board.

§ 52.17 Opening and closing of polls.

The polls shall remain open from 6 a.m. to 6 p.m. unless different hours are set by the Election Board and the voters informed thereof in the election notice.

§ 52.18 Manner of voting.

Any qualified voter may vote by presenting himself at the polls of his voting district within the prescribed voting period, announcing to the officials there his name and address and by marking and placing in the ballot box the ballot which shall be handed to him.

§ 52.19 Ballots.

The Election Board shall cause to be prepared and furnish all ballots but each ballot must be numbered and stamped:

Official Ballot
(Facsimile Signature)
Chairman, Election Board

Should any voter spoil or mutilate his ballot in the course of voting, he shall, in the presence of the election officials, and, with their consent, destroy it; the election officials shall then make note of the destroyed ballot and furnish the voter with another ballot.

§ 52.20 Absentee voting.

Whenever due to illness a qualified voter is not able to vote at the polls and duly causes the Election Board to be notified thereof and when absentee voting is permitted under the terms of the Indian Reorganization Act, he, as well as any non-resident voter, shall be entitled to vote by absentee ballot mailed or given to him or them by the Election Board, provided he or they do so within the time prescribed in § 52.16. The ballot must be returned to the Election Board in a sealed envelope marked on the outside "Absentee Ballot". The Election Board shall make and keep a record of ballots mailed, to whom mailed, the date of mailing, the address on the envelope, the date of the return of such ballot, and from whom received, and shall count and register all such votes after all other ballots have been counted, and include them in the results of the election.

§ 52.21 Publication of election returns.

(a) If the number of absentee ballots issued cannot affect the result of the election, the result shall be posted at the local administrative unit of the Bureau of Indian Affairs and at such other places designated by the Election Board as soon as may be after it has been determined. If the result may be affected by the absentee ballots, the result shall be similarly determined and posted immediately after the time for receipt of such absentee ballots has expired.

(b) Ballots and ballot boxes should be kept under lock and key by the Election Board Chairman for six months after which time they may be destroyed.

§ 52.22 Contesting of election results.

Any qualified voter, within ten days following an election, may challenge the announced election results and request a recount by filing with the Secretary his grounds for the challenge, together with substantiating evidence thereof. If in the opinion of the Secretary, the objections are valid, he shall order a recount or a reelection. The results of the recount shall be final.

§ 52.23 Interpreters.

Interpreters where needed may be provided to explain the manner of voting to such Indians who ask for instruction, and assistance in actual marking of ballots may be rendered provided all reasonable precautions are taken so that the interpreter does not influence the voter in casting his ballot.

§ 52.24 Electioneering.

There shall be no electioneering during voting hours within 200 feet of any voting place.

§ 52.25 Tribal elections.

Tribal election regulations need not but may be the same as Secretarial election regulations except that no Bureau of Indian Affairs official may be a member of any Election Board. They may be modeled after those of the State in which the reservation is located so that in case of a dispute as to the meaning of an election ordinance it may be construed analogously to that of the State.

§ 52.26 Powers of the governing body.

Tribal constitutions should expressly confer upon the governing body those powers needed to perform tribal governmental functions within the area under its jurisdiction and those proprietary powers required to manage its property and resources and the governing body shall have all implied powers necessary to carry out these express governmental and proprietary powers.

§ 52.27 Restrictions on tribal power.

Where tribal power is restricted or otherwise controlled by treaty or statute, no constitutional provision, ordinance, or resolution contrary thereto shall be valid.

§ 52.28 Subordinate units.

A tribal constitution may confer on its governing body the right to establish subordinate units such as committees, boards, or tribal agents and to grant certain powers to them. Such a unit enjoys no legal existence independent of the tribe and has no authority greater than that granted to it by the governing body of the tribe to whom it is answerable for its actions. A Federal corporation chartered under section 17 of the Indian Reorganization Act is not such a subordinate unit.

§ 52.29 Tribal membership.

Tribal constitutional provisions shall set forth the criteria for present and future tribal membership and all tribal ordinances and resolutions must be in strict conformity with the provisions in this part and any regulations thereon issued by the Secretary pursuant to Federal statute and published in the Code of Federal Regulations or the FEDERAL REGISTER. Tribal membership is ordinarily for life unless terminated by the governing body for reasons permitted by the tribal constitution or by the voluntary, written resignation of the member.

§ 52.101 List of Reorganized Tribes with constitutions in conformity with this part. [Reserved]

§ 52.102 List of Reorganized Tribes with constitutions approved under prior regulations.

Name and Effective Date of Constitution or Amendment

The Apache Tribe of the Mescalero Reservation, New Mexico; March 25, 1936.

The Bad River Band of the Lake Superior Tribe of Chippewa Indians, Wisconsin; June 20, 1936; amendment I, December 1, 1942; amendment II, October 31, 1944.

The Bay Mills Indian Community, Michigan; November 4, 1936; amended November 27, 1937.

The Big Valley Band of Pomo Indians of the Big Valley Rancheria, California; January 15, 1936; amended May 13, 1940.

The Blackfeet Tribe of the Blackfeet Indian Reservation, Montana; December 13, 1935; amendment I, January 18, 1946; amendment II, May 24, 1950.

The Cachil Dehe Band of Wintun Indians of the Colusa Indian Community, California; November 23, 1941.

The Catawba Tribe of Indians, South Carolina; June 30, 1944.

The Cheyenne River Sioux Tribe, South Dakota; December 27, 1935.

The Chippewa Cree Tribe of the Rocky Boy's Reservation, Montana; November 23, 1935.

The Colorado River Indian Tribes of the Colorado River Reservation, Arizona and California; August 13, 1937.

The Covelo Indian Community, California; December 16, 1936; amended February 24, 1959.

The Duckwater Tribe of Indians of the Duckwater Reservation, Nevada; November 28, 1940; amendment I, June 6, 1944.

The Flandreau Santee Sioux Tribe, South Dakota; April 24, 1936; amended January 6, 1941, and March 17, 1950.

The Forest County Potawatomi Community, Wisconsin; February 6, 1937.

The Fort Belknap Indian Community, Montana; December 13, 1935; amended February 7, 1944.

The Three Affiliated Tribes of the Fort Berthold Reservation, North Dakota; June 29, 1936; amended October 16, 1956.

The Fort Bidwell Indian Community, California; January 28, 1936; amended June 8, 1940, and February 4, 1942.

The Fort McDermitt Paiute and Shoshone Tribe, Nevada; July 2, 1936.

The Fort McDowell Mohave-Apache Community, Arizona; November 24, 1936.

The Gila River Pima-Maricopa Indian Community, Arizona; May 14, 1936; amended September 9, 1946, and March 17, 1960.

The Confederated Tribes of the Goshute Reservation in Utah; November 25, 1940.

The Hannahville Indian Community, Michigan; July 23, 1936.

The Havasupai Tribe of the Havasupai Reservation, Arizona; March 27, 1939.

The Hopi Indian Tribe, Arizona; December 19, 1936.

The Hualapai Tribe of the Hualapai Reservation, Arizona; December 17, 1938; amended September 20, 1948, and October 22, 1955.

The Iowa Tribe in Nebraska and Kansas; February 26, 1937.

The Jicarilla Apache Tribe of New Mexico; August 4, 1937; amended July 11, 1960.

The Kaibab Band of Paiute Indians of the Kaibab Reservation, Arizona; June 15, 1951.

The Kalispel Indian Community of the Kalispel Reservation, Washington; March 24, 1938.

The Kashia Band of Pomo Indians of the Stewart's Point Rancheria, California; March 11, 1936; amended May 19, 1940.

The Keweenaw Bay Indian Community, Michigan; December 17, 1936.

The Kickapoo Tribe in Kansas; February 26, 1937.

The Lac du Flambeau Band of the Lake Superior Chippewa Indians of Wisconsin; August 15, 1936; amendment I, November 8, 1941; amendment II, June 2, 1945.

The Lower Brule Sioux Tribe, South Dakota; November 27, 1935; amended February 4, 1942.

The Lower Sioux Indian Community in the State of Minnesota; June 11, 1936.

The Makah Indian Tribe, Washington; May 16, 1936.

The Manchester Band of Pomo Indians of the Manchester Rancheria, California; March 11, 1936; amended May 27, 1939.

The Me-wuk Indian Community of the Wilton Rancheria, California; January 15, 1936; amended May 21 1940.

The Minnesota Chippewa Tribe; July 24, 1936.

The Mississippi Band of Choctaw Indians; May 22, 1945.

The Moapa Band of Paiute Indians; April 17, 1942.

The Muckleshoot Indian Tribe, Washington; May 13, 1936.

The Nisqually Indian Community, Washington; September 9, 1946.

The Northern Cheyenne Tribe, Montana; November 23, 1935; amended July 8, 1960.

The Oglala Sioux Tribe of the Pine Ridge Reservation, South Dakota; January 15, 1936.

The Omaha Tribe of Nebraska; March 30, 1936; amended July 9, 1954.

The Oneida Tribe of Indians of Wisconsin; December 21, 1936; amended June 3, 1939.

Division of Public Contracts

[41 CFR Part 50-202]

PHOTOGRAPHIC AND BLUEPRINTING EQUIPMENT AND SUPPLIES INDUSTRY

Tentative Decision in Determination of Prevailing Minimum Wages

A record of proceedings held under sections 1 and 10 of the Walsh-Healey Public Contracts Act (41 U.S.C. 35 and 45(a)) to determine the prevailing minimum wages for persons employed in the photographic and blueprinting equipment and supplies industry has been certified by the hearing examiner. A tentative decision, including a statement of findings and conclusions, as well as the reasons and basis therefor, on all material issues of fact, law, and discretion presented on the record, and any proposed wage determination is now appropriate under the rules of practice, 41 CFR Part 50-203.21(b), and the Administrative Procedure Act (5 U.S.C. 1006 (b)).

Definition. The notice of hearing defined the photographic and blueprinting equipment and supplies industry as that industry which manufactures or furnishes photographic or blueprinting equipment and supplies.

(1) Photographic equipment and supplies was defined to include all types of still and motion-picture cameras; projection apparatus, including screens; lenses; shutters; photocopy and microfilm equipment; developing and dark-room equipment, including developing tanks and machines, enlargers, plates and film holders, and prepared developers, toners and fixers; lighting equipment, such as studio-type or other floodlighting and flash units; tripods; film reels; and sensitized film, paper and plates.

Expressly excluded were the making, processing or finishing of photographs or photographic reproductions of any kind, including still or motion pictures; photographic meters; photoflash, power pack and other batteries; and photographic bulbs, tubes, and related light sources.

(2) Blueprinting equipment and supplies was defined to include machines and other apparatus and equipment used in blueprinting, the diazotype process (whiteprinting), and other related processes; sensitized blueprint paper and cloth, diazotype sensitized paper, cloth, film, and other similarly sensitized materials; and specially prepared developing solutions intended for use with such sensitized materials, but excluding the manufacture of blueprints or diazoprints (whiteprints).

Neither the management nor labor groups challenge the appropriateness of the definition as proposed in the notice of hearing. The content of the definition is not substantially different from the one currently in effect (41 CFR 50-202.30). After full consideration of the record, I find that the definition as proposed in the notice is appropriate for this industry.

Product division. In the wage determination currently in effect (41 CFR 50-202.30), there are separate determinations for two branches of this industry, photographic equipment and supplies, and blueprinting equipment and supplies. The same minimum wage was determined for each of them.

In the present proceedings, the management groups, the National Association of Photographic Manufacturers, representing the photographic branch, and the National Association of Blueprint and Diazotype Coaters, representing the blueprinting branch, made no recommendations concerning the advisability of separate determinations for the two branches. The labor group, represented by the American Federation of Labor and Congress of Industrial Organizations (AFL-CIO), states that there should be a single determination, with no special distinction between the photographic and the blueprinting branches.

While there is evidence relating to the diversity of products and composition of the labor force within the industry, there would seem to be greater divergence between establishments within the photographic equipment and supplies branch than there is between this branch and the blueprinting equipment and supplies branch. All the products of the industry, photographic and blueprinting, are classified in the same Standard Industrial Classification industry, No. 3861—Photographic Equipment and Supplies, with the sole exception of photographic lenses, which are classified with Optical Instruments and Lenses, No. 3831. The evidence indicates a number of establishments whose primary product is in each branch also produce products of the other. There is not a large difference between the minimum wages characteristic of each branch. The median establishment in the blueprinting branch pays a minimum wage of $1.47, whereas $1.40 is the comparable figure for the photographic branch. Establishments employing a majority of covered workers in the blueprinting branch had a lowest minimum wage of $1.53, as compared with $1.55 for the photographic establishments. Based upon these considerations, I find that the redetermination should be for the industry as a whole, without product division.

Locality. The notice of hearing informed interested persons that they could appear at the hearing and submit evidence, views, and arguments as to whether there should be a single determination for all the area in which the industry operates or separate determinations for smaller geographic areas (including the appropriate limits for such areas). Neither the National Association of Photographic Manufacturers nor the National Association of Blueprint and Diazotype Coaters took a position on this issue. The labor witness opposed such division on the ground that there is industrywide competition for the contracts which would be subject to the determination.

The wage survey divides the nation into four geographic localities worked out cooperatively with the management group. The calendar year 1958 was selected as a sample to investigate whether the locality of manufacture of products which would be subject to this determination could be defined more narrowly than all that area in which the industry has its plants based on the destination for such products specified in the various solicitations for offers and invitations for bids.

Approximately 70 percent of the procurement in this industry was found to result from such solicitations and offers originating with the military establishments and the Veterans Administration. Each of the four geographic localities made both successful and unsuccessful bids contemplating delivery of its product into each of the other three regions. Slightly less than two-thirds of the unsuccessful bids and slightly more than two-thirds of the successful bids contemplated inter-regional delivery. Twenty-eight percent of the total procurement in the industry was governed by the General Services Administration Federal Supply Schedules compiled under the multiple award system. In each of the four localities 31 percent to 75 percent of the establishments were operated by contractors who obligated themselves to deliver from such establishments at least one item anywhere in the United States at the same price. This obligation extended to 61 percent of the items in this portion of the procurement. A comparable picture of industry-wide competition is presented by the tabular analyses of the several other systems of procurement in this industry.

Under all these circumstances, separate determinations for separate geographic areas would not be in accord with the purposes of the Act, and I find that the locality in which the materials, supplies, articles, or equipment are to be manufactured or furnished under contracts subject to the Act in the photographic and blueprinting equipment and supplies industry cannot be defined for any particular contract more narrowly than all of that area in which the industry has its establishments.

Prevailing Minimum Wages. The American Federation of Labor and Congress of Industrial Organizations urges that as of the wage survey date a rate of $1.55 per hour was the prevailing minimum wage for both branches of the industry in all of the area where the industry has its plants. It opposes any special minimum wage determination for beginners. In addition, it would add to the $1.55 figure eight cents to represent increases in the prevailing minimum wage which have occurred since the survey date. The result is recommendation of $1.63 per hour for both branches of the industry as the prevailing minimum wage in all of the area where the industry has its plants. The National Association of Photographic Manufacturers requests that I give careful consideration to a rate not to exceed $1.30. The National Association of Blueprinting and Diazotype Coaters makes no recommendation regarding prevailing minimum wages.

The labor proposal of $1.55 as of the time of the survey is based on the tables of minimum wages actually paid. A large majority of covered workers (71.8 percent) were employed in plants where no covered worker was paid less than this amount, although these were less than a majority of all of the plants (32.1 percent). Taking cognizance of the influence on the wage data by the single largest plant in the industry with 17,357 covered workers, the unions point out that even excluding the data for this one plant, 43.4 percent of the plants with a majority of the covered employment paid no covered worker less than $1.48.

The National Association of Photographic Manufacturers observes that a higher rate than its recommended $1.30 would exceed the lowest rate paid in 41.8 percent of all establishments; any higher rate would also exceed the lowest rate of 44.7 percent of the small establishments and the lowest established hiring rate in 47 percent of all establishments. An examination of the Bureau of Labor Statistics tables reveals that a minimum rate of $1.30 or more was actually paid by 62 percent of the establishments with 88.9 percent of all covered workers. Even a consideration of the data concerning size of establishments indicates that this rate was actually paid by 57.8 percent of establishments employing 100 or less workers with 51.2 percent of the total covered employment in such establishments. Similarly, 58.1 percent of all establishments with 88.3 percent of total covered employment had a lowest established hiring rate or paid a lowest rate of $1.30 or more in the photographic branch. Obviously, the evidence does not support a rate as low as $1.30 as the prevailing minimum wage in this industry.

Before making the determination of the prevailing minimum wage, it is necessary to decide whether or not a tolerance will be provided for beginners, defined as new inexperienced covered employees receiving orientation or initial training and receiving an hourly rate or straight-time hourly earnings below those of the lowest paid experienced workers in the same job. Both labor and mangement groups agreed prior to the hearing that the practice of employing beginners was not prevalent in this industry and for this reason data on beginners' rates were not collected by the Bureau of Labor Statistics in its survey. At the hearing, the labor group recommended that no tolerance for beginners be allowed and the management groups acquiesced by their silence on this issue. In view of these considerations, the objectives of the Act will be more fully accomplished by not providing a separate rate for beginners.

The data showing the lowest wages actually paid indicate that the minimum wage paid by the median establishment was $1.40 an hour, but the minimum wage paid by the median of the several establishments weighted for employment was $1.55 an hour. However, the latter minimum wage was greatly affected by employment in the largest plant of the industry, which paid that minimum wage and which employed 49.9 percent, or about one-half, of all covered workers. Establishments paying more than the minimum wage of $1.55 employed only 21.9 percent of the covered workers, while those paying less employed only 28.2 percent of the covered workers. Because of this dominant effect of the largest plant in terms of employment, I deem it appropriate to balance its minimum wage against those of the remaining plants of the industry, which employ the remaining half of the covered workers, and which have a median minimum wage of $1.40. This results in a minimum wage that lies in the penny interval between $1.47 and $1.48. I conclude, therefore, that $1.47 was the prevailing minimum wage as of the survey date.

The unions advocate that there be added to the prevailing minimum wage 8 cents for wage increases between the date of the survey and the hearing date.

Although the unions did not undertake a survey of increases on a plant-by-plant basis, they did submit data of wage increases in 11 establishments in the industry with 20,439 employees. Amounts of the increases ranged from 4 cents to 8 cents an hour, or from 3 percent to 5 percent. In addition, they presented data derived from the Bureau of Labor Statistics monthly earnings series, which showed that between January 1959 and December 1959, gross average hourly earnings had increased by 12 cents, 4 cents of which resulted from overtime premium pay. There is evidence that the largest establishment in this industry with about one-half of the total covered employment of the industry granted a 5 percent wage increase in late January 1959. Again, by weighting the other establishments so as not to give undue prominence to this establishment, I find that there has been a five cent wage increase in this industry from the survey date to the hearing date. It is conceded that this large establishment increased its minimum wage by eight cents per hour. A mathematical analysis of the available evidence on wage increases would indicate that the other establishments in the industry have increased their minimum wage rates by an average of one to two cents an hour. These two figures average approximately five cents per hour and justify a five-cent figure. This tentative decision determines that the prevailing minimum wage has increased five cents per hour from the $1.47 it was in January–February 1959, and that it is $1.52 per hour.

Accordingly, upon the findings and conclusions stated herein, pursuant to authority under the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U.S.C. 35 et seq.), and in accordance with the Administrative Procedure Act (60 Stat. 237; 5 U.S.C. 1001 et seq.), notice is hereby given that I propose to amend 41 CFR 50–202.30 to read as follows:

§ 50–202.30 Photographic and blueprinting equipment and supplies industry.

(a) *Definition.* The photographic and blueprinting equipment and supplies industry is that industry which manufactures or furnishes:

(1) Photographic equipment and supplies which include all types of still and motion-picture cameras; projection apparatus, including screens; lenses; shutters; photocopy and microfilm equipment; developing and dark-room equipment, including developing tanks and machines, enlargers, plates and film holders, and prepared developers, toners and fixers; lighting equipment, such as studio-type or other floodlighting and flash units; tripods; film reels; and sensitized film, paper, and plates.

Expressly excluded are the making, processing, or finishing of photographs or photographic reproductions of any kind, including still or motion-pictures; photographic meters; photoflash, power pack and other batteries; and photographic bulbs, tubes, and related light sources.

(2) Blueprinting equipment and supplies which include machines and other apparatus and equipment used in blueprinting, the diazotype process (whiteprinting), and other related processes; sensitized blueprint paper and cloth, diazotype sensitized paper, cloth, film, and other similarly sensitized materials; and specially prepared developing solutions intended for use with such sensitized materials, but excluding the manufacture of blueprints or diazoprints (whiteprints).

(b) *Minimum wage.* The minimum wage for persons employed in the manufacture or furnishing of products of the photographic and blueprinting equipment and supplies industry under contracts subject to the Walsh-Healey Public Contract Act shall be not less than $1.52 per hour, arrived at either on a time or piece-rate basis.

(c) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

Within thirty days from the date of the publication of this notice in the FEDERAL REGISTER, interested parties may submit written exceptions, together with supporting reasons, to the tentative decision above set out. Exceptions should be directed to the Secretary of Labor and filed with the Chief Hearing Examiner, Room 4414, United States Department of Labor, Washington 25, D.C.

Signed at Washington, D.C., this 2d day of December 1960.

JAMES P. MITCHELL,
Secretary of Labor.

[Airspace Docket No. 60–WA–262]

FEDERAL AIRWAYS AND CONTROL AREAS

Alteration

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to §§ 600.6300, 600.6471, 601.6300 and 601.6471 of the regulations of the Administrator, the substance of which is stated below.

VOR Federal airway No. 300 extends in part from the United States/Canadian border to the Millinocket, Maine, VOR. VOR Federal airway No. 471 extends in part from the Millinocket VOR to the Houlton, Maine, VOR.

The Federal Aviation Agency has under consideration proposals by the Canadian Department of Transport for the extension of Victor 300 and its associated control areas from the Millinocket VOR to a VOR being installed near Fredricton, New Brunswick, at latitude 45°53′43″ N., longitude 66°25′10″ W.; and extension of Victor 471 and its associated control areas from the Houlton VOR to the intersection of the Houlton VOR 085° True radial and the northwest course of the Fredricton radio range (Burtts Intersection), where it would terminate. The extension of these airways would provide routes for VOR equipped aircraft operating between Millinocket, Houlton and Fredricton.

If these actions are taken:

A segment of VOR Federal airway No. 300 and associated control areas would be designated from the Millinocket, Maine, VOR to the intersection of the Millinocket VOR 078° True radial and the United States/Canadian border.

A segment of VOR Federal airway No. 471 and associated control areas would be designated from the Houlton, Maine, VOR to the intersection of the Houlton VOR 085° True radial and the United States/Canadian border.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B–316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on November 30, 1960.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

[F.R. Doc. 60–11327; Filed, Dec. 6, 1960; 8:45 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60–NY–106]

CONTROL ZONES

Alteration

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 601.2360 of the regulations of the Administrator, the substance of which is stated below.

The South Weymouth, Mass., control zone is presently designated within a 4-mile radius of the South Weymouth Naval Air Station and within 1½ miles east and 2½ miles west of and parallel to a line bearing 155° True extending from the Naval Air Station to a point 10 miles southeast of the South Weymouth nondirectional radio beacon.

The Federal Aviation Agency has under consideration the following alterations to this control zone:

1. Enlarge the 4-mile radius zone to a 5-mile radius zone. This enlargement of the radius zone would provide protection for large heavily laden aircraft arriving and departing the South Weymouth NAS.

2. Alter the control zone extension based on the 155° True bearing from the Naval Air Station. It is proposed to redesignate this extension within 2 miles either side of the 336° True bearing from the South Weymouth radio beacon, extending from the 5-mile radius zone to the radio beacon. This altered extension would provide protection for aircraft executing revised ADF instrument approach procedures at the Naval Air Station.

3. Designate a control zone extension within 2 miles either side of the 165° True radial of the South Weymouth TACAN (latitude 42°09′05″ N., longitude 70°56′82″ W.), extending from the 5-mile radius zone to 7 miles south of the TACAN. This extension would provide protection for aircraft executing the prescribed TACAN instrument approach procedures at the Naval Air Station.

If these actions are taken, the South Weymouth, Mass., control zone would be redesignated within a 5-mile radius of the South Weymouth NAS (latitude 42°08′55″ N., longitude 70°56′25″ W.) within 2 miles either side of the 336° True bearing from the South Weymouth radio beacon extending from the 5-mile radius zone to the radio beacon; and within 2 miles either side of the 165° True radial of the South Weymouth TACAN extending from the 5-mile radius zone to 7 miles south of the TACAN.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B–316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on November 30, 1960.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

[F.R. Doc. 60–11328; Filed, Dec. 6, 1960; 8:45 a.m.]

Notices

DEPARTMENT OF STATE

[Public Notice 177]

REVOCATION OF DELEGATIONS OF AUTHORITY

Pursuant to the authority contained in section 4 of Public Law 73, 81st Congress, as amended, the following Delegations of Authority are hereby revoked:

1. Delegation of Authority to the Chief, Division of Exchange of Persons, Office of Educational Exchange, dated December 21, 1949 (Public Notice #20 dated January 5, 1950; 15 F.R. 21).

2. Delegation of Authority to the Chief, Federal Programs Branch, and Chief, Fulbright Programs Branch, Division of Exchange of Persons, dated May 19, 1950 (Public Notice #46 dated May 26, 1950; 15 F.R. 3237).

The revocation of the above mentioned Delegations of Authority does not affect other Delegations of Authority relating to the same subject matter.

Dated: November 18, 1960.

For the Secretary of State.

LANE DWINELL,
Assistant Secretary of State for Administration.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[Order 36 (Rev. 1)]

DIRECTOR OF INTERNATIONAL OPERATIONS

Delegation of Authority Extended to Panama Canal Zone, Puerto Rico and Virgin Islands

NOVEMBER 23, 1960.

Pursuant to the authority vested in me by Commissioner Delegation Order No. 33, dated June 6, 1956, it is hereby ordered:

1. Subject to the limitations contained in paragraph 2, there are delegated to the Director of International Operations the functions of administering the United States internal revenue laws in the Panama Canal Zone, Puerto Rico, and the Virgin Islands of the United States, and in all other areas of the world outside the United States, to the extent of the authority delegated by Commissioner Delegation Order No. 32, dated May 1, 1956.

2. Nothing in this order shall be deemed to affect the procedures for administrative appeal existing immediately prior to August 1, 1956, or any function of the Assistant Regional Commissioner (Alcohol and Tobacco Tax), New York City Region.

This order supersedes Delegation Order No. 36, which was effective August 1, 1956, and is issued for the sole purpose of eliminating from the latter order the words "and the territories of Alaska and Hawaii".

Effective date: November 23, 1960.

[SEAL] WILLIAM H. LOEB,
Assistant Commissioner (Operations).

APRIL 9, 1956.

1. Pursuant to authority delegated to the Alaska Operations Supervisor by Bureau Order 541, dated April 21, 1954 (19 F.R. 2473), as amended, the following described lands were classified as suitable for lease and sale for recreational purposes under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U.S.C. 682a), as amended:

FAIRBANKS MERIDIAN

T. 7 S., R. 5 E.,
Section 13: SW¼SE¼.

Containing 40 acres.

2. Classification of the above described lands segregated them from all appropriations, including locations under the mining laws, except as to applications under the mineral leasing laws.

3. The lands classified in the above noted Order are not subject to application under the Small Tract Act of June 1, 1938, as amended, until so provided by an order, as provided for by paragraph three of the Order, to be issued by an authorized officer opening the lands.

4. Small Tract Classification Order No. 110, dated April 9, 1956, is hereby amended by the addition of the following paragraph:

Nothing in this order shall preclude application for state selection in accordance with and subject to the provisions of the Act of July 28, 1956 (70 Stat. 709; 48 U.S.C. 46-3b) and section 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339).

RICHARD L. QUINTUS,
Operations Supervisor, Fairbanks.

FEDERAL POWER COMMISSION

[Docket No. CP61-101]

NORTHERN NATURAL GAS CO.

Notice of Application and Date of Hearing

NOVEMBER 30, 1960.

Take notice that on September 30, 1960, as supplemented on October 27, 1960, Northern Natural Gas Company, 2223 Dodge Street, Omaha 1, Nebraska, (Applicant), filed in Docket No. CP61-101 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to acquire by merger and operate all of the existing jurisdictional natural gas facilities presently owned and operated by Permian Basin Pipeline Company (Permian), all as more fully set forth in the application and exhibits, as supplemented, which are on file with the Commission and open to public inspection.

Permian owns and operates a natural gas pipeline system consisting of approximately 787 miles of main, gathering and supply pipelines, 19 compressor stations with a total of 77,150 installed horsepower, various processing plants and other related facilities. Through these facilities, Permian transports natural gas obtained in West Texas and in Lea County, New Mexico, to its Plains Measuring Station in Yoakum County, Texas, for delivery and sale to Applicant in quantities up to 475,000 Mcf per day (actually delivered at Plains Station to facilities of El Paso Natural Gas Company, which, in turn, delivers equivalent volumes to Applicant near Dumas, Texas, and in Beaver County, Oklahoma). Permian also transports up to 225,000 Mcf per day for El Paso, and sells gas to Pioneer Natural Gas Company for resale, as well as a number of small intrastate sales, mainly for irrigation purposes.

Applicant presently owns approximately 93 percent of the common stock and approximately 58 percent of the preferred stock of Permian, plus all of the $15,460,000 of sinking fund promissory notes outstanding. Applicant proposes to exchange 0.45 of a share of its own common stock for each share of Permian's common stock not owned by Applicant, and one share of its own preferred stock for each share of Permian's preferred stock not owned by Applicant. Applicant will then cancel all of its Permian stock. Applicant will also assume all the corporate debts and liabilities of Permian and will cancel all intercorporate debts.

Applicant will record the acquired facilities at original cost and related depreciation reserve on its books as they are now carried on Permian's books, namely, original cost of utility plant as of June 30, 1960, $76,806,162, with a related reserve for depreciation of $14,339,399, or a depreciated investment of $62,466,763. There will be no acquisition adjustment.

Applicant will adopt Permian's filed FPC Gas Tariff, with the exception of Rate Schedule P-1 (under which the sale to Applicant is made) which will be cancelled.

Applicant states that the proposed merger will eliminate duplication of fees, accounting and administration expenses, and the filing of separate reports to Federal and state agencies. Eliminating duplication of certain franchise and personal taxes would save the simplified corporation $174,338 per year, based on 1959 figures, it is claimed. The merger would simplify the physical operation of the combined systems, eliminate the need to maintain separate accounts for Permian's operations and inter-company transactions and result in savings to Applicant and its customers.

No abandonment of service will result from the proposed merger as Applicant will continue to render all the services now rendered by Permian.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 22, 1960 at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 20, 1960. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11329; Filed, Dec. 6, 1960; 8:45 a.m.]

[Docket No. RI61-264]

SINCLAIR OIL & GAS CO.

Order Providing for Hearing on and Suspension of Proposed Change in Rate and Making Rate Effective Upon Filing of Agreement and Undertaking

NOVEMBER 30, 1960.

On October 31, 1960, Sinclair Oil & Gas Company[1] (Sinclair) tendered for filing a proposed change in a presently effective rate schedule for its jurisdictional sales of natural gas to Southern Natural Gas Company (Southeran Natural) in Southern Louisiana, from Duck Lake and Lake Sand Fields in St. Mary, St. Martin and Iberia Parishes, Louisiana. The delivery of this gas is effectuated through an exchange agreement between Sinclair and Humble Oil & Refining Company (Humble) whereby gas produced by Sinclair in the Pledger Field, Brazoria County, Texas, is delivered to Humble and Humble delivers to Southern Natural for Sinclair's account gas produced in the Duck Lake and Lake Sand Fields.

The Sinclair rates on gas delivered to Southern Natural were filed and/or tendered at 14.65 psia pressure measurement, and the current effective rate and the proposed rate have been converted to 15.025 psia, the standard base for Louisiana. The proposed changes are as follows:

Description: Notice of Change dated October 31, 1960.
Rate schedule designation: Supplement No. 10 to Sinclair's FPC Gas Rate Schedule No. 97.
Effective date: December 1, 1960 (effective date is the date proposed by Sinclair).
Rate in effect: 15.384 cents.
Proposed increased rate: 15.8968 cents.
Annual increase: $137,168.

The proposed change may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the proposed change and that the above-designated supplement be suspended and use deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that Sinclair's proposed increased rate be made effective as hereinafter provided and that Sinclair be required to file an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), public hearings shall be held upon the dates to be fixed by notices

[1] Address: P.O. Box 521, Tulsa 2, Oklahoma.

from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in the above-designated supplement.

(B) Pending hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until December 2, 1960, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) The above designated supplement shall become effective as of December 2, 1960: *Provided, however,* Within 20 days from the date of issuance of this order, Sinclair executes and files with the Secretary of the Commission its agreement and undertaking to comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder (prescribed by Order 215 and 215A), signed by a responsible officer of the corporation, evidenced by proper authority, from the Board of Directors and accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved. Unless Sinclair is advised to the contrary within 15 days after the filing of such agreement and undertaking, its agreements and undertaking shall be deemed to have been accepted.

(D) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until the period of suspension has expired, unless otherwise ordered by the Commission.

(E) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure [18 CFR 1.8 and 137(f)] on or before January 16, 1961.

By the Commission (Commissioner Kline dissenting).

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11330; Filed, Dec. 6, 1960; 8:45 a.m.]

PACIFIC POWER & LIGHT CO.

[Docket No. E-6970]

Notice of Application

NOVEMBER 30, 1960.

Take notice that on November 25, 1960, an application was filed with the Federal Power Commission pursuant to section 203 of the Federal Power Act by Pacific Power & Light Company ("Pacific") authorizing the acquisition by Applicant of all of the utility assets now owned by Southern Wyoming Utilities Company ("Southern Wyoming") and substantially all of the electric assets now owned by the Union Pacific Coal Company ("Coal Company"). Applicant is a public utility engaged principally in the business of generating, purchasing, transmitting, distributing, and selling electric energy in Oregon, Washington, Wyoming, Montana and Idaho. Applicant also supplies water, steam heating and telephone service in various communities in its service area. Applicant's principal business office is in Portland, Oregon. Southern Wyoming and Coal Company are wholly owned subsidiaries of Union Pacific Railroad Company and operate properties situated in Carbon and Sweetwater Counties in Wyoming. Said properties are used to provide electric and water service to the communities of Green River, Rock Springs and Hanna, Wyoming and adjacent areas. The base consideration to be paid by Applicant for the facilities to be acquired is $3,200,000 subject to certain adjustments as set forth in the Letter Agreement, dated October 26, 1960, between Union Pacific Railroad Company, Coal Company and Applicant.

Applicant states that if the acquisition of the above-described electric utility facilities is authorized, it plans ultimately to integrate such facilities with its existing Wyoming network, which network is now integrated with those of other utilities and power pools. According to the application, such integration will provide abundant and dependable supplies of power to meet the needs of expanding business, new homes and ranches and will make available adequate electric power in the area for industrial development resulting from utilization of that area's natural resources. The water properties will continue to be operated substantially as they are presently being operated with such improvements as in the judgment of Applicant may be necessary. No rate increases will be required as a result of the proposed acquisition of such electric and water utility assets. Applicant states further that such acquisition will not to its knowledge have any effect upon any contract for the purchase, sale of interchange of any electric energy.

Any person desiring to be heard or to make any protests with reference to said application should on or before the 19th day of December 1960, file with the Federal Power Commission, Washington 25, D.C., petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file and available for public inspection.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11331; Filed, Dec. 6, 1960; 8:45 a.m.]

[Project No. 2187]

PUBLIC SERVICE COMPANY OF COLORADO

Notice of Application for License

NOVEMBER 30, 1960.

Public notice is hereby given that Public Service Company of Colorado, Denver, Colorado, has filed application under the Federal Power Act (16 U.S.C. 791a-825r) for license for constructed Project No. 2187 located on South Clear Creek a tributary stream in the South Platte River Drainage Basin, in Clear Creek County, Colorado, affecting lands of the United States within the Arapahoe National Forest and other lands of the United States. The project consists of the Murray, Silver Dollar Lake and Forebay reservoirs; Clear and Green Lakes; a gravity pipe line; pressure pipe line; Silver Dollar Ditch; Georgetown powerhouse containing two 720 kw generators; substation; switchyard; and appurtenant facilities.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is January 30, 1961. The application is on file with the Commission for public inspection.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11332; Filed, Dec. 6, 1960; 8:45 a.m.]

[Docket No. CP60-36 etc.]

UNITED GAS PIPE LINE CO. ET AL.

Notice of Applications Consolidating Proceedings and Date of Hearing

NOVEMBER 30, 1960.

United Gas Pipe Line Company, Docket No. CP60-36; Gulf Oil Corporation, Docket No. CI60-43; Tidewater Oil Company, Docket No. CI60-142.

Take notice that United Gas Pipe Line Company (United Gas), a Delaware corporation, with its principal place of business at 1525 Fairfield Avenue, Shreveport, Louisiana, filed an application in Docket No. CP60-36 and a supplement thereto on February 15, 1959, and March 31, 1960, respectively, pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing it to construct and operate approximately 59.4 miles of 36-inch pipeline, a purchase meter station, a check-meter station and other appurtenant facilities which will enable it to transport natural gas to be purchased from Gulf Oil Corporation (Gulf) and Tidewater Oil Company (Tidewater) in interstate commerce for resale. These proposed facilities will connect with the 30-inch transmission pipeline known as the Lirette-Mobile line at a point near Lirette, Terrebonne Parish, Louisiana, and extend easterly through the parishes of Lafourche and Jefferson to a point in the Bastian Bay area of Louisiana. These facilities just described will be used to transport a flow of approximately 330,000 Mcf of natural gas per day at 14.9 psia.

The estimated cost of the proposed facilities is $16,917,010.

United Gas proposes to finance the costs by various means including the sale of bonds, debentures and common stock to United Gas Corporation, an affiliate holding company, and the expenditure of earnings, depreciation and amortization reserves.

On January 15, 1960, Gulf Oil Corporation, a Pennsylvania corporation, whose post office address is Drawer 2100, Houston, Texas, filed an application in Docket No. CI60-43 pursuant to section 7 of the Natural Gas Act for a certificate authorizing the sale of natural gas from certain lands and leases located in the Bastian Bay Field in Plaquemines Parish, Louisiana (all as more fully described in the application), to United Gas Pipe Line Company, above mentioned.

The proposed sale is to be made under the terms of a gas sales contract dated December 22, 1959, a copy of which is attached to the application on file. This document provides that it is subject to cancellation if another similar contract which United Gas has with Tidewater Oil Company is cancelled by Tidewater. The initial price to be charged by the producer is 24.8 cents per Mcf, including tax reimbursement; this initial price is to escalate by 2½ cents per Mcf on July 1, 1962, and thereafter price adjustments are to be made on July 1, 1967, and 1972 respectively. The estimated initial volume of gas to be delivered is 45,000 Mcf per day at 1,025 psig. The exact point of delivery of the gas to be sold is the subject of further agreement, but the point to be determined must lie within the Bastian Bay Field.

On February 4, 1960, Tidewater Oil Company (Tidewater Oil) a Delaware corporation, with its principal office in Los Angeles, and its correspondence office relating to this application is Post Office Box 1404, Houston 1, Texas, filed an application in Docket No. CI60-142, pursuant to section 7 of the Natural Gas Act for a certificate authorizing it to sell natural gas to be produced by it from certain lands and leases located in the West Bastian Bay Field, Plaquemines Parish, Louisiana, under the terms of a gas sales contract made on December 28, 1959, with United Gas Pipe Line Company, above mentioned.

The initial price to be charged is 24.8 cents per Mcf, including tax reimbursement. No liquid hydrocarbons are included and an escalation of 2.5 cents per Mcf on July 1, 1962, is provided for, together with other price adjustments to be redetermined for the last two five-year periods of the twenty-year term. The estimated initial volumes of 50,000 Mcf per day at a maximum pressure of 1025 psig at the point of delivery is agreed to.

The area covered by the leases affected by Tidewater Oil's contract is approximately 3,800 net acres in which it says that it holds 50 percent interest in the land and 25 percent in the water-bottom properties of the West Bastian Bay Field; but the commitment under the contract is limited to only the gas which may be produced from reservoirs lying between the surface and the base of "X" Sand Formation.

Tidewater Oil avers that it is not subject to the jurisdiction of the Federal Power Commission and that it is not a "natural gas company". It also states that the gas to be delivered under said contract will be transported in interstate commerce and re-sold by United Gas for public consumption. The point of delivery of the gas to be sold as above mentioned, is at a central platform in the field.

These related matters should be heard together in a consolidated proceeding and disposed of as promptly as possible under the applicable rules and regulations, and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 4, 1961, at 10:00 a.m., e.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 23, 1960.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11333; Filed, Dec. 6, 1960; 8:46 a.m.]

[Docket No. CP61-116]

UNITED GAS PIPE LINE CO.

Notice of Application and Date of Hearing

NOVEMBER 30, 1960.

Take notice that United Gas Pipe Line Company (Applicant), a Delaware corporation with a principal office (1525 Fairfield Ave.) in Shreveport, Louisiana, filed an application pursuant to section 7 of the Natural Gas Act in Docket No. CP61-116 on October 13, 1960, for a certificate of public convenience and necessity authorizing applicant to serve natural gas to Mississippi Gas Corporation (Mississippi) for resale in the communities of Bogue Chitto and Norfield, Lincoln County, Mississippi and environs and also to construct and operate 0.0076 mile of 2-inch pipeline lateral, a tap and meter station and the related appurtenances to render the proposed service. The lateral would take off from a point near Milepost 63 on applicant's 6-inch Jackson-Magnolia transmission line and extend westward to connect with the proposed facilities of Mississippi Gas Corporation. The latter would be a new customer of United.

The foregoing is more fully stated in the application on file with the Commission and open to public inspection.

Mississippi proposes to construct and operate the necessary connection with United's proposed facilities and the distribution facilities in the proposed service area. Such facilities will consist of 1.6 miles of transmission main, connecting United's lateral with the proposed distribution systems to be constructed by Mississippi in the area.

Applicant states that on March 11, 1960, the Board of Supervisors of Lincoln County, Mississippi and on September 6, 1960, the Public Service Commission of the State of Mississippi, respectively, granted Mississippi Gas Corporation a franchise and certificate authorization to serve and distribute natural gas in the Towns of Bogue Chitto and Norfield and environs. The area has no gas service at present.

The fuels now being used are butane and wood.

The population of the proposed service area is estimated at 600 with a 10 percent growth per each decade. The estimated peak day and annual requirements in Mcf at 14.73 psia are as follows:

Year	Peak day	Annual
1	163	12,285
2	176	13,478
3	191	14,270

The Applicant recites the total cost of Mississippi's project, including contingencies, is estimated at $55,000, which it proposes to finance by a 6 percent mortgage loan, payable from excess revenues of the system over the cost of its operation.

Applicant's proposed facilities are estimated to cost $5,813 which cost is to be defrayed from its current working funds.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 12, 1961, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street, NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 3, 1961. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

MICHAEL J. FARRELL,
Acting Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice 353]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

DECEMBER 2, 1960

The following publications are governed by the Interstate Commerce Commission's general rules of practice including special rules (49 CFR 1.241) governing notice of filing of applications by motor carriers of property or passen-

gers or brokers under sections 206, 209 and 211 of the Interstate Commerce Act and certain other proceedings with respect thereto.

All hearings and pre-hearing conferences will be called at 9:30 o'clock a.m., United States standard time, unless otherwise specified.

APPLICATIONS ASSIGNED FOR ORAL HEARING OR PRE-HEARING CONFERENCE

MOTOR CARRIERS OF PROPERTY

No. MC 1124 (Sub No. 167) (AMENDMENT), filed March 1, 1960, published FEDERAL REGISTER, issue of November 9, 1960. Applicant: HERRIN TRANSPORTATION COMPANY, 2301 McKinney Avenue, Houston, Tex. Applicant's attorney: Leroy Hallman, First National Bank Building, Dallas 2, Tex. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities including Classes A and B explosives*, except commodities of unusual value, household goods as defined by the Commission, commodities in bulk, and those injurious or contaminating to other lading, (1) between Monroe, La., and Natchez, Miss.; from Monroe, via Louisiana State Highway 15 to Ferriday, thence over U.S. Highway 84 to Natchez; (2) between Baton Rouge, La., and Natchez, Miss.; from Baton Rouge, over U.S. Highway 61 to Natchez; (3) between Alexandria, La., and Natchez, Miss.; from Alexandria, over U.S. Highway 165 to junction Louisiana State Highway 8 at Pollock, thence over Louisiana State Highway 8 to junction U.S. Highway 84 at Trout, thence over U.S. Highway 84 to Natchez, serving all intermediate points on each of the above described routes (1), (2), and (3); and (4) between Natchez, Miss., and Crestview, Fla.; from Natchez, over U.S. Highway 98 to Mobile, Ala., thence over U.S. Highway 90 from Mobile to Crestview, serving no intermediate points.

NOTE: The purpose of this republication is to add to the commodities Classes A and B explosives and number (4) route description.

HEARING: Remains as assigned, January 9, 1961, at Louisiana Public Service Commission, Baton Rouge, La., before Joint Board No. 28.

No. MC 1993 (Sub No. 4), filed November 1, 1960. Applicant: C. E. GRANT, Route 3, Mineral, Va. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Treated poles, posts and other wooden fencing materials*, from points in Orange County, Va., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, West Virginia, Wisconsin, and the District of Columbia, and *damaged or rejected shipments*, on return.

HEARING: February 1, 1961, at the U.S. Court Rooms, Richmond, Va., before Examiner Garland E. Taylor.

No. MC 1993 (Sub No. 5), filed November 1, 1960. Applicant: C. E. GRANT, Route 3, Mineral, Va. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Wooden pallets*, from points in Orange, Louisa, and Powhaton Counties, Va., to points in Connecticut, Delaware, Maryland, New Jersey, New York, North Carolina, Ohio, Pennsylvania, South Carolina, West Virginia, and the District of Columbia, and *damaged or rejected wooden pallets*, on return.

HEARING: February 1, 1961, at the U.S. Court Rooms, Richmond, Va., before Examiner Garland E. Taylor.

No. MC 9325 (Sub-No. 12), filed October 17, 1960. Applicant: K LINES, INC., 123 Inman Lane, Grants Pass, Oreg. Applicant's attorney: Earle V. White, Fifth Avenue Building, 2130 Southwest Fifth Avenue, Portland 1, Oreg. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, from Vancouver, Wash., to points in and north of Lane, Deschutes, Crook, Grand, and Baker Counties, Oreg.

HEARING: January 20, 1961, at the Interstate Commerce Commission Hearing Room, 410 Southwest 10th Avenue, Portland, Oreg., before Joint Board No. 45, or, if the Joint Board waives its right to participate, before Examiner Leo A. Riegel.

No. MC 16344 (Sub No. 6), filed July 6, 1959. Applicant: KEYSTONE MOTOR EXPRESS, INC., 2412 Collis Avenue, Huntington, W. Va. Applicant's attorney: John P. McMahon, 44 East Broad Street, Columbus 15, Ohio. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the intermediate points of Portsmouth and Ironton, Ohio, in an eastbound direction in connection with that portion of applicant's regular route authority from Charleston, W. Va., to Cincinnati, Ohio, serving the intermediate points of Huntington, W. Va., and Portsmouth and Ironton, Ohio: from Charleston over U.S. Highway 60 to Huntington, W. Va., and thence over U.S. Highway 52 to Cincinnati. Applicant is authorized to conduct operations in Pennsylvania, West Virginia, and Ohio.

NOTE: Applicant contends it already holds the authority sought by this application under the above-quoted regular route authorization. Applicant states this application is filed only for the purpose of obtaining such authority in the event it should be determined applicant does not presently hold the requested authority.

HEARING: February 2, 1961, at the New Post Office Building, Columbus, Ohio, before Examiner J. Thomas Schneider.

No. MC 17481 (Sub No. 20), filed November 21, 1960. Applicant: MOORE MOTOR FREIGHT LINES, INC., 2091 Kasota Avenue, St. Paul 8, Minn. Applicant's attorney: Glenn W. Stephens, 121 West Doty Street, Madison 2, Wis. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the plant site of the Mid West Steel Corporation, Division of National Steel Corporation, located on U.S. Highway 12 approximately 2 miles west of the Lake-Porter County line at or near Portage, Ind., as an off-route point in connection with present authorized operations to and from the Chicago Commercial Zone.

HEARING: January 11, 1961, at the U.S. Court Rooms, Indianapolis, Ind., before Joint Board No. 72, or, if the Joint Board waives its right to participate, before Examiner John L. York.

No. MC 28733 (Sub No. 4), filed September 6, 1960. Applicant: LESTER AUTO FREIGHT, INC., 526 Southeast Division Place at Grand Avenue, Portland, Oreg. Applicant's attorney: John M. Hickson, Failing Building, Portland 4, Oreg. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives*, and *rejected shipments*, between Portland and Hood River, Oreg., on the one hand, and, on the other, the John Day Dam Site located approximately three (3) miles east of Rufus, Oreg.

HEARING: January 16, 1961, at the Interstate Commerce Commission Hearing Room, 410 Southwest 10th Avenue, Portland, Oreg., before Joint Board No. 172, or, if the Joint Board waives its right to participate, before Examiner Leo A. Riegel.

No. MC 30887 (Sub No. 102), filed November 14, 1960. Applicant: SHIPLEY TRANSFER, INC., 534 Main Street, Reistertown, Md. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank or hopper type vehicles; from Trenton, Mich., to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Ohio, Pennsylvania, and Rhode Island.

HEARING: January 16, 1961, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner David Waters.

No. MC 42487 (Sub No. 486), filed October 24, 1960. Applicant: CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, 175 Linfield Drive, Menlo Park, Calif. Authority sought to operate as a *common carrier*, by motor vehicle, over a regular route, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between Crescent City, Calif., and Eureka, Calif., over U.S. Highway 101, serving the intermediate point of Arcata, Calif., except with no local freight service between the termini.

HEARING: January 25, 1961, at the New Mint Building, 133 Hermann Street, San Francisco, Calif., before Joint Board No. 75, or, if the Joint Board waives its right to participate, before Examiner Leo A. Riegel.

No. MC 42710 (Sub No. 5), filed October 3, 1960. Applicant: BENJAMIN A. RYDER, JAMES B. RYDER, JOSEPH B. RYDER AND JOHN H. RYDER, doing business as BEN'S TRANSFER & STORAGE, Second and Valley, Baker, Oreg. Applicant's attorney: Earle V. White, 2130 Southwest Fifth Avenue, Portland 1, Oreg. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lime*, in bulk, from Wing, Oreg., to points in Asotin, Garfield, and Walla Walla Counties, Wash.

HEARING: January 18, 1961, at the Interstate Commerce Commission Hearing Room, 410 Southwest 10th Avenue, Portland, Oreg., before Joint Board No. 45, or, if the Joint Board waives its right to participate, before Examiner Leo A. Riegel.

No. MC 52657 (Sub No. 602) (REPUBLICATION), filed August 31, 1960, published in the FEDERAL REGISTER, issue of September 28, 1960. Applicant: ARCO AUTO CARRIERS, INC., 7530 South Western Avenue, Chicago 20, Ill. Applicant's attorney: Glenn W. Stephens, 121 West Doty Street, Madison, Wis. By application filed August 31, 1960, applicant sought authority to transport trailers, except those designed to be drawn by passenger automobiles, in initial truckaway service, from points in Allegany County, Md., to points in the United States, except Hawaii. At the hearing held November 16, 1960, Hearing Examiner Francis A. Welch presiding, the application was amended to include the transportation of trailer chassis. A Report and Order, served November 28, 1960, authorizes the transportation of *trailers* (except those designed to be drawn by passenger automobiles) and *trailer chassis*, in initial movements, by the truckaway method, from points in Allegany County, Md., to points in the United States, except Hawaii. The purpose of this republication is to advise that any person or persons who might have been prejudiced by the allowance of the amendment, may, within 30 days from the date of this republication in the FEDERAL REGISTER, file an appropriate pleading.

No. MC 60933 (Sub No. 6), filed November 23, 1960. Applicant: EMPIRE EXPRESS, INC., 520 West 51st Street, New York, N.Y. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City 6, N.J. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Batteries, battery acid, rubber tires and tubes, tire building material, rubber cement, camel back, repair material, air bags, flaps, liners, transmission belting, conveyor belting, farm belts, sheet pack* (rubber), *asbestos sheet pack, matting* (all rubber), *matting* (cloth inserted), *hose* (bales or reels), *hose* (lengths), *V belts, display racks, tile flooring, synthetic film, chemical latex, chemical resin, synthetic rubber*, and *hard rubber*, all shown above in packages, from North Brunswick Township, N.J., to New York, N.Y., and *returned or rejected shipments* of above-described commodities, on return.

HEARING: January 16, 1961, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Jerry F. Laughlin.

No. MC 70662 (Sub No. 90), filed November 3, 1960. Applicant: CANTLAY & TANZOLA, INC., 2550 East 28th Street, Los Angeles 58, Calif. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products* as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from Barstow, Calif., and Las Vegas, Nev., and points within 10 miles thereof, to points in California, Nevada, Utah, and Arizona and *rejected and contaminated shipments* of the above-specified commodities, from above-specified destination points to points in Los Angeles, Ventura and Orange Counties, Calif. on return.

NOTE: This application is filed for the purpose of following the bulk petroleum traffic to new proposed pipeline origins at Barstow and Las Vegas areas, to points in California, Nevada, Utah, and Arizona, which territory is presently served from origin points in Los Angeles, Orange, and Ventura Counties, also referred to as the Los Angeles Basin shipping areas.

HEARING: January 18, 1961, at the Federal Building, Los Angeles, Calif., before Examiner F. Roy Linn.

No. MC 83539 (Sub No. 71), filed October 31, 1960. Applicant: C & H TRANSPORTATION CO., INC., 1935 West Commerce Street, P.O. Box 5976, Dallas, Tex. Applicant's attorney: W. T. Brunson, 419 Northwest Sixth Street, Oklahoma City, Okla. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: A. *Commodities*, the loading, unloading or transportation of which, because of size, weight, or shape, require the use of special equipment, special rigging, or special handling. B. *Parts and accessories*, of commodities described in A above, when moving in connection with shipments of such commodities. C. *Machinery, equipment, materials and supplies*, used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products. D. *Machinery, materials, equipment, and supplies*, used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof. Between points in New York on the one hand, and, on the other, points in Colorado, Montana, North Dakota, South Dakota, and Wyoming. Between points in Idaho, Oregon, Utah, and Washington on the one hand, and, on the other, points in Michigan, New Jersey, New York, Ohio, Pennsylvania, Tennessee, Virginia, and West Virginia.

HEARING: January 30, 1961, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Alton R. Smith.

No. MC 83539 (Sub No. 72), filed October 31, 1960. Applicant: C & H TRANSPORTATION CO., INC., 1935 West Commerce Street, P.O. Box 5976, Dallas, Tex. Applicant's attorney: W. T. Brunson, 419 Northwest Sixth Street, Oklahoma City, Okla. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: A. *Commodities*, the loading, unloading or transportation of which, because of size, weight, or shape, require the use of special equipment, special rigging, or special handling. B. *Parts and accessories* of commodities described in "A" above, when moving with shipments of such commodities. C. *Machinery, equipment, materials and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and dismantling of pipe lines, including the stringing and picking up thereof. Between points in Michigan, New Jersey, New York, Ohio, Pennsylvania, Tennessee, Virginia, and West Virginia, on the one hand, and, on the other, points in Arizona, California, and Nevada.

HEARING: February 6, 1961, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner J. Thomas Schneider.

No. MC 95540 (Sub No. 348), filed November 18, 1960. Applicant: WATKINS MOTOR LINES, INC., Cassidy Road, Thomasville, Ga. Applicant's attorney: Joseph H. Blackshear, Gainesville, Ga. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products* and *articles distributed by meat packing houses*, as defined by the Commission, from Dubuque, Iowa to points in Alabama, Georgia, Mississippi, and points in that part of Louisiana on and east of the Mississippi River including New Orleans, La.

NOTE: The purpose of this republication is to add the commodity *resins*.

HEARING: Remains as assigned January 26, 1961, at the New Post Office Building, Columbus, Ohio, before Joint Board No. 296.

No. MC 118831 (Sub No. 9), filed October 28, 1960. Applicant: CENTRAL TRANSPORT, INCORPORATED, P.O. Box 5044, East College Drive, High Point, N.C. Applicant's attorney: Harry C. Ames, Jr., Transportation Building, Washington 6, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid and dry chemicals*, in bulk, *including synthetic resins, sizings and glues*, in tank and hopper-type vehicles, from Charlotte, N.C., to points in Alabama, Florida, Georgia, South Carolina, and Virginia.

HEARING: December 28, 1960, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Leo A. Riegel.

No. MC 119164 (Sub No. 2) (CORRECTION), filed August 4, 1960, published FEDERAL REGISTER issue of October 5,

1960, and republished in the issue of November 30, 1960. Applicant: J–E–M TRANSPORTATION COMPANY, INC., P.O. Box 444, Middletown, N.Y. Applicant's representative: Charles H. Trayford, 155 East 40th Street, New York 16, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal and poultry feed*, in bulk and in packages, (1) from Jamesburg, N.J., and Howells, N.Y., to points in Pike, Wayne, Susquehanna, Monroe, Lackawanna, Wyoming, and Bradford Counties, Pa.; (2) from Shohola, Pa., and Howells, N.Y., to points in Sussex, Passaic, Bergen, Warren, Morris, Essex, and Hunterdon Counties, N.J.; (3) from Shohola, Pa., and Jamesburg, N.J., to points in Rockland, Orange, Ulster, Sullivan, and Delaware Counties, N.Y.; and (4) *Returned shipments* of the above-specified commodities from the above-specified destination points to their respective origin points.

NOTE: The purpose of this republication is to show the correct location of the hearing room, erroneously shown in previous publication as the Governor Clinton Hotel.

HEARING: Remains as assigned December 6, 1960, at the U.S. Army Reserve Building, 30 West 44th Street, New York, N.Y., before Examiner Michael B. Driscoll.

No. MC 119310 (Sub No. 1), filed August 22, 1960. Applicant: ROBERT A. MILNE, doing business as MILNE TOW SERVICE, 54—6th Street, Sparks, Nev. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wrecked and/or disabled automobiles, trucks, tractors, semi-trailers, full trailers* and *house trailers*, in wrecker type tow trucks, in truckaway service, between points in Nevada and California on and north of U.S. Highway 6.

HEARING: February 3, 1961, at the Nevada Public Service Commission, Room 204, State Office Building, East Musser Street, Carson City, Nev., before Joint Board No. 78, or, if the Joint Board waives its right to participate, before Examiner Leo A. Riegel.

No. MC 119579 (Sub No. 2), filed November 18, 1960. Applicant: J. J. TAYLOR, INCORPORATED, 2028 Jefferson Davis Highway, Arlington, Va. Applicant's attorney: Francis J. Ortman, 1366 National Press Building, Washington 4, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Brick*, from points in Prince William County, Va., to points in Pennsylvania, Delaware, New Jersey, New York, and West Virginia, and *empty containers or other such incidental facilities* (not specified) used in transporting the above-described commodities, on return.

HEARING: January 12, 1961, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Warren C. White.

No. MC 119632 (Sub No. 6), filed September 12, 1960. Applicant: REED LINES, INC., 210 North Clinton Street, Defiance, Ohio. Applicant's attorney: John P. McMahon, 44 East Broad Street, Columbus 15, Ohio. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Glass containers, caps*, and *enclosures therefor*, and *corrugated boxes* (knocked down) when transported therewith, from Vienna, W. Va. (a) to points in Indiana on and north of a line commencing at the Ohio-Indiana State line, and extending along U.S. Highway 40 to Indianapolis, Ind., thence along U.S. Highway 136 from Indianapolis to the Indiana-Illinois State line, (b) to points in Illinois on and north of U.S. Highway 136, and (c) to points in Michigan on and south of Michigan Highway 55, and (2) *pallets and other devices* used in connection with the outbound transportation; from the destination territories described in (a), (b), and (c) above, to Vienna, W. Va.

HEARING: February 1, 1961, at the New Post Office Building, Columbus, Ohio, before Examiner J. Thomas Schneider.

No. MC 119641 (Sub No. 20), filed September 22, 1960. Applicant: RINGLE EXPRESS, INC., 405 South Grant Avenue, Fowler, Ind. Applicant's attorney: Robert C. Smith, 512 Illinois Building, Indianapolis 4, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Concrete slabs, building or roofing* made with magnesite, *cement*, and *wood fiber, with accessories* not to exceed 10 percent of truckload minimum or actual weight, if greater, from Newark, Ohio, to points in Michigan, Indiana, Illinois, Iowa, Kentucky, Tennessee, Wisconsin, New York, Pennsylvania, New Jersey, Maryland, and West Virginia, and *damaged or rejected shipments* of above-described commodities, on return.

HEARING: January 30, 1961, at the New Post Office Building, Columbus, Ohio, before Examiner J. Thomas Schneider.

No. MC 119641 (Sub No. 22), filed June 20, 1960. Applicant: RINGLE EXPRESS, INC., 405 South Grant Avenue, Fowler, Ind. Applicant's attorney: Robert C. Smith, 512 Illinois Building, Indianapolis 4, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fiberboard, wallboard, hardboard, mouldings* and *fasteners*, from Laurel, Miss., to points in Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, New York, Ohio, Pennsylvania, and Wisconsin, and *damaged or rejected shipments*, on return.

HEARING: February 10, 1961, at the Pick-Congress Hotel, Chicago, Ill., before Examiner J. Thomas Schneider.

No. MC 123083, filed September 1, 1960. Applicant: AIRWAY AUTO ASSOCIATES, INC., 1029 First Avenue North, St. Petersburg, Fla. Applicant's attorney: W. K. Zewadski, First Federal Building, St. Petersburg, Fla. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used automobiles, trucks* and *motor vehicles*, by drive-a-way methods, between points in Florida and all states in the United States east of the Mississippi River, namely Maine, Vermont, New Hampshire, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Ohio, Indiana, Illinois, Michigan, Wisconsin, Kentucky, Virginia, West Virginia, Maryland, Delaware, North Carolina, South Carolina, Tennessee, Mississippi, Alabama, and Georgia, including the Ports of Entry between the United States and Canada, in Michigan, New York, Vermont, and Maine.

HEARING: February 13, 1961, at the U.S. Court Rooms, Tampa, Fla., before Examiner Garland E. Taylor.

No. MC 123102, filed September 29, 1960. Applicant: BOARDMAN HILL, doing business as HILL LINE, 4028½ Shirley Avenue, El Monte, Calif. Applicant's attorney: Donald Murchison, 211 South Beverly Drive, Beverly Hills, Calif. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Wood shingles*, from Amanda Park, Wash., to points in Los Angeles, Riverside and Alameda Counties, Calif., and (2) *wax and wax products* from Glendale, Calif., to Fort Lewis, Bremerton, Sand Point, and Seattle, Wash.

HEARING: January 17, 1961, at the Interstate Commerce Commission Hearing Room, 410 Southwest 10th Avenue, Portland, Oreg., before Joint Board No. 5, or, if the Joint Board waives its right to participate, before Examiner Leo A. Riegel.

No. MC 123115, filed October 6, 1960. Applicant: BEN PACKER, doing business as PACKER TRANSPORTATION CO., 465 South 17th Street, Sparks, Nev. Applicant's attorneys: Royal A. Stewart *and* Richard W. Horton, 6 State Street, Reno, Nev. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, finished and unfinished; *timber*, rough or surfaced; *wooden moulding, shelving, jams and casings; box shook; wooden columns; wooden doors; doors and frames combined; door sills, flooring; door or window frames; mouldings; boards or sheets* (flat) *consisting of sawdust or ground wood with added resin binder; wooden fence pickets; props or timbers; wooden piling; poles; wooden posts; wooden rafters; wooden roof trusses; wooden shingles; railroad ties; veneer, wood buildup or combined with plywood;* and *wooden pallets;* (a) from points in Washoe and Douglas Counties, Nev., to points in California; (b) from points in California to points in Washoe County, Nev.; and (c) from points in Washoe County, Nev., to points in Nevada, including points in Washoe County, Nev.

HEARING: January 30, 1961, at the Nevada Public Service Commission, Room 204, State Office Building, East Musser Street, Carson City, Nev., before Joint Board No. 78, or, if the Joint Board waives its right to participate, before Examiner Leo A. Riegel.

No. MC 132122, filed October 11, 1960. Applicant: J. J. GENTRY, 2634 Highway 99 South, Grants Pass, Oreg. Applicant's attorney: Glenn D. Ramirez, Suite 205, I.O.O.F. Building, 432 Main Street, Klamath Falls, Oreg. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer;* from

Stege and Riverbank, Calif., to points in Jackson, Josephine and Douglas Counties, Oreg., and *lumber* and *plywood*, on return.

NOTE: (1) Applicant states that the loads of fertilizer will be delivered direct to farm sites as a service to farmers. (2) Applicant presently holds common carrier authority in MC–115399 and Sub No. 1 thereunder, therefore, dual operations may be involved.

HEARING: January 20, 1961, at the Interstate Commerce Commission Hearing Room, 410 Southwest 10th Avenue, Portland, Oreg., before Joint Board No. 11, or, if the Joint Board waives its right to participate, before Examiner Leo A. Riegel.

No. MC 123145, filed October 17, 1960. Applicant: BARDAHL OF SO. CALIFORNIA, INC., 7565 Melrose Avenue, Los Angeles, Calif. Applicant's attorney: Donald Murchison, 211 South Beverly Drive, Beverly Hills, Calif. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Tile and tile adhesives*, from Paramount, Calif., to Salem and Eugene, Oreg., and Seattle, Wash.

HEARING: January 18, 1961, at the Interstate Commerce Commission Hearing Room, 410 Southwest 10th Avenue, Portland, Oreg., before Joint Board No. 5, or, if the Joint Board waives its right to participate, before Examiner Leo A. Riegel.

No. MC 123215, filed November 14, 1960. Applicant: HELEN H. SCHAEFFER AND EDWARD P. SCHAEFFER, a partnership, 502 East Madison Street, Phoenix, Ariz. Applicant's attorney: George A. Olsen, 69 Tonnele Avenue, Jersey City 6, N.J. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Greeting cards* and *sample albums containing cards*, from Boston, Springfield, Leominster and Webster, Mass., Nashau, N.H., New York, White Plains, Elmira, and Brooklyn, N.Y., North Bennington, Vt., Cicero, Ill., Pittsburgh and Philadelphia, Pa., and Cincinnati, Ohio, to Pasadena, El Cerino, Los Angeles, and San Francisco, Calif.

NOTE: Applicant indicates it will transport exempt farm products, on return.

HEARING: January 19, 1961, at the Federal Building, Los Angeles, Calif., before Examiner F. Roy Linn.

No. MC 123216, filed November 15, 1960. Applicant: JAMES T. DAVIS, INC., 1225 Main Street, Lynchburg, Va. Applicant's attorney: Wilbert G. Burnette, 1017 Church Street, Lynchburg, Va. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Paint, paint sundries*, and *all types of raw materials used in the manufacture of paint*, between Lynchburg, Va., and points in Ohio, West Virginia, North Carolina, South Carolina, Maryland, Pennsylvania, New Jersey, New York, Delaware, Tennessee, and the District of Columbia.

NOTE: Applicant states that the application involves authority to transport property of Specification Paints Manufactures, Inc., a company almost entirely owned by Davis.

HEARING: February 2, 1961, at the U.S. Court Rooms, Richmond, Va., before Examiner Garland E. Taylor.

MOTOR CARRIERS OF PASSENGERS

No. MC 123126, filed October 12, 1960. Applicant: GURNIE L. BLUNT, doing business as BLUNT'S BUS LINE, 309 Roosevelt Street, Franklin, Va. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in charter operations, beginning and ending at points in Greenville, Nansemond, Sussex, Isle of Wight, and Southampton Counties, Va., and extending to points in Maryland and North Carolina, and Washington, D.C., Philadelphia, Pa., and New York, N.Y.

HEARING: January 31, 1961, at the U.S. Court Rooms, Richmond, Va., before Examiner Garland E. Taylor.

No. MC 123144, filed October 17, 1960. Applicant: BORDERLAND TRANSPORTATION CO., a corporation, Route 1, Box 74, Brawley, Calif. Applicant's attorney: Lewis A. Plourd, 1005 State Street, El Centro, Calif. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Passengers* (including transportation of baggage of passengers in the same vehicle with passengers), between points in Texas, Oklahoma, Arizona, New Mexico, Kansas, and California.

HEARING: January 17, 1961, at the Federal Building, Los Angeles, Calif., before Examiner F. Roy Linn.

No. MC 123178, filed October 31, 1960. Applicant: LAWRENCE C. JENSEN, doing business as JENSEN TRANSPORTATION, 155 South First Avenue, St. Helens, Oreg. Applicant's attorney: Wm. P. Ellis, 1121 Equitable Building, Portland, Oreg. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers, in special operations, between points in Columbia County, Oreg., and points in Washington.

HEARING: January 19, 1961, at the Interstate Commerce Commission Hearing Room, 410 Southwest 10th Avenue, Portland, Oreg., before Joint Board No. 45, or, if the Joint Board waives its right to participate, before Examiner Leo A. Riegel.

APPLICATIONS IN WHICH HANDLING WITHOUT ORAL HEARING IS REQUESTED

MOTOR CARRIERS OF PROPERTY

No. MC 8964 (Sub No. 16), filed November 23, 1960. Applicant: WITTE TRANSPORTATION COMPANY, a corporation, 2481 North Cleveland Avenue, St. Paul, Minn. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities, including Classes A and B explosives*, but excluding those of unusual value, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment; between Minneapolis, Minn., and Cannon Falls, Minn., from Minneapolis over Minnesota Highway 55 to junction with U.S. Highway 52, thence over U.S. Highway 52 to Cannon Falls, and return over the same route, serving the intermediate points of Pine Bend and Coates, Minn.

No. MC 10297 (Sub No. 7), filed November 25, 1960. Applicant: CAPITOL MOTOR TRANSPORTATION COMPANY, INC., 296 Main Street, Everett, Mass. Applicant's representative: Bert Collins, 140 Cedar Street, New York 6, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wallboard, building board, insulation board, fibreboard, pulpboard, strawboard, rolls prepared roofing;* from the plant site of U.S. Gypsum Co. at Lisbon Falls, Maine, to points in Ohio, Indiana, Illinois, Michigan, and Wisconsin, and *empty containers or other such incidental facilities*, used in transporting the above-described commodities, on return.

No. MC 41849 (Sub No. 8), filed November 21, 1960. Applicant: KEIGHTLEY BROS., INC., 1616 South 39th Street, St. Louis, Mo. Applicant's attorney: Ernest A. Brooks, II, 1301 Ambassador Building, St. Louis 1, Mo. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt*, in dump vehicles, from St. Louis, Mo., to points in Illinois within 150 miles of St. Louis, Mo.

NOTE: Applicant presently has authority to transport the above commodity from St. Louis, Mo., to points in Illinois within 100 miles of St. Louis, and by this application, seeks only to enlarge the territorial authority in Illinois from 100 miles of St. Louis to 150 miles of St. Louis, Mo.

No. MC 52579 (Sub No. 33), filed October 13, 1960. Applicant: GILBERT CARRIER CORP., 645 West 40th Street, New York 16, N.Y. Applicant's attorney: Irving Klein, 280 Broadway, New York 7, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Garments and wearing apparel on hangers*, and *hangers*, between New York, N.Y., on the one hand, and, on the other, Atlanta, Ga., and Miami, Fla. RESTRICTION: The authority herein sought shall be limited to the transportation of traffic which has moved or will move between New York, N.Y., and Atlanta, Ga., and Miami, Fla., in carrier's trailers rail cars in substituted rail for motor service.

NOTE: Duplication with present authority to be eliminated.

No. MC 66562 (Sub No. 1752), filed November 25, 1960. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED; Principal Office: 219 East 42d Street, New York 17, N.Y.; Local Office: 275 East Fourth Street, St. Paul 1, Minn. Applicant's attorney: William H. Marx, General Attorney, Railway Express Agency, Incorporated (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, moving in express service, between Breckenridge, Minn. and Fergus Falls, Minn.: from Breckenridge over Minnesota Highway 210 to Fergus Falls, and return over the same

route, serving the intermediate point of Foxholm. RESTRICTIONS: The service to be performed by applicant shall be limited to service which is auxiliary to or supplemental of air or rail express service of applicant. Shipments transported by applicant shall be limited to those moving on a through bill of lading or express receipt.

No. MC 68183 (Sub No. 14), filed November 21, 1960. Applicant: YANKEE LINES, INC., 1400 East Archwood Avenue, Akron 6, Ohio. Applicant's representative: W. R. Hubbard, 1032 Standard Building, Cleveland 13, Ohio. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, (1) between Akron, Ohio, and Atwater Center, Ohio, from Akron over U.S. Highway 224 to Atwater Center, and (2) between Poland, Ohio, and New Castle, Pa., from Poland over U.S. Highway 224 to New Castle and return over the same route as alternate routes for operating convenience only, serving no intermediate or off-route points in connection with applicant's presently authorized regular route operation between Akron, Ohio, and New Castle, Pa.
